VII. MISCELLANEOUS SERVICES

<p>2. Application of FUSF Surcharge to Other Charges</p> <p>Customers assessed Presubscribed Interexchange Carrier Charges, ISDN Line Port Charges, Charge for Changing Primary Interexchange Carrier, charges for interstate Special Access Service, and any interstate charges not listed above which give rise to the Telephone Company's obligation to contribute to the Universal Support Mechanisms will be assessed the FUSF Surcharge on such charges as set forth following. Customers who participate in the Lifeline Assistance Program are not exempt from this Surcharge on services other than the Subscriber Line Charge. The FUSF Surcharge will be determined by multiplying the FUSF Surcharge Factor by the applicable charges.</p>	
<p>3. FUSF Surcharge</p> <p>Surcharge applied to interstate charges 25.2%</p>	(R)
<p>S. <u>Incidental InterLATA Call Management Signaling Service</u></p> <p>1. General</p> <p>Call Management Signaling Service ("Service" or "CMSS") provides a customer with terminating detail information and with the capability to provide instructions back to the Telephone Company regarding the forwarding or other disposition of calls terminating or attempting to terminate at the customer's end user's telephone number. The Telephone Company will deliver this service over a secure IP (Internet Protocol) network connection using standard XML-based formatted data.</p>	
<p>In every instance that a call attempts to terminate at a Telephone Company end office to a customer's end user's telephone line provisioned with the Service, The Telephone Company will provide the customer with signaling information describing the attempted call termination and terminating detail for the call (collectively "Terminating Detail"). All Terminating Detail will be provided to a Telephone Company interface server and then made available to customers through a secure IP network connection using an XML-based data format.</p>	
<p>In every instance that a customer is provided with Terminating Detail for a call, the customer will be required to respond with a valid response ("Response") within eighteen (18) seconds, as further described in the Technical Memorandum documentation referenced in the front of this tariff under Reference to Technical Publications (Technical Memorandum for Incidental InterLATA Call Management Signaling Service associated with the Telephone Company FCC Short Term Notice of Network Change dated March 2007). Valid Responses include an instruction for the Telephone Company to forward the call to a different domestic telephone number, to block the call or to permit the call to terminate to the customer's end user's line.</p>	
<p>In the event no Response is received within eighteen (18) seconds, the Telephone Company will proceed with terminating the call to the customer's end user's line. Responses to the Telephone Company from the customer are received through a secure IP network connection and in an XML-based data format.</p>
