2.11 Types of Rates and Charges

This section contains information pertaining to the different types of rates and charges in this tariff.

2.11.1 Monthly Rates (MR)

Flat recurring rates that apply each month, or fraction thereof, that a service or specific rate element is provided. For billing purposes, each month is considered to have 30 days.

2.11.1.1 Optional Payment Plans (OPPs)##

(T)

(A) Description

An Optional Payment Plan (OPP) is a provision that allows a customer to select specific Special and Switched Access Services over a selected commitment period or term. Special Access DS3 (High Capacity 44.736 Mbps) Service is available with OPPs of 1, 3 and 5 year terms. Switched Access DS3 (High Capacity 44.736 Mbps) Service is available with OPPs of 3 and 5 year terms. Multichannel Video Service⁽¹⁾ is available with an OPP of a 3 year term. All other services are available with OPPs of 1, 3 and 5 year terms. During the effective term, rate decreases will automatically be applied to the monthly payments for the remaining months of the OPP. Monthly rates for services installed under this arrangement will not be subject to Telephone Company-initiated rate increases. Rate changes due to zone restructures will flow through to the affected rate elements.

The following services are offered under an OPP:

- (1) DS3 (High Capacity 44.736 Mbps) Service rates and charges which apply to services billed under an OPP are set forth in 6.3.1 and 7.16.4 following.

Effective November 19, 2021, Optional Payment Plans (OPPs) are no longer permitted. Optional Payment Plans in effect as of November 19, 2021 may continue the existing term but will not be eligible to extend, renew, reenroll in, convert to a new term period, or in any other way continue their existing plan beyond its current expiration. At expiration of the term the service will convert to the Month to Month rate. If at any time an existing customer terminates its Optional Payment Plan, the customer may not re-subscribe to the plan.

(B) Termination Liability

A termination liability applies during the selected commitment period. If service is disconnected in full or in part prior to the end of the selected commitment period, the customer is liable for a termination liability charge. Further, except as provided in (C), (D) and (E) following, when a customer cancels an OPP prior to the end of the selected commitment period, the customer is liable for a termination liability charge.

The termination liability charge applies to each service disconnected or, in the case of cancellation of an OPP, to each service which had been included in the canceled OPP.

It is the customer's responsibility to give the Telephone Company notice of the intent to terminate an OPP. Recurring charges will apply for a period of one month from the date the Telephone Company receives the termination notice or until the requested termination date, whichever period is longer. These charges will apply during this period whether or not the customer continues to use the service.

The termination liability charge is calculated as set forth in (1) or (2) following. The Telephone Company will apply the option which produces the lowest termination liability charge to the customer.

(2) Option 2

For DS3 services discontinued prior to the end of the minimum period customers are liable for the minimum period service charge and the termination liability charge will be the difference between the full monthly rates and the OPP monthly rates for the period the plan has been in effect.

For DS1, Fractional DS1, 56 Kbps, 64 Kbps, Multichannel Video Service⁽¹⁾ and INAS DS1 and DS3 Capacity service discontinued prior to the end of the minimum period, customers are liable for the minimum period service charge and the termination liability charge will be the difference between the full monthly rates and the OPP monthly rates for the period the plan has been in effect. Where there is no OPP period less than the actual time the service(s) have been in effect, the termination liability charge will be the difference between the full monthly rates and the selected OPP monthly rates for the period the plan has been in effect.

Where there is an OPP period less than the actual time the service(s) have been in effect, the termination liability charge will be the difference between the monthly rates for the longest OPP period that could have been satisfied prior to discontinuation of the service and the monthly rates for the selected commitment period multiplied by the actual number of months the plan has been in effect.

(2) Option 2 (Cont'd)

For example:

If a customer subscribes to a 5 year OPP and terminates service during the 48th month, the longest OPP period that could have been satisfied is three years. The customer's termination liability would be calculated as follows:

$(3 \text{ year OPP monthly rate} - 5 \text{ year OPP monthly rate}) \times 48$

The monthly rates used to calculate termination liability charges are not subject to the reductions set forth in 6.1.3 and 7.3.4 following.

When a customer disconnects some, but not all, of its 44.736 Mbps Services, the monthly rates used to calculate termination liability charges are applied in ascending order beginning with the lowest applicable rates.

(D) DS1 OPP Portability Commitment#

DS1 OPP Portability Commitment provides a customer the ability to establish a regional volume commitment in the form of DS1 Channel Terminations and receive a waiver on DS1 OPP Termination Liability, as described in 2.11.1.1 (B), during the life of the Portability Commitment. The Portability Commitment will consist of a Commitment Level (CL), as described below, and has terms of 3-years or 5- years. The Portability Commitment cannot be renewed.

Customers may purchase Special Access DS1 service under DS1 OPP terms of 3 or 5 years and have the associated Channel Terminations count towards the CL. All installation nonrecurring charges will be billed as applicable as described in Section 2.11.1.1(A).

Following are the terms and conditions associated with the DS1 OPP Portability Commitment:

- (1) Customer commits to a 3-year or 5-year Commitment Level (CL) that is reviewed by the Telephone Company on a monthly basis. The initial monthly CL is selected by the customer, subject to a minimum level of 50 DS1 Channel Terminations. The effective date of the Portability Commitment will be the first day of the month immediately following the month in which the customer provides written notification of their participation into the program. By the effective date, the customer must issue ASRs to add DS1 channel terminations to the DS1 OPP Portability Commitment and/or convert existing DS1 channel terminations (billed Month to Month and/or under other term pricing plans) to the DS1 OPP Portability Commitment such that the number of in-plan DS1 Channel Terminations is at least 80% of the CL; and
- (2) Customer must have a minimum of 40 DS1 Channel Terminations in the Portability Commitment each month and at least 80% of the CL in-plan each month; and

Effective November 21, 2017, new subscriptions to DS1 OPP Portability Commitment are no longer permitted. DS1 OPP Portability Commitment customers subscribed as of November 21, 2017 may continue with their existing subscriptions. If at any time an existing customer terminates its DS1 OPP Portability Commitment, the customer may not re-subscribe to the plan.

2. General Regulations (Cont'd)2.11 Types of Rates and Charges (Cont'd)2.11.1.1 Optional Payment Plans (OPPs)## (Cont'd) (T)(D) DS1 OPP Portability Commitment# (Cont'd)

(3) Each month, the total number of 3 and 5 Year DS1 OPP Channel Terminations for the previous month will be calculated and measured against the corresponding monthly CL;

(a) If the total number of Channel Terminations, as calculated above, is between 80% and 124% of the CL, no other charges will apply for the previous month.

(b) If the total number of Channel Terminations, as calculated above, is less than 80% of the CL, the customer will be billed an adjustment factor equal to the lowest prevailing monthly Channel Termination charge, shown in Section 7.16.4 or Section 24.5.2.6 for a 3 or 5 year OPP plan, as applicable, multiplied by the difference between the actual number of Channel Terminations in-service and 80% of the CL.

Example #1: Customer A has a CL = 1,000 Channel Terminations for the month of June, and has a 3 year plan. Customer A must have at least 800 DS1 Channel Terminations in the Portability Commitment to meet the 80% target. In July, the monthly review calculated 795 DS1 Channel Terminations in the Portability Commitment for the month of June. The difference between 80% of the CL (800) and the actual in-plan total (795) is 5 Channel Terminations. Therefore, the customer will be billed an amount equal to 5 Channel Terminations multiplied by the lowest prevailing monthly Channel Termination rate for a 3 year OPP. For subsequent months, customer A will continue to be billed an amount equal to the difference between 80% of the CL and the actual in-plan number of Channel Terminations that are below 80% of the CL (multiplied) by the lowest prevailing monthly 3 year OPP Channel Termination rate, until 80% of the CL is met.

(3) (Cont'd)

- (c) If the total number of in-plan DS1 Channel Terminations, as calculated above, is greater than 124% of the CL, the customer will be billed an adjustment factor equal to the lowest prevailing monthly Channel Termination rate, shown in Section 7.16.4 or Section 24.5.2.6 for a 3 or 5 year plan, as applicable, multiplied by the difference between the actual number of Channel Terminations in-plan and 124% of the CL.

EXAMPLE #2: Customer B has a CL of 500 Channel Terminations and has a 5 year plan. In month 5 of the commitment, Customer B has 650 Channel Terminations in the Portability Commitment. Customer B has exceeded the CL by more than the 124% threshold (620). Customer B will be charged an adjustment factor equal to 30 Channel Terminations (650-620) multiplied by the lowest prevailing monthly Channel Termination rate for a 5 year OPP. For subsequent months, Customer B will continue to be charged the Lowest prevailing monthly Channel Termination rate multiplied by the difference between the actual number of Channel Terminations in- service and 124% of the CL until Customer B no longer exceeds the CL by the 124% threshold.

- (4) Customers may increase the CL at any time by providing written notification to Telephone Company. Credits for previously charged adjustments billed for exceeding the CL will not be provided when a customer increases the CL. However, an adjustment factor will not be billed if notice to increase the CL is provided to the Telephone Company within the calendar month following a reported adjustment, and the CL increase is sufficient that the number of in-service rate elements does not exceed 124% of the new CL. For instance, in Example #2 above, if the Customer increases the CL from 500 to 525 before the end of month 6, the adjustment factor applicable to month 5 will not be billed because the actual in-service volume (650) is less than or equal to the new 124% threshold (651).

- (5) If the customer elects to terminate the DS1 OPP Portability Commitment or elects to decrease the CL prior to the 3-year or 5-year commitment, Termination Liabilities will apply. Termination Liability is calculated as the decreased number of Channel Terminations multiplied by the lowest prevailing monthly DS1 recurring Channel Termination rate for the applicable plan (3 year o 5 year), multiplied by the number of months remaining in the term of the Portability Commitment.

EXAMPLE #3: Customer C has a CL equal to 1,000 Channel Terminations. In Month 10 of the 36-month Portability Commitment, Customer C elects to Decrease the CL by 50 Channel Terminations. The Terminations Liability Associated with the decrease is equal to:

(50 Channel Terminations) X (26 months remaining) X (lowest prevailing 3 year OPP monthly recurring DS1 Channel Termination Rate)

(E) Additions of Service

When a customer with an existing OPP wishes to increase the number of services of the same type between the same two locations, it has the following options:

- (1) Subscribe to the additional services under standard rates.
- (2) Subscribe to the additional services under a separate OPP at the then effective OPP rate.
- (3) Cancel the existing OPP and include both the existing and the additional services under a new OPP for a commitment period equal to or longer than the original period. No termination charges apply to such cancellation.

2. General Regulations (Cont'd)2.11 Types of Rates and Charges (Cont'd)2.11.1.1 Optional Payment Plans (OPPs)## (Cont'd) (T)(F) Extension of Commitment Period

A customer may, at any time prior to the expiration of the selected commitment period for an existing OPP or month to month plan, change to an OPP with a longer commitment period at the then effective OPP rates. No termination liability charges will apply for any services extended under the longer commitment period. The monthly rates applicable for the longer commitment period will apply effective with the customer's next bill day following the request for the change.

(G) Rate Regulations

Where an OPP is requested coincident with the connection of new service, it will be effective with the establishment of service.

Where an OPP is requested on existing service, the effective date will be the date negotiated with the customer.

At the end of its selected commitment period, the customer will have the option of subscribing to any then effective OPP or of retaining the service under the standard rates in effect at that time.

If the customer does not choose one of the preceding options prior to the expiration date of the commitment period, monthly extension rates will be applied upon expiration of the commitment period.

(H) Conversion of Existing Shared Use Facilities

In some instances customers choose to mix switched and special access channels on the same DS1 or DS3 facility. When ordering a new switched access facility covered by an OPP or when converting an existing month-to-month switched facility to an OPP, any special access channels that are shared on that switched facility must be covered by a Special Access OPP of the same term length.

Similarly, when ordering a new special access facility covered by an OPP or when converting an existing month-to-month special facility to an OPP, any switched access channels that are shared on that special facility must be covered by a Switched Access OPP of the same term length.

For those shared use facilities already under a special access term plan, customers will have to select one of the following options: 1) convert switched facilities to the same term and expiration date as the special access facilities they are sharing; or 2) terminate the current special access term plan and establish a new term plan of equal or greater length for both the special and switched access services. No termination liabilities will be assessed for termination of the special access plan. If the customer does not select one of the above options, then the month-to-month switched access rates will be maintained.

7. Special Access Service (Cont'd)

7.16 High Capacity Special Access Service (Cont'd)

7.16.4 Rates and Charges

General Description

This section contains the specific regulations governing the rates and charges, which apply to High Capacity Services.

DS3 High Capacity Service is available under a month-to-month, one, three or five-year billing period as described following. (T)

DS1 and DS3 Services are subject to zone pricing. Rates for three rate zones have been established pursuant to the Federal Communications Commission's Report and Order in the Matter of Expanded Interconnection with Local Telephone Company Facilities, CC Docket No. 91-141, adopted September 17, 1992 and released October 17, 1992.

Each Central Office has been assigned to one of three pricing zones. The pricing zone for each central office is identified in NECA FCC Tariff No. 4.

(1) DS3 High Capacity Service Rate Description

Monthly Extension Rates# (T)

Monthly extension rates are charges that the customer may elect to be converted to at the end of their 1, 3 or 5-year billing period, until a new billing period is selected or service is disconnected. Monthly extension rates are only available once the term plan has expired.

DS3 High Capacity Service Billing Period# (T)

The billing period establishes the amount of time that rates for a service are stabilized by the Telephone Company.

The following billing periods are available for DS3 High Capacity Services and associated optional features and functions:

- Month-to-Month
- Monthly Extension Rate
- 1 Year
- 3 Year
- 5 Year

Effective November 19, 2021, Term Pricing Plans are no longer permitted. Term Pricing Plans in effect as of November 19, 2021 may continue the existing term but will not be eligible to extend, renew, reenroll in, convert to a new term period, or in any other way continue their existing plan beyond its current expiration. At expiration of the term the service will convert to the Month to Month rate. If at any time an existing customer terminates its Term Pricing Plan, the customer may not re-subscribe to the plan. In addition, the DS3 Month to Month rate is re-added and the DS3 Monthly Extension Rate is removed.

(T)

At the expiration of the billing period, the customer will have the option of subscribing to one of the following options:

- (a) Elect to renew the service for a new 1, 3 or 5 year billing period, at rates and charges currently in effect.
- (b) Elect to be converted to monthly extension rates.
- (c) Elect to disconnect the service upon expiration of the billing period.

If the customer does not choose one of the preceding options prior to the expiration date of the commitment period, monthly extension rates will be applied upon expiration of the commitment period.

Option (a) as described preceding is available to customers if the term plans remain in effect and are not grandfathered. If the term plans are grandfathered and the service expires, absent customer notification, the customers expired service will be converted to monthly extension rates upon expiration.

Nonrecurring charges are not applicable for services renewed, as long as the same number of DS3s are renewed. Any change in the number of DS3s will incur the appropriate nonrecurring charges.

The customer must provide the Telephone Company with a written notice of intent to extend the DS3 billing period no later than one month prior to the expiration of the service period.
