4.1 End User Access Service (Cont'd)

4.1.4 Rates and Charges (Cont'd)

The rates for End User Access Service are:

(C) FUSF Surcharge Factor

Surcharge applied to interstate charges	25.2%	(R)
---	-------	-----

(D)

(E)	<u>Presubscribed Interexchange Carrier Charge (PICC)</u>	<u>Rate per Month</u>
-----	--	-----------------------

(1)	Multiline Business Subscriber	
	- Individual line or trunk, each	\$0.00
(2)	Primary Rate Interface (PRI)	
	- per PRI service	\$0.00
(3)	Centrex - per line rate	
	- one line	\$0.00
	- two lines	\$0.00
	- three lines	\$0.00
	- four lines	\$0.00
	- five lines	\$0.00
	- six lines	\$0.00
	- seven lines	\$0.00
	- eight lines	\$0.00
	- nine or more lines	\$0.00

ACCESS SERVICE

7. Special Access Service++ (T)

7.1 General

Special Access Service provides a channel, or transmission path, to connect two or more customer premises⁽¹⁾ or to connect a customer premises to a Wide Area Telephone Service (WATS) serving office or Telephone Company location where multiplexing functions are performed.

7.2 Service Types

For purposes of ordering, Special Access Services have been categorized by type. The categories are not intended to limit a customer's use of a service, nor to imply that a service is limited to a particular use, e.g., if a customer's equipment is capable of transmitting voice over a Metallic Service, there is no restriction against such use⁽²⁾.

The various types of Special Access Services can be further differentiated according to technical parameters which define the technical characteristics of each service. Customers can order Special Access Services in accordance with predefined technical specifications packages which are described in the appropriate technical reference publication(s) for the service ordered. In addition, customers may request a custom technical specifications package in association with certain services to meet specific transmission requirements. The Telephone Company will provide customer packages subject to technical feasibility and compatibility. Additional Engineering Charges, as set forth in Sec. 8, may be required in association with a request for such services.

(1) For the purpose of administering the rates and regulations associated with the provision of Special Access Service, Telephone Company Centrex CO-like Switches, and Telephone Company Answering Service Concentrators are considered to be customer premises.

(2) A customer may use a service in any privately beneficial manner. Upon request, the Telephone Company will arrange service under this tariff such that the customer can select different types of transmission at different times, which is referred to Alternate Use. Rates, charges and regulations for such arrangements will be handled on an individual case basis under Section 12 and will apply in addition to those for the service(s) ordered.

++ Pursuant to FCC 17-43, released April 28, 2017, Frontier has detariffed (1) TDM channel terminations for wire centers in competitive counties; (2) TDM transport charges and optional features; and (3) packet-based services. Terms and Conditions for detariffed services can be found in the Interstate Service Guide and Pricelist. (C)

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Special Access Service Rate Categories

The following rate categories apply to Special Access Services:

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

Effective November 16, 2017, Competitive Counties and Non-Competitive Counties have been established and are defined in Section 2.13 and the wire centers within such counties are listed in Section 23.1.3 and 23.1.4.

For all rate elements other than End User channel terminations, price flex rates and charges, as provided in the Interstate Service Guide and Pricelist, apply, regardless of whether the county is Competitive or Non-Competitive. (C)
(C)

For End User channel terminations, the application of "price cap" or "price flex" is dependent upon whether or not the serving wire center is located in a Competitive County. If the End User channel termination is in a Competitive County, price flex rates and charges apply, as provided in the Interstate Service Guide and Pricelist. If the End User channel termination is in a Non-Competitive County, price cap rates and charge apply, as provided in Section 7. (C)
(T)

7.4.1 Standard Channel Termination

A Standard Channel Termination provides for the transmission facilities between a customer premises and the serving wire center of that premises. One Channel Termination charge applies per customer premises at which the Special Access Service is terminated. This charge applies even if the customer premises and the serving wire center are colocated in a Telephone Company building, e.g., Centrex CO type switch.

A Standard Channel Termination includes a standard network channel interface arrangement based on the technical characteristics of the Telephone Company facilities at the point of termination and the type of signaling capability, which, if required, is provided as an optional feature.

The Standard Channel Termination rate will apply for all Telephone Company Access Connections except High Capacity Services utilizing an Expanded Interconnection Arrangement. A Standard Channel Termination monthly rate will apply even when the customer designated premises and the serving wire center are located in the same Telephone Company building unless the customer establishes an Expanded Interconnection Arrangement, in which case the Cross-Connect Termination monthly rate will apply as specified in Section 18 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.9 Voice Grade Special Access Service (Cont'd)

7.9.4 Rates and Charges

(A) Channel Termination
