## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

(T-M)

#### 7.12.1 GENERAL

(T)

##### A. Basic Channel Description

DS3 is a high capacity channel for the transmission of 44.736 Mbps isochronous serial data having a line code of bipolar three zero substitution (B3ZS). DS3 channels are provided between customer designated premises, between a customer designated premises and a Company Hub, or between Company Hubs. When DS3 Service is requested between two Company Hubs, Central Office Multiplexers or SST CO Ports must also be ordered on each end (i.e., each Hub/Serving Wire Center) of the DS3 Transport Channel.

DS3 Channel Termination(s) are available utilizing an Electrical, Optical or a Radio Interface. The interfaces will have the characteristics of their respective signals at the Point of Termination.

1. Electrical Interface Capacity Channel Terminations[1] will be provisioned utilizing Company provided equipment. Electrical Interface has eight different sizes of Capacity Channel Termination available. The capacities are capable of deriving the following number of DS3 signals, as described in U S WEST Communications Technical Publication PUB 77324.

#### ELECTRICAL INTERFACE[1] DS3 CAPACITY CHANNEL TERMINATION

1	9
2	12
3	24
6	36

- [1] Effective February 28, 1998, DS3 Service Electrical Interface Capacities of two and greater are limited to existing customers only. Customers with Electrical Interface Capacities of two and greater in service on February 28, 1998, may continue this service until the service is moved or disconnected. If the service is moved or disconnected after February 28, 1998, DS3 Service Electrical Interface Capacities of two and greater may not be reestablished. Optional features and per DS3s may be added to existing capacities. As of March 1, 1998, new customers may not subscribe to DS3 Service Electrical Interface Capacities of two and greater.

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.12 DS3 SERVICE**

**7.12.1 GENERAL**

A. Basic Channel Description (Cont'd)

2. Optical Interface Capacity Channel Terminations[1] will be provisioned utilizing Company provided equipment in the serving wire center. The Company will identify approved equipment types for use in conjunction with Company provided equipment. The customer must select and provide a system from this equipment at their premises. Optical Interface has eight sizes of Capacity Channel Terminations available. The capacities are capable of deriving the following number of DS3 signals, as described in U S WEST Communications Technical Publication PUB 77324.

**OPTICAL INTERFACE[1]  
DS3 CAPACITY CHANNEL  
TERMINATION**

2	12
3	18
6	24
9	36

- [1] Effective February 28, 1998, DS3 Service Optical Interfaces are limited to existing customers only. Customers with Optical Interfaces in service on February 28, 1998, may continue this service until the service is moved or disconnected. If the service is moved or disconnected after February 28, 1998, DS3 Service Optical Interfaces may not be reestablished. Optional features and Per DS3s may be added to existing capacities. As of March 1, 1998, new customers may not subscribe to DS3 Service Optical Interfaces.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE (Cont'd)

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS

##### A. Central Office Multiplexing

An arrangement which converts a 44.736 Mbps DS3 channel to twenty-eight 1.544 Mbps DS1 channels utilizing time division multiplexing. The twenty-eight channels may be further multiplexed utilizing DS1 multiplexers.

When an order is submitted to the Company to disconnect a channel termination on a service that was ordered and provisioned as a channel termination, transport channel mileage, if applicable, and a Central Office Multiplexer, the optional feature and function of a Central Office Multiplexer must be provided in accordance with 7.1.1.D., following.

##### B. Self-Healing Alternate Route Protection

Self-Healing Alternate Route Protection (SHARP) provides added reliability to DS3 service transported over fiber optic facilities. This feature provides a separate facility path for the protection system between the Serving Wire Center and the Telephone Company Point of Termination located in the same building as the customer designated premises when the customer or building owner provide the structure for diverse entrance facilities into the building. In those instances where the customer or building owner requests the SHARP Option but does not provide the structure for diverse entrance facilities into the building, this feature provides a separate facility path for the protection system between the first utility vault outside the Serving Wire Center (generally all facilities leave a Wire Center, to the first utility vault within the same conduit, cable, sheath, etc.) and the last terminal prior to the customer's premises.

Certain material on this page formerly appeared on Page 7-87.

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS

##### B. Self-Healing Alternate Route Protection (Cont'd)

This added protection is provided by ensuring that backup electronics and two physically separate facility paths are used in the provisioning of the service. One primary (or working) service path is established between the Serving Wire Center and the customer designated premises. In addition, a protect path is provisioned between the customer designated premises and the Serving Wire Center via a Telephone Company designated Alternate Wire Center. In the event that the working facility or electronics fail, or the service performance becomes impaired, i.e., the bit error rate degenerates to less than or equal to  $10^{-6}$ , the facility automatically switches to the service protect path in order to maintain a near continuous flow of information between locations.

This SHARP Option is available with either circuit (per DS3) or system level protection (per system) on both optical or electrical interfaces. However, on an optical interface, the customer must order all DS3s on a system level with or without the SHARP option since the SHARP vs. non-SHARP DS3s cannot be separated on a single system.

Due to constraints of the local network architecture as determined by the Telephone Company, there may be occasions where the service will be provisioned without the use of an Alternate Wire Center.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS

##### B. Self-Healing Alternate Route Protection (Cont'd)

Technical Specifications for SHARP are delineated in U S WEST Communications Technical Publication PUB 77340.

The offering of SHARP contemplates the use of existing facilities. There may be occasions where the SHARP option is not available due to facilities limitations, or where it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations as set forth in Tariff F.C.C. No. 2 (2.6.4.D.1) apply. For a list of facility locations where SHARP may be available as normal construction, see National Exchange Carrier Association, Inc., Tariff F.C.C. No. 4.

##### C. SHARP Plus

SHARP Plus provides a separate facility path for a protection system between Company serving wire centers for Transport Channel mileage. This added protection is provided by ensuring that backup electronics and two physically separate facility paths are used in the provisioning of the Transport Channel mileage. One primary (or working) service path is established between the serving wire centers. In addition, a protect path is provisioned between the same serving wire centers. In the event that the working facility or electronics fail, or the service performance becomes impaired, i.e., the bit error rate degenerates to less than or equal to 10 to the minus 6, the facility automatically switches to the service protect path in order to maintain a near continuous flow of information over the Transport Channel.

Only when SHARP Plus is ordered in conjunction with the SHARP option, will a protect path be provisioned between the serving wire centers via a Company designated Alternate Wire Center.

Certain material on this page formerly appeared on Page 7-89.

Issued: February 10, 2000

Effective: February 25, 2000

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS

##### C. SHARP Plus (Cont'd)

This option when ordered in conjunction with SHARP will provide end-to-end circuit protection when the SHARP option is ordered on each end of the circuit. It also may be ordered to provide facilities protection that terminates in a Company Wire Center.

The same outage guarantee as detailed in 7.1.2.F.6., preceding, will apply. The outage guarantee for SHARP protection will also apply.

Technical Specifications for SHARP Plus are delineated in U S WEST Communications Technical Publication PUB 77340.

Rates applicable to SHARP Plus are detailed in 7.12.4, following. These rates include the SHARP Plus option in addition to the DS3 Channel Termination. Transport Channel mileage on the primary portion of the circuit will be billed as detailed in 7.1.1.E.

The mileage to be used to determine the monthly rate for the SHARP Plus protect path is the same as the airline distance between the wire centers utilized to provide the Transport Channel mileage.

When SHARP Plus is ordered in conjunction with the SHARP option, the mileage to be used to determine the monthly rate for the Alternate Route is calculated on the airline distance between the Alternate Wire Center utilized to provide SHARP Plus for the Transport Channel and the normal serving wire center. If the protection terminates in a Company Wire Center, the mileage to be used to determine the monthly rate for the Alternate Route is calculated on the airline distance between the Alternate Wire Center providing SHARP Plus and the Company Wire Center where the Transport Channel terminates.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS

##### C. SHARP Plus (Cont'd)

(T-M)

(T)

This option may be ordered in conjunction with the SHARP option on one or both Channel Terminations of the DS3 and follows the availability guidelines detailed in B., preceding. SHARP Plus is available with an electrical interface only.

(T)

Due to constraints of the local network architecture as determined by the Company, there may be occasions where this optional feature, when provisioned in conjunction with the SHARP option, will be provisioned without the use of an Alternate Wire Center.

A Central Office Termination rate element will apply at both serving wire centers. This rate category provides for additional equipment placed in the Company Wire Center which causes the service to automatically detect a failure and switch to the alternate protection path.

##### D. Command A Link - BSE

(T)

This feature allows the customer to control the reconfiguration of a Private Line Transport Service (digital or analog) on a near real-time basis by means of the special provisioning of these services through a digital crossconnect device. Command A Link can accommodate the termination of circuits up to the 56 kbps[1], 1.544 Mbps[2] and 44.736 Mbps[3] signal levels. The reconfiguration of the service is accomplished at the DS0 signal level. Customer access to the reconfiguration capability is on the basis of a local telephone company dial access arrangement.

Command A Link is available only in selected serving wire centers.

[1] Applicable to Voice Grade and Digital Data Service.

[2] Applicable to Voice Grade, Digital Data Service and DS1 Service.

[3] Applicable to Voice Grade, Digital Data Service, DS1 Service and DS3 Service.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

(T-M)

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS

##### D. Command A Link – BSE (Cont'd)

(T)

Command A Link has two reconfiguration options: Attendant Access and Dial-Up Access.

##### 1. Attendant Access

(T)

When a customer requests the Telephone Company to make changes on their behalf, an Attendant Access charge applies, per transaction requested. Examples of transactions include, but are not limited to the following:

- Each reconfiguration performed, including connecting, disconnecting, or reconnecting each circuit segment. For example, connecting one 9.6 kbps service to another 9.6 kbps service constitutes two (2) transactions.
- A change in the customer's security code.
- Establishing, changing, or removing each scheduled reservation activity.
- A change of a customer's symbolic names or aliases for their circuits.
- Each request for a Command A Link list or report.

##### 2. Dial-Up Access

(T)

A monthly rate applies to subscribe to dial-up access.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

#### 7.12.2 OPTIONAL FEATURES AND FUNCTIONS (Cont'd)

##### E. Transport Alternate Path Protection

Transport Alternate Path Protection provides point to point facilities protection between a customer's serving wire center and another Company Wire Center for Transport Channel mileage. This feature is provisioned to avoid any single point of failure in the Company Transport Channel Facilities and the supporting electronics. This feature provides a separate facility path for a protection system routed through mixed technology for the Transport Channel mileage. Transport Alternate Path Protection is limited to use of existing facilities for mixed technologies and is available with an electrical interface only.

This option will allow the Private Line Service to sustain any single failure when the failure occurs in the protected interoffice transport i.e., Transport Channel. The system will automatically detect the failure and switch to the alternate route.

The outage guarantee as detailed in 7.1.2.F.6., preceding, does not apply to Transport Alternate Path Protection.

Technical Specifications for Transport Alternate Path Protection are delineated in U S WEST Communications Technical Publication PUB 77340.

Rates applicable to Transport Alternate Path Protection are detailed in 7.12.4, following. These rates include the Transport Alternate Path Protection option in addition to the DS3 Channel Termination. Transport Channel mileage on the primary portion of the circuit will be billed as detailed in 7.1.1.E.

The mileage to be used to determine the monthly rate for the Transport Alternate Path Protection is calculated on the airline distance between the Serving Wire Centers utilized to provide the DS3 Transport Channel mileage.

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.12 DS3 SERVICE**

**7.12.2 OPTIONAL FEATURES AND FUNCTIONS (Cont'd)**

**F. DS3 Capacity 24 System to DS3 Capacity 24 System Connecting Arrangement**

An arrangement that allows a customer to connect two electrical or optical DS3 Capacity 24 systems at the system level within the same wire center or in different Company Hubs not to exceed a distance of fifty (50) miles between Company Hubs. This option is available to existing DS3 Capacity 24 customers only.

When a DS3 Capacity 24 System to DS3 Capacity 24 System Connecting Arrangement is within the same wire center, the customer will be assessed one COCC charge per system connecting arrangement as set forth in 7.12.4.A.3., following. When the connecting arrangement is between two Company Hubs, the DS3 Capacity 24 System to DS3 Capacity 24 System Transport Channel mileage rate element applies as set forth in 7.12.4, following, in lieu of DS3 Transport Channel mileage.

DS3 Capacity 24 System to DS3 Capacity 24 System Transport Channel mileage may be ordered under a pricing plan fixed period term (i.e., 12, 24, 36, 60, 120 months). The DS3 Capacity 24 System to DS3 Capacity 24 System Transport Channel pricing plan must expire on the same date as the DS3 Capacity 24 System with the least amount of remaining time in its fixed period.

Service Rearrangement charges apply when the DS3 Capacity 24 System to DS3 Capacity 24 System Connecting Arrangement is not installed at the same time as the DS3 Capacity 24 systems. The Service Rearrangement charge is equal to a DS3 channel termination rate element installation nonrecurring charge. Only one such charge will apply per system arrangement, per change. In the event the customer discontinues the DS3 Capacity 24 System to DS3 Capacity 24 System Connecting Arrangement and one or both of the DS3 Capacity systems remain in service, the Company will assess a Service Rearrangement equal to one DS3 channel termination rate element installation nonrecurring charge to disengage the system to system connecting arrangement. Termination Liability Charges as set forth in 7.1.8, may apply for the remaining months of the DS3 Capacity 24 System to DS3 Capacity 24 System Transport Channel fixed period term.

### 7.12 DS3 SERVICE (Cont'd)

(T-M)

#### 7.12.3 PRICING PLANS

##### A. General

(T)

DS3 Service Capacity Channel Terminations must be initially ordered under a DS3 Service Pricing Plan[1,2] with a fixed period of 12-, 24-, 36-, 60- or 120-months. The optional rate plans allow the Private Line Transport Service customer to integrate DS3 services into their networks with the assurance of no Company-initiated increases in rates during the fixed period. A month-to-month option is available for DS3 Service Capacity Channel Terminations only after the customer completes the initial Fixed Period Service Rate Plan.

(T)

Existing DS3 Service Capacity Channel Terminations currently under month-to-month and in service prior to July 26, 1996 will retain the one month minimum period. All new DS3 Service Capacity Channel Terminations installed after July 26, 1996 will have a twelve month minimum period.

For Electrical and Optical Interface Capacity Channel Terminations larger than one DS3, the Capacity Channel Termination must be ordered before an associated Per DS3 Channel Termination can be ordered. In addition, the Capacity Channel Termination can not be disconnected until all of the Per DS3 Channel Terminations are disconnected. For DS3 Radio Interface, the Capacity Channel Termination includes the number of DS3 channel terminations associated with the capacity size ordered.

- [1] Customers with a DS3 Service Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, following, in lieu of Upgrades in Capacity and Service (except upgrades to SST) and Discontinuance Charges. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12-month term, May 29, 1997 for a 24-month term, May 29, 1998 for a 36-month term, May 29, 2000 for a 60-month term and May 29, 2005 for a 120-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the DS3 Service Pricing Plan.

(T)

(T)

(T)

(T)

- [2] DS3 Service Pricing Plan includes 44.736 Mbps SONET Ring Service for 36 and 60 Months only. Month-to-Month SRS is not available.

Certain material previously found on this page can now be found on Page 7-402.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.12 DS3 SERVICE

#### 7.12.3 PRICING PLANS (Cont'd)

##### B. Fixed Period Service Rate Plans

Customers who subscribe to DS3 Service for a 12-, 24-, 36-, 60- or 120-month fixed period service rate plan must specify the length of the fixed period service at the time the service is ordered. The minimum service period for fixed period service is twelve months.

The DS3 rate elements may be ordered individually and as either month-to-month (for Capacity Channel Terminations, the initial optional rate plan term must be satisfied before it can convert to month-to-month) or any optional rate plan. For example, the customer may order the Capacity Channel Termination under the 120-month fixed period service plan, the Per DS3 Channel Termination and Transport Channel under the 60-month fixed period service plan and the multiplexing on a month-to-month basis.

For customers who subscribe to fixed period service of 12, 24, 36, 60 or 120 months, the monthly rates for the entire fixed period will be frozen from Company-initiated increases, at the rates in effect for the fixed period on the service date. At the end of the fixed period, the customer may convert to month-to-month or subscribe to a new fixed period service. The monthly rates will be adjusted to those in effect for the new fixed period service. Should the customer not make a choice by the end of the fixed period, the rates will automatically revert to the month-to-month option.

If a rate decrease occurs during the term of an existing fixed period service rate plan established on or after September 1, 1998, the reduced rates will not be applied to the time remaining in the service period. Fixed Period Rate Plans established on or before August 31, 1998, will automatically receive a rate decrease if the Company decreases rates during the term of the plan.

With the Transport Channel Mileage Band restructure, effective September 7, 1999, existing customers with service in the Over 200 Mileage Band will be converted to the new structure.

7.12 DS3 SERVICE

7.12.3 PRICING PLANS (Cont'd)

C. Upgrades

1. Upgrades in Rate Plans

Services rated under the month-to-month plan or an existing fixed period service rate plan may be upgraded to a new fixed period service rate plan at any time the customer chooses without incurring nonrecurring or discontinuance charges.

Customers served under a fixed period service rate plan may upgrade one or all of the DS3 rate elements to a new fixed period service rate plan without incurring nonrecurring or discontinuance charges. This upgrade will be allowed provided the channel interface and the customer designated premises remain the same. Additionally, the new fixed period service rate plan must meet or exceed the fixed period service rate plan being upgraded. For example, a rate element with a 36-month fixed period service may be upgraded to a new 36-month, or longer, fixed period service. The monthly rates will be those that are in effect at the time the service is upgraded.

New minimum service period applies to all DS3 rate elements that are upgraded in the following manner:

- If the service being upgraded has been in place for more than 12 months, minimum period provisions will not apply, or
- If the service being upgraded has been in place for less than 12 months, the time in service will be applied against the minimum period term.

##### C. Upgrades (Cont'd)

##### 2. Upgrades in Capacity[1]

###### a. Same customer locations

Customers that subscribe to fixed period service or services may upgrade one entire or entire multiple services to a larger Capacity Channel Termination. Discontinuance charges will not apply, provided all the following conditions are met:

- The larger capacity DS3 Service is provided by the Company,
- The order for the disconnect of the current DS3 Capacity Channel Termination or DS3 Capacity Channel Terminations and order for the new connect of the upgraded DS3 Capacity Channel Termination are received by the Company at the same time,
- The new service is provided between the same customer locations as the discontinued service or services,
- The new service has the same channel interface code as the service or services being discontinued (i.e., all services being upgraded must have the same channel interface code),
- The new service has a DS3 Capacity Channel Termination larger than the Capacity Channel Termination of the service or services being discontinued and
- The DS3 Service must be upgraded in rate plan at the same time, as described in 1., preceding.

- [1] Customers with the DS3 Service Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.4.17, following, in lieu of Upgrades in Capacity. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12-month term, May 29, 1997 for a 24-month term, May 29, 1998 for a 36-month term, May 29, 2000 for a 60-month term and May 29, 2005 for a 120-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy, will be in effect for all new customers subscribing to the DS3 Service Pricing Plan.

C. Upgrades (Cont'd)

3. Upgrades in Service[1]

- a. Upgrades of an Entire Service or Entire Multiple Services to Self Healing Network Service (SHNS)

Customers that subscribe to Fixed Period Service may upgrade an entire service or entire multiple services to an equivalent or greater capacity SHNS, as set forth in Section 15, following. Discontinuance charges will not apply provided all of the following conditions are met:

- The SHNS is provided by the Company,
- The order for the disconnect of the existing multiple Fixed Period Service or Services and the order for the new connect of the SHNS are received by the Company at the same time,
- The new SHNS is provided between the same customer locations as the discontinued entire service or entire multiple services,
- The new SHNS has a total voice equivalent capacity equal to or greater than the total voice equivalent capacity of the entire service or multiple services being discontinued, and

- [1] Customers with the DS3 Service Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.4.17, following, in lieu of Upgrades in Service (except upgrades to SST). This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12-month term, May 29, 1997 for a 24-month term, May 29, 1998 for a 36-month term, May 29, 2000 for a 60-month term and May 29, 2005 for a 120-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the DS3 Service Pricing Plan.

C.3. (Cont'd)

- d. Upgrades of an Entire Service or Entire Multiple Services to Synchronous Service Transport (SST)[1]

Customers that subscribe to Fixed Period Service may upgrade an entire service or entire multiple services to a greater capacity SST, as set forth in 7.14 Discontinuance charges will not apply provided all of the following conditions are met:

- The SST is provided by the Company,
- The order for the disconnect of the existing multiple Fixed Period Service or Services and the order for the new connect of the SST are received by the Company at the same time,
- The new SST is provided to the same customer location as the discontinued entire service or entire multiple services,
- The new SST has a total voice equivalent capacity (measured by ports) greater than the total voice equivalent capacity (measured by per DS3s) of the entire service or multiple services being discontinued,

- [1] Customers with the DS3 Service Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.4.17, following, in lieu of Upgrades to SST, however, an upgrade from DS3 to SST must be to a greater capacity whether the regulations in 7.4.11.B.3.d. or 7.4.17 are utilized. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12-month term, May 29, 1997 for a 24-month term, May 29, 1998 for a 36-month term, May 29, 2000 for a 60-month term and May 29, 2005 for a 120-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the DS3 Service Pricing Plan and an upgrade from DS3 to SST must be to a greater capacity SST.

7.12 DS3 SERVICE

7.12.3 PRICING PLANS

C.3.d. (Cont'd)

- The entire service or entire multiple services being upgraded are either Electrical Interface or Optical Interface DS3 Services and all services being upgraded must have the same interface code,
- The new SST has a comparable interface (i.e., each Optical interface(s) must be upgraded to a new service that includes a comparable Central Office Node and each Electrical Interface(s) must be upgraded to a new service that includes both a comparable Central Office Node and a Remote Node), and
- The new SST Fixed Period Rate Plan will be determined using the criteria for Upgrades of Rate Plans outline in 7.14, following, with the exception that if at least one service or services being upgraded has a Fixed Period Rate Plan of more than 60 months remaining, the new SST Fixed Period Service Rate Plan will be established at 60 months. All other provisions as set forth in 7.14 will apply.

The nonrecurring charges set forth in 7.12.4, following, will apply for the new SST to the portion of the service being upgraded. New minimum service periods apply to all upgrades. Service interruptions may be necessary during the transition from DS3 Service to SST and necessary down time will be coordinated with the customer.

Equivalent SST capacities are defined as 155.52 Mbps/3 DS3s, 622.08 Mbps/12 DS3s, 1.244 Gbps/24 DS3s and 2.488 Gbps/48 DS3s.

DS3 Service capacities of 1 and 2 DS3s could upgrade to 155.52 MBps SST; 3, 6 and 9 DS3s to 622.08 Mbps SST; 12 and 18 DS3s to 1.244 Gbps; 24 and 36 DS3s to 2.488 Gbps SST.

C. Upgrades. (Cont'd)

4. Upgrades for Self-Healing Alternate Route Protection (SHARP) from per DS3 to System Level protection[1]

Customers that subscribe to fixed period service may upgrade to System Level Protection. Discontinuance charges will not apply, provided all the following conditions are met:

- The DS3 Service and per DS3 SHARP are provided by the Company and
- The order for the disconnect of the current per DS3 SHARP and order for the new connect of the upgraded DS3 System Level SHARP are received by the Company at the same time.

The nonrecurring charges as set forth in 7.12.4.A.5., will apply for the System Level protection optional feature.

- [1] Customers with the DS3 Service Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.4.17, following, in lieu of Upgrades for SHARP from per DS3 to System Level protection. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12-month term, May 29, 1997 for a 24-month term, May 29, 1998 for a 36-month term, May 29, 2000 for a 60-month term and May 29, 2005 for a 120-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the DS3 Service Pricing Plan.

**D. Discontinuance Charges<sup>[1]</sup>**

1. If the customer chooses to discontinue all or a portion of the service before the expiration of the fixed period service, discontinuance charges will apply.

Should the customer choose to discontinue fixed period service prior to completion of the minimum service period, discontinuance charges will apply. Discontinuance charges equal to one-hundred percent of the total monthly charges for the remaining months of the minimum service period, plus fifty percent of the total monthly charges for the remaining portion of the fixed period service will apply.

Should the customer choose to discontinue fixed period service after the minimum service period but before the completion of the fixed period service, discontinuance charges will apply. Discontinuance charges equal to fifty percent of the total monthly charges for the remaining portion of the fixed period service will apply.

2. Discontinuance charges do not apply to fixed period services purchased by local, State or Federal government entities (or to customers who have purchased services solely for resale to local, State or Federal government entities) when they are discontinued prior to the completion of the fixed period service only when all of the following conditions are met:

- The service(s) purchased by the local, State or Federal government entity or by customers who have purchased services for resale to local, State or Federal government entities are utilized solely for provision of services for that local, State or Federal government entity,

- [1] Customers with the DS3 Service Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.4.17, following, in lieu of Discontinuance Charges in C.1. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12-month term, May 29, 1997 for a 24-month term, May 29, 1998 for a 36-month term, May 29, 2000 for a 60-month term and May 29, 2005 for a 120-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the DS3 Service Pricing Plan.

D.2. (Cont'd)

- Funding for the fixed period service ordered by the authorized local, State or Federal government entity is included in the budget request for each fiscal period appropriation sufficient to cover the authorized local, State or Federal government entity's obligations under the fixed period service for that fiscal period,
- Nonappropriation may not be used as a means of terminating the service to acquire a functionally similar product or service,
- The local, State or Federal government entity ordered the fixed period service under the good faith belief that moneys in amounts sufficient to discharge its obligations could and would lawfully be appropriated and be made available for this purpose and,
- The local, State or Federal government entity or the customer who ordered the service on their behalf, must provide the Telephone Company notarized documents agreed upon by both the Telephone Company and the customer, showing that the entity is allotted insufficient funds for the remainder of the then current fiscal period (or for a succeeding fiscal period) by appropriation, appropriation limitation or grant to continue payments under the fixed period service and has no other funding source lawfully available to it for such purpose. The fixed period service may be terminated by giving the Telephone Company not less than thirty (30) days written notice. (Should the customer receive funding for the canceled service prior to physical disconnect of service, the customer may cancel the disconnect order per Section 5.) Upon termination, the local, State or Federal government entity or the customer who ordered the service on their behalf, shall pay all applicable rates and nonrecurring charges of the fixed period service incurred through the date of termination and through the end of the then current fiscal period to the extent of lawfully available funds.

7. PRIVATE LINE TRANSPORT SERVICE

7.12 DS3 SERVICE

7.12.3 PRICING PLANS

D. Discontinuance Charges (Cont'd)

3. Fresh Look

Customers with 36-, 60- or 120-month DS3 Service Pricing Plans for DS3 Service entered into on or before September 17, 1992 will be allowed to terminate the service using an alternate methodology to calculate the discontinuance charge (USOC: TUA). The right to end a DS3 Service under a 36-, 60- or 120-month DS3 Service Pricing Plan at a specific Telephone Company central office will begin the date the first Expanded Interconnection-Collocation Service channel termination is provisioned in that central office and will continue until the fixed period service pricing plan expires. The Telephone Company will calculate the Discontinuance of Service charges utilizing both the Fresh Look methodology and the existing methodology and will assess the customer the lower of the two charges. A list of Central Offices available for Fresh Look is set forth in 7.1.8.E.

If a customer chooses to terminate a DS3 Service under a 36-, 60- or 120-month DS3 Service Pricing Plan within this period, the termination charges will be as follows. Notwithstanding any termination charges provided for in this tariff, the Telephone Company will charge the difference between the amount the customer has already paid and any additional charges that the customer would have paid for service if the customer had taken a shorter DS3 Service Pricing Plan corresponding to the term actually used, plus interest at the rate utilized by the Internal Revenue Service for tax refunds.

For example, consider a customer who purchased a DS3 from the Telephone Company for a 60-month term at \$100.00 per month. After 3 years of the fixed period service, an Expanded Interconnection-Collocation Service channel termination is provisioned in the customer's central office and the customer chooses to terminate the DS3 Service from the Telephone Company. The termination charge is calculated as follows:

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.12 DS3 SERVICE**

**7.12.3 PRICING PLANS**

D.3. (Cont'd)

(T-M)

(T)

The customer has paid \$3,600. (\$100 x 36 months) and the customer would have paid \$3,960 (\$110 x 36 months) if the customer had taken the DS3 Service Pricing Plan actually used. In this case, the termination liability will be limited to the difference between what the customer would have paid under the shorter term (\$110 x 36 months = \$3,960) and what the customer actually paid (\$100 x 36 months = \$3,600). Thus, the Telephone Company will charge the customer \$360.00 (\$3,960 - \$3,600 = \$360), plus appropriate interest. When the actual service period does not precisely coincide with an existing service term, the charges for the service used are calculated at the rates applicable at the time the service term began, for the longest term commitment that the customer would have completed. The charge for the period beyond that term is calculated pro rata at the rates applicable to the completed term.

Nonrecurring charges for reconfiguration of the service will be assessed in accordance with 7.1.1.A. and 7.1.1.D., preceding, as applicable.

E. Extension of Fixed Period Rate Plan

Customers with DS3 Service under a 24-, 36- or 60-month Fixed Period Rate Plan within 6 months of expiration may extend their Fixed Period Rate Plan rates for an initial period of 12 months by notifying the Company in writing of their intent to do so. The extension of the Fixed Period Rate Plan will begin on the same day that the Fixed Period Rate Plan was to expire. Extension of an existing Fixed Period Rate Plan is available only for the original customer of record for the DS3 Service.

Any customer who extended their Fixed Period Rate Plan rates for an initial 12-month period may extend their Fixed Period Rate Plan rates for a second 12-month period by notifying the Company in writing of their intent to do so. At the end of the second extension, the Fixed Period Rate Plan will change to the current month-to-month rates or the customer may choose to subscribe to a new Fixed Period Rate Plan at the current rates.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)

(T-M)

#### 7.13.1 GENERAL

##### A. Description

Simultaneous Voice Data Service (SVDS) is a two-point or multipoint channel for the transport of full-duplex, asynchronous or synchronous digital data, at speeds of 2.4, 4.8, 9.6 or 19.2 kbps. The actual bit rate is a function of the channel interface selected by the customer. An SVDS Channel Termination is provided as a derived channel of a customer's intraexchange voice grade service loop facility where suitable facilities are available subject to the transmission limitations of the facilities and equipment used by the Company. The customer may transmit data over the SVDS channel simultaneously with a voice transmission. The Company will identify approved equipment for use in conjunction with Company provided equipment. The customer must provide a data voice multiplexer to be located at their premises from the approved equipment as set forth in U S WEST Communications Technical Publication PUB 77331.

(T)

SVDS is provided as a derived channel of a local exchange service where suitable intraexchange voice grade service loop facilities are available subject to the transmission limitations of the facilities and equipment used by the Company. SVDS is provided between customer designated premises or between a customer designated premises and a Company Serving Wire Center equipped with SVDS compatible equipment and where provisioning parameters are met as set forth in U S WEST Communications Technical Publication PUB 77331.

(M)

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)**

(T-M)

**7.13.1 GENERAL (Cont'd)**

(T)

**B. Technical Specifications**

The technical specifications for the customer-provided data voice multiplexer are set forth in U S WEST Communications Technical Publication PUB 77331.

**7.13.2 OPTIONAL FEATURES, FUNCTIONS AND BSES**

(T)

Only those Optional Features, Functions and BSEs listed below are available with SVDS.

**A. Central Office Bridging Capability - BSE**

(T)

This optional feature connects three or more customer designated premises within an SVDS equipped serving wire center. On a multipoint circuit which combines SVDS and Digital Data Service, bridging for the Digital Data Service must be done in a Digital Data Hub. SVDS can be bridged in an SVDS equipped Company wire center.

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)**

**7.13.2 OPTIONAL FEATURES, FUNCTIONS AND BSEs (Cont'd)**

**B. Central Office DS0 to Subrate (DS0B to DS0A Subrate) Multiplexing - BSE**

An arrangement that provides a Company multiplexer which converts a Subrated DS0 (DS0B) channel containing up to twenty 2.4 kbps, ten 4.8 kbps or five 9.6 kbps channels into individual 2.4, 4.8 or 9.6 kbps circuits, each utilizing time division multiplexing. Central Office DS0 to Subrate (DS0B to DS0A Subrate) Multiplexing will only be connected to either a 64 kbps Digital Data Service Channel Termination or a DS1 Central Office Multiplexer.

The placement of SVDS Services onto an SVDS Central Office DS0 to Subrate Multiplexer will be provided in SVDS equipped Company wire centers. The placement of SVDS Services and Digital Data Services onto a Digital Data Service Central Office DS0 to Subrate (DS0B to DS0A Subrate) Multiplexer will only be provided in a Digital Data Hub(s).

A Subrated DS0 Transport Channel is used to provide transport for multiple subrate digital data channels, (i.e., twenty 2.4, ten 4.8 or five 9.6 kbps) between SVDS equipped Company wire centers, between an SVDS equipped Company wire center and a Company Hub or between Company Hubs.

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)**

**7.13.2 OPTIONAL FEATURES, FUNCTIONS AND BSEs (Cont'd)**

**C. Central Office Multiplexer to Multiplexer Connecting Arrangement**

**1. Subrate to Subrate**

An arrangement that allows a customer to connect an individual channel of one DS0 to Subrate Multiplexer to an individual channel of another DS0 to Subrate Multiplexer, at 2.4, 4.8 or 9.6 kbps within the same Company wire center as set forth in B., preceding.

In addition, this arrangement allows a customer to connect an individual channel of one DS0 to Subrate Multiplexer to an individual channel of another DS0 to Subrate Multiplexer located in a different Company wire center, at 2.4, 4.8 or 9.6 kbps as set forth in B., preceding. Transport Channel mileage applies between Company Hubs at the applicable speed.

**2. DS0 to DS0**

An arrangement that allows a customer to connect an individual channel of one DS1 to DS0 Multiplexer to an individual channel of another DS1 to DS0 Multiplexer, for SVDS at 2.4, 4.8, 9.6 or 19.2 kbps within the same Company wire center as set forth in B., preceding.

In addition, this arrangement allows a customer to connect an individual channel of one DS1 to DS0 Multiplexer to an individual channel of another DS1 to DS0 Multiplexer located in a different Company wire center, for SVDS at 2.4, 4.8, 9.6 or 19.2 kbps as set forth in B., preceding. Transport Channel mileage applies between Company Hubs at the applicable speed.

Effective: February 25, 2000

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)**

**7.13.2 OPTIONAL FEATURES, FUNCTIONS AND BSES**

C. Central Office Multiplexer to Multiplexer Connecting Arrangement (Cont'd)

3. One Subrate to Subrate or one DS0 to DS0 Central Office Multiplexer to Multiplexer Connecting Arrangement will apply per Company wire center location. For example, when a DS0 to DS0 Central Office Multiplexer to Multiplexer Connecting Arrangement is made within the same Company wire center, only one arrangement will apply. When a DS0 to DS0 Central Office Multiplexer to Multiplexer Connecting Arrangement is made in different wire center locations, one DS0 to DS0 Central Office Multiplexer to Multiplexer Connecting Arrangement will apply for each Company wire center location. Transport Channel mileage will apply at the applicable speed. For example, a customer wants to connect one 2.4 kbps channel on a DS1 to DS0 Multiplexer from Company wire center location A to a DS1 to DS0 Multiplexer in Company wire center location B. The customer would pay for two Central Office Multiplexer to Multiplexer Connecting Arrangements and Transport Channel mileage at 2.4 kbps rates as set forth in 7.10.3, following.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS) (Cont'd)

(T-M)

#### 7.13.3 PRICING PLANS

(T)

SVDS may be ordered at the customer's option on a month-to-month basis or for a SVDS Pricing Plan[1] fixed period of 3 years (36 months) or 5 years (60 months). The optional rate plans allow the Private Line Transport Service customer to integrate Digital services into their networks with the assurance of no Company-initiated increases in rates during the fixed period.

#### A. Fixed Period Service Rate Plans

The customer may subscribe to a 36 or 60 month fixed period service rate plan. The minimum service period for fixed period service is twelve months. The customer must specify the length of the fixed period service at the time the service is ordered.

For customers that subscribe to fixed period service of 36 or 60 months, the monthly rates for the entire fixed period will be frozen from Company-initiated increases, at the rates in effect for the fixed period on the service date.

All rate elements of a SVDS to be included in a fixed period service must be ordered under the same term conditions (i.e., all 36 months or all 60 months) and with the same negotiated service date. When additional channel termination and/or optional features are added subsequently (e.g., Bridging), they will be available only a month-to month basis.

- [1] Customers with a SVDS Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, following, in lieu of Upgrades in Transmission Speed and Discontinuance Charges. This offer is valid until either the expiration date of their existing term or until May 29, 1998 for a 36-month term and May 29, 2000 for a 60-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SVDS Pricing Plan.

(T)

(T)

(T)

(T)

(M)

Certain material previously found on this page can now be found on Pages 7-596 and 7-597.

**7. PRIVATE LINE TRANSPORT SERVICE**

**7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)**

(T-M)

**7.13.3 PRICING PLANS**

(T)

**A. Fixed Period Service Rate Plans (Cont'd)**

At the end of the fixed period service, the customer may convert to month-to-month or subscribe to a new fixed period service. The monthly rates will be adjusted to those in effect for the new fixed period service. Should the customer not make a choice by the end of the fixed period, the rates will automatically revert to the month-to-month option.

If a rate decrease occurs during the term of an existing fixed period service, the reduced rates will automatically be applied to the time remaining in the service period.[1]

[1] Effective September 1, 1998, customers establishing a Fixed Period Rate Plan, will not receive a rate decrease if the Company decreases rates during the term of the plan. Fixed Period Rate Plans established on or before August 31, 1998, will automatically receive a rate decrease if the Company decreases rates during the term of the plan.

### 7.13 SIMULTANEOUS VOICE DATA SERVICE (SVDS)

#### 7.13.3 PRICING PLANS (Cont'd)

(T-M)

(T)

#### B. Upgrades in Rate Plans

Services rated under the month-to-month plan may be upgraded to a fixed period service rate plan at any time the customer chooses without incurring nonrecurring or discontinuance charges. Where portions of a service are rated under the month-to-month plan (e.g., Bridging, Transport Channel) and are connected to fixed period rated service, the customer may upgrade these rate elements at the time the service is upgraded. Additionally, the new fixed period service rate plan must meet or exceed the fixed period service rate plan being upgraded. For example, a rate element with a 36 month fixed period service may be upgraded to a new 36 month, or longer, fixed period service. The monthly rates will be those that are in effect at the time the service is upgraded. New minimum service period applies to all rate elements that are upgraded.

New minimum service period applies to all Digital Data Service rate elements that are upgraded in the following manner:

- If the service being upgraded has been in place for more than 12 months, minimum period provisions will not apply, or
- If the service being upgraded has been in place for less than 12 months, the time in service will be applied against the minimum period term.

(M)

(T)

#### C. Upgrades in Transmission Speed<sup>[1]</sup>

Should the customer choose to upgrade either a portion of or the entire SVDS under the fixed period service rate plan to a higher transmission speed (e.g., 2.4 kbps to 19.2 kbps), discontinuance charges will not apply, provided all the following conditions are met:

- The service (e.g., 19.2 kbps) is provided by the Company,
- The request for disconnect of the existing fixed period service and the request for connect of the new fixed period service are received by the Company at the same time and must reference upgrade in transmission speed,
- The new service is provided between the same customer locations as the discontinued services,
- The new service has a total voice equivalent channel capacity greater than the total voice equivalent channel capacity of the service being discontinued and
- The new fixed period service rate plan meets or exceeds the fixed period service rate plan being discontinued.

New minimum service period applies to all upgrades. The monthly rates for the new service will be those rates in effect at the time the new upgraded service is installed. All nonrecurring charges apply for the new service.

[1] Customers with the SVDS Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Upgrades in Transmission Speed. This offer is valid until either the expiration date of their existing term or until May 29, 1998 for a 36-month term and May 29, 2000 for a 60-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SVDS Pricing Plan.

D. Discontinuance of Service[1]

1. If the customer chooses to discontinue all or a portion of the service prior to the expiration of the fixed period service, discontinuance charges will apply.

Should the customer choose to discontinue fixed period service prior to the completion of the minimum service period, discontinuance charges will apply. Discontinuance charges equal to one-hundred percent of the total monthly rates for the remaining months of the minimum service period, plus fifty percent of the total monthly SVDS rates for the remaining portion of the fixed period service will apply.

Should the customer choose to discontinue fixed period service after the minimum service period but before the completion of the fixed period service, discontinuance charges will apply. Discontinuance charges equal to fifty percent of the total monthly SVDS rates for the remaining portion of the fixed period service will apply. For example, a customer chooses to discontinue SVDS after completing 33 months of a 60-month fixed period service. The discontinuance charges would be 0.50 times 27 months times the monthly rates for that service.

- [1] Customers with the SVDS Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Discontinuance Charges in D.1. This offer is valid until either the expiration date of their existing term or until May 29, 1998 for a 36-month term and May 29, 2000 for a 60-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SVDS Pricing Plan.

**D.1[1] (Cont'd)**

(T-M)

(T)

Should the customer choose to discontinue a portion of fixed period service without an upgrade in capacity, discontinuance charges will apply only to the portion of the service being discontinued. For example, a customer has service composed of a channel termination, ten miles of transport channels and a multiplexer. The customer disconnects the channel termination and connects a new channel termination at a different serving wire center via a central office connecting channel. The transport channel is decreased to five miles. The multiplexer remains at the same point of termination. Discontinuance charges apply to the channel termination. Discontinuance charges will also apply to the proportional reduction in mileage times the discontinuance charge for the transport channel rate element. All associated nonrecurring charges will apply for the new service.

- [1] Customers with the SVDS Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Discontinuance Charges in D.1. This offer is valid until either the expiration date of their existing term or until May 29, 1998 for a 36-month term and May 29, 2000 for a 60-month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SVDS Pricing Plan.

(T)

2. Discontinuance charges do not apply to fixed period services purchased by local, State or Federal government entities (or to customers who have purchased services solely for resale to local, State or Federal government entities) when they are discontinued prior to the completion of the fixed period service only when all of the following conditions are met:
  - The service(s) purchased by the local, State or Federal government entity or by customers that have purchased services for resale to local, State or Federal government entities are utilized solely for provision of services for that local, State or Federal government entity,
  - Funding for the fixed period service ordered by the authorized local, State or Federal government entity is included in the budget request for each fiscal period appropriation sufficient to cover the authorized local, State or Federal government entity's obligations under the fixed period service for that fiscal period,
  - Nonappropriation may not be used as a means of terminating the service to acquire a functionally similar product or service,
  - The local, State or Federal government entity ordered the fixed period service under the good faith belief that moneys in amounts sufficient to discharge its obligations could and would lawfully be appropriated and be made available for this purpose and,

- [1] Customers with the SVDS Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Discontinuance Charges in D.1. This offer is valid until either the expiration date of their existing term or until May 29, 1998 for a 36-month term and May 29, 2000 for a 60-month term, whichever comes first. - The local, State or Federal government entity or the customer who ordered the service on their behalf, must provide the Telephone Company notarized documents agreed upon by both the Telephone Company and the customer, showing that the entity is allotted insufficient funds for the remainder of the then current fiscal period (or for a succeeding fiscal period) by appropriation, appropriation limitation or grant to continue payments under the fixed period service and has no other funding source lawfully available to it for such purpose. The fixed period service may be terminated by giving the Telephone Company not less than thirty (30) days written notice. (Should the customer receive funding for the canceled service prior to physical disconnect of service, the customer may cancel the disconnect order per Section 5.) Upon termination, the local, State or Federal government entity or the customer who ordered the service on their behalf, shall pay all applicable rates and nonrecurring charges of the fixed period service incurred through the date of termination and through the end of the then current fiscal period to the extent of lawfully available funds.

- [1] Customers with the SVDS Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Discontinuance Charges in D.1. ## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL

(T)

##### A. Basic Service Description

Synchronous Service Transport (SST) is a high capacity channel for synchronous transmission of Bandwidth Capacity of 155.52 Mbps, 622.08 Mbps, 1.244 Gbps or 2.488 Gbps. SST channels are provided via fiber optic facilities between:

- a customer-designated premises and a CO Node,
- a customer-designated premises and a CO Node and its associated RCO Node,
- two RCO Nodes located in different Company wire centers.

SST consists of a Central Office (CO) Node and if applicable, Remote Central Office (RCO) Node, CO Ports, SST Remote Node, SST Remote Ports, SST CO multiplexing and Transport Channel.

When SST is ordered with only a CO Node or a CO Node in conjunction with a RCO Node, SST will be provisioned utilizing Company-provided equipment in the Company wire center and the necessary fiber optic facilities to the customer-designated premises where the SST Bandwidth Capacity is terminated on a Company-provided fiber distribution panel.

When SST is ordered with a CO Node and a SST Remote Node, both nodes will be provisioned utilizing Company-provided equipment. The SST Remote Node will be installed in a common space at the customer-designated premises and the equipment will be under the control of the Company.

When SST is ordered with two RCO Nodes, both nodes will be provisioned utilizing Company-provided equipment.

(T-M)

**7.14.1 GENERAL**

(T)

**A. Basic Service Description (Cont'd)**

Transport Channel mileage is applicable as set forth in B.6., following.

SST has four different sizes of Bandwidth Capacity available. The capacities are capable of deriving the following number of Optical Carrier (OC) rates.

<b>BANDWIDTH CAPACITY</b>	<b>OC CAPACITY</b>
155.52 Mbps	3
622.08 Mbps	12
1.244 Gbps	24
2.488 Gbps	48

155.52 Mbps (OC3) has the capacity of eighty-four (84) 1.544 Mbps Services or three (3) 44.736 or 51.840 Mbps Services. 622.08 Mbps (OC12) has the capacity of four (4) OC3s or twelve (12) 44.736 or 51.840 Mbps Services. 1.244 Gbps (OC24) has the capacity of eight (8) OC3s or two (2) OC12s or twenty-four (24) 44.736 or 51.840 Mbps Services. 2.488 Gbps (OC48) has the capacity of sixteen (16) OC3s, four (4) OC12s or forty-eight (48) 44.736 or 51.840 Mbps Services.

The offering of SST contemplates the use of existing facilities. There may be occasions when SST is not available due to facilities limitations, or when it may be necessary to construct facilities. If Special Construction is involved, the regulations as set forth in Tariff F.C.C. No. 2, 2.6.4 (D)(1) apply.

Technical Specifications for SST are delineated in U S WEST Communications Technical Publication PUB 77346. Should the customer choose to place DS1 or DS3 Services onto SST, the customer must provide a signal traceable to a Stratum 1 Clock.

For SST, the Bandwidth Capacity must be ordered before an associated OC interface can be ordered. Bandwidth Capacity is available in transport line rates of OC3, OC12 and OC48.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL (Cont'd)

(T)

#### B. Rate Categories

The basic rate categories which apply to SST are:

- Central Office (CO) Node (described in B.1., following)
- Remote Central Office (RCO) Node (described in B.2., following)
- CO Port (described in B.3., following)
- SST Remote Node (described in B.4., following)
- SST Remote Port (described in B.5., following)
- Transport Channel (described in B.6., following)
- Central Office Connecting Channel (described in B.7., following)
- Port-to-Port Connecting Arrangement (described in B.8., following)
- SST CO multiplexing options (described in B.10., following)
- SST SHARP (described in B.11., following)

Rates and charges for PLTS (e.g., DS1 or DS3 Service) and/or Switched Access Services, as detailed in Section 7, and/or in Section 6, preceding, apply for each PLTS or Switched Access Service that connects to SST.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL

(T)

#### B. Rate Categories (Cont'd)

##### 1. Central Office (CO) Node

The CO Node is the electronics located in a Company wire center that provides Bandwidth Capacities of 155.52 Mbps (OC3), 622.08 Mbps (OC12), 1.244 Gbps (OC24) or 2.488 Gbps (OC48) and the necessary fiber optic facilities to the customer-designated premises where it is terminated on a Company-provided fiber distribution panel.

The OC3 CO Node may be channelized at the 1.544 Mbps CO Port, 44.736 Mbps CO Port, or 51.840 Mbps CO Port level or without channelization to allow direct pass through connectivity to a different CO Node at the same Bandwidth Capacity. The OC12 CO Node may be channelized at the 1.544 Mbps CO Port, 44.736 Mbps CO Port, 51.840 Mbps CO Port, or OC3 CO Port level or without channelization to allow direct pass through connectivity to a different CO Node at the same Bandwidth Capacity. The OC24 Node may be channelized at the 44.736 Mbps CO Port, 51.840 Mbps CO Port, OC3 CO Port, or OC12 CO Port level. The OC48 CO Node may be channelized at the 44.736 Mbps CO Port, 51.840 Mbps CO Port, OC3 CO Port or OC12 CO Port level.

One Company CO Node must be utilized for each SST Bandwidth Capacity except when the SST is comprised only of two RCO Nodes located in different Company wire centers.

The CO Node rate element is assessed per node, per month, as set forth in 7.14.3., following.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL

(T)

##### B. Rate Categories (Cont'd)

##### 2. Remote Central Office (RCO) Node

The RCO Node provides multiplexing in a Company wire center other than the customer's serving wire center. The RCO Node provides Bandwidth Capacity at 155.52 Mbps (OC3), 622.08 Mbps (OC12), 1.244 Gbps (OC24) or 2.488 Gbps (OC48).

The OC3 RCO Node is channelized at the 1.544 Mbps, 44.736 Mbps, or 51.840 Mbps CO Port level. The OC12 RCO Node is channelized at the 1.544 Mbps, 44.736 Mbps, 51.840 Mbps CO Port or OC3 CO Port level. The OC24 RCO Node and OC48 RCO Node are channelized at the 44.736 Mbps Service, or 51.840 Mbps, OC3 CO Port or OC12 CO Port level.

Applicable Bandwidth Capacity Transport Channel mileage as set forth in 6., following, applies for mileage between the RCO Node and the CO Node or between two RCO Nodes located in different Company wire centers.

The RCO may only be ordered in conjunction with a CO Node or with a second RCO Node.

The RCO Node rate element is assessed per node, per month, as set forth in 7.14.3., following.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

#### 7.14.1 GENERAL

##### B. Rate Categories (Cont'd)

##### 3. CO Port

The CO Port is applicable in conjunction with a channelized CO Node, RCO Node or OC3 CO multiplexer. In addition, the CO Port is applicable in conjunction with a CO Node ordered without channelization to a different CO Node ordered with channelization at the same Bandwidth Capacity. CO Ports are available in conjunction with the following:

- CO Port DS1, CO Port DS3, and CO Port STS1 are available with an OC3 node,
- CO Port DS1, CO Port DS3, CO Port STS1 and OC3 CO Port are available with an OC12 node,
- CO Port DS3, CO Port STS1, OC3 CO Port and OC12 CO Port are available with an OC24 and OC48 node or
- CO Port DS1, CO Port DS3, and CO Port STS1 are available with an OC3 CO multiplexer.

Connection of Company services (e.g., DS1, DS3) to SST Bandwidth Capacity or an OC3 CO multiplexer will only be made through a CO Port. In addition, the customer must specify whether the OC3 or OC12 CO Port will be utilized with or without concatenation. If concatenation is requested for a CO Port subsequent to the initial activation, a service rearrangement charge as set forth in 7.1.1.A.2., preceding, will apply on a per CO Port basis.

When a CO Node is ordered without channelization to allow direct pass through connectivity to a different CO Node at the same Bandwidth Capacity, a CO Port is not applicable.

The CO Port rate element applies per port, per month as set forth in 7.14.3., following.

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL

(T)

#### B. Rate Categories (Cont'd)

##### 4. SST Remote Node

The SST Remote Node, at the customer's option, provides remote equipment necessary to deliver Bandwidth Capacity and/or applicable CO Ports from the CO Node or Remote CO Node to the customer-designated SST Remote Node location. This rate category applies to Bandwidth Capacity of 155.52 Mbps (OC3), 622.08 Mbps (OC12), 1.244 Gbps (OC24), and 2.488 Gbps (OC48). The SST Remote Node may be provided with a concatenated signal at the customer's option. When the SST Remote Node is Company-provided, the rate element is assessed per SST Remote Node, per month, as set forth in 7.4.3, following.

(T)

##### 5. SST Remote Port

The SST Remote Port rate category will only apply in conjunction with an SST Remote Node. The SST Remote Port provides the equipment necessary to deliver the specified CO Node Bandwidth Capacity and applicable CO Ports to the SST Remote Node on Company equipment. The SST Remote Port rate element applies per port, per month, as set forth in 7.14.3, following.

(T)

##### 6. Transport Channel

The Transport Channel rate category provides for the transmission facilities between the customer's serving wire center and

- a different Company wire center,
- two RCO Nodes located in different Company wire centers,
- two Company wire centers, or
- two CO Ports on different CO Nodes located in different Company wire centers.

The Transport Channel is portrayed in mileage bands. There are two rates for each band, i. e., a flat rate per band and a rate per mile, per band. Transport Channel mileage rates and charges apply according to CO Node Bandwidth Capacity, as set forth in 7.14.3, following.

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL

(T)

##### B. Rate Categories (Cont'd)

##### 7. Central Office Connecting Channel

The Central Office Connecting Channel (COCC) rate category provides for connections within the same wire center between a CO Port DS1 and a 1.544 Mbps Service, a CO Port DS3 or STS1 and a 44.736 Service, a CO Port DS3 or STS1 and a DS3 to DS1 multiplexer, or a CO Port DS1, DS3 or STS1 and a Switched Access Service DS1 or DS3 transport facility, respectively.

In addition, the COCC rate category provides connections within the same wire center between two CO Nodes at the same Bandwidth Capacity or between a CO Node and associated Transport Channel mileage and another CO Node at the same Bandwidth Capacity in a different wire center.

Also, the COCC rate category provides for connections between a CO Node and associated Transport Channel mileage and a RCO Node at the same Bandwidth Capacity in a different wire center or between a RCO Node and associated Transport Channel mileage and another RCO Node at the same Bandwidth Capacity in a different wire center.

One COCC will apply per connection between two Nodes at the same Bandwidth Capacity, between a node and a service at the same capacity or between a CO Port and a service at the same capacity as set forth in 7.14.3,

**7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)**

**7.14.1 GENERAL**

**B. Rate Categories (Cont'd)**

**8. Port-to-Port Connecting Arrangement**

The Port-to-Port Connecting Arrangement provides for the connection between a CO Node port to a Company-provided port on another node at the same Bandwidth capacity, a Company-provided port to a Company-provided port at the same Bandwidth Capacity or between two RCO Node ports at the same Bandwidth Capacity. One Port-to-Port Connecting Arrangement applies when the connection is in the same wire center. Two Port-to-Port rate elements and Transport Channel mileage are applied when the connection is between two wire centers. The rate element is assessed per arrangement as set forth in 7.14.3, following.

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.1 GENERAL

(T)

##### B. Rate Categories (Cont'd)

#### 9. SST Central Office Multiplexing Options

When SST is provisioned in conjunction with CO multiplexing, the following CO multiplexing functions are available:

SST CO multiplexing is an arrangement that provides a Company multiplexer which converts a 44.736 Mbps DS3 channel to twenty-eight 1.544 Mbps DS1 channels utilizing time division multiplexing as set forth in 7.12.1, preceding, or which converts a 1.544 Mbps DS1 channel to twenty-three 64.0 kbps DS0 channels or 24 64.0 kbps DS0 channels utilizing time division multiplexing as set forth in 7.11.1, preceding. These multiplexing rate elements are assessed per multiplexer as set forth in 7.11.4 and 7.12.4, preceding.

(T)

(T)

(T)

The OC3 CO Multiplexer provides eighty-four (84) 1.544 Mbps channels or may be configured to provide three (3) 44.736 Mbps channels or any combination of 1.544 Mbps channels and 44.736 Mbps channels not to exceed the capacity of three (3) 44.736 Mbps. A COCC and a CO Port 1.544 Mbps or CO Port 44.736 Mbps is required per channel. The OC3 CO Multiplexer is assessed per multiplexer, per month as set forth in 7.14.3, following.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

#### 7.14.1 GENERAL

##### B. Rate Categories (Cont'd)

#### 10. Self-Healing Alternate Route Protection

Self-Healing Alternate Route Protection (SHARP) provides added reliability to SST transported over fiber optic facilities. This feature provides a separate facility path for the protection system between the Serving Wire Center and the Company Point of Termination located in the same building as the customer designated premises when the customer or building owner provide the structure for diverse entrance facilities into the building. In those instances where the customer or building owner requests the SHARP Option but does not provide the structure for diverse entrance facilities into the building, this feature provides a separate facility path for the protection system between the first utility vault outside the Serving Wire Center (generally all facilities leave a Wire Center, to the first utility vault within the same conduit, cable, sheath, etc.) and the last terminal prior to the customer's premises.

This added protection is provided by ensuring that backup electronics and two physically separate facility paths are used in the provisioning of the service. One primary (or working) service path is established between the Serving Wire Center and the customer designated premises. In addition, a protect path is provisioned between the customer designated premises and the Serving Wire Center via a Company designated Alternate Wire Center. In the event that the working facility or electronics fail, or the service performance becomes impaired, i.e., the bit error rate degenerates to less than or equal to  $10^{-6}$ , the facility automatically switches to the service protect path in order to maintain a near continuous flow of information between locations.

#### 7.14.1 GENERAL

##### B.10. (Cont'd)

This SHARP Option is available with CO Node protection on both optical or electrical interfaces.

Due to constraints of the local network architecture as determined by the Company, there may be occasions where the service will be provisioned without the use of an Alternate Wire Center.

Technical Specifications for SHARP are delineated in U S WEST Communications Technical Publication PUB 77340.

The offering of SHARP contemplates the use of existing facilities. There may be occasions where the SHARP option is not available due to facilities limitations, or where it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations as set forth in Tariff F.C.C. No. 2 (2.6.4.D.1.) apply. For a list of facility locations where SHARP may be available as normal construction, see National Exchange Carrier Association, Inc., Tariff F.C.C. No. 4.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST) (Cont'd)

(T-M)

#### 7.14.2 PRICING PLANS

(T)

At the customer's option, SST Bandwidth Capacity is available initially with a SST Pricing Plan[1] for a 12, 24, 36 or 60 month fixed period only. The customer must specify the length of a fixed period service rate plan at the time the service is ordered. The minimum period for all fixed period service rate plans is twelve months. SST Pricing Plans allow the Private Line Transport Service customer to integrate SST into their networks with the assurance that no Company-initiated monthly rate increases will occur during the fixed period.

#### A. Fixed Period Service Rate Plans[2]

SST rate elements other than Bandwidth Capacity may be ordered initially as month-to-month service or under a 12, 24, 36, or 60 month fixed period service rate plan. SST rate elements may be ordered with the same fixed period service rate plan as the Bandwidth Capacity or a lesser plan not to exceed the number of months remaining on the Bandwidth Capacity fixed period as set forth following:

1. When the customer's SST rate element fixed period service plan is the same as the Bandwidth Capacity fixed period, the SST rate element fixed period will expire on the same date as the Bandwidth Capacity fixed period regardless of when it was ordered (e.g., if the Bandwidth capacity is a 60 month fixed period rate at month 10 of the plan and the customer orders an OC3 port 60 month fixed period, the OC3 port will be billed at the 60 month rate for the next 50 months).

- [1] Customers with a SST Pricing Plan in service prior to May 29, 1995 may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Upgrades in Capacity and Service and Discontinuance of Service. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12 month term, May 29, 1997 for a 24 month term, May 29, 1998 for a 36 month term and May 29, 2000 for a 60 month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SST Pricing Plan.

(T)

- [2] SST Pricing Plan includes 155.52 Mbps SONET Ring Service for 36 and 60 months only. Month-to-month SRS is not available. Rates and Charges for SRS 155.52 Mbps are set forth in 7.15.3, following.

(T-M)

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

#### 7.14.2 PRICING PLANS

##### A. Fixed Period Service Rate Plans (Cont'd)

2. When the customer orders a SST rate element fixed period service plan for a lesser number of months than the Bandwidth Capacity fixed period the SST rate element fixed period will expire based upon its expiration date (e.g., if the customer's Bandwidth Capacity is a 60 month fixed period rate with 40 months remaining and the customer orders an OC3 port under a 36 month fixed period service rate plan, the OC3 port will be billed at the 36 month rate for the next 36 months).
3. Customers may order month-to-month service in combination with any SST fixed period service rate plan. A month-to-month option is available for Bandwidth Capacity only after the customer completes the initial fixed period rate plan.

For customers that subscribe to fixed period service of 12, 24, 36 or 60 months, the monthly rates for the entire fixed period will be frozen from Company-initiated increases, at the rates in effect for the fixed period on the service date. At the end of the fixed period, the customer may convert to month-to-month or subscribe to a new fixed period service. The monthly rates will be adjusted to those in effect for the new fixed period service. Should the customer not make a choice by the end of the fixed period, the rates will automatically revert to the month-to-month option.

If a rate decrease occurs during the term of an existing fixed period service rate plan, the reduced rates will automatically be applied to the time remaining in the service period.[1]

Existing SST Service customers currently under month-to-month and in service prior to the effective date of this tariff (July 26, 1996) will retain the one month minimum period. All new SST Services installed after the effective date of this tariff will have a twelve month minimum period.

- [1] Effective September 1, 1998, customers establishing a Fixed Period Rate Plan, will not receive a rate decrease if the Company decreases rates during the term of the plan. Fixed Period Rate Plans established on or before August 31, 1998, will automatically receive a rate decrease if the Company decreases rates during the term of the plan.

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

#### 7.14.2 PRICING PLANS (Cont'd)

(T-M)

(T)

#### B. Upgrades

##### 1. Upgrades in Rate Plans

One or all SST rate elements rated under the month-to-month plan or an existing fixed period service rate plan may be upgraded to a new fixed period service rate plan at any time the customer chooses without incurring nonrecurring or discontinuance charges.

This upgrade will be allowed provided the channel interface and the customer-designated premises remain the same. Additionally, the new fixed period service rate plan must meet or exceed the fixed period service rate plan being upgraded. For example, a rate element with a 36 month fixed period service may be upgraded to a new 36 month, or longer, fixed period service. The monthly rates will be those that are in effect at the time the service is upgraded.

New minimum service period applies to all SST rate elements that are upgraded in the following manner:

- If the service being upgraded has been in place for more than 12 months, minimum period provisions will not apply, or
- If the service being upgraded has been in place for less than 12 months, the time in service will be applied against the minimum period term.

(T)

##### B. Upgrades (Cont'd)

##### 2. Upgrades in Capacity<sup>[1]</sup>

###### a. Same customer locations

Customers that subscribe to fixed period service may upgrade to a larger Bandwidth Capacity. Discontinuance charges will not apply, provided all the following conditions are met:

- The larger capacity SST is provided by the Company,
- The order for the disconnect of the current SST Bandwidth Capacity and order for the new connect of the upgraded SST Bandwidth Capacity are received by the Company at the same time,
- The new service is provided between the same customer locations as the discontinued service,
- The new service has the same channel interface code as the service being discontinued,
- The new service has a SST Bandwidth Capacity larger than the Bandwidth Capacity of the service being discontinued and
- The SST must be upgraded in rate plan at the same time, as described in 1., preceding.

- [1] Customers with the SST Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, in lieu of Upgrades in Capacity. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12 month term, May 29, 1997 for a 24 month term, May 29, 1998 for a 36 month term and May 29, 2000 for a 60 month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SST Pricing Plan.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

#### 7.14.2 PRICING PLANS

##### B. Upgrades (Cont'd)

##### 3. Upgrades in Service[1]

Customers that subscribe to Fixed Period Service may upgrade either a portion of or the entire service to an equivalent or greater capacity Self Healing Network Service (SHNS), as set forth in Section 15, following. Discontinuance charges will not apply provided all of the following conditions are met:

- The SHNS is provided by the Company,
- The order for the disconnect of the existing Fixed Period Service and the order for the new connect of the SHNS are received by the Company at the same time,
- The new SHNS is provided between the same customer locations as the discontinued service,
- The new SHNS has a total voice equivalent capacity equal to or greater than the total voice equivalent capacity of the service being discontinued, and
- The new SHNS Fixed Period Rate Plan meets or exceeds the SST Fixed Period Rate Plan being disconnected.

For service upgrades, the nonrecurring charges set forth in Section 15, following, will apply to the portion of the service being upgraded. No charges will apply to the remaining portion of the service. New minimum service periods apply to all upgrades.

- [1] Customers with the SST Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, following, in lieu of Upgrades in Service. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12 month term, May 29, 1997 for a 24 month term, May 29, 1998 for a 36 month term and May 29, 2000 for a 60 month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SST Pricing Plan.

C. Discontinuance of Service<sup>[1]</sup>

1. If the customer chooses to discontinue all or a portion of the service before the expiration of the fixed period service, discontinuance charges will apply.

Should the customer choose to discontinue fixed period service prior to completion of the minimum service period, discontinuance charges will apply. Discontinuance charges equal to one-hundred percent of the total monthly charges for the remaining months of the minimum service period, plus fifty percent of the total monthly charges for the remaining portion of the fixed period service will apply.

Should the customer choose to discontinue fixed period service after the minimum service period but before the completion of the fixed period service, discontinuance charges equal to fifty percent of the total monthly charges for the remaining portion of the fixed period service will apply.

Should the customer choose to discontinue a portion of fixed period service without an upgrade in capacity, discontinuance charges will apply only to the portion of the service being discontinued. (For example, a customer has service composed of a CO Node and ten miles of transport channels. The customer disconnects the CO Node termination and connects a new CO Node at a different serving wire center via a central office connecting channel. The transport channel is decreased to five miles. Discontinuance charges apply to the CO Node.) Discontinuance charges will also apply to the proportional reduction in mileage times the discontinuance charge for the transport channel rate element. All associated nonrecurring charges will apply for the new service.

- [1] Customers with the SST Pricing Plan in service prior to May 29, 1995, may utilize Termination Liability and Waiver Policy as set forth in 7.1.8, following, in lieu of Discontinuance of Service in C.1. This offer is valid until either the expiration date of their existing term or until May 29, 1996 for a 12 month term, May 29, 1997 for a 24 month term, May 29, 1998 for a 36 month term and May 29, 2000 for a 60 month term, whichever comes first. After May 29, 1995, Termination Liability and Waiver Policy will be in effect for all new customers subscribing to the SST Pricing Plan.

C. Discontinuance of Service (Cont'd)

2. Discontinuance charges do not apply to fixed period services purchased by local, State or Federal government entities (or to customers who have purchased services solely for resale to local, State or Federal government entities) when they are discontinued prior to the completion of the fixed period service only when all of the following conditions are met:
  - The service(s) purchased by the local, State or Federal government entity or by customers that have purchased services for resale to local, State or Federal government entities are utilized solely for provision of services for that local, State or Federal government entity,
  - Funding for the fixed period service ordered by the authorized local, State or Federal government entity is included in the budget request for each fiscal period appropriation sufficient to cover the authorized local, State or Federal government entity's obligations under the fixed period service for that fiscal period,
  - Nonappropriation may not be used as a means of terminating the service to acquire a functionally similar product or service,
  - The local, State or Federal government entity ordered the fixed period service under the good faith belief that moneys in amounts sufficient to discharge its obligations could and would lawfully be appropriated and be made available for this purpose, and

- The local, State or Federal government entity or the customer who ordered the service on their behalf, must provide the Telephone Company notarized documents agreed upon by both the Telephone Company and the customer, showing that the entity is allotted insufficient funds for the remainder of the then current fiscal period (or for a succeeding fiscal period) by appropriation, appropriation limitation or grant to continue payments under the fixed period service and has no other funding source lawfully available to it for such purpose. The fixed period service may be terminated by giving the Telephone Company not less than thirty (30) days' written notice. (Should the customer receive funding for the canceled service prior to physical disconnect of service, the customer may cancel the disconnect order per Section 5.) Upon termination, the local, State or Federal government entity or the customer who ordered the service on their behalf, shall pay all applicable rates and nonrecurring charges of the fixed period service incurred through the date of termination and through the end of the then current fiscal period to the extent of lawfully available funds.

## 7. PRIVATE LINE TRANSPORT SERVICE

### 7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)

(T-M)

#### 7.14.2 PRICING PLANS (Cont'd)

(T)

#### D. Nonrecurring Charge Application Due to Early Discontinuance of a Pricing Plan Fixed Period

When a customer has an SST Pricing Plan (i.e., fixed period of 12, 24, 36 or 60 months) and the customer discontinues the pricing plan prior to the end of the fixed period, the Company may assess a nonrecurring charge application in addition to Termination Liability charges as set forth in 7.1.8. When Termination Liability is waived, the Company will also waive any applicable nonrecurring charges.

(T)

When a nonrecurring charge application due to early discontinuance of the fixed period is determined, The Company will calculate the nonrecurring charge application based upon the fixed period used at the time the rate element was discontinued. The nonrecurring charge is determined as set forth following:

##### 1. Twelve Month Fixed Period

Customers discontinuing between month one (1) through month eleven (11) of the fixed period will be assessed by rate element the difference between Monthly nonrecurring charges and the nonrecurring charges the customer paid under the 12 Month Pricing Plan. If the customer discontinues the service in the twelfth (12th) month, no additional nonrecurring charges will be assessed.

##### 2. Twenty-Four Month Fixed Period

Customers discontinuing between month one (1) through month eleven (11) of the fixed period will be assessed by rate element the difference between Monthly nonrecurring charges and the nonrecurring charges the customer paid under the 24 Month Pricing Plan. Customers discontinuing between month twelve (12) through month twenty-three (23) of the fixed period will be assessed by rate element the difference between the 12 Month Pricing Plan nonrecurring charges and the nonrecurring charges the customer paid under the 24 Month Pricing Plan. If the customer discontinues the service in the twenty-fourth (24th) month, no additional nonrecurring charges will be assessed.

**7.14 SYNCHRONOUS SERVICE TRANSPORT (SST)**

(T-M)

**7.14.3 RATES AND CHARGES**

(T)

A.4. (Cont'd)

1. Transport Channels,  
per CO Node[1]

MILEAGE BANDS	USOC	NON- RECURRING CHARGE[2]	MONTHLY RATE	
			FIXED	PER MILE
0	1A5BA	—	—	—
Over 0 to 8	1A5BB	\$491.00	\$ 6,888.00	\$ 863.00
Over 8 to 25	1A5BC	491.00	6,888.00	975.00
Over 25 to 50	1A5BD	491.00	9,188.00	1,094.00
Over 50	1A5BE	491.00	10,719.00	1,203.00

- [1] See 7.12.4, Transport Channel rates and charges for SST channelized to the DS3 Service level. See A.1., Transport Channel rates and charges for SST channelized to the 155.52 Mbps OC3 level. See A.2., Transport Channel rates and charges for SST channelized to the 622.08 Mbps OC12 level.

(T)

- [2] Nonrecurring charges apply to Transport Channels when installed without a CO Node. When service involves more than one Telephone Company, one half the nonrecurring charge applies.
