(C)(X)

The following Enhanced Services are available on an optional basis and include the basic query service described above.

|  
 (C)(X)

(a) Call Handling and Destination Feature

(C)(X)

The Call Handling and Destination Feature is available to 800 Data Base Access Service customers on an optional basis. This feature allows for the customer to create call processing logic for 800-NXX-XXXX dialed calls. In this manner the 800 Data Base Access Service can be customized to meet individual requirements. The feature may be used in combination with one or more routing options based upon customer specification and technical switch limitations.

(C)(X)

The customer may segment the 800 calls based on the following options to choose different terminating destinations and/or multiple carriers:

- Specific telephone number of the calling party
- Time of day
- Day of week
- Special days of the year (e.g., December 25)
- Percentage of traffic (in one percent increments)

The availability of Call Handling and Destination based on the specific telephone number of the calling party is subject to the Telephone Company's ability to obtain full 10-digit ANI of the calling party.

(b) 800 to POTS Translation Optional Feature

(C)(X)

The 800 to POTS Translation Optional Feature allows customers to designate a 10 digit POTS telephone number to be translated from a specific 800 number to be delivered to the customer premises. If the POTS number translation feature is ordered, the customer will be unable to determine that such calls originated as 800 dialed calls unless the customer also orders the Automatic Number Identification (ANI) optional feature or BSE.
