ACCESS SERVICE

5. SWITCHED ACCESS SERVICE (Cont'd)

5.1 General (Cont'd)

5.1.1 Rate Categories and Descriptions

5.1.1.4 8YY Database Access Service: 8YY Data Base Access Service is provided with FGD Switched Access Service. When a 1+800 series+NXX-XXXX call is originated by an End User, the Company will utilize the Signaling System 7 (SS7) network to query a toll free database to perform the identification function. The call will then be routed to the identified End User over FGD switched access. The 800 series includes the following service area codes: 800, 888, 877, 866, 855, 844, 833, and 822. (T)

The manner in which 8YY Database Access Service is provided is dependent on the availability of SS7 service at the end office from which the service is provided as outlined following: (T)

When 8YY Database Access Service originates at an end office equipped with Service Switching Point (SSP) capability for querying centralized data bases or at a non-SSP equipped end office that can accommodate direct trunking of originating 800 service calls, all such service will be provisioned from that office. (T)

When 8YY Database Access Service originates at an end office not equipped with SSP End User identification capability, the 8YY services call will be delivered to the access tandem on which the end office is homed for 800 series service and which is equipped with SSP feature to query centralized databases. (T)

When 8YY Database Access Service originates at an end office equipped with SSP capability that is not capable of accommodating direct trunking of originating 800 series (other than the 800 service access codes) call will be delivered to the access tandem on which the end office is homed and which is equipped with the SSP feature to query centralized data bases. (T)

Query charges as set forth in following are in addition to those charges applicable for the Feature Group D switched access service. Charges for this service are provided in Section 7.2.3.

ACCESS SERVICE

5. SWITCHED ACCESS SERVICE (Cont'd)

5.1 General (Cont'd)

5.1.1 Rate Categories and Descriptions (Cont'd)

5.1.1.4 8YY Database Access Service (Cont'd)

(T)

The Commission has concluded that hoarding, defined as the acquisition of more toll free numbers that one intends to use for the provision of toll free service, as well as the sale of a toll free number by a private entity for a fee, is contrary to the public interest in the conservation of the scarce toll free number resource and contrary to the Commission's responsibility to promote ordinary use and allocation of toll free numbers.

ACCESS SERVICE

5. SWITCHED ACCESS SERVICE (Cont'd)5.3 Rate Regulations

This section contains a brief description and the general regulations governing the rates and charges that apply for Switched Access Service.

5.3.1 Description and Application of Rates

Switched Access Service rates are generally of two types; Recurring Charges and Nonrecurring Charges. Recurring Charges include usage-based rates that are measured and billed on a per-minute of use (MOU) basis. Examples include the per-MOU Switched Access charges that are included in this Tariff. Recurring Charges also include “flat” rates that are charged one time per month, regardless of usage. Nonrecurring Charges are one-time charges that apply for a specific work activity. Examples would include charges for technician charges for maintenance and repair.

Recurring Switched Access Service rates are further identified as non-toll free or toll free traffic (i.e., 8YY Access Service). Rates for non-toll free switched access service are provided in Section 7.2.2 and rates for toll free originating switched access service are provided in Section 7.2.3 following.

(N)
|
(N)

5.3.2 Contracts and Individual Case Basis (ICB) Rates

In lieu of the rates terms and/or conditions otherwise set forth in this Tariff, the Company's services may be established and provided at negotiated rates on an Individual Case Basis (ICB), taking into account any factors the Company deems necessary or appropriate, including the nature of the facilities and services involved, the costs of construction and operation, the volume of traffic, the length of service commitment and use of facilities. Such ICB arrangements will be established solely at the Company's discretion. ICB rates, terms, conditions, services, or charges will be made available to similarly situated Buyers on a non-discriminatory basis.

In addition to any rate or charge established by the Company, the Buyer will be responsible for any Recurring or Nonrecurring Charges imposed by local exchange telephone companies incurred by or on behalf of the Buyer in establishing and maintaining service. Such charges may be billed by the Company or directly by the local exchange telephone company, at the Company's option.

5.3.3 Pass-Through of Taxes and Regulatory Fees

The Company may, in its discretion and on a non-discriminatory basis, assess fees and surcharges, including, but not limited to state and federal taxes and regulatory fees.
