Re: Windstream Telephone System, Application for Special Permission No. 13

Dear Ms. Thomas:

The Wireline Competition Bureau has determined that a grant of the above-referenced application is justified. This grant will enable you to file the tariff material on behalf of Windstream Telephone System, as requested. For this purpose, we assign Special Permission No. 23-007 and waive 47 CFR §§61.58 and 61.59.

The grant does not constitute approval by the Commission or the Chief, Wireline Competition Bureau, of the proposed filing and does not prejudice any subsequent action that the Commission or Bureau may take.

Sincerely,
