## ACCESS SERVICE

4. End User Access Service (Cont'd)4.6 Rate Regulations (Cont'd)4.6.1 End User Common Line, Access Recovery Charge and Presubscribed Interexchange Carrier Charges (Cont'd)

(O) [Reserved for Future Use].

(P) [Reserved for Future Use].

4.6.2 End User Port Charges

Certain local exchange services provided under the general and/or local exchange service tariffs are subject to End User Port Charges. These services include:

- Integrated Services Digital Network (ISDN) - Basic
- Integrated Services Digital Network (ISDN) - Primary
- FlexData digital PBX service
- Direct Inward Dialing (DID)

4.6.3 Federal Universal Service Fund (FUSF) Surcharge

The Federal Universal Service Fund (FUSF) Surcharge recovers the Telephone Company's contributions to the Universal Service Support Mechanisms. Customers may certify exemption from FUSF Surcharges at the ACNA level or at the BAN level. Certification at the ACNA level will exempt all BANs under that ACNA. Certification at the BAN level will exempt only the specified BANs. FUSF Surcharge exemption certification must be completed and submitted to the Telephone Company's customer service center.

(A) Application of FUSF Surcharge to End User Access Service Charges

Business Customers assessed an End User Common Line Charge and/or an Access Recovery Charge as specified in Section 4.6.1 preceding will be assessed a flat-rated, monthly FUSF Surcharge, as specified in Sections 31.4.17 through 31.4.24 following. FUSF Surcharges will be billed to the associated end user or reseller of the local exchange services, with the exception of those customers who participate in the Lifeline Assistance Program. (C)

Residential Customers assessed an End User Common Line Charge and/or an Access Recovery Charge as specified in Section 4.6.1 preceding will be assessed the FUSF by multiplying the FUSF Surcharge Factor set forth in Section 31.4.25, following, against the end user's billed interstate access services charges. (N)

## ACCESS SERVICE

6. Switched Access Service (Cont'd)6.1 General (Cont'd)6.1.1 Switched Access Service Arrangements and Manner of Provision (Cont'd)(C) 800 Data Base Access Service (Cont'd)(1) Call Handling and Destination Feature

The Call Handling and Destination Feature is available to 800 Data Base Access Service customers on an optional basis. There is no additional charge for this feature. This feature (C) allows for the customer to create call processing logic for 800-NXX-XXXX dialed calls. In this manner the 800 Data Base Access Service can be customized to meet individual requirements. The feature may be used in combination with one or more routing options based upon customer specification and technical switch limitations.

The customer may segment the 800 calls based on the following options to choose different terminating destinations and/or multiple carriers:

- Specific telephone number of the calling party
- Time of day
- Day of week
- Special days of the year (e.g., December 25)
- Percentage of traffic (in one percent increments)

The availability of Call Handling and Destination based on the specific telephone number of the calling party is subject to the Telephone Company's ability to obtain full 10-digit ANI of the calling party.

(2) 800 to POTS Translation Optional Feature

The 800 to POTS Translation Optional Feature allows customers to designate a 10 digit POTS telephone number to be translated from a specific 800 number to be delivered to the customer premises. If the POTS number translation feature is ordered, the customer will be unable to determine that such calls originated as 800 dialed calls unless the customer also orders the Automatic Number Identification (ANI) optional feature or BSE. There is no (C) additional charge for this feature. (C)

ACCESS SERVICE

6. Switched Access Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories

There are three rate categories which apply to Switched Access Service: Local Transport (described in 6.1.3(A) following); Local Switching (described in 6.1.3(B) following); and Common Line (described in Sections 3. and 4. Preceding).

Rates and charges for Switched Access Services are found in Sections 30 and 31 following. Section 30 contains rates and charges for services which are served from a wire center in a qualifying Metropolitan Statistical Service Area (MSA) which has achieved Phase II pricing relief as described in Section 15.2 following. Section 31 contains rates and charges for all other services.

In addition, other charges may apply as set forth following. An Equal Access Cost Recovery rate, as set forth in 31.16 following applies to Interexchange Carriers who obtain FGD or CST BSA - Option 3 Switched Access Service.
