DOMESTIC INTERSTATE ACCESS SERVICES

SECTION 8 – END USER ACCESS SERVICE**8.1.1 General**

The Company will provide End User Access Service (“End User Access”) to end users who obtain from the Company any communications services (voice, data or other functionally equivalent service), including all TDM and IP based communications services, on a standalone or integrated product basis under the Company’s general and/or local exchange tariffs or under the terms of a service agreement. An End User subscribing to any Company communications service, regardless of technology, who has the ability to access the public switched telephone network via this access service shall be subject to a monthly recurring charge or the End User Common Line Charge (“EUCL”). End User Access provides for the imposition of EUCL, Presubscribed Interexchange Carrier Charges (“PICC”) and a number of surcharges and fees associated with regulatory compliance and participation in regulatory programs (“Regulatory Surcharges”). Customers who obtain End User Access Service are subject to the EUCL and Regulatory Surcharges regulations, (T) (T) taxing may vary based on technology. Interexchange Carriers who furnish interstate telecommunications service to end users are subject to the PICC regulations. Customers that do not select a Presubscribed Interexchange Carrier are subject to the PICC regulations with the exception of pay telephone service providers, whose pay telephone lines are excluded from PICC regulations.

8.1.2 Rate Regulations

The End User Common Line and Regulatory Surcharges will be billed to the Customer of the associated local telephone exchange service. The total number of Company-provided lines and trunks, excluding pay telephone lines, for which the interexchange carrier has been selected as the predesignated carrier for interLATA, interstate calls will be multiplied by the appropriate Presubscribed Interexchange Carrier Charge on a monthly basis and assessed to the Presubscribed Interexchange Carrier of the associated telephone exchange service. If NO PIC is designated on any lines or trunks, the appropriate PICC will be assessed to the Customer subscribing to the line or trunk.
