## FACILITIES FOR INTERSTATE ACCESS

5. SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.9 Special Access Surcharge (Cont'd)

In order for the Telephone Company to determine the application of the surcharge with respect to specific services, the customer must report the intended use of all services when placing ASRs for Special Access Service. In addition, when ordering High Capacity Analog or Digital services, the customer must report the use for each voice equivalent circuit of the high capacity service. When any circuit is reported wholly used in any manner described in (1) through (6) preceding, the surcharge will not apply. If the intended use is not reported, the surcharge will apply.

If, at any time after the installation of a service which is subject to the surcharge, the customer reports that the service is being used consistently with any exception listed above, the Telephone Company will credit the customer for the surcharge. Credit will not be given beyond the receipt date of the certification for exemption.

5.6.10 (Reserved for Future Use)5.6.11 DS3 High Capacity Service(A) DS3 Rate Structure

A DS3 (44.736Mbps) High Capacity SAL, whether an Individual, 3-System# or Unlimited System#, may be purchased with or without electronics. When a SAL is ordered with electronics the Telephone Company will place electronics at both the CDL and the serving wire center. When a SAL is ordered without electronics the Telephone Company will only place electronics at the serving wire center and not at the CDL. Effective May 18<sup>th</sup> 2002 when a DS3 SAL is ordered without electronics the interface must be optical unless an Additional SAL is added to an existing System with an electrical interface. When ordered with electronics the interface may be electrical or optical. (T)  
(T)

DS3 SALs are non-distance sensitive and are provided on a protected basis.

Individual System

An Individual System is a single DS3 between a CDL and the serving wire center. The appropriate NRC is applied per SAL.

# Service availability limited. Refer to # footnote on Page 5-74.

5.6 Rate Regulations (Cont'd)

5.6.11 DS3 High Capacity Service (Cont'd)

(A) DS3 Rate Structure (Cont'd)

3-System#

(T)

The 3-System allows the same customer, between the same CDL and the serving wire center, to order additional DS3 SALs, up to a maximum of two. Additional SALs may only be added with the same interface, electrical or optical, and with Telephone Company electronics or without Telephone Company electronics as the First System. The appropriate NRC is applied per SAL.

Unlimited System#

5 SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.11 DS3 High Capacity Service (Cont'd)(A) DS3 Rate Structure (Cont'd)

A DS3 Non-Competitive End User SAL provides a spare transmission path (transmit and receive) connected to an automatic protection switch. In the event of failure in the primary service, traffic will be automatically transferred to the spare transmission facilities. The spare transmission path will normally be provided on the same route as the primary path. When a customer orders a DS3 SAL, the customer may request that the spare transmission path be provided via an alternate route provisioned as the Telephone Company may elect. If common points for the primary and alternate route become necessary, these points will be identified by the Telephone Company and provided to the ordering customer. Should the routing arrangement require special routing requirements specified by the customer, other rates and regulations as set forth in Section 9 or Section 10 may be applicable.

(D)  
(D)

When a customer requests the disconnect of a DS3 service in the 3 System DS3 or Unlimited System DS3, an Additional System DS3 SAL must be disconnected first. When only the First DS3 service exists, that service will be disconnected.

Any costs associated with Special Construction as set forth in Section 3.1.3 preceding may apply.

DS3 Special Transport is detariffed.

5 SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.11 DS3 High Capacity Service (Cont'd)(B) Minimum Service Periods#

Individual DS3s are offered under a 1-year minimum service period. Prior to December 1, 2020, Individual DS3s and System DS3s were offered under four minimum service periods, each with different rate levels. The minimum service periods were 1, 3, 5 and 7 years. First and Additional DS3 SALs (3 System DS3s and Unlimited System DS3s) can have a different minimum service period. However, subject to Section 1.1 preceding, each DS3 SAL of a two-point DS3 service must have the same minimum service period.

(C)

(C)

(D)

(D)

Although a minimum service period may include a circuit that is provided only in part under this tariff, the Telephone Company manages each minimum service period for a circuit as a single commitment period.

(C) Expiration of Service Period

Upon expiration of a service commitment period:

- For Individual DS3s under a 1-year minimum service period, a new DS3 minimum service period will begin based on the previously effective service period.
- For Individual Systems DS3s under a 3-, 5- or 7-year minimum service period, billing will be converted to service provided under a 1-year minimum service period.
- For 3-System and Unlimited System DS3s, billing will be converted to Individual System(s) provided under a 1-year minimum service period, and new DS3 minimum service period(s) will begin. Nonrecurring charges will not apply for this conversion.

(C)

All terms and conditions, including Subsequent Termination Liabilities, will apply to the new DS3 period.

# Effective May 30, 2019, orders for new DS3s with 5- or 7-year minimum service periods are no longer permitted. - The Telephone Company will continue to provide Existing 5- and 7-year DS3s until (i) the customer discontinues its 5-year or 7-year DS3; or (ii) the current service commitment period expires, whichever comes first.
- Renewals of Existing 5-year and 7-year DS3s are not permitted.
- Moves and changes are permitted provided that they do not require a new minimum service period.

Effective December 1, 2020, orders for new Individual DS3s with 3-year minimum service periods and new System DS3s with 1- or 3-year minimum service periods are no longer permitted. Subject to Section 1.1 preceding, the Telephone Company will continue to provide such DS3s pursuant to this Section 5.6.11 on any such existing DS3s that were in-service as of December 1, 2020, or any order for such DS3 that was placed with the Telephone Company prior to December 1, 2020 (Existing 3-year Individual DS3s and 1- or 3-year System DS3s), subject to the following conditions:

- The Telephone Company will continue to provide Existing 3-year Individual DS3s and 1- or 3-year System DS3s until (i) the customer discontinues its Existing 3-year Individual DS3s and 1- or 3-year System DS3s; or (ii) the current service commitment period expires, whichever comes first.

(A) Description

One-, Two-, Three-, Five-Year DS1 Term Volume Plans (TVP)

The DS1 Term Volume Plan (TVP) allows customers discounts, which are applied to DS1 SALs based upon a volume and term commitment. The TVP was offered for a 1, 2, or 3-, or 5-year term commitment period. Subject to Section 1.1 preceding, the Telephone Company manages a TVP as a single plan and applies tariffed and detariffed rates, terms and conditions as applicable. An annual review includes all of the TVP services included in that TVP. (C)

For DS1 TVPs established prior to July 16, 2016, the customer's DS1 SAL commitment level was established on a nationwide basis or negotiated between the customer and the Telephone Company (i.e., state basis, regional basis, etc.). All of the customer's TVP DS1 SALs will be billed at the same rate, based upon the state where the service is located, the length of the term selected by the customer, and the threshold level in which the commitment quantity falls.

For DS1 TVPs established on or after July 16, 2016, the customer must designate which of its ACNA(s) it wishes to include in its TVP. All of the customer's TVP DS1 SALs for the ACNAs designated to be included in the TVP will be billed at the same rate, based upon the state where the service is located, the length of the term selected by the customer, and the threshold level in which the commitment quantity falls.

All other associated rate elements or additional features are available at the applicable tariffed rates and regulations.

- The Telephone Company will continue to provide Existing 5-year TVPs and ETTVPs until (i) the customer discontinues its 5-year TVP and ETTVP; or (ii) the current commitment period expires, whichever comes first.
- Renewal of an Existing 5-year TVP and ETTVPs are not permitted.

 (G) Annual Review

One-, Two-, Three-, Five-Year DS1 Term Volume Plans (TVP)

Each customer's TVP will be reviewed annually. The customer will be notified in writing as to the status of the TVP. If the applicable in-service DS1 SAL quantity (including any DS1 SALs that were replaced by a Replacing Service using the methodology for a Technology Migration specified in Section 2.10.2 preceding) falls below the commitment quantity, an allowance of 3% will be considered as having met the commitment quantity. Where the customer does not meet the minimum quantity of DS1 SALs in service, penalties will be assessed as set forth under 5.6.14(l).

If the number of DS1 SALs increase from the initial commitment, the customer will have the option of increasing the commitment level for the remainder of their TVP. If the customer chooses not to increase the commitment level, he/she may convert the increased number of DS1 SALs to a monthly plan for an ACNA not already included in TVP. (D)

The customer may decrease the commitment level at the time of the annual review and pay the applicable penalties for the amount of DS1 SALs being decreased. Penalties will apply as set forth in 5.6.14(l).

The customer will have 30 days from receipt of notification to convert DS1 SALs. If the customer does not take action during the 30 day period: The commitment level will be automatically changed to the number of TVP DS1 SALs in effect at the annual review.

Eight- and Ten-Year DS1 Term Volume Plan (ETTVP)

Each customer's ETTVP will be reviewed annually. The customer will be notified in writing as to the status of the ETTVP. If the applicable in-service DS1 SAL quantity (including any DS1 SALs that were replaced by a Replacing Service using the methodology for a Technology Migration specified in Section 2.10.2 preceding) falls below the commitment quantity penalties will be assessed as set forth under 5.6.14 (l).

For ETTVPs established prior to July 16, 2016, during the annual review the commitment level will be reset to 90% of existing in-service SALs and cannot fall below the initial 90% commitment quantity at time of enrollment. For ETTVPs established on or after July 16, 2016, during the annual review the commitment level will be reset to 90% of existing in-service SALs for the ACNAs designated for inclusion in ETTVP and cannot fall below the initial 90% commitment quantity at time of enrollment.

## FACILITIES FOR INTERSTATE ACCESS

5 SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.19 DS3 Term Volume Plan#(A) Description

- (1) Subject to Section 1.1 preceding, the Telephone Company manages a DS3 Term Volume Plan (**DS3 TVP**) as a single plan and applies tariffed and detariffed rates, terms and conditions as applicable. An annual review includes all of the DS3 TVP services included in that DS3 TVP.

The DS3 TVP provides a customer with discounted monthly recurring rates for DS3 Special Access Line (**SAL**) rate elements based upon a term commitment and a committed number of DS3 SALs (**DS3 Commitment Quantity**). The DS3 Commitment Quantity represents the total number of DS3 SALs that the customer commits to the DS3 TVP, regardless of the total number of DS3 SALs that the customer currently has in-service in the operating territories of this tariff. Only one DS3 Commitment Quantity is allowed for the DS3 TVP. For DS3 TVPs established prior to July 16, 2016, the DS3 Commitment Quantity (along with the Term Commitment as defined in (A)(2) following) determines the Commitment Level and corresponding rates applicable to the DS3 SALs included in the TVP. For DS3 TVPs established on or after July 16, 2016, the DS3 Commitment Quantity for the customer's ACNAs designated for inclusion in the DS3 TVP (along with the Term Commitment as defined in (A)(2) following) determines the Commitment Level and corresponding rates applicable to the DS3 SALs included in the TVP. Commitment Levels are described in (C) following (**Commitment Level**).

- (2) The DS3 TVP was offered for a 3 or 5 year term commitment period (**Term Commitment**). For DS3 TVPs established prior to July 16, 2016, upon subscription to the DS3 TVP, all of the customer's DS3s that are eligible for inclusion in the DS3 TVP (whether or not such DS3s are actually included in the Commitment Level) will be billed at the applicable DS3 TVP rate level. For DS3 TVPs established on or after July 16, 2016, upon subscription to the DS3 TVP, all of the customer's DS3s that are eligible for inclusion in the DS3 TVP (whether or not such DS3s are actually included in the Commitment Level) in the ACNAs designated for inclusion in the DS3 TVP will be billed at the applicable DS3 TVP rate level. The applicable DS3 TVP rate level corresponds to the length of the Term Commitment selected by the customer and a Commitment Level as determined by the DS3 Commitment Quantity. For example, if a customer commits 51 DS3 circuits to a 3 year Term Commitment under this DS3 TVP, but has a total of 150 DS3 circuits in-service, the customer will receive a rate corresponding to a Term Commitment of 3 years for a Commitment Level of 50-149 DS3 circuits for all 150 DS3 circuits.

# Effective May 30, 2019, subscriptions to new 5-Year DS3 TVPs are no longer permitted. Subject to Section 1.1 preceding, the Telephone Company will continue to provide 5-Year DS3 TVPs pursuant to this Section 5.6.19 on any existing 5-Year DS3 TVP that was in-service as of May 30, 2019 (Existing 5-Year DS3 TVPs), subject to the following conditions:

- The Telephone Company will continue to provide Existing 5-Year DS3 TVPs for the selected commitment period until (i) the customer discontinues service; or (ii) the current commitment period expires, whichever comes first.
- Renewal of an Existing 5-Year DS3 TVP is not permitted.

Effective December 1, 2020, subscriptions to new 3-Year DS3 TVPs are no longer permitted. Subject to Section 1.1 preceding, the Telephone Company will continue to provide 3-Year DS3 TVPs pursuant to this Section 5.6.19 on any existing 3-Year DS3 TVP that was in-service as of December 1, 2020 or any order for 3-Year DS3 TVPs placed with the Telephone Company prior to December 1, 2020 (collectively, Existing 3-Year DS3 TVPs), subject to the following conditions:
