ACCESS SERVICE

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Access Minutes - Denotes usage of exchange facilities in interstate service for the purpose of calculating chargeable minutes of use.

Access Service or Switched Access Service - Access to the switched network of an Exchange Carrier for the purposes of originating or terminating communications. Access Service is available to carriers as defined herein.

Access Service Request (ASR) - The Industry service order format used by Access Service Customer and access providers as agreed to by the ATIS/Ordering & Billing Forum.

Access Tandem - a Company switching system that provides a distribution function for Access Service traffic between Carriers.

(T)
(T)

Account - The Customer who has agreed, verbally or by signature, to honor the terms of service established by the Company. An account may have more than one access code and/or operating company number (OCN) and/or carrier identification code (CIC) billed to the same Customer address.

Answer Supervision - The transmission of the switch trunk equipment supervisory signal (off-hook or on-hook) to the Customer's point of termination as an indication that the called party has answered or disconnected.

Authorized User - A person, firm, corporation or other entity that either is authorized by the Customer to use Access Services or is placed in a position by the Customer, either through acts or omissions, to use Access Services.

Call - A Customer attempt for which the complete address code is provided to the called end office.

Carrier or Common Carrier - Provider of telecommunications services for hire. See also See Interexchange Carrier or Exchange Carrier.

Carrier Access Code - A uniform seven (7) digit code assigned to an individual carrier. The seven (7) digit code has the form 950-xxxx or 101-xxxx.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D.)

Central Office or End Office - a Carrier local switching system, wireless or wireline, where Customer traffic is switched for purposes of interconnection to End User(s). (T)
(T)

Channel(s) - An electrical or, in the case of fiber optic-based transmission systems, a photonic communications path between two or more points of termination.

Commercial Mobile Radio Service (CMRS) - A wireless provider of telecommunications services.

Common Channel Signaling (CCS) - A high speed packet switched communications network which is separate (out of band) from the public packet switched and message networks. It is used to carry addressed signaling messages for individual trunk circuits and/or database related services between signaling points in the CCS network.

Communications System - Denotes channels and other facilities which are capable of communications between terminal equipment provided by an entity other than the Company.

Collocation - Carrier facilities and/or equipment located in a local exchange carrier's central office.

Commission - The Federal Communications Commission or the Public Utility Commission of the State in which service is offered.

Company - Teliax Colorado, LLC, unless otherwise indicated by the context.

Constructive Order - Delivery of calls to or acceptance of calls from the Company's end user locations over Company-switched local exchange services constitutes a Constructive Order by the Customer to purchase access services as described herein. Similarly the selection by a Company's end user of the Customer as the presubscribed IXC constitutes a Constructive Order of switched access by the Customer.

Conventional Signaling - The inter-machine signaling system has been traditionally used in North America for the purpose of transmitting the called number's address digits from the originating Local Switching Center which terminates the call. In this system, all of the dialed digits are received by the originating switching machine, a path is selected, and the sequence of supervisory signals and out pulsed digits is initiated. No overlap out pulsing ten digit ANI, ANI information digits, or acknowledgment link are included in this signaling sequence.

Customer - The person, firm, corporation or other entity which orders the Company's service or receives the Company's service, including but not limited to an Interexchange Carrier, End User, other telecommunications carrier, or provider originating or terminating Toll VoIP-PSTN traffic.

Customer Agreement - The mutual agreement between the Company and the Customer for the provision of the Company's service.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D.)

Customer-Designated Premises - The premises specified by the Customer for the origination or termination of Access Services.

Customer Point of Presence (POP) - The physical location associated with the Customer's communication system.

Dedicated Access or Dedicated Transport - A method for a Customer to directly connect two locations of their choice with the dedicated (non-switched) services.

Digital Cross Connect System (DCS) - A digital system within a communications network with centralized switching and cross connection.

Digital Signal Level 0 (DS0) - A dedicated, full duplex digital channel with line speeds of 2.4, 4.8, 9.6, 19.2, 56 or 64 Kbps.

Digital Signal Level 1 (DS1) - A dedicated, high capacity, full duplex channel with a line speed of 1.544 Mbps isochronous serial data having a line signal format of either Alternate Mark Inversion (AMI) or Bipolar with 8 Zero Substitution (B8ZS) and either Superframe (D4) or Extended Superframe (ESF) formats. DS1 Service has the equivalent capacity of 24 Voice Grade or DS0 services.

Digital Signal Level 3 (DS3) - A dedicated, high capacity, full duplex channel with a line speed of 44.736 Mbps isochronous serial data having a line code of bipolar with three zero substitution (B3ZS). Equivalent capacity of 28 DS1 Services.

Duplex Service - Service which provides for simultaneous transmission in both directions.

End User - The term "End User" denotes any customer of an interstate telecommunications service that is not a carrier, except that a carrier shall be deemed to be an "end user" to the extent that such carrier uses a telecommunications service for administrative purposes, without making such service available to others, directly or indirectly.

(T)
|
|
(T)

Entry Switch - The first point of switching.

Exchange - A group of lines in a unit generally smaller than a LATA established by the Company for the administration of communications services in a specified area. An Exchange may consist of one or more central offices together with the associated facilities used in furnishing communications services within that area.

Exchange Carrier - Any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged in the provision of local exchange telephone service.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D.)

Facilities - Denotes any cable, poles, conduit, carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide the services offered under this tariff.

Feature Group D – Access service which provides trunk side access to Company switches through the use of end office or access tandem switch trunk equipment. Feature Group D service may be arranged for 10XXXX dialing or equal access without using a dial code.

Federal Communications Commission - FCC

Fiber Optic Cable - A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Firm Order Confirmation (FOC) - Acknowledgment by the Company of receipt of an Access Service Request from the Customer and commitment by the Company of a Service Date.

Holidays - New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day.

Hub - The Company office where Customer facilities are terminated for purposes of interconnection to Trunks and/or cross-connection to distant ends.

Hub POI -- A POI that is used for the purpose of exchanging traffic associated with more than one LATA. (N)

Interconnected Wholesale Provider - A company which sells, installs and maintains telephone systems for end users that interconnects its network to other telecommunication carrier's networks for the delivery of telecommunication services.

Individual Case Basis - A service arrangement in which the regulations, rates and charges are developed based on the specific circumstances of the Customer's situation.

Interexchange Carrier (IXC) or Interexchange Common Carrier - Any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged in state or foreign communication for hire by wire or radio, between two or more exchanges.

InterMTA (Major Trading Area) - For purposes of this tariff, InterMTA refers to telecommunications traffic exchanged between a LEC and a CMRS, PCS or Wireless provider that originates and terminates in different Major Trading Areas as used by the FCC to define coverage for certain services.

Internet Protocol (IP) – The method by which data is sent from one computer to another on the Internet.

Internet Protocol (IP) Signaling - A packet data-oriented protocol used for communicating call signaling information.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D.)

OC-12 - A high capacity channel for full duplex, synchronous, optic transmission of digital signals based on the SONET Standard at a rate of 622.08 Mbps.

OC-3 - A high capacity channel for full duplex, synchronous, optic transmission of digital signals based on the SONET Standard at a rate of 155.52 Mbps.

Off-Hook - The active condition of switched access or a telephone exchange service line.

Off-Net - A Customer is considered to be Off-Net when its point of presence is not served by the same Hub in which the Company's Local Switching Center, which is providing service to the Customer, is located.

On-Hook - The idle condition of switched access or a telephone exchange service line.

On-Net - A Customer is considered to be On-Net when its point of presence is served by the same Hub in which the Company's Local Switching Center, which is providing service to the Customer, is located.

Originating Direction - The use of Switched Access Service for the origination of calls from an end user or Customer premises to an IXC premises or to another Local Exchange Carrier or CMRS provider.

Out of Band Signaling - An exchange access signaling feature which allows a Customer to exchange call control and signaling information over a communications path which is separate from the message path.

Point of Presence (POP) - Location where the Customer maintains a facility for purposes of interconnecting to the Company's Network.

Point of Termination - The point of demarcation within a Customer-designated premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided facilities as described in Part 68 of the Federal Communications Commission's Rules and Regulations.

Point of Interconnection (POI) - An interconnection with the Company's network, by way of Entrance Facilities, for the purpose of exchanging traffic associated with a single LATA; while a Hub POI is a POI used for the purpose of exchanging traffic associated with more than one LATA. The POI denotes the first Company location to which customer facilities are connected by way of such Entrance Facilities.

(N)
|
|
(N)

Premises - The physical space designated by a Customer or Authorized User for the termination of the Company's service.

Presubscription - An arrangement whereby an end user may select and designate to the Company an Interexchange Carrier (IXC) or Carriers it wishes to access, without an Access Code, for completing toll calls. The selected IXC is referred to as the end user's Primary Interexchange Carrier (PIC). The end user may select any IXC that orders FGD Access Service at the Local Switching Center that serves the end user.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D.)

Recurring Charges - The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Service Commencement Date - The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance of service. The parties may mutually agree on a substitute Service Commencement Date. If the Company does not have an executed Service Order from a Customer, the Service Commencement Date will be the first date on which the service or facility was used by the Customer. For a Tandem Connect Customer, the Service Commencement Date will be the first date on which the service or facility was used by the Customer.

Service Order - The written request for Network Services executed by the Customer and the Company in a format devised by the Company; or, in the alternative, the submission of an Access Service Request by the Customer in the manner specified in this tariff.

Service(s) - The Company's telecommunications Access Services offered on the Company's Network.

(D)
(D)

Shared Facilities - A facility or equipment system or subsystem which can be used simultaneously by several Customers.

Signaling Point of Interface - The Customer designated location where the SS7 signaling information is exchanged between the Company and the Customer.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.5 Discontinuance and Restoration of Service

Service continues to be provided until canceled by the Customer, in writing, or until canceled by the Company as set forth below. The Company may render bills subsequent to the termination of service for charges incurred before termination.

2.5.1 Cancellation by the Customer

The Customer may have service discontinued upon written notice to the Company. The Company shall hold the Customer responsible for payment of all bills for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later. A termination liability charge applies to early cancellation of a term agreement.

2.5.2 Cancellation by the Company

- A. For Nonpayment: The Company, by five (5) days' written notice to the Customer and in accordance with applicable law, may discontinue service or cancel an application for service without incurring any liability when there is an unpaid balance for service that is more than 30 days overdue. This provision shall not apply to charges that a customer does not pay based on the submission of a good faith dispute pursuant to Section 2.10 following. (T)
(N)
|
(N)
- B. For Returned Checks: The Customer whose check or draft is returned unpaid for any reason, after two attempts at collection, shall be subject to discontinuance of service in the same manner as provided for nonpayment of overdue charges.
- C. The Customer shall be subject to discontinuance of service, without notice, for any violation of any law, rule, regulation or policy of any government authority having jurisdiction over service or of any of the provisions governing the furnishing of service under this tariff, or by reason of any order or decision of a court or other government authority having jurisdiction which prohibits the Company from furnishing such service.
- D. For the Company to comply with any order or request of any governmental authority having jurisdiction, the Customer shall be subject to discontinuance of service, without notice.
- E. If the Company discontinues service, it will no longer route any traffic that uses the customer's Carrier Identification Code (CIC), Local Routing Number (LRN), carrier owned NPA-NXX or any other element used to route traffic. In the case of such discontinuance, all applicable charges, including termination charges, if any, shall become due. If the Telephone Company does not discontinue the provision of the services involved on the date specified in the five (5) days' notice, and the customer's noncompliance continues, nothing contained herein shall preclude the Company's right to discontinue the provision of the services to the non-complying customer without further notice. (N)

ACCESS SERVICE

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.9 Billing and Payments, (Cont'd.)

2.9.6 The Company will establish a bill day each month for each Customer account. The bill will cover charges for the billing period for which the bill is rendered, plus any known unbilled charges and adjustments for any prior periods.

There are three types of rates and charges that apply to Access Service. These are monthly Recurring Charges, usage rates and Nonrecurring Charges.

A. Monthly Recurring Charges

Monthly Recurring Charges are flat rates for facilities that apply each month or fraction thereof that a specific rate element is provided. Monthly recurring rates for Dedicated Access Services will be assessed on a per minute equivalent basis pursuant to Section 3.3.1 when connections to the Company are via a Hub POI or Alternate Access Tandem.

(N)
|
|
(N)

B. Usage Rates

Usage rates are rates that are applied on a per unit of measure basis, such as per access minute or per query. Usage rates are accumulated over a monthly period.

C. Nonrecurring Charges

Nonrecurring Charges are one time charges that apply for a specific work activity (i.e., installation of new service or change to an existing service).

1. Installation of Service: Nonrecurring Charges apply to each Access Service installed. The charge is applied per line or Trunk.

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.10 Claims and Disputes

- 2.10.1 A good faith dispute requires the Customer to provide a written claim to the Company. Such claim must identify in detail the basis for the dispute, and if the Customer withholds disputed amounts, it must identify the account number under which the bill has been rendered, the date of the bill and the specific items on the bill being disputed, to permit the Company to investigate the merits of the dispute. (N)
- 2.10.2 Prior to or at the time of submitting a good faith dispute, Customer shall tender payment for any undisputed amounts.
- 2.10.3 The date of the dispute shall be the date on which the Customer furnishes the Company the account information required in 2.10.1 above.
- 2.10.4 The date of resolution shall be the date on which the Company completes its investigation of the dispute, notifies the Customer in writing of the disposition and, if the billing dispute is resolved in favor of the Customer, applies the credit for the amount of the dispute resolved in the Customer's favor to the Customer's bill. (N)
- 2.10.5 If the dispute is resolved in favor of the Customer and the Customer has withheld the disputed amount, no interest credits or penalties will apply. (T)
- 2.10.6 If the dispute is resolved in favor of the Customer and the Customer has paid the disputed amount, the Customer will receive an interest credit from the Company for the disputed amount times a late factor as set forth in Section 2.9 of this tariff. (T)
- 2.10.7 If the dispute is resolved in favor of the Company and the Customer has paid the disputed amount on or before the payment due date, no interest credit or penalties will apply. (T)
- 2.10.8 If the dispute is resolved in favor of the Company and the Customer has withheld the disputed amount, the Customer must, within five (5) business days following written, electronic or telephonic notice of the resolution, pay the disputed amount including the late penalty as set forth in Section 2.9 of this tariff. (T)

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D.)

(N)

3.3 Dedicated Access Services Charges

Dedicated Access Services include the functional equivalent of incumbent local exchange carrier Entrance Facility, Direct-Trunked Transport, Dedicated Multiplexing, and Dedicated Tandem Trunk Port. Rates for dedicated access services will be based on the rates associated with the relevant end office associated with the origination/termination of traffic rather than the physical location of the POI.

Entrance Facility is a transport facility that provides dedicated transport between the customer's Point of Termination and the Company's POI. The Entrance Facility rate is assessed whether the customer Point of Termination and the POI are in separate locations or in the same building. The Entrance Facility rate is in addition to the rates assessed for Direct Trunked Transport.

Direct-Trunked Transport (DTT) means dedicated transport from the POI(s) to the Access Tandem. Direct-Trunked Transport rates are not assessed when the POI and Access Tandem are in the same building.

Dedicated Multiplexing (DMUX) is required at Company tandem locations when the customer obtains dedicated services to the Company POI or Hub POI.

A Dedicated Tandem Trunk Port (DTTP) is provided for trunks terminated on the Customer side of the Access Tandem.

3.3.1 Application of Dedicated Access Services Charges When Connecting via Hub POI or Alternate Access Tandem

- A. When the Customer elects to exchange traffic with the Company via a Hub POI or Alternate Access Tandem, monthly recurring rates for dedicated services (Dedicated Tandem Trunk Port, Dedicated Multiplexing, Direct-Trunked Transport, and Entrance Facility) will be assessed on a minute-of-use equivalent (MOU-E) basis using the monthly recurring rates identified herein with a monthly usage factor of 216,000 MOU per DS1-equivalent circuit per month. These MOU-E rates apply irrespective of whether the dedicated services are supported by time division multiplexing (TDM) or session internet protocol (SIP) technology. Mileage-sensitive dedicated services rate components will be calculated using actual miles between 1) the Hub POI or the Alternate Access Tandem and 2) the Company Access Tandem, not to exceed 10 miles. MOU-E rates for dedicated services will be based on the rates associated with the relevant end office associated with the origination/termination of traffic rather than the physical location of the Hub POI. Hub POIs are offered on a non-discriminatory basis, subject to capacity constraints, network diversity requirements, and the availability of the necessary facilities and/or equipment. The Company and the Customer must agree in advance to a particular Hub POI arrangement and the LATAs with which traffic can be exchanged via such Hub POI arrangement.

(N)

Issued: April 23, 2021

Transmittal No. 7

Effective: May 8, 2021

ACCESS SERVICE

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D.)

(N)

3.3 Dedicated Access Services Charges, (Cont'd.)

3.3.1 Application of Dedicated Access Services Charges When Connecting via Hub POI or Alternate Access Tandem, (Cont'd.)

B. Dedicated Tandem Trunk Port MOU-E rates will be derived from the Company tariffed rate per DS1 port; Dedicated Multiplexing MOU-E rates will be derived from the Company tariffed rate per multiplexing arrangement (DS3/DS1 or equivalent); and Entrance Facility and Direct-Trunked Transport MOU-E rates will be derived from the Company tariffed rate per DS3.

C. Rate Application Example

MOU-E rates applicable to access minutes originating from, or terminating to, an End User in Miami, FL, that traverse a Company Access Tandem by way of a Hub POI or Alternate Access Tandem (SIP or TDM):

EF (MOU-E)	per DS3 Entrance Facility (4.1.5(A)(1)) divided by 28 (DS1s per DS3) divided by 216,000 (MOU per DS1 per month conversion)
DTT-fixed (MOU-E)	per DS3 DTT-fixed (4.1.5(A)(2)) divided by 28 (DS1s per DS3) divided by 216,000 (MOU per DS1 per month conversion)
DTT-per mile (MOU-E)	per DS3 DTT-per mile (4.1.5(A)(3)) divided by 28 (DS1s per DS3) divided by 216,000 (MOU per DS1 per month conversion) multiplied by applicable mileage
DMUX (MOU-E)	per multiplexing arrangement (4.1.5(A)(4)) divided by 28 (DS1s per DS3) divided by 216,000 (MOU per DS1 per month conversion)
DTTP (MOU-E)	per DS1 DTTP (4.1.5(A)(6)) divided by 216,000 (MOU per DS1 per month conversion)
