ACCESS SERVICE

9. Directory Assistance Service

The Telephone Company will provide Directory Assistance (DA) Service to a customer from Directory Assistance Service locations (DA location).

9.1 General Description

DA Service provides Directory Access Service to DA locations, use of DA access equipment, and use of DA automated and/or live operator services to provide telephone listings. In addition to Standard Directory Assistance Service, DA Service is available with the following options: a) Customized Branding; b) Live Operator Response, and c) Live Operator Response with Customized Branding.

9.1.1 Service DescriptionStandard Directory Assistance

Calls from the customer's end user are answered by an automated voice recording and response system. The listing is located by an operator before release to a voice response unit which allows the end user to hear the listing. No branding is provided and live operator intervention occurs only as needed to complete the call.

Standard with Customized Branding

The identity of the ordering customer is announced on all DA calls before the automated operator query is heard by the end user. The customer provides information required by the Telephone Company for inclusion in this customized front end branding announcement.

Live Operator Response

Calls from the customer's end users are answered by an operator who queries the customer before releasing the requested listing to an automated voice response unit which allows the end user to hear the listing.

Live Operator Response with Customized Branding

Live operator response is provided to customer's end users as described above and the identity of the customer is announced on all DA calls before the customer hears the live operator query.

DA Service is available on a month-to-month basis or 3 and 5 year Term Pricing Plan (TPP) basis.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company

- (A) A Telephone Company DA operator, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company DA records associated with the name given at the rates and charges as set forth in 9.6 following. The Telephone Company's contact with the customer's end user shall be limited to that effort necessary to process a customer's end user's request for a telephone number; and the Telephone Company will not transfer, forward or redial a customer's end user call to any other location for any purpose other than provision of DA Service.
- (B) A maximum of two (2) requests for telephone numbers will be accepted per call to the DA operator.
- (C) A telephone number which is not listed in DA records will not be available to the customer's end user.
- (D) The Telephone Company will specify the DA location which provides the DA Service for each numbering plan area code (NPA). The DA locations are as shown in Exchange Carrier Association Tariff F.C.C. No. 2.

When it becomes necessary, as determined by the Telephone Company, to change a DA location, the Telephone Company will notify the involved customers six months prior to the change. For such changes, the regulations as set forth in 2.1.7 preceding apply.

- (E) When DA Service is ordered, Directory Access Service will be provided between the customer premises and the DA location by the Telephone Company at rates and charges as set forth in 9.6 following, as follows.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(1) General

Each Directory Access Service will consist of the following:

- An Interface Group equipped with an available Premises Interface Code at the customer's premises.
- Directory Transport between the premises of the ordering customer and the DA location.

When required by the Telephone Company, a separate Directory Access Service trunk group will be provided for DA Service for each NPA. Separate trunk groups will be required when the Telephone Company notifies the customer that the mechanized search of its data base and its mechanized operator practices require a mechanized identification of the NPA code for which the customer's end user desires DA information.

Further, when an access tandem is available and is provided, the Directory Access Service will be provided, at Telephone Company choice, either as a separate Directory Access Service trunk group or in combination with Trunkside BSA-950 Option or Trunkside BSA-101XXXX Option Switched Access Service.

(D)

(2) Interface Group and Premises Interface Code

Interface Groups 2 through 10 as set forth in 6.1.2(A) (1) preceding are available for Directory Access Service. When only Directory Access Service is provided, only the following Premises Interface Codes are available:

4DS9-15	6EA2-E	4AH5-B
4DS9-31	6EA2-M	4AH6-C
4DS0-63	4SF3	4AH6-D
4DS6-44	4RV2-0	
4DS6-27

(T)
(T)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(2) Interface Group and Premises Interface Code (Cont'd)

Such Premises Interface Codes are described in 6.1.2(A)(1) preceding. When Directory Access Service is combined with Trunkside BSA-950 Option, Trunkside BSA-101XXXX Option and Feature Group B or D Switched Access Service, the Premises Interface Code for combination will be the available Premises Interface Code provided for the Trunkside BSA-950 Option, Trunkside BSA-101XXXX Option and Feature Group B or D Switched Access Service ordered by the customer. Except as set forth in 9.4(A) following:

The Interface Groups and Premises Interface Codes provided under a Special Order for Directory Access Service are subject to the order conditions as set forth in 5. preceding. For purposes of applying the order regulations, a DA location is considered to be a customer end user serving wire center.

(T)
(T)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport

Directory Transport provides the transmission facilities and transport termination between the premises of the ordering customer and the DA location. For purposes of determining Directory Transport mileage, distance will be measured from the wire center that normally serves the customer premises to the DA location(s).

Directory Transport is a two-way voice frequency transmission path composed of facilities determined by the Telephone Company. The two-way voice frequency path transports calls in the terminating direction (from the premises of the ordering customer to the DA location). The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency band width of approximately 300 to 3000 Hz.

The Telephone Company will determine whether the Directory Access Service is to be routed directly to a DA location or through an access tandem switch appropriately equipped for DA measurement and served by DA trunks to the DA location when such an access tandem switch is available. The combination of Trunkside BSA-950 Option, Trunkside BSA-101XXXX Option and Feature Group B or D Switched Access Service with DA Service will only be provided at such available and appropriately equipped access tandem switches. If the customer desires the traffic routing to be other than that selected by the Telephone Company, it may request a cooperative effort to determine if customer specified traffic routing can be used in lieu of the Telephone Company selected traffic routing.

(T)
(T)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

When Directory Transport is provided using a direct route to the DA location, no address signaling is provided. When Directory Transport is provided with the use of an access tandem switch, wink start-start pulsing signaling is provided at the access tandem switch. The customer will be notified by the Telephone Company when access tandem routing is provided and the customer shall address each call to the DA location using 411, NPA + 555 + 1212 or, when required by the Telephone Company, 555-1212. Only NPA codes handled by the DA location served by the access tandem switch will be processed.

The number of Directory Transport transmission paths provided is based on the customer's order and is determined by the Telephone Company in a manner similar to Switched Access transmission paths as set forth in 6.6.5 preceding.

Directory Transport may, at the option of the customer, be provided for both interstate and intrastate communications. When the customer requests such mixed access, the interstate Directory Transport charges will be determined by the Telephone Company using the data furnished by the customer as set forth in 2.3.14 preceding.

Except as set forth in 9.4(A) following, Directory Transport provided under a Special Order is subject to the order conditions as set forth in 5 preceding.

Directory Transport is provided with a Local Transport Interface Group as set forth in 6.1.2(A)(1) preceding. Only Local Transport Interface Groups 2-10 will be provided.

(4) Special Facilities Routing

A customer may request that Directory Access Service be provided via Special Facilities Routing. The regulations, rates and charges for Special Facility Routing (Avoidance, Diversity and Cable Only) are set forth in 11 following.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(5) Design Layout Report

The Telephone Company will provide to the customer the makeup of the facilities and services provided under this section as Directory Access Service. This information will be provided in the form of a Design Layout Report similar to that as set forth in 6.1.5. Design Layout Reports for Directory Access Service will be provided only when specifically requested by the customer. The Design Layout Report will be provided to the customer at no charge, and will be reissued or updated whenever the facilities provided for the customer's use are materially changed.

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(6) Transmission Specifications

Directory Access Service is provided with either Type A or B Transmission Specification. The specifications associated with the parameters are guaranteed to the DA location, whether routed directly or via an access tandem. Type B Transmission Specification is provided with Interface Groups 2 through 10 when routed direct to a DA location. Type A Transmission Specification is provided with Interface Groups 2 through 10 when routed via an access tandem switch.

When DA Service is combined with Trunkside BSA-101XXXX Option and Feature Group D Switched Access Service, Type A Transmission Specification is provided. When DA Service is combined with Trunkside BSA-950 Option and Feature Group B Switched Access Service, Type B Transmission Specification is provided for Interface Group 2 through 10. Type A and B Transmission specifications are set forth in 6.5.1 preceding.

(D)

- (7) The acceptance testing and testing capabilities for Directory Access Service traffic routed through an access tandem are the same as those for the associated Trunkside BSA-101XXXX Option and Feature Group D end office switching. The acceptance testing for Directory Access Service traffic routed directly to or routed in a separate trunk group through an access tandem to the DA location will be as set forth in 6.1.6 preceding. The testing capabilities for Directory Access Service traffic routed directly to or routed in a separate trunk group through an access tandem to the DA location will be as set forth for cooperative scheduled testing or manual scheduled testing in 13 following.

(T)

(T)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

- (F) Trunk side switching is provided at the DA Service access location. The DA Service access location will provide trunk answer and disconnect supervisory signaling.
- (G) The Telephone Company will distribute the calls received over the Directory Access Services to the DA operators using the DA location access equipment.
- (H) In the event that the telephone number is unavailable to the DA operator, no credit applies for the charge for the call to the DA operator. When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect number is provided, a credit as set forth in 9.4(I) following will apply. (T)
- (I) DA Service may, at the option of the customer, be provided for interstate and intrastate communications. When the customer requests such mixed access, the interstate DA Service charges will be determined by the Telephone Company using the data furnished by the customer as set forth in 2.3.14 preceding.

9.3 Obligations of the Customer

- (A) The customer shall specify the number of trunks and interface type of Directory Access Services it needs for DA Service. Customers ordering Standard Directory Assistance must provide transmission facilities directly to the DA location designated by the Telephone Company or through an access tandem switch appropriately equipped for DA measurement and served by DA trunks to the designated DA location. Customers ordering customized branding and/or live operator response options must provide transmission facilities directly to the designated DA location rather than through a tandem access switch. In addition, for 3 and 5 year TPP rates, the customer must screen and deliver NPA 555-1212 calls to specifically designated DA locations or access tandems prior to the commencement of the term.

Effective: September 21, 2007

Vice President, Federal Regulatory
1300 I Street, NW, Washington, DC 20005(T)
(T)

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.3 Obligations of the Customer (Cont'd)

- (B) For month-to-month DA Service, the customer must order the service for at least six months. Thereafter, additional service may be ordered for a minimum of six months. Not later than three months prior to the end of the six months period, the customer shall notify the Telephone Company if the service is to be discontinued at the end of the six month period. If no notice is received from the customer, the Telephone Company will automatically extend the service for another six months and all appropriate charges as set forth in 9.6 following for another six months will apply.

For 3 year and 5 year Term Pricing Plans, the customer shall provide notice of renewal or discontinuance not later than three months prior to the end of the selected TPP term. If no notice is received, the customer's DA Service subscription will automatically extend for another six months under the rates, charges, and other conditions applicable to month-to-month Service. If the customer discontinues or reduces service during the TPP term, the customer will pay termination liability as specified in Section 9.4(C) following.

- (C) The customer facilities at the premises of the ordering customer shall provide the necessary on-hook and off-hook supervision.
- (D) When requested by the Telephone Company, the customer shall order a separate trunk group for DA Service for each NPA. The conditions when the customer will be requested to order separate trunk groups for each NPA are set forth in 9.2(E) (1) preceding.
- (E) When the customer bills its end users, the customer shall be responsible for all contacts and arrangements with its end users concerning the provision and maintenance of, and the billing and collecting of charges, for DA service furnished to its end users. When the Telephone Company bills the customer's end users at the request of the customer, contacts and arrangements with customer end users concerning the billing and collecting of charges will be as set forth in 8.2 preceding.
- (F) The customer understands that DA Operators will only respond to two (2) telephone number requests per call and will not transfer, forward or redial the call to another location for any purpose other than the provision of DA Service.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements(A) Minimum Periods

For month-to-month service the minimum period for which DA Service and the Directory Access Service is provided and for which charges apply is six months. A minimum period of six months applies for each additional period of service ordered or extended.

If DA Service is discontinued prior to the end of each six month period, the charges that apply for the remaining months are the non-recoverable costs. Such costs include the non-recoverable cost of equipment and material ordered, provided or used, plus the non-recoverable cost of installation and removal including the costs of engineering, labor, supervision, transportation, rights-of-way and other associated costs less estimated net salvage.

For 3 and 5 year TPPs, the term selected by the customer will be the minimum period and termination liability as specified in Section 9.4(C) following will apply.

(B) Minimum Monthly Charge

For month-to-month service, DA service is subject to a minimum monthly charge. The minimum monthly charge for Directory Assistance Service calls is the charge as set forth in 9.6 following for the actual usage for the month.

(C) TPP Minimum and Termination Liability

- (1) Except as set forth in (D) following, termination liability payment shall apply when a customer cancels or reduces service in full or in part prior to the end of the selected term period or when the customer fails to comply with the conditions required for a 3 or 5 year Term Pricing Plan.
- (2) A customer's minimum call volume shall be the number of Directory Assistance calls the customer delivered to the Telephone Company in the twelve month period immediately preceding the selected TPP term. If the customer has not previously delivered DA calls to the Telephone Company in that twelve month period, the minimum call volume shall be determined upon the conclusion of the twelfth consecutive month of delivering DA calls to the Telephone Company.

If the customer discontinues service prior to the conclusion of a twelve month period necessary to establish the minimum call volume, the call volume will be determined by multiplying the monthly average for the number of months the customer had service by twelve.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(C) Termination Liability (Cont'd)

- (3) The quantity of calls subject to termination liability is based on the minimum call volume. When the customer's actual usage in any year of the term falls below the customer's minimum call volume, the customer has the option of either (a) or (b) following:

- (a) Reducing the original minimum call volume and paying for the difference between the minimum and reduced call volumes at the month-to-month per call rates.

For example, a customer with a minimum call volume of 1000 calls elects to reduce the minimum call volume to 900 calls. Customer will pay the difference (1000-900) multiplied by the month-to-month rate.

- (b) Remaining with the original minimum call volume and paying for a missed commitment level using the following calculation:

100% of the TPP per call charges is applied to the difference between 90% of the minimum call volume and the actual call volume.

For example, a customer with a minimum call volume of 1000 calls for the previous year elects to maintain that 1000 call commitment level in the following year. If the actual call volume was 800 calls, this customer will pay 100% of the TPP charges for 100 calls; [i.e., 90% of 1000 (minimum volume) = 900 (adjusted minimum) - 800 (actual volume) = 100 calls].

- (4) The termination liability charge is calculated as follows:

(a) First Year

For services discontinued within the first year, the customer will be liable for the total charges for the minimum call volume for the first year at month-to-month rates and 15% of the total charges for the remainder of the term commitment period based on the minimum call volume at month-to-month rates. Amounts previously paid by customers for the Telephone Company calls handled in the first year shall be applied as a credit to the total due the Telephone Company.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(C) Termination Liability (Cont'd)

(4) (Cont'd)

(b) Subsequent Years

For services discontinued after the first 12 months of a plan, customers will be liable for the difference between the rate actually paid and the lowest rate that would have applied based on the term of customer's actual usage (adjusted rate) in addition to 5% of the total charges for the remaining portion of their term commitment period.

For example, if a customer in a 5-year term plan disconnects at the end of 36 months, the highest TPP period that could have been satisfied is three years. The termination liability would be calculated as follows: 3-year monthly term rate minus 5-year monthly term rate X calls handled, plus 5% X 2 remaining years X minimum call volume X 3 year rate.

(D) TPP Termination Without Liability

- (1) A TPP may be canceled without liability should the tariff rates applicable to the customer increase.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(D) TPP Termination Without Liability (Cont'd)

- (2) Termination liability specified in 9(4)(C)(4) will not apply if the customer subscribes at the same minimum call volume to another Telephone Company Directory Assistance term plan of equal or greater length than the unexpired portion of the current term. The rates of the new term plan shall apply to the remainder of the new term plan.

If the customer fails to provide the Telephone Company at least seven months advance notice before the conversion to the alternative Telephone Company Directory Assistance term plan, then the customer is liable for any non-recoverable nonrecurring costs associated with converting a TPP to another Telephone Company Directory Assistance Service. Such costs include the non-recoverable costs of equipment and material ordered, provided, or used, plus the non-recoverable cost of installation and removal including the costs of engineering, labor, force reductions, supervision, transportation, rights-of-way, and other associated costs less estimated net salvage.

(Issued under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(E) Cancellation of A Special Order

A customer may cancel a Special Order for DA Service on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the Special Order is to be cancelled. The verbal notice must be followed by written confirmation within 10 days.

When a customer cancels a Special Order for DA Service after the order date but prior to the start of service, the appropriate charges as set forth in 5. preceding apply for the Directory Access Service cancelled. In addition, a charge equal to any unrecoverable capital costs incurred by the Telephone Company will apply to the customer.

(F) Changes to Special Orders

When a customer requests changes to a pending order for DA Services, such changes will be undertaken if they can be accommodated by the Telephone Company. The appropriate charges as set forth in 5. preceding apply for the Directory Access Service changed. In addition, a charge equal to any other costs incurred by the Telephone Company because of the change will apply.

(G) Moves

A move involves a change in the physical location of the point of termination at the customer premises or of the customer premises. Moves will be treated as set forth in 6.8.7 preceding and all associated nonrecurring charges will apply. Minimum period requirements will be established at the new location as set forth in 6.8.7 preceding. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

(H) DA Service Rearrangements

Nonrecurring charges apply for service rearrangements. Service rearrangements are as set forth in 6.8.1(C)(2) preceding. The Service Rearrangement Charges are as set forth in 6.8.1(C)(2) for the type of change provided by the Telephone Company.

(Issued under Transmittal No. 23)

Effective: April 28, 2001

Vice President
2980 Fairview Park Drive, Falls Church, Virginia 22042

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(I) Credit Allowance For DA Service

- (1) When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect number is provided and a customer DA call has been answered or forwarded to a DA operator, a credit allowance for a call answered or forwarded to the DA operator equal to the rate for a Directory Assistance Service Call as set forth in 9.6 following plus the rate for a Directory Transport call will be applied to the customer's charges. The rate for a Directory Transport call will be the average of the Directory Transport rates per call as set forth in 9.6 following.
- (2) In addition to the credit as set forth in (1) preceding, when a DA operator or DA equipment provides an incorrect number for a call and the customer reports such occurrences to the Telephone Company, a credit allowance for such DA call will apply. The credit will be as set forth in (3) following. When the customer reports such a call and the number requested, the number provided and the reason the number provided is incorrect, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer.
- (3) When a DA call is not completed due to the failure of Directory Access Service to DA locations, DA access equipment or DA operator activities, a credit allowance for the Switched Access Service portion in the originating LATA of such DA call will apply. When the customer reports such a call and DA number dialed, time of the call and the date of the call, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer. The credit will be as set forth following:
 - (a) Credit per call when Switched Access Service is billed using Transitional rates (.0050)*
 - (b) Credit per call when Lineside BSA, Trunkside BSA - 950 Option, or Feature Group A or B Switched Access Service is billed using Premium per minute rates (.0100)*
 - (c) Credit per call when Trunkside BSA-101XXX Option, or Feature Group D Switched Access Service is billed using Premium per minute rates (.0100)*

* () equals a negative amount.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(I) Credit Allowance For DA Service (Cont'd)

- (4) Credit allowances for other service interruptions will be provided as set forth in Section 2.7.1.1 preceding. (T)

9.5 Rate Regulations

- (A) The Directory Assistance service call charge, as set forth in 9.6 (A) following, applies for each call to DA Service. A call is a call which has been answered by or forwarded to a DA operator. The charge applies whether or not the DA operator provides the requested telephone number. The number of calls answered or forwarded to DA operators will be accumulated by Telephone Company measuring equipment. A credit for the provision of an incorrect telephone number will be applied as set forth in 9.4(I) preceding. (T)

The Directory Transport rate is comprised of the Tandem-Switched Transmission rate, the Tandem-Switching rate, a Tandem-Multiplexing rate and an Interconnection Charge.

- (B) The mileage for Directory Transport is measured from the serving wire center for the premises of the ordering customer to the DA location. Title Page notwithstanding, these two wire centers may be in different LATAs. In addition, the premises of the ordering customer must be in the LATA where DA service is requested or in the LATA where the DA location is located. The measurement will be performed as set forth in 6.8.13 preceding.
- (C) The charge per call for Directory Transport, as set forth in 9.6 (B) following, applies for each call to DA Service. A call is as set forth in (A) preceding. The number of calls will be accumulated as set forth in (A) preceding.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.8 Operator Services-Automatic Call Distribution ServiceA) General

The Telephone Company will use Nortel's Telephone Operator Position System (TOPS™) to provide Operator Services-Automatic Call Distribution (OS-ACD) Service. (TOPS™ is a Nortel registered trademark.) OS-ACD Service will provide operator distribution functionality to customers who deliver calls to the Telephone Company's network. The Telephone Company will queue, route, and manage calls to customer-provided operator terminals that are compatible with Nortel's Open Position Protocol (OPP). Each call can be branded with a customized announcement as an optional feature of OS-ACD Service. The number of positions served and the call processing capacity of OS-ACD Service is engineered based on the customer's requirements and the Telephone Company's available capacity.

- 1) The customer is responsible for transport facilities required to transport calls to the designated OS-ACD switch.
- 2) The customer is responsible for interconnecting facilities between the designated OS-ACD switch and the customer's OSP.

B) Availability

OS-ACD Service is available at switch locations designated by the Telephone Company and as identified in National Exchange Carrier Association (NECA) Tariff F.C.C. No. 4. Effective August 18, 2001, OS-ACD Service will be available to customers in the state of Pennsylvania. Additional switch locations will be added, and will be published in the NECA Tariff F.C.C. No. 4, as facilities become available.

C) Technical Requirements

Nortel's Open Position Protocol (OPP) is used as the network interface between OS-ACD Service and the customer's OSPs. The OPP network interface is defined in Nortel Document No. Q214-1. Compatible customer provided equipment (CPE) and software will also be required.

(S) Reissued material filed under Transmittal No. 77 and scheduled to become effective August 18, 2001.

(X) Filed under authority of Special Permission No. 01-091 of the Federal Communications Commission.

ACCESS SERVICE

10. Federal Government Access Services

The Federal Government Special Access Services included in this tariff are Non-Competitive End-User Channel Terminations. Other Federal Government Special Access Service components needed to complete a circuit are available as described in Section 1.1 preceding. (N)
|
|
(N)

10.1 General

This section covers Access Services that are provided to a customer for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. Services provided to state emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security. In addition, this section covers the Telecommunications Service Priority (TSP) System service and procedures as set forth in 10.8.1(D) since it is administered by the Federal Government.

Services for command and control communications and for national security and emergency preparedness may sometimes be provided under non-emergency conditions for a short duration to determine network assurance. However, the Telephone Company reserves the right to limit or to decline participation in these non-emergency condition requests for service.

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when the emergency falls into one of the following categories:

- (A) State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters").

(This page filed under Transmittal No. 1400)

ACCESS SERVICE

10. Federal Government Access Services (Cont'd)10.2 Emergency Conditions (Cont'd)

- (B) Efforts to protect endangered U.S. personnel or property both in the U.S. and abroad. (Includes space vehicle recovery and protection efforts.)
- (C) Communications requirements resulting from hostile action, a major disaster or a major civil disturbance.
- (D) The director (Cabinet level) of a Federal department, Commander of a Unified/Specified Command, or head of a military department has certified that a communications requirement is so critical to the protection of life and property or to the National Defense that it must be processed immediately.
- (E) Political unrest in foreign countries which affect the national interest.
- (F) Presidential service.

10.3 Intervals to Provide Service

Certain services provided under the provisions of this section of the tariff are provided on an individual case basis. Therefore, orders for such service shall be placed under the negotiated Interval provisions set forth in 5.2.1.(B) preceding.

(This page filed under Transmittal No. 23)

ACCESS SERVICE

10. Federal Government Access Services (Cont'd)10.4 Facility Availability

In order to insure communications during periods of emergency, the Telephone Company will, within the limits of good management, make available the necessary facilities to restore service in the event of damage or to provide temporary emergency service as set forth in Section 10.8.1(D) and 10.8.2.(D), following.

In order to meet the requirements of agencies or branches of the Federal Government, the Telephone Company may utilize government-owned facilities, when necessary to provide service.

10.5 Federal Government Regulations

In accordance with Federal Government Regulations, all service provided to the Federal Government will be billed in arrears. However, this provision does not apply to other customers that obtain services under the provisions of this tariff to provide their services to the Federal Government.

ACCESS SERVICE

10. Federal Government Access Services (Cont'd)10.8 Security and Emergency Services (Cont'd)10.8.1 Type and Description (Cont'd)(C) Special Routing Access Service (Cont'd)

This service is an optional service which operates in conjunction with Trunk Side Premium Access Service furnished under other provisions of this tariff.

The Telephone Company will manually record Special Routing Access Service Active Mode Trunk Usage, and will bill the customer in accordance with these records. The hours for each trunk ordered will be summed and then rounded to the nearest half hour, except that when the initial activation total is less than one hour, one hour will be used to determine the charge.

(D) Telecommunications Service Priority (TSP) System

- (1) Priority installation and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services shall be provided in accordance with Part 64.401, Appendix A, of the Federal Communications Commission's (FCC's) Rules and Regulations.

In addition, TSP System service shall be provided in accordance with the guidelines set forth in "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service Vendor Handbook (T)
National Communications System (NCS) H 3-1-2", (T)
and "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service User Manual, (T)
National Communications System (NCS) M 3-1-1". (T)

The TSP System is a service, developed to meet the requirements of the Federal Government, as specified in the Service Vendor's Handbook and Service User's Manual which provides the regulatory, administrative and operational framework for the priority installation and/or restoration of NSEP telecommunications services. These include both Switched and Special Access Services. The TSP System applies only to NSEP telecommunications services, and requires and authorizes priority action by the Telephone Company providing such services.

- (2) The TSP System's applicability is limited to Access Services which the Telephone Company can discreetly identify for priority provisioning and/or restoration.

(Issued under Transmittal No. 1037)

ACCESS SERVICE

10. Federal Government Access Services (Cont'd)10.8 Security and Emergency Services (Cont'd)10.8.1 Type and Description (Cont'd)(D) Telecommunications Service Priority (TSP) System
(Cont'd)

- (3) Some of the elements required for the TSP System are included in other sections of this tariff as general service offerings. They have been referenced in this section to reflect the complete TSP System with appropriate references to those other sections of the tariff for regulations, rates and charges.
- (4) The customer for TSP System Service also must be the same customer for the Access Service with which it is associated.
- (5) Under certain conditions it may be necessary to preempt one or more customer services with a lower or no restoration priority in order to install or restore NSEP telecommunications service(s) of a higher priority. If such preemption is necessary, and if circumstances permit, the Telephone Company will make reasonable effort to notify the preempted service customer of the action to be taken. Credit allowance for such service preemption shall be made in accordance with the provisions set forth in 2.4.4(E) preceding concerning Temporary Surrender of a Service.
- (6) The customer, in obtaining TSP System service, acknowledges and consents to the provision of certain customer service record information by the Telephone Company to the Federal Government, as specified in the TSP Service Vendor Handbook, in order for the Government to maintain and administer its overall TSP System. This customer service record information will include only TSP Authorization Code and Telephone Company Circuit/Service ID.
- (7) When Priority Restoration Maintenance and Administration, as defined in the TSP Service Vendor Handbook, is discontinued (Revocation of Assigned Restoration Priority), and the associated Access Service is continued in service, the charge specified in 10.8.2(D) (2) (C) will not apply for such a discontinuance.

(Cont'd)

- (8) Credit allowance for service interruption for Priority Restoration Maintenance and Administration shall be the same as for the Access Service with which it is associated as set forth in Section 2.7.1.1 preceding. (T)

- (9) Certain activities performed by the Telephone Company in association with the TSP System are as follows:

- (a) Priority Installation Invocation includes System Implementation, Verification, Confirmation, and Preemption.
 - (b) Priority Restoration Level Implementation includes System Implementation, Verification, and Confirmation.
 - (c) Priority Restoration Level Change includes Verification and Confirmation.
 - (d) Priority Restoration Maintenance and Administration includes Reconciliation and Preemption.
- (10) The customer, in obtaining a Priority Restoration, recognizes that quoting charges and obtaining permission to proceed with the installation or restoration of certain Access Services will cause unnecessary delays. In subscribing to Priority Restoration service the customer recognizes this condition and grants the Telephone Company the right to quote charges after the restoration has been completed.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.9 Specialized Service and Arrangements10.9.2 Government Emergency Telecommunications-Alternate Carrier Routing Service (GETS-ACR)

GETS-ACR is an emergency telecommunications service offered by the United States Government Office of the Manager, National Communications System (OMNCS). Access to GETS-ACR is accomplished through the use of the 710 non-geographical Numbering Plan Area (NPA) code activated in end offices and tandem switching office systems, and by an Interexchange Carrier (IC) designated by the OMNCS as a GETS-ACR designated IC. GETS-ACR Access is available in the entire Telephone Company service area. The GETS-ACR 710 non-geographical NPA code will be opened in all areas serviced by the Telephone Company.

GETS-ACR allows the GETS universal access number 710-NCS-GETS or 1 plus the GETS access number, to be treated uniquely within the public network. GETS-ACR routes the call alternately to three pre-selected Interexchange Carriers (ICs), identified by their Carrier Identification Codes (CICs). Calls are routed based on a predetermined sequence:

- Primary IC
- Alternate IC
- Second Alternate IC

GETS-ACR facilities are designed to be used only for emergency government telecommunications and for testing of government emergency systems and may not be used by unauthorized end users. The Telephone Company will work cooperatively with the customer to provide service at the customer's request where facilities are available. In cases where facilities are not available, the Telephone Company will provide service to the customer as soon as reasonably possible.

(A) Rates and Charges

		Monthly USOC	Nonrecurring Rate	Charge
GETS-ACR Code Activation

10. Special Federal Government Access Services (Cont'd)10.9 Specialized Service and Arrangements10.9.2 Government Emergency Telecommunications-Alternate Carrier
Routing Service (GETS-ACR) (Cont'd)10.9.2.2 Government Emergency Telecommunications Service
High Probability of Completion/Enhanced Alternate
Carrier Routing (T)
(T)

Government Emergency Telecommunications Service High Probability of Completion/Enhanced Alternate Carrier Routing (GETS HPC/EACR) is an emergency telecommunications service offered by the United States Government Office of the Manager, National Communications System (OMNCS). Access to GETS HPC/EACR provides a greater likelihood that callers using this special arrangement will complete their calls during periods when the Telephone Company network is congested. GETS calls will be marked with a special "high probability of completion" (HPC) designation, which elevates the class of a call above its normal level.

GETS HPC/EACR is available in all end offices and tandem switches in the Telephone Company service area where technically feasible.

GETS HPC/EACR facilities are designed to be used for emergency Federal government telecommunications only and may not be used by unauthorized end users.

(A) Rates and Charges

	Monthly USOC Rate	Nonrecurring Charge
GETS HPC/EACR Service		
- Per End Office	\$35.00	\$2,778.71
- Per Access Tandem	39.01	3,723.94

(Issued under Transmittal No. 855)

Issued: September 6, 2007

Effective: September 21, 2007

Vice President, Federal Regulatory
1300 I Street, NW, Washington, DC 20005

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.9 Specialized Service and Arrangements10.9.2 Government Emergency Telecommunications-Alternate Carrier Routing Service (GETS-ACR) (Cont'd)10.9.2.3 GETS Expanded Enhanced Alternate Carrier Routing (GETS Expanded EACR)

(N)

GETS Expanded EACR provides end offices with the ability to perform EACR on any 10 digit number with the 710 NPA code (710-XXX-XXXX). GETS Expanded EACR is available in end offices in the Telephone Company service area where technically feasible.

(A) Rates and Charges

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.9 Specialized Service and Arrangements10.9.2 Government Emergency Telecommunications-Alternate Carrier
Routing Service (GETS-ACR) (Cont'd)10.9.2.4 GETS Expanded High Probability of Completion
(GETS Expanded HPC) and Office Wide Call/Egress
Queuing/ (N)

GETS Expanded HPC enables suitably equipped offices to recognize any 10 digit number with the 710 NPA code (710-XXX-XXXX) and apply the HPC feature.

GETS Office Wide Call/Egress Queuing (OWCQ/OWEQ) provides a greater likelihood that GETS callers will complete their HPC calls during periods when the Telephone Company network is congested. When all trunks in a public trunk group are busy, Office Wide Call Queuing enables a call to be placed in queue on any member of the trunk group to wait its turn to be passed on through the network to the called destination. When all trunks in a private trunk group (PBX system) are busy, Office Wide Egress Queuing enables a call to be placed in queue until the next trunk is available.

Expanded HPC and OWCQ/OWEQ is available in all end office and tandem switches in the Telephone Company area where technically feasible.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.9 Specialized Services and Arrangements (Cont'd)10.9.6 FAA Telecommunications Infrastructure (FTI)(A) General

The FAA Telecommunications Infrastructure (FTI) is a uniquely rated and designed program providing certain Special Access services for the Federal Aviation Administration (FAA), with Harris Corporation as agent for the FAA. FTI provides Voice Grade Service, Digital Data Service, High Capacity Services (DS1 and DS3), and IntelliLight Broadband Transport (IBT).

(B) Terms and Conditions

- (1) FTI is provided pursuant to a five-year contract and may be renewed up to thirteen times in one-year increments. The service will continue until terminated for up to an 18- year period. (C)
- (2) Except as otherwise stated in this section, the services provided are the same as those services described in Section 7 preceding of this tariff. The services are subject to the general regulations of this tariff unless otherwise stated. (D)
- (3) FTI is available from every wire center in all operating territories under this tariff, subject to the availability of suitable facilities.
- (4) FTI allows connectivity to other Telephone Company services and to any other Interexchange Carrier point of presence (POP) through Collocated Interconnection as described in Section 19 following.
- (5) The rates and charges for FTI are specified in (C) following and apply in lieu of the rates, charges and term plans specified in Section 7 for the specific service involved (D)
- (6) Service connections will utilize the following Network Channel Interface codes.

<u>Service</u>	<u>NC</u>	<u>NCI</u>	<u>SECNCI</u>

(N)

(A) Federal Universal Service Fund (FUSF) Surcharge

EIS customers who are assessed a Subscriber Line Charge (SLC) as specified in Section 4.1.7(A) preceding will be assessed a monthly FUSF Surcharge as specified herein in lieu of the FUSF Surcharges set forth in Section 4.1.7(D) (2) and 4.1.7(D) (4) through 4.1.7(D) (6) preceding. The SLC is included in the EIS customer's rate.

The FUSF Surcharge applicable to EIS will be determined by multiplying an FUSF Surcharge Factor, as set forth in Section 4.1.7(D) (14) preceding, by the SLC portion of the monthly recurring charge applicable to the EIS customer for each of the following services:

- ISDN BRI
- ISDN PRI
- Single Line Business
- Multi-Line Business

ACCESS SERVICE

11. Special Facilities Routing of Access Services11.1 Description of Special Facilities Routing of Access Services

The services provided under this tariff are provided over such routes and facilities as the Telephone Company may elect. Special Facilities Routing is involved when, in order to comply with requirements specified by the customer, the Telephone Company provides Switched Access Service, Special Access Service or Special Federal Government Access Service in a manner which includes one or more of the following conditions:

11.1.1 Diversity

Two or more services must be provided over not more than two different physical routes.

11.1.2 Avoidance

A service must be provided on a route which avoids specified geographical locations.

11.1.3 Cable-Only Facilities

Certain Voice Grade services are provided on Cable-Only Facilities to meet the particular needs of a customer.

Service is provided subject to the availability of Cable-Only facilities. In the event of a service failure, restoration will be made through the use of any available facilities as selected by the Telephone Company.

(This page filed under Transmittal No. 23)

Issued: April 13, 2001

Effective: April 28, 2001

ACCESS SERVICE

11. Special Facilities Routing of Access Services (Cont'd)11.1 Description of Special Facilities Routing of Access Services
(Cont'd)

In order to avoid the compromise of special routing information, the Telephone Company will provide the required routing information for each specially routed service to only the ordering customer. If requested by the customer, this information will be provided when service is installed and prior to any subsequent changes in routing.

The offering of Special Facilities Routing of Access Services contemplates the use of existing facilities. Should facilities not be available, it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations, as set in the appropriate Special Construction tariff as identified in Section 1.5 will apply. However, the applicable rates and charges shall be filed in this section of this tariff, not the Special Construction tariff. In either case of (1) or (2) preceding, the rates and charges for any specific items of cost directly attributable to the provision of this service shall be filed in this section.

The rates and charges for Special Facilities Routing of Access Services as set forth in 11.2 following are in addition to all other rates and charges that may be applicable for services provided under other sections of this tariff.

11.2 Rates and Charges for Special Facilities Routing of Access Service

The rates and charges for Special Facilities Routing of Access Services are as follows:

11.2.1 Diversity

For each service provided in accordance with 11.1.1 preceding.

	<u>USOC</u>	<u>Monthly Rate</u>
Administration - per circuit	DVA	\$ 5.00
		<u>Rates and Charges</u>
Special Facilities - Other	SYD++	ICB rates and charges apply

ICB Rates and charges are filed in 11.2.5 following.

ACCESS SERVICE

12. Specialized Service or Arrangements12.1 General

Specialized Service or Arrangements may be provided by the Telephone Company, at the request of a customer, on an individual case basis if such service or arrangements meet the following criteria.

- (A) The requested service or arrangements are not offered under other sections of this Tariff.
- (B) The facilities utilized to provided the requested service or arrangements are of a type normally used by the Telephone Company in furnishing its other services.
- (C) The requested service or arrangements are provided within a LATA.
- (D) The requested service or arrangements are compatible with other Telephone Company services, facilities, and its engineering and maintenance practices.
- (E) This offering is subject to the availability of the necessary Telephone Company personnel and capital resources.

12.2 Move Charges

- (A) When service without a maximum termination liability charge associated with it is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.
- (B) When service with a maximum termination liability charge associated with it is moved and is reinstalled at a new location, the customer may elect:
 - to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
 - to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

ACCESS SERVICE

12. Specialized Service or Arrangements (Cont'd)12.3 Rates and Charges (Cont'd)District of Columbia (Cont'd)

National Broadcasting Company, Inc.

Provision of an analog matrix video switching arrangement. The switch is to be located in the Telephone Company Audio/Video Operations Center (AVOC) at 730 12th Street, NW, Washington, DC. The arrangement will consist of a 128 x 128 frame that will be initialized as a 96 x 80 matrix switch. Included in the initial arrangement is 12 control interface ports; one for the Telephone Company's administration and maintenance activity, and eleven for NBC. NBC shall provide for control circuits between the AVOC and NBC's 30 Rockefeller Plaza, New York location.

In addition to the initial matrix, the video switch may be expanded in increments of 16 ports to its full capacity of 128 X 128. Additional control interface ports, up to a maximum of 50, may also be ordered.

NBC will be credited 50% of the monthly rate for the full arrangement, the initial order and any in service expansion, whenever there is a service outage/service interruption of thirty or more consecutive minutes. Total monthly credits will not exceed the monthly charge.

The contract period for this arrangement is 120 months and is subject to early termination liability. The maximum termination liability charge, MTL, for the 96 x 80 matrix arrangement is \$160,200.00. The MTL is applicable for the first twenty-four months of this service arrangement and will decrease by 1/96th per month (\$1,670.00/mo) for each subsequent month this arrangement remains in service. Termination liability is not applicable for an upgrade in capacity or functionality of the switch.

The voice grade data control circuit(s) and video transmissions are not a part of this arrangement. They are to be supplied by the customer and may be purchased from the Telephone Company at the rates specified in Section 7 of this tariff. Case No. 1922-95B.

ACCESS SERVICE

12. Specialized Service or Arrangements (Cont'd)12.3 Rates and Charges (Cont'd)Verizon (Cont'd)**CRESTAR BANK**Description

Provision of a specialized arrangement for a private network. This arrangement will be composed of Newbridge multiplexers, associated cards, and transmission links between customer locations in the Washington metropolitan area and to the customer's interexchange carrier.

Terms and Conditions

The contract period for this special arrangement is five years and commences on the effective date of this tariff.

Monthly charges will be assessed for each multiplexer, its associated cards (the circuit boards used to configure the network) and for each transmissions link.

Monthly charges cover recurring and nonrecurring costs and are divided into two rate tiers. Tier A rates, those associated with capital cost recovery, are stabilized throughout the contract period. Tier B rates, which cover costs for ongoing maintenance and administration of the network, are subject to annual CPI adjustments with a maximum adjustment of 5% per year.

The customer may order additional contract services through the first half of year 5 of the contract period. These services will be assessed the applicable rates for the given year of the contract period; i.e., all facilities placed in service during year 2 will be billed rates applicable for the second year of the contract.

A nonrecurring case preparation charge is assessed when the service is activated.

In the event that service is terminated before the end of the 5-year contract period an Early Termination Provision (ETP) applies. ETP is assessed as follows:

- For any multiplexing service, including associated cards, terminated prior to the end of the contract period, Crestar will be liable for the Tier A charges for the months remaining in the contract period.
- For Transmission Links terminated before the end of the contract period, Crestar will be liable for twenty-five percent (25%) of the total monthly charges remaining in the contract period.
