

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ORIGINAL TARIFF EFFECTIVE: JANUARY 31, 1992

ACCESS SERVICE

Regulations, Rates and Charges
applying to the provision of Access Services
within a Local Access and Transport Area (LATA) or equivalent
market area for connection to interstate communications facilities
for customers within the
operating territory of the

BELLSOUTH TELECOMMUNICATIONS, LLC

The title and street address of this tariff's Issuing Officer are located on the top of Page 1, the Check Sheet.

Access Services are provided by means of wire, fiber optics, radio or any other suitable technology or a combination thereof.

This tariff cancels BellSouth Telecommunications, Inc. Tariff F.C.C. 1 in its entirety.

X This tariff is filed under the authority of Special Permission No. 11-005 of the Federal Communications Commission.

ISSUED: JANUARY 31, 2024

EFFECTIVE: FEBRUARY 6, 2024

Issuing Officer: Kristen E. Shore, Assistant Vice President - Regulatory

ACCESS SERVICE
CHECK SHEET

The Title Page and Pages 1 to 29-48 inclusive of this tariff are effective as of the date shown. Original and revised pages as named below and Supplement Nos. 1 and 2 contain all changes from the original tariff that are in effect on the date hereof.

ACCESS SERVICE

1 - Application of Tariff

- 1.1 This tariff contains regulations, rates and charges applicable to the provision of Carrier Common Line, End User Access, BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Services, BellSouth Virtual Expanded Interconnection Service, Lifeline Assistance, Federal Universal Service Fund (FUSF) Surcharge and other miscellaneous services, hereinafter referred to collectively as service(s), provided by the BellSouth Telecommunications, Inc., hereinafter referred to as the Telephone Company, to customers.

Pursuant to the Commission's Rules at Section 69.4(c), 69.5(d), 69.104(1), 69.116, 69.117, 69.603(c), and 69.603(d), regulations concerning administration and billing of Lifeline Assistance and FUSF Surcharge, rates and charges for these carrier's carrier elements are contained in Section 8 of the National Exchange Carrier Association, Inc., Tariff F.C.C. No. 5. The National Exchange Carrier Association, Inc. will bill and collect all Lifeline Assistance and FUSF Surcharges on behalf of the Telephone Company.

- 1.2 The provision of such services by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with the customer for the furnishing of any service.
- 1.3 The operating territory of the Telephone Company is comprised of the locations set forth in Section 15 following for the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations

2.1 Undertaking of the Telephone Company

2.1.1 Scope

- (A) The Telephone Company does not undertake to transmit messages under this tariff.
- (B) The Telephone Company shall be responsible only for the installation, operation and maintenance of the service it provides.
- (C) The Telephone Company will, for maintenance purposes, test its services only to the extent necessary to detect and/or clear troubles.
- (D) Services are provided 24 hours daily, seven days per week, except as set forth in other applicable sections of this tariff.
- (E) The Telephone Company does not warrant that its facilities and services meet standards other than those set forth in this tariff.

2.1.2 Limitations

- (A) The customer may not assign or transfer the use of services provided under this tariff, except as provided herein. Where there is no interruption of use or relocation of the services, such assignment or transfer may be made for all services, to:
 - (1) Another customer whether an individual, partnership, association or corporation, provided the assignee or transferee assumes all outstanding indebtedness for such services, and the unexpired portion of the minimum period and the termination liability applicable to such services, if any; or
 - (2) A court-appointed receiver, trustee or other person acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings, provided the assignee or transferee assumes the unexpired portion of the minimum period and the termination liability applicable to such services, if any.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.1 Undertaking of the Telephone Company (Cont'd)

2.1.2 Limitations (Cont'd)

(A) (Cont'd)

(2) (Cont'd)

In all cases of assignment or transfer, the written acknowledgment of the Telephone Company is required prior to such assignment or transfer. Such acknowledgment shall be made within 15 days from the receipt of notification. All regulations and conditions contained in this tariff shall apply to such assignee or transferee.

The assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly or severally liable with the assignee or transferee for any obligations existing at the time of the assignment or transfer.

- (B) The use and restoration of services shall be in accordance with Part 64, Subpart D, and Part 64, Appendix A, of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.
- (C) Subject to compliance with the rules mentioned in (B) preceding, the services offered herein will be provided to customers on a first-come, first-served basis.

2.1.3 Liability

The following liability provisions apply for all services except BellSouth Virtual Expanded Interconnection Service. Liability provisions for BellSouth Virtual Expanded Interconnection arrangements are contained in 20.26 following.

- (A) The Telephone Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a customer, or by any others, for damages associated with the installation, provision, preemption, termination, maintenance, repair or restoration of service, and subject to the provisions of (B) through (H) following, the Telephone Company's liability shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected. This liability for damages shall be in addition to any amounts that may otherwise be due the customer under this tariff as a Credit Allowance for a Service Interruption.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.1 Undertaking of the Telephone Company (Cont'd)

2.1.3 Liability (Cont'd)

- (B) The Telephone Company shall not be liable for any act or omission of any other carrier or customer providing a portion of a service, nor shall the Telephone Company for its own act or omission hold liable any other carrier or customer providing a portion of a service.
- (C) The Telephone Company is not liable for damages to the customer premises resulting from the furnishing of a service, including the installation and removal of equipment and associated wiring, unless the damage is caused by the Telephone Company's negligence.
- (D) The Telephone Company shall be indemnified, defended and held harmless by the end user against any claim, loss or damage arising from the end user's use of services offered under this tariff, involving:
 - (1) Claims for libel, slander, invasion of privacy, or infringement of copyright arising from the end user's own communications;
 - (2) Claims for patent infringement arising from the end user's acts combining or using the service furnished by the Telephone Company in connection with facilities or equipment furnished by the end user or IC or;
 - (3) All other claims arising out of any act or omission of the end user in the course of using services provided pursuant to this tariff.
- (E) The Telephone Company shall be indemnified, defended and held harmless by the IC against any claim, loss or damage arising from the IC's use of services offered under this tariff, involving:
 - (1) Claims for libel, slander, invasion of privacy, or infringement of copyright arising from the IC's own communications;
 - (2) Claims for patent infringement arising from the IC's acts combining or using the service furnished by the Telephone Company in connection with facilities or equipment furnished by the end user or IC or;

(E) (Cont'd)

- (3) All other claims arising out of an act or omission of the IC in the course of using services provided pursuant to this tariff.
- (F) The Telephone Company does not guarantee or make any warranty with respect to its services when used in an explosive atmosphere. The Telephone Company shall be indemnified, defended and held harmless by the customer from any and all claims by any person relating to such customer's use of services so provided.
- (G) No license under patents (other than the limited license to use) is granted by the Telephone Company or shall be implied or arise by estoppel, with respect to any service offered under this tariff. The Telephone Company will defend the customer against claims of patent infringement arising solely from the use by the customer of services offered under this tariff and will indemnify such customer for any damages awarded based solely on such claims.
- (H) The Telephone Company's failure to provide or maintain services under this tariff shall be excused by labor difficulties, governmental orders, civil commotions, criminal actions taken against the Telephone Company, acts of God and other circumstances beyond the Telephone Company's reasonable control, subject to the Credit Allowance for a Service Interruption as set forth in 2.4.4 following.

2.1.4 Provision of Services

The Telephone Company, to the extent that such services are or can be made available with reasonable effort, and after provision has been made for the Telephone Company's Telephone Exchange Services, will provide to the customer upon reasonable notice services offered in other applicable sections of this tariff at rates and charges specified therein.

The Telephone Company may discontinue certain Telephone Company services in geographic areas for which the Telephone Company has no customers subscribing to those services and has received no reasonable requests within the prior 30 days.

2 - General Regulations (Cont'd)

2.1 Undertaking of the Telephone Company (Cont'd)

2.1.5 Installation and Termination of Services

With the exception of BellSouth Virtual Expanded Interconnection arrangements the Access Services provided under this tariff (A) will include any entrance cable or drop wiring and wire or intrabuilding cable to that point where provision is made for termination of the Telephone Company's outside distribution network facilities at a suitable location inside a customer-designated premises and (B) will be installed by the Telephone Company to such Point of Termination. Each Access Service has only one Point of Termination per customer premises. Any additional terminations beyond such Point of Termination is the sole responsibility of the customer. The Point of Termination is an inherent part of BellSouth SWA and Special Access (a.k.a. BellSouth SPA) services, therefore, the preceding does not preclude the customer's ability to have each Point of Termination moved as set forth in 6.7.7 and 7.4.5 following for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) services, respectively.

Provisions addressing BellSouth Virtual Expanded Interconnection arrangements are contained in Section 20 following.

2.1.6 Maintenance of Services

The services provided under this tariff shall be maintained by the Telephone Company. The customer or others may not rearrange, move, disconnect, remove or attempt to repair any facilities provided by the Telephone Company other than by connection or disconnection to any interface means used, except with the written consent of the Telephone Company.

2.1.7 Changes and Substitutions

Except as provided for equipment and systems subject to F.C.C. Part 68 Regulations at 47 C.F.R. Section 68.110(b), the Telephone Company may, where such action is reasonably required in the operation of its business, (A) substitute, change or rearrange any facilities used in providing service under this tariff, including but not limited to, (1) substitution of different metallic facilities, (2) substitution of carrier or derived facilities for metallic facilities used to provide other than metallic facilities and (3) substitution of metallic facilities for carrier or derived facilities used to provide other than metallic facilities, (B) change minimum protection criteria, (C) change operating or maintenance characteristics of facilities or (D) change operations or procedures of the Telephone Company. In case of any such substitution, change or rearrangement, the transmission parameters will

be within the range as set forth in Section 6 and Section 7 following. The Telephone Company shall not be responsible if any such substitution, change or rearrangement renders any customer furnished services obsolete or requires modification or alteration thereof or otherwise affects their use or performance. If such substitution, change or rearrangement materially affects the operating characteristics of the facility, the Telephone Company will provide reasonable notification to the customer in writing. Reasonable time will be allowed for any redesign and implementation required by the change in operating characteristics. The Telephone Company will work cooperatively with the customer to determine reasonable notification requirements.

2.1.8 Refusal and Discontinuance of Service

- (A) Unless the provisions of 2.2.1(B) or 2.5 following apply, if a customer fails to comply with 2.1.6 preceding or 2.2.2, 2.3.1, 2.3.4, 2.3.5, 2.3.10 or 2.4 following, including any payments to be made by it on the dates and times herein specified, the Telephone Company may, on thirty (30) calendar days written notice by Certified U.S. Mail or Overnight Delivery to the person designated by that customer to receive such notices of noncompliance, refuse additional applications for service and/or refuse to complete any pending orders for service by the noncomplying customer at any time thereafter. If the Telephone Company does not refuse additional applications for service on the date specified in the thirty (30) days notice, and the customer's noncompliance continues, nothing contained herein shall preclude the Telephone Company's right to refuse additional applications for service to the noncomplying customer without further notice.
- (B) Unless the provisions of 2.2.1(B) or 2.5 following apply, if a customer fails to comply with 2.1.6 preceding or 2.2.2, 2.3.1, 2.3.4, 2.3.5, 2.3.10 or 2.4 following, including any payments to be made by it on the dates and times herein specified, the Telephone Company may, on thirty (30) calendar days written notice by Certified U.S. Mail or Overnight Delivery to the person designated by that customer to receive such notices of noncompliance, discontinue the provision of the services to the noncomplying customer at any time thereafter. In the case of such discontinuance, all applicable charges, including termination charges, shall become due. If the Telephone Company does not discontinue the provision of the services involved on the date specified in the thirty (30) days notice, and the customer's noncompliance continues, nothing contained herein shall preclude the Telephone Company's right to discontinue the provision of the services to the noncomplying customer without further notice.

2.1 Undertaking of the Telephone Company (Cont'd)

2.1.8 Refusal and Discontinuance of Service (Cont'd)

(C) In addition to and not in limitation of the provisions of 2.1.8(A) and 2.1.8(B) preceding, unless the provisions of 2.2.1(B) or 2.5 following apply, if a customer fails to comply with 2.4.1(A) or with 2.4.1(B) (3) following, including any payments to be made by it on the dates and times herein specified, the Telephone Company may take the actions specified in 2.1.8(A) and 2.1.8(B) on fifteen (15) calendar days written notice, such notice period to start the day after the notice is rendered by Certified Mail or Overnight Delivery, if the customer has not complied with respect to amounts due in a subject bill and either:

(1) The Telephone Company has within (7) business days of the subject bill date:

- a. Mailed via the United States Postal Service (USPS) to the customer the subject bill in paper or CDROM form, or
- b. Overnight service delivered to the customer the subject bill in Magnetic Tape form, or
- c. Electronically Transmitted to the customer the subject bill.

The Telephone Company will maintain records sufficient to validate the date upon which a subject bill was rendered to the customer.

(2) The Telephone Company has rendered the subject bill, using one of the media described in (1) above, to the customer more than thirty (30) calendar days before notice under this section has been rendered.

In all other cases, the Telephone Company will give thirty (30) calendar days written notice pursuant to 2.1.8(A) or 2.1.8(B). Action will not be taken with regard to the subject bill if the customer cures the noncompliance prior to the expiration of the fifteen (15) or thirty (30) calendar day notice period, as applicable.

(D) If the National Exchange Carrier Association, Inc., notifies the Telephone Company in writing that the Customer has failed to comply with

(D) (Cont'd)

Section 8 of the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. (NECA) TARIFF F.C.C. NO. 5 (Lifeline Assistance and Federal Universal Service Fund (FUSF) Surcharges) including any Customer's failure to make payments on the date and time specified therein, the Telephone Company, may, on thirty days' written notice to the Customer by Certified U.S. Mail, take any of the following actions: - (1) refuse additional applications for service and/or (2) refuse to complete any pending orders for service and/or (3) discontinue the provision of existing service(s) to the Customer. In the case of discontinuance, all applicable charges, including termination charges, shall become due and payable to the Company in immediately available funds.

2.1.9 Limitation of Use of Metallic Facilities

Signals applied to the metallic facility shall conform to the limitations set forth in Technical Reference Publication AS No. 1. In the case of application of dc telegraph signaling systems, the customer shall be responsible, at its expense, for the provision of current limiting devices to protect the Telephone Company facilities from excessive current due to abnormal conditions and for the provision of noise mitigation networks when required to reduce excessive noise.

2.1.10 Notification of Service-Affecting Activities

The Telephone Company will provide the customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements, routine preventative maintenance and major switching machine change-out. Generally, such activities are not individual customer service specific, they affect many customer services. No specific advance notification period is applicable to all service activities. The Telephone Company will work cooperatively with the customer to determine reasonable notification requirements.

2.1.11 Coordination with Respect to Network Contingencies

The Telephone Company intends to work cooperatively with the customer to develop network contingency plans in order to maintain maximum network capability following natural or man-made disasters which affect telecommunication services.

This includes developing plans for originating or terminating traffic associated with mass calling events directed to end users served from specific end offices. Where it is determined that such non-random calling generates

problems on the Telephone Company's Common Transport network, the Telephone Company will work cooperatively with the customer to relieve the traffic congestion. Remedial measures may include isolation of the customer from the Telephone Company network in the impacted area for the duration of the problem or until the customer notifies the Telephone Company that the problem has been resolved.

2.1.12 Provision and Ownership of Telephone Numbers

The Telephone Company reserves the reasonable right to assign, designate or change telephone numbers, any other call number designations associated with Access Service, or the Telephone Company serving central office prefixes associated with such numbers, when necessary in the conduct of its business. Should it become necessary to make a change in such number(s), the Telephone Company will furnish to the customer 6 months notice, by certified U.S. Mail, of the effective date and an explanation of the reason(s) for such change(s).

2.1.13 Metropolitan Statistical Area Access Services

For the Metropolitan Statistical Areas (MSAs) in which the Telephone Company has received Phase II pricing flexibility, pursuant to Subpart H of Part 69 of the Commission's Rules, Section 23 of this Tariff governs the offering of service in these MSAs.

2.1.14 Broadband Services

Pursuant to the detariffing authority granted by the Commission in Memorandum Opinion and Order, FCC 07-180 (released October 12, 2007), certain broadband services have been withdrawn from this tariff. When offering these services through non-tariffed arrangements, the Telephone Company will abide by all of the special access merger commitments set forth in Memorandum Opinion and Order, FCC 06-189 at Appendix F (released March 26, 2007), including but not limited to commitments that contain references to "tariffs," such as those addressing pricing, dispute resolution, and access service ratio terms. The detariffing of these services does not diminish or supersede any of those special access merger commitments.

2.2.1 Interference or Impairment (Cont'd)

- (B) Except as provided for equipment or systems subject to the F.C.C. Part 68 Rules in 47 C.F.R. Section 68.108, if such characteristics or methods of operation are not in accordance with (A) preceding, the Telephone Company will, where practicable, notify the customer that temporary discontinuance of the use of a service may be required; however, where prior notice is not practicable, nothing contained herein shall be deemed to preclude the Telephone Company's right to temporarily discontinue forthwith the use of a service if such action is reasonable under the circumstances. In case of such temporary discontinuance, the customer will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions as set forth in 2.4.4(A) and (B) following is not applicable.

2.2.2 Unlawful Use

The service provided under this tariff shall not be used for an unlawful purpose.

2.2.3 Commingling

- (A) Except as provided in Section 51.318 of the Federal Communications Commission's rules, telecommunications carriers who obtain unbundled network elements (UNEs) or combinations of UNEs pursuant to a Statement of Generally Available Terms, under Section 252 of the Act, or pursuant to an interconnection agreement with the Telephone Company, may connect, combine, or otherwise attach such UNEs or combinations of UNEs to Access services purchased under this Tariff except to the extent such agreement explicitly:
- (1) prohibits such commingling; or
 - (2) requires the parties to complete the procedures set forth in the agreement regarding change of law prior to implementing such commingling.
- (B) The rates, terms, and conditions of this Tariff will apply to the Access Services that are commingled.
- (C) UNEs or combinations of UNEs that are commingled with Access Services are not included in the shared use provisions of this Tariff.

2 - General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.2 Ownership of Facilities and Theft

Facilities utilized by the Telephone Company to provide service under the provisions of this tariff shall remain the property of the Telephone Company. Such facilities shall be returned to the Telephone Company by the customer, whenever requested, within a reasonable period following the request in as good condition as reasonable wear will permit.

2.3.3 Equipment Space and Power

The customer shall furnish or arrange to have furnished to the Telephone Company, at no charge, equipment space and electrical power required by the Telephone Company to provide services under this tariff at the points of termination of such services. The selection of ac or dc power shall be mutually agreed to by the customer and the Telephone Company. The customer shall also make necessary arrangements in order that the Telephone Company will have access to such spaces at reasonable times for installing, testing, repairing or removing Telephone Company services.

2.3.4 Availability for Testing

The services provided under this tariff shall be available to the Telephone Company at times mutually agreed upon in order to permit the Telephone Company to make tests and adjustments appropriate for maintaining the services in satisfactory operating condition. Such tests and adjustments shall be completed within a reasonable time. No credit will be allowed for any interruptions involved during such tests and adjustments.

2.3.5 Balance

All signals for transmission over the services provided under this tariff shall be delivered by the customer balanced to ground except for ground start, duplex (DX) and McCulloh-Loop (Alarm System) type signaling and dc telegraph transmission at speeds of 75 baud or less.

2.3.6 Design of Customer Services

Subject to the provisions of 2.1.7 preceding, the customer shall be solely responsible, at its own expense, for the overall design of its services and for any redesigning or rearrangement of its services which may be required because of changes in facilities, operations or

2 - General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.9 Coordination with Respect to Network Contingencies

The customer shall, in cooperation with the Telephone Company, coordinate in planning the actions to be taken to maintain maximum network capability following natural or man-made disasters, which affect telecommunications services.

2.3.10 Jurisdictional Report Requirements¹

(A) Jurisdictional Reports

(1) Percent Interstate Usage (PIU)

(a)

The interstate usage is to be developed as though every call that originates from a calling location (as designated by the calling station number) in a state other than that where the called station (as designated by the called number) is situated is an interstate communication. The manner in which a call is routed through the telecommunications network does not affect the jurisdiction of a call, i.e., a call between two points within the same state is an intrastate call even if it is routed through another state.

(b) When the Telephone Company receives sufficient call detail to permit it to determine the jurisdiction of originating and terminating access minutes of use or message, the Telephone Company will bill according to these actual minutes of use and will not use customer reported Percent Interstate Usage (PIU) factors.

The Telephone Company developed percent interstate usage for access minutes of use will be determined at a statewide level. The interstate percentage will be developed on a monthly basis by end office, when the access minutes are measured by dividing the measured interstate originating or terminating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating or terminating access minutes.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth Basic Serving Arrangement as detailed in Section 6.1.3.(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.10 Jurisdictional Report Requirements¹ (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(1) Percent Interstate Usage (PIU) (Cont'd)

(b) (Cont'd)

The Telephone Company will bill according to actual measured minutes of use or messages for all services listed in (1)(c) and (2) following, with the exception of those listed below:

- BellSouth SWA Local Channel
- BellSouth SWA Dedicated Interoffice Channel
- BellSouth Billing Name and Address
- BellSouth Inward Operator Service
- BellSouth Line Information Data Base Service (LIDB)
- Virtual Access Cross Connect Service
- Physical Access Cross Connect Service
- Intra-Office Collocation Cross Connect Service
- BellSouth Electronic White Pages Access Service
- BellSouth Operator Assistance Access Service
- BellSouth Flat Rated DA Trunk
- Channelization Equipment
- DNALs associated with BellSouth SWA LSBSA

Where the Telephone Company receives insufficient call detail to determine the jurisdiction, the Telephone Company will apply the customer's projected PIU factor to apportion the usage between interstate and intrastate. In the event the customer does not supply the projected PIU and the Telephone Company does not have sufficient call detail to determine the jurisdiction of the call, only then will a PIU of 50 percent be applied. For the purpose of this tariff, where the customer is a Third-Party Provider ("Third-Party Provider") of CCS7 services to its customers ("Third-Party Customers"), the Third-Party Provider will develop its projected PIU factor based upon a weighted average of the PIUs of its Third-Party Customers' end user traffic in accordance with the procedures described below. A Third-Party Provider may elect to have the

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth Basic Serving Arrangement as detailed in Section 6.1.3.(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

2.3.10 Jurisdictional Report Requirements¹ (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(1) Percent Interstate Usage (PIU) (Cont'd)

(b) (Cont'd)

Telephone Company determine the weighted PIU and in so doing the Third-Party Provider shall name and identify their Third Party Customers. In the event a Third Party Provider does not provide a projected PIU or does not elect to have the Telephone Company determine the PIU, a 50 percent PIU will be utilized for that Third-Party Provider, until such time as the Telephone Company obtains sufficient data to develop the PIU as specified in c. following.

The customer will provide in its initial order the projected Percent Interstate Usage (PIU) at a statewide level on a local exchange company specific basis. When the customer computes the PIU it will subtract the developed PIU from 100 and the difference is the percent intrastate usage. The sum of the interstate and intrastate percentages will equal 100 percent. A PIU of less than 100 percent is not allowed where the interstate service is not also available in the appropriate intrastate access tariff. The projected PIU may include up to two decimals.

The Telephone Company will designate the number obtained by subtracting the projected interstate percentage furnished by the customer from 100 ($100 - \text{customer percentage} = \text{intrastate percentage}$) as the projected intrastate percentage of use.

For usage originating from or terminating to an end office that is located in a state that is part of a LATA of a different state (cross boundary), the customer will provide a statewide PIU per service type for the state where the end office is physically located.

- (c) When the customer initially orders service(s), as defined in the following, the customer will state in its order the Percent Interstate Usage separately for each, as set forth in (1)(a) and (1)(b) preceding.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth Basic Serving Arrangement as detailed in Section 6.1.3.(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

- BellSouth SWA Dedicated Interoffice Channel
- Channelization Equipment

The PIU category, BellSouth SWA Local Channel, includes Dedicated End Office Trunk Port Service and Dedicated Tandem Trunk Port Service charges and other flat rated charges not specifically covered by other PIU categories.

The PIU factor provided for each of the foregoing facilities categories (Switched Local Channel, Switched Dedicated Interoffice Channel, Channelization Equipment and Switched Virtual and Physical Access Cross Connect Service) will reflect the combination of all traffic types which traverse such facility category.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth Basic Serving Arrangement as detailed in Section 6.1.3.(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

2.3.10 Jurisdictional Report Requirements¹ (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(1) Percent Interstate Usage (PIU) (Cont'd)

(c) (Cont'd)

When Special Access (a.k.a. BellSouth SPA) service is provided on a BellSouth SWA Access Facility, e.g. Special Access (a.k.a. BellSouth SPA) DS1 on a BellSouth SWA DS3, the facility will be apportioned between BellSouth SWA and Special Access (a.k.a. BellSouth SPA). The jurisdiction of the Special Access (a.k.a. BellSouth SPA) service will reflect the composite of the jurisdiction of the lower capacity services, if any, of which it is comprised, and the regulations in 2.3.12, following, will apply.

The customer will compute the PIU using the following formula (rounded to a whole percentage).

$$\frac{\text{Total Interstate Originating Minutes} + \text{Total Interstate Terminating Minutes}}{\text{Total Originating Minutes} + \text{Total Terminating Minutes}}$$

(D)

(D)

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement, as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

2.3.10 Jurisdictional Report Requirements¹ (Cont'd)

(A) Jurisdictional Reports (Cont'd)

- (2) For BellSouth Directory Assistance Access Service and BellSouth Direct Access to Directory Assistance Service, the Telephone Company developed PIU for BellSouth SWA FGD terminating will apply. For BellSouth Electronic White Pages Access service, the customer's projected interstate percent usage (PIU) will be applied.
- (3) For BellSouth Operator Assistance Access Service and BellSouth Flat Rated DA Trunks, the customer must state in its order the PIU anticipated as specified in 2.3.10(A)(1)(c) preceding. The customer may only report a PIU of less than 100%, where the service is also available for intrastate use. Subsequent PIU factors will be reported as required in (5) following.
- (4) For BellSouth CCS7 Access Arrangement, the customer must state in its order the PIU anticipated as specified in 2.3.10(A)(1)(c) preceding. The PIU reported will then be applied to the rates for Signaling Connections and Terminations to arrive at the amount the customer is billed for interstate usage of these facilities each month.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

2.3 Obligations of the Customer (Cont'd)

2.3.10 Jurisdictional Report Requirements¹ (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(4) (Cont'd)

In addition, the PIU will be applied to the total messages and the resulting figure multiplied by the appropriate rate per message to determine the amount that the customer will be billed for interstate usage. Subsequent PIU factors will be reported as required in (5) following.

- (5) Effective July 1, 2001 the customer will update the jurisdictional report associated with BellSouth Operator Assistance Access Service, BellSouth Flat Rated DA Trunks and BellSouth CCS7 Access Arrangement, when both interstate and intrastate service is provided.

Effective October 1, 2000, the customer will provide a single factor as the projected Percent Interstate Usage (PIU) to apportion the usage between interstate and intrastate. This PIU factor will apply to the following categories: BellSouth SWA Local Channel, BellSouth SWA Dedicated Interoffice Channel and Channelization Equipment.

Effective July 1, 2000, the customer's projected Percent Interstate Usage (PIU) will be provided at a statewide level on a local exchange company basis.

Effective on the first of January, April, July and October of each year the customer will update the interstate and intrastate jurisdictional report, except where Telephone Company Measured Access minutes are used as set forth in (1) preceding. The customer will forward to the Telephone Company, to be received no later than 30 days after the first of each such month, a revised report or letter for all services showing the interstate and intrastate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for interstate use.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

2 - General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.10 Jurisdictional Report Requirements¹ (Cont'd)

(A) Jurisdictional Reports (Cont'd)

(5) (Cont'd)

The revised report or letter will serve as the basis for the next three months' billing and will be effective on the bill date for that service. If the customer does not supply an updated quarterly report or letter, the Telephone Company will assume percentages to be the same as those provided in the last quarterly report or letter accepted by the Telephone Company. If an audit has been completed and an updated quarterly report or letter has not been submitted subsequent to the audit, the Telephone Company will assume the PIU factors to be the most recent audited results. For those cases in which a quarterly report or letter has never been received from the customer, the Telephone Company will assume the PIU factors to be the most recent audit results, to be the same as provided in the order for service if no audit has been performed, or 50 percent.

(B) Jurisdictional Report Verification

- (1) When a customer provides a projected interstate usage percent as set forth in (A) preceding, or when a billing dispute arises or a regulatory commission questions the projected interstate percentage for Access, the Telephone Company may, by written request, require the customer to provide the data the customer used to determine the projected interstate percentage. In the case of a third-party provider of CCS7 service to Third-Party Customers as described in (A), preceding, the data will include the data provided by the Third-Party Customers. This written request will be considered the initiation of the audit. The customer shall supply the data to an independent auditor or the Telephone Company within 30 days of the Telephone Company request. The customer shall keep records of call detail from which the percentage of interstate and intrastate use can be ascertained as set forth in (C) following and upon request of the Telephone Company make the records available for inspection at an agreed upon location during normal business hours as reasonably necessary for purposes of verification of the percentages. The Telephone Company will audit data from one quarter unless a longer period is requested by the customer and agreed to by the Telephone Company.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

(B) Jurisdictional Report Verification (Cont'd)

(1) (Cont'd)

Changes to the reported PIU will not be made for the test period. If the customer does not provide the requested data to the Telephone Company or independent auditor within thirty (30) days of the notice of audit, the customer will be in violation of this Tariff and subject to 2.1.8 preceding.

- (2) For BellSouth SWA service, verification audits may be conducted no more frequently than once per year except in extreme circumstances. The Telephone Company and customer will attempt to limit the audit to a reasonable time to effectively complete the audit. The Telephone Company and customer shall respond promptly to requests generated during the audit to ensure timely completion of the audit.

- (3) Audits may be conducted by: (a) an independent auditor under contract to the Telephone Company; (b) a mutually agreed upon independent auditor; or (c) an independent auditor selected and paid for by the customer. If the customer selects option (c), where it pays for its own independent audit, the selected auditor must certify that the audit was performed following F.C.C. procedures for measuring interstate traffic as established by Commission Order, and provide to the Telephone Company a report with supporting documentation to verify such procedures.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

(B) Jurisdictional Report Verification (Cont'd)

- (4) If a billing dispute arises or a regulatory commission questions the projected interstate percentage for Special Access (a.k.a. BellSouth SPA) service, the Telephone Company will ask the customer to provide the data the customer used to determine the projected interstate percentage. The customer shall supply the data within 30 days of the Telephone Company request. The customer shall keep records from which the percentage was determined and upon request of the Telephone Company make the records available for inspection as reasonably necessary for purposes of verification of the percentages.

(C) Maintenance of Customer Records for BellSouth SWA

- (1) The customer shall retain for a minimum of six (6) months call detail records that substantiate the interstate percent provided to the Telephone Company as set forth in (A) preceding for BellSouth SWA service. Such records shall consist of (a) and (b), if applicable, following:
 - (a) All call detail records such as workpapers and/or backup documentation including paper, magnetic tapes or any other form of records for billed customer traffic, call information including call terminating address (i.e., called number), the call duration, all originating and terminating trunk groups or access lines over which the call is routed, and the point at which the call enters the customer's network and;
 - (b) If the customer has a mechanized system in place that calculated the PIU, then a description of that system and the methodology used to calculate the PIU must be furnished and any other pertinent information (such as but not limited to flowcharts, source code, etc.) relating to such system must also be made available.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSB SA).

(D) Audit Results for BellSouth SWA

- (1) Audit results will be furnished to the customer via Certified U.S. Mail (return receipt requested). The Telephone Company will adjust the customer's PIU based upon the audit results. The PIU resulting from the audit shall be applied to the usage for the quarter the audit is completed, the usage for the quarter prior to completion of the audit, and the usage for the two (2) quarters following the completion of the audit. After that time, the customer may report a revised PIU pursuant to (A) preceding. If the revised PIU submitted by the customer represents a deviation of 5 percentage points or more, from the audited PIU, and that deviation is not due to identifiable reasons, the provisions in (B) preceding may be applied.
- (2) Both credit and debit adjustments will be made to the customer's interstate access charges for the specified period to accurately reflect the interstate usage for the customer's account consistent with Section 2.4.1 following.
- (3) If, as a result of an audit conducted by an independent auditor, a customer is found to have over-stated the PIU by 20 percentage points or more, the Telephone Company shall require reimbursement from the customer for the cost of the audit. Such bill(s) shall be due and paid in immediately available funds 30 days from receipt and shall carry a late payment penalty as set forth in Section 2.4.1 following if not paid within the 30 days.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

(E) Contested Audits

- (1) When a PIU audit is conducted by an independent auditor selected by the Telephone Company, the audit results will be furnished to the customer by Certified U.S. Mail (return receipt requested). The customer may contest the audit results based on substantive cause by providing written notification, by Certified U.S. Mail (return receipt requested), to the Telephone Company within thirty (30) calendar days from the date the audit report is furnished to the customer. When a PIU audit is conducted by an independent auditor selected by the customer, the audit results will be furnished to the Telephone Company by Certified U.S. Mail (return receipt requested). The Telephone Company may contest the audit results by providing written notification, by Certified U.S. Mail (return receipt requested), to the customer within thirty (30) calendar days from the date the audit report is furnished to the Telephone Company.
- (2) Contested audits may be resolved by a neutral arbitrator mutually agreed upon by the Telephone Company and the customer. Arbitration is an option provided in addition to the customer's existing right to file a complaint or legal action in a court of law or at the FCC for resolution of the dispute. The arbitration hearing will be conducted in a state or location within the Telephone Company operating territory where the customer maintains a principle or significant presence or a state and location within the Telephone Company operating territory that is mutually agreed upon by both parties. The arbitration proceeding shall be governed by the law (both statutory and case) of the state in which the arbitration hearing is held, including, but not limited to, the Uniform Arbitration Act, as adopted in that state. The arbitrator shall determine the customer's PIU based on (A) preceding.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

(E) Contested Audits (Cont'd)

- (3) Prior to the arbitration hearing, each party shall notify the arbitrator of the PIU percentage which that party believes to be correct. The arbitrator, in deciding, may adopt the PIU percentage of either party or may adopt a PIU percentage different from those proposed by the parties. If the arbitrator adopts a PIU percentage proposed by one of the parties, the other party (whose PIU percentage was not adopted) shall pay all costs of the arbitration. If the arbitrator adopts a PIU percentage higher than either of the PIU percentages proposed by the parties, then the party proposing the lower PIU percentage shall pay all costs of the arbitration. If the arbitrator adopts a PIU percentage lower than either of the PIU percentages proposed by the parties, then the party proposing the higher PIU percentage shall pay all costs of the arbitration. If the arbitrator adopts a PIU percentage which falls between the two percentages adopted by the parties, then the parties shall each pay one-half of the arbitration costs.
- (4) Absent written notification, within the timeframe noted above, the customer must comply with the provisions set forth in (D) preceding. If the customer fails to comply with these provisions, the Telephone Company may refuse additional applications for service and/or refuse to complete any and all pending orders for service or may discontinue the provision of the services to the customer as specified in 2.1.8 preceding.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in Section 6.1.3(A)(5)(j) (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

2 - General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.11 Determination of Interstate Charges for Mixed Interstate and Intrastate
BellSouth SWA Access Service (D)

When mixed interstate and intrastate BellSouth SWA Service, as described in 2.3.10(A)(1)(b) preceding, is provided, all charges (i.e., nonrecurring, monthly and/or usage) including optional feature charges, will be prorated between interstate and intrastate. The percentage provided in the reports as set forth in 2.3.10(A) preceding will serve as the basis for prorating the charges. The percentage of a BellSouth SWA Service to be charged as interstate is applied in the following manner: (D)

- (A) For monthly and nonrecurring chargeable rate elements multiply the percent interstate use times the quantity of chargeable elements times the stated tariff rate per element.
- (B) For usage sensitive (i.e., access minutes and calls) chargeable rate elements, multiply the percent interstate use times actual use (i.e., measured or Telephone Company assumed average use) times the stated tariff rate.

2.3.11 Determination of Interstate Charges for Mixed Interstate and Intrastate BellSouth SWA (Cont'd)

(D)

(B) (Cont'd)

The interstate percentage will change as revised jurisdictional reports are submitted or as lines or trunks are added or removed as set forth in 2.3.10 preceding.

2.3.12 Determination of Jurisdiction of Mixed Interstate and Intrastate Special Access (a.k.a. BellSouth SPA) Service

When mixed interstate and intrastate Special Access (a.k.a. BellSouth SPA) service is provided, the jurisdiction will be determined as follows: (C)

- If the customer's estimate of the interstate traffic on the service involved constitutes 10% or less of the total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of the appropriate intrastate tariff.
- If the customer's estimate of the interstate traffic on the service involved constitutes more than 10% of the total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of this Tariff.
- The Telephone Company will notify its Special Access (a.k.a. BellSouth SPA) customers via letters or bill inserts of this jurisdictional rule change pursuant to FCC Decision and Order released on July 20, 1989 in CC Docket Nos. 78-72 and 80-286. By this notification, customers will be requested to review their existing and ordered services to certify the jurisdiction for their services. Customer requests to change jurisdictions received by the Telephone Company on or before May 15, 1990 will become effective on May 15, 1990. Customer requests to change jurisdictions received by the Telephone Company after May 15, 1990 will become effective on the date received.

2 - General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.12 Determination of Jurisdiction of Mixed Interstate and Intrastate Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

- Pursuant to FCC Decision and Order released on July 20, 1989 in CC Docket Nos. 78-72 and 80-286, customers may be required to change jurisdiction for certain Special Access (a.k.a. BellSouth SPA) services which have a termination liability. Because of the nature of the change in jurisdiction, the Telephone Company will waive application of the termination liability for a period of 90 days beginning May 15, 1990. The termination liability will be transferred with the jurisdictional change of the service.

2.3.13 Sectionalization - Trouble Reporting

The customer will be responsible for reporting troubles, sectionalized to Telephone Company facilities and/or equipment. When troubles cannot be clearly sectionalized to the Telephone Company facilities and/or equipment, the Telephone Company will test cooperatively or independently to assist in trouble sectionalization.

Responsibility for payment of additional charges will apply as set forth in Section 13.

2.3.14 Toll Free Dialing Number Reporting

For BellSouth SWA 8XX Toll Free Dialing Access Ten Digit Screening Service the customer will be responsible for reporting to the Telephone Company or directly to the Service Management System BellSouth SWA Toll Free Dialing numbers (800, 888, etc), hereinafter toll free dialing numbers, that are in service in the Telephone Company serving area and the activation date of every toll free dialing number assigned.

2.3.15 Utilization of Alternative Access Providers

When the customer of record for an access service utilizes the service(s) of an alternative access provider, it will be the obligation of the customer to monitor the actions of the alternative access provider to insure that the customer's desired service interconnections and grades of service are maintained.

2.3.16 VoIP - PSTN Traffic

This Section applies to VoIP-PSTN traffic exchanged between the Telephone Company and the Customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user Customer of a service that requires Internet protocol-compatible Customer premises equipment. The Switched Access rate elements in this tariff for both usage and facilities apply to any VoIP-PSTN traffic.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances

2.4.1 Payment of Rates, Charges and Deposits

- (A) The Telephone Company will, in order to safeguard its interests, only require a customer which has a proven history of late payments to the Telephone Company or does not have established credit to make a deposit prior to or at any time after the provision of a service to the customer to be held by the Telephone Company as a guarantee of the payment of rates and charges.

The Telephone Company will notify the customer of a deposit requirement by Certified Mail or Overnight Delivery. The customer will be required to make payment of such deposit prior to the provision of new service in those cases where the customer has not established credit with the Telephone Company, or otherwise within fifteen (15) business days of such notice for customers with existing services. Such notice period will start the day after the notice is rendered by Certified Mail or Overnight Delivery.

No such deposit will be required of a customer which is a successor of a company which has established credit and has no history of late payments to the Telephone Company. Such deposit may not exceed the actual or estimated rates and charges for the service for a two month period. The fact that a deposit has been made in no way relieves the customer from complying with the Telephone Company's regulations as to the prompt payment of bills. At such time as the provision of the service to the customer is terminated, the amount of the deposit will be credited to the customer's account and any credit balance which may remain will be refunded.

Such a deposit will be refunded or credited to the customer's account when the customer has established credit or, in any event, after the customer has established a one-year prompt payment record at any time prior to the termination of the provision of the service to the customer. In the case of a cash deposit, for the period the deposit is held by the Telephone Company, the customer will receive simple interest at the rate of 1.5% per month (.0004931 per day) or 18% annually. The rate will be calculated from the date the customer's deposit is received by the Telephone Company up to and including the date such deposit is credited to the customer's account or the date the deposit is refunded by the Telephone Company. Should a deposit be credited to the customer's account, as indicated above, no interest will accrue on the deposit from the date such deposit is credited to the customer's account.

- (B) The Telephone Company shall bill on a current basis all charges incurred by and credits due to the customer under this tariff attributable to services, including, but not limited to maintenance of service as set forth in 13.3.1 following established or discontinued during the preceding billing period. In addition, the Telephone Company shall bill in advance charges for all services to be provided during the ensuing billing period except for charges associated with service usage and for the Federal Government which will be billed in arrears.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.1 Payment of Rates, Charges and Deposits (Cont'd)

(B) (Cont'd)

The bill day (i.e., the billing date of a bill for a customer for Access Service under this tariff), the period of service each bill covers and the payment due date will be as follows:

- (1) For End User Access Service and Federal Universal Service (FUS) charges as set forth in Section 4 following, and BellSouth Equal Access Subscription Service as set forth in Section 13 following, the Telephone Company will establish a bill day each month for each end user account. The bill will cover End User Access Service charges for the ensuing billing period except for End User Access Service for the Federal Government, which will be billed in arrears. Any applicable subscription charges, any known unbilled charges for prior periods and any known unbilled adjustments for prior periods for End User Access Service and BellSouth Equal Access Subscription Service will be applied to this bill. Such bills are due when rendered.
- (2) For End User Access Service and Federal Universal Service charges, and BellSouth Equal Access Subscription Service, the Telephone Company will establish a bill day each month for each customer account. The bill will cover non-usage sensitive service charges for the ensuing billing period or which the bill is rendered, any known unbilled non-usage sensitive charges for prior periods and unbilled usage charges for the period after the last bill day through the current bill day. Any known unbilled usage charges for prior periods and any known unbilled adjustments will be applied to this bill. Payment for such bills is due as set forth in (3) following. If payment is not received by the payment due date, as set forth in (3) following in immediately available funds, a late payment penalty will apply as set forth in (3) following.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.1 Payment of Rates, Charges and Deposits (Cont'd)

(B) (Cont'd)

(3) Payment Due Date

- (a) All bills dated as set forth in (2) preceding for service, other than End User Access Service and BellSouth Equal Access Subscription Service, provided to the customer by the Telephone Company are due on the payment due date. The payment due date is the date which is 31 days after the bill day, or by the next bill date (i.e., same date in the following month as the bill date), whichever is the shortest interval except as provided herein, and are payable in immediately available funds. If such payment due date would cause the payment to be due on a Saturday, Sunday or federal observed Holiday (e.g., New Year's Day, Birthday of Martin Luther King, Jr., Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day), payment for such bills will be due from the customer as follows:

If such payment due date falls on a Sunday or on a federal observed Holiday which is observed on a Monday, the payment due date shall be the first non-federal observed Holiday day following such Sunday or federal observed Holiday. If such payment due date falls on a Saturday or on a federal observed Holiday which is observed on Tuesday, Wednesday, Thursday or Friday, the payment due date shall be the last non-federal observed Holiday day preceding such Saturday or federal observed Holiday.

Payment for Federal Government customers will be in compliance with the Federal Acquisition Regulations Clause 52.232-25 - Prompt Payment.

- (b) Further, if any portion of the payment is received by the Telephone Company after the payment due date as set forth in (a) preceding, or if any portion of the payment is received by the Telephone Company in funds which are not immediately available to the Telephone Company, then a late payment penalty may be due to the Telephone Company. The late payment penalty shall be the portion of the payment not received by the payment due date times a late factor. The late factor shall be simple interest at the rate of 1.5% per month (.0004931 per day) or 18% annually. The late payment for Federal Government customers shall be in compliance with the Federal Acquisition Regulations Clause 52.232-25 - Prompt Payment.

(c) Payment of Rates, Charges and Deposits

In the event of a billing dispute, the customer must submit a documented claim for the disputed amount. If the dispute is submitted on or before the payment due date or within 90 days after the payment due date and the disputed amount is paid prior to resolution of the dispute, any interest credits due the customer upon resolution of the dispute shall be calculated from the date of the overpayment to the resolution date. If the dispute is submitted more than 90 days after the payment due date and the disputed amount is paid prior to resolution of the dispute, any interest credits due the customer upon resolution of the dispute shall be calculated from the dispute date or the date the payment is made, whichever occurs later, to the resolution date. The Telephone Company will resolve the dispute and assess interest credits or late payment penalties to the customer as follows.

If the dispute is resolved in favor of the Telephone Company and the customer has paid the disputed amount on or before the payment due date, no credits or late payment penalties will apply to the disputed amount.

If the dispute is resolved in favor of the Telephone Company and the customer has withheld the disputed amount, any payments withheld pending settlement of the dispute shall be subject to the late payment penalty as set forth in (b) preceding.

If the dispute is resolved in favor of the customer and the customer has withheld the disputed amount, no credits or late payment penalties will apply to the disputed amount.

If the dispute is resolved in favor of the customer and the customer has paid the disputed amount, the customer will receive a credit from the Telephone Company for the disputed amount times a penalty factor as set forth preceding. The penalty factor shall be simple interest (I)
at the rate of 1.5% per month (.0004931 per day) or 18% (I)
annually.

If a customer's traffic terminates to an end office via an alternative tandem service provider (TSP), any terminating

usage dispute for that end office must identify the quantity of MOUs the customer's records indicate to be terminated via an alternative TSP.

Upon receipt of the dispute involving usage terminated via an alternative TSP, the Telephone Company will verify that the disputed bill accurately represents the information provided to the Telephone Company pursuant to 6.6.5 following, within 15 days of receipt of a dispute notification.

If the billing agrees with the billing data received pursuant to 6.6.5 following, the Telephone Company will refer the dispute to the entity providing the billing data information within 16 days from the date the dispute was received.

The provider of the billing data information will investigate the claim and reply to the Telephone Company within 15 days of the referral.

The provider of the billing data information, the customer and the Telephone Company will work cooperatively to resolve any remaining discrepancies.

If the entity providing the billing data information fails to cooperate with the Telephone Company to resolve billing disputes involving usage billed based on the billing data information received, the Telephone Company may refuse to accept future billing data information and bill the full terminating charges for all usage to the alternative TSP.

The terms and conditions in 2.4.1(B)(3)(c) preceding still apply except for the following:

If the Telephone Company accurately billed the usage as contained in the billing data information provided to it, the Telephone Company will not be liable for any interest due the customer for overpayment if the dispute is resolved in the customer's favor.

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.1 Payment of Rates, Charges and Deposits (Cont'd)

- (C) Adjustments for the quantities of services established or discontinued in any billing period beyond the minimum period set forth for services in other sections of this tariff will be prorated based on the number of days the customer had service during the billing period times 1/30th the monthly rate. Billing for service begins on the day following the date of installation and shall accrue through and including the day service is discontinued. The Telephone Company will, upon request and if available, furnish such detailed information as may reasonably be required for verification of any bill, including information relative to the development of the subscriber line ratio.
- (D) When a rate as set forth in this tariff is shown to more than two decimal places, the charges will be determined using the rate shown. The resulting amount will then be rounded to the nearest penny (i.e., rounded to two decimal places).
- (E) When more than one copy of a customer bill for services provided under the provisions of this tariff is furnished to the customer, an additional charge applies for each additional copy of the bill as set forth in 13.3.6 following.
- (F) The dispute date is the date the customer presents sufficient documentation to support the claim. Sufficient documentation consists of the following information, where such information is relevant to the dispute and reasonably available to the customer:

(1) Special Access (a.k.a. BellSouth SPA)

The nature of the dispute (i.e., incorrect rate, incorrect circuit type etc.), including the basis for the customer's belief that the bill is incorrect.

The billing account number(s) assigned by the Telephone Company.

The amount of money in dispute.

The date of the bill in dispute.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.1 Payment of Rates, Charges and Deposits (Cont'd)

- (G) The Telephone Company and the customer shall work cooperatively to resolve the dispute.

If additional information from the customer would assist in resolving the dispute, the customer may be requested to provide additional information relevant to the dispute and reasonably available to the customer. This data may include, but is not limited to summarized usage data by time of day. The request for such additional information shall not affect the dispute date established pursuant to 2.4.1(F) preceding.

- (H) For purposes of 2.4.1(B)(3)(c), the resolution date is the date on which the Telephone Company completes the investigation of the dispute, and the Telephone Company's service representative notifies the customer of the disposition and notes the customer's account or when the Telephone Company forwards the amount of credit to the customer, depending upon customer preference.

- (I) At the option of the customer, all nonrecurring charges associated with a Standard or Negotiated Interval Access Order may be billed over a three month period subject to the following:

- 50% of the total nonrecurring charges will be billed in the first monthly billing period after the charges are incurred, and 25% of the total nonrecurring charges plus an Extended Billing Plan Charge will be billed in each of the following two monthly billing periods.
- The Extended Billing Plan Charge is calculated at a rate of 1.0% per month or 12% annually, on the remaining balance of the nonrecurring charges.
- The customer must request extended billing on or before the Application Date as set forth in 5.1.1. following for a Standard or Negotiated Interval Access Order.
- If the customer disconnects service before the expiration of the plan period, all unbilled charges plus the Extended Billing Plan Charge, if applicable, will be included in the final bill rendered.

2.4.2 Minimum Periods

The minimum period for which services are provided and for which rates and charges are applicable is one month except for those services set forth in Sections 5.6(C), 6.7.20, 6.7.21, 6.7.22, 7.4.32, 7.4.4, 7.4.13.2, 10.6.1 and 13.3.5(C)(1)(b), (c) and (d) of this Tariff.

The minimum period for which service is provided and for which rates and charges are applicable for a Specialized Service or Arrangement provided on an individual case basis as set forth in Section 12 following, is one month unless a different minimum period is established with the individual case filing.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.2 Minimum Periods (Cont'd)

When a service is discontinued prior to the expiration of the minimum period, charges are applicable whether the service is used or not as follows:

- (A) When a service with a one month minimum period is discontinued prior to the expiration of the minimum period, a one month charge will apply at the rate level in effect at the time service is discontinued.
- (B) Except for High Capacity (a.k.a. BellSouth SPA High Capacity) Individual Case Basis (ICB) services and associated channelization listed in Section 7 and Section 12, when a service with a minimum period greater than one month is discontinued prior to the expiration of the minimum period, the applicable charge will be the lesser of (1) the Telephone Company's total nonrecoverable costs less the net salvage value for the discontinued service or (2) the total monthly charges, at the rate level in effect at the time service is discontinued, for the remainder of the minimum period. For High Capacity (a.k.a. BellSouth SPA High Capacity) Individual Case Basis Services the applicable charge is specified in the Individual Case Basis filing.
- (C) When a customer requests the complete termination of a Special Access (a.k.a. BellSouth SPA) Voice Grade (a.k.a. BellSouth SPA DS0 VG) Rate Stability Plan prior to the expiration date of the selected service commitment period, a Termination Liability Charge as specified in 7.4.13.5(B) following will apply.
- (D) For Special Access (a.k.a. BellSouth SPA) DS1 (a.k.a. BellSouth SPA DS1) service provided under a Federal Government Transport Plan (FGTP) arrangement, minimum period charges are as set forth in 10.6.1(F) following.

2.4.3 Cancellation of an Order for Service

Provisions for the cancellation of an Access Order for BellSouth SWA or Special Access service, (a.k.a. BellSouth SPA) are set forth in 5.4 following.

2.4.4 Credit Allowance for Service Interruptions

(A) General

A service is considered interrupted when it becomes unusable to the customer because of a failure of a facility component used to furnish service under this tariff or in the event that the protective controls applied by the Telephone Company result in the loss of use of the service by the customer as set forth in 6.5.1 following. An interruption period starts when the customer reports the interruption to the Telephone Company, and ends when the service is operative.

EFFECTIVE: MARCH 17, 2023

ACCESS SERVICE
2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies

In case of an interruption to any service, allowance for the period of interruption, if not due to the negligence of the customer, shall be as follows:

- (1) For BellSouth SWA Dedicated Interoffice Channels, Channelization Equipment and Switched Local Channels, Dedicated End Office Trunk Port Service and Dedicated Tandem Trunk Port Service Special Access (a.k.a. BellSouth SPA) services other than BellSouth Dedicated Ring, SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring), LightGate service (a.k.a. BellSouth SPA Point to Point Network), DS1 (a.k.a. BellSouth SPA DS1) service, BellSouth DS1 Diverse Service, Program Audio⁽¹⁾ (a.k.a. BellSouth SPA Program Audio), Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video) services, Intra-Office Collocation Cross Connect Service, Physical Access Cross Connect Service and Virtual Access Cross Connect Service, no credit shall be allowed for an interruption of less than 30 minutes. The customer shall be credited for an interruption of 30 minutes or more at the rate of 1/1440 of the monthly charges for the facility or service for each period of 30 minutes or major fraction thereof that the interruption continues.

The credits will apply no more than once per month and the total of all credits, including those provided in other sections of this Tariff, shall not exceed the monthly rate for the service. The monthly charges used to determine the credit shall be as follows:

- (a) The monthly charge shall be the total of all the monthly rate element charges associated with the highest level inoperative channelized service:
For BellSouth SWA Transport: BellSouth SWA Local Channel, Dedicated End Office Trunk Port Service and Dedicated Tandem Trunk Port Service, BellSouth SWA Dedicated Interoffice Channel, Channelization Equipment (if applicable) and any Optional Features and Functions.
For Special (a.k.a. BellSouth SPA) two-point services: two Local Channels, Interoffice Channel, and Optional Features and Functions. (T)
- (b) For multipoint services, the monthly charge shall be only the total of all the monthly rate element charges associated with the highest level channelized service for that portion of the service that is inoperative (i.e., a local channel per customer premises, interoffice channel, and optional features, and functions). (T)
- (c) For Special Access (a.k.a. BellSouth SPA) channelized services, the monthly charge shall be the total of all the monthly rate element charges associated with that portion of the highest level channelized service that is inoperative.

⁽¹⁾ Program Audio is discontinued and no longer available in this publication (see WC Dkt. 19-238).

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies (Cont'd)

(1) (Cont'd)

(c) (Cont'd)

When the facility which is channelized or the Basic Channelization System itself is inoperative, the monthly charge shall be the total of all the monthly rate element charges associated with the highest level channelized service (i.e., the local channel, interoffice channel, central office channel interface(s), and any optional features and functions, including the Basic Channelization System on the facility to the Hub. When the service which rides a channel of the channelized facility is inoperative (assuming the highest level channelized service is still operative) the monthly charge shall be the total of all the monthly rate element charges associated with that portion of the lower level inoperative service from the Hub to a customer premises (i.e., local channels, interoffice channel, central office channel interface(s), and optional features and functions). For channelized service ordered under the Shared Network Arrangement, certain record keeping complexities necessitate that the host subscriber as well as each service user notify Telephone Company of any service outage in order to receive a credit allowance.

(T)

(d) For BellSouth SWA channelized services, the monthly charge shall be the total of all monthly rate element charges associated with that portion of the highest level channelized service that is inoperative. When the facility which is channelized or the Basic Channelization System itself is inoperative, the monthly charge shall be the total of all the monthly rate element charges associated with the highest level channelized service (e.g., the Switched Local Channel, Switched Interoffice Channels, Channelization Equipment, including the Basic Channelization System on the facility to the Hub, if applicable).

(T)

(e) For SMARTPath services (a.k.a. BellSouth SPA Shared Ring) and SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring), the monthly charge shall be the total of all the monthly rate element charges associated with the highest level inoperative channelized service (e.g., SMARTPath Area Connection and SMARTPath Area Junction).

(f) For Intra-Office Collocation Cross Connect, Physical Access Cross Connect, and Virtual Access Cross Connect elements specified in Section 13 of this Tariff, the monthly charge shall be that associated with the specific cross connect that is inoperative.

(g) For BellSouth SWA service, BellSouth Directory Assistance Access service, and BellSouth Line Information Data Base Access service usage sensitive rate elements, no credit shall be allowed for an interruption of less than 24 hours. The customer shall be credited for an interruption of 24 hours or more at the rate applicable to the service involved, for each period of 24 hours or major fraction thereof that the interruption continues. In the case of service billed based upon actual usage, no credit allowance is applicable.

(M)

(h) The credit allowance(s) for an interruption or for a series of interruptions shall not exceed (a) the sum of the monthly charges for the affected services; or (b) the assumed minutes of use charge.

the wire center group assignment of the customer's serving wire center, (see Group 1 wire Center list following). For DS1 Special Access (a.k.a. BellSouth SPA DS1) facilities assigned to Group 1 wire centers, the customer shall be credited at the rate of 1440/1440 for service interruptions of one minute or more. Special Access DS1 (a.k.a. BellSouth SPA DS1) customers with facilities assigned to Group 2 wire centers, (all other wire centers not included in Group 1) shall be credited for interruptions of more than 30 minutes but less than or equal to 210 minutes based on the credit allowance schedule following. For service interruptions of 211 minutes or more the customer shall receive a credit of 1440/1440 of the monthly rate. Credit allowances for DS1 Special Access (a.k.a. BellSouth SPA DS1) service interruptions involving more than one wire center group will be based on the respective local channel wire center rate and the highest interoffice channel mileage rate used in provisioning the service. Ratcheting, to account for BellSouth SWA services, will be applied to DS1 Special Access (a.k.a. BellSouth SPA DS1) service interruption credits. Credit allowance limitations shall be in accordance with Section 2.4.4(B)(1) preceding.

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies (Cont'd)

- (8) Application of credits for service outages for LightGate service (a.k.a. BellSouth SPA Point to Point Network), (excluding DS1 channel interfaces and DS3 Services subject to term plans renewed on or after March 17, 2023 or being provided on a month-to-month basis), will be calculated as follows: credits will be applied to the monthly rate associated with each activated interface affected, after ratcheting adjustments to account for BellSouth SWA service, if any, for the highest level channelized service. For system level rate elements, credits applied to the monthly rate associated with the system, after ratcheting adjustments for BellSouth SWA services, based upon the proportion which the interrupted Special Access, (a.k.a. BellSouth SPA) channels, in the system bear to the total activated Special Access (a.k.a. BellSouth SPA) channels, in the system. Where service interruptions of one minute or more per occasion occur, the credit applied shall be 1440/1440. Credit allowance limitations shall be in accordance with Section 2.4.4(B)(1). For DS1 channel interfaces and DS3 Services subject to term plans renewed on or after March 17, 2023 or being provided on a month-to-month basis, Sections 2.4.4(B)(7) and 2.4.4(B)(16) will apply. (T) (N) (N)
- (9) Reserved for Future Use. (T)
- (10) Credit allowances for service interruptions on affected BellSouth SWA DS1 service Local Channel and/or Interoffice Channel elements will be based on the wire center group assignment of the customer's serving wire center, (see Group 1 Wire Center list contained in Section 2.4.4.(B)(10)). For BellSouth SWA DS1 facilities assigned to Group 1 wire centers, the customer shall be credited at the rate of 1440/1440 for service interruptions of one minute or more. BellSouth SWA DS1 customers with facilities assigned to Group 2 wire centers, (all other wire centers not included in Group 1) shall be credited for interruptions of more than 30 minutes but less than or equal to 210 minutes based on the credit allowance schedule following. (T) (N)

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies (Cont'd)

- (11) Application of credits for service outages for BellSouth SWA DS3 will be calculated as follows: For the affected BellSouth Local Channel, Interoffice Channel and BellSouth SWA DS3 Channelization elements, credits will be applied to the monthly charge associated with each element affected for the highest level inoperative channelized service, after ratcheting adjustments to account for Special Access (a.k.a. BellSouth SPA) service, if any. Where service interruptions of one minute or more per occasion occur, the credit applied shall be 1440/1440 of the total monthly charge for the rate element involved. Credit allowance limitations shall be in accordance with Section 2.4.4.(B)(1) preceding. (T)
- (12) Application of credits for service outages of BellSouth DS1 Diverse service Local and Interoffice Channels will be calculated as follows: In the event of primary facility path failure, service is guaranteed to switch to an alternate facility path in one minute or less. Failure to meet this guarantee will result in credits being applied to the customer's bill equal to 1440/1440 of the monthly charge associated with the affected service element(s) (e.g., for the affected Local Channel, Interoffice Channel, DS1 Basic Channelization System and associated Central Office Channel Interface(s), and 1.544 Mbps elements of service associated with higher capacity Central Office Channel Interface channelization element(s), where the trouble is on the public right-of-way). Credits will be applied through normal administrative processes and the dollar amount will be reflected on the customer's bill. Ratcheting, to account for BellSouth SWA services, will be applied to BellSouth DS1 Diverse service interruption credits. A customer must report the outage in order to receive credit. The credits will apply no more than once per month and the total of all credits, including those in other sections of this Tariff, shall not exceed the monthly rate for service. (T)

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies (Cont'd)

(13) For Fast Packet Access Services,⁽¹⁾⁽²⁾ a service is considered interrupted when it becomes unusable to the customer because of a failure of a facility component used to furnish service under this tariff. An interruption period starts when the customer reports the interruption to the Telephone Company, and ends when the service is operative. Following are the credit allowances appropriate for Fast Packet Access Services; the credit allowance(s) for an interruption or for a series of interruptions shall not exceed the effective monthly rate for the Fast Packet Access Service. (T)

(a) In case of an interruption to any Fast Packet Access Service (except as specified otherwise in (b) following), the credit allowance for the period of the interruption, if not due to situations set forth in 2.4.4.(C), shall be as follows:

- For Exchange Access Frame Relay Service⁽¹⁾⁽²⁾ no credit shall be allowed for an interruption of less than 30 minutes. The customer shall be credited for an interruption of 30 minutes or more at the rate of 1/1440 of the monthly charges for the facility or service for each period of 30 minutes or major fraction thereof that the interruption continues.

For the service impacted by the service outage, the Fast Packet Access Service rate elements used to determine the credit allowance amount shall be as follows:

- All network interfaces

- (1) Effective November 5, 2011, Exchange Access Frame Relay Service (XAFRS) (a.k.a. BellSouth Exchange Access Frame Relay Service) as described in Section 21.2, following, and BellSouth Managed Shared Frame Relay Service (MSFRS) as described in 21.3, following, will no longer be available to new Customers. Existing term plan Customers, as of November 5, 2011, may add, move, remove or change lines and/or locations for the durations of their current term plan agreements, but may not enter into any new term plan agreements. Existing Customers will be permitted one extension of any existing, non-expired term plan agreement past its current term for twelve (12) months, provided the extension is signed on or before March 31, 2012. Upon expiration of any term plan agreement (including any permitted extension), service will continue on a month-to-month basis until the service is discontinued by the Telephone Company.
- (2) Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies (Cont'd)

(13)(Cont'd)

(T)

- (b) In case of an interruption to Managed Shared Frame Relay Service,⁽¹⁾⁽²⁾ a Service Continuity Credit as follows (instead of the standard Fast Packet Access Service credit allowance for outages set forth previously in (a)) shall apply for service outages according to the schedule provided below if the outage is not due to situations set forth in 2.4.4(C). The customer will be credited the percentage of his effective monthly rate for the MSFRS Connections that are affected by the service interruption (i.e., effective monthly rate meaning the monthly rate discounted by the appropriate Fast Packet Savings Plan discount percentage, if applicable) based upon the period of the actual service outage as set forth in the following chart:

<u>Duration of Service Outage</u>	<u>Service Continuity Credit Percentage</u>
0 - 240 minutes	0%
241 - 360 minutes	33%
361 - 480 minutes	66%
Over 480 minutes	100%

For the services impacted by the service outage, the rate elements used to determine the Service Continuity Credit amount shall be as follows:

- For Managed Shared Frame Relay Service:⁽¹⁾⁽²⁾ MSFRS Connections

- (1) Effective November 5, 2011, BellSouth Managed Shared Frame Relay Service (MSFRS) as described in 21.3, following, will no longer be available to new Customers. Existing term plan Customers, as of November 5, 2011, may add, move, remove or change lines and/or locations for the durations of their current term plan agreements, but may not enter into any new term plan agreements. Existing Customers will be permitted one extension of any existing, non-expired term plan agreement past its current term for twelve (12) months, provided the extension is signed on or before March 31, 2012. Upon expiration of any term plan agreement (including any permitted extension), service will continue on a month-to-month basis until the service is discontinued by the Telephone Company.
- (2) Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

(T)

- (c) In case of an interruption to Fast Packet Access Services subscribed with the Special Provisioning Feature, a Special Provisioning Credit as follows (instead of the standard Fast Packet Access Service credit allowance for outages set forth previously in (a) and (b)) shall apply for service outages if the outage is not due to situations set forth in 2.4.4.(C).

Except for network maintenance windows, if both circuits in a Special Provisioning service relationship fail at the same time and it is determined that both failed at the same time because diversity was not maintained in the Telephone Company's network, then the Telephone Company will provide a credit equal to one full month's charge for each circuit on the subsequent invoice. The credit itself will be equal to what the customer would have actually paid that month (credit is net of any FSP credits).

For the services impacted by the service outage, the rate elements used to determine the Special Provisioning Credit amount shall be as follows:

- For Exchange Access Frame Relay Service:⁽¹⁾⁽²⁾ XAFRS Network Interfaces
- For Managed Shared Frame Relay Service:⁽¹⁾⁽²⁾ MSFRS Connections
- Special Provisioning Feature Charges

- (1) Effective November 5, 2011, Exchange Access Frame Relay Service (XAFRS) (a.k.a. BellSouth Exchange Access Frame Relay Service) as described in Section 21.2, following, and BellSouth Managed Shared Frame Relay Service (MSFRS) as described in 21.3, following, will no longer be available to new Customers. Existing term plan Customers, as of November 5, 2011, may add, move, remove or change lines and/or locations for the durations of their current term plan agreements, but may not enter into any new term plan agreements. Existing Customers will be permitted one extension of any existing, non-expired term plan agreement past its current term for twelve (12) months, provided the extension is signed on or before March 31, 2012. (T)

(T)(D)

Credit allowances for service interruptions on LightGate DS3 Service subject to term plans renewed on or after March 17, 2023 or being provided on a month-to-month basis, will be calculated as provided below. Section 2.4.4(B)(16) applies to LightGate DS3 circuits when Section 2.4.4(B)(8) no longer applies.

(N)

|

(N)

No credit shall be allowed for an interruption period of less than 30 minutes. For each period of 30 minutes, or fraction thereof, that the interruption continues after the initial 30-minute outage, the Customer will be credited at the rate of 1/1440 of the monthly charges until the outage reaches 4 hours. When the total service interruption on the same service exceeds 4 hours, the Customer shall receive a SAW credit as follows:

(i) For the initial 4-hour outage on DS1 Special Access Service, in a 30-day period, the Customer will be credited \$120.

(N)

(ii) For the initial 4-hour outage on LightGate DS3 Service applicable to this section, in a 30-day period, the Customer will be credited \$380.

(N)

(N)

(iii) Additional service interruptions that are 4 hours or greater that occur in the same 30-day period will be calculated at the rate of 1/1440 per 30-minute interval.

(T)

The total credit allowance available to the Customer, regardless of the number or type of service interruptions within a 30-day period, will not exceed 100% of the combined monthly rates per affected service.

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(C) When a Credit Allowance Does Not Apply

No credit allowance will be made for:

- (1) Interruptions caused by the negligence of the customer, the customer's end user or the customer/end user's authorized agent.
- (2) Interruptions of a service due to the failure of equipment or systems provided by the customer or others.
- (3) Interruptions of a service during any period in which the Telephone Company is not afforded access to the premises where the service is terminated.
- (4) Interruptions of a service when the customer has released that service to the Telephone Company for maintenance purposes, to make rearrangements, or for the implementation of an order for a change in the service during the time that was negotiated with the customer prior to the release of that service. Thereafter, a credit allowance as set forth in (B) preceding applies.
- (5) Interruptions of a service which continue because of the failure of the customer to authorize replacement of any element of special construction, as set forth in BELLSOUTH TELECOMMUNICATIONS TARIFF F.C.C. NO. 2 for Special Construction. The period for which no credit allowance is made begins on the seventh day after the customer receives the Telephone Company's written notification of the need for such replacement and ends on the day after receipt by the Telephone Company of the customer's written authorization for such replacement.
- (6) Periods when the customer elects not to release the service for testing and/or repair and continues to use it on an impaired basis.
- (7) Periods of temporary discontinuance as set forth in 2.2.1(B) preceding.

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(C) When a Credit Allowance Does Not Apply (Cont'd)

- (8) An interruption or a group of interruptions, resulting from a common cause, for amounts less than one dollar.
- (9) Periods of interruption as set forth in 13.3.1 following.
- (10) Interruptions of a service due to commercial power failure.
- (11) Interruptions of a service due to labor difficulties, governmental orders, civil commotions, criminal action against the Telephone Company, acts of God, war, or other circumstances beyond the Telephone Company's control.
- (12) When unbundled network elements (UNEs) or combinations of UNEs are commingled with Access Services purchased under this Tariff.
- (13) When the Telephone Company has identified a condition that requires maintenance, and the customer refuses to release the service to the Telephone Company for repair and a subsequent service interruption occurs.
- (14) Periods of interruption due to testing and/or repair during any maintenance window agreed to in advance by the customer and the Telephone Company in response to a customer reported trouble.
- (15) Trouble tickets that Telephone Company closed with the coding of came clear (CC), no trouble found (NTF), or test okay (TOK). (N)

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(D) Use of an Alternative Service Provided by the Telephone Company

Should the customer elect to use an alternative service provided by the Telephone Company during the period that a service is interrupted, the customer must pay the tariffed rates and charges for the alternative service used.

(E) Temporary Surrender of a Service

In certain instances, the customer may be requested by the Telephone Company to surrender a service for purposes other than maintenance, testing or activity relating to a service order. If the customer consents, a credit allowance will be granted. The credit allowance will be 1/1440 of the monthly rate for each period of 30 minutes or fraction thereof that the service is surrendered. In no case will the credit allowance exceed the monthly rate for the service surrendered in any one monthly billing period.

2.4.5 Reestablishment of Service Following Fire, Flood or Other Occurrence

(A) Nonrecurring Charges Do Not Apply

Charges do not apply for the reestablishment of service following a fire, flood or other occurrence attributed to an act of God provided that:

- (1) The service is of the same type as was provided prior to the fire, flood or other occurrence.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.5 Reestablishment of Service Following Fire, Flood or Other Occurrence
(Cont'd)

(A) Nonrecurring Charges Do Not Apply (Cont'd)

- (2) The service is for the same customer.
- (3) The service is at the same location on the same premises.
- (4) The reestablishment of service begins within 60 days after Telephone Company service is available. (The 60 day period may be extended a reasonable period if the renovation of the original location on the premises affected is not practical within the allotted time period.)

(B) Nonrecurring Charges Apply

Nonrecurring Charges apply for establishing service at a different location on the same premises or at a different premises pending reestablishment of service at the original location.

2.4.6 Title or Ownership Rights

The payment of rates and charges by customers for the services offered under the provisions of this tariff does not assign, confer or transfer title or ownership rights to proposals or facilities developed or utilized, respectively, by the Telephone Company in the provision of such services.

2.4.7 Billing of Access Service Provided by Multiple Companies

The Telephone Company will adhere to the standards for billing of access service by multiple companies that are set forth in reference documents Ordering and Billing Forum: Multiple Exchange Carrier Access Billing (MECAB) and Ordering and Billing Forum: Multiple Exchange Carrier Ordering and Design (MECOD).

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.7 Billing of Access Service Provided by Multiple Companies (Cont'd)

(A) Feature Group A (FGA) Service¹

When a Feature Group A (or LSBSA)² Switched Access Service is ordered by a customer where one end of the Transport Element is in the Telephone Company operating territory and the other end is in another Exchange Telephone Company operating territory, the Exchange Telephone Company in whose territory the FGA dial-tone office is located will accept the order. In addition, the Exchange Telephone Company in whose territory the customer's serving wire center is located must also receive a copy of the order from the customer. The Exchange Telephone Company that accepts the order will then determine the charges involved, arrange to provide the Access Service ordered and bill the charges in accordance with its Access Service Tariff.

Upon agreement of the Telephone Companies involved in the provision of FGA service, the dedicated portions of FGA service (i.e. Switched Dedicated Interoffice Channel, Switched Local Channel and Channelization Equipment) will be billed in accordance with the provision of (B) and (C) following. For non-dedicated portions of FGA service, including the Interconnection charge, the rates of the billing company will apply.

Note 1: Except where indicated herein, references to Feature Groups will also include the applicable Basic Serving Arrangement (BSA) as detailed in the matrix of Section 6.1.3(A)(5)(j) (e.g., the term FGA represents both FGA and Line Side Basic Serving Arrangement (LSBSA)).

Note 2: Where LSBSA is provisioned with a DNAL, this section, 2.4.7.(A), shall also apply to the DNAL.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.7 Billing of Access Service Provided by Multiple Companies (Cont'd)

(B) Single Bill Arrangements

(1) General

If agreed to by the Exchange Telephone Companies involved in the provision of the service, single bill arrangements will be provided for Special Access and for FGB, FGD, and the dedicated portions of FGA Switched Access service. (D)

In the event that the Exchange Telephone Companies involved agree to change from one billing arrangement to another, the customer will be notified at least 30 days prior to the effective date of such change.

(2) Ordering

The customer shall place its access service request with each Exchange Telephone Company involved in the provision of the service.

(3) Rating and Billing of Service

The billing company will be as agreed to by the Exchange Telephone Companies involved in the provision of the service. The single bill arrangement may be provided under the following single bill alternatives if agreed to by such companies:

- (a) The billing company will bill and collect all appropriate charges in accordance with the regulations, rates and charges in its Access Service tariff, or

Note 1: Except where indicated herein, references to Feature Groups will also include the applicable Basic Serving Arrangement (BSA) as detailed in the matrix of Section 6.1.3(A)(5)(j) (e.g., the term FGA represents both FGA and Line Side Basic Serving Arrangement (LSBSA)).

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.7 Billing of Access Service Provided by Multiple Companies (Cont'd)

(C) Multiple Bill Arrangements

(1) General

Separate bills will be rendered by the Exchange Telephone Companies for Special Access and for FGB1, FGD, and the dedicated portions of FGA Switched Access Service if the administration of a single bill arrangement, as set forth in 2.4.7(B), is not agreed upon by the companies involved. In the event that the Exchange Telephone Companies involved agree to change from one billing arrangement to another, the customer will be notified at least 30 days prior to the effective date of such change. (D)

(2) Ordering

The customer shall place its access service request with each Exchange Telephone Company involved in the provision of the service.

(3) Rating and Billing of Service

Each company will provide its portion of the Access Service based on the regulations, rates and charges contained in its Access Service tariff, subject to the following rules, as appropriate:

- (a) The charges billed by this company for mileage sensitive rate elements, e.g., Switched Access Service Switched Transport, Special Access Service Interoffice Channel, or Directory Assistance Transport, are determined as follows:

- (i) The total mileage for the service is computed using V&H Coordinate Method set forth in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC., TARIFF F.C.C. NO. 4.

Note 1: Except where indicated herein, references to Feature Groups will also include the applicable Basic Serving Arrangement (BSA) as detailed in the matrix of Section 6.1.3(A)(5)(j) (e.g., the term FGA represents both FGA and Line Side Basic Serving Arrangement (LSBSA)).

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.7 Billing of Access Service Provided by Multiple Companies (Cont'd)

(C) Multiple Bill Arrangements (Cont'd)

(3) Rating and Billing of Service (Cont'd)

(a) (Cont'd)

(ii) A billing factor is determined from NATIONAL EXCHANGE CARRIER ASSOCIATION INC. (NECA) TARIFF F.C.C. NO. 4 directly.

(iii) This company's rates and charges are then multiplied by the appropriate quantity(ies) and the billing factor to obtain the charges for this company.

An example of this methodology is shown in 2.4.7(C)(4) following.

(b) The application of nondistance sensitive rate elements varies according to the rate structure and the location of the facilities involved:

(i) When rates and charges are listed on a per point of termination basis, this company's rates will be billed for the termination(s) within this company's operating territory.

(ii) When rates and charges are listed on a per unit basis, e.g., central office bridging or channelization, this company's rates and charges will apply for units located in this company's operating territory. For switched access common transport between a Telephone Company access tandem and an end office of another telephone company, 50% of this telephone company's Common Transport DS3 to DS1 Multiplexer rate, as set forth in Section 6.8.1(B)(2)(a), and this telephone company's Directory Transport DS3 to DS1 Multiplexer rate, as set forth in Section 9.1.6(B)(6) shall apply.

(iii) When rates and charges are developed on an individual case basis, such rates will be developed for the portion of the service provided by this company.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4.7 Billing of Access Service Provided by Multiple Companies (Cont'd)

(C) Multiple Bill Arrangements (Cont'd)

(3) Rating and Billing of Service (Cont'd)

(b) (Cont'd)

- (iv) When rates and charges are listed on a per service basis, this company's rates and charges are allocated based upon the ratio of points on the access circuit that this company owns, in relation to the total number of points on the circuit.
- (v) For Special Access Interoffice Channel fixed rates, 50% of this company's rate will apply for each end of the Interoffice Channel that this company provides.

For example:

If the Interoffice Channel fixed rate is \$11.80, and this company provides only one end of the Interoffice Channel, the rate would be 50% of \$11.80, or \$5.90.

If this company does not provide either end of the Interoffice Channel, this company's Interoffice Channel fixed rate shall not apply.

- (vi) For Switched Interoffice Channel Facility Termination rates, 50% of this company's rate will apply for each end of the Switched Interoffice Channel that this company provides.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans

(A) Channel Services Payment Plan

(1) General

- (a) The regulations specified herein are applicable only to specific special access services as indicated in the rate regulations for such services in Section 7 of this tariff.
- (b) The terms of this Channel Services Payment Plan (CSPP) apply to such specific special access services except as noted in the rate regulations for the given service.
- (c) The CSPP allows customers to pay stabilized monthly rates for fixed service periods selected by the customer. The six payment plans offered are Plans D, A, B, C and Plans 1 and 2. The applicable payment plans for a particular service are set forth in the Rate Regulations section applicable to that service.

The service period for each plan is shown below.

- Payment Plan D, 12 Month Term Plan.⁽⁴⁾⁽⁶⁾
- Payment Plan A, service periods may be selected from 24 months to 48 months in length.⁽²⁾⁽³⁾⁽⁵⁾
- Payment Plan B, service periods may be selected from 49 months to 72 months in length.⁽²⁾⁽³⁾
- Payment Plan C, service periods may be selected from 73 months to 96 months in length.⁽¹⁾⁽²⁾⁽³⁾
- Payment Plan 1, service periods may be selected from 12 months to 36 months in length.⁽³⁾
- Payment Plan 2, service periods may be selected from 37 months to 60 months in length.⁽³⁾

As of August 23, 1996, new LightGate (a.k.a. BellSouth SPA Point to Point Network) system installations must be ordered under Transport Payment Plan (TPP)⁽³⁾ arrangements as specified in 2.4.8(D) following.

⁽¹⁾ Effective May 15, 2015, Plan C commitment periods of 74 to 96 months will no longer be available for new CSPPs. A Plan C commitment period of 73 months will continue to be available for new CSPPs. There is no change for existing CSPPs.

⁽²⁾ Effective on September 13, 2017, CSPPs greater than 36-months are no longer available for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)) service and SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and CSPPs are no longer available for Metallic (a.k.a. BellSouth SPA Metallic), Telegraph Grade (a.k.a. BellSouth SPA Telegraph), Voice Grade (a.k.a. BellSouth SPA VG), WATS Access Line (WAL) (a.k.a. BellSouth SPA WATS Lines), Derived Data Channel (a.k.a. BellSouth SPA Derived Data Channel), Digital Data Access Service (a.k.a. BellSouth SPA DS0 Digital Data) and BellSouth SPA Customer Network Management (CNM) - FlexServ Service, including for any otherwise available renewals or conversions. Circuits already subject to a CSPP, as of September 13, 2017, will continue to be provided under the then-current CSPP term for the remainder of that term.

⁽³⁾ Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

⁽⁴⁾ For services applicable to the Term Plan, see Section 7.5 on Page 7-203.

⁽⁵⁾ Effective December 1, 2023, CSPPs of 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)) are no longer available, including for any otherwise available conversions. Circuits already subject to CSPPs, as of December 1, 2023, will continue to be provided under the then-current term for the remainder of that term.

⁽⁶⁾ Effective on January 17, 2024, all CSPP and TPPs term plans greater than month-to-month for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Existing Term Plan Services on January 17, 2024, will continue to be provided for the remainder of the then-current terms.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(1) General (Cont'd)

- (d) When the customer renews a CSPP arrangement under 2.4.8(A)(7)(d) following and the sum of months is greater than the number of months for which the service is available under a CSPP, the current rates for the longest payment plan available for that service will apply. At the expiration of existing CSPP arrangements for LightGate (a.k.a. BellSouth SPA Point to Point Network) ⁽¹⁾ customers must renew the service under a TPP arrangement as described under 2.4.8(D) following. Renewals of CSPP arrangements are not permitted.
- (e) When the customer orders service to be provided under a CSPP arrangement, the customer must designate to the Telephone Company the payment plan and the service period desired, e.g. Plan C and 84 Months.
- (f) Rates stabilized under a CSPP arrangement are exempt from Telephone Company initiated increases, however, decreases for any rate element will automatically be reflected in the rates charged to the customer.
- (g) At the expiration of existing Channel Services Payment Plan (CSPP) arrangements for LightGate (a.k.a. BellSouth SPA Point to Point Network) customers must renew the service under a TPP arrangement as described under (7)(d) following. If the customer does not elect to either discontinue service or renew under a new TPP arrangement, service will be continued under month-to-month rates.
- (h) Renewals for existing CSPP arrangements will not be available for LightGate (a.k.a. BellSouth SPA Point to Point Network) ⁽¹⁾ system installation on or after August 23, 1996. New LightGate (a.k.a. BellSouth SPA Point to Point Network) system installations on or after August 23, 1996, must be ordered under TPP arrangements.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(1) General (Cont'd)

(i) Starting February 16, 2002 and ending May 15, 2002, services under an existing CSPP arrangement may be converted to an Area Commitment Plan (ACP) arrangement without termination liability. This applies for conversion to comparable ACP commitment rate elements where the time remaining in the commitment period for the ACP arrangement is equal to or greater than the time remaining in the existing CSPP arrangement that is being converted. With this conversion, the ACP commitment level for a new ACP must be equal to the amount of services under CSPP that are being converted, or the ACP commitment level for an existing ACP must be increased by an amount equal to the amount of services under CSPP that are being converted.

(2) Application of Rates

(a) The stabilized monthly recurring rates applicable are those set forth in 7.5 following for the particular service involved as of the Application Date, provided that the actual service date does not exceed the later of the following:

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE
2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(2) Application of Rates (Cont'd)

- (1) the Service Date under a standard service interval, or
- (2) the earliest date on which service can reasonably be made available to the customer by the Telephone Company.
- (b) If the customer desires a service date later than as provided in (a) preceding, the stabilized monthly recurring rates in effect at the time of the actual service date are applicable.

(3) Additions

- (a) Additions of services or rate elements, for activating spare or unused capacities of a service under a CSPP arrangement, must be activated at the same stabilized monthly recurring rates specified under the existing CSPP arrangement except for 2.4.8(A), 3(b) and 3(c) following.
- (b) LightGate (a.k.a. BellSouth SPA Point to Point Network) CSPP customers must activate spare or unused channel interfaces under the same stabilized monthly recurring rates specified under the existing CSPP arrangement.
- (c) Increases in capacity of LightGate (a.k.a. BellSouth SPA Point to Point Network) systems channels and/or nodes are permitted under CSPP. Such changes may be made by converting the CSPP arrangement to a TPP arrangement as specified in 2.4.8(D) following. When a LightGate system (a.k.a. BellSouth SPA Point to Point Network) channel and/or node is added to an existing CSPP arrangement, the payment plan will convert to a TPP arrangement as specified in 2.4.8(D).

(4) Disconnects

- (a) When a service or rate element, included under a CSPP arrangement, is disconnected prior to expiration of the selected service period, termination liability charges apply as set forth in the rate regulations in this tariff for such service. Remaining services or rate elements will not be affected by such disconnections.
- (b) When a tariffed service under a CSPP arrangement is disconnected prior to the expiration of a selected service period as a result of a customer requested change to a higher order of a separately tariffed service at the same location, termination liability charges will not apply when:

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

(b) (Cont'd)

- (1) the completed service period is 12 months, or 25% of the length of the originally selected CSPP service period, whichever is greater, and
- (2) the service period of the new CSPP arrangement for the higher order of service is equal to or longer than the remaining service period of the disconnected arrangement, and
- (3) the service orders to install the new higher order of service and disconnect the old service are related together and received by the Telephone Company at the same time, and there is no lapse in service between installation of the higher order of service and disconnection of the existing service, and
- (4) the capacity of the higher service is equal to or greater than the existing service. For converting LightGate service (a.k.a. BellSouth SPA Point to Point Network) to SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring) the capacity of the LightGate service (a.k.a. BellSouth Point to Point Network) is considered to be the quantity of DS3's activated on the LightGate service (a.k.a. BellSouth Point to Point Network).

For the purposes of determining a higher order of service, the following ranking will be used (Analog Voice Grade (a.k.a. BellSouth SPA DSO VG) services=lowest):

1. Analog Voice Grade (a.k.a. BellSouth SPA DSO VG) Services
2. DSO (a.k.a. BellSouth SPA DSO Digital Data) Services
3. DS1 (a.k.a. BellSouth DPA DS1) Services (described in 7.2.9 following)
4. SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) (described in 7.2.13 following)
5. LightGate service (a.k.a. BellSouth SPA Point to Point Network).
6. SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring)

Customer requested conversion of any Special Access Service (a.k.a. BellSouth SPA) to the same or higher speed Fast Packet Access Service will be treated as an upgrade to a higher order of service and, as such, termination liability will not apply in accordance with regulations set forth herein.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

(5) Moves of Service Under CSPP

- (a) Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply as stated in 7.4.5 except as provided in 2.4.8(A)(5)(c).
- (b) Moves of service within the same building, where otherwise permissible under the provisions of this tariff, will not constitute a disconnection of service for purposes of the application of termination liability charges. Nonrecurring charges specified in 7.4.5 are applicable.
- (c) Termination Liability Charges will not apply to customer requests for moves of service to a different building subject to the following conditions:

This provision is available only for Voice Grade service (a.k.a. BellSouth SPA DSO VG), Digital Data Access service (a.k.a. BellSouth SPA DSO Digital Data), DS1 High Capacity service (a.k.a. BellSouth SPA DS1) and Uncompressed Video service (a.k.a. BellSouth SPA Uncompressed Digital Video Network). Moves of other CSPP services are subject to the regulations included in 7.4.5 following.

(5) Moves of Service Under CSPP

(c) (Cont'd)

- The original and new premises locations must be in Company territory within the same state.
- The move from the original location to the new location must be completed within thirty days of the original premises disconnect date.
- No lapse in billing will occur for moves of service under CSPP.
- Orders to disconnect the existing service and reestablish it at the new location must be related together and received by the Company at the same time.
- Any rate elements or quantities for local channels, interoffice channels, and/or optional features and functions from the original location that are not reestablished at the new location will be subject to applicable Termination Liability Charges.
- Any additions made at the new location will be handled in accordance with 2.4.8(A)(3) preceding.
- All regulations and charges for changes made to the service coincident to the move will apply.
- All appropriate nonrecurring charges for moves of service as specified in 7.4.5 preceding will apply.
- Moves of service that involve a change from interstate to intrastate jurisdiction will not be treated as a disconnect of service with regard to termination liability charge application. The customer must subscribe to a payment arrangement offered in the appropriate intrastate tariff which is equal to or greater than the remaining contract period.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(6) Requests for Changes in Length of Service Period

(a) Subsequent to the establishment of a CSPP arrangement, and prior to the completion of the selected service period for that arrangement, the CSPP arrangement may be replaced by a new CSPP arrangement at rates and charges in effect on the first day of service under the new CSPP arrangement, subject to the following conditions: (Tx)

- No credit will be given for payments made under the original CSPP arrangement, except for credits allowed under Sections 2.4.8(A)(9)(a) of this tariff.
- The service period selected for the new CSPP arrangement begins on the new CSPP effective date but not later than the expiration date of the CSPP being replaced.
- Nonrecurring charges will not be reapplied for existing services.
- If the new CSPP arrangement has a service period shorter in length than the time remaining under the service period for the existing CSPP arrangement, the change to the new CSPP arrangement constitutes a disconnection of the existing CSPP arrangement for which termination liability charges apply. (Tx)

(7) Renewal Options

(a) When a service period under an existing CSPP arrangement is completed, the customer may select a new CSPP arrangement at rates and charges in effect on the first day of service under the new CSPP arrangement, continue service under the month-to-month rates, or discontinue service with no termination liability charge. If the customer does not elect to either discontinue service or continue service under a new CSPP arrangement, service will be continued under month-to-month rates.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(7) Renewal Options (Cont'd)

- (b) Any new services added to a customer's network or changes to existing services at the time of renewal will be subject to all appropriate nonrecurring charges.
- (c) When a customer renews a CSPP arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
- (d) Recognition of previous service will be given to customers who renew an existing CSPP arrangement, for the same or larger system(s) and all associated rate elements at the same location(s), provided that the length of the new CSPP arrangement is equal to or greater than the remaining service period of the original CSPP arrangement. Recognition of previous service will be given to LightGate CSPP customers who convert to TPP arrangements as described in 2.4.8(D) following provided the customer is the original customer of record at the time of transfer.
- (e) Recognition of previous service will be given to month-to-month customers with a service date of January 1, 1992, or later who convert to a CSPP arrangement, provided the minimum service period has been met. For customers whose service date is January 1, 1992 or earlier, recognition will be given for the previous service back to January 1, 1992. For customers whose service date is later than January 1, 1992, recognition for the previous service will be given back to the actual service date.
- (f) To determine the appropriate CSPP Payment Plan for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of months of the proposed service period of the CSPP arrangement. For example, a CSPP arrangement for a 36 month service period under Plan A is renewed for 24 months with no changes at the end of the 36-month period. The sum of months for the completed and proposed service periods would equal 60 months and would be billed under Payment Plan B.

(A) Channel Services Payment Plan (Cont'd)

(7) Renewal Options (Cont'd)

(f) (Cont'd)

Another example is a month-to-month customer, in service for 15 months, who wishes to convert to a 60-month CSPP arrangement with no changes. The combined service period of the Month-to-Month arrangement and the CSPP arrangement is equal to 75 months, which would be billed under Payment Plan C.

(8) Transfer of Service

- (a) Service transferred to a new customer at the same location in accordance with Section 2.1.2 preceding does not constitute a disconnect of service or a discontinuance of an existing CSPP arrangement.

(9) Prepayment

- (a) Effective October 15, 2005, prepayment is not available for new CSPP arrangements.
- (b) Upon entering into a CSPP arrangement, the customer may prepay the outstanding recurring monthly rates in whole or in part for all rate elements included in the CSPP arrangement. The Company retains full ownership for services in accordance with Section 2.4.6. The following conditions apply:
- A prepayment allowance will be applied to the amount prepaid for each given month equal to 0.6666% per month compounded monthly for the number of months the payment is advanced.
 - The customer may elect the percentage of the monthly rates to be prepaid, provided however, the same percentage shall apply to all rate elements included in the CSPP arrangement for all months remaining in the service period.
 - This same prepayment percentage will apply in the event the customer adds services to an existing CSPP arrangement subsequent to the establishment of the service.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(A) Channel Services Payment Plan (Cont'd)

(9) Prepayment (Cont'd)

(b) (Cont'd)

- When a customer who has prepaid recurring monthly rates replaces the existing CSPP arrangement with a new CSPP arrangement, the customer will be credited with that portion of the prepayment amount, representing a prepayment of the monthly recurring rates remaining in the existing CSPP arrangement.
- Customers who prematurely disconnect will have termination liability charges deducted from the unused prepaid balance. The remaining prepaid balance, if any, will be credited to their bill.

(B) Area Commitment Plan (ACP)

The Area Commitment Plan (ACP) allows customers who have obtained service on a month-to-month basis to receive reduced rates, in the form of ACP credits, in exchange for a commitment to maintain a level of service for a specified period of time. The terms of this plan apply to special access services or switched access services that are available under an ACP, except as noted in the rate regulations for a service.

Services included in a Channel Services Payment Plan (CSPP) and/or a Transport Payment Plan (TPP) may not be included in an ACP or vice versa.

The customer determines the commitment level of rate elements that will be included in an ACP, i.e., the customer will provide the number of commitment rate elements expressed as a whole number (e.g., 12 DS1 Local Channels). For example, a customer wishes to establish an ACP for all of his DS1 services that are billing on a month-to-month basis. The customer has 12 DS1 Local Channels and 6 DS1 Interoffice Channels that have a total of 90 Interoffice Channel miles. In this example, the quantity of commitment rate elements would be specified as 12 DS1 Local Channels and 90 Interoffice Channel miles. For interoffice channels, the commitment is based on a quantity of miles. When credits are applied to interoffice channel miles on a circuit, the customer automatically receives credit for the fixed rate element component of the interoffice channel. As a further example, this customer may desire to establish a commitment level only for a small portion of these DS1 services. In this case, the customer would specify the level that is desired (e.g., 1 DS1 Local Channel). ACP commitments are made on a regional basis, i.e., one commitment for all Company service areas.

ISSUED: OCTOBER 17, 2022

EFFECTIVE: NOVEMBER 1, 2022

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) (Cont'd)

The Customer may choose any period of time between 24 and 72 months for the commitment.⁽¹⁾⁽³⁾ The applicable rate for use in the ACP calculation is the ACP rate selected commitment period. ACP commitment periods are offered as follows:

(N)

- ACP A, commitment periods may be selected from 24 months to 48 months in length.⁽²⁾⁽³⁾

(N)

- ACP B, commitment periods may be selected from 49 months to 72 months in length.⁽¹⁾⁽²⁾⁽³⁾

(N)

Each month the Telephone Company will determine the number of in-service rate elements, by type (Local Channel, Multiplexer or Channel Mileage), for which the Telephone Company will apply credits during the following month. The amount of any ACP credit will be based on the difference between the month-to-month rate and the associated ACP rate. Credit and shortfall calculations will be performed at the end of each month, and the resulting credit/shortfall amounts will be applied to the Customer's bill during the following month.

The Telephone Company will apply credits to Local Channel and Multiplexer rate elements, by applying the following steps in the following order:

1. Credits will be applied by state, in proportion to the percentage of the relevant rate element type purchased by the Customer in each state. For example, if a Customer purchases 40 percent of its Local Channels in Florida, then the Telephone Company will apply 40 percent of the Customer's ACP credits to Local Channels to Florida.
2. Within each state, Local Channel and Multiplexer credits will be applied by Rate Zone, beginning with Rate Zone 1 and proceeding to Zone 3.
3. Within each Rate Zone, credits will be applied according to the applicable monthly charge for each rate element, beginning with the highest billed rate elements and proceeding to the lowest billed rate elements.

⁽¹⁾ Effective May 15, 2015, Plan B commitment periods of 61 to 72 months will no longer be available. Plan B commitment periods from 49 to 60 months will continue to be available for new ACPs. There is no change for existing ACPs.

⁽²⁾ Effective on September 13, 2017, ACPs greater than 36-months for special access services are no longer available, including for any otherwise available conversions. Circuits already subject to an ACP greater than 36-months, as of September 13, 2017, will continue to be provided under the then-current ACP term for the remainder of that term.

⁽³⁾ Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) (Cont'd)

The Telephone Company will apply credits to mileage rate elements, by applying the following steps in the following order:

(N)

1. Credits will be applied by state, in proportion to the percentage of the relevant rate element type purchased by the customer in each state. For example, if a Customer purchases 40 percent of its Local Channels in Florida, then the Telephone Company will apply 40 percent of the Customer's ACP credits to channel mileage in Florida.
2. Within each state, credits will be applied beginning with the longest mileage circuit and proceeding to the shortest mileage circuit.
3. If circuits have the same mileage, credits will be applied by Rate Zone, beginning with Rate Zone 1 and proceeding to Zone 3.
4. Within a Rate Zone, credits will be applied according to the applicable monthly charge for each mileage rate element, beginning with the highest billed rate element and proceeding to the lowest billed rate element.

(N)

If the number of in-service rate elements is less than the commitment level, a shortfall charge will apply. The shortfall charge will be equal to the difference between the Customer's commitment level and the number of in-service rate elements of the relevant type (Local Channel, Multiplexer or Channel Mileage); multiplied by 50 percent of the ACP rate applicable to each rate element to which a shortfall charge is applied. To calculate shortfall charges, the Telephone Company will apply the ACP Plan B, Price Cap Zone 2 rate that is in effect on the billing date for the appropriate commitment period, i.e., the ACP rate that is effective at the end of each month for which the credit/shortfall calculations are performed.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) (Cont'd)

Services available under ACP and the ACP rates are specified in the rate regulations of the individual services.

Credit and shortfall amounts will be distributed to billing areas based on each billing area's portion of a Customer's regional ACP eligible in-service units. Each state in the region is considered to be one billing area.

Effective March 4, 2006, a Customer may have only one ACP. For Customers with multiple ACP commitments prior to March 4, 2006, upon expiration of the multiple commitments, only one ACP may be maintained. In those cases as of March 4, 2006, where the Customer has more than one ACP agreement, the credits and shortfall charges will be determined in chronological order, starting with the earliest agreement. For Interoffice Mileage Commitments under ACP, circuits will be assigned with the longest mileage circuit assigned first and continuing in descending order by circuit length until the number of circuits subscribed to are assigned starting with the earliest agreement.

The Customer may add or disconnect services as desired, subject to the minimum service periods set forth in Section 7.4.4 for special access services or as set forth in Section 6.7.2 for switched access services and subject to applicable nonrecurring charges. Credits for services under an ACP will be made at the circuit level.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(B) Area Commitment Plan (ACP) (Cont'd)

A customer may upgrade services under an ACP to a higher order of service¹, provided under an Optional Payment Plan (i.e., an ACP, a TPP, a FPSPP, a FSP or a CSPP arrangement) and request a reduction in his ACP commitment level without incurring a termination liability. The customer request for the services being upgraded from a lower order of service must be coordinated with the installation of the new service being upgraded to a higher order of service. A new ACP will be issued to reflect a new commitment level. The new commitment level must be equal to or greater than the current commitment level less the quantity of services upgraded.

Effective March 4, 2006, a customer desiring to increase a commitment level may update an existing ACP agreement to include the increased commitment level. The commitment period for the updated ACP agreement must be equal to or greater than the time remaining in the existing ACP agreement.

If during the commitment period, the customer desires to decrease its commitment level or period, the customer must enter into a new ACP agreement and terminate the existing ACP agreement(s). This will result in a termination liability to be calculated as follows:

The penalty for a decrease in the commitment level or commitment period, per unit decreased, will equal the ACP rate associated with the existing ACP agreement multiplied by the difference in months between the time the ACP agreement has been in effect and the minimal months of the existing agreement times a factor. The factor is 40 percent for agreements that have been in effect twelve months or less, or 20 percent for agreements that have been in effect longer than 12 months.

Changes in commitment periods within a plan (e.g., ACP B) do not constitute a change involving a termination liability.

In the case of a decrease in both a commitment level and commitment period, the termination liability will be calculated first for the reduction in level and then for the reduction in period based on the reduced level.

Note 1: Customer requested conversion of Special Access Service (a.k.a., BellSouth SPA) to the same or higher speed Fast Packet Access Service will be treated as an upgrade to a higher order of service.

ISSUED: DECEMBER 23, 2022

EFFECTIVE: JANUARY 1, 2023

(C) Fast Packet Services Payment Plan⁽¹⁾

(1) General

- (a) The regulations specified herein are applicable only to specific Fast Packet Access Services as indicated in the rate regulations for such services in Section 21 and Section 23 following.
- (b) The terms of this Fast Packet Services Payment Plan (SPP) apply to such specific Fast Packet Services except as noted in the rate regulations for the given service.
- (c) The Fast Packet SPP allows customers to pay stabilized monthly rates for fixed service periods selected by the customer. The two payment plans offered are as follows:
 - Payment Plan A, service periods may be selected from 12 months to 24 months in length.
 - Payment Plan B, service periods may be selected from 25 months to 48 months in length.
- (d) When the customer renews a Fast Packet SPP arrangement under 2.4.8(C)(7)(d) following and the sum of months is greater than the number of months for which the services is available under a Fast Packet SPP, the current rates for the longest payment plan available for that service will apply. For example, when the customer extends XAFRS beyond 48 months, Payment Plan B rates will apply.
- (e) When the customer orders service to be provided under a Fast Packet SPP arrangement, the customer must designate to the Company the payment plan and the service period desired, e.g., Plan B and 36 months.
- (f) Rates stabilized under a Fast Packet SPP arrangement are exempt from Telephone Company initiated increases, however, decreases for any rate element will automatically flow through to the customer.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

(C) Fast Packet Services Payment Plan⁽¹⁾ (Cont'd)

(2) Application of Rates and Charges

(a) The rates and charges applicable are those in effect as set forth in the rate regulations of this tariff for the particular Fast Packet Access Service involved as of the Application Date, provided that the actual service date does not exceed the later of the following.

(1) the Service Date under a standard service interval, or

(2) the earliest date on which service can reasonably be made available to the customer by the Telephone Company.

(b) If a customer desires a service date later than as provided in (a) preceding, the rates and charges in effect at the time of the actual service date are applicable.

(c) The customer will be required to pay a Termination Liability Charge in the event that all or any part of a service is disconnected at the customer's request prior to expiration of any selected payment period of greater than one month's duration except as specified in 2.4.8(C)(4) following.

(d) No Termination Liability Charge will apply.

(3) Additions

(a) Additions of services or rate elements (e.g., Network Interfaces) must be under a new Fast Packet SPP arrangement at rates and charges specified in 2.4.8(C)(2) preceding.

(b) Termination charges for premature disconnection of added contractual services will apply as set forth under Disconnects in 2.4.8(C)(4) following.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(C) Fast Packet Services Payment Plan⁽¹⁾ (Cont'd')

(9) Prepayment (Cont'd)

- When a customer who has prepaid recurring monthly rates replaces the existing Fast Packet SPP arrangement with a new Fast Packet SPP arrangement, the customer will be credited with that portion of the prepayment amount, representing a prepayment of the monthly recurring rates remaining in the existing Fast Packet SPP arrangement.
- No Termination Liability Charge will apply to Customers who prematurely disconnect.

(D) Transport Payment Plan (TPP)

(1) General

- (a) The regulations and terms specified herein are applicable only to LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring and/or BellSouth DS1 Diverse service Special Access (a.k.a. BellSouth SPA) services as indicated in the rate regulations in Sections 6 and 7 of this tariff.
- (b) The TPP allows customers to pay stabilized monthly rates for fixed service periods selected by the customer. The three payment plans offered are as follows:
 - Payment Plan A, service periods may be selected from 12 months to 36 months in length.⁽³⁾⁽⁵⁾
 - Payment Plan B, service periods may be selected from 37 months to 60 months in length.⁽²⁾⁽³⁾
 - Payment Plan C, service periods may be selected from 61 months to 96 months in length.⁽¹⁾⁽²⁾⁽³⁾

⁽¹⁾ Effective May 15, 2015, Plan C commitment periods of 62 to 96 months will no longer be available for new TPPs. A Plan C commitment period of 61 months will continue to be available for new TPPs. There is no change for existing TPPs.

⁽²⁾ Effective on September 13, 2017, TPPs greater than 36-months are no longer available for LightGate (a.k.a. BellSouth SPA Point to Point Network) service and BellSouth DS1 Diverse service, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a TPP greater than 36-months, as of September 13, 2017, will continue to be provided under the then-current TPP term for the remainder of that term.

⁽³⁾ Effective on November 1, 2022, all ACPs for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), CSPPs of greater than 24 months for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and TPPs greater than 12 months for BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Circuits already subject to ACPs, CSPPs, and TPPs, as of November 1, 2022, will continue to be provided under the then-current term for the remainder of that term.

⁽⁴⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

⁽⁵⁾ Effective on January 17, 2024, all CSPP and TPPs term plans greater than month-to-month for High Capacity (a.k.a. BellSouth SPA High Capacity DS1 (a.k.a. BellSouth SPA DS1)), SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring), SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), BellSouth DS1 Diverse Service and LightGate Systems (a.k.a. BellSouth SPA Point to Point Network), are no longer available, including for any otherwise available conversions. Existing Term Plan Services on January 17, 2024, will continue to be provided for the remainder of the then-current terms.

ACCESS SERVICE
2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(1) General (Cont'd)

- (c) Conversions of existing CSPP arrangements for BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring service(s) to a TPP arrangement must be initiated by the customer.
- (d) For conversions to the TPP arrangement, the number of months under the TPP arrangement must equal or exceed the number of months remaining under the CSPP arrangement.
- (e) Termination liability charges and nonrecurring charges will not apply when a CSPP customer converts to a TPP arrangement.
- (f) Intentionally left blank. (T)
- (g) When the customer orders service to be provided under a TPP arrangement, the customer must designate to the Telephone Company the payment plan desired.
- (h) Rates stabilized under a TPP arrangement are exempt from Telephone Company initiated increases, however, decreases for any rate element will automatically be reflected in the rates charged to the customer.
- (i) Conversions of BellSouth DS1 Diverse service and/or LightGate (a.k.a. BellSouth SPA Point to Point Network) TPP arrangements to a higher order of CSPP service are allowed.

(2) Application of Rates

- (a) The stabilized monthly recurring rates as set forth in Sections 6, 7 and 29 following are set as of the Application Date for BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) and/or BellSouth Dedicated Ring provided that the actual service date does not exceed the later of the following:

- (1) the Se
- (2) the earliest date by which service can be made available to the customer by the Telephone Company.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE
2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(2) Application of Rates (Cont'd)

- (b) If the customer desires a service date later than as provided in (a) preceding, the stabilized monthly recurring rates in effect on the service date are applicable.

(3) Additions

- (a) Additions of services or rate elements, to existing BellSouth DS1 Diverse service to activate spare or unused capacities, must be activated under the same rate plan as the existing TPP arrangement. LightGate (a.k.a. BellSouth SPA Point to Point Network) and/or BellSouth Dedicated Ring channel interfaces must be activated as set forth in Sections 6 and 7 following.

(4) Disconnects

- (a) Except as provided in 2.4.8(D)(4)(b) through (f) following, when a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) and/or BellSouth Dedicated Ring rate element is disconnected prior to being in service for a 12-month period, (e.g., the minimum term for a Plan A TPP), the termination liability charge will be derived by multiplying the difference in rates between the current month-to-month rate and the rate for the TPP arrangement selected. For example, a customer subscribes to a TPP for 24 months (Plan A) and terminates service after 10 months. The termination liability charge will be applied by multiplying the number of months in service (10) by the difference between the month-to-month and Plan A monthly rates. With the exception of Renewal Options in 2.4.8(D)(7) following, a four month minimum service period for BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) and/or BellSouth Dedicated Ring will be applicable and all month-to-month regulations will apply.

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

When a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) or BellSouth Dedicated Ring TPP customer disconnects a rate element prior to the 12 month TPP minimum, all current month-to-month nonrecurring charges associated with the BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) system or BellSouth Dedicated Ring level rate elements will apply.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

(a) (Cont'd)

BellSouth DS1 Diverse service rate elements are defined as Local and Interoffice Channels. LightGate system (a.k.a. BellSouth SPA Point to Point Network) rate elements are defined as LightGate (a.k.a. BellSouth SPA Point to Point Network) service Local and Interoffice Channel Systems including SAFT Levels I and II. BellSouth Dedicated Ring rate elements are defined as following: Local Channel, Interoffice Channel, Internodal Channel, Alternate Central Office Channel, Customer Node and Central Office Node.

- (b) Except as provided in Section 2.4.8(D)4 (c) through (f) following, when a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) or BellSouth Dedicated Ring TPP customer disconnects services or rate elements prior to the minimum number of months for the plan period selected, termination liability charges will apply. The termination liability charge will be derived at the time of disconnection by taking the difference between the rate for the TPP period for which the customer subscribed, and the rate for the TPP period that the customer's completed service would otherwise qualify, and multiplying the difference by the number of months service the customer completed under a TPP. For example, a customer subscribes to a TPP for 73 months (Plan C) and terminates service after 20 months (Plan A). The termination liability charge will be applied by multiplying the number of months in service (20) by the difference between the Plan A and Plan C monthly rates. When a BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network) or BellSouth Dedicated Ring customer disconnects service after the minimum number of months for the TPP arrangement selected but prior to the actual expiration date of the TPP arrangement, termination liability charges do not apply.

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

(c) (Cont'd)

- (4) the capacity of the new service is equal to or greater than the existing service. For converting LightGate service (a.k.a. BellSouth SPA Point to Point Network) to SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring), the capacity of the LightGate service (a.k.a. BellSouth SPA Point to Point Network) is considered to be the quantity of DS3s activated on the LightGate service (a.k.a. BellSouth SPA Point to Point Network).

For the purposes of determining a higher order of service in all payment plans, the following ranking will be used (Analog Voice Grade (a.k.a. BellSouth SPA DSO VG) service=lowest, Telephone Company dedicated ring service=highest):

1. Analog Voice Grade (a.k.a. BellSouth SPA DSO VG) services
2. DSO (a.k.a. BellSouth SPA DSO Digital Data) Services DS1 (a.k.a. BellSouth SPA DS1) Services BellSouth DS1 Diverse Service SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring)
6. Telephone Company wavelength service/Telephone Company wavelength channel service with stand alone channels⁽¹⁾
7. LightGate service (a.k.a. BellSouth SPA Point to Point Network)/Telephone Company wavelength channel service dedicated system arrangements
8. SMARTPath DS3 Transport service (a.k.a. BellSouth SPA DS3 Shared Ring)
9. BellSouth Dedicated Ring/Telephone Company wavelength dedicated ring service (see Section 2.4.8(D)(4)(f))

Customer requested conversion of Special Access Service (a.k.a., BellSouth SPA) to the same or higher speed Fast Packet Access Service⁽¹⁾ will be treated as an upgrade to a higher order of service and, as such, termination liability will not apply in accordance with regulations set forth herein.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

2 - General Regulations

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

- (f) A change of jurisdiction from interstate to intrastate service constitutes a disconnection of service for which termination charges are applicable. However, if such service continues between the same serving locations, and the customer enters into a new TPP arrangement in the intrastate jurisdiction for the same or larger service capacity and associated rate elements for a service period equal to or greater than the service period remaining under the interstate TPP arrangement, no interstate termination liability charge will be applicable.

(5) Moves of Service Under TPP

- (a) Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply as stated in 7.4.5, 7.5.9, 23.5, 29.1.7 and 29.1.9 except as provided in 2.4.8(D)(5)(c) following. A four month minimum service period must be satisfied for all service rate elements serving the original building location.
- (b) Moves of service within the same building will not constitute a disconnection of service for purposes of the application of termination liability charges. Current month-to-month nonrecurring charges specified in 7.4.5, 7.5.9, 23.5, 29.1.7 and 29.1.9 are applicable.
- (c) Termination Liability Charges will not apply to customer requests for moves of service to a different building subject to the following conditions:
- The move from the original location to the new location must be completed within thirty days of the original premises disconnect date.
 - The move is a result of connecting one existing LightGate point of termination to a Telephone Company dedicated ring service. For all other LightGate systems, the new customer premises must be served by the same serving wire center as the original location.
 - No lapse in billing will occur for moves of service under a TPP arrangement.
 - Orders to disconnect the existing service and reestablish it at the new location must be related together and received by the Telephone Company at the same time.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(5) Moves of Service Under TPP (Cont'd)

(c) (Cont'd)

- Any additions made at the new location will be handled in accordance with (3) preceding.
- All regulations and charges for changes made to the service coincident with the move will apply.
- All appropriate nonrecurring charges for moves of service as specified in 7.4.5, 7.5.9 and 23.5 following will apply.

Any rate elements or quantities for local channels, interoffice channels or optional features and functions from the original location that are not reestablished at the new location will be subject to applicable Termination Liability Charges.

(6) Requests for Changes in Length of Service Period

(a) Subsequent to the establishment of a TPP arrangement, and prior to the completion of the selected service period for that arrangement, the TPP arrangement may be replaced by a new TPP arrangement at rates and charges in effect on the first day of service under the new TPP arrangement, subject to the following conditions:

- No credit will be given for payments made under the original TPP arrangement, except for credits allowed under 2.4.8(D)(9)(A) following.
- The service period selected for the new TPP arrangement begins on the new TPP effective date but not later than the expiration date of the TPP being replaced.
- Nonrecurring charges do not apply for existing services.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(6) Requests for Changes in Length of Service Period (Cont'd)

(a) (Cont'd)

If the new TPP arrangement has a service period shorter in length than the time remaining under the service period for the existing TPP arrangement, the change to the new TPP arrangement constitutes a disconnection of the existing TPP arrangement for which termination liability charges apply.

(b) Subsequent to the establishment of a TPP arrangement, and prior to the completion of the selected service period for that arrangement, the TPP arrangement may be extended⁽¹⁾ subject to the following conditions:

- The start date of the TPP is not changed, however, with an extension the customer selects a new TPP service period (i.e., the number of months associated with the customer's TPP) that is greater than what presently exist for the current TPP.
- The maximum service period that may be selected for an extension is 96 months. After 96 months, a customer must establish a new TPP arrangement.
- If the new service period selected with an extension results in a change of Payment Plans, then the rates associated with the new Payment Plan will be effective on the first day of service under the extended TPP. For example, if a customer presently has a 36-month TPP arrangement, which is associated with Payment Plan A rates, and extends his service period to 61 months, which is associated with Payment Plan C rates, the Plan C rates will be effective on the first day of the extended TPP.
- If a TPP arrangement that has been extended is disconnected prior the expiration of the extended service period, termination liability charges will be based on the rates associated with the extended TPP arrangement at the time of the disconnect. For example, if a customer's TPP that has been extended and is receiving Plan C rates at the time the TPP is disconnected, then Plan C rates will be used to determine the applicable termination liability.

⁽¹⁾ Term extensions are not available for TPPs established on or after May 15, 2015. There is no change for existing TPPs.

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(7) Renewal Options

- (a) When a service period under an existing CSPP or TPP arrangement is completed, the customer may select a new TPP arrangement at rates and charges in effect on the first day of service under the new TPP arrangement, continue service under the month-to-month rates, or discontinue service with no termination liability charge. If the customer does not elect to either discontinue service or continue service under a new TPP arrangement, service will be continued under month-to-month rates. The TPP customer of record will have a 60-day grace period after which current month-to-month rates will apply. The stabilized monthly recurring rates as set forth in Sections 7 and 29 following remain in effect during the 60-day grace period.
- (b) Any new services added to a customer's network or changes to existing services at the time of renewal will be subject to all appropriate nonrecurring charges and four month minimum service period requirements.
- (c) When a customer renews a TPP arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
- (d) To determine the appropriate TPP Payment Plan for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of months of the proposed service period of the TPP arrangement.
- (e) Recognition of previous service will be given to customers who renew an existing TPP arrangement, for the same or larger system(s) and all associated rate elements at the same location(s), provided that the length of the new TPP arrangement is equal to or greater than the remaining service period of the original TPP arrangement. Recognition for satisfying the four month service period as appropriate for the service will be given for renewals of the same size channels, systems, rings, and all associated rate elements. Conversion to larger systems and rings will incur new four month minimum service requirements.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(7) Renewal Options (Cont'd)

- (f) Recognition of previous service will be given to month-to-month customers who convert to a TPP arrangement, for the same or larger system(s) and all associated rate elements at the same location(s), provided the four month minimum service period for that service has been met.
- (g) Recognition of previous service will be given to TPP customers who convert from CSPP arrangements provided the customer is the original customer of record at the time of transfer.
- (h) When an existing BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network), and/or BellSouth Dedicated Ring, customer has completed the selected TPP commitment period and the service reverts to month-to-month service, only the contiguous month-to-month service adjacent to the start date of the new TPP will receive recognition for determining the appropriate TPP arrangement or any subsequent TPP arrangement.

(8) Transfer of Service

- (a) Service transferred to a new customer at the same location in accordance with 2.1.2 preceding does not constitute a disconnect of service or a discontinuance of an existing TPP arrangement.

(9) Prepayment

- (a) Effective October 15, 2005, prepayment is not available for new TPP arrangements.
- (b) Upon entering into a TPP arrangement, the customer may prepay the outstanding recurring monthly rates in whole or in part for all rate elements included in the TPP arrangement. The following conditions apply:

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(9) Prepayment (Cont'd)

- A prepayment allowance will be applied to the amount prepaid for each given month equal to 0.6666% per month compounded monthly for the number of months the payment is advanced.
- The customer may elect the percentage of the monthly rates to be prepaid, provided however, the same percentage shall apply to all rate elements included in the TPP arrangement for all months remaining in the service period.
- This same prepayment percentage will apply in the event the customer adds services to an existing TPP arrangement subsequent to the establishment of the service.
- When a customer who has prepaid recurring monthly rates replaces the existing TPP arrangement with a new TPP arrangement, the customer will be credited with that portion of the prepayment amount, representing a prepayment of the monthly recurring rates remaining in the existing TPP arrangement.
- Customers who disconnect service and incur termination liability charges, such charges shall be deducted from the unused prepaid balance. The remaining prepaid balance, if any, will be credited to their bill.

(10) Automatic Extension of TPP Arrangements

- (a) For the period beginning on January 13, 2001 through January 12, 2002, customers that complete a TPP arrangement will receive an automatic 12-month extension of their TPP arrangement. With this automatic extension, the customer's service will be continued under TPP at the rates and charges associated with the payment plan that is being extended. Customers that do not wish to utilize the benefits of the automatic extension may request that their TPP arrangement be terminated, without penalty, at any time during the 12-month period associated with their extension.

At the end of the 12-month extension, or at the time that a customer indicates that they do not desire to continue under the 12-month extension, the standard provisions associated with the completion of a TPP arrangement apply.

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽³⁾

Effective September 29, 2007, the BellSouth Fast Packet Savings Plan (FSP) will no longer be available for new customer subscriptions. Existing FSP customers may keep their existing FSP agreements until the expiration of the term. Upon expiration of the term, customers may not renew the FSP agreement. Also with the above effective date, customers may not revise an existing FSP agreement to extend the length of the term.

- (1) The BellSouth FSP allows customers to receive credits applied to their bill in exchange for making a commitment to maintain a minimum level of total Fast Packet Services monthly recurring billing (defined in 2.4.8(F)(3) following) for a specified period of time.

The credits provided under a BellSouth FSP agreement are applied to eligible Fast Packet Services, LightGate service (a.k.a. BellSouth SPA Point to Point). The monthly rates and nonrecurring charges¹ for the following Fast Packet Services, LightGate service (a.k.a. BellSouth SPA Point to Point) are eligible for credit when subscribed to on a month-to-month basis:

- BellSouth Exchange Access Frame Relay Service^{(2) (3)}
- BellSouth Managed Shared Frame Relay Service^{(2) (3)}
- BellSouth Customer Network Management - Network Visibility Service (CNM-NVS) (excluding Service Establishment Charge and Management Access Interface Charges)
- LightGate service (a.k.a. BellSouth SPA Point to Point)

⁽¹⁾ Effective November 14, 2001, FSP discount credits also apply to nonrecurring billing for eligible services for a customer under a FSP agreement. For a customer with an existing FSP agreement, FSP credit adjustments are not applicable for nonrecurring billing prior to November 14, 2001.

⁽²⁾ Effective November 5, 2011, Exchange Access Frame Relay Service (XAFRS) (a.k.a. BellSouth Exchange Access Frame Relay Service) as described in Section 21.2, following, and BellSouth Managed Shared Frame Relay Service (MSFRS) as described in 21.3, following, will no longer be available to new Customers. Existing term plan Customers, as of November 5, 2011, may add, move, remove or change lines and/or locations for the durations of their current term plan agreements, but may not enter into any new term plan agreements. Existing Customers will be permitted one extension of any existing, non-expired term plan agreement past its current term for twelve (12) months, provided the extension is signed on or before March 31, 2012. Upon expiration of any term plan agreement (including any permitted extension), service will continue on a month-to-month basis until the service is discontinued by the Telephone Company.

⁽³⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120). 2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

- (2) The Fast Packet services as set forth in 2.4.8(F)(1) preceding that are included in a Fast Packet Services Payment Plan (FPSP, as provided in 2.4.8(C)) will not receive BellSouth FSP credits. Monthly recurring billing for such services under a Fast Packet Services Payment Plan shall, however, count towards the customer's Total Fast Packet Services Monthly Recurring Billing (referred to as qualifying revenues) for a BellSouth FSP as set forth in 2.4.8(F)(3) following.

The LightGate service (a.k.a. BellSouth SPA Point to Point), as set forth in 2.4.8(D)(1) preceding that are included in a Transport Payment Plan (TPP), as provided in 2.4.8(D), will not receive BellSouth FSP credits. Monthly recurring billing for such services shall, however, count towards the customer's Total Fast Packet Services Monthly Recurring Billing (referred to as qualifying revenues) for a BellSouth FSP as set forth in 2.4.8(F)(3) following.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽³⁾ (Cont'd)

(3) The customer's Total Fast Packet Services Monthly Recurring Billing, referred to hereafter as qualifying revenues, will be utilized to establish the appropriate BellSouth FSP credit schedule which will be applied to the customer's eligible Fast Packet Service billing as set forth in Section 2.4.8(F)(1). A customer's qualifying revenues is defined to include their monthly recurring billing¹ for the following services:

- Eligible Fast Packet Services (as set forth in Section 2.4.8(F)(1))
- BellSouth Exchange Access Frame Relay Service⁽²⁾ under FPSP
- Eligible BellSouth Transport Services (per (a) following):
 - § WATS Access Line (WAL) (a.k.a. BellSouth WATS Line) Service
 - § DS1 High Capacity (a.k.a. BellSouth SPA DS1) Service
 - § High Capacity (a.k.a. BellSouth SPA High Capacity)
 - § Alternate Serving Wire Center Service
 - § LightGate Service (a.k.a. BellSouth SPA Point to Point Network)
 - § Digital Data Access Service (a.k.a. BellSouth SPA DS0 Digital Data)
 - § Voice Grade (a.k.a. BellSouth SPA DS0 VG) Service
 - § Program Audio⁽⁴⁾ (a.k.a. BellSouth SPA Program Audio) Service
 - § Analog Data Access (a.k.a. BellSouth SPA DS0 VG) Service
 - § SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring)
 - § SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring)

⁽¹⁾ While nonrecurring charges for eligible services receive discounts under an FSP agreement, nonrecurring charge billing does not count as "qualifying" revenue towards a customer's minimum monthly revenue commitment.

⁽²⁾ Effective November 5, 2011, Exchange Access Frame Relay Service (XAFRS) (a.k.a. BellSouth Exchange Access Frame Relay Service) as described in Section 21.2, will no longer be available to new Customers. Existing term plan Customers, as of November 5, 2011, may add, move, remove or change lines and/or locations for the durations of their current term plan agreements, but may not enter into any new term plan agreements. Existing Customers will be permitted one extension of any existing, non-expired term plan agreement past its current term for twelve (12) months, provided the extension is signed on or before March 31, 2012. Upon expiration of any term plan agreement (including any permitted extension), service will continue on a month-to-month basis until the service is discontinued by the Telephone Company.

⁽³⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth^(Z) Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

⁽⁴⁾ Program Audio is discontinued and no longer available in this publication (see WC Dkt. 19-238).

(3) (Cont'd)

- Eligible BellSouth Transport Services (per (a) following): (Cont'd)

- § BellSouth SWA Transport
- § BellSouth SWA Managed Shared Network Service
- § BellSouth Dedicated Ring
- § BellSouth SWA DS0 Service
- § BellSouth SWA DS1 Service
- § BellSouth SWA DS3 Service
- § BellSouth Directory Transport
- § Federal Government Transport Plan

(a) The following percentages of total monthly recurring billing for eligible BellSouth Transport Services (as set forth previously herein 2.4.8(F)(3)) will count as qualifying revenue:

- 10% when a customer signs a Plan A term.
- 25% when a customer signs a Plan B term.
- 35% when a customer signs a Plan C or Plan D term.

Additionally, a customer must maintain at least 75% of its existing Fast Packet Services monthly recurring billing during the FSP interim period (as set forth in 2.4.8(F)(10) following) to allow eligible BellSouth Transport Services to count as qualifying revenue.

(4) The lengths of the term plans available for a BellSouth FSP agreement are as follows:

- Plan A (36 to 59 Months)
- Plan B (60 to 83 Months)
- Plan C (84 to 143 Months)
- Plan D (144 Months)¹

⁽¹⁾ The Plan D term is only available with a \$2,000,000 Minimum Monthly Revenue Commitment level.

⁽²⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽²⁾ (Cont'd)

- (5) The following table provides the minimum monthly revenue commitment levels for a customer's qualifying revenues under a BellSouth FSP agreement¹. The customer specifies their minimum monthly revenue commitment level (hereinafter referred to as monthly revenue commitment or revenue commitment) and the term plan for their BellSouth FSP agreement. Based upon these two parameters, a specific schedule of credits applies during their BellSouth FSP agreement. Each credit schedule contains the credit percentages applicable to the month-to-month rates and nonrecurring charges for eligible Fast Packet Services defined in 2.4.8(F)(1). The credit schedules are identified by: an alpha character that identifies the term plan, and a numeric character that identifies the customer's minimum monthly revenue commitment level. Credit schedules are provided following in 2.4.8(F)(6).

Minimum Monthly Revenue Commitment <u>Level</u>	Credit Schedule			
	Plan A Term 36 - 59 <u>Months</u>	Plan B Term 60 - 83 <u>Months</u>	Plan C Term 84 - 143 <u>Months</u>	Plan D Term 144 <u>Months</u>
\$ 750,000	Schedule 0A	Schedule 0B	Schedule 0C	-
\$ 2,000,000	Schedule 1A	Schedule 1B	Schedule 1C	Schedule 1D
\$ 5,000,000	Schedule 2A	Schedule 2B	Schedule 2C	-
\$ 10,000,000	Schedule 3A	Schedule 3B	Schedule 3C	

Note 1: Only monthly recurring billing for qualifying services is used in determining a customer's monthly revenue which applies towards their minimum monthly revenue commitment; nonrecurring billing for qualifying services does not apply.

Note 2: Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120). 2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

- (7) Each month under a BellSouth FSP agreement the customer's eligible billing will be adjusted via a credit. The monthly credit will be equal to the previous month's eligible revenue times the appropriate credit percentage set forth in the credit schedule specified by the customer's BellSouth FSP agreement.
- (8) To subscribe to a BellSouth FSP, a customer must submit to the Telephone Company a signed agreement provided by the Telephone Company specifying the customer's monthly revenue commitment and the term plan (indicating the actual number of plan months) desired for their FSP agreement. The customer must also identify to the Telephone Company all Access Customer Name Abbreviations (ACNAs) to be included in the BellSouth FSP agreement. The BellSouth FSP effective service date will be negotiated by the Telephone Company and the customer. The negotiated effective service date shall be no later than 30 days after the Telephone Company has received the aforementioned signed agreement from the customer with the required information to develop the FSP agreement. BellSouth FSP credits specified in 2.4.8(F)(7) will begin with the first bill period following the negotiated effective service date of the BellSouth FSP agreement.
- (9) Except as specified in (9)(a) following, to enroll in a BellSouth FSP agreement, the customer's monthly qualifying revenues at the time of enrollment (based upon the most current monthly billing data available) must equal or exceed the entry level minimum qualifying revenue specified in the table following. The entry level minimum qualifying revenue depends upon the term plan and monthly revenue commitment level selected for the customer's FSP agreement. The entry level minimum qualifying revenues are as follows:

Minimum Monthly Revenue Commitment Level	Entry Level Minimum Qualifying Revenues			
	Plan A Term	Plan B Term	Plan C Term	Plan D Term
	36 - 59 Months	60 - 83 Months	84 - 143 Months	144 Months
	(50% of MMRC)	(35% of MMRC)	(20% of MMRC)	(5% of MMRC)
\$ 750,000	\$ 375,000	\$ 262,500	\$ 150,000	-
\$ 2,000,000	\$ 1,000,000	\$ 700,000	\$ 400,000	\$100,000
\$ 5,000,000	\$ 2,500,000	\$ 1,750,000	\$ 1,000,000	-
\$ 10,000,000	\$ 5,000,000	\$ 3,500,000	\$ 2,000,000	-

- (a) A customer may enroll in a BellSouth FSP agreement between November 14, 2001, and February 14, 2002, with only 50% of the entry level minimum qualifying revenues set forth above.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

ISSUED: DECEMBER 23, 2022

EFFECTIVE: JANUARY 1, 2023

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

- (10) Subject to meeting the requirements set forth in 2.4.8(F)(9), customers are allowed an interim period beginning with the establishment of their BellSouth FSP agreement to increase their qualifying monthly revenues to the level of the monthly revenue commitment specified in their FSP agreement. The length of this interim period differs based upon the term plan selected for the customer's FSP agreement as follows:

- Plan A 12 month interim period allowed
- Plan B 24 month interim period allowed
- Plan C 36 month interim period allowed
- Plan D 60 month interim period allowed

- (11) Once the interim period specified in 2.4.8(F)(10) preceding has been completed, a Shortfall Charge shall apply on a going forward basis for each month that the customer's qualifying revenue does not equal or exceed the customer's revenue commitment. The applicable Shortfall Charge for each such month is an amount equal to the difference between the customer's monthly revenue commitment and their actual qualifying revenues billed that month.

- (12) Subject to the terms set forth in 2.4.8(F)(8) for initiating a new FSP agreement, customers may request to revise an existing FSP agreement to include a different length of term and/or monthly revenue commitment. The number of months served under the existing FSP agreement will be counted in establishing the total term length for the revised FSP agreement (i.e., providing recognition of previous FSP service). Based upon customer requested revisions in the total length of the FSP agreement and/or monthly revenue commitment, the customer's credit schedule as specified in 2.4.8(F)(6) may change.

A customer may make such revisions to his FSP agreement without a Commitment Reduction Charge (discussed following) as long as the total revenue commitment associated with the revised FSP agreement is equal to or greater than the total revenue commitment for the existing FSP agreement.

The total revenue commitment associated with the existing plan is the product of multiplying the total number of months specified in the customer's existing FSP agreement by the existing plan's monthly revenue commitment.

The total revenue commitment associated with the revised plan is determined by taking the product of multiplying the number of months served under the existing plan by the existing plan's monthly revenue commitment, and adding it to, the product of multiplying the number of additional months in the revised FSP plan by the revised plan's monthly revenue commitment.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120). ISSUED: DECEMBER 23, 2022

EFFECTIVE: JANUARY 1, 2023

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

(12) (Cont'd)

If the total revenue commitment associated with the revised FSP plan is less than the total revenue commitment associated with the existing plan, a Commitment Reduction Charge is applicable. This Commitment Reduction Charge is equal to the product of the total FSP credits received by the customer since the initiation of a FSP plan, multiplied by, 1 minus the ratio of the revised plan total revenue commitment to the existing plan total revenue commitment.

For example: After 40 months, a customer with a 60 month FSP agreement with a \$5,000,000 revenue commitment per month (discount schedule 2B) wants to change to a \$2,000,000 revenue commitment for the next 36 months. (The customer's new agreement will be for a total of 76 months (40 months plus 36 months). FSP crediting for the next 36 months will be under discount schedule 1B.) Thus far under the existing FSP agreement, the customer has produced over \$200,000,000 in qualifying revenues, which included \$100,000,000 of eligible service revenues upon which he has received a total of \$40,000,000 in FSP credits.

The total revenue commitment associated with the existing plan is calculated as follows:

$$60 \text{ months times } \$5,000,000 = \$300,000,000.$$

The total revenue commitment associated with the revised (76 month) plan is calculated as follows:

$$\begin{aligned} &= (40 \text{ months times } \$5,000,000) \text{ plus } (36 \text{ months times } \$2,000,000) \\ &= (\$200,000,000) \text{ plus } (\$72,000,000) \\ &= \$272,000,000 \end{aligned}$$

A Commitment Reduction Charge (CRC) applies since the revised plan's total revenue commitment is less than the existing plan's total revenue commitment. The charge is calculated as follows:

$$\begin{aligned} \text{CRC} &= \$40,000,000 \times (1 - (\$272,000,000/\$300,000,000)) \\ &= \$40,000,000 \times (1 - .9067) \\ &= \$40,000,000 \times (.0933) \\ &= \$ 3,732,000 \end{aligned}$$

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120). 2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

(12) (Cont'd)

- (a) Under the terms set forth herein, a customer may extend the period of time under their FSP agreement. If the increase in total number of months causes the revised FSP agreement to fall under a longer term plan (as set forth in 2.4.8(F)(4)) than the existing agreement, the customer qualifies for a longer interim period (discussed in 2.4. (F)(10)).

The additional interim period time allowed is equal to the difference between the interim period months associated with the revised agreement's term plan, less the interim period months associated with the existing plan which have not passed. The total interim period months allowed such a customer shall not exceed the number of interim period months specified in 2.4.8. (F)(10) preceding based upon the revised agreement's term plan. Any additional interim period time appropriate for a customer shall begin with the start date of the revised agreement.

- (b) Under the terms set forth herein, a customer may decrease the period of time under their FSP agreement. If the decrease in total number of months causes the revised FSP agreement to fall under a shorter term plan (as set forth in 2.4.8(F)(4)) than the existing agreement, the customer no longer qualifies for the longer interim period (discussed in 2.4.8(F)(10)) associated with the existing plan. The following terms apply upon the effective date of the revised agreement:

- If the interim period associated with the existing FSP agreement has passed, no action is taken.
- If the interim period associated with the existing FSP agreement is underway and has progressed beyond the interim period associated with the revised FSP agreement (as specified in 2.4.8(F)(10)), the customer's interim period shall cease upon the effective date of the revised agreement.
- If the interim period associated with the existing FSP agreement is underway and has not progressed beyond the interim period associated with the revised FSP agreement, the total interim period allowed the customer is the number of months for the revised FSP agreement's term plan (as set forth in 2.4.8(F)(10)).

(12) (Cont'd)

- (c) Under the terms set forth herein, a customer may increase their monthly revenue commitment and extend the period of time under their FSP agreement. If the increase in total number of months causes the revised FSP agreement to fall under a longer term plan (as set forth in 2.4.8(F)(4)) than the existing agreement, the customer qualifies for a longer interim period (discussed in 2.4.(F)(10)).

The additional interim period time allowed is equal to the difference between the interim period months associated with the revised agreement's term plan, less the interim period months associated with the existing plan which have not passed, plus 12 months. Any additional interim period time appropriate for a customer shall begin with the start date of the revised agreement.

- (d) Under the terms set forth herein, a customer may increase their monthly revenue commitment and continue with the period of time under their FSP agreement. A customer qualifies for an additional 12 months to be added to the existing interim period.
- (e) Under the terms set forth herein, a customer may increase their monthly revenue commitment and shorten the period of time under their FSP agreement. The following terms apply:
- If the decrease in total number of months causes the revised FSP agreement total revenue commitment to be less than the total revenue commitment associated with the existing plan, then a Commitment Reduction Charge will apply. No time period extension to the interim period will be provided.
 - If the revised FSP agreement total revenue commitment is greater than the existing plan total revenue commitment, a customer will receive an additional 12 months to be added to the existing interim period.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

(13) No Termination Liability Charge will apply.

(14) In the event of a merger or acquisition and both companies have existing BellSouth FSPs, then the customer will have the option of continuing both plans or merging both into one FSP agreement.

If the customer chooses to merge both plans into one FSP agreement, then the plan of the company making the acquisition will remain in effect and the revenues of the acquired company will be combined with those of the company making the acquisition. A revised BellSouth FSP agreement will be established based on these combined revenues subject to the regulations set forth in 2.4.8(F)(12).

If the company resulting from the merger or acquisition chooses not to continue the FSP plan(s), early termination provisions set forth in 2.4.8(F)(13) preceding apply.

(15) In the event of a merger or acquisition if only one company has a BellSouth FSP, then the customer will have the option of continuing the existing FSP plan as is or adding the new company to that existing FSP agreement.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

- (16) During a promotional period from April 30, 2004 to July 29, 2004, customers subscribing to a new BellSouth FSP agreement and customers upgrading an existing BellSouth FSP agreement will additionally qualify to receive a FSP Network to Network Interface (NNI) Promotion monthly reward credit. This reward credit will apply when the customer has placed at least one of the Fast Packet Access Services specified in (a) following in a minimum of 13 different BellSouth LATAs.

A unique FSP NNI Promotion monthly reward credit is appropriate for each BellSouth FSP Minimum Monthly Revenue Commitment level based upon whether the customer has in place at least one Fast Packet Access Service specified in (a) following in either 13 different BellSouth LATAs, 26 different BellSouth LATAs or 38 different BellSouth LATAs. These reward credits are shown in (b) following. One such reward credit appropriate per FSP customer shall be applied per month once the customer has fulfilled the promotion requirements (beginning with billing periods after May 25, 2004). The appropriate reward credit shall then be applied to the bill each month for the duration of the customer's BellSouth FSP agreement, except that reward crediting shall cease and no longer be applicable for the remainder of the FSP agreement period once the customer falls below the minimum of one Fast Packet Access Service specified in (a) following in at least 13 different BellSouth LATAs.

- (a) A minimum of one of the following Fast Packet Access Services at 1.536 Mbps or greater speed with a network interface configured for network to network interface capability (i.e., Frame Relay NNI) must be in place in a minimum of 13 different BellSouth LATAs in order for a customer with a BellSouth FSP agreement subscribed to during this promotional period to begin to receive a FSP NNI Promotion monthly reward credit: BellSouth Exchange Access Frame Relay Service (XAFRS), BellSouth Managed Shared Frame Relay Service (MSFRS).

- (b) Monthly reward credit amounts for the FSP NNI Promotion are provided in the schedule following:

FSP Monthly Monthly Revenue Commitment Level	FSP NNI Promotion Monthly Reward Credit		
	NNIs in	NNIs in	NNIs in
	13 LATAs	26 LATAs	38 LATAs
\$ 750,000	\$ 1,070.00	\$ 4,200.00	\$ 9,160.00
\$ 2,000,000	\$ 1,270.00	\$ 5,000.00	\$ 11,000.00
\$ 5,000,000	\$ 1,460.00	\$ 5,740.00	\$ 12,710.00
\$ 10,000,000	\$ 1,700.00	\$ 6,690.00	\$ 14,840.00

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. 2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(F) BellSouth Fast Packet Savings Plan⁽¹⁾ (Cont'd)

(16)(Cont'd)

- (c) Applicable taxes and fees will be based on the standard BellSouth Fast Packet Savings Plan price of qualifying services, and no taxes or fees will be added to the FSP NNI Promotion monthly reward credit applied to customer bills.
- (17) During a promotional period from April 1, 2005 to April 30, 2005, new BellSouth FSP Agreements signed with a Minimum Monthly Revenue Commitment of \$5,000,000 with a 60 to 83 month term (referred to as a Plan 2B) shall be provided with promotional terms and conditions stipulated herein for the duration of these FSP Agreements. During the 36th month of such FSP Agreements, the customer must inform the Telephone Company which of the following options they have selected for their FSP Agreement for service beyond the 36th month:
 - (a) No Termination Liability Charge will apply.
 - (b) The existing FSP Agreement may be retained for the duration of the selected payment period (of 60 to 83 months) and standard FSP tariff terms and conditions shall apply for the remaining months of the selected term (including Termination Liability for a total termination).
 - (c) The existing FSP Agreement may be revised to another FSP Agreement subject to the standard terms and conditions outlined within this BellSouth Fast Packet Savings Plan tariff for such changes.

It is the responsibility of the customer to provide to the Telephone Company their choice of the above options prior to the completion of the 36th month of the promotional FSP Agreement. Failure of the customer to provide such direction shall result in (b) above being the default option for the customer and the FSP Agreement shall continue in effect for the remaining duration of the 60 to 83 month term subject to the standard terms and conditions of the FSP tariff.

2.4.9 Service Installation Guarantee

- (A) The Telephone Company assures that orders for services to which the Service Installation Guarantee applies will be installed and available for customer use no later than the Service Date as specified in Section 5.1.1. The Service Installation Guarantee is applicable only as specified in Sections 2.4.9, 6.7.1(D) and 7.4.1(C) of this Tariff and for the Cross Connect elements in Section 13 of this Tariff.
- (B) The failure of the Telephone Company to meet this commitment will result in a Service Installation Guarantee credit being applied to the Customer's bill. The Service Installation Guarantee credit will only apply to the services specified in Section 6.7.1.(D), Section 7.4.1.(C), the Connection rate element specified in Section 28.1.9(A), and Cross Connect elements in Sections 13.3.22, 13.3.23, and 13.3.24 of this tariff, for which nonrecurring charges are applicable. The Service Installation Guarantee credit will be determined as follows:
1. For DS1 Special Access (a.k.a. BellSouth SPA DS1) and BellSouth SPA DS1 Diverse services, the Service Installation Guarantee credit will equal \$350 per DS1 circuit experiencing the missed Service Date or the amount of the actual installation charge, whichever is less.
 2. For all other eligible services, the Service Installation Guarantee credit will be equal to the billed nonrecurring charges associated with the individual service having the missed Service Date.

The Service Installation Guarantee credit will not be provided if the installation charge has been waived or credited for some other reason.

- (C) For BellSouth Dedicated Ring, the Service Installation Guarantee is applicable for all channel interface rate elements. BellSouth Dedicated Ring ⁽¹⁾ ring level rate elements are excluded from the Service Installation Guarantee. BellSouth Dedicated Ring level rate elements are defined as follows: Local Channel, Interoffice Channel, Internodal Channel, Alternate Central Office Channel, Customer Node and Central Office Node.
- (D) The Service Installation Guarantee is applicable to DS1 Diverse service Local and Interoffice Channel rate elements for which nonrecurring charges are appropriate.

EFFECTIVE: JANUARY 1, 2023

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.9 Installation Guarantee (Cont'd) Service

(E) The Service Installation Guarantee applies for the following Fast Packet Access Services⁽¹⁾ at DSO and DS1 levels only: BellSouth Exchange Access Frame Relay Service and Managed Shared Frame Relay Service.

(F) Service Installation Guarantees do not apply:

- (1) on Switched (a.k.a. BellSouth SWA) and Special Access (a.k.a. BellSouth SPA) services installations, moves and rearrangement of service with an agreed upon service date interval of four business days or less following the Application Date of the service order. The Application Date for Switched (a.k.a. BellSouth SWA) and Special Access (a.k.a. BellSouth SPA) is as specified in Section 5.1.1(G).
- (2) on Special Access (a.k.a. BellSouth SPA) and Fast Packet Access service⁽¹⁾ orders for installations, moves and rearrangement of services with service dates that have been advanced from the standard or negotiated service interval as specified in Section 5.1.1(H), or
- (3) when failure to meet the Service Date occurs because of:
 - (a) any act or omission, which shall include an accurate and complete service order, from this customer, any other customer or any third party, or of any other entity providing a portion of a service,
 - (b) labor difficulties, governmental orders, civil commotions, criminal actions against the Telephone Company, acts of God, war, or other circumstances beyond the Telephone Company's control,
 - (c) unavailability of the customer's facilities and/or equipment,
- (4) to service requiring Special Construction as set forth in BellSouth Telecommunications Tariff F.C.C. No. 2.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

2.4.9

Service

(F) Service Installation Guarantees do not apply: (Cont'd)

- (5) to Specialized Service or Arrangements or Individual Case Basis filings,
- (6) to BellSouth Virtual Expanded Interconnection service arrangements, as set forth in Section 20 of this Tariff, or
- (7) for jointly provisioned services except as stipulated in 2.4.9(C) preceding.

In addition, Service Installation Guarantees will not apply during a declared National Emergency. Priority installation of National Security Emergency Preparedness (NSEP) telecommunications services shall take precedence.

2.5 Connections

Equipment and Systems (i.e., terminal equipment, multiline terminating systems and communications systems) may be connected with BellSouth SWA and Special Access (a.k.a. BellSouth SPA) service furnished by the Telephone Company where such connection is made in accordance with the provisions specified in Technical Reference Publication AS No. 1 and in 2.1 preceding.

2.6 Definitions

Certain terms used herein are defined as follows:

Access Code

The term "Access Code" denotes a uniform seven digit code assigned by the Telephone Company to an individual customer. The seven digit code has the form 101XXXX and 950-XXXX.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Additional Residential Local Exchange Service ("Additional Residential Line")

This term denotes any residential local exchange service ("residential line") provided by the Telephone Company or a reseller of a Telephone Company-provided residential line at a residential premises other than the Primary Residential Line, as defined below. The Additional Residential Local Exchange Service Line or Trunk FUS and EUCL charges apply to such residential lines.

Alternate Central Office

The term "Alternate Central Office" denotes a wire center other than the serving wire center of the location of a customer node associated with BellSouth Dedicated Ring.

Answer/Disconnect Supervision

The term "Answer/Disconnect Supervision" denotes the transmission of the switch trunk equipment supervisory signal (off-hook or on-hook) to the customer's point of termination as an indication that the called party has answered or disconnected.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

BellSouth Directory Assistance (Interstate)

The term "BellSouth Directory Assistance" denotes the provision of telephone numbers by a Telephone Company operator when the operator location is accessed by a customer premises by sending the appropriate signals, i.e., 411, 555-1212 or (NPA) 555-1212.

BellSouth Directory Assistance Location (Interstate)

The term "BellSouth Directory Assistance Location" denotes a Telephone Company office where Telephone Company equipment first receives the Directory Assistance call from a customer's premises and selects the first operator position to respond to the Directory Assistance call.

(D)

(D)

BellSouth Line Information Data Base Location

The term "BellSouth Line Information Data Base Location" denotes the BellSouth Signaling Transfer Point (STP) that serves the BellSouth Line Information Data Base.

ISSUED: DECEMBER 11, 2014

EFFECTIVE: DECEMBER 26, 2014

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

BellSouth Line Information Data Base Access Service

BellSouth Line Information Data Base Access Service will transport queries and responses to and from the customer's Signaling Point of Interconnection (SPOI) and BellSouth's Line Information Data Base Access Service. This service will enable customers to validate billing information stored in BellSouth's Line Information Data Base.

BellSouth Local Number Portability Database Services

The term "BellSouth Local Number Portability Database Services" denotes the query services which provide the routing information to allow wireline and wireless telecommunications carriers or the Telephone Company to direct calls placed to a ported number to the correct switch for completion to the end user.

BellSouth SWA Basic Serving Arrangement

The term "BellSouth SWA Basic Serving Arrangement" denotes the connection of a customer to and through the BOCs networks, and should be considered the fundamental connection to those networks.

BellSouth SWA Common Transport

The term "BellSouth SWA Common Transport" denotes the transmission of the customer's BellSouth SWA traffic between the Access Tandem and the end office, between the BellSouth SWA FGA dial tone office and the end office (for terminating traffic) and, between the end office which serves as the host office for a remote switching system or module (RSS or RSM) and the RSS or RSM.

BellSouth SWA Dedicated Transport

The term "BellSouth SWA Transport" denotes the transmission of the customer's BellSouth SWA traffic utilizing dedicated facilities, when ordered by the customer, between the customer's serving wire center (SWC) and customer designated points, i.e. SWC to a Telephone Company Facility Hub (Hub). SWC to an Access Tandem, SWC to a customer designated end office, Hub to an Access Tandem, Hub to Hub, and Hub to an end office.

BellSouth SWA FGD and BellSouth SWA TSBSA 3 Signaling

The term "BellSouth SWA TSBSA 3 Signaling" denotes the signaling system which is used by end offices, to transmit originating information and address digits to the customer's premises. Features of this system include overlap outpulsing, identification of the type of call, identification of the ten-digit telephone number of the calling party, and acknowledgment wink supervisory signals.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

BellSouth SWA Local Channel

The term "BellSouth SWA Local Channel" denotes a switched transport facility between the customer's serving wire center and the customer's premises.

BellSouth SWA WATS Serving Office

The term "BellSouth SWA WATS Serving Office" denotes a telephone company designated serving wire center where switching, screening and/or recording functions are performed in connection with the closed-end of BellSouth SWA WATS or WATS-type services.

BellSouth Telecommunications Relay Service Transport

The term "BellSouth Telecommunications Relay Service Transport" refers to the provision of a specialized telecommunications service that allows the hearing and speech impaired to communicate over the telecommunications network as defined in Part 64 of the Commission's rules.

BellSouth Telecommunications Relay Service Transport Center

The term "BellSouth Telecommunications Relay Service Transport Center" refers to the entity receiving calls and relaying those calls to the interexchange carrier of choice through the utilization of manual intervention and/or specialized equipment.

Billing Period

Each Billing Period is considered to have 30 days.

Bit

The term "Bit" denotes the smallest unit of information in the binary system of notation.

Business Day

The term "Business Day" denotes the times of day that a company is open for business. Generally, in the business community, these are 8:00 or 9:00 A.M. to 5:00 or 6:00 P.M., respectively, with an hour for lunch, Monday through Friday, resulting in a standard forty (40) hour work week. However, Business Day hours for the Telephone Company may vary based on company policy, union contract and location. To determine such hours for this company, or for an individual location within this company, contact should be made at the address shown at the top of page #1 of this tariff.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Cable Space

The term "Cable Space" denotes any passage or opening in, on, under/over or through the central office cable support structure (e.g., cable risers, cable racks, cable vault or alternate splicing chamber, etc.) required to bring fire retardant fiber optic riser cable from the interconnection space to the location where the riser cable and the feeder cable meet and are spliced and the spaces between the splice and the conduit space, as well as the space between the interconnection space and the Telephone Company point of termination and any other space required to bring other fire retardant communications cable from one interconnection space module to another interconnection space module of the same collocater.

Call

The term "Call" denotes a customer attempt for which the complete address code (e.g., 0-, 911, or 10 digits) is provided to the serving dial tone office or in the case of BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service when the address code is provided to the office performing the translation or screening function.

Carrier Identification Code (CIC)

The term "Carrier Identification Code" (CIC) denotes a unique access identification code that is assigned to an Interexchange Carrier for use with BellSouth SWA FGB and/or BellSouth SWA FGD.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Carrier or Common Carrier

See Interexchange Carrier.

CCS

The term "CCS" denotes a hundred call seconds, which is a standard unit of traffic load that is equal to 100 seconds of usage or capacity of a group of servers (e.g., trunks).

CCS7 Signaling Connection

The CCS7 Signaling Connection provides a 56 kbps facility dedicated to a single customer which originates at the customer's signaling point of interconnection in a LATA and terminates at a Telephone Company Signaling Transfer Point (STP) selected by the Telephone Company. This facility, connecting the customer to a BellSouth STP, is ordered to a Telephone Company FSPOI within the same LATA as the customer's signaling point of interconnection.

CCS7 Signaling Termination

The CCS7 Signaling Termination provides a dedicated point of interface at a Telephone Company STP for a customer's CCS7 Signaling Connection.

CCS7 Access Arrangement Usage

CCS7 Signaling Arrangement Usage refers to messages traversing the Telephone Company's CCS7 Signaling network for call set-up (ISUP) and non-call set-up (TCAP) purposes.

Central Office

The term "Central Office" denotes a local Telephone Company switching system where Telephone Exchange Service customer station loops are terminated for purposes of interconnection to each other and to trunks.

Central Office Prefix

The term "Central Office Prefix" denotes the first three digits (NXX) of the seven digit telephone number assigned to an End User's Telephone Exchange Service when dialed on a local basis.

Centralized Automatic Reporting on Trunks Testing

The term "Centralized Automatic Reporting on Trunks Testing" denotes a type of testing which includes the capacity for measuring operational and transmission parameters.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Centrex Type Services

The term "Centrex Type Services" denotes central office based non-transport arrangements which permit abbreviated internal calling, and inward and outward calling from station lines associated with Centrex service, ESSX-1 service, ESSX service, Digital ESSX service, MultiServ service and MultiServ PLUS service.

Channel(s)

The term "Channel(s)" denotes an electrical or photonic, in the case of fiber optic-based transmission systems, communications path between two or more points of termination.

Channel Service Unit

The term "Channel Service Unit" denotes equipment which performs one or more of the following functions: termination of a digital facility, regeneration of digital signals, detection and/or correction of signal format errors and remote loop back.

Channelization Equipment

Equipment which derives individual channels of voice and/or data from a higher capacity to a lower capacity or bandwidth or vice versa.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Channelize

The term "Channelize" denotes the process of multiplexing-demultiplexing wider bandwidth or higher speed channels into narrower bandwidth or lower speed channels and vice-versa.

Clear Channel Capability

The term "Clear Channel Capability" denotes the ability to transport twenty-four 64 Kbps channels over a 1.544 Mbps High Capacity service via B8ZS line code format.

C-Message Noise

The term "C-Message Noise" denotes the frequency weighted average noise within an idle voice channel. The frequency weighting, called C-message, is used to simulate the frequency characteristic of the 500-type telephone set and the hearing of the average subscriber.

C-Notched Noise

The term "C-Notched Noise" denotes the C-message frequency weighted noise on a voice channel with a holding tone, which is removed at the measuring end through a notch (very narrow band) filter.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Collocator - BellSouth Virtual Expanded Interconnection Service

The term "Collocator-BellSouth Virtual Expanded Interconnection Service" denotes any person, corporation, or other legal entity with whom the Telephone Company has negotiated for the purpose of provisioning an interconnection arrangement in accordance with the BellSouth Virtual Expanded Interconnection tariff provisions.

Collocator's Facilities - BellSouth Virtual Expanded Interconnection Service

The term "Collocator's Facilities-BellSouth Virtual Expanded Interconnection service" denotes the collocator-provided/Telephone Company leased fiber optic cables and central office terminating equipment installed and maintained by the Telephone Company for the sole use of provisioning a BellSouth Virtual Expanded Interconnection service arrangement, in accordance with the BellSouth Virtual Expanded Interconnection tariff provisions.

Common Line

The term "Common Line" denotes a line, trunk, pay telephone line or other facility provided under the general and/or local exchange service tariffs of the Telephone Company, terminated on a central office switch. A common line-residence is a line or trunk provided under the residence regulations of the general and/or local exchange service tariffs. A common line-business is a line provided under the business regulations of the general and/or local exchange service tariffs.

Commingling

The term "Commingling" means the connecting, attaching, or otherwise linking of an unbundled network element (UNE), or a combination of unbundled network elements (UNEs), to one or more facilities or services that a requesting telecommunications carrier has obtained at wholesale from an incumbent LEC, or the combining of an UNE, or a combination of UNEs, with one or more such facilities or services.

ISSUED: OCTOBER 17, 2017

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Communications System

The term "Communications System" denotes channels and other facilities Which are capable of communications between terminal equipment provided by other than the Telephone Company.

Competitive County

The term "Competitive County" denotes the geographic unit of a county or county-equivalent that either is competitive pursuant to the F.C.C.'s competitive market test or was granted Phase II, Level 2 pricing flexibility prior to June 1, 2017.

(N)
—
(N)

Conduit Space

The term "Conduit Space" denotes any reinforced passage or opening in, on, under/over or through the ground between the feeder route conduit system (entry point) and cable vault location capable of containing communications facilities, and includes: cable entrance facilities; main conduit; ducts; inner ducts; gas traps; underground dips such as short sections of conduit under roadway, driveways, parking lots and similar conduit installations; required to bring the collocater-provided fiber optic feeder cable into the Telephone Company central office.

Customer(s)

The term "Customer(s)" denotes any individual, partnership, association, joint-stock company, trust, corporation, or governmental entity or other entity which subscribes to the services offered under this tariff, including both Interexchange Carriers (ICs) and End Users.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Customer Location

The term "Customer Location" denotes a customer premises within the Local Access Transport Area (LATA).

Data Transmission (107 Type) Test Line

The term "Data Transmission (107 Type) Test Line" denotes an arrangement which provides for a connection to a signal source which provides test signals for one-way testing of data and voice transmission parameters.

Decibel

The term "Decibel" denotes a unit used to express relative difference in power, usually between acoustic or electric signals, equal to ten (10) times the common logarithm of the ratio of two signal powers.

Decibel Reference Noise C-Message Weighting

The term "Decibel Reference Noise C-Message Weighting" denotes noise power measurements with C-Message Weighting in decibels relative to a reference 1000 Hz tone of 90 dB below 1 milliwatt.

Decibel Reference Noise C-Message Referenced to 0

The term "Decibel Reference Noise C-Message Referenced to 0" denotes noise power in "Decibel Reference Noise C-Message Weighting" referred to or measured at a zero transmission level point.

Derived Data Channel

The term "Derived Data Channel" denotes a digital data channel derived from a two-wire local exchange facility that transmits voice and data signals simultaneously.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Detail Billing

The term "Detail Billing" denotes the listing of each message and/or Rate element for which charges to a customer are due on a bill prepared by the Telephone Company.

Directory Number

The term "Directory Number" denotes a unique NPA-NXX-XXXX assigned to a subscriber of a Local Service Provider.

Dual Tone Multifrequency Address Signaling

The term "Dual Tone Multifrequency Address Signaling" denotes a type of signaling that is an optional feature of BellSouth SWA FGA and BellSouth SWA LSBSA. It may be utilized when BellSouth SWA FGA and BellSouth SWA LSBSA is being used in the terminating direction (from the point of interface with the customer to the local exchange end office). An office arranged for Dual Tone Multifrequency Signaling would expect to receive address signals from the customer in the form of Dual Tone Multifrequency signals.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

DS0

This denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It is generally referred to as having a 64 Kbps transmission data rate signal. The required format and interface specifications are contained in BellSouth Technical Reference TR-NWT-000341.

DS1

This denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate, and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BPRZ) bit stream format except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format. Unframed signal formats are not permitted or compatible with Company equipment. The required format and interface specifications are contained in BellSouth Technical Reference TR-NPL-000054.

Echo Control

The term "Echo Control" denotes the control of reflected signals in a telephone transmission path.

Echo Path Loss

The term "Echo Path Loss" denotes the measure of reflected signal at a 4-wire point of termination without regard to the send and receive Transmission Level Point.

Echo Return Loss

The term "Echo Return Loss" denotes a frequency weighted measure of return loss over the middle of the voiceband (approximately 500 to 2500 Hz), where talker echo is most annoying.

Effective 2-Wire

The term "Effective 2-Wire" denotes a condition which permits the simultaneous transmission in both directions over a channel, but it is not possible to ensure independent information transmission in both directions. Effective 2-wire channels may be terminated with 2-wire or 4-wire interfaces.

ISSUED: AUGUST 29, 2016

EFFECTIVE: SEPTEMBER 13, 2016

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Effective 4-Wire

The term "Effective 4-Wire" denotes a condition which permits the simultaneous independent transmission of information in both directions over a channel. The method of implementing effective 4-wire transmission is at the discretion of the Telephone Company (physical, time domain, frequency-domain separation or echo cancellation techniques). Effective 4-wire channels may be terminated with a 2-wire interface at the customer's premises. However, when terminated 2-wire, simultaneous independent transmission cannot be supported because the two wire interface combines the transmission paths into a single path.

Egress Circuits

The term "Egress Circuits" denotes the facility used to transport the customer's dialed BellSouth Remote Access Service traffic to the customer's designated location once it has been collected and aggregated by the remote access server.

(D)
—
(D)

End Office Switch

The term "End Office Switch" denotes a local Telephone Company switching system where Telephone Exchange Service customer station loops are terminated for purposes of interconnection to trunks. Included are Remote Switching Modules and Remote Switching Systems served by a host office in a different wire center.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE
2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

End User

The term "End User" denotes any customer of an interstate or foreign telecommunications service that is not a carrier, except that a carrier other than a telephone company shall be deemed to be an "end user" when such carrier uses a telecommunications service for administrative purposes and a person or entity that offers telecommunications services exclusively as a reseller shall be deemed to be an "end user" if all resale transmissions offered by such reseller originate on the premises of such reseller.

Entry Point

The term "Entry Point" denotes the physical entrance into the central office and/or central office vault. Not all central offices have a central office vault. Multiple entry points are more than one physical entrance into the central office and/or central office vault. Normally, multiple entry points will be distinct and/or separate conduit systems.

Entry Switch

See First Point of Switching

Envelope Delay Distortion

The term "Envelope Delay Distortion" denotes a measure of the linearity of the phase versus frequency of a channel.

Equal Level Echo Path Loss

The term "Equal Level Echo Path Loss" (ELEPL) denotes the measure of Echo Path Loss (EPL) at a 4-wire interface which is corrected by the difference between the send and receive Transmission Level Point (TLP). [ELEPL = EPL - TLP (send) + TLP (receive)]

Exchange

The term "Exchange" denotes a unit generally smaller than a Local Access and Transport Area, established by the Telephone Company for the administration of communications service in a specified area which usually embraces a city, town or village and its environs. It consists of one or more central offices together with the associated facilities used in furnishing communications service within that area. One or more designated exchanges comprise a given Local Access and Transport Area.

EFFECTIVE: JULY 15, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service)⁽¹⁾

The term "Exchange Access Frame Relay Service" (a.k.a. BellSouth Exchange Access Frame Relay Service) denotes a connection oriented packet-switched data service for the interconnection of local area networks (LANs) or other compatible customer equipment.

Expected Measured Loss

The term "Expected Measured Loss" denotes a calculated loss which specifies the end-to-end 1004-Hz loss on a terminated test connection between two readily accessible manual or remote test points. It is the sum of the inserted connection loss and test access loss including any test pads.

Fast Packet Access Services

The term "Fast Packet Access services" denotes high speed connectivity over a wide geographic area. Fast packet services use digital transmission facilities and switching technology to provide high speed information transfers for users with large bandwidth requirements. Fast Packet technology divides data into blocks (packets) with fixed maximum lengths. These packets are transported through the Company's network. Each packet contains the necessary information to ensure accurate data transfer to its destination.

Facility Signaling Point of Interconnection (FSPOI)

The term FSPOI denotes a Telephone Company-designated ordering point within a Telephone Company LATA to which customers may order CCS7 Signaling Connections.

Federal Observed Holiday

The term "Federal Observed Holiday" denotes public holidays for Federal employees as established by Federal Law (5 U.S.C. 6103).

⁽¹⁾ Effective November 5, 2011, Exchange Access Frame Relay Service (XAFRS) (a.k.a. BellSouth Exchange Access Frame Relay Service) as described in Section 21.2, following, will no longer be available to new Customers. Existing term plan Customers, as of November 5, 2011, may add, move, remove or change lines and/or locations for the durations of their current term plan agreements, but may not enter into any new term plan agreements. Existing Customers will be permitted one extension of any existing, non-expired term plan agreement past its current term for twelve (12) months, provided the extension is signed on or before March 31, 2012. Upon expiration of any term plan agreement (including any permitted extension), service will continue on a month-to-month basis until the service is discontinued by the Telephone Company.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Field Identifier

The term "Field Identifier" denotes two to four characters that are used on service orders to convey specific instructions. Field Identifiers may or may not have associated data. Selected Field Identifiers are used in Telephone Company billing systems to generate nonrecurring charges.

First-Come, First-Served

The term "First-Come, First-Served" denotes a procedure followed when the first service order received will be the first service order processed.

First Point of Switching

The term "First Point of Switching" denotes the first Telephone Company location at which switching occurs on the terminating path of a call proceeding from the customer premises to the terminating end office and, at the same time, the last Telephone Company location at which switching occurs on the originating path of a call proceeding from the originating end office to the customer premises.

Floor Space - BellSouth Virtual Expanded Interconnection Service

The term "Floor Space" denotes the central office floor space required to provision a BellSouth Virtual Expanded Interconnection Service arrangement, including environmental support and power, for interconnection to Telephone Company-provided services and facilities.

Frequency Shift

The term "Frequency Shift" denotes the change in the frequency of a tone as it is transmitted over a channel.

Grandfathered

The term "Grandfathered" denotes Terminal Equipment, Multiline Terminating Systems and Protective Circuitry directly connected to the facilities utilized to provide services under the provisions of this tariff, and which are considered grandfathered under Part 68 of the F.C.C.'s Rules and Regulations.

Host Office

The term "Host Office" denotes an electronic switching system which provides call processing capabilities for one or more Remote Switching Modules or Remote Switching Systems.

ISSUED: AUGUST 11, 2014

EFFECTIVE: AUGUST 26, 2014

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Hub

(T)

The term "Hub" denotes a Telephone Company designated location at which services are either joined together (as in a bridging hub) or where services are channelized (as in a Hi-Capacity hub). A hub office may be further designated as a Digital Data Access Service (DDAS) hub through which DDAS is available for provisioning. Hubs for specific services are designated in NECA (T) TARIFF F.C.C. NO. 4.

Immediately Available Funds

The term "Immediately Available Funds" denotes a corporate or personal check drawn on a bank account and funds which are available for use by the receiving party on the same day on which they are received and include U.S. Federal Reserve bank wire transfers, U.S. Federal Reserve notes (paper cash), U.S. coins, U.S. Postal Money Orders and New York Certificates of Deposit.

Impedance Balance

The term "Impedance Balance" denotes the method of expressing Echo Return Loss and Singing Return Loss at a 4-wire interface whereby the gains and/or loss of the 4 wire portion of the transmission path, including the hybrid, are not included in the specification.

Impulse Noise

The term "Impulse Noise" denotes any momentary occurrence of the noise on a channel over a specified level threshold. It is evaluated by counting the number of occurrences which exceed the threshold.

Individual Case Basis

The term "Individual Case Basis" denotes a condition in which the regulations, if applicable, rates and charges for an offering under the provisions of this tariff are developed based on the circumstances in each case.

Ingress Circuits

The term "Ingress Circuits" denotes the facility used to transport the customer's incoming dialed BellSouth Remote Access Service traffic, e.g. PRI.

Inserted Connection Loss

The term "Inserted Connection Loss" denotes the 1004 Hz power difference (in dB) between the maximum power available at the originating end and the actual power reaching the terminating end through the inserted connection.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Interconnection

Interconnection denotes the several Interconnection rate elements that apply to BellSouth SWA minutes of use. Separate rate elements are applicable for originating and terminating minutes of use. Additionally, separate rate elements are applicable when the customer utilizes Telephone Company-provided transport facilities versus those service applications where there are no Telephone Company transport facilities utilized.

Interexchange Carrier (IC) or Interexchange Common Carrier

The terms "Interexchange Carrier" (IC) or "Interexchange Common Carrier" denotes any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged for hire in interstate or foreign communication by wire or radio, between two or more exchanges.

Intermodulation Distortion

The term "Intermodulation Distortion" denotes a measure of the nonlinearity of a channel. It is measured using four tones, and evaluating the ratios (in dB) of the transmitted composite four-tone signal power to the second-order products of the tones (R2), and the third-order products of the tones (R3).

Interstate Communications

The term "Interstate Communications" denotes both interstate and foreign communications.

Intrastate Communications

The term "Intrastate Communications" denotes any communications within a state subject to oversight by a state regulatory commission as provided by the laws of the state involved.

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Line-Side Connection

The term "Line-Side Connection" denotes a connection of a transmission path to the line side of a local exchange switching system.

Local Access and Transport Area

The term "Local Access and Transport Area" denotes a geographic area established for the provision and administration of communications service. It encompasses one or more designated exchanges, which are grouped to serve common social, economic and other purposes.

Local Calling Area

The term "Local Calling Area" denotes a geographical area, as defined in the Telephone Company's General Subscriber Service Tariff, in which an end user (Telephone Exchange Service Subscriber) may complete a call without incurring MTS charges.

Location Routing Number

The term "Location Routing Number" (LRN) denotes a 10-digit number used to uniquely identify a switch that serves ported numbers.

Local Tandem Switch

The term "Local Tandem Switch" denotes a local Telephone Company switching unit by which local or access telephonic communications are switched to and from an End Office Switch.

Location Provider

A location provider is the person or persons having legal authority to permit the Payphone Service Provider to place pay telephones on their premises.

Loop Around Test Line

The term "Loop Around Test Line" denotes an arrangement utilizing a Telephone Company central end office to provide a means to make certain two-way transmission tests on a manual basis. This arrangement has two central office terminations, each reached by means of separate telephone numbers and does not require any specific customer premises equipment. Equipment subject to this test arrangement is at the discretion of the customer.

ISSUED: APRIL 25, 2013

EFFECTIVE: MAY 10, 2013

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Loss Deviation

The term "Loss Deviation" denotes the variation of the actual loss from the designed value.

Major Fraction Thereof

The term "Major Fraction Thereof" is any period of time in excess of 1/2 of the stated amount of time. As an example, in considering a period of 24 hours, a major fraction thereof would be any period of time in excess of 12 hours exactly. Therefore, if a given service is interrupted for a period of thirty six hours and fifteen minutes, the customer would be given a credit allowance for two twenty-four hour periods for a total of forty-eight hours.

Manhole

The term "Manhole" denotes a sub-surface enclosure which personnel may enter and use for the purpose of installing, operating, maintaining and repairing communications facilities.

(D)

(D)

Message

The term "Message" denotes a "call" as defined, preceding.

(T)

Milliwatt (102 Type) Test Line

The term "Milliwatt (102 Type) Test Line" denotes an arrangement in an end office which provides a 1004 Hz tone at 0 dBm0 for one-way transmission measurements towards the customer's premises from the Telephone Company end office.

Minutes of Use (See Access Minutes)

Mobile Telephone Switching Office (MTSO)

The term "Mobile Telephone Switching Office (MTSO)" denotes a Cellular Mobile Carrier (CMC) switching system that is used to terminate mobile stations for purposes of interconnection to each other and to trunks interfacing with the public switched network.

ISSUED: OCTOBER 17, 2017

EFFECTIVE: NOVEMBER 1, 2017

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Multipoint Channel

The term "Multipoint Channel" refers to any connection which terminates three or more circuits on the same bridging node.

N-1 Carrier

The term "N-1 Carrier", used in connection with BellSouth Local Number Portability Database Services, denotes the telecommunications carrier immediately preceding the terminating carrier.

Network Channel Interface (NCI) Code Update

The term "Network Channel Interface (NCI) Code Update" denotes the manual or mechanical activity performed to update the NCI code on each sub-DS1 level circuit riding a DS1 High Capacity (a.k.a. BellSouth SPA DS1) service that is converted (rolled over) to a DS3 High Capacity (a.k.a. BellSouth SPA DS3) service.

Network Control Signaling

The term "Network Control Signaling" denotes the transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charge signals), address signaling (e.g., dialing), calling and called number identifications, rate of flow, service selection error control and audible tone signals (call progress signals indicating re-order or busy conditions, alerting, coin denominations, coin collect and coin return tones) to control the operation of the telecommunications system.

Non-Competitive County

The term "Non-Competitive County" denotes the geographic unit of a county or county-equivalent that neither is competitive pursuant to the F.C.C.'s competitive market test nor was subject to Phase II, Level 2 pricing flexibility prior to June 1, 2017.

(N)
—
(N)

Nonsynchronous Test Line

The term "Nonsynchronous Test Line" denotes an arrangement in step-by-step end offices which provides operational tests which are not as complete as those provided by the synchronous test lines, but can be made more rapidly.

North American Numbering Plan

The term "North American Numbering Plan" denotes a three-digit area (Numbering Plan Area) code and a seven-digit telephone number made up of a three-digit Central Office code plus a four-digit station number.

Off-hook

The term "Off-hook" denotes the active condition of Switched Access or a Telephone Exchange Service line.

On-hook

The term "On-hook" denotes the idle condition of BellSouth SWA or a Telephone Exchange Service line.

Open Circuit Test Line

The term "Open Circuit Test Line" denotes an arrangement in an end office which provides an ac open circuit termination of a trunk or line by means of an inductor of several Henries.

Operator Services System

The term "Operator Services System" (OSS) denotes the switching equipment, facilities, operator positions and software components utilized for the provision of Operator Services.

Operator Services System Location

The term "Operator Services System Location" (OSS location) denotes a Telephone Company office where Telephone Company equipment routes or receives customer Operator Services calls to or from the customer location.

Operator Services System Serving Area

The term "Operator Services System Serving Area" (OSS serving area) denotes the geographic operational domain of an Operator Services System.

Originating Direction

The term "Originating Direction" denotes the use of Access Service for the origination of calls from an end user premises to a customer premises.

Overlap Outpulsing

The term "Overlap Outpulsing" denotes the feature of the Feature Group D Signaling System which permits initiation of pulsing to the customer's premises before the calling subscriber has completed dialing an originating call.

ISSUED: JUNE 30, 2020

EFFECTIVE: JULY 15, 2020

Pay Telephone Line

The term "Pay Telephone Line" denotes facilities provided by the Telephone Company which connect pay telephone stations to the Local Exchange network.

Payphone Service Provider

The term "Payphone Service Provider" denotes one who provides payphone service, which is the provision of public or semi-public pay telephone, the provision of inmate telephone service in correctional institutions and any ancillary services.

Phase Jitter

The term "Phase Jitter" denotes the unwanted phase variations of a signal.

Point of Termination

The term "Point of Termination" denotes the point of demarcation, within a customer-designated premises at which the Telephone Company's responsibility for the provision of Access Service ends.

Ported Number

The term "Ported Number" denotes a unique Directory Number retained by a subscriber who has changed Local Service Providers.

Premises

The term "Premises" denotes a building, or a portion of a building in a multi-tenant building, or buildings on continuous property (except Railroad Right-of-way, etc.) not separated by a public highway, except for an end user that offers Telecommunications Services exclusively as a reseller. This term is not to be limited to one building, but applies as well to a complex, or campus-type configuration of buildings. For application of the FUS and EUCL Charges pursuant to Sections 3 and 4 following, each dormitory room served by a central office-based local exchange service shall be considered a premises.

Primary Residential Local Exchange Service ("Primary Residential Line")

This term denotes the earliest ordered Residential Local Exchange Service ("residential line") provided by the Telephone Company or a reseller of a Telephone Company-provided residential line at an end user's residential premises. In the case that multiple residential lines are ordered at the same time at a residential premises without existing residential lines, the Primary Residential Line is that residential line to which the first telephone number is assigned. In the event the Primary Residential Line is disconnected at a residential premises served by more than one residential line, the Telephone Company will deem the Primary Line designation to the residential line to which the second telephone number was assigned. In the event an end user simultaneously orders residential lines from both the Telephone Company and one or more resellers of Telephone Company-provided residential service, the line provided by the Telephone Company will be deemed the Primary Residential Line. The Primary Residential Line FUS or EUCL charge is assessed to the Primary Residential Line.

Query

The term "Query" denotes a Common Channel Signaling (CCS) message which, when appropriately sent, represents a request for validation of data.

Radio Common Carriers (RCCs)

The term "Radio Common Carriers (RCCs)" denotes carriers which are regulated under Part 22 of the Federal Communications Commission's Rules and Regulations.

Registered Equipment

The term "Registered Equipment" denotes the customer's premises equipment which complies with and has been approved within the Registration Provisions of Part 68 of the F.C.C.'s Rules and Regulations.

Remote Access Server

The term "Remote Access Server" denotes equipment that aggregates the customer's BellSouth Remote Access Service dial traffic and transports it to the customer's designated location over their egress circuits.

Remote Switching Modules and/or Remote Switching Systems

The term "Remote Switching Modules and/or Remote Switching Systems" denotes small, remotely controlled electronic end office switches which obtain their call processing capability from an ESS-type Host Office.

Return Loss

The term "Return Loss" denotes a measure of the similarity between the two impedances at the junction of two transmission paths. The higher the return loss, the higher the similarity.

Secondary Channel

The term "Secondary Channel" denotes the offering of a companion digital transmission capability over the same physical facility as the primary channel at a lower bit rate. Terminal equipment required to support secondary channel capability must be provided by the customer.

Service Control Point (SCP)

The term "Service Control Point" denotes a node (translation processor based system) which provides interface and support functions in the provision of network services.

Service Installation Guarantee

The term "Service Installation Guarantee" denotes a program under which the Telephone Company will provide a credit to the customer's account for certain services in those instances when the Service Date is not met due to Telephone Company reasons.

Serving Wire Center

The term "Serving Wire Center" denotes the wire center from which the customer designated premises would normally obtain dial tone from the Telephone Company.

Seven Digit Manual Test Line

The term "Seven Digit Manual Test Line" denotes an arrangement which allows the customer to select balance, milliwatt and synchronous test lines by manually dialing a seven digit number over the associated access connection.

Shared Network Arrangement

The term "Shared Network Arrangement" denotes a service offering whereby multiple customers may cross connect on a channelized High Capacity (a.k.a. BellSouth SPA High Capacity) service and the Telephone Company will undertake to maintain separate records for each customer's portion of the shared network.

Short Circuit Test Line

The term "Short Circuit Test Line" denotes an arrangement in an end office which provides for an ac short circuit termination of a trunk or line by means of a capacitor of at least four microfarads.

Signal-to-C-Notched Noise Ratio

The term "Signal-to-C-Notched Noise Ratio" denotes the ratio in dB of a test signal to the corresponding C-Notched Noise.

Signal Transfer Point

The term "Signal Transfer Point" denotes a signaling point which routes and/or transfers signaling messages through the common channel signaling network.

(Signaling) Point Code

The term "Signaling Point Code" denotes a binary code uniquely identifying a signaling point in a signaling network. This code is used, depending upon its position in the label, either as a destination point code, identifying the intended destination of the message, or as an originating point code, identifying the originating point of the message.

Signaling Point of Interconnection (SPOI)

The term Signaling Point of Interconnection (SPOI) denotes the location where a Telephone Company-provided CCS7 Signaling Connection terminates at a customer location.

Singing Return Loss

The term "Singing Return Loss" denotes the frequency weighted measure of return loss at the edges of the voiceband (200 to 500 Hz and 2500 to 3200 Hz), where singing (instability) problems are most likely to occur.

Space Construction Charge

The term "Space Construction Charge" denotes all work in accordance with BellSouth Telecommunications Practices and performed by BellSouth Telecommunications or Telephone Company-approved contractors, including but not limited to, space design and preparation, design and preparation of interconnection floor space enclosure, design and placement of required environmental, electrical, and fire safety support features, design and placement of required support structures of any other activity required to accommodate the installation of collocator's facilities in the Telephone Company's interconnection space(s) covered under this tariff.

Space Preparation Charge

The term "Space Preparation Charge" denotes all work involving order processing for interconnection space including interexchange carrier service center activities, network coordination activities, and outside plant provisioning activities between the central office manhole and the interconnection space.

Special Order

The term "Special Order" denotes an order for a BellSouth Directory Assistance Access service, BellSouth Operator Services Access service, or a BellSouth Line Information Data Base Access service when the service is provided: Via direct trunks to the BellSouth Directory Assistance location or to an OSS location; or, for BellSouth Directory Assistance Access service, via specially designated trunk groups to the access tandem; or, for BellSouth Line Information Data Base Access Service, via specially designated facilities to a designated BellSouth Line Information Data Base Location. (D) (D)

Subtending End Office of an Access Tandem

The term "Subtending End Office of an Access Tandem" denotes an end office that has final trunk group routing through that tandem.

EFFECTIVE: MARCH 17, 2020

ACCESS SERVICE

2 - General Regulations (Cont'd)

2.6 Definitions (Cont'd)

Toll Free Dialing Database

The term "Toll Free Dialing (TFD) Database" refers to the use of database technology to determine to which access customer an originating TFD call is to be delivered. An originating TFD call is a call made with the prefix 1+800, 1+888, 1+877, 1+866, 1+855, 1+844, 1+833 OR 1+822. These calls may also be referred to as 8XX calls. The TFD Database routes calls to an access customer based on the dialed ten digit TFD number. Initially, the Toll Free Dialing Database will provide routing information for calls utilizing 800 and 888 toll free dialing numbers. The Toll Free Dialing Database will be expanded, as required, at a later date to include routing for 877, 855, 844, 833 and 822 toll free dialing numbers. Until that time, toll free dialing calls, other than those originated as 1+800 or 1+888, will not be completed.

Traceback Request

A request for information from the Customer about traffic which it has sent to the Telephone Company and which traffic is reasonably believed by the Telephone Company to be unlawful and abusive traffic, and which request requires a response indicating whether the Customer is the Originating Provider or whether Customer received the calls from another voice provider.

(N)

(N)

Traditional Signaling

The term "Traditional Signaling" denotes the Intermachine Signaling System which has been traditionally used in North America for the purpose of transmitting the called number's address digits from the originating end office to the switching machine which will terminate the call. In this system, all of the dialed digits are received by the originating switching machine, a path is selected, and the sequence of supervisory signals and outpulsed digits is initiated. No overlap outpulsing, ten digit ANI or ANI information digits are included in this signaling sequence. Acknowledgment wink is required from the terminating switch machine except when the originating switch machine is SXS.

Traffic

The term "traffic" denotes a volume of customer access minutes of use or calls.

Traffic Operator Position System (TOPS) Tandem

The term "Traffic Operator Position System" (TOPS tandem) denotes a Telephone Company office where Telephone Company equipment routes or receives customer Operator Services calls to or from the customer location. A TOPS tandem is also known as an OSS location.

Transactions Capabilities Application Part (TCAP) Messages

The term "TCAP Messages" relates to the application of TIA Interim Standard 41 (Sub-systems 005-010) for the transmission of non-call associated messages over the CCSAC network.

Transmission Measuring (105 Type) Test Line/Responder

The term "Transmission Measuring (105 Type) Test Line/Responder" denotes an arrangement in an end office which provides far-end access to a responder and permits two-way loss and noise measurements to be made on trunks from a near end office.

Transmission Path

The term "Transmission Path" denotes an electrical path capable of transmitting signals within the range of the service offering, e.g., a voice grade transmission path is capable of transmitting voice frequencies within the approximate range of 300 to 3000 Hz. A transmission path is comprised of physical or derived channels consisting of any form or configuration of facilities typically used in the telecommunications industry.

Trunk

The term "Trunk" denotes a communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

Trunk Group

The term "Trunk Group" denotes a set of trunks which are traffic engineered as a unit for the establishment of connections between switching systems in which all of the communications paths are interchangeable.

Trunk-Side Connection

The term "Trunk-Side Connection" denotes the connection of a transmission path to the trunk side of a local exchange switching system.

Two-Wire to Four-Wire Conversion

The term "Two-Wire to Four-Wire Conversion" denotes an arrangement which converts a four-wire transmission path to a two-wire transmission path to allow a four-wire facility to terminate in a two-wire entity (e.g., a central office switch).

Unbundled Network Elements (UNEs)

The term "Unbundled Network Elements" denotes the physical facilities of the network, including the associated features, functions and capabilities, that are capable of being used in the provision of a telecommunications service, made available pursuant to Section 251 of the Telecommunications Act of 1996.

ACCESS SERVICE

3 - Carrier Common Line Access Service

The Telephone Company will provide Carrier Common Line Access Service to customers in conjunction with BellSouth SWA service provided in Section 6 of this Tariff.

3.1 General Description

Carrier Common Line Access Service provides for the use of Telephone Company common lines by customers for access to end users to furnish interstate communications.

Premium Access is BellSouth SWA service provided to customers under this Tariff which furnish interstate MTS/WATS.

(D)
(D)

A Special Access (a.k.a. BellSouth SPA) Surcharge, as set forth in Section 7.4.2, will apply to interstate Special Access (a.k.a. BellSouth SPA) service provided by the Telephone Company to a customer, in accordance with regulations as set forth in Section 7.

(T)
(D)
(D)

3.2 Limitations

3.2.1 Exclusions

Neither a telephone number nor detail billing are provided with Carrier Common Line Access Service. Additionally, directory listings and intercept arrangements are not included in the rates and charges for Carrier Common Line Access Service.

3.2.2 BellSouth SWA WATS Service Access Lines

All line side connections provided in the same access group will be limited to the same features and operating characteristics.

All trunk side connections provided in the same access group will be limited to the same features and operating characteristics.

ISSUED: DECEMBER 11, 2014

EFFECTIVE: DECEMBER 26, 2014

ACCESS SERVICE

3 - Carrier Common Line Access Service (Cont'd)

3.2 Limitations (Cont'd)

3.2.2 BellSouth SWA WATS Service Access Lines

Where BellSouth SWA services are connected with Special Access (a.k.a. BellSouth SPA) services at Telephone Company designated WATS serving offices for the provision of BellSouth SWA WATS or WATS-type services, BellSouth SWA service minutes which are carried on that end of the service (i.e., originating minutes for outward BellSouth SWA WATS and WATS-type services and terminating minutes for inward BellSouth SWA WATS and WATS-type services) shall not be assessed Carrier Common Line Access Service per minute charges. (D)

3.3 Undertaking of the Telephone Company

3.3.1 Provision of Service

Where the customer is provided BellSouth SWA service under other sections of this Tariff, the Telephone Company will provide the use of Telephone Company common lines by a customer for access to end users at rates and charges as set forth in Section 3.9.1. (T)

3.3.2 Interstate and Intrastate Use

The BellSouth SWA service provided by the Telephone Company includes the BellSouth SWA service provided for both interstate and intrastate communications. The Carrier Common Line Access Service rates and charges as set forth in Section 3.9.1 apply to interstate BellSouth SWA service access minutes in accordance with the rate regulations as set forth in Section 3.8.4. (T)

3.4 Obligations of the Customer

3.4.1 BellSouth SWA Service Requirement

The BellSouth SWA service associated with Carrier Common Line Access Service shall be ordered by the customer under other sections of this Tariff.

3 - Carrier Common Line Access Service (Cont'd)

3.4 Obligations of the Customer (Cont'd)

3.4.2 Supervision

The customer facilities at the premises of the ordering customer shall provide the necessary on-hook and off-hook supervision.

3.5 Determination of Usage Subject to Carrier Common Line Access Service Charges

Except as set forth herein, all BellSouth SWA service provided to the customer will be subject to Carrier Common Line Access Service charges.

3.5.1 Determination of Jurisdiction

When the customer reports interstate and intrastate use of BellSouth SWA service, the associated Carrier Common Line Access Service used by the customer for interstate will be determined as set forth in Section 3.8.4.

(T)

3.5.2 Reserved for Future Use

(T)

3.5.3 Local Exchange Access and Enhanced Services Exemption

When access to the local exchange is required to provide a customer service (e.g., MTS/WATS-type, telex, Data, etc.) that uses a resold private line service, BellSouth SWA service rates and regulations, as set forth in Section 6 following will apply, except when such access to the local exchange is required for the provision of an enhanced service. Carrier Common Line Access Service rates and charges as set forth in Section 3.9.1 apply in accordance with the resale rate regulations as set forth in Section 3.6.4.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

3 - Carrier Common Line Access Service (Cont'd)

3.6 Resold Services

3.6.1 Scope

Where the customer is reselling MTS and/or MTS-type service(s) on which the Carrier Common Line and BellSouth SWA service charges have been assessed, the customer may, at the option of the customer, obtain BellSouth SWA FGA, BellSouth SWA FGB, or BellSouth SWA FGD, BellSouth SWA LSBSA or BellSouth SWA TSBSA 1 and BellSouth SWA TSBSA 3 service under this Tariff as set forth in Section 6 following for originating and/or terminating access in the local exchange. Such access group arrangements, whether single lines or trunks or multiline hunt groups or trunk groups, will have Carrier Common Line Access Service charges applied as set forth in 3.9.1 following in accordance with the resale rate regulations set forth in 3.6.4 following. For purposes of administering this provision:

Resold interstate terminating MTS and MTS-type service(s) shall include collect calls, third number calls and credit card calls where the reseller pays the underlying carrier's service charges; and shall not include intrastate minutes of use.

Resold interstate originating MTS and MTS-type service(s) shall not include collect, third number, credit card or intrastate minutes of use.

3.6.2 Customer Obligations Concerning the Resale of MTS and MTS-type Services

When the customer is reselling MTS and/or MTS-type service as set forth in 3.6.1 preceding, the customer will be charged Carrier Common Line Access Service charges in accordance with the resale rate regulations as set forth in 3.6.4 following if the customer or the provider of the MTS service furnishes documentation of the MTS usage and/or the customer furnishes documentation of the MTS-type usage. Such documentation supplied by the customer shall be supplied each month and shall identify the involved resold MTS and/or MTS-type services.

The monthly period used to determine the minutes of use for resold MTS and/or MTS-type service(s) shall be the most recent monthly period for which the customer has received a bill for such resold service(s). This information shall be delivered to the Telephone Company, at a location specified by the Telephone Company, no later than 15 days after the bill date shown on the resold MTS and/or MTS-type service bill.

ISSUED: DECEMBER 11, 2014

EFFECTIVE: DECEMBER 26, 2014

ACCESS SERVICE

3 - Carrier Common Line Access Service (Cont'd)

3.6 Resold Services (Cont'd)

3.6.2 Customer Obligations Concerning the Resale of MTS and MTS-type Services (Cont'd)

If the required information is not received by the Telephone Company, the previously reported information, as described preceding, will be used for the next two months. For any subsequent month, no allocation or credit will be made until the required documentation is delivered to the Telephone Company by the customer.

3.6.3 Resale Documentation Provided by the Customer

When the customer utilizes BellSouth SWA service as set forth in Section 3.6.2, the Telephone Company may request a certified copy of the customer's resold MTS or MTS-type usage billing from either the customer or the provider of the MTS or MTS-type Service. Requests for billing will relate back no more than 12 months prior to the current billing period. (T)
(D)

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services

When the customer is provided an access group to be used in conjunction with the resale of MTS and/or MTS-type services as set forth in Section 3.6.1, subject to the limitations as set forth in Section 3.2, and the Telephone Company receives the usage information required as set forth in Section 3.6.2, to calculate the adjustment of Carrier Common Line Access Service charges, the customer will be billed as set forth in Section 3.6.4(E). (T)
(T)
(T)
(T)

(A) Apportionment and Adjustment of Resold Minutes of Use

When the customer is provided with more than one access group in a LATA in association with the resale of MTS and/or MTS-type services, the resold minutes of use will be apportioned as follows:

ISSUED: AUGUST 11, 2014

EFFECTIVE: AUGUST 26, 2014

ACCESS SERVICE

3 - Carrier Common Line Access Service (Cont'd)

3.6 Resold Services (Cont'd)

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services
(Cont'd)

(A) Apportionment and Adjustment of Resold Minutes of Use (Cont'd)

(1) Originating Services

The Telephone Company will apportion the resold originating MTS and/or MTS-type services and originating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the originating usage for each access group to the total originating usage for all access groups in the LATA. For purposes of administering this provision:

(T)

Resold originating MTS and/or MTS-type services minutes shall be only those attributable to interstate originating MTS and/or MTS-type minutes and shall not include collect, third number, credit card or intrastate minutes of use.

The resale credit adjustment shall apply for resold originating MTS and MTS-type services and minutes of use, provided Carrier Common Line Access and BellSouth SWA service charges have been assessed on such services.

(2) Terminating Services

The Telephone Company will apportion the resold terminating MTS and/or MTS-type services and terminating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the terminating usage for each access group to the total terminating usage for all access groups in the LATA. For purposes of administering this provision:

Resold terminating MTS and/or MTS-type services minutes shall be only those attributable to interstate terminating MTS and/or MTS-type (i.e., collect calls, third number calls, and credit card calls) and shall not include intrastate minutes of use or MTS and/or MTS-type minutes of use paid for by another party.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services
(Cont'd)

(A) Apportionment and Adjustment of Resold Minutes of Use (Cont'd)

(2) Terminating Services (Cont'd)

The resale credit adjustment shall apply for resold terminating MTS and MTS-type services and minutes of use, provided Carrier Common Line and BellSouth SWA service charges have been assessed on such services.

(B) Same State/Telephone Company/Exchange Limitation

In order for the rate regulations to apply as set forth in (D), (E) or (F) following, the access groups and the resold MTS and/or MTS-type services must be provided in the same state (except when the same extended area service arrangement is provided in two different states by the same telephone company) in the same exchange, provided by the same Telephone Company and connected directly or indirectly. For those exchanges that encompass more than one state, the customer shall report the information by state where the exchange resides.

(C) Direct and Indirect Connections

Each of the access group arrangements used by the customer in association with the resold MTS and/or MTS-type services must be connected either directly or indirectly to the customer designated premises at which the resold MTS and/or MTS-type services are terminated. Direct connections are those arrangements where the access groups and resold MTS and/or MTS-type services are terminated at the same customer designated premises.

Indirect originating connections are those arrangements where the access groups and the resold originating MTS and/or MTS-type services are physically located at different customer designated premises in the same exchange. Such different customer designated premises are connected by facilities that permit a call to flow from access groups to resold MTS and/or MTS-type services.

(G) When the Adjustment Will Be Applied to Customer Bills

The adjustment as set forth in (D), (E) and (F) preceding will be made to the involved customer account no later than either the next bill date, or the one subsequent to that, depending on when the usage report is obtained.

(H) Conversion of Billed Usage to Minutes

When the MTS and/or MTS-type usage is shown in hours, the number of hours shall be multiplied by 60 to develop the associated MTS and/or MTS-type minutes of use. If the MTS and/or MTS-type usage is shown in a unit that does not show hours or minutes, the customer shall provide a factor to convert the shown units to minutes.

(I) Percent Interstate Use (PIU)

The adjustment as set forth in (D), (E) and (F) preceding will be made to the involved customer account after making the adjustments to the customer account as set forth in 3.8.4 following (PIU).

ACCESS SERVICE

3 - Carrier Common Line Access Service (Cont'd)

3.8 Rate Regulations

3.8.1 Billing of Charges

Carrier Common Line Access Service charges will be billed to each BellSouth SWA service provided under this Tariff in accordance with the regulations as set forth in 3.8.5, following (Determination of Premium Charges), except as set forth in 3.6.4, preceding (Resale), and 3.8.4, following (PIU).

(D)
(T)

3.8.2 Measuring and Recording of Call Detail

When access minutes are used to determine Carrier Common Line Access Service charges, they will be accumulated using call detail recorded by Telephone Company equipment, except as set forth in 3.8.3, following (Unmeasured BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1 Usage). The Telephone Company measuring and recording equipment, except as set forth in 3.8.3, following (Unmeasured BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1 Usage), will be associated with end office or local tandem switching equipment and will record each originating and terminating access minute where answer supervision is received. The accumulated access minutes will be summed on a line by line basis, by line group or by end office, whichever type of account is used by the Telephone Company, for each customer and then rounded to the nearest minute.

(T)

(D)

(T)

3.8.3 Unmeasured BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1 Usage

When Carrier Common Line Access Service is provided in association with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1 service in Telephone Company offices that are not equipped for measurement capabilities, an assumed average interstate access minutes will be used to determine Carrier Common Line Access Service charges. These assumed access minutes are as set forth in 6.7.8 of this Tariff

3.8.4 Percent Interstate Use (PIU)

When the customer reports interstate and intrastate use of in-service BellSouth SWA service, Carrier Common Line Access Service charges will be billed only to interstate BellSouth SWA service access minutes based on the data reported by the customer as set forth in 2.3.10, preceding (Jurisdictional Reports), except where the Telephone Company is billing according to actuals by jurisdiction. Interstate BellSouth SWA service access minutes will, after adjustment as set forth in 3.6.4, preceding (Resale), when necessary, be used to determine Carrier Common Line Access Service charges as set forth in 3.8.5, following.

ACCESS SERVICE

3 - Carrier Common Line Access Service (Cont'd)

3.8 Rate Regulations (Cont'd)

3.8.5 Determination of Premium Charges

After the adjustments as set forth in Sections 3.6.4 and 3.8.4 have been applied, when necessary, to BellSouth SWA service access minutes, charges for the involved customer account will be determined as follows: (T)

(A) Access minutes for all premium rated BellSouth SWA service subject to Carrier Common Line Access Service charges will be multiplied by the premium access per minute rate as set forth in Section 3.9.1. (T)

(B) Reserved for Future Use (T)

(C) Carrier Common Line Access Service charges shall not be reduced as set forth in Section 3.6.1 unless BellSouth SWA charges, as set forth in Section 6, are applied to the customer's BellSouth SWA services. (T)
(D)

(D) Terminating premium access, per minute charge(s), apply to:

- all terminating access minutes of use;
- all originating access minutes of use associated with BellSouth SWA FGA and BellSouth SWA LSBSA access services where the off-hook supervisory signaling is forwarded by the customer's equipment when the called party answers;
- all originating access minutes of use associated with calls placed to 700, 800 and 900 numbers, less the percentage of originating access minutes of use reported by the customer, as set forth following, that are associated with calls placed to 700, 800 and 900 numbers that terminate in a BellSouth SWA service that is assessed Carrier Common Line Access Service charges.

For originating access minutes of use associated with calls placed to 700, 800 and 900 numbers which terminate on a BellSouth SWA service assessed Carrier Common Line Access Service charges, the customer shall report as follows: On or before the fifteenth day of each March, June, September and December the customer shall provide the Telephone Company a report of the percentage of total interstate 700, 800, and 900 originating minutes of use that will terminate in a BellSouth SWA service that is assessed Carrier Common Line Access Service charges for the forthcoming quarter. The reported percentage will be used by the Telephone Company to determine the customer's current monthly bill for the originating minutes of use for which the report was provided as set forth in Section 3.8.5(E). The customer reported percentage should reflect any under or over estimate in the prior quarter. In the event the customer does not supply a report, the Telephone Company will assume the percentage to be the same as that provided in the previous quarterly report. (T)

3 - Carrier Common Line Access Service (Cont'd)

3.8 Rate Regulations (Cont'd)

3.8.5 Determination of Premium Charges (Cont'd)

(D)

(D) (Cont'd)

If a dispute arises concerning the customer provided quarterly percentage report, the Telephone Company may request the customer to provide the data the customer used to determine the percentage. The customer shall keep records from which the reported percentage credit can be ascertained. Upon request of the Telephone Company, the customer shall make records available for inspection as reasonably necessary for purposes of verification of the percentages and shall supply the data within 30 days of the Telephone Company request. The Telephone Company will not request such data more than twice a year.

(E) The originating premium access, per minute charge(s), apply to all originating access minutes of use:

(D)

- less those originating access minutes of use associated with BellSouth SWA FGA and BellSouth SWA LSBSA services where off-hook supervisory signaling is forwarded by the customer's equipment when the called party answers;
- less all originating access minutes of use associated with calls placed to 700, 800 and 900 numbers;
- plus all originating access minutes of use associated with calls placed to 700, 800 and 900 numbers for which the customer furnishes a report of the percentage of minutes that terminate in a BellSouth SWA service that is assessed Carrier Common Line Access Service charges, and for which a corresponding reduction in the number of terminating access minutes of use has been made as set forth in (D), preceding.

ACCESS SERVICE

4 - End User Access Service

The Telephone Company will provide End User Access Service to end users who obtain local telephone exchange service from the Telephone Company under its General Subscriber Service Tariffs.

4.1 General Description

End User Access Service provides for the use of an End User Common Line (EUCL) by an end user and may include EUCL Charges, Access Recovery Charges (ARCs), Federal Universal Service Fund (FUSF) Surcharges and Excess Line Port Charges. The Telephone Company will provide End User Access Service to end users who obtain local exchange service from the Telephone Company under its general or local exchange tariffs.

(C)
(C)
(N)
(N)
(N)

4.2 Limitations

- (A) A telephone number is not provided with End User Access Service.
- (B) Detail billing is not provided with End User Access Service.
- (C) Directory listings are not included with End User Access Service.
- (D) Intercept arrangements are not included with End User Access Service.

4.3 Undertaking of the Telephone Company

The Telephone Company will provide End User Access Service at rates and charges as set forth in 4.7 following, as follows:

- (A) Use of an EUCL by an end user in connection with interstate access services provided under this Tariff. Such use will be provided when the end user obtains local exchange service.
- (B) The Telephone Company will be responsible for contacts and arrangements with end user subscribers of Telephone Company-provided Local Exchange Service, or resellers thereof, for the billing of End User Access Service charges.

4.4 Obligations of the End User

- (A) When the end user is a Radio Common Carrier (RCC) or a Maritime Radio Common Carrier (MRCC), it shall designate whether the local exchange services it is provided by the Telephone Company are used as access lines for its services or used as administrative lines.
- (B) When the end user is provided with a local exchange service which is not identified as Centrex Type Services, Business Service or Residence or Residence Service, it shall provide the Telephone Company any requested information necessary for the Telephone Company to determine the appropriate charges.

ACCESS SERVICE

4 - End User Access Service (Cont'd)

4.5 Payment Arrangements and Credit Allowances

(A) Minimum Period

The minimum period for which EUCL End User Access Service s provided to an end user and for which charges are applicable is the same as that in the General Subscriber Service Tariffs for the associated local telephone exchange service.

(B) Cancellation of Application

End User Access Service s cancelled when the order for the associated local telephone exchange service is cancelled. No cancellation charges apply.

(C) Changes to Orders

When changes are made to orders for the local telephone exchange service associated with End User Access Service, any necessary changes will be made for End User Access Service. No charges will apply.

(D) Allowance for Interruptions

When there is an interruption to an EUCL, requested End User Access Service and Federal Universal Service Fund (FUSF) Surcharge credit allowances for interruptions will be provided as set forth for credit allowance for interruptions in 2.4.4 preceding.

(E) Temporary Suspension of Service

When an end user temporarily suspends its local exchange service, which is associated with EUCL, one-half of the EUCL and FUSF Surcharge per month charge will be temporarily suspended for the time period the local exchange service is suspended.

4.6 Rate Regulations

(Dx)

(A) End User Access Service and Federal Universal Service Fund (FUSF)

Surcharges, as set forth in 4.7, following, will be billed to the end user subscriber of the associated local exchange service, including, where applicable, a reseller of the associated local exchange service, in which case the reseller shall be deemed an end user for purposes of application of such charges.

(B) For each local exchange service provided as remote call forwarding residential service or remote call forwarding business service under the General Subscriber Service Tariffs, End User Access Service and Federal Universal Service charges do not apply.

(x) Issued under authority of Special Permission No. 24-001 of the FCC in order to withdraw material filed under Transmittal No. 183 without its becoming effective and to restore currently effective material.

ACCESS SERVICE

4 - End User Access Service (Cont'd)

4.6 Rate Regulations (Cont')

(Dx)

(B) (Cont'd)

For each local exchange service, other than local exchange service used for administrative purposes, provided to Radio Common Carriers (RCC) and/or Maritime Radio Common Carriers (MRCC) as access lines for their services under the General Subscriber Service Tariffs, End User Access Service charges do not apply.

- (C) (1) Centrex-type services are those that (i) use a portion of a Telephone Company switch, located at a Telephone Company central office, to meet the customer's internal needs and serve as the customer's interface with the local and interexchange networks; and (ii) link the customer's station lines to the Telephone Company switch with subscriber loops.

(2) For Centrex-type service station lines, the End User Common Line (EUCL) Charge - Multiline Business Subscriber - Individual Line or Trunk rate as set forth in 4.7(C), following, applies to each line.

(3) Centrex-type services may be used to serve college, university or school offices and/or dormitory quarters. For non-dormitory station lines, the Multiline Business EUCL Charges set forth in 4.7(C), following, will apply to each line.

(4) For dormitory quarters, however, the Telephone Company shall deem each line terminating therein a Primary or Additional Residential Local Exchange Service line pursuant to the Primary and Additional Residential Line definitions specified in Section 2.6. The Primary or Additional Residential Local Exchange Service rate set forth in 4.7(A), following, will apply for each dormitory station line.

(5) Charges shall be based on the total number of non-dormitory and dormitory lines reported to the Telephone Company by the customer.

- (D) For Basic Rate and Primary Rate ISDN service, the Excess Line Port Charge set forth in 4.7(E), following, will be assessed as a monthly charge, per Basic Rate ISDN Digital Subscriber Line or Primary Rate ISDN Interface.

- (x) Issued under authority of Special Permission No. 24-001 of the FCC in order to withdraw material filed under Transmittal No. 183 without its becoming effective and to restore currently effective material.

ACCESS SERVICE

4 - End User Access Service (Cont'd)

4.6 Rate Regulations (Cont'd)

(Dx)

- (E) When an end user is provided more than one local business exchange service in a state by the Telephone Company, or a reseller of the Telephone Company's business local exchange service, and when a local business exchange service is provided as a multiparty service under the General Subscriber Service Tariffs, each party is deemed to be a user of an EUCL and the EUCL-Multiline Business Subscriber-Individual line or trunk rate, as set forth in 4.7(C) following applies to each such party.
- (F) When a payphone service provider is provided a pay telephone line the EUCL-Multiline Business subscriber-Individual line or trunk rate as set forth in 4.7(C) will apply.
- (G) When an end user is provided more than one local business exchange service in a state by the Telephone Company, or a reseller of the Telephone Company's business local exchange service, other than that specified in (B) preceding and when the local business exchange service is provided under the General Subscriber Service Tariffs and is not covered by (C) and (E) preceding, the EUCL-Multiline Business Subscribers-Individual line or trunk rate as set forth in 4.7 following applies to each such local business exchange service.
- (H) When an end user is provided only a single local business exchange service by the Telephone Company, or a reseller of the Telephone Company's business local exchange service, other than that specified in (B) preceding and when the local business exchange service is provided as a multiparty service under the General Subscriber Service Tariffs, each party is deemed to be a user of an EUCL and the EUCL-Single Line Business Subscriber-Individual line or trunk rate as set forth in 4.7(B) following applies to each such party.
- (I) When an end user is provided only a single local business exchange service by the Telephone Company, or a reseller of the Telephone Company's business local exchange service, other than that specified in (B) preceding under the General Subscriber Service Tariffs, the EUCL-Single Line Business Subscriber-Individual line or trunk charge as set forth in 4.7(B) following applies to each single business service.
- (J) When an end user is provided local exchange residence service by the Telephone Company, or a reseller of the Telephone Company's business local exchange service, other than that specified in (B) preceding, the Primary Residential EUCL Charge as set forth in 4.7(A)(1) will apply to one local exchange residence line at the premises. Each additional local exchange residence line at the same premises will be billed at the Additional Residential EUCL Charge as set forth in 4.7(A)(2); provided that Basic Rate ISDN service provided to a residential premises will be assessed the charge set forth in 4.7(A)(3) per Basic Rate ISDN Digital Subscriber Line.
- (x) Issued under authority of Special Permission No. 24-001 of the FCC in order to withdraw material filed under Transmittal No. 183 without its becoming effective and to restore currently effective material. (Dx)

ISSUED: JANUARY 31, 2024

EFFECTIVE: FEBRUARY 6, 2024

ACCESS SERVICE

4 - End User Access Service (Cont'd)

4.6 Rate Regulations (Cont'd)

(Dx)

The following exceptions apply to the assessment of the EUCL Charge:
(1) Each line that receives Lifeline treatment as described in 4.6(M), following, will be assessed the Primary Residential EUCL Charge as set forth in 4.7(A)(1). (2) Dormitory lines served by C.O.-based services that receive residential treatment as described in 4.6(C), preceding, will be assessed the Primary Residential EUCL Charge as set forth in 4.7(A)(1).

(K) When an end user is provided a local residence exchange service by the Telephone Company, other than that specified in (B) preceding and when the local residence exchange service is provided as a multiparty service under the General Subscriber Service Tariffs, each party is deemed to be a user of an EUCL and the EUCL-Residence Subscriber-Primary Residential Local Exchange Service line or trunk rate as set forth in 4.7(A) following applies to each such party.

(L) For Telephone Company-provided Basic Rate ISDN local exchange service provided to business subscribers, the EUCL Charge will be assessed as set forth in 4.7(B) and 4.7(C), following, per Digital Subscriber Line. For Primary Rate ISDN local exchange service, the EUCL will be assessed at five times the Multiline Business Subscriber Individual line or trunk rate as set forth in 4.7(C) following, per Primary Rate ISDN Interface.

(M) When an end user is provided a local residence exchange service by the Telephone Company, and if the residential local exchange rate for such end user is a reduced residential local exchange rate based upon a means test that is subject to verification, the EUCL-Residence Subscriber - Primary Residential Local Exchange Service Line or Trunk rate in 4.7(A), following, shall be applied to that line. Lifeline Customers will receive a credit equal to 100 percent of this charge.

(x) Issued under authority of Special Permission No. 24-001 of the FCC in order to withdraw material filed under Transmittal No. 183 without its becoming effective and to restore currently effective material.

EFFECTIVE: FEBRUARY 6, 2024

ACCESS SERVICE
4 - End User Access Service (Cont'd)

4.6 Rate Regulations (Cont'd)

(Dx)

- (N) When an end user is provided a local exchange service which is not identified as Centrex, Business Service or Residence Service (e.g., Farm Service, Local Service), the Telephone Company will designate the service as Centrex Type Services, Business Service or Residence Service. The charges as set forth in 4.7 following for Centrex Type Services, Business Subscriber or Residence Subscriber in accordance with the designation will apply.
- (O) With the exception of Federal Universal Service Fund (FUSF) Surcharges recovered from Special Access end user customers described in Section 4.6(P) following, the Telephone Company will recover the FUSF Surcharge through flat-rated, monthly charges. FUSF Surcharges, as set forth in 4.7(F), following, will be billed to the end user subscriber of the associated local exchange service, with exception to Lifeline and Reseller customers.

Dormitory lines that receive residential treatment as described in Section 4.6(C) preceding will be assessed the Primary or Additional Residential FUSF Surcharge as set forth in 4.7(F), following.

- (P) The Federal Universal Service Fund (FUSF) Surcharge recovers the Telephone Company's contributions to the Universal Service Support Mechanisms. Customers may certify exemption from FUSF Surcharges at the ACNA level, BAN level or circuit level. Certification at the ACNA level will exempt all BANs under the ACNA. Certification at the BAN level will exempt only the specified BANs. A customer must annually certify exemption from FUSF Surcharges.

A Federal Universal Service Fund (FUSF) Surcharge will be assessed to recurring and non-recurring end user customers. The monthly charge will be applied at the billing account level. The charge will be determined monthly by multiplying the current quarterly Federal Universal Service Fund (FUSF) Surcharge contribution factor, listed below, as released by the F.C.C., by the end user customer's monthly billing account level charges.

FUSF Surcharge Contribution Factor	0.346
------------------------------------	-------

- (x) Issued under authority of Special Permission No. 24-001 of the FCC in order to withdraw material filed under Transmittal No. 183 without its becoming effective and to restore currently effective material.

4.6 Rate Regulations (Cont'd)

(Q) Access Recovery Charge (ARC)

The ARC is a monthly charge billed to residential, single line business, and multiline business Customers. This charge is combined with and reflected within the EUCL charge on the Customer's bill.

(1) Residential ARC

Both Primary and Non-Primary Residential subscriber lines will be charged the Residential ARC as set forth in 4.7(D).

Lifeline Customers are exempt from the Residential ARC. A credit will be applied to the bills of Lifeline Customers equal to the Residential ARC.

(2) Single Line Business ARC

Single Line Business Customers will be charged the Single Line Business ARC as set forth in 4.7(D).

(3) Multi-Line Business ARC

Multiline Business and Centrex lines will be charged the Multiline Business ARC as set forth in 4.7(D). PRI Customers will be charged the ISDN-PRI ARC as set forth in 4.7(D).

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service

5.1 General

This section sets forth the regulations and orders related to charges for Access Orders for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Services. These charges are in addition to other applicable charges as set forth in other sections of this tariff.

An Access Order is an order to provide the customer with BellSouth SWA service, Special Access (a.k.a. BellSouth SPA) Service, Fast Packet Access Services⁽¹⁾, Intra-Office Collocation Cross Connect Service, Physical Access Cross Connect Service, and Virtual Access Cross Connect Service, or to provide changes to existing services.

The Service Installation Guarantee, as set forth in 2.4.9 preceding, is applicable to specified services offered in this tariff. The Service Installation Guarantee is applied on a per service order basis for BellSouth SWA Services. The Service Installation Guarantee is applied on a per circuit basis for Special Access (a.k.a. BellSouth SPA) Services. The Service Installation Guarantee is applied on the Cross Connect elements only for Intra-Office Collocation Cross Connect Service, Physical Access Cross Connect Service, and Virtual Access Cross Connect Service.

5.1.1 Ordering Conditions

- (A) A customer may order any number of services of the same type and between the same premises on a single Access Order. All details for services for a particular order must be identical except for those for multipoint service.
- (B) The customer shall provide all information necessary for the Telephone Company to provide and bill for the requested service. In addition to the order information required in 5.2.2, 5.2.4, 5.2.6, 5.2.7 and 5.2.14 following, the customer must also provide:
 - Customer name and premises address(es).
 - Billing name and address (when different from customer name and address).
 - Customer contact name(s) and telephone number(s) for the following provisioning activities: order negotiation, order confirmation, interactive design, installation and billing.

⁽¹⁾ Exchange Access Frame Relay Service (a.k.a. BellSouth Exchange Access Frame Relay Service), BellSouth Exchange Access Asynchronous Transfer Mode Service, BellSouth Managed Shared Frame Relay Service, and BellSouth Managed Shared Asynchronous Transfer Mode Service have been discontinued and are no longer available in this publication (see WC Dkt. 11-120).

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

- (C) BellSouth SWA service orders for BellSouth SWA FGA and BellSouth SWA LSBSA shall be in lines.
- (D) BellSouth SWA Service orders for BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA TSBSA 1, and BellSouth SWA TSBSA 3 shall be in trunks.
- (E) The day upon which the customer has provided to the Telephone Company a firm commitment for the service and complete and accurate information to allow for the processing of the Access Order by three o'clock p.m. Eastern Standard Time* is the Application Date. The Telephone Company will release an optional initial Pending Order Confirmation, which will include the Telephone Company order number and circuit identification. At the customer's request, when the Telephone Company facility availability is verified, either a Firm Order Confirmation, which will include critical date information, or a Design and Ordering Confirmation, which will include design as well as critical date information, will be released. Critical date information will include the service date. The service date is the date service is to be made available to the customer and billing will commence.
- (F) A Pending Order Confirmation is available for orders for Telephone Company-provided switched access dedicated transport services, where ordered separately from other switched access services, and for Telephone Company-provided special access services. A Design and Ordering Confirmation is not available for orders submitted by end users. A Pending Order Confirmation and a Design and Ordering Confirmation are not available for orders for services provided jointly with another Exchange Telephone Company.

*Access Orders received after three o'clock p.m. EST will be processed the next business day, which will be the Application Date.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

- (G) Except for services listed in (H)(1) below, the following charges will apply for the installations, moves or rearrangement of services of Switched and Special Access service orders with an agreed upon service date interval of four business days or less following the Application Date. These charges are in addition to other applicable Switched and Special Access installation, move and rearrangement of service non-recurring charges. These charges will apply except for conversions made at the request of the Customer from a lower to a higher order of service as provided for in Section 2.4.8(A)(4) of this Tariff. The higher order of services are set forth in Section 2.4.8(A)(4)(b)(4) of this Tariff. This charge does not apply to services provided on a Special Services Arrangement or on an Individual Case Basis. In the event the agreed upon Service Date, as set forth above, is not met, these charges will not be applied.

	<u>Rate Per Service Order</u>	<u>USOC</u>
Per Special Access Service Order	\$345.00	SOCSP
Per Switched Access Service Order	\$295.00	SOC SW

Service

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement

- (1) The regulations and rates specified herein are applicable only for the following services:

- Metallic Service (a.k.a. BellSouth SPA Metallic)
- Telegraph Grade Service (a.k.a. BellSouth SPA Telegraph)
- Voice Grade Service (a.k.a. BellSouth SPA VG)
- WATS Access Line (WAL) Service (a.k.a. BellSouth SPA WATS Lines)
- Program Audio⁽¹⁾ Service (a.k.a. BellSouth SPA Program Audio) (N)
-
-
- Digital Data Access Service (a.k.a. BellSouth SPA DS0 Digital Data)
- DS1 (a.k.a. BellSouth SPA DS1)
- BellSouth SPA DS1 Diverse
- SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring)
- BellSouth Exchange Access Frame Relay Service - DS0 and DS1
- Managed Shared Frame Relay Service - DS0 and DS1
- LightGate Service (a.k.a. BellSouth SPA Point to Point) - DS3
- SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring)

(2) Initial Access Order

When placing an Access order for the installation, move or rearrangement of services, the customer may request that the service date for services with standard or negotiated intervals be advanced to an earlier service date. If the Company agrees to advance the service date, a Service Date Advancement Charge will apply as specified herein.

- (a) For services with standard intervals, a Service Date Advancement Charge will apply for each day the service date is less than the standard interval.
- (b) For SPA DS0 and DS1 services with negotiated intervals, which are designated for special handling according to published service date interval guidelines, with an agreed upon interval that is less than the standard interval for SPA DS0 and DS1 services as measured from the Application Date, a Service Date Advancement charge will apply for each day the service date is advanced from the standard interval for such services.
- (c) For SPA DS3 services with negotiated intervals, which are designated for special handling according to published service date interval guidelines, with an agreed upon interval that is less than the standard interval for SPA DS3 services as measured from the Application Date, a Service Date Advancement charge will apply for each day the service date is advanced from the SPA DS3 standard interval.

⁽¹⁾ Program Audio is discontinued and no longer available in this publication (see (N) WC Dkt. 19-238).

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a.
BellSouth SPA) Service

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd)

(2) Initial Access Orders (Cont'd)

- (d) For SPA DS0, DS1 and DS3 services with negotiated intervals, the customer may request that the negotiated interval be improved. If the Company determines that the negotiated interval can be improved, the customer must accept the improved service date by supplementing the original Access order. If the customer accepts the improved interval, Service Date Advancement charges will not apply if the improved interval is equal to or greater than the standard interval. If the improved interval is less than the standard interval for the services, the customer will be billed the applicable Service Date Advancement charges pursuant to regulations in (b) and (c) preceding.
- (e) Irrespective of whether the Company meets the agreed upon service date for an advanced Access order but does provide the service prior to the standard interval or negotiated interval (pursuant to (2) and (3) herein) for the service ordered, a Service Date Advancement charge will apply for each day the Company completes the Access order in advance of the standard or negotiated interval. If the Company completes an Access order after the standard interval or negotiated interval, a Service Date Advancement charge will not apply

BellSouth SPA) Service

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd)

(3) Pending Access Orders

A customer may also request a change of the service date on a pending Access order. Should the Company agree to change the service date the following regulations will apply:

- (a) For services with standard intervals where the service interval between the Subsequent Request Date and the Subsequent Due Date is four business days or less, a Service Date Advancement charge will apply for each day the new interval is less than the standard interval.
- (b) For SPA DS0 and DS1 services with negotiated intervals, where the service interval between the Subsequent Request Date and the Subsequent Due Date is less than the standard interval for SPA DS0 and DS1 services, a Service Date Advancement Charge will apply for each day the revised service date is advanced from the standard interval for such services. When the interval between the Subsequent Request Date and the Subsequent Due Date is equal to or greater than the standard interval, Service Date Advancement charges will not apply.
- (c) For SPA DS3 services with negotiated intervals, where the service interval between the Subsequent Request Date and the Subsequent Due Date is less than the standard interval for such services, a Service Date Advancement Charge will apply for each day the revised service date is advanced from the standard interval. When the interval between the Subsequent Request Date and the Subsequent Due Date is equal to or greater than the standard interval, Service Date Advancement charges will not apply.
- (d) Advancement of the service date on pending Access orders will also incur a Service Date Change charge as set forth in 5.3 of this Tariff.

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd)

(4) Customer-Missed Appointments

When the customer has requested advancement of a service date, and the Company has completed the necessary work for the advanced service date and arrives at the customer's premises to install the service but the customer is not ready to accept the service pursuant to regulations in 2.1.4 and 2.3.3 of this Tariff, the customer will be assessed a Service Date Advancement-Missed Appointment charge, as set forth in (9)(b), following for the additional Company resources expended to advance the service date as set forth in (6)(d) following. An example of when this charge may apply is provided in (8) following.

(5) Rescheduled Appointments

A minimum service interval of three business days is required when a customer reschedules a service date (i.e., three business days between the Subsequent Request Date and Subsequent Due Date).

Should the customer requests a service date with an interval of less than three business days between the Subsequent Request Date and the Subsequent Due Date, a Service Date Advancement charge as set forth in (9)(a) following will apply for each day the new interval is less than three business days. In addition, a Service Date Change charge and a Service Date Change-Additional Dispatch charge will apply as specified in 5.3(C)(1)(e), following.

(6) Description of Charges

- (a) Service Date Change Charge: This charge represents the administrative resources associated with a customer initiated change to an Access Order that results in a change of the service date. A Service Date Change Charge will apply as set forth in 5.3(C)(1), following.
- (b) Service Date Change-Additional Dispatch Charge: This charge represents the resources associated with a Company technician's dispatch to the customer's premises to install, move or rearrange a service. This charge only applies when the customer supplements an Access Order to be completed on a new service date due to the customer not allowing the technician to complete the Access Order on a previous service date. This charge will apply as set forth in 5.3(C)(1).
- (c) Service Date Advancement Charge: This charge represents the additional resources associated with advancing a service date (i.e., monitoring, reprioritizing and rescheduling service orders, and accelerating pre-defined daily work activities) at the customer's request and is assessed only when the Company completes the Access Order or the customer cancels the order per (7)(b) following. This charge will apply as set forth in (9)(a), following.
- (d) Service Date Advancement-Missed Appointment Charge: This charge represents the additional resources associated with advancing a service date (i.e., monitoring, reprioritizing and rescheduling service orders, and accelerating pre-defined daily work activities) and is only assessed when the customer does not allow the Company to complete an Access Order on an advanced Service Date. This charge will apply as set forth in (9)(b), following.

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd)

(7) Restrictions

- (a) The Service Installation Guarantee, specified in 2.4.9 preceding, will not apply on Access orders with advanced service dates.
- (b) When the customer cancels an Access order for the installation, move or rearrangement of services, a Service Date Advancement charge may apply in accordance with terms and conditions for cancellation percentages on nonrecurring charges as set forth in 5.4 following.

(8) Application of Rates and Charges for Initial Orders

- (a) For services with standard intervals, a Service Date Advancement charge, specified in (9)(a) following, will apply on a per circuit basis for each day the service date is advanced from the standard interval for services set forth in (1) above.
- (b) For SPA DS0 and DS1 services with negotiated intervals with an agreed upon interval of less than the standard interval, a Service Date Advancement charge, specified in (9)(a) following, will apply for each day the service date is less than the standard interval for such services. When the interval between the Subsequent Request Date and the Subsequent Due Date is equal to or greater than the standard interval, Service Date Advancement charges will not apply.
- (c) For SPA DS3 services with negotiated intervals with an agreed upon interval that is less than the standard interval, a Service Date Advancement charge, specified in (9)(a) following, will apply for each day the service date is advanced from the standard interval for SPA DS3 services. When the interval between the Subsequent Request Date and the Subsequent Due Date is equal to or greater than the standard interval, Service Date Advancement charges will not apply.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd)

(8) Application of Rates and Charges (Cont'd)

(d) A Service Date Advancement-Missed Appointment charge in (9)(b), following, will apply per circuit, per occurrence for services in (1) above for Company resources expended to advance a service date. Following is an example of when this charge may apply for an order with a standard interval:

- A customer submits an Access order for a DS1 (a.k.a., BellSouth SPA DS1) service to be installed at the customer's premises. The Access Order has a requested service date that is two business days less than the standard interval for DS1 (a.k.a., BellSouth SPA DS1) service. The Company agrees to the requested advanced service date and informs the customer that Service Date Advancement charges will apply and will be billed to the customer upon the Company installing and completing the Access order. However, when a Company technician arrives to install the DS1 (a.k.a., BellSouth SPA DS1) service on the advanced service date, the Company cannot gain access to the customer's premises to install the service and complete the order. Therefore, the customer is billed a Service Date Advancement-Missed Appointment charge (i.e., \$300 per circuit per occurrence) for the additional resources required to advance the service date. Had the Company technician been allowed to install and complete the order on the advanced service date, the customer would have been billed the normal Service Date Advancement charges provided in (9)(a) following for advancing the service date.

(H) Service Date Advancement (Cont'd)

(9) Rates and Charges

	<u>Nonrecurring Charge</u>	<u>USOC</u>
(a) <u>Service Date Advancement</u>		
- SPA DS0 and DS1 Services, Per Circuit, Per Day	\$225.00	SDASP
- SPA DS3 Services, Per Circuit, Per Day	\$390.00(x)	SDASQ
(b) <u>Service Date Advancement-Missed Appointment</u>		
- SPA DS0 and DS1 Services, Per Circuit, Per Occurrence	\$300.00	SDAMA
- SPA DS3 Service, Per Circuit, Per Occurrence	\$300.00	SDAMP

(10) The Service Date Advancement charges, as set forth in (9) above, is in addition to other applicable nonrecurring charges associated with services listed in 5.1.1(H)(1) preceding. These charges do not apply when the customer requests conversion to a higher order of service as provided in Section 2.4.8(A)(4) of this Tariff. These charges do not apply to services provided in a Special Services Arrangement or to services provided on an Individual Case Basis.

(11) Should the customer fail to pay the properly assessed Service Date Advancement charge, the Company may elect not to accept the customer's future requests to advance a service date while there is a billed amount outstanding. Any future requests for service from the customer will be processed with the standard or negotiated interval, as appropriate, until outstanding Service Date Advancement charges owed by the customer have been paid.

(12) When costs other than additional engineering and labor, as set forth in Section 13 of this Tariff, are to be incurred when an order is advanced, the Company will develop these costs in accordance with Special Construction terms and conditions as set forth in the BELLSOUTH TELECOMMUNICATIONS, INC.'s Tariff F.C.C. No. 2. Authorization to incur the costs and to bill the customer will be in accordance with the terms and conditions set forth in the Special Construction Tariff.

(x) Issued under authority of Special Permission No. 12-019 of the FCC in order to withdraw material filed under Transmittal No. 33 without its becoming effective and to restore currently effective material.

ISSUED: MARCH 20, 2015

EFFECTIVE: APRIL 4, 2015

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(I) Discount for Long Service Intervals on BellSouth SPA DS1 Services

- (1) If a customer's initial order for BellSouth SPA DS1 service has a service interval of 16 business days or greater, the customer will receive a twenty percent (20%) discount on the nonrecurring charges. The 20% discount will only apply to BellSouth SPA DS1 service with standard intervals. Should the customer subsequently change the service date to a service date with an interval that is less than 16 business days, then full nonrecurring charges will apply. If the revised service date is less than the standard interval for the service, a Service Date Advancement Charge, as specified in Section 5.1.1(H), will apply in addition to a Service Date Change Charge as set forth in Section 5.3 of this Tariff. (T)
(T)
- (2) The 20% discount on nonrecurring charges will apply to BellSouth SPA DS1 local channels and interoffice channels for installations, moves or rearrangement of services.
- (3) Should the Telephone Company fail to meet the agreed upon service date which has a 16 business days or greater service interval, the customer will receive a Service Installation Guarantee credit amount as specified in Section 2.4.9(B)(1). (C)
(C)

The time required to provision the service (i.e., the interval between the Application Date and the Service Date) is known as the service interval. Such intervals will be established in accordance with published service date interval guidelines which are available to customers upon request, whether the customer's service is subject to standard or negotiated intervals. The customer may request a service date other than that established pursuant to the service date interval guidelines, and the Telephone Company, where possible, will establish the service date in accordance with such request, subject, however, to other applicable provisions of this tariff.

A customer who initiates a conversion (rollover) of a DS1 (a.k.a. BellSouth SPA DS1) to a DS3 High Capacity (a.k.a. BellSouth SPA DS3) service is also responsible for submitting Network Channel Interface (NCI) Code Update requests, either mechanically or manually, on all sub-DS1 level circuits that ride the channelized DS1 High Capacity (a.k.a. BellSouth SPA DS1) service being rolled over. The Telephone Company and customer will work cooperatively to establish the number of circuits which may be submitted monthly for purposes of mechanical NCI Code updates associated with rollovers of DS1 High Capacity service (a.k.a. BellSouth SPA DS1) to DS3 High Capacity (a.k.a. BellSouth DS3) service.

A customer who converts from an existing feature group service to an equivalent unbundled service (i.e., BellSouth SWA FGA to BellSouth SWA LSBSA, BellSouth SWA FGB to BellSouth SWA TSBSA 1, and BellSouth SWA FGD to BellSouth SWA TSBSA 3) shall do so on no lower than an end office level. The Telephone Company and customer will work cooperatively to accomplish these conversions.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.1 General (Cont'd)

5.1.2 Provision of Other Services

- (A) Testing Service, Additional Labor, and Special Facilities Routing shall be ordered with an Access Order or as set forth in (B) following. The rates and charges for these services, as set forth in other sections of this tariff, will apply in addition to the ordering charges set forth in this section and the rates and charges for the Access Service with which they are associated.
- (B) With the agreement of the Telephone Company, the items listed in (A) preceding may subsequently be added to the order at any time, up to and including the service date for the Access Service. When added subsequently, charges for a design change as set forth in 5.3(C)(3) following will apply when an engineering review is required.
- (C) Additional Engineering is not an ordering option, but will be applied to an Access Order when the Telephone Company determines that Additional Engineering is necessary to accommodate a customer request. Additional Engineering will only be required as set forth in 13.1 following. When it is required, the customer will be so notified and will be furnished with a written statement setting forth the justification for the Additional Engineering as well as an estimate of the charges.

If the customer agrees to the Additional Engineering, a firm order will be established. If the customer does not want the service or facilities after being notified that Additional Engineering of Telephone Company facilities is required, the order will be withdrawn and no charges will apply. Once a firm order has been established, the total charge to the customer for the Additional Engineering may not exceed the estimated amount by more than 10%

The regulations, rates and charges for Additional Engineering are as set forth in 13.1 following and are in addition to the regulations, rates and charges specified in this section

(This page filed under Transmittal No. 1)

All AT&T and BellSouth marks contained herein and as set forth in the trademarks and service marks section of the BellSouth Tariff are owned by AT&T Intellectual Property or AT&T affiliated companies.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.1.3 Special Construction

The regulations, rates and charges for special construction are set forth in BELLSOUTH TELECOMMUNICATIONS, INC.'s TARIFF F.C.C. NO. 2 and are in addition to the regulations, rates and charges specified in this tariff.

5.2 Access Order

5.2.1 General

An Access Order is used by the Telephone Company to provide a customer access service as follows:

- (A) BellSouth SWA service as set forth in Section 6 following
- (B) Special Access (a.k.a. BellSouth SPA) Service as set forth in Section 7 following
- (C) BellSouth Expanded Interconnection Service as set forth in Section 20 of this Tariff.
- (D) Other Services as set forth in 5.1.2 preceding.

5.2.2 Information Required

When placing an order for Access Service, the customer shall provide, at a minimum, the following information:

(This page filed under Transmittal No. 1)

All AT&T and BellSouth marks contained herein and as set forth in the trademarks and service marks section of the BellSouth Tariff are owned by AT&T Intellectual Property or AT&T affiliated companies.

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.2 Access Order (Cont'd)

5.2.2 Information Required (Cont'd)

(A) For BellSouth SWA FGA and BellSouth SWA LSBSA Service, the customer shall specify:

- (1) Number of lines
- (2) First point of switching (i.e., the dial tone office)
- (3) Directionality of the service
- (4) BellSouth SWA Transport Options, if any
- (5) Local Switching Options (including BSEs), if any
- (6) Whether the off-hook supervisory signaling is to be provided by the customer's equipment or if it is to be forwarded by the customer's equipment when the called party answers.
- (7) If the service is to be provided with an extension to a different exchange.
 - the customer's premises at which the extension is to be terminated
- (8) Percent Interstate Usage (PIU) as specified in 2.3.10 preceding.
- (9) Provide Connecting Facility Assignment (CFA), if associated with a high capacity facility.
- (10) For BellSouth SWA Local Channel and BellSouth SWA Dedicated Interoffice Channel, the capacity.

(B) For BellSouth SWA FGB and BellSouth SWA TSBSA 1 service, the customer shall specify:

- (1) The number of trunks
- (2) For trunks to an end office, the end office
- (3) For trunks to an Access Tandem
 - (a) The Access Tandem Switch
 - (b) An Estimate of the amount of traffic it will generate to and/or from each end office subtending the access tandem (to assist the Telephone Company in its own efforts to project further facility requirements.)
- (4) BellSouth SWA Transport Options, if any
- (5) Local Switching Options (including BSEs), if any
- (6) For terminating only access, whether the trunks are to be arranged in trunk group arrangements or provided as single trunks
- (7) The traffic type using the categories specified in 6.1.1(I) following to enable efficient provisioning and billing functions
- (8) Percent Interstate Usage (PIU) as specified in 2.3.10 preceding.
- (9) Provide Connecting Facility Assignment (CFA), if associated with a high capacity (a.k.a. BellSouth High Capacity) facility.
- (10) For BellSouth SWA Local Channel and BellSouth SWA Dedicated Interoffice Channel, the capacity.

5.2 Access Order (Cont'd)

5.2.2 Information Required (Cont'd)

(C) For BellSouth SWA FGD and BellSouth SWA TSBSA 3 service, the customer shall specify:

(1) The number of BellSouth SWA FGD and BellSouth SWA TSBSA 3 trunks

- for trunks ordered to an end office, the end office
- for trunks ordered to an Access Tandem, the Access Tandem Switch
- for trunks with coin sent-paid capability ordered to a TOPS tandem, the TOPS tandem switch
- an estimate of the amount of traffic it will generate to and/or from each end office subtending the access and/or TOPS tandem (to assist the Telephone Company in its own efforts to project further facility requirements).

(Dx)
(Dx)

- (2) BellSouth SWA Transport Options, if any
- (3) Local Switching Options (including BSEs), if any
- (4) The traffic type using the categories specified in 6.1.1(I), following, to enable efficient provisions and billing functions.
- (5) Provide Connecting Facility Assignment (CFA), if associated with a high capacity (a.k.a. BellSouth High Capacity) facility.
- (6) For BellSouth SWA Local Channel and BellSouth SWA Dedicated Interoffice Channel, the capacity.

The coin capable end offices and TOPS tandem switches are identified in the Wire Center Section of the NATIONAL EXCHANGE CARRIER ASSOCIATION (NECA) TARIFF F.C.C. NO. 4.

(D) For BellSouth SWA FGD and BellSouth SWA TSBSA 3 with BellSouth SWA CCSAC, in addition to the information listed in (C), preceding, the customer shall specify:

(1) BellSouth SWA CCSAC Local Switching Options, if any

(x) Issued under authority of Special Permission No. 13-019 of the FCC in order to withdraw material filed under Transmittal No. 65 without its becoming effective and to restore currently effective material.

ISSUED: MAY 23, 2014

EFFECTIVE: JUNE 7, 2014

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Services (Cont'd)

5.2.2 Information Required (Cont'd)

(D) (Cont'd)

- (2) For CCS7 Signaling Connections, specification of the level of diversity in its network, as defined in Technical Publication TR-TSV-000905, and the BellSouth Guidelines to Technical Publication TR-TSV-000905.
- (3) Service Installation Guarantees, as set forth in 2.4.9 preceding, are not applicable for the installation of CCSAC signaling.
- (E) For BellSouth SWA FGD and BellSouth SWA TSBSA 3 with 64 Clear Channel Capability (CCC), in addition to the information listed in (C) and (D) preceding, the customer shall specify 64 CCC Local Switching Options, if any, with Superframe or Extended Superframe, as specified in Section 6.1.3(A)(6)(f) and 7.2.9(E)(5).

(D)

(D)

5.2.3 Traffic Engineering Responsibilities

- (A) The customer is responsible to assure that sufficient access facilities have been ordered to handle its traffic.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a.
BellSouth SPA) Services (Cont'd)
5.2 Access Order (Cont'd)

5.2.3 Traffic Engineering Responsibilities (Cont'd)

(B) Determination of Trunks

- (1) When ordering BellSouth SWA service, the trunks may be determined by the customer in the following manner. For each day the customer shall determine the highest number of trunks in use for a single hour. The customer shall, for the same hour period (i.e., busy hour), pick the twenty consecutive business days in a calendar year which add up to the largest number of trunks in use. The customer shall then determine the average busy hour trunks by dividing the largest number of trunks in use figure, for the same hour period, for the twenty consecutive business day period by 20. This computation shall be performed for each end office and/or access tandem the customer wishes to serve.
- (2) If data to develop a twenty consecutive day period is not available, the customer may use a twenty day period that contains as many consecutive days as is available.

(C) Determination of CCS7 Signaling Connections and Terminations

The customer shall work cooperatively with the Telephone Company to determine the number of CCS7 Signaling Connections and CCS7 Signaling Terminations required to handle its signaling traffic.

5.2.4 BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service

For BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, as described in 6.2.5(B) following, the customer shall order in the same manner which is set forth preceding for ordering BellSouth SWA FGD and BellSouth SWA TSBSA 3 except that customers must order BellSouth SWA FGD and BellSouth SWA TSBSA 3 to all access tandems or direct connections to all end offices designated by the Telephone Company as Service Switching Points for BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service within the LATA. Direct trunk routes cannot be provided unless the end office is equipped to provide the customer identification function. All traffic originating from end offices not equipped to provide the customer identification function require routing via the serving access tandem at which the function is available. Service must be ordered accordingly.

5.2.7 Special Access Service (a.k.a. BellSouth SPA) and BellSouth SWA Transport Service

- (A) For all Special Access (a.k.a. BellSouth SPA) Services ⁽¹⁾ the customer must specify the customer premises or Hubs involved, the channel type (e.g., Video (a.k.a. BellSouth SPA Video), Voice Grade (a.k.a. BellSouth SPA DSO VG), High Capacity (a.k.a. BellSouth High Capacity), etc.), the channel interface, technical specification package and options desired. When ordering Voice Grade (a.k.a. BellSouth SPA DSO VG) local channels and associated voice grade (a.k.a. BellSouth SPA DSO VG) interoffice channels, the customer must specify whether they are to be billed under the Voice Grade (a.k.a. BellSouth SPA DSO VG) Rate Stability Plan. For multipoint services the channel interface at each premises may, at the request of the customer, be different but all such interfaces shall be compatible. When establishing Special Access (a.k.a. BellSouth SPA) Service under the Shared Network Arrangement, the host subscriber must coordinate with each service user the design, testing and maintenance of the service. Additionally, the service user must provide to the BellSouth Telephone Companies the Connecting Facility Arrangement (CFA) and the High Capacity (a.k.a. BellSouth SPA High Capacity) Billing Account Number (HBAN) of the host subscriber.

5.2 Access Order (Cont'd)

5.2.7 Special Access (a.k.a. BellSouth SPA) and BellSouth SWA Transport Service (Cont'd)

- (B) For BellSouth SWA Dedicated Transport Services, the customer must specify the Facility Hubs involved, if applicable, the channel type (e.g. BellSouth SWA Voice Grade, BellSouth SWA DS1, etc.), the channel interface and any options desired. When establishing BellSouth SWA Transport Services under the Shared Network Arrangement, the host subscriber must coordinate with each service user the design testing and maintenance of the service. Additionally, the service user must provide to BellSouth Telecommunications, Inc., the Connecting Facility Arrangement (CFA) and the Billing Account Number (BAN) of the host subscriber.
- (C) Where the Special Access (a.k.a. BellSouth SPA) or WATS Access Line (a.k.a. BellSouth SPA WATS Line) Service is exempt from the Special Access Surcharge as set forth in 7.4.2 following, the customer shall furnish with the order the certification as set forth in that section.
- (D) For WATS Access Line (a.k.a. BellSouth SPA WATS Line) Service, the customer must also specify the type of calling (i.e., Originating Only, Terminating Only, or Two-Way) for which the service is to be provided. Additionally, when necessary screening functions are not provided at the wire center which serves the customer's originating or terminating premises, the Telephone Company will provide the service to the nearest wire center where the capability exists. In these circumstances, the customer will be notified and the order will be changed to designate the appropriate premises. No charge will apply for the change.
- (E) To enable a customer to receive flat rate treatment on a WATS Access Line (a.k.a. BellSouth SPA WATS Line) used to provide terminating service (i.e., BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service), the customer must specify, by jurisdiction, the telephone number which is used to route the call.

5.2 Access Order (Cont'd)

5.2.8 BellSouth SWA Service to Cellular Interconnections

For BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA TSBSA 1 and BellSouth SWA TSBSA 3 service to a Mobile Telephone Switching Office (MTSO) directly interconnected to a Telephone Company Access Tandem Office, the customer shall provide information to the Telephone Company indicating the NXX code(s) to be accessed.

5.2.9 BellSouth SWA 900

For BellSouth SWA 900 service, the customer shall order in the same manner which is set forth preceding for ordering BellSouth SWA FGD and BellSouth SWA TSBSA 3 with the following exception. The customer must order BellSouth SWA FGD and BellSouth SWA TSBSA 3 to all access tandems or direct connections to all end offices designated by the Telephone Company as BellSouth SWA 900 service screening offices within the state. Direct trunk routes cannot be provided unless the end office is equipped to provide the customer identification function. All traffic originating from end offices not equipped to provide the customer identification function will require routing via the access tandem at which the function is available. Service must be ordered accordingly. In addition, the customer shall specify whether 900 NXX codes provided to the customer should be arranged for 1+ dialing only or for both 1+ and 0+ dialing. All 900 NXXs provided to an individual customer will be arranged for either 1+ dialing only or for both 1+ and 0+ dialing.

When the customer desires activation of a 900 NXX code for 900 NXX screening the customer shall submit an Access Service Request (ASR) whether or not additional capacity is required.

5.2.12 BellSouth Line Information Data Base Access

In addition to ordering conditions set forth in Section 5.1.1, preceding, the customer shall provide the Originating Point Code(s) associated with BellSouth Line Information Data Base Access Validation.

In addition to requirements stated in Section 19, following, for BellSouth Line Information Data Base Access service, the customer shall specify the number of additional BellSouth Line Information Data Base Access lines, if any, required to carry traffic from the customer's SPOI to the BellSouth Line Information Data Base Access location.

5.2.13 BellSouth Expanded Interconnection Service (EIS)

For BellSouth Expanded Interconnection service arrangements, the collocater must specify the number and type of cross connect elements to be utilized.

5.2.14 Billing Name and Address (BNA)

In addition to the ordering conditions set forth in Section 5.1.1, preceding, the customer shall also provide the following:

- (1) The customer's Carrier Identification code (CIC) or pseudo CIC Code and Access Carrier Name Abbreviation (ACNA). In the event the customer does not have such an assignment the customer must contact BellSouth for this assignment;
- (2) A list of Carrier Identification Codes (CICs) or pseudo CIC Codes and Access Carrier Name Abbreviations (ACNAs) for whom billing services are being performed;
- (3) The established BellSouth Carrier Access Billing System (CABS) Account (C07) account number and if no account exists BellSouth will establish a C07 account for billing purposes.

5.2.16 Mechanized Interface to Specified Operation Support Systems

For any customer of BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service additional features are offered. The features include a mechanized interface to the trouble reporting system as indicated in (A) following, a mechanized interface to the Preferred Interexchange Carrier (PIC); Street Guide Validation, and verification of Connecting Facility Assignments (CFA) and Network Channel/Interface Codes (NC/NCI).

- (A) The feature, Trouble Administration for Access Services, allows the customer to electronically perform the following:
- Enter a Trouble Report
 - Request Trouble Report status
 - Add Trouble Report information
 - Modify Trouble Report attributes
 - Verify repair completion
 - Cancel Trouble Report
 - Trouble Report attribute value change
- (B) The feature, PIC Inquiry and Order, provides the BellSouth SWA Access Customers (BellSouth SWA FGD only) the ability to perform the following:
- Telephone PIC inquiry
 - Telephone PIC change

This feature is only for access to the system. All other appropriate PIC charges as set forth in 13.3.3 following apply.

- (C) The feature, Street Guide Validation, provides the customer with the ability to electronically verify an end user street address for the purpose of submitting an accurate access service request (ASR).

This feature is available to the customer in conjunction with the submission of an ASR for the sole purpose of validating the street address of an end user. Any other use of this service is prohibited.

- (D) The features, Connecting Facility Assignment (CFA) and Network Channel/Interface Codes (NC/NCI) are provided for the sole purpose of enabling the customer to electronically verify connecting facility assignment(s) and network channel/interface code(s) prior to submitting an access service request (ASR).
- (E) To implement these features, the customer must provide a terminal a modem and Switched Dial Service or a Private Line Service to a location designated by the Company at which the Company provides access to these features. If the customer chooses to utilize a dial service to access these features, a Security Card is required. The ordering conditions for the Security Card are set forth in 13.3.12 following.

5.3 Access Order Modifications

- (A) The customer may request a modification of its Access Order at any time prior to notification by the Telephone Company that service is earlier. The Telephone Company will make every effort to accommodate requested modification when it is able to do so with the normal work force assigned to complete such an order within normal business hours. If the modification cannot be made with the normal work force during normal business hours, overtime installation charges as stated in Section 13.2.6 may be applicable. All charges for Access Order modifications will apply on a per occurrence basis.
- (B) Any increase in the number of BellSouth SWA and Special Access (a.k.a. BellSouth SPA) service channels, Intra-Office Collocation Cross Connect Service, Physical Access Cross Connect Service, Virtual Access Cross Connect Service, or BellSouth SWA service lines, trunks, or CCS7 Signaling Connections and CCS7 Signaling Terminations will be treated as a new Access Order (for the increased amount only).
- (C) If order modifications are necessary to satisfy the transmission performance for a Special Access (a.k.a. BellSouth SPA) Service order by a customer, these changes will be made without order modification charges being incurred by the customer.

(C) (Cont'd)

(1) Service Date Change Charge

A Service Date Change Charge will apply when a Customer modifies an Access Order service date for the installation of new services or rearrangements of existing services. (C)
(C)
(C)

- (a) For services other than Digital Data, DS1 High Capacity (a.k.a. BellSouth SPA DS1) and LightGate DS3 (a.k.a. BellSouth SPA Point to Point Network) special access services: (N)
(N)
(N)

If the Customer requested service date is more than 30 calendar days after the original service date, the order will be cancelled by the Telephone Company and reissued with appropriate cancellation charges applied as set forth in Section 5.4 following. (T)
(C)

- (b) For Digital Data, DS1 High Capacity (a.k.a. BellSouth SPA DS1) and LightGate DS3 (a.k.a. BellSouth SPA Point to Point Network) special access services: (N)
(N)
(N)

If a Customer does not accept Access Service within 30 calendar days after the original service date, the Customer will, at its option: (C)

- (i) Cancel its Access Order, in which case Section 5.4 shall apply; or
(ii) Accept billing within 30 calendar days after the original service date, in which case billing will begin; or
(iii) Neither cancel the Access Order nor accept service, in which case the following will apply. If the Customer neither cancels the Access Order nor accepts service, all applicable service charges shall begin to accrue on the 31st calendar day after the original service date (the Effective Billing Date). If the Customer accepts service within 90 calendar days after the original service date, the Telephone Company will commence billing upon the Customer's acceptance of service and such billing will apply as of the Effective Billing Date. If the Customer fails to accept service within 90 calendar days after the original service date, the Telephone Company will cancel the relevant Access Order(s) and will bill the Customer for cancellation charges, as set forth in Section 5.4, following, plus all charges accrued between the Effective Billing Date and the date of cancellation using the rate associated with the shortest term available for the service being cancelled. (C)

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.3 Access Order Modifications (Cont'd)

(C) (Cont'd)

(1) Service Date Change Charge

- (c) When, for any reason, the Customer indicates that service cannot be accepted for a period not to exceed 30 calendar days, and the Telephone Company accordingly delays the start of service, a Service Date Change Charge will apply.

Failure to notify the Company prior to the original service date to request a different service date may result in the application of a Service Date Change-Additional Dispatch Charge for installations, moves and rearrangement of services. If a Company technician is dispatched to the Customer's premises on the scheduled service date and the Customer has failed to notify the Company before three o'clock p.m. EST on the business day prior to the scheduled service date that it wishes to change the service date, the Company will delay the start of service pending negotiations with the Customer.

If the Customer reschedules the service date, a Service Date Change-Additional Dispatch Charge will apply in addition to a Service Date Change Charge as specified in Section 5.3(C)(1)(1)(e), following. When the rescheduled service date has a service interval of three business days or less, Service Date Advancement charges, as set forth in Section 5.1.1(H)(8), preceding, will apply in addition to the Service Date Change-Additional Dispatch charge and the Service Date Change charge in Section 5.3(C)(1)(e), following.

If the Customer cancels the service date, cancellation charges will apply in accordance with terms and conditions for cancellation charges as set forth in Section 5.4, following. Cancellation of the order will not preclude the application of the Service Date Change Charge and Service Date Change-Additional Dispatch Charge assessed for prior occurrences on the same order. In addition, the Service Date Advancement-Missed Appointment Charge set forth in Section 5.1.1(H)(9) may apply on orders with advanced service dates.

Section 5.1.1(H)(6), preceding, provides a description of the Company resources associated with the Service Date Change and Service Date Change-Additional Dispatch Charge.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.3 Access Order Modifications (Cont'd)

(C) (Cont'd)

(1) Service Date Change Charge (Cont'd)

- (d) A new service date may be established that is prior to the original service date if the Telephone Company determines it can accommodate the customer's request without delaying service dates for orders of other customers.
- (e) A Service Date Change Charge will apply, on a per order per occurrence basis, for each service date changed. The Service Date Change-Additional Dispatch Charge will apply for each occurrence of a technician dispatch to the customer's premises when the customer is not ready for service as specified in (1)(c), preceding. The applicable charges are:

<u>Service Date Change Charge</u>	<u>USOC</u>	<u>Charge</u>
Per Order, per Occurrence	OMC	\$31.60
<u>Service Date Change- Additional Dispatch Charge</u>	<u>USOC</u>	<u>Charge</u>
Per Occurrence	OMCAD	\$150.00(x)

- (f) For multiple orders with the same service date for the same customer premises, only one Service Date Change-Additional Dispatch charge will apply. However, a Service Date Change charge will apply for each order.
- (g) Service Installation Guarantees, as set forth in 2.4.9 preceding, are not applicable for Service Date Change Charges.

(2) Partial Cancellation Charge

Any decrease in the number of ordered BellSouth SWA and Special Access (a.k.a. BellSouth SPA) service channels, Intra-Office Collocation Cross Connect Service, Physical Access Cross Connect Service, Virtual Access Cross Connect Service, or BellSouth SWA or CCS7 Signaling Connections services will be treated as a partial cancellation and the charges as set forth in 5.4(B) following will apply.

(x) Issued under authority of Special Permission No. 12-019 of the FCC in order to withdraw material filed under Transmittal No. 33 without its becoming effective and to restore currently effective material.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.3 Access Order Modifications (Cont'd)
(C) (Cont'd)

(3) Design Change Charge

The customer may request a design change to the service ordered. A design change is any change to an Access Order which requires engineering review. An engineering review is a review by Telephone Company personnel of the service ordered and the requested changes to determine what changes in the design, if any, are necessary to meet the changes requested by the customer. Design changes include such things as the addition or deletion of optional features or functions or a change in the type of BellSouth SWA Transport Termination, type of channel interface, type of Interface Group or technical specification package. Design changes do not include a change of customer premises, end user premises, end office switch, Basic Serving Arrangement, Intra-Office Collocation Cross Connect Service, Physical Access Cross Connect Service, Virtual Access Cross Connect Service, or BellSouth SWA and Special Access (a.k.a. BellSouth SPA) service channel type. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate cancellation charges applied.

Should a customer requested Design change be received on a pending access order that results in the establishment of a new service date that exceeds the original service date by more than 30 days, the customer shall not be required to cancel and reissue a new order, but shall be billed a design change charge and a service date change charge.

The Telephone Company will review the requested change, notify the customer whether the change is a design change, if it can be accommodated and if a new service date is required. If the customer authorizes the Telephone Company to proceed with the design change, a Design Change Charge will apply. The Design Change Charge will apply on a per order per occurrence basis, for each order requiring a design change. The applicable charge is:

<u>Design Change Charge</u>	<u>USOC</u>	<u>Rate Per Order</u>
ALL STATES	H28	\$39.93

If a change of service date is required, the Service Date Change Charge as set forth in (1) preceding will also apply.

Service Installation Guarantees, as set forth in 2.4.9 preceding, are not applicable for Design Change Charges.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a.
BellSouth SPA) Service (Cont'd)

5.4 Cancellation of an Access Order

- (A) A Customer may cancel an Access Order for the installation of service at any time prior to notification by the Telephone Company that service is available for the Customer's use. The cancellation date is the earliest date the Telephone Company receives written or verbal notice from the Customer that the order is to be canceled. The verbal notice must be followed by written confirmation within 10 days. Termination liability charges, associated with term plans, will not apply to orders that are cancelled within 90 calendar days after the original service date where the Customer has accepted billing but not accepted service. (T)
(C)
(T)
(N)
(N)
(D)
(D)
- (B) When a Customer cancels an Access Order for the installation of service, a Cancellation Charge will apply as follows: (T)
- (1) Costs incurred in conjunction with the provision of BellSouth SWA service, Virtual Access Cross Connect Service, Physical Access Cross Connect Service, Intra-Office Collocation Cross Connect Service, or Special Access (a.k.a. BellSouth SPA) Service starts on the Application Date as defined in Section 5.4(B)(4)(b), following. (T)
Provisions addressing the application of charges for other BellSouth Expanded Interconnection elements are contained in Section 20 of this Tariff.

(B) (Cont'd)

(2) Section Not in Use

(C)
(D)

(3) When the Customer cancels an Access Order on or after the Application Date, a charge equal to the estimated costs incurred by the Telephone Company shall apply. Such charge is determined as specified in (4) following. (C)

(4) Charges applicable as specified in (3) preceding are based on the estimated costs incurred by the Telephone Company at the time the order is cancelled. The estimated costs incurred are determined based on the following:

(a) Certain Telephone Company critical dates are associated with an Access Order provisioning interval, whether standard or negotiated. These dates are used by the Telephone Company to monitor the progress of the provisioning process. At any point in the Access Order interval the Telephone Company is able to determine which critical date was last completed and can thus determine what percentage of the Telephone Company's provisioning costs have been incurred as of that critical date.

(b) The critical dates tracked by the Telephone Company are as follows:

- Application Date (APP): The date the Customer must provide to the Telephone Company, (1) a firm commitment for service and (2) sufficient information as detailed in 5.1 preceding to enable the Telephone Company to begin service provisioning. This is also the order date. (C)
- Scheduled Issue Date (SID): The date that the order is to enter the Telephone Company's order distribution system.
- Design Layout Report Date (DLRD): The date the Design Layout Report (DLR) is forwarded to the Customer. (T)
- Records Issue Date (RID): The date that all design and assignment information is to be sent to the central office and installation forces.

(B) (Cont'd)

(4) (Cont'd)

(b) (Cont'd)

- Wired and Office Tested Date (WOT): The date by which all intraoffice wiring is to be completed, all plug-ins optioned, aligned, and frame continuity established, and the interoffice facilities, if applicable, tested. In addition, switching equipment, including translation loading, is to be installed and tested.
- Plant Test Date (PTD): The date on which overall testing of the service is to be started.
- Engineering Information Report Date (EIRD): The date the engineering group in another ISS area provides information to the primary engineering group.
- Service Date (DD): The date on which service is to be made available to the customer. This is sometimes referred to as the Due Date.
- Designed, Verified, and Assigned Date (DVA): The date by which field implementation groups must report that all documents and materials have been received.
- Frame Continuity Date (FCD): Date on which frame-to-frame testing must be completed. This is sometimes referred to as the Facility Continuity Check Date.
- Loop Assignment and Make-up Date (LAM): The date by which Local Loop Assignment and Make-up information must be available.
- Confirming Design Layout Report Date (CDLRD): The date the Design Layout Report (DLR) is to be confirmed by the customer.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.4 Cancellation of an Access Order (Cont'd)

- (C) When a customer cancels an order service for LightGate service (a.k.a. BellSouth SPA Point to Point Network) system or BellSouth Dedicated Ring, prior to the beginning of the selected service period, the customer will be liable for all capital expenses incurred by the Telephone Company in provisioning the LightGate service (a.k.a. BellSouth SPA Point to Point Network) or BellSouth Dedicated Ring as of the date the order is canceled by the customer. The charges billed to the customer will not exceed an amount equal to the minimum period for the service as set forth in Sections 6.7.2, 7.4.4 and 29.1.4 of this tariff at the month-to-month rates set forth in Sections 6.8.1 or 7.5.9 of this tariff. Such charges will be billed in addition to and subsequent to the cancellation charges set forth in Section 5.4 (B).

(D)

(D)

- (D) When a customer cancels an order for the discontinuance of service, no charges apply for the cancellation.

(T)

- (E) If the Telephone Company misses a service date by more than 30 days due to circumstances over which it has direct control (excluding, e.g., acts of God, governmental requirements, work stoppages and civil commotion), the customer may cancel the Access Order without incurring cancellation charges.

ACCESS SERVICE

5 – Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.5 Selection of Facilities for Access Orders

- (A) When a customer places an Access Order, it may choose to utilize facilities it previously purchased. If the customer has a high capacity interface, or has purchased a facility, the customer must request that specific channels be used to implement the Access Order. If a facility assignment is not provided by the customer, the Telephone Company will provide the service from available inventory as discussed in 5.8 following.
- (B) For all other Access Orders, the option to request a specific transmission path or channel is not provided except as provided for under Special Facilities Routing as set forth in 11. following.

ISSUED: DECEMBER 16, 2022

EFFECTIVE: JANUARY 1, 2023

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.6 Minimum Period

- (A) Except as set forth in (B), (C) following and Sections 6.7.20, 6.7.21, 6.7.22, 7.4.27, 9.1.4(A), 13.3.5(C)(1)(b), (c) and (d), and of this Tariff, the minimum period for which charges are applicable for Access Service is one month.
- (B) The minimum period for part-time Broadcast Quality Video (a.k.a. BellSouth SPA Broadcast Quality Video), and Program Audio⁽¹⁾ (a.k.a. BellSouth SPA Program Audio) Special Access (a.k.a. BellSouth SPA) services is one day even though the service will be provided only for the duration of the event specified on the order (e.g., one-half hour, two hours, five hours, etc.). (N)
- (C) The minimum period for BellSouth Remote Access Service is twelve months.
- (D) Service Rearrangements as set forth in Sections 6.7.1(D)(3), 7.4.1(C)(3) and Transfer of Service as set forth in Sections 6.7.1(D)(4) and 7.4.1(C)(4) of this Tariff for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) services respectively, may be made without a change in minimum period requirements.
- (E) Changes, other than those identified in Sections 6.7.1(D)(3) and (4) and 7.4.1 (C)(3) and (4) of this Tariff, will be treated as a discontinuance of the existing service and an installation of a new service. All associated nonrecurring charges will apply for the new service. A new minimum period will be established for the new service. The customer will also remain responsible for all outstanding minimum period obligations associated with the disconnected service.

The changes listed below are those that will be treated as a discontinuance and installation of service and for which a new minimum period will be established.

- (1) A move to a different building as set forth in Sections 6.7.7 or 7.4.5 of this Tariff.
- (2) A change in type of service (i.e., BellSouth SWA to Special Access (a.k.a. BellSouth SPA), one type of Special Access (a.k.a. BellSouth SPA) service to another, or one type of BellSouth SWA Access service to another except as set forth in Section 6.7.6 of this Tariff).
- (3) A change in the type of BellSouth SWA Local Channel, Special Access (a.k.a. BellSouth SPA) Service Local Channel.

- (1) Program Audio is discontinued and no longer available in this publication (see WC Dkt. 19-238). (N)
(N)

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.6 Minimum Period (Cont'd)

(F) Cont'd)

When Access Service is disconnected prior to the expiration of the minimum period, the customer is obligated for payment of the minimum period charge as set forth in 5.6.1 following. When Access Service is disconnected after the expiration of the minimum period, billing for the service will be performed in accordance with the provisions set forth in 2.4.1(C) preceding.

5.6.1 Minimum Period Charges

- (A) When Access Service is disconnected prior to the expiration of the minimum period, charges are applicable for the balance of the minimum period. The disconnect date is the final date the customer has use of the service.
- (B) The Minimum Period Charge for service provided with a one month minimum period will be determined as follows:
 - (1) For BellSouth SWA usage sensitive rate elements (i.e. Carrier Common Line, Local Switching, Access Tandem Switching, BellSouth SWA Common Transport, and Interconnection the charge for a month or fraction thereof is equal to the applicable rates for the actual or assumed usage for the month or such fraction thereof.
 - (2) For BellSouth SWA Transport components which are not usage sensitive (i.e., BellSouth SWA Local Channel and BellSouth SWA Dedicated Interoffice Channel and Channelization Equipment), the charge for a month or fraction thereof is the applicable monthly rates for the service as set forth in 6.8 following.
 - (3) For Special Access (a.k.a. BellSouth SPA) and BellSouth Expanded Interconnection Services, the charge for a month or fraction thereof is the applicable monthly rates for the service as set forth, respectively, in Section 7.5 and Section 20.4 of this Tariff.

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.6.1 Minimum Period Charges

- (F) Should billing for a service which is disconnected prior to the expiration of the Minimum Period cover multiple billing cycles, the bill reflecting the disconnect of service will be adjusted to account for that portion of the Minimum Period Charge previously billed to the customer. In no event shall the total recurring charge billed to the customer for such service exceed the applicable Minimum Period Charge.

All applicable nonrecurring charges associated with the provision of service will be billed in addition to the Minimum Period Charge. Such nonrecurring charges include the nonrecurring charge for the installation of service and/or optional features, Service Order Modification Charges, Additional Engineering and Labor Charges, if any, etc.

5.7 Shared Use Facilities

Shared use occurs when BellSouth SWA, Special (a.k.a. BellSouth SPA) and BellSouth Expanded Interconnection services are provided over the same high capacity (a.k.a. BellSouth SPA High Capacity) facility through a common interface. The facility may be ordered either as BellSouth SWA, Special Access (a.k.a. BellSouth SPA) or Virtual Access Cross Connect, Physical Access Cross Connect, or Intra-Office Collocation Cross Connect Service.

Billing will commence for the high capacity (a.k.a. BellSouth SPA High Capacity) facility as soon as the facility is turned over to the customer for use (i.e., on the service date). Such billing will include charges for the Virtual Access Cross Connect Service, Physical Access Cross Connect Service, Intra-Office Collocation Cross Connect Service, Special (a.k.a. BellSouth SPA) Local Channel or BellSouth SWA Local Channel, the Channelization Equipment (i.e., the multiplexer) and the interoffice transport, if any. Nonrecurring installation charges will also apply at this time.

(This page filed under Transmittal No. 1)

All BellSouth marks contained herein and as set forth in the trademarks and servicemarks section of this Tariff are owned by BellSouth Intellectual Property Corporation.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.7 Shared Use Facilities (Cont'd)

Such billing will continue until such time as the customer requests, by placing an order for service, that one or more of the derived channels be used in the provisioning of an end to end BellSouth SWA or Special Access (a.k.a. BellSouth SPA) service. When the end to end service is turned over to the customer for use, billing for the end to end service will commence.

When the original facility is ordered as Special Access (a.k.a. BellSouth SPA), the billing change to the existing facility, if any, will depend on whether the end to end service provisioned over the derived channel(s) is Special (a.k.a. BellSouth SPA). If Special Access (a.k.a. BellSouth SPA) service, the billing for the facility will not change but additional billing will commence for the end to end service provisioned over the facility. This billing will include an additional local channel(s) and interoffice mileage, if applicable, of a lower capacity level (e.g., voice grade).

When the original facility is ordered as Special Access (a.k.a. BellSouth SPA), service is provisioned over a derived channel(s), the Special Access (a.k.a. BellSouth SPA) billing for the original facility will be reduced in direct proportion to the number of channels being utilized for BellSouth SWA service. For example, if six channels of a DS1 are to be used for BellSouth SWA, the Special Access (a.k.a. BellSouth SPA) rate will be reduced by one fourth. The customer will be billed one fourth of the BellSouth SWA DS1 rate, plus all other applicable BellSouth SWA charges for the BellSouth SWA service provided.

When the original facility is ordered as BellSouth SWA, the billing charge to the existing facility, if any, will depend on whether the end to end service provisioned over the derived channel(s) is BellSouth SWA or Special Access (a.k.a. BellSouth SPA) service. If BellSouth SWA service, the billing for the facility will not change but additional billing will commence for the end to end service provisioned over the facility. This billing will include local switching, information surcharge, carrier common line and additional interoffice transport at a lower capacity, if applicable.

ISSUED: SEPTEMBER 5, 2014

EFFECTIVE: SEPTEMBER 20, 2014

ACCESS SERVICE

5 - Ordering Options for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

5.7 Shared Use Facilities (Cont'd)

When the original facility is ordered as BellSouth SWA and Special Access (a.k.a. BellSouth SPA) service is provisioned over a derived channel(s), the BellSouth SWA billing for the original facility will be reduced in direct proportion to the number of channels being utilized for Special Access (a.k.a. BellSouth SPA) service. For example, if six channels of a DS1 are to be used for Special Access (a.k.a. BellSouth SPA), the BellSouth SWA rate will be reduced by one fourth. The customer will be billed three fourths of the BellSouth SWA DS1 rate, plus all other applicable charges. The customer will be billed one fourth of the Special Access DS1 (a.k.a. BellSouth SPA) rate, plus all other applicable charges for the Special Access (a.k.a. BellSouth SPA) service provided.

BellSouth Dedicated Ring service is available for Shared Use. When this service is ordered for Shared Use arrangements, all ring level components must be ordered as either BellSouth SWA or Special Access (a.k.a. BellSouth SPA). (D)
(T)

5.8 Available Inventory

Available inventory is limited and does not include facilities previously ordered. The Telephone Company will make every reasonable effort to maintain sufficient available inventory to provide Access Service in accordance with customer's requested service date intervals. To the extent that service can be provided, Access Orders will be satisfied from available inventory.

ISSUED: DECEMBER 11, 2014

EFFECTIVE: DECEMBER 26, 2014

ACCESS SERVICE

6 - BellSouth SWA Service

6.1 General

BellSouth SWA service, which is available to customers for their use in furnishing their services to end users, provides a two-point electrical communications path between a customer's premises and an end user's premises. It provides for the use of common terminating, switching and trunking facilities and common subscriber plant of the Telephone Company. BellSouth SWA service provides for the ability to originate calls from an end user's premises to a customer's premises and to terminate calls from a customer's premises to an end user's premises in the LATA where it is provided. Specific references to material describing the elements of BellSouth SWA service are provided in Sections 6.1.1 and 6.1.2. (T)

Rates and charges for BellSouth SWA service depend on the type of service ordered. Rates and charges for BellSouth SWA service are set forth in Section 6.8. The application of rates for BellSouth SWA service is described in Section 6.7. Rates and charges for services other than BellSouth SWA service, e.g., a customer's interLATA toll message service, may also be applicable when BellSouth SWA service is used in conjunction with these other services. Descriptions of such applicability are provided in Sections 6.2.1(A)(7), 6.2.1(B)(4), 6.2.2(A)(5), 6.2.3(A)(5), 6.2.4(A)(4), 6.2.7(A)(7), 6.2.7(B)(7), 6.2.8.1(A)(5), 6.2.8.2(A)(5), 6.2.8.3(A)(4), 6.7.10, and 6.7.12. Finally, a credit is applied against line side BellSouth SWA service charges as described in Section 6.7.11. (T) (D) (T) (D) (T)

6.1.1 BellSouth SWA Service Arrangements and Manner of Provision

BellSouth SWA service is provided in ten service categories, four service categories of standard and optional features called BellSouth SWA FGs, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, BellSouth SWA 900 service, and two unbundled basic serving arrangements. The feature group and unbundled service categories coexist during a transition period.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.1 BellSouth SWA Service Arrangements and Manner of Provision (Cont'd)

Any customer desiring to convert from BellSouth SWA FG service to the analogous BellSouth SWA Basic Serving Arrangement service must submit a request. A request for a change to existing service (e.g., add, delete optional features) will follow the normal ordering process for such service. The Telephone Company will provide written notification of the date which feature groups are being eliminated to all access customers of record. This notification will be sent at least six months in advance of the end of the transition period. The BellSouth SWA service categories are differentiated by their technical characteristics, e.g., line side vs. trunk side connection at the Telephone Company entry switch, and the manner in which an end user accesses them in originating calling, e.g., with or without an access code. Following is a brief description of each type of service arrangement.

(A) BellSouth SWA FGA

BellSouth SWA FGA, which is available to all customers, provides line side access to Telephone Company end office switches with an associated seven digit local telephone number for the customer's use in originating and/or terminating communications to another customer's interstate service or a customer provided interstate communications capability.

(J) BellSouth Local Number Portability Database Services

BellSouth Local Number Portability (LNP) Database services, which are available to wireline and wireless telecommunications carriers, provide routing information necessary to direct calls placed to a ported number to the correct switch for completion to the end user. Carriers may obtain the routing information directly by subscription to BellSouth LNP Query service. To obtain BellSouth LNP Query Service, the customer must order new or use existing CCS7 Signaling Connections and Terminations as described in 6.1.3(C) following. On a default basis, N-1 Carriers may deliver traffic to BellSouth's network without having made a LNP query. In such cases BellSouth's LNP Call Routing service will secure the necessary routing information in order for the call to be delivered properly. A more detailed description of BellSouth LNP Database services is provided in Section 6.2.11.

(K) Reserved for Future Use

(T)

(L) Manner of Provision

BellSouth SWA service arrangements are furnished in either quantities of lines or trunks. Trunks are differentiated by type and directionality of traffic carried over a BellSouth SWA service arrangement.

There are five major traffic types: Originating, Terminating, Directory Assistance, Operator Services, and CCS7 Access. The originating traffic type represents access within a LATA for carrying traffic from the end user to the customer. The terminating traffic type represents access within a LATA for carrying traffic from the customer to the end user. The Directory Assistance traffic from the customer to a Directory Assistance location. The Operator Services traffic type represents access within a LATA for carrying Operator Services traffic to or from the customer, to or from the Operator Services System (OSS) location. The CCS7 access traffic type represents access for services requiring use of the Telephone Company CCS7 network.

6.1.2 WATS Access Line (a.k.a. BellSouth SPA WATS Line) Service

WATS Access Line (a.k.a. BellSouth SPA WATS Line) service is a type of Special Access (a.k.a. BellSouth SPA) service that is provided for use with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA LSBSA and BellSouth SWA TSBSA service originating and terminating. WATS Access Line Service (a.k.a. BellSouth SPA WATS Lines) connects an end user premises with a WATS or, WATS-type serving office. This service is described in 7.2.3.1, following. Certain common switching optional features are available with WATS Access Line (a.k.a. BellSouth SPA WATS Line) service as set forth in 6.3.4, following.

6.1.3 Rate Categories

The rate categories which apply to BellSouth SWA service are:

- Local Switching (described in 6.1.3(B), following)
- Common Line (described in Sections 3 and 4, preceding)
- BellSouth SWA 500 service (described in 6.1.3.(D), following)
- Toll Free Dialing Database (described in 6.1.3(E), following)
- BellSouth Local Number Portability Database services (described in 6.1.3(F), following)

(D)

In addition to the six rate categories, there is an Information Surcharge that applies as described in 6.7.15, following.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport

The BellSouth SWA Transport rate category provides the transmission facilities and equipment between:

- the customer's premises and the customer's serving wire center;
- the customer's serving wire center and the end office switch(es);
- the end office switch(es) and the access tandem and;
- the customer's serving wire center and the access tandem.

The customer's traffic is switched at the end office to originate or terminate the customer's communications.

BellSouth SWA Transport is a voice frequency transmission path composed of facilities determined by the Telephone Company or as ordered by the customer. The voice frequency transmission path permits the transport of calls in the originating direction, (from the end user end office switch to the customer's premises) and in the terminating direction (from the customer's premises to the end office switch), but not simultaneously. The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency bandwidth of approximately 300 to 3000 Hz.

For purposes of determining the type of BellSouth SWA Transport to be used, the customer must designate if the service is to be directly routed to the end office(s) switch or routed through the Access Tandem.

premises and the Company's end office switch. The DNAL provides for the transport of data and control information through voice grade (a.k.a. BellSouth SPA DSO VG) or program audio⁽¹⁾ (a.k.a. BellSouth SPA Program Audio) facilities. DNALs are further described in Section 6.1.3(A)(5)(f). DNALs are provided in accordance with technical references and publications TR-NWT-000335, MDP 326-584 and TR-NPL-000337, and as specified in 6.1.3(A)(5)(f) and (y). (N)

BellSouth SWA Transport is provided at the rates and charges set forth in 6.8.1 following. The application of these rates with respect to the different types of service is as set forth in 6.7.1 following.

The basic components applicable to BellSouth SWA Transport are Switched Local Channel, Switched Interoffice Channel (for dedicated and common transport), Channelization Equipment, Access Tandem Switching, Dedicated Tandem Trunk Port Service and Interconnection. These are defined as follows:

(1) Switched Local Channel

The Switched Local Channel provides a communications path between the customer's premises and the serving wire center of that premises. Included as part of the Switched Local Channel is a standard channel interface arrangement which defines the technical characteristics associated with the type of facilities to which the access service is to be connected at the customer's point of termination. The Switched Local Channel is capable of carrying a combination of Switched Access traffic types (e.g. BellSouth SWA FGs, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900, etc.)

The Switched Local Channel rate is assessed a monthly fixed charge based on the capacity (e.g. BellSouth SWA Voice Grade, DS1, DS3) ordered. This charge will also apply when the customer premises and the serving wire center are located in the same Telephone Company building.

⁽¹⁾ Program Audio is discontinued and no longer available in this publication (see WC Dkt. 19-238).

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(2) Switched Interoffice Channel

The Switched Interoffice Channel provides a transmission facility and the Facility Termination. The Facility Termination applies for each Switched Interoffice Channel terminated.

Depending upon the customer's order for BellSouth SWA services, the Switched Interoffice Channel can be used for BellSouth SWA Dedicated Transport or BellSouth SWA Common Transport.

For BellSouth SWA Dedicated Transport, the Switched Interoffice Channel can be provisioned between the following customer designated points: (1) the customer's serving wire center (SWC) and the Telephone Company end office switch(es), (2) the SWC and a Telephone Company Facility Hub (Hub) and, (3) the SWC and an Access Tandem, (4) a Hub and an Access Tandem, (5) a Hub to an end office and, (6) a Hub to a Hub.

For BellSouth SWA Common Transport, the Switched Interoffice Channel is provisioned between the customer designated Telephone Company end office switch(es) and the Access Tandem. This includes transport between the Access Tandem and the end office, between an end office which serves as a host for a remote switching system or module (RSS or RSM) and the RSS or RSM. For terminating BellSouth SWA FGA between the dial tone office and the end office, the transport must be BellSouth Common Transport.

Mileage measurement, for BellSouth SWA Common and BellSouth SWA Dedicated Transport, is in accordance with 6.7.13, following.

(a) Switched Dedicated Interoffice Channel

The Switched Dedicated Interoffice Channel (SW DIOC) rate category consists of two rate elements (1) a Switched Dedicated Transport Interoffice Channel Facility, and (2) a Switched Dedicated Transport Interoffice Channel Facility Termination.

The SW DIOC Facility is ordered by the customer based on capacity (e.g. Voice Grade, DS0, DS1 or DS3) and permits the transmission of calls or data in the originating direction and/or in the terminating direction depending upon the customer's facility configuration.

The Facility Termination component of the SW DIOC provides equipment necessary for the termination of the Switched Dedicated Interoffice Channel facility. A Facility Termination charge will apply for each service termination of greater than zero miles, i.e., Voice Grade, DS0, DS1 or DS3.

The SW DIOC transmission charge is a monthly, per mile charge based on the capacity of the service, e.g. Voice Grade, DS0, DS1 and/or DS3. The Facility Termination charge is assessed as a monthly rate.

(b) Switched Common Interoffice Channel

The Switched Common Interoffice Channel (SW CIOC) is composed of Switched Common Transport facilities as determined by the Telephone Company and permits the transmission of calls or data in the originating direction and/or terminating direction depending upon the customer's order.

The Facility Termination component of the SW CIOC provides for equipment necessary for the termination of the Switched Common Interoffice Channel facility.

EFFECTIVE: JUNE 22, 2017

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(2) Switched Interoffice Channel (Cont'd)

(b) Switched Common Interoffice Channel (Cont'd)

The SW CIOC transmission charge is a per minute of use, per mile charge. Facility termination charges are assessed on a per minute of use for greater than zero miles.

SW CIOC transmission and facility termination charges are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

(N)
(N)
(N)
(N)
(N)
(N)

(3) Access Tandem Switching

Access Tandem Switching provides for the function of switching traffic through the Access Tandem from or to the end office switch(es). The Access Tandem Switching charge is assessed on all originating and terminating minutes of use switched at the Access Tandem.. Access Tandem Switching charges are billed as Originating, Terminating to Telephone Company's own end office and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

(N)
(N)
(N)
(N)
(N)
(N)

(4) Dedicated Tandem Trunk Port

The Dedicated Tandem Trunk Port provides for termination of transport facilities at the Telephone Company tandem switch. This service is required for all BellSouth SWA Dedicated Transport ordered to the access tandem for switching at the tandem. It is available on a DS0/VG and DS1 trunk port basis. Rates and charges are set forth in 6.8.1(C)(2) following.

(5) Interconnection

The Interconnection charge shall be assessed upon all customers interconnecting with the Telephone Company Switched Access Network. Interconnection is applicable to all switched access originating and terminating minutes of use. Separate originating and terminating Interconnection charges are applicable to those customers utilizing Telephone Company transport facilities and those customers not using Telephone Company transport facilities to gain access to the Telephone Company switched network.

The application of originating and terminating Interconnection rates on the originating end for BellSouth SWA FGA, BellSouth SWA LSBSA, 700, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900 service will follow the application of originating and terminating Carrier Common Line rates for those services as specified in 3.8.5 preceeding. Interconnection rates are provided in 6.8.1(D) following.

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(6) Interface Group Arrangements

Interface Group Arrangements, Interface Groups and Dedicated Network Access Lines (DNALs) are provided for terminating BellSouth SWA Transport at the customer's premises. Each Interface Group and DNAL provides a specified premises interface (e.g., two-wire, four-wire, DS1, etc.). Where transmission facilities permit, the individual transmission path may be provided, at the option of the customer, with optional features as set forth in (6) following. As a result of the customer's access order, the need for signaling conversions or two-wire to four-wire conversions, or the need to terminate digital or high frequency facilities in channelization equipment may be required to be provided by the customer at the customer's premises. For example, if a voice frequency interface is ordered by the customer and the facilities serving the customer's premises are digital, channelization equipment must be provided by the customer in order to provide the voice frequency interface ordered by the customer.

Interface Group 1 is provided with Type C Transmission Specifications, and Interface Groups 2, 3, 6, and 9 are provided with Type A or B Transmission Specifications, depending on the type of service, whether the Access service is routed directly or through an access tandem and the type signaling option ordered. All Interface Groups are provided with Data Transmission Parameters.

Only certain premises interfaces are available at the customer's premises. The premises interfaces associated with the Interface Groups may vary among different types of service. The various premises interfaces which are available with the Interface Groups, and the types of service with which they may be used, are set forth in 6.1.3(A)(6)(g), following.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(6) Interface Group Arrangements (Cont'd)

(a) Interface Group 1 (USOC TPP1X)

Interface Group 1, except as set forth in the following, provides two-wire voice frequency transmission at the point of termination at the customer's premises. Interface Group 1 is capable of transmission of voice and associated telephone signals within the frequency bandwidth of approximately 300 to 3000 Hz.

Interface Group 1 is not provided in association with BellSouth SWA FGD, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service, BellSouth SWA 900 service, and BellSouth SWA TSBSA 3, when the first point of switching is an access tandem. Access Tandem Switching charges are applicable to Interface Group 1 routed through an access tandem. In addition, Interface Group 1 is not provided in association with BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service, BellSouth SWA 900 service, or BellSouth SWA TSBSA when the first point of switching provides only four-wire terminations. (D)

The transport between the point of termination at the customer's premises and the customer's serving wire center will be comprised of facilities capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency bandwidth of 300 to 3000 Hz. 6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(6) Interface Group Arrangements (Cont'd)

(a) Interface Group 1 (USOC TPP1X) (Cont'd)

The interface is provided with loop supervisory signaling. When the interface is associated with BellSouth SWA FGA or BellSouth SWA LSBSA, such signaling will be loop start or ground start signaling. When the interface is associated with BellSouth SWA FGB, BellSouth SWA FGD, 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service, BellSouth SWA 900 service or BellSouth SWA TSBSA such signaling, except for two-way calling which is E&M signaling, will be reverse battery signaling. (D)

(b) Interface Group 2 (USOC TPP2X)

Interface Group 2 provides four-wire voice frequency transmission at the point of termination at the customer's premises. Interface Group 2 is capable of transmission of voice and associated telephone signals within the frequency bandwidth of approximately 300 to 3000 Hz.

The transport between the point of termination at the customer's premises and the customer's serving wire center will be comprised of facilities capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency bandwidth of approximately 300 to 3000 Hz. The interface is provided with loop supervisory signaling. When the interface is associated with BellSouth SWA FGA or BellSouth SWA LSBSA, such signaling will be loop start or ground start signaling. When the interface is associated with BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service, BellSouth SWA 900 service or BellSouth SWA TSBSA such signaling, except for two-way calling which is E&M signaling, will be reverse battery signaling. (c) Interface Group 3 (USOC TPP3X)

Interface Group 3 is obsolete and limited to existing installations at existing locations for existing customers as of December 30, 1993. Interface Group 3 provides group level analog transmission at the point of termination at the customer's premises. The interface is capable of transmitting electrical signals between the frequencies of 60 to 108 kHz, with the capability to channelize up to 12 voice frequency transmission paths.

(d) Interface Group 6 (USOC TPP6X)

Interface Group 6 provides DS1 level digital transmission at the point of termination at the customer's premises. The interface is capable of transmitting electrical signals at a nominal 1.544 Mbps, with the capability to channelize up to 24 voice frequency transmission paths.

Before the first point of switching, when analog switching utilizing analog terminations is provided, Channelization Equipment may be necessary to derive 24 transmission paths of a frequency bandwidth of approximately 300 to 3000 Hz. When digital switching or analog switching with digital carrier terminations is specified, the Telephone Company will provide, at the customer's request, at the first point of switching, a DS1 signal in D4 format.

(e) Interface Group 9 (USOC TPP9X)

Interface Group 9 provides DS3 level digital transmission at the point of termination at the customer's premises. The interface is capable of transmitting electrical signals at a nominal 44.736 Mbps, with the capability to channelize up to 672 voice frequency transmission paths. Before the first point of switching, Channelization Equipment will be necessary to derive up to 672 transmission paths of a frequency bandwidth of (C)(x) approximately 300 to 3000 Hz. When digital switching, or analog switching with digital carrier terminations is provided, the Telephone Company will provide, at the customer's request, at the first point of switching, DS1 signals in D4 format.

The interface is provided with individual transmission path bit stream supervisory signaling.

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(6) Interface Group Arrangements (Cont'd)

(f) Dedicated Network Access Line (DNAL)

The DNAL provides a connection between the customer designated premises and a Telephone Company central office (which provides LSBSA dial tone) for connection to equipment that is not a part of the central office switch but which is used to provide the associated BSE. The DNAL is used only in conjunction with BellSouth SWA LSBSA BSE services requiring a separate link for transmitting data or control information as specified in 6.3.3. The BellSouth SWA LSBSA BSE service determines the requirement for speed, type, and number of DNALs. DNAL Service is either a two-wire or four-wire channel providing either voice frequency transmission capability in the nominal frequency range of 200 to 3500 Hz, or program audio⁽¹⁾ transmission capability in the nominal frequency range of 50 to 8000 Hz, or digital transmission capability at 9.6 Kbps.

(N)

There are two basic rate categories which apply to DNALs. Each DNAL has one Switched Local Channel and one Switched Interoffice Channel as described below:

(i) DNAL Switched Local Channel

In general, the DNAL Switched Local Channel rate category provides for the communications path between the customer-designated premises and the serving wire center of that premises. DNAL local channels are available for voice grade (1200, 2400, 4800, 9600 baud ASCII), music and digital transmission applications. Rates and charges are set forth in tariff section 6.8.1(H). One DNAL Switched Local Channel charge will apply per customer-designated premises at which the channel is terminated. This charge will also apply where the customer-designated premises and the serving wire center are located in the same Telephone Company building.

⁽¹⁾ Program Audio is discontinued and no longer available in this publication (see WC Dkt. 19-238).

(f) Dedicated Network Access Line (DNAL) (Cont'd)

(ii) Switched Interoffice Channel

The DNAL Switched Interoffice Channel rate category provides for the transmission facilities between the serving wire center of the customer designated premises and the serving wire center providing the associated BellSouth SWA LSBSA dial tone. DNAL Switched Interoffice Channels are available for voice grade, music and digital transmission applications. Rates and charges are set forth in tariff section 6.8.1(H). A DNAL Switched Interoffice Channel is portrayed in mileage bands. There are two rates that apply for each band, i.e., a flat rate per band and a rate per mile. (T)

(g) Available Premises Interface Codes

Following is a matrix showing, for each Interface Group, which premises interface codes are available as a function of the Telephone Company switch supervisory signaling and BellSouth SWA service arrangement. For BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and BellSouth SWA 900 service, the premises interface codes are the same as those set forth for BellSouth SWA FGD. Additionally, premises interface codes for the unbundled access services (BellSouth SWA LSBSA and BellSouth SWA TSBSA) match that of the Feature Groups as listed below. (D)

(j) Dedicated Network Access Line Premises Interface Codes

The DNAL is provided only with the BellSouth SWA LSBSA BSEs - SMDI, ISMDI, BCLID, Make Busy/Night Transfer, and Queuing (subelements including Call Waiting and Music After Delay Announcement Only). The appropriate Telephone Company and premises interface codes are as follows:

Interface Group Premises Arrangement	Associated	Frequency	Telephone Company Interface	
	<u>BSE</u>	<u>Band</u>	<u>Code</u>	<u>Interface Code</u>
DNAL	SMDI, ISMDI BCLID	-	04DM-3	04DA2, 04DB2, 04DS9-15, 04DS9-31
	SMDI, ISDMDI	-	DU-96	Note 3
	Make Busy/Night Transfer	-	02DC8-4	02CC8-4, 04DS9-15-LS ^{1,2}

Note 1: This service requires the end user to provide a contact closure. In the normal or open state the end user will provide a resistance greater than 30,000 ohms between the tip and ring leads. In the closed state the end user will provide 600 ohms or less across tip and ring.

The Company will provide a negative voltage on the tip lead and ground on the ring lead. The voltage will be in the range of 42.5 to 52.5 VDC. The loop current will be 16 to 50 mA.

Note 2: When the DS interface is required, only the loop closure function is used. Voice frequency service specifications are not supported on any channel using CC or DC interfaces. Additional information may be found in TR-NWT-000335.

Note 3: Compatible channel interfaces are set forth in Technical Reference TR-NWT-00341 and MDP 326-726.

(7) Optional Features

Where transmission facilities permit, the Telephone Company will, at the option of the customer, provide the following optional features in association with BellSouth SWA Transport. The optional features are provided as set forth in 6.8.1(F) following.

Note 1: With the DC interface the end user provides a voltage source. A negative voltage will be provided on the tip with ground provided on the ring. The open circuit tip-to-ring voltage shall not be more negative than 52.5 VDC. The voltage source shall be able to provide at least 16 mA to an external resistance of 2000 ohms.

Note 2: When the DS interface is required, only the loop closure function is used. Voice frequency service specifications are not supported on any channel using CC or DC interfaces. Additional information may be found in TR-TSY-000335.

(7) Optional Features (Cont'd)

(a) Supervisory Signaling

Where the transmission parameters permit, and where signaling conversion is required by the customer to meet its signaling capability, the customer may order an optional supervisory signaling arrangement for each transmission path provided as follows:

For Interface Groups 1 and 2

DX Supervisory Signaling,
E&M Type I Supervisory Signaling,
E&M Type II Supervisory Signaling, or
E&M Type III Supervisory Signaling

For Interface Group 2

SF Supervisory Signaling or
Tandem Supervisory Signaling

For Interface Groups 6 and 9

These Interface Groups may, at the option of the customer, be provided with individual transmission path SF supervisory signaling where such signaling is available in Telephone Company central offices. Generally such signaling is available only where the entry switch provides an analog, i.e., non-digital, interface to the Switched Transport termination and a portion of the facility between the analog entry switch and the customer's premises is analog.

(7) Optional Features (Cont'd)

(a) Supervisory Signaling (Cont'd)

These optional supervisory signaling arrangements are not available in combination with the CCSAC option, as specified in 6.1.3(A)(6)(e) following.

(b) Customer Specified Entry Switch Receive Level

This feature allows the customer to specify the receive transmission level at the first point of switching. The range of transmission levels which may be specified is described in Technical Reference TR-NWT-000334. This feature is available with Interface Groups 2, 3, 6 and/or 9 for BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1.

(c) Customer Specification of BellSouth SWA Transport Termination

This option allows the customer to specify, for BellSouth SWA FGB or BellSouth SWA TSBSA 1 routed to an end office or access tandem, a four-wire termination of the BellSouth SWA Transport at the entry switch in lieu of a Telephone Company selected two-wire termination.

This option is available only when the BellSouth SWA FGB or BellSouth SWA TSBSA 1 arrangement is provided with Type B Transmission Specifications.

(d) AccuPulse Service Access Capability⁽¹⁾

(N)

This option allows a customer to establish a connection between the customer's premises and a suitably equipped end user premises over facilities that are capable of transmitting 56 Kbps digital data. This option requires the use of Interface Groups 6 and/or 9. It is provided to suitably equipped electronic end offices or access tandems and is available only with BellSouth SWA FGD or BellSouth SWA TSBSA 3.

⁽¹⁾ Effective May 19, 2016, AccuPulse Service Access Capability is limited to existing Customers for existing service arrangements. Existing Customers may not purchase additional AccuPulse Service Access Capability service arrangements or renew existing service agreements. No move, add or change orders will be accepted.

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(7) Optional Features (Cont'd)

(e) Common Channel Signaling Access Capability (CCSAC)

This option allows the customer to receive signals for call set-up out of band. This option is available with BellSouth SWA FGD or BellSouth SWA TSBSA 3.

This option requires the establishment of CCS7 Signaling Connections and CCS7 Signaling Terminations between the customer's SPOI and Telephone Company-designated STPs. A minimum of one pair or one quad of CCS7 Signaling Connections and Terminations is required as further described in Section 6.1.3(C) following.

(7) Optional Features (Cont'd)

CL - Common Line
LS - Local Switching
ST - BellSouth SWA Transport

(f) 64 Clear Channel Capability (CCC)

- (i) Clear Channel Capability (CCC) is an arrangement that alters a BellSouth SWA DS1/1.544 Mbps signal with unconstrained information bits to meet pulse density requirements outlined in TR-NPL-000054 and TR-INS-000342. This will allow a customer to transport an all-zero octet over a BellSouth SWA DS1/1.544 Mbps High Capacity (a.k.a. BellSouth SPA High Capacity) channel and will provide an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with eight (8) Zero Substitution (B8ZS) line code as described in Technical Reference TR-NPL-000054 and TR-INS-000342.

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(7) Optional Features (Cont'd)

(f) 64 Clear Channel Capability (CCC) (Cont'd)

- (ii) This optional feature may be ordered at the same time the DS1/1.544 Mbps High Capacity is ordered, or it may be ordered as an additional feature of an existing DS1/1.544 Mbps High Capacity service.
- (iii) When providing CCC via a DS3/44.736 Mbps High Capacity channel, that DS3 channel must be designated, in BellSouth records, as having Clear Channel Capability prior to the provisioning of a DS1/1.544 Mbps High Capacity channel with CCC. Customers must agree to out-of-service periods required to add this feature to:
1) an existing DS1/1.544 Mbps High Capacity channel or 2) a DS3/44.736 Mbps High Capacity channel which transports a DS1/1.544 Mbps High Capacity channel to be optioned for B8ZS.

(g) TCAP Message Transmission

This option provides for the transmission of information corresponding to TIA Interim Standard 41 (Sub-systems 005-010) over a customer's CCS7 Signaling Connection. TCAP messages will be routed according to originating and destination point codes provided by the customer.

This option requires the utilization of CCS7 Signaling Connections and CCS7 Signaling Terminations between the customer's signaling point of interface and each of the Telephone Company's Local Signal Transfer Points (STPs) within the LATA.

This option is available where facilities and switching capability are available.

(7) Optional Features (Cont'd)

(h) Coin Sent-Paid Capability

Coin sent-paid capability allows the customer to receive signals for coin sent-paid traffic from line controlled pay stations. This option requires the use of Exchange Access Operator Services Signaling (EAOSS) and/or Modified Operator Services Signaling (MOSS). Coin sent-paid capability access is provided direct to designated Telephone Company end offices or via tandem access at the TOPS tandem switches and is available with BellSouth SWA FGD or BellSouth SWA TSBSA 3.

Technical specifications for MOSS are as set forth in the Bell Communications Research Technical Publication TR-TSY-000064. Technical specifications for EAOSS are as set forth in the Bell Communications Research Technical Publication FR-NWT-0000271.

(i) Tandem Signaling

This option provides for the automatic transmission of signaling indicators which identify the interexchange carrier and trunk group to which the call is to be directed. This option, available with BellSouth SWA FGD, is provided on originating direct trunk groups.

Direct trunk groups equipped with tandem signaling can be arranged to overflow to other direct trunk groups equipped with tandem signaling. Direct trunk groups equipped with tandem signaling can not be arranged to overflow to the Telephone Company's common trunk groups.

Depending on the signaling facilities available, this option will be provisioned via MF or CCS7 signaling. The CCS7 alternative requires the establishment of: 1) CCSAC as described in 6.1.3(A)(7)(e) preceding and 2) CCS7 Signaling Connections and CCS7 Signaling Terminations between the customer's SPOI and the Telephone Company's STPs as further described in Section 6.1.3(C) following.

(j) Surveillance Optional Feature

BellSouth SWA DS1 and DS3 Transport services can be provided with BellSouth SPA Customer Network Management (CNM) - FlexServ Service as set forth in Section 7 of this Tariff for surveillance only. These SWA channel terminations are not available for reconfiguration. Rates and charges for the surveillance options are provided in Section 7.5.18, of this Tariff.

(8) BellSouth SWA High Capacity and BellSouth SWA DS0 Transport Services

BellSouth SWA High Capacity services consist of BellSouth SWA DS1 and BellSouth SWA DS3 Local Channels and BellSouth SWA DS0, BellSouth SWA DS1 and BellSouth SWA DS3 Interoffice Channels. BellSouth SWA DS1 and DS3 Local Channels consists of a basic channel between the customer's premises and the customer's serving wire center.

For BellSouth SWA Dedicated Transport, the BellSouth SWA DS0 (Digital Voice Grade) and BellSouth SWA DS1 and DS3 Interoffice Channels are provided between the customer serving wire center to any of the following customer designated points: (1) the Telephone Company end office, (2) the Access Tandem, (3) Telephone Company Facility Hub (Hub), (4) Hub to Telephone Company end office, (5) Hub to Access Tandem and, (6) a Hub to a Hub. Channel type and service descriptions are provided in 7.2.8 and 7.2.9 following.

(8) BellSouth SWA High Capacity and BellSouth SWA DS0 Transport Services
(Cont'd)

(a) BellSouth SWA DS0 Service

BellSouth SWA DS0 service (Digital Voice Grade) is a channel for duplex four-wire transmission at the rate of 56.0 or 64.0 Kbps. BellSouth SWA DS0 service is provided as a BellSouth SWA Dedicated Interoffice Channel between the foregoing customer designated points.

(b) BellSouth SWA DS1 Service

BellSouth SWA DS1 service is a high capacity channel service provided between the customer premises and the customer's serving wire center as a Switched Local Channel to be associated with Interface Group 6. BellSouth SWA DS1 Service can also be provided as a Switched Dedicated Interoffice Channel between the foregoing customer designated points.

(c) BellSouth SWA DS3 Service

BellSouth SWA DS3 service is a high capacity channel service provided between the customer premises and the customer's serving wire center as a Switched Local Channel to be associated with Interface Group 9. BellSouth SWA DS3 Service can also be provided as a Switched Dedicated Interoffice Channel between the foregoing customer designated points.

Single BellSouth SWA DS3 Local Channels are available for customer premises to the customer's serving wire center application. Channelization Equipment is required for BellSouth SWA DS3 level services whenever a customer orders lower capacity Switched Interoffice channels or terminates in Telephone Company serving wire centers, End Office Switch(es), Facility Hubs or Access Tandems. Telephone Company Facility Hubs offer digital channelization in accordance with 6.7.17 and 7.4.7 following. For technical specifications, see 7.2.9 following.

Rates specific to BellSouth SWA High Capacity and DS0 Transport Services are shown in 6.8.1 following.

(Cont'd)

(d) Channelization Equipment

Channelization Equipment (CE) provides for the multiplexing equipment necessary to channelize digital facilities to individual services requiring a lower capacity or bandwidth. Channelization Equipment is required with:

- (1) Any facility carrying a combination of trunk side and line side services terminating to an end office switch; (2) Any termination of a DS3 facility and (3) when any facility carrying a combination of switched and special access circuit terminates to an end office switch. Two levels of multiplexing are available: (1) BellSouth SWA DS3 to BellSouth SWA DS1; and (2) BellSouth SWA DS1 to BellSouth SWA DS0 or Analog. The NECA TARIFF FCC NO. 4 identifies Telephone Company Offices (Facility Hubs) where multiplexing functions are available.

The CE rate category for BellSouth SWA DS1 level service consists of two rate elements: (1) Basic Channelization System; and (2) Central Office Channel Interface(s). The CE rate category for BellSouth SWA DS3 Level service consists of two rate elements: (1) BellSouth SWA DS3 Channelization System; and (2) the Central Office Channel Interface.

(8) BellSouth SWA High Capacity and BellSouth SWA DS0 Transport Services
(Cont'd)

(d) Channelization Equipment (Cont'd)

BellSouth SWA DS3 to BellSouth SWA DS1 - An arrangement that channelizes a 44.736 Mbps channel to 28 DS1 channels.

BellSouth SWA DS1 Basic Channelization System - An arrangement that channelizes a 1.544 Mbps channel to a maximum of twenty-four (24) 64 Kbps channels. A BellSouth SWA DS1 Basic Channelization System requires a Central Office Channel Interface for each channel of lesser capacity.

A BellSouth SWA DS1 that is directly terminated into a digital switch is restricted to trunk side switched traffic and cannot be used for line side connections or Special Access (a.k.a. BellSouth SPA) circuits.

A BellSouth SWA DS1 that is directly terminated into an analog switch is restricted to trunk side switched traffic and cannot be used for line side connections or Special Access (a.k.a. BellSouth SPA) circuits.

The Central Office Channel Interface (COCI) is necessary to activate the Sub DS1 Service capable of carrying BellSouth SWA Access traffic. The COCI is required in addition to the Basic Channelization System.

Rates applicable to the Channelization Systems and the applicable Central Office Channel Interfaces are provided in 6.8.1 following.

(9) Channelization for Common Transport Interoffice Channels

The following rate elements apply where the customer orders BellSouth SWA Common Transport.

(a) DS3 to DS1 Multiplexer

This rate element is for use of DS3 to DS1 multiplexer equipment within the Telephone Company common transport network and is required for customers utilizing BellSouth SWA Common Transport. The rate element applies for each BellSouth SWA Common Transport minute of use between the access tandem and the end office, as well as for each minute of use between a host and remote end office, and each terminating minute of use between a BellSouth SWA FGA or BellSouth SWA LSBSA dial tone office and the end office. DS3 to DS1 Multiplexer charges are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. The rate for this element is found in 6.8.1(B)(2)(a) following.

(10) BellSouth Dedicated Ring

The BellSouth Dedicated Ring configuration utilizes a multi-nodal ring architecture which is specified jointly by the Telephone Company and the customer. The minimum configuration provides dedicated DS3 and/or DS1 digital services and must include at least three nodes. The three nodes may all be Central Office Nodes in Telephone Company Central Offices, or the three nodes may be a Central Office Node in Telephone Company Central Office, a Customer Node at a customer's designated location and the third node may be either a Central Office Node or a node at a another customer designated location. Additional nodes for either arrangement may be any combination thereof. The maximum number of nodes will be determined based on equipment capability. The nodes are connected by BellSouth Dedicated Ring Local Channels, Alternate Central Office Channels, Interoffice Channels and Internodal Channels as applicable. BellSouth Dedicated Ring may be connected to other BellSouth SWA services only at Central Office Nodes. When BellSouth Dedicated Ring works with OC-12 installed on or after June 3, 1994, and with OC-48 and OC-48+, the customer may request an OC-1 and/or OC-3 Overlay Ring Arrangement riding the customer's host OC-12, OC-48, or OC-48+. With OC-48 BellSouth Dedicated Ring, the customer may request an OC3+ and/or OC-12 Overlay Ring Arrangement riding the customer's host OC-48 BellSouth Dedicated Ring.

Applicable rate elements for this service are:

- (a) Local Channel (at least one for each Customer Node which is directly connected to the serving wire center)
 - The Local Channel rate category provides for the communications path between a Customer Node and the serving wire center of the premises where located. Charges for Local Channels apply as described in paragraph 6.1.3 (A) preceding. It is available with all capacities of BellSouth Dedicated Ring except OC-1.
- (b) Alternate Central Office Channel (at least one for each Customer Node which is directly connected to an Alternate Central Office)
 - The Alternate Central Office Channel provides for the communications path between a customer node and an alternate central office. It is available with all capacities of BellSouth Dedicated Ring except OC-1.

(This page filed under Transmittal No. 1)

(c) Interoffice Channel (one for each path between each two directly connected Telephone Company Central Offices)

- The Interoffice Channel provides for the communications path between directly connected Telephone Company central offices located on a BellSouth Dedicated Ring. It is available with all capacities of BellSouth Dedicated Ring except OC-1. This rate element does not apply where Central Office Nodes are adjacently connected in the same Central Office on the same Dedicated Ring for the purpose of providing additional node capacity.

(d) Internodal Channel (one for each path between two directly connected customer nodes)

- The Internodal Channel (INC) provides for the communications path between two directly connected Customer Nodes of a given BellSouth Dedicated Ring located (a) in the same Serving Wire Center area or (b) in the same Office Park/Campus Environment or contiguous property, located in contiguous Serving Wire Center areas. It is available with all capacities of BellSouth Dedicated Ring except OC-1. This rate element does not apply where Customer Nodes are adjacently connected in the same building on the same Dedicated Ring for the purpose of providing additional node capacity.

(e) Customer Node (at least one for configurations other than three Central Office Node arrangements)

(T)

- Customer Nodes provide ring switching capabilities at customer designated locations other than Telephone Company Premises that are part of BellSouth Dedicated Ring. This rate element offers OC-3, OC-3+, OC-12, OC-48, OC-48+, or OC-192+ network capacities. A summary of the channel interfaces available with each node are specified in 6.2.10(A) following.

(T)

(f) Customer Channel Interface (one for each originating/terminating activated DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 for each Customer Node)

- A Customer Channel Interface provides DS1, DS3, STS-1 electrical channelization and/or OC-3, OC-12, and/or OC-48 optical channelization that may take place at each Customer Node of BellSouth Dedicated Ring. The Customer Channel Interface rate element applies for every interface capacity that originates or terminates at a Customer Node. A summary of the channel interfaces available with each node are specified in 6.2.10(A) following.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(B) Local Switching

This rate category provides for (1) local end office switching, i.e., the switching functions associated with the various BellSouth SWA service arrangements. (2) the termination of BellSouth SWA Transport at end offices, (3) the termination of common lines and BellSouth SPA WATS Lines at end offices, and (4) intercept functions, i.e., the termination of certain calls at a Telephone Company intercept recording. This category includes usage sensitive rates and both chargeable and nonchargeable optional features and basic service elements. (D)

(1) Usage Sensitive Rates

The usage sensitive rates are applied on a per minute of use basis and are divided into four categories:

- (a) LS1 provides local switching functions for BellSouth SWA FGA and BellSouth SWA FGB, except for BellSouth SWA FGA and BellSouth SWA FGB used to terminate traffic to a BellSouth SPA WATS Line provided from an end office.
- (b) LS2 provides local switching functions for BellSouth SWA FGA and BellSouth SWA FGB used to terminate traffic to a BellSouth SPA WATS Line provided from an end office; and BellSouth SWA FGD, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and BellSouth SWA 900 service traffic originating from or terminating to an end office. Where end offices are appropriately equipped, international dialing may also be provided as a capability of LS2, i.e., the capability of switching international calls with service prefix and address codes having more digits than can be switched through a standard BellSouth SWA FGD end office.

(B) Local Switching (Cont'd)

(1) Usage Sensitive Rates (Cont'd)

(c) LS3 provides local switching functions for BellSouth SWA FGA and BellSouth SWA FGB, except for BellSouth SWA FGA and BellSouth SWA FGB used to terminate traffic to a BellSouth SPA WATS Line provided from an end office. (C)

(d) LS4 provides local switching functions for BellSouth SWA LSBSA and BellSouth SWA TSBSA 1 used to terminate traffic to a BellSouth SWA WATS Service Line provided from an end office; and BellSouth SWA TSBSA 3, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and BellSouth SWA 900 service traffic originating from or terminating to an end office. Where end offices are appropriately equipped, international dialing may also be provided as a capability of LS4, i.e., the capability of switching international calls with service prefix and address codes having more digits than can be switched through a standard BellSouth SWA TSBSA end office. (C)

The application of these rates is set forth in Section 6.8.2(A). (T)

(e) The Common Trunk Port service provides for termination of BellSouth SWA Common Transport trunk facilities at end office switches. The charge applies per MOU per trunk termination at end offices including host and remote end office switches. The charge also applies at the BellSouth SWA FGA and BellSouth SWA LSBSA dial tone offices and terminating offices in those cases where terminating BellSouth SWA FGA and BellSouth SWA LSBSA traffic terminates at an office other than the BellSouth SWA FGA or BellSouth SWA LSBSA dial tone office. Rates are set forth in Section 6.8.2(A)(2). (T)

(C) BellSouth CCS7 Access Arrangement

(1) Service Description

BellSouth CCS7 Access Arrangement allows for customer interconnection to the Telephone Company at designated Signal Transfer Points (STPs) for the use with services that require receiving and terminating signaling information using the common channel signaling protocol. CCS7 Access is provided for use with BellSouth Line Information Data Base Access service, as described in Section 19, following, and with the BellSouth SWA CCSAC option, as described in 6.1.3(A)(6)(e) preceding, with TCAP Message Transmission option as described in 6.1.3(A)(2)(g) preceding, with the tandem signaling option as described in 6.1.3.(A)(7)(i) preceding, with BellSouth Local Number Portability Database Services, as described in 6.1.3(F) following, and with Enhanced Originating Line Screening (EOLS) Service as described in 13.3.19 following. For each connection, the customer must order a CCS7 Access Connection and CCS7 Access Termination. The CCS7 Access Arrangement is provided as follows.

- (i) The CCS7 Signaling Connection provides a 2-way digital 56 Kbps facility, dedicated to a single customer, which originates at the customer's signaling point of interconnection in a LATA and terminates at a Telephone Company Signal Transfer Point (STP) selected by the Telephone Company.
- (ii) The CCS7 Signaling Termination provides a dedicated point of interface at a Telephone Company STP for a customer's CCS7 Signaling Connection.

The customer is responsible for reporting to the Telephone Company the Percent Interstate Usage (PIU) for BellSouth CCS7 Access Arrangement as set for in 2.3.10 preceding.

Effective on December 5, 1997, the Telephone Company will begin a network conversion of its CCS7 access service arrangement to a Gateway serving arrangement. Under the Gateway serving arrangement, a customer will be able to obtain access from each of its SPOIs to the Telephone Company CCS7 network in one or more LATAs designated by the customer. This arrangement is available for use with Telephone Company Feature Group D and TSBSA 1 switched access service and queries to Telephone Company databases pursuant to this tariff. Changes in facilities and translations will be required to accomplish this network conversion.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(C) BellSouth CCS7 Access Arrangement (Cont'd)

(1) (Cont'd)

For ordering purposes, CCS7 Signaling Connections and Terminations are ordered from the customer's SPOI to one or more FSPOI locations in the LATA. The customer must order a minimum of two CCS7 Signaling Connections and two CCS7 Signaling Terminations, if the customer's SPOI connects to a customer SSP and a minimum of four CCS7 Signaling Connections and four CCS7 Signaling Terminations, if the customer's SPOI connects to a customer STP. FSPOI locations are set forth in the NECA Tariff FCC No. 4.

The Telephone Company will establish schedules pursuant to which the conversions will be accomplished and will work cooperatively with existing customers to establish dates during which necessary changes in facilities and translations will be accomplished. A customer may have CCS7 Signaling Connections and CCS7 Signaling Terminations under both the existing arrangement and the new Gateway serving arrangement only pursuant to the conversion schedule established by the Telephone Company. New service requests will be connected to the Gateway serving arrangement regardless of when ordered; provided, however, that requests of existing customers for augmentation of existing capacity in a LATA will be converted to the Gateway serving arrangement in accordance with the Telephone Company's conversion schedule. All of an existing customer's arrangements in a LATA must be connected to the Gateway serving arrangement, or disconnected entirely, no later than eighteen months after notice by the Telephone Company.

For existing customers, the conversion may require the use of duplicate CCS7 Signaling Connections and Terminations in a LATA, both to the existing STP and to the Gateway serving arrangement, in order to assure continuity of service at the time of the conversion. Existing facilities no longer required after conversion of all of a customer's facilities within a LATA must be disconnected within 60 days of the completion of such conversion. Recurring charge credits will apply for the new Connections and Terminations for the period of time beginning with the installation of the new Connections and Terminations until the earlier of 1) the disconnection of the first set (or quad) of existing Connections and Terminations whose traffic is being converted to the new Connections and Terminations or 2) 60 days following the completion of the conversion. In addition, nonrecurring charges for the new Connections and Terminations will be credited.

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(C) BellSouth CCS7 Access Arrangement (Cont'd)

(1) (Cont'd)

Where new Connections and Terminations in a LATA result from the consolidation of traffic from other LATAs, credits will apply as follows: Nonrecurring charge credits will be provided for the new Connections and Terminations. In addition, recurring credits will apply for the new Connections and Terminations for the period of time beginning with the installation of the new Connections and Terminations until the earlier of 1) the disconnection of the first set (or quad) of existing Connections and Terminations whose traffic is being converted to the new Connections and Terminations, or 2) four months after installation of the new Connections and Terminations.

Due to billing system constraints, all recurring and nonrecurring charges will be billed, but appropriate credits will be applied to the customer's bill after the associated existing facilities are disconnected.

(2) BellSouth CCS7 Access Arrangement Usage

BellSouth CCS7 Access Arrangement Usage provides for the use of the Telephone Company's CCS7 Access Arrangement network for the transmission of call set-up and non-call set-up traffic. The two types of usage available are as follows:

- Integrated Switched Digital Network User Part (ISUP) messages which are used to provide the signaling set-up, supervise and release calls. ISUP usage charges will be assessed per signaling message delivered to or from the customer, regardless of direction, through it's dedicated CCS7 port connection.

6.1.3 Rate Categories (Cont'd)

(C) BellSouth CCS7 Access Arrangement (Cont'd)

(2) BellSouth CCS7 Access Arrangement Usage (Cont'd)

Specific types of ISUP messages are:

ACM - Address Complete Message
ANM - Answer Message
CPG - Call Progress
FOT - Forward Transfer Message
IAM - Initial Address Message
PAM - Pass Along Message
REL - Release
RES - Resume
RLC - Release Complete Message
SUS - Suspend

- Transaction Capabilities Application Part (TCAP) signaling messages are used to provide information required to route calls to the appropriate service provider not related to a voice call. TCAP usage charges will be assessed per signaling message delivered to the customer, regardless of direction, for such services as Toll Free Access, 500 Access Service, TCAP Message Transmission, Line Information Database (LIDB) service, Enhanced Originating Line Screening (EOLS) service, and LNP Query service query.

Specific types of TCAP Messages are:

ABT - Abort
CON - Conversation Without Permission Message
CWP - Conversation With Permission Message
QUE - Query Without Permission Message
QWP - Query With Permission Message
RSP - Response Message
UNI - Unidirectional

(D) BellSouth SWA 500 Service

The BellSouth SWA 500 service rate category includes the use of switch based translations and the use of transmission facilities and functions by the Telephone Company to provide for BellSouth SWA 500 service. Rate elements and rates associated with this category are provided in 6.8.10 following.

(E) Toll Free Dialing

The Toll Free Dialing Database rate category includes the use of transmission facilities and functions between a Service Switching Point (SSP) equipped end office or access tandem and a Service Control Point (SCP) by the Telephone Company to provide for BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service. Rate elements and rates associated with this category are provided in 6.8.11, following.

(F) BellSouth Local Number Portability Database Services

The BellSouth Local Number Portability Database services rate category includes the use of transmission facilities and functions between (1) a Service Switching Point (SSP) equipped end office or access tandem and a Service Control Point (SCP), or (2) a STP and SCP by the Telephone Company to provide for BellSouth Local Number Portability Database services. Rate elements and rates associated with this category are provided in 6.8.12, following.

(G) BellSouth Expanded Interconnection Service Cross Connects

Terms and conditions and rates for BellSouth Expanded Interconnection Service Cross Connects are as set forth in Section 20 of this Tariff.

(H) DS1 and DS3 Interfaces for Connecting DS1 and DS3 Switched Service to synchronous LightGate service (a.k.a BellSouth SPA Point to Point Network) via a Shared Use Arrangement

This rate category provides DS1 and DS3 interfaces for connecting DS1 and DS3 switched service in a shared use arrangement to LightGate service (a.k.a. BellSouth SPA Point to Point Network), as found in Section 7, following. Rate elements are provided in 6.8.14 following.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.4 Special Facilities Routing

Any customer may request that the facilities used to provide BellSouth SWA service be specially routed. The regulations, rates and charges for Special Facilities Routing (i.e., avoidance, diversity and cable-only) are set forth in Section 11 following.

6.1.5 Design Layout Report

At the request of the customer, the Telephone Company will provide to the customer the makeup of the facilities and services provided from the customer's premises to the first point of switching. This information will be provided in the form of a Design Layout Report. The Design Layout report will be provided to the customer at no charge and will be reissued or updated whenever these facilities are materially changed.

6.1.6 Acceptance Testing

When analog or a combination of analog and digital services are provided at voice grade frequency, the Telephone Company will at the customer's request, cooperatively test to the POT at no additional charge, the following parameters at the time of installation: loss, C-notched noise, C-message noise, 3-tone slope, d.c. continuity and operational signaling.

When the switched transport is provided with Interface Groups 2, 3, 6 or 9, and the transport termination is two-wire (i.e., there is a four-wire to two-wire conversion in BellSouth SWA Transport), balance parameters (equal level echo path loss) may also be tested.

When the service is provided totally via digital facilities (i.e., digital switch and digital transport), the Telephone Company will, at the customer's request, cooperatively test at the time of installation the following at no additional charge: operational signaling for each circuit provided and loss for one circuit per di-group provided.

For BellSouth SWA FGD and Bell SWA TSBSA 3 trunks equipped with the 64 Clear Channel Capability (64 CCC) option, tests will be performed to verify the integrity of the 64 Kbps service. 64 Kbps service testing, for customers with 108 test line capability, will be made to the customers 108 test line. For customers without 108 test line capability, tests will be made to the demarcation point at the POP (Point of Presence). One trunk per DS1 facility will be tested.

6.1.7 Ordering Options and Conditions

The Access Order, as set forth in Section 5 preceding, is used in the provisioning of BellSouth SWA. Also included in that section are other charges which may be associated with ordering BellSouth SWA service (e.g., Service Date Change Charges, Cancellation Charges, etc.).

(This page filed under Transmittal No. 1)

ACCESS SERVICE
6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.7 Ordering Options and Conditions (Cont'd)

For purposes of Section 6, services requested on multiple Access Service Requests (ASRs) placed with the Telephone Company on a given day, for multiple lines to the same end office or multiple trunks on a common trunk group with the same premises interface code, will be treated as one request when the ASRs are related together by the customer.

6.1.8 CCSAC Testing Requirements

When BellSouth SWA FGD or BellSouth SWA TSBSA 3 with the BellSouth SWA CCSAC option is ordered, network compatibility and other operational tests will be performed cooperatively by the Telephone Company and the customer. These tests are as specified in Technical Publication TR-TSV-000905, and the BellSouth Guidelines to Technical Publication TR-TSV-000905. (T)

6.1.9 BellSouth Cross Connect Service

Terms and conditions and rates for the following BellSouth Cross Connect Services are as set forth in Section 13 of this Tariff:

- Intra-Office Collocation Cross Connect Service
- Physical Access Cross Connect Service
- Virtual Access Cross Connect Service

6.2 Provision and Description of Switched Access Service Arrangements

BellSouth SWA service is provided in ten service categories including four different BellSouth SWA FG arrangements, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, BellSouth SWA 900 service, and two SWA 8XX Basic Serving Arrangements. The provision of each service category requires the applicable switched transport component and the appropriate local switching functions. There are also various switched transport component and Local Switching optional features available with the feature groups and BSAs. The switched transport, common switching and switched transport termination optional features are available at all Telephone Company end office switches, unless stated otherwise. In addition, WATS Access Lines (a.k.a. BellSouth SWA WATS Lines), as described in 7.2.3.1, following, may be provided at the option of the customer, for use with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA LSBSA, and BellSouth SWA TSBSA originating and terminating. WATS Access Line (a.k.a. BellSouth SWA WATS Line) optional features are available in end offices designated as WATS serving offices and are set forth in 6.3.4, following. (T)

There are three specific transmission specifications (i.e., Types A, B and C) that have been identified for the provision of Switched Access Services. The specifications provided are dependent on the Interface Group ordered. The parameters for the transmission specifications are set forth in 6.4.1, following. (T)

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Switched Access Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

BellSouth SWA FGs and BellSouth SWA Basic Serving Arrangements are arranged for either originating, terminating or two-way calling, based on the customer end office switching capacity ordered. Originating calling permits the delivery of calls from Telephone exchange service locations to the customer's premises. Terminating calling permits the delivery of calls from the customer's premises to telephone exchange service locations. Two-way calling permits the delivery of calls in both directions, but not simultaneously. The Telephone Company will determine the type of calling to be provided unless the customer requests that a different type of directional calling is to be provided. In such cases, the Telephone Company will work cooperatively with the customer to determine the directionality.

Following are detailed descriptions of each of the available BellSouth SWA service arrangements. Each service arrangement is described in terms of its specific physical characteristics and calling patterns, the transmission specifications with which it is provided, the optional features available for use with it and the standard testing capabilities

6.2.1 BellSouth SWA FGA

(A) Description

- (1) BellSouth SWA FGA is provided in connection with Telephone Company electronic and electromechanical end offices. At the option of the customer, BellSouth SWA FGA is provided on a single or multiple line group basis and is arranged for originating calling only, terminating calling only, or two-way calling.
- (2) BellSouth SWA FGA provides a line side termination at the first point of switching. The line side termination will be provided with either ground start supervisory signaling or loop start supervisory signaling. The type of signaling is at the option of the customer.
- (3) The Telephone Company shall select the first point of switching, within the selected LATA, at which the line side termination is to be provided unless the customer requests a different first point of switching and Telephone Company facilities and measurement capabilities are available to accommodate such a request.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.1 Feature Group A (BellSouth SWA FGA) (Cont'd)

(A) Description (Cont'd)

- (4) A seven digit local telephone number assigned by the Telephone Company is provided for access to BellSouth SWA FGA switching in the originating direction. The seven digit local telephone number will be associated with the selected end office switch and is of the form NXX-XXXX.

If the customer requests a specific seven digit telephone number that is not currently assigned, and the Telephone Company can, with reasonable effort, comply with that request, the requested number will be assigned to the customer.

- (5) BellSouth SWA FGA switching, when used in the terminating direction, is arranged with dial tone start-dial signaling. When used in the terminating direction BellSouth SWA FGA switching may be arranged, at the option of the customer, for dial pulse or dual tone multifrequency address signaling, subject to availability of equipment at the first point of switching. When BellSouth SWA FGA switching is provided in a hunt group or uniform call distribution arrangement, all BellSouth SWA FGA switching will be arranged for the same type of address signaling.
- (6) No address signaling is provided by the Telephone Company when BellSouth SWA FGA switching is used in the originating direction. Address signaling in such cases, if required by the customer, must be provided by the customer's end user using inband tone signaling techniques. Such inband tone address signals will not be regenerated by the Telephone Company and will be subject to the ordinary transmission capabilities of the BellSouth switched transport provided.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.1 BellSouth SWA FGA (Cont'd)

(A)Description (Cont'd)

(7) BellSouth SWA FGA switching, when used in the terminating direction, may be used to access valid NXXs in the LATA of the dial tone office, local operator service (0- and 0+), BellSouth Directory Assistance (411 where available and 555-1212), emergency reporting service (911 where available), exchange telephone repair (611 where available), time or weather announcement services of the Telephone Company, community information services of an information service provider, and other customers' services (by dialing the appropriate digits). Charges for BellSouth SWA FGA terminating calls requiring operator assistance or calls to 611 or 911 will only apply where sufficient call details are available.

Additional non-access charges will also be billed on a separate account for:

- (a) an operator surcharge, as set forth in the local exchange tariffs, for local operator assistance (0- and 0+) calls,
- (b) calls to certain community information services, for which rates are applicable under the Telephone Company General Subscriber Service Tariffs, and
- (c) calls from a BellSouth SWA FGA line to another customer's service in accordance with that customer's applicable service rates when the Telephone Company performs the billing function for that customer.

For BellSouth SWA FGA calls to BellSouth Directory Assistance (411), BellSouth SWA service terminating usage rates will not apply. Instead, BellSouth SWA FGA calls to this service are subject to the BellSouth Directory Assistance Access service rates as set forth in 9.1.6(A) and (B) following.

(5) Other Optional Features

Certain other features which may be available in connection with BellSouth SWA FGA are provided under the Telephone Company's General Subscriber Service Tariffs. Examples of available features are:

- (a) Custom Calling Features
- (b) Extensions in the same local exchange as the dial tone office

(C) Transmission Specifications

BellSouth SWA FGA is provided with either Type B or Type C Transmission Specifications. The specifications for the associated parameters are guaranteed to the first point of switching. Type C Transmission Specifications are provided with Interface Group 1 and Type B are provided with Interface Groups 2, 3, 6 and/or 9. Type DB Data Transmission Parameters are provided with BellSouth SWA FGA to the first point of switching.

(D) Testing Capabilities

BellSouth SWA FGA is provided, in the terminating direction where equipment is available, with seven digit access to balance (100 type) test line and milliwatt (102 type) test line. In addition to the tests described in 6.1.6 preceding which are included with the installation of service, additional Cooperative Acceptance Testing and Nonscheduled Testing are available for BellSouth SWA FGA as set forth in 13.3.5 following.

6.2.2 BellSouth SWA FGB

(A) Description

- (1) BellSouth SWA FGB, when directly routed to an end office, is provided at appropriately equipped Telephone Company electronic end office switches. When provided via Telephone Company designated electronic access tandem switches, BellSouth SWA FGB switching is provided at Telephone Company electronic and electromechanical end office switches.
- (2) BellSouth SWA FGB is provided as trunk side switching through the use of end office or access tandem switch trunk equipment. The switch trunk equipment is provided with wink start start-pulsing signals and answer and disconnect supervisory signaling.
- (3) BellSouth SWA FGB switching is provided with multifrequency address signaling in both the originating and terminating directions. Except for BellSouth SWA FGB switching provided with the automatic number identification (ANI) or rotary dial station signaling arrangements as set forth in 6.3.2(A) following, any other address signaling in the originating direction, if required by the customer, must be provided by the customer's end user using inband tone signaling techniques. Such inband tone address signals will not be regenerated by the Telephone Company and will be subject to the ordinary transmission capabilities of the switched transport provided.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.2 BellSouth SWA FGB (Cont'd)

(A) Description (Cont'd)

- (4) The access code for BellSouth SWA FGB switching is a uniform access code. The form of the uniform access code is 950-XXXX for carriers. These uniform access codes will be the assigned access numbers of all BellSouth SWA FGB service provided to the customer by the Telephone Company.
- (5) BellSouth SWA FGB switching, when used in the terminating direction, may be used to access valid NXXs in the LATA, time or weather announcement services of the Telephone Company, community information services of an information service provider and other customers' services (by dialing the appropriate digits). When directly routed to an end office, only those valid NXX codes served by that end office may be accessed. When routed through an access tandem, only those valid NXX codes served by end offices subtending the access tandem may be accessed. The customer will also be billed non-access charges for calls from a BellSouth SWA FGB trunk to another customer's service in accordance with that customer's applicable service rates when the Telephone Company performs the billing function for that customer. Calls in the terminating direction will not be completed to 950-XXXX access codes, local operator assistance (C)(x) (0- and 0+), BellSouth Directory Assistance (411), service codes 611 and 911 or 101XXXX access codes. Calls will be completed to BellSouth Directory Assistance (NPA-555-1212 or 555-1212) when BellSouth SWA FGB switching is used for BellSouth Directory Assistance switching as set forth in (9), following. The combination of BellSouth SWA FGB service with BellSouth Directory Assistance service is provided as set forth in Section 9, following. BellSouth SWA FGB may not be switched, in the terminating direction, to BellSouth SWA FGB, BellSouth SWA FGD, or BellSouth SWA TSBSA. (T) (T) (D)

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.2 BellSouth SWA FGB (Cont'd)

(A) Description (Cont'd)

- (6) The Telephone Company will establish a trunk group or groups for the customer at end office switches or access tandem switches where BellSouth SWA FGB switching is provided. When required by technical limitations, a separate trunk group will be established for each type of BellSouth SWA FGB switching arrangement provided. Different types of BellSouth SWA FGB or other switching arrangements may be combined in a single trunk group at the option of the Telephone Company.
- (7) When all BellSouth SWA FGB switching arrangements are discontinued at an end office and/or in a LATA, an intercept announcement is provided. This arrangement provides, for a limited period of time, an announcement that the service associated with the number dialed has been disconnected.
- (8) For BellSouth SWA FGB service to a Mobile Telephone Switching Office (MTSO) directly interconnected to a Telephone Company Access Tandem Office, the customer will be billed for the Switched Local Channel and BellSouth SWA Dedicated Transport measured as set forth in 6.7.13(F) following, at premium rates only, including the Access Tandem Switching charge and the Interconnection charge. Carrier Common Line and Local Switching charges will not apply.
- (9) BellSouth SWA FGB is provided with BellSouth Directory Assistance service via Telephone Company designated electronic access tandem switches appropriately equipped for Directory Assistance measurement. Completion of these calls is as set forth in (5) preceding. When BellSouth Directory Assistance service is provided with BellSouth SWA FGB switching, calls routed to the access tandem will be completed to the BellSouth Directory Assistance location. Calls completed to the BellSouth Directory Assistance location are subject to the charges set forth in 9.1.6 following.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.4 BellSouth SWA FGD

(D)

(A) Description

- (1) BellSouth SWA FGD is provided at Telephone Company designated electronic end office switches whether routed directly or via Telephone Company designated electronic access tandem switches. For originating BellSouth SWA FGD for coin sent-paid capability, the coin capable option is provided direct to Telephone Company designated end offices or TOPS tandems. In addition, calls originated by an end user to information services, transportation information or Telecommunications Relay Service Centers (TRS) via 211, 511 or 711 dialing codes shall be routed by the Telephone Company to the designated DMS access tandem within the LATA.

For BellSouth SWA FGD with BellSouth SWA CCSAC and the tandem signaling option, the BellSouth SWA CCSAC option is provided through Telephone Company-designated STPs.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.4 BellSouth SWA FGD (Cont'd)

(A) Description (Cont'd)

- (2) BellSouth SWA FGD is provided as trunk side switching through the use of end office or access tandem switch trunk equipment. The switch trunk equipment may be provided with wink start start-pulsing signals and answer and disconnect supervisory signaling, or, without signaling when the BellSouth SWA CCSAC optional feature is specified.

When the customer has specified the BellSouth SWA CCSAC optional feature, Calling Party Number (CPN) will be automatically delivered to the customer on calls originated over the BellSouth SWA FGD or BellSouth SWA TSBSA 3 service. CPN is the calling party's ten digit telephone number. The ten digit telephone number consists of the NPA plus the seven digit telephone number, which may or may not be the same number as the calling station's charge number. The specific protocol for CPN is contained in the BellSouth Guidelines to Technical Publication TR-TSV-000905.

- (3) BellSouth SWA FGD switching is provided with multifrequency address signaling or common channel signaling. Up to 12 digits of the called party number dialed by the customer's end user, using dual tone multifrequency, dial pulse address or common channel (out-of-band) signals, will be provided by Telephone Company equipment to the customer's premises where the BellSouth SWA service terminates.
- (4) BellSouth SWA FGD switching, when used in the terminating direction, may be used to access valid NXXs in the LATA, time or weather announcement services of the Telephone Company, community information services of an information service provider, and other customers' services (by dialing the appropriate codes) when such services can be reached using valid NXX codes.

When directly routed to an end office, only those valid NXX codes served by that office may be accessed. When routed through an access tandem, only those valid NXX codes served by end offices subtending the access tandem may be accessed.

The customer will also be billed additional non-access charges for calls to certain community information services, for which rates are applicable under Telephone Company General Subscriber Service Tariffs. Additionally, non-access charges will also be billed for calls from a BellSouth SWA FGD trunk to another customer's service in accordance with that customer's applicable service rates when the Telephone

(4) (Cont'd)

Company performs the billing function for that customer. Calls in the terminating direction will not be completed to 950-XXXX access codes, local operator assistance (0- and 0+), BellSouth Directory Assistance (411), service codes 611 and 911 and 101XXXX access codes. Calls will be completed to BellSouth Directory Assistance (NPA-555-1212 and 555-1212) when BellSouth SWA FGD switching is used for BellSouth Directory Assistance switching as set forth in (12), following. The combination of BellSouth SWA FGD service with BellSouth Directory Assistance service is provided as set forth in Section 9, following. BellSouth SWA FGD may not be switched, in the terminating direction, to BellSouth SWA service BellSouth SWA FGB, BellSouth SWA FGD, or BellSouth SWA TSBSA. (T) (D)

- (5) The Telephone Company will establish a trunk group or groups for the customer at end office switches, access or TOPS tandem switches where BellSouth SWA FGD switching is provided and where technically feasible. When required by technical limitations, a separate trunk group will be established for each type of BellSouth SWA FGD switching arrangement provided. Different types of BellSouth SWA FGD or other switching arrangements may be combined in a single trunk group at the option of the Telephone Company.

- (6) The access code for BellSouth SWA FGD switching is a uniform access code of the form 101XXXX. These uniform access codes will be the assigned number of all BellSouth SWA FGD access provided to the customer by the Telephone Company. As an option, where technically feasible, BellSouth SWA FGD may be accessed by dialing an associated uniform 950-XXXX access code. No access code is required for calls to a customer over BellSouth SWA FGD service if the end user's telephone exchange service is arranged for subscription to that customer as set forth in Section 13, following. ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.4 BellSouth SWA FGD (Cont'd)

(A) Description (Cont'd)

(6) (Cont'd)

Where no access code is required, the number dialed by the customer's end user shall be a seven or ten digit number for calls in the North American Numbering Plan (NANP). For international calls outside the NANP, a seven to twelve digit number may be dialed. The form of numbers dialed by the customer's end user is NXX-XXXX, 0 or 1 + NXX-XXXX, NPA + NXX-XXXX, 0 or 1 + NPA + NXX-XXXX, and, when the end office is equipped for International Direct Distance Dialing (IDDD), 01 + CC + NN or 011 + CC + NN.

Where facilities permit, the customer's operator can be reached by dialing 00.

When the 101XXXX access code is used, BellSouth SWA FGD switching also provides for dialing the digit 0 for access to the customer's operator, 911 for access to the Telephone Company's emergency reporting service, or at the customer's option, end-of-dialing digit (#) for cut-through access to the customer's premises.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.4 BellSouth SWA FGD (Cont'd)

(A) Description (Cont'd)

- (7) BellSouth SWA FGD switching will be arranged to accept calls from telephone exchange service locations without the need for dialing a 101XXXX uniform access code. Each telephone exchange service line may be marked with a subscription code to identify which 101XXXX code its calls will be directed to for interLATA service. Subscription codes are applied as set forth in Section 13 following.
- (8) When a customer has had BellSouth SWA FGB access in an end office and subsequently replaces the BellSouth SWA FGB access with BellSouth SWA FGD access, at the mutual agreement of the customer and the Telephone Company, the Telephone Company will, for 90 days, direct calls dialed by the customer's end users using the customer's previous BellSouth SWA FGB access code to the customer's BellSouth SWA FGD access service. The customer must be prepared to handle normally dialed BellSouth SWA FGD calls as well as calls dialed with the BellSouth SWA FGB access code which require the customer to receive additional address signaling from the end user. Such calls will be rated as BellSouth SWA FGD.
- (9) For BellSouth SWA FGD switched access service to a Mobile Telephone Switching Office (MTSO) or Telecommunications Relay Service Center directly interconnected to a Telephone Company Access Tandem Office, the customer will be billed for the Switched Local Channel and BellSouth SWA Dedicated Transport measured as set forth in 6.7.13(F) following, at premium rates only, including the Access Tandem Switching Charge and the Interconnection charge. Carrier Common Line and Local Switching charges will not apply.
- (10) Originating BellSouth SWA FGD switched access service can be ordered for the completion of sent-paid coin calls. BellSouth SWA FGD with coin sent-paid capability is provided direct to designated Telephone Company end offices or via TOPS tandem switches.

(C) Transmission Specifications (Cont'd)

Type C Transmission Specifications are provided with Interface Group 1. Type A and Type B Transmission Specifications are provided with Interface Groups 2, 3, 6 and/or 9.

Type DA Data Transmission Parameters are provided for the transmission path between the customer's premises and the access or TOPS tandem and between the access or TOPS tandem and the end office or with BellSouth SWA FGD, when equipped with tandem signaling, for the transmission path between the customer's premises and the end office when directly routed to the end offices. Type DB Data Transmission Parameters are provided with BellSouth SWA FGD for the transmission path between the customer's premises and the end office when directly routed to the end office.

(D) Testing Capabilities

BellSouth SWA FGD is provided, in the terminating direction where equipment is available, with seven digit access to balance (100 type) test line, milliwatt (102 type) test line, nonsynchronous or synchronous test line, automatic transmission measuring (105 type) test line, data transmission (107 type) test line, loop around test line, short circuit test line and open circuit test line. In addition to the tests described in 6.1.6 preceding which are included with the installation of service, additional Cooperative Acceptance Testing, Automatic Scheduled Testing, Cooperative Scheduled Testing, Manual Scheduled Testing, and Nonscheduled Testing are available for BellSouth SWA FGD as set forth in 13.3.5 following.

6.2.5 BellSouth SWA Toll Free Dialing Ten Digit Screening Service

Originating BellSouth SWA Toll Free Dialing Ten Digit Screening service is a Trunk Side BellSouth SWA service that is available to the customer via BellSouth SWA Toll Free Dialing Ten Digit Screening Service Trunk Groups. BellSouth SWA Toll Free Dialing Ten Digit Screening Service Trunk Groups, from the Telephone Company's SSP equipped end office or access tandem to the customer, will be provided in conjunction with BellSouth SWA FGD or BellSouth SWA TSBSA 3.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.5 BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service (Cont'd)

BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service provides for routing BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service originating calls supported by the BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service database, hereinafter BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service calls, based on the dialed ten digit BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service number.

When a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call is originated by an end user, the Telephone Company will use the dialed ten digits to determine the customer location to which the call is to be routed. The customer may specify the geographic area (Area of Service) from which 800 calls will be accepted. The Area of Service may be at the United States, state of origin, LATA, NPA or NPA-NXX level, and is included in the query rates specified in 6.8.11, following. In addition, at the customer's option, and without additional charge, calls to a given 800 number may be routed to different interexchange carriers (I.e., Multiple Carrier Termination). If the call originates from an end office switch not equipped to provide the customer identification function, the call will be routed to an office at which the function is available. Once customer identification has been established, the call will be routed to the customer.

The manner in which BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service is provided is dependent on the status of the end office from which the service is provided as outlined following.

- (1) When a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call originates at an end office equipped with Service Switching Point (SSP) customer identification capabilities, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service will be provisioned in accordance with the technical characteristics available with BellSouth SWA FGD or BellSouth SWA TSBSA 3. (C)
- (2) When a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call originates at an end office not equipped with SSP customer identification capabilities, the BellSouth SWA Toll Free Dialing Ten Digit Screening service call will be delivered to the access tandem on which the end office is homed and which is equipped with the SSP feature for customer identification. BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service will be provisioned in accordance with the technical characteristics available with BellSouth SWA FGD or BellSouth SWA TSBSA 3. (D)

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Con't)

6.2.5 BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service (Cont'd)

- (4) When a BellSouth SWA Toll Free Dialing Ten Digit Screening Service call originates at an end office where the normal call recording function is performed at a location other than an access tandem equipped with the SSP feature for customer identification, the BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call will be delivered to a SSP equipped access tandem. Such service will be provided in conjunction with BellSouth SWA FGD or BellSouth SWA TSBSA 3 access from the SSP equipped access tandem to the customer, except when more than one access tandem is employed in the transport of an BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call for which standard transmission characteristics are not guaranteed. (C)

The customer has the option of having the dialed BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service number (i.e., 800+NXX+XXXX) or the ten digit POTS number (i.e., NPA+NXX+XXXX) delivered. If the customer desires to have the POTS number delivered, the customer must order BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service to POTS Number Delivery as set forth in Section 6.8.11. (T)

BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service will be provisioned in conjunction with BellSouth SWA FGD and BellSouth SWA TSBSA 3 access, with two exceptions (i.e., design blocking criteria and ANI information digits).

The design blocking criteria for BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service as set forth in Section 6.5.7(D). (D)
(T)

Additionally, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service usage measurement shall be in accordance with the regulations set forth in Section 6.7.8 for BellSouth SWA FGD, and BellSouth SWA TSBSA 3. (T)

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.5 BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service (Cont'd)

Unless prohibited by technical limitations of the customer's terminating switch (such as different dialing plans or restrictions in the ability to identify various combinations of ANI information, i.e., 3 digit versus 10 digit ANI on certain calls) the customer's BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service traffic may, at the option of the customer, be combined in the same trunk group arrangement with the customer's non-BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service traffic. When required by technical limitations, or at the request of the customer, a separate trunk group will be established for BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service. 0+ and 0- calling arrangements are not available with BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service.

BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service originating from end offices and tandems equipped with the SSP feature for customer identification will be provided using BellSouth SWA FGD or BellSouth SWA TSBSA 3 signaling without overlap outpulsing. BellSouth SWA FGD or BellSouth SWA TSBSA 3 signaling may be provided either with or without 3-digit or 10-digit ANI.

(C)

(D)

(D)

Additionally, ANI information digits which identify the call as a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call are also provided when the customer orders the ANI and POTS delivery optional features. The provision of these information digits is described in Section 6.3.1(A)(4).

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.5 BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service (Cont'd)

For BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service traffic originating from end offices without the customer identification function, BellSouth SWA FGD and TSBSA 3 parameters apply as specified in Sections 6.2.4 and 6.2.8. (T)
(T)

Premises Interface Codes as set forth in Section 6.1.3(A)(5) for BellSouth SWA FGD and TSBSA 3 also apply to BellSouth SWA Toll Free Dialing Ten Digit Screening Service.

6.2.6 BellSouth SWA 900 Service

Originating BellSouth SWA 900 service is a Trunk Side BellSouth SWA Service that is available to the customer via BellSouth SWA 900 service trunk groups. 900 Access Service trunk groups will be provided in conjunction with BellSouth SWA FGD or TSBSA 3 or in accordance with the technical characteristics of BellSouth SWA FGD or TSBSA 3. BellSouth SWA 900 service is available with either 1+ or 1+ and 0+ dialing capability, with 1+ the standard. (D)

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.6 BellSouth SWA 900 Service (Cont'd)

When a 1+ or 0+900+NX+XXXX call is originated by an end user, the Telephone Company will perform the customer identification function to determine the customer location to which the call is to be routed. The customer identification function will be available at suitably equipped end offices or access tandem switches. If a call originates from an end office switch not equipped to provide the customer identification function, the call will be routed to an access tandem, where the customer identification will be performed and the call routed to the customer based on the NXX.

BellSouth SWA 900 service will be provisioned in accordance with the technical characteristics available with BellSouth SWA FGD or BellSouth SWA TSBSA 3, except when more than one access tandem is employed in the transport of a BellSouth SWA 900 service call for which standard transmission characteristics are not guaranteed. (D)

Additionally, BellSouth SWA 900 service usage measurement shall be in accordance with the regulations set forth in Section 6.7.8 for BellSouth SWA FGD or BellSouth SWA TSBSA 3. (T)

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.6 BellSouth SWA 900 Service (Cont'd)

Unless prohibited by technical limitations of the customer's terminating switch (e.g., different dialing plans), the customer's BellSouth SWA 900 service traffic may, at the option of the customer, be combined in the same trunk group arrangement with the customer's non-BellSouth SWA 900 service traffic. When required by technical limitations, or at the request of the customer, a separate trunk group will be established for BellSouth SWA 900 service. BellSouth SWA 900 service calls originated as 0-, 101XXXX, coin sent-paid capability, or originated from Inmate Service, and toll restricted stations will be blocked.

BellSouth SWA 900 service originating from end offices with the customer identification function will be provided using BellSouth SWA FGD or BellSouth SWA TSBSA 3 signaling with overlap outpulsing. BellSouth SWA FGD or BellSouth SWA TSBSA 3 signaling may be provided with or without 10-digit ANI, but not in the same trunk group. BellSouth SWA 900 service originating from end offices without the customer identification function will be provided using traditional signaling. (C) (C)

For BellSouth SWA 900 service traffic originating from an end office with the customer identification function, BellSouth SWA FGD or BellSouth SWA TSBSA 3 parameters as specified in Sections 6.2.4 and 6.2.8.3 apply. (C) (T)

The Telephone Company retains the right to administer its network in such a manner that will minimize the impact of traffic surges in BellSouth SWA 900 service traffic on other access service traffic. Section 6.3.2(A)(12) notwithstanding, the Telephone Company may, when it deems necessary, implement network management controls to ensure acceptable service levels.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.6 BellSouth SWA 900 Service (Cont'd)

In order to ensure deployment of adequate protective network controls, the Telephone Company requires that the customer provide notification to the Telephone Company's Network Management Center at least two business days before any BellSouth SWA 900 service event for which a substantial call volume is expected during a short period of time (e.g., media stimulated event). Notification should include the nature, time, duration and frequency of the event, an estimated call volume, and the 900 line number to be used.

The customer is responsible for using BellSouth SWA 900 service in accordance with this tariff. BellSouth SWA 900 service shall not be used for any communication which is prohibited by law, nor in any manner which is unlawful. It is not intended that BellSouth SWA 900 service be used for any communication which implicitly or explicitly invites, describes, stimulates, arouses, or otherwise refers to sexual conduct, or which contains sexual innuendoes which arouse or attempt to arouse sexual desire. Nor is it intended that BellSouth SWA 900 service be used or administered in conjunction with misleading, exploitative or similarly abusive business practices. The customer shall cooperate with the Telephone Company to resolve complaints which may result from such uses of BellSouth SWA 900 service.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.7 BellSouth SWA (LSBSA)

The BellSouth SWA LSBSA Service Category is virtually identical to that of BellSouth SWA FGA. BellSouth SWA LSBSA differs from BellSouth SWA FGA in three respects: The manner in which existing Local Switching Common Switching Optional Features are offered, the offering of new Basic Service Elements, and the resulting rate structure.

BellSouth SWA LSBSA is an unbundled service category. Unbundling separates certain existing common switching optional features from the Basic Serving Arrangement. The resulting service category (i.e., BellSouth SWA FG less certain existing optional features) is BellSouth SWA LSBSA. These separated (unbundled) optional features, called Basic Service Elements (BSEs), are individually priced. Additionally, new BSEs are being offered to BellSouth SWA LSBSA customers. These individually priced BSEs are listed in Sections 6.2.7(B)(2) and 6.2.7(B)(4) and can only be purchased in addition to service category BellSouth SWA LSBSA (Except that in Section 6.2.7(B)(4) which can be purchased by BellSouth SWA TSBSA customers).

(A) Description

- (1) BellSouth SWA LSBSA is provided in connection with Telephone Company electronic and electromechanical end offices. At the option of the customer, BellSouth SWA LSBSA is provided on a single or multiple line group basis and is arranged for originating calling only, terminating calling only, or two-way calling.
- (2) BellSouth SWA LSBSA provides a line side termination at the first point of switching. The line side termination will be provided with either ground start supervisory signaling or loop start supervisory signaling. The type of signaling is at the option of the customer.
- (3) The Telephone Company shall select the first point of switching, within the selected LATA, at which the line side termination is to be provided unless the customer requests a different first point of switching and Telephone Company facilities and measurement capabilities are available to accommodate such a request.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.7 BellSouth SWA (LSBSA) (Cont'd)

(A) Description (Cont'd)

- (4) A seven digit local telephone number assigned by the Telephone Company is provided for access to BellSouth SWA LSBSA switching in the originating direction. The seven digit local telephone number will be associated with the selected end office switch and is of the form NXX-XXXX.

If the customer requests a specific seven digit telephone that is not currently assigned, and the Telephone Company can, with reasonable effort, comply with that request, the requested number will be assigned to the customer.

- (5) BellSouth SWA LSBSA switching, when used in the terminating direction, is arranged with dial tone start-dial signaling. When used in the terminating direction, BellSouth SWA LSBSA switching may be arranged at the option of the customer for dial pulse or dual tone multifrequency address signaling, subject to availability of equipment at the first point of switching. When BellSouth SWA LSBSA switching is provided in a hunt group or uniform call distribution arrangement, all BellSouth SWA LSBSA switching will be arranged for the same type of address signaling.
- (6) No address signaling is provided by the Telephone Company when BellSouth SWA LSBSA switching is used in the originating direction. Address signaling in such cases, if required by the customer, must be provided by the customer's end user using inband tone signaling techniques. Such inband tone address signals will not be regenerated by the Telephone company and will be subject to the ordinary transmission capabilities of the switched transport provided.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.7 BellSouth SWA (LSBSA) (Cont'd)

(A) Description (Cont'd)

- (7) BellSouth SWA LSBSA switching, when used in the terminating direction, may be used to access valid NXXs in the LATA of the dial tone office, local operator service (0- and 0+), BellSouth Directory Assistance Access (411 where available and 555-1212), emergency reporting service (911 where available), exchange telephone repair (611 where available), time or weather announcement services of the Telephone Company, community information services of an information service provider, and other customers' services (by dialing the appropriate digits). Charges for BellSouth SWA LSBSA terminating calls requiring operator assistance or calls to 611 or 911 will only apply where sufficient call details are available.

Additional non-access charges will also be billed on a separate account for:

- (a) an operator surcharge, as set forth in the local exchange tariffs, for local operator assistance (0- and 0+) calls,
- (b) calls to certain community information services, for which rates are applicable under the Telephone Company General Subscriber Service Tariffs, and
- (c) calls from an BellSouth SWA LSBSA line to another customer's service in accordance with that customer's applicable service rates when the Telephone Company performs the billing function for that customer.

For BellSouth SWA LSBSA calls to BellSouth Directory Assistance Access (411), Switched Access Service terminating usage rates will not apply. Instead, BellSouth SWA LSBSA calls to this service are subject to the Directory Assistance Access service rates as set forth in 9.1.6(A) and (B) following.

- (8) When a BellSouth SWA LSBSA switching arrangement for an individual customer (a single line or entire hunt group) is discontinued at an end office, an intercept announcement is provided. This arrangement provides, for a limited period of time, an announcement that the service associated with the number dialed has been disconnected.

(C) Transmission Specifications

BellSouth SWA LSBSA is provided with either Type B or Type C Transmission Specifications. The specifications for the associated parameters are guaranteed to the first point of switching. Type C Transmission Specifications are provided with Interface Group 1 and Type B are provided with Interface Groups 2, 3, 6 and/or 9. Type DB Data Transmission Parameters are provided with BellSouth SWA LSBSA to the first point of switching.

(D) Testing Capabilities

BellSouth SWA LSBSA is provided, in the terminating direction where equipment is available, with seven digit access to balance (100 type) test line and milliwatt (102 type) test line. In addition to the tests described in 6.1.6, preceding, which are included with the installation of service, additional Cooperative Acceptance Testing and Nonscheduled Testing are available for BellSouth SWA LSBSA as set forth in 13.3.5, following.

(T)
(T)
(T)

6.2.8 BellSouth SWA TSBSA

The BellSouth SWA TSBSA service category, with BellSouth SWA TSBSA 1 and BellSouth SWA TSBSA 3, is virtually identical to BellSouth SWA FGB and BellSouth SWA FGD, respectively. BellSouth SWA TSBSA differs from the trunk side feature groups in two respects: the manner in which existing Local Switching Common Switching Optional Features are offered, and the resulting rate structure.

(D)

BellSouth SWA TSBSA is an unbundled service category. Unbundling separates certain existing common switching optional features from the feature group service categories. The resulting serving category (i.e., BellSouth SWA FG less optional features, called BSEs, are individually priced and can only be purchased in addition to service category BellSouth SWA TSBSA. One existing optional feature, Automatic Number Identification (ANI)/Charge Number, has become an unbundled BSE. One new BSE, DID or DID/DOD with BSAs for use with WATS Access Lines, (a.k.a. BellSouth SPA WATS Line) is also offered.

6.2.8.1 BellSouth SWA TSBSA 1

(A) Description

- (1) BellSouth SWA TSBSA 1, when directly routed to an end office is provided at appropriately equipped Telephone Company electronic end office switches. When provided via Telephone Company designated electronic access tandem switches, BellSouth SWA TSBSA 1 switching is provided at Telephone Company electronic and electromechanical end office switches.
- (2) BellSouth SWA TSBSA 1 is provided as trunk side switching through the use of end office or access tandem switch trunk equipment. The switch trunk equipment is provided with wink start start-pulsing signals and answer and disconnect supervisory signaling.
- (3) BellSouth SWA TSBSA 1 switching is provided with multifrequency address signaling in both the originating and terminating directions. Except for switching provided with optional automatic number identification (ANI) or rotary dial station signaling arrangements as set forth in 6.3.1(A) following, any other address signaling in the originating direction, if required by the customer, must be provided by the customer's end user using inband tone signaling techniques. Such inband tone address signals will not be regenerated by the Telephone Company and will be subject to the ordinary transmission capabilities of the switched transport provided.
- (4) The access code for BellSouth SWA TSBSA 1 switching is a uniform access code. The form of the uniform access code is 950-XXXX. These uniform access codes will be the assigned access numbers of all BellSouth SWA TSBSA 1 switched access service provided to the customer by the Telephone Company.

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.1 BellSouth SWA TSBSA 1 (Cont'd)

(A) Description (Cont'd)

- (6) The Telephone Company will establish a trunk group or groups for the customer at end office switches or access tandem switches where BellSouth SWA TSBSA 1 switching is provided. When required by technical limitations, a separate trunk group will be established for each type of BellSouth SWA TSBSA 1 switching arrangement provided. Different types of BellSouth SWA TSBSA 1 or other switching arrangements may be combined in a single trunk group at the option of the Telephone Company.
- (7) When all BellSouth SWA TSBSA 1 switching arrangements are discontinued at an end office and/or in a LATA, an intercept announcement is provided. This arrangement provides, for a limited period of time, an announcement that the service associated with the number dialed has been disconnected.
- (8) For BellSouth SWA TSBSA 1 service to a Mobile Telephone Switching Office (MTSO) directly interconnected to a Telephone Company Access Tandem Office, the customer will be billed for the Switched Local Channel and BellSouth SWA Dedicated Transport measured as set forth in 6.7.13(F) following, at premium rates only, including the Access Tandem Switching charge and the Interconnection charge. Carrier Common Line and Local Switching charges will not apply.
- (9) BellSouth SWA TSBSA 1 is provided with BellSouth Directory Assistance Access service via Telephone Company designated electronic access tandem switches appropriately equipped for BellSouth Directory Assistance measurement. Completion of these calls is as set forth in (5) preceding. When BellSouth Directory Assistance Access service is provided with BellSouth SWA TSBSA 1 switching, calls routed to the access tandem will be completed to the BellSouth Directory Assistance location. Calls completed to the BellSouth Directory Assistance location are subject to the charges set forth in 9.1.6 following.

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.3 BellSouth SWA TSBSA 3

(A) Description

- (1) BellSouth SWA TSBSA 3 is provided at Telephone Company designated electronic end office switches whether routed directly or via Telephone Company designated electronic access tandem switches. For originating BellSouth SWA TSBSA 3 for coin sent-paid capability, the coin capable option is provided direct to Telephone Company-designated end offices or TOPS tandems. In addition, calls originated by an end user to information services, transportation information or Telecommunications Relay Service Centers (TRS) via 211, 511 or 711 dialing codes shall be routed by the Telephone Company to the designated DMS access tandem within the LATA.

For BellSouth SWA TSBSA 3 with BellSouth SWA CCSAC, the BellSouth SWA CCSAC option is provided through Telephone Company-designated STPs.

- (2) BellSouth SWA TSBSA 3 is provided as trunk side switching through the use of end office or access tandem switch trunk equipment. The switch trunk equipment may be provided with wink start start-pulsing signals and answer and disconnect supervisory signaling, or, without signaling when the BellSouth SWA CCSAC optional feature is specified.

When the customer has specified the BellSouth SWA CCSAC optional feature, Calling Party Number (CPN) will be automatically delivered to the customer on calls originated over the BellSouth SWA FGD or BellSouth SWA TSBSA 3 service. CPN is the calling party's ten digit telephone number. The ten digit telephone number consists of the NPA plus the seven digit telephone number, which may or may not be specific protocol for CPN is contained in the BellSouth Guidelines to Technical Publication TR-TSV-000905.

- (3) BellSouth SWA TSBSA 3 switching is provided with multifrequency address signaling or common channel signaling. Up to 12 digits of the called party number dialed by the customer's end user, using dual tone multifrequency, dial pulse address, or common channel (out-of-band) signals, will be provided by Telephone Company equipment to the customer's premises where the BellSouth SWA service terminates.
- (4) BellSouth SWA TSBSA 3 switching, when used in the terminating direction, may be used to access valid NXXs in the LATA, time or weather announcement services of the Telephone Company, community information services of an information service provider, and other customers' services (by dialing the appropriate codes) when such services can be reached using valid NXX codes.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.3 BellSouth SWA TSBSA 3 (Cont'd)

(A) Description (Cont'd)

(4) (Cont'd)

When directly routed to an end office, only those valid NXX codes served by that office may be accessed. When routed through an access tandem, only those valid NXX codes served by end offices subtending the access tandem may be accessed.

The customer will also be billed additional non-access charges for calls from a BellSouth SWA TSBSA 3 trunk to another customer's service in accordance with that customer's applicable service rates when the Telephone Company performs the billing function for that customer. Calls in the terminating direction will not be completed to 950-XXXX access codes, local operator assistance (0- and 0+), BellSouth Directory Assistance (411), service codes 611 and 911 and 101XXXX access codes. Calls will be completed to BellSouth Directory Assistance (NPA-555-1212 and 555-1212) when BellSouth SWA TSBSA 3 switching is used for BellSouth Directory Assistance switching as set forth in (12) following. The combination of BellSouth SWA TSBSA 3 service with BellSouth Directory Assistance Access service is provided as set forth in Section 9, following. BellSouth SWA TSBSA 3 (T) may not be switched, in the terminating direction, to BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA TSBSA 1, or BellSouth SWA TSBSA 3. (D)

- (5) The Telephone Company will establish a trunk group or groups for the customer at end office switches, access or TOPS tandem switches where BellSouth SWA TSBSA 3 switching is provided and where technically feasible. When required by technical limitations, a separate trunk group will be established for each type of BellSouth SWA TSBSA 3 switching arrangement provided. Different types of BellSouth SWA TSBSA 3 or other switching arrangements may be combined in a single trunk group at the option of the Telephone Company.

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.3 BellSouth SWA TSBSA 3 (Cont'd)

(A) Description (Cont'd)

- (6) The access code for BellSouth SWA TSBSA 3 switching is a uniform access code of the form 101XXXX. These uniform access codes will be the assigned number of all BellSouth SWA TSBSA 3 access provided to the customer by the Telephone Company. As an option, where technically feasible BellSouth SWA TSBSA 3 may be accessed by dialing an associated uniform 950-XXXX access code. No access code is required for calls to a customer over BellSouth SWA TSBSA 3 service if the end user's telephone exchange service is arranged for subscription to that customer as set forth in Section 13 following.

Where no access code is required, the number dialed by the customer's end user shall be a seven or ten digit number for calls in the North American Numbering Plan (NANP). For international calls outside the NANP, a seven to twelve digit number may be dialed. The form of the numbers dialed by the customer's end user is NXX-XXXX, 0 or 1 + NXX-XXXX, NPA + NXX-XXXX, 0 or 1 + NPA + NXX-XXXX, and, when the end office is equipped for International Direct Distance Dialing (IDDD), 01 + CC + NN or 011 + CC + NN.

Where facilities permit, the customer's operator can be reached by dialing 00.

When the 101XXXX access code is used, BellSouth SWA TSBSA 3 switching also provides for dialing the digit 0 for access to the customer's operator, 911 for access to the Telephone Company's emergency reporting service, or at the customer's option, end-of-dialing digit (#) for cut-through access to the customer's premises.

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.3 BellSouth SWA TSBSA Technical Option 3 (Cont'd)

(A) Description (Cont'd)

- (7) BellSouth SWA TSBSA 3 switching will be arranged to accept calls from telephone exchange service locations without the need for dialing a 101XXXX uniform access code. Each telephone exchange service line may be marked with a subscription code to identify which 101XXX code its calls will be directed to for interLATA service. Subscription codes are applied as set forth in Section 13 following.
- (8) When a customer has had BellSouth SWA FGB or BellSouth SWA TSBSA 1 access in an end office and subsequently replaces the BellSouth SWA FGB or BellSouth SWA TSBSA 1 access with BellSouth SWA TSBSA 3 access, at the mutual agreement of the customer and the Telephone Company, the Telephone Company will, for 90 days, direct calls dialed by the customer's end users using the customer's previous BellSouth SWA FGB or BellSouth SWA TSBSA 1 access code to the customer's BellSouth SWA TSBSA 3 access service. The customer must be prepared to handle normally dialed BellSouth SWA TSBSA 3 calls as well as calls dialed with BellSouth SWA FGB or BellSouth SWA TSBSA 1 access code which require the customer to receive additional address signaling from the end user. Such calls will be rated as BellSouth SWA TSBSA 3.

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.3 BellSouth SWA TSBSA 3 (Cont'd)

(A) Description (Cont'd)

- (9) For BellSouth SWA TSBSA 3 switched access service to an MTSO directly interconnected to a Telephone Company Access Tandem Office, the customer will be billed for the Switched Local Channel and BellSouth SWA Dedicated Transport measured as set forth in 6.7.13(F) following, at premium rates only, including the Access Tandem Switching charge and the Interconnection charge. Carrier Common Line and Local Switching charges will not apply.
- (10) Originating BellSouth SWA TSBSA 3 switched access service can be ordered for the completion of sent-paid coin calls. BellSouth SWA TSBSA 3 with coin sent-paid capability is provided direct to designated Telephone Company end offices or via TOPS tandem switches.
- (11) BellSouth SWA TSBSA 3 is provided with BellSouth Directory Assistance Access service via designated Telephone Company electronic access tandem switches appropriately equipped for BellSouth SWA Directory Assistance measurement. Completion of these calls is as set forth in (4) preceding. When BellSouth Directory Assistance Access service is provided with BellSouth SWA TSBSA 3 switching, calls routed to the access tandem will be completed to the BellSouth Directory Assistance location. Calls completed to the BellSouth Directory Assistance location are subject to the charges set forth in 9.1.6 following.

(B) Optional Features

(1) Common Switching Optional Features

- (a) Service Class Routing
- (b) Alternate Traffic Routing
- (c) Call Gapping Arrangement
- (d) Trunk Access Limitation
- (e) International Carrier Option
- (f) Cut-Through0
- (g) AccuPulse service Access Capability⁽¹⁾
- (h) Calling Party Number (CPN)
- (i) Carrier Selection Parameter (CSP)
- (j) Access Transport Parameter (ATP)
- (k) 950-XXXX Dialing Over TSBSA Technical Option 3
- (l) Carrier Identification Parameter (CIP)

(N)

(2) Common Switching Basic Service Elements

- (a) Automatic Number Identification (ANI)/Charge Number (CN)

⁽¹⁾ Effective May 19, 2016, AccuPulse Service Access Capability is limited to existing Customers for existing service arrangements. Existing Customers may not purchase additional AccuPulse Service Access Capability service arrangements or renew existing service agreements. No move, add or change orders will be accepted.

6.2.8 BellSouth SWA TSBSA (Cont'd)

6.2.8.3 BellSouth SWA TSBSA 3 (Cont'd)

(C) Transmission Specifications (Cont'd)

Type C Transmission Specifications are provided with Interface Group 1. Type A and Type B Transmission Specifications are provided with Interface Groups 2, 3, 6 and/or 9.

Type DA Data Transmission Parameters are provided for the transmission path between the customer's premises and the access or TOPS tandem and between the access or TOPS tandem and the end office. Type DB Data Transmission Parameters are provided with BellSouth SWA TSBSA 3 for the transmission path between the customer's premises and the end office when directly routed to the end office.

(D) Testing Capabilities

BellSouth SWA TSBSA 3 is provided, in the terminating direction where equipment is available, with seven digit access to balance (100 type) test line, milliwatt (102 type) test line, nonsynchronous or synchronous test line, automatic transmission measuring (105 type) test line, data transmission (107 type) test line, loop around test line, short circuit test line, and open circuit test line. In addition to the tests described in 6.1.6, preceding, which are included with the installation of service, additional Cooperative Acceptance Testing, Automatic Scheduled Testing, Cooperative Scheduled Testing, Manual Scheduled Testing, and Nonscheduled Testing are available for BellSouth SWA TSBSA 3 as set forth in 13.3.5, following. (T)

6.2.9 BellSouth SWA 500 Service

BellSouth SWA 500 service is an originating BellSouth SWA TSBSA. BellSouth SWA 500 service will be provided in conjunction with BellSouth SWA FGD or BellSouth SWA TSBSA 3 access, or in accordance with the technical characteristics of BellSouth SWA FGD or BellSouth SWA TSBSA 3 access. (D)
(T)
(D)

BellSouth SWA 500 service is available with either 1+ only, 0+ only, or 1+ and 0+ dialing capability, with 1+ and 0+ the standard. If 1+ only or 0+ only dialing capability is requested, service rearrangement charges as specified in 6.8.8, following, are applicable for 500 traffic originating on existing trunk groups. (T)

ISSUED: DECEMBER 11, 2014

EFFECTIVE: DECEMBER 26, 2014

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.9 BellSouth SWA 500 Service (Cont'd)

When a 1+ or 0+500+NX+XXXX call is originated by an end user, the Telephone Company will perform the customer identification function, based on the first six digits of the dialed 500 Number to determine the customer location to which the call is to be routed. After the customer identification function is performed, the call will be routed to the customer over originating BellSouth SWA FGD or BellSouth SWA TSBSA 3, or in accordance with the technical characteristics of BellSouth SWA FGD or BellSouth SWA TSBSA 3.

The manner in which BellSouth SWA 500 service is provided is dependent on the status of the end office from which the service is provided as outlined following:

- (1) When a 500 call originates from an end office equipped with Service Switching Point (SSP) customer identification capabilities, BellSouth SWA 500 service will be provisioned in accordance with the technical characteristics available with BellSouth SWA FGD or BellSouth SWA TSBSA 3 via a database look-up at the SCP. (C)
- (2) When a 500 call originates from an end office without SSP customer identification capabilities, the end office will perform the customer identification function via NXX translations. The 500 traffic is then delivered to the customer via BellSouth SWA FGD or BellSouth SWA TSBSA 3. (C)
- (3) When a 500 call originates from an end office in which that end office's normal call recording function is performed at the tandem on which the end office is homed, and that tandem is also equipped with the capability to perform a NXX translation, the 500 call will be delivered to the tandem for call routing and customer identification. The 500 call will be delivered via BellSouth SWA FGD or BellSouth SWA TSBSA 3, or in accordance with the technical characteristics of BellSouth SWA FGD or BellSouth SWA TSBSA 3. (C)
- (4) When a 500 call originates from an end office in which that end office's normal call recording function is performed at a location other than a tandem equipped with the capability to perform a NXX translation, the 500 call will be delivered to a tandem capable of performing a NXX (C)

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.9 BellSouth SWA 500 Service (Cont'd)

(4) (Cont'd)

identification. Such service will be provided in conjunction with BellSouth SWA FGD or BellSouth SWA TSBSA 3 access from the access tandem capable of performing a NXX translation to the customer, except when more than one tandem is employed in the transport of a BellSouth SWA 500 service call for which standard transmission characteristics are not guaranteed. BellSouth SWA 500 service will be provisioned in conjunction with BellSouth SWA FGD and BellSouth SWA TSBSA 3 access, with two exceptions (i.e., design blocking criteria and ANI information digits).

The design blocking criteria for BellSouth SWA 500 service is set forth in Section 6.5.7(D).

(D)
(T)

Unless prohibited by technical limitations of the customer's terminating switch (such as different dialing plans or restrictions in the ability to identify various combinations of ANI information, i.e., 3 digit versus 10 digit ANI on certain calls) the customer's BellSouth SWA 500 service traffic may, at the option of the customer be combined in the same trunk group arrangement with the customer's non-BellSouth SWA 500 service traffic. When required by technical limitations, or at the request of the customer, a separate trunk group will be established for BellSouth SWA 500 service. 0- calling arrangements are not available with BellSouth SWA 500 service.

Additionally, BellSouth SWA 500 service usage measurement shall be in accordance with the regulations set forth in Section 6.7.8 for BellSouth SWA FGD or BellSouth SWA TSBSA 3.

(T)
(D)

Premises Interface Codes as set forth in Section 6.1.3(A)(1) for BellSouth SWA FGD and BellSouth SWA TSBSA 3 also apply to BellSouth SWA 500 service.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.10 BellSouth Dedicated Ring

(A) Self-healing Multi-nodal Alternate Route Topology Ring

BellSouth Dedicated Ring is a dedicated, high capacity, network designed to provide increased reliability and functionality via a self-healing Ring topology between multiple customer designated locations and Telephone Company Central Offices where facilities can be made available as determined by the Company. This network consists of fiber routed through local, alternate central office, internodal and/or interoffice channel facilities that transmit DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 channel services simultaneously over primary and alternate paths between customer designated locations and Telephone Company Central Offices. This Ring topology will continually monitor DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 service quality, detect any failure within the system, and automatically self-heal around a point of failure to ensure the flow of DS1, DS3, STS-1, OC-3, OC-12, OC-48 Services between locations within the network.

BellSouth Dedicated Ring is available at OC-1, OC-3, OC-3+ OC-12, OC-48, OC-48+, OC-192 and OC-192+ capacities.

OC-1 BellSouth Dedicated Ring is available only in Overlay Ring Arrangements riding the customer's host OC-12, OC-48, or OC-48+ BellSouth Dedicated Ring. The OC-1 BellSouth Dedicated Ring shares the transport of its host BellSouth Dedicated Ring. OC-1 BellSouth Dedicated Ring provides an equivalent capacity of 28 DS1s or one STS-1. When an OC-1 BellSouth Dedicated Ring overlays an OC-12, OC-48, or OC-48+ BellSouth Dedicated Ring, an OC-1 channel interface is required.

OC-3 BellSouth Dedicated Ring is available as an individual service or in an Overlay Ring Arrangement riding the customer's host OC-12, OC-48, OC-48+, OC-192 or OC-192+ BellSouth Dedicated Ring. OC-3 BellSouth Dedicated Ring provides an equivalent capacity of 3 DS3s, or any combination thereof not to exceed an OC-3 capacity.

Channel Interface Capacity Reallocation allows the customer to reallocate STS-1, DS3 and/or DS1 capacities to OC-3 nodes subsequent to the initial configuration of an OC-3 Ring.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.10 BellSouth Dedicated Ring (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

OC-3+ BellSouth Dedicated Ring is available as an individual service, or in combination with OC-12 BellSouth Dedicated Ring, or in an Overlay Ring Arrangement riding the customer's host OC-48, OC-48+, OC-192 or OC-192+ BellSouth Dedicated Ring. OC-3+ BellSouth Dedicated Ring provides an equivalent OC-3 capacity, not to exceed 3 DS3s at each node, with a maximum Ring capacity of 12 DS3s, not to exceed an OC-12 Ring capacity.

When a customer orders OC-3+ BellSouth Dedicated Ring in combination with OC-12 BellSouth Dedicated Ring, capacity and channel interface availability at each Customer Node and Central Office Node location is determined by the size node ordered by the customer.

OC-12 BellSouth Dedicated Ring is available as an individual service, or in combination with OC-3+ BellSouth Dedicated Ring, or in an Overlay Ring Arrangement riding the customer's host OC-48, OC-192 or OC-192+ BellSouth Dedicated Ring. OC-12 BellSouth Dedicated Ring provides an equivalent capacity of 12 DS3s.

OC-48 BellSouth Dedicated Ring is available as an individual service, or in an Overlay Ring Arrangement riding the customer's host OC-192 or OC-192+ BellSouth Dedicated Ring or with overlaying rings in capacities of OC-1, OC-3, OC-3+, and/or OC-12, or in an Overlaying Ring riding the customer's host OC-192+ BellSouth Dedicated Ring. OC-48 BellSouth Dedicated Ring provides an equivalent capacity of 48 DS3s.

OC-48+ BellSouth Dedicated Ring is available as an individual bi-directional service, or in an Overlay Ring Arrangement riding the customer's host OC-192+ BellSouth Dedicated Ring, or with overlaying rings in capacities of OC-1, and/or OC-3. It provides equivalent capacity of 24 DS3s between consecutive node locations on the Ring. The maximum capacity of the OC-48+ BellSouth Dedicated Ring is determined by the number of Customer and Central Office nodes on the Ring. For OC-48+ BellSouth Dedicated Ring, the Flex DS1 capability may involve locked STS-1s between two nodes due to the bi-directional attributes of the ring. As such, the quantity of Flex DS1s on an OC-48+ BellSouth Dedicated Ring and their associated attributes are based on equipment capabilities and the customer's service configuration.

OC-192 BellSouth Dedicated Ring is available as an individual service, or with overlaying rings in capacities of OC-1, OC-3, OC-3+, OC-12 and/or OC-48 BellSouth Dedicated Ring. OC-192 BellSouth Dedicated Ring provides an equivalent capacity of 192 DS3s.

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.10 BellSouth Dedicated Ring (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

OC-192+ BellSouth Dedicated Ring is available as an individual bi-directional service, or with overlaying rings in capacities of OC-3, OC-3+, OC-12, OC-48 and/or OC-48+. It provides equivalent capacity of 96 DS3s between consecutive node locations on the Ring. The maximum capacity of the OC-192+ BellSouth Dedicated Ring is determined by the number of Customer and Central Office nodes on the Ring. For OC-192+ BellSouth Dedicated Ring, the Flex DS1 capability may involve locked STS-1s between two nodes due to the bi-directional attributes of the ring. As such, the quantity of Flex DS1s on an OC-192+ BellSouth Dedicated Ring and their associated attributes are based on equipment capabilities and the customer's service configuration.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.10 BellSouth Dedicated Ring (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

BellSouth Dedicated Ring Channel Interfaces are available as follows:

Channel Interfaces	Nodes							
	OC-1	OC-3	OC-3+	OC-12	OC-48	OC-48+	OC-192	OC-192+
DS1	Yes	Yes	Yes	No ¹	No ¹	No ¹	No ¹	No ¹
DS3	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes ³
STS-1	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes ³
OC-1 ²	No	No	No	Yes	Yes	Yes	No	No
OC-3	No	No	No	Yes	Yes	Yes	Yes	Yes
OC-12	No	No	No	No	Yes	Yes	Yes	Yes
28 DS1 Channel Sys (DS3)	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes ³
28 DS1 Channel Sys (STS-1)	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes ³
OC-48	No	No	No	No	No	No	Yes	Yes
DS3 (Asymmetrical with DS1)	No	Yes	Yes	Yes	Yes	No	Yes	No
DS1 within an STS-1 Asymmetrical Arrangement	No	Yes	Yes	No	No	No	No	No
Flex DS1	No	No	No	Yes	Yes	Yes ⁴	Yes	Yes ⁴

BellSouth SPA Dedicated Ring interfaces may be ordered as asymmetrical (i.e., a circuit enters one node at a lower level interface and exits at another node at a higher level interface).

The DS3 (Asymmetrical with DS1) interface allows a customer to aggregate DS1s originating from multiple nodes on a ring into a single DS3 interface at a designated node. A DS3 (Asymmetrical with DS1) has the capacity to aggregate 28 DS1s.

The DS3 (Asymmetrical with DS1) may interface at an OC-12, OC-48 or OC-192 node with a Flex DS1 interface.

The DS1 within an STS-1 Asymmetrical Arrangement interface rate element applies in lieu of the STS-1 interface for the higher level termination of an asymmetrical arrangement when the lower level interface is a DS1.

Note 1: DS1 interfaces are available via OC-1, OC-3, and OC-3+ Overlay Ring Arrangements or 28 DS1 Channel Systems.

Note 2: OC-1 interfaces are only available for use with OC-1 Overlay Ring Arrangements.

Note 3: DS3, STS-1, 28 DS1 Channel System (DS3) and 28 DS1 Channel System (STS-1) interfaces are only available on rings installed on or after February 26, 2003.

Note 4: Flex DS1 capabilities are as described previously in this Section for OC-48+ BellSouth Dedicated Ring and OC-192+ BellSouth Dedicated Ring.

6.2.10 BellSouth Dedicated Ring (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

The Flex DS1 interface provides customers shared STS-1 capabilities at the ring level such that customers may route DS1s within an STS-1 between various nodes on the ring. The maximum quantity of Flex DS1 interfaces available at a node is 108. For DS1 interface requirements greater than the 108 Flex DS1 capability, standard DS1 interfaces are available via OC-1, OC-3 and OC-3+ Overlay Ring Arrangements or 28 DS1 Channel Systems.

BellSouth Dedicated Ring Overlay Ring Arrangements are available as follows:

<u>OVERLAYING BellSouth Dedicated Ring</u>	<u>Host BellSouth Dedicated Ring</u>			
	<u>OC-12</u>	<u>OC-48</u>	<u>OC-48+</u>	<u>OC-192+</u>
OC-1	X	X	X	
OC-3	X	X	X	X
OC-3+	X			X
OC-12	X			X
OC-48				X

BellSouth Dedicated Ring is connectable at Telephone Company Central Offices to any 44.736 Mbps and/or 1.544 Mbps services as provided in Section 6 of this tariff. Rates and charges for such other services are as set forth in the applicable sections of this tariff for such other services.

Shared Network Arrangements will not be provided with BellSouth Dedicated Ring at the Ring level. Shared Network Arrangements as defined in Section 2.6 apply at the channel interface level only.

(This page filed under Transmittal No. 1)

All BellSouth marks contained herein and as set forth in the trademarks and servicemarks section of this Tariff are owned by BellSouth Intellectual Property Corporation.

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.10 BellSouth Dedicated Ring (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

The customer must provide suitable floor space, controlled environment, and source of non-switched suitable power to support this service.

Where the customer provides two separate entrance facility cable routes for BellSouth Dedicated Ring, the primary and alternate entrance facilities will be separate and will enter the customer node over such different routes. When the customer requests a connection at a Customer Node via two local channels and Telephone Company facilities do not exist for the second Local Channel, the Telephone Company may provide an equivalent second Local Channel via an existing alternate route. When facilities become available for the second Local Channel, the Telephone Company may rearrange the alternate route at any time.

BellSouth Dedicated Ring OC-1, OC-3, OC-3+, OC-12, OC-48, OC-48+, OC-192 or OC-192+ capacity is also available with BellSouth SPA CNM - FlexServ Service Surveillance option under the rates and regulations set forth in 7.4.12 following. Customers wishing to incorporate this capability into their BellSouth Dedicated Ring should advise the Telephone Company at the time the initial service is requested. When the customer requests to add the BellSouth SPA CNM - FlexServ Service Surveillance option subsequent to the initial service installation, a BellSouth Dedicated Ring Rearrangement charge applies as set forth in 6.8.1 (L) following.

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.10 BellSouth Dedicated Ring (Cont'd)

(A) Self-healing Multi-nodal Alternate Route Topology Ring (Cont'd)

The compatibility requirements, technical specifications, and generic requirements for BellSouth Dedicated Ring terminated at the customers designated locations are referenced in Technical Reference ANSI T1.404-1994, ANSI T1.403-1989 and ANSI T1.105-1991.

DS3 interface combinations and technical specifications are referenced in Bellcore TR-INS-000342.

DS1 interface combinations and technical specifications are referenced in Bellcore TR-NPL-000054.

STS-1, OC-1, OC-3, OC-12 and OC-48 interface combinations and technical specifications are referenced in BellSouth Telecommunications, Inc. Technical Reference TR-73582.

These self-healing multi-nodal DS3 high capacity service channels have a long term performance objective of 99.5% error-free seconds and a severely errored second (SES) objective of less than 0.009% SES when the circuit is available. Self-healing multi-nodal DS1 high capacity service channels have a long-term performance objective of 99.95% error-free seconds.

When the distance between nodes on a BellSouth Dedicated Ring is such that optical signal regeneration is required, then regeneration equipment will be provided at no additional charge to the customer to assure proper operation of the service. In some cases regeneration will be provided via SONET Add/Drop equipment called a Regeneration Node. A Regeneration Node does not contain the capability to add or drop services. Accordingly, BellSouth SPA CNM - FlexServ Service may not be ordered with a Regeneration Node, however, a customer may monitor a Regeneration Node via the BellSouth SPA CNM - FlexServ Service Surveillance option when a customer has established surveillance for a ring. Regeneration Node Surveillance is provided as a part of the charges associated with the customer's ring level BellSouth SPA CNM - FlexServ Service Surveillance. Regeneration Node and Regeneration Node Surveillance, as applicable, will appear on a customer's records as non-rated USOC(s), as follows:

Regeneration Node, all ring capacities, non-rated	SHSRN
Regeneration Node Surveillance, all ring capacities, non-rated	SHSRS

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.11 BellSouth Local Number Portability Database Services

(A) General

BellSouth Local Number Portability ("LNP") Database Services are services that use Advanced Intelligent Network ("AIN") technology to query a database to secure network routing instructions before completion of a call. The database contains information about end users who have ported their local service. At a minimum, the database contains the Location Routing Number ("LRN") which identifies the Local Service Provider ("LSP") switch serving each ported end user. Where more than one carrier is involved in completing the call, the carrier just before the terminating carrier (i.e., the N-1 Carrier) is responsible for querying the database to secure the LRN, using SS7 Transaction Capability Application Part ("TCAP").

(B) BellSouth LNP Query Service

N-1 wireline and wireless telecommunications carriers ("Carriers") with a local number portability capable switch may subscribe to the BellSouth LNP Query Service. The Telephone Company will assess Carriers subscribing to the LNP Query Service a charge for each query to the database. To obtain BellSouth LNP Query Service, the customer must order new or use existing CCS7 Signaling Connections and Terminations as described in 6.1.3(C) preceding or in other appropriate tariffs.

(C) BellSouth LNP Call Routing Service

N-1 Carriers who do not have an LNP capable switch, or for other reasons have not performed the necessary LNP database query, will be assessed a LNP Call Routing charge for each such completed call delivered to an NPA-NXX on BellSouth's network when one or more numbers has been ported in that NPA-NXX. BellSouth's end office or access tandem switch will suspend call processing and launch a query to the Telephone Company database when the necessary database query has not been performed by the N-1 Carrier. The routing information is then returned to the originating end office or access tandem switch for subsequent call processing.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.11 BellSouth Local Number Portability Database Services (Cont'd)

(D) Service Availability

BellSouth LNP Database services will initially be deployed in Atlanta, Georgia and subsequently in BellSouth's remaining 20 Metropolitan Statistical Areas (MSAs), on a switch specific basis as published in the National Exchange Carrier Association, Inc., Tariff F.C.C. No. 4. If Local Number Portability is subsequently deployed in other areas, BellSouth LNP Database services will be made available in those areas.

(1) Manner of Provisioning

BellSouth LNP Database services will be provisioned using the LRN solution. LRN associates an NPA-NXX-XXXX number with each central office switch that serves ported lines. This number will be known as the LRN for that switch. The LRN will be used as a network routing number for calls to ported numbers served by that switch. The LRN will share an existing NPA-NXX assigned to the specific switch it represents.

(2) Limitations

Information residing in the Telephone Company database is protected from unauthorized access and may not be stored in a customer's database or elsewhere for any reason. For LNP Query Service – Out of Region, BellSouth will have access to all Number Portability Administration Center ("NPAC") data for all regions covering all of the fifty states.

ACCESS SERVICE
6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.13 BellSouth SWA Managed Shared Network Service

BellSouth SWA Managed Shared Network Service is a service under which the customer assigns to the Telephone Company the responsibility for facility design and engineering and routing of the dedicated transport for DS1 and DS0 switched access services from serving wire centers in a BellSouth SWA Managed Shared Network Service area to the customer's Aggregation Location(s) in the same BellSouth SWA Managed Shared Network Service area. Each LATA in the Telephone Company's territory is a BellSouth SWA Managed Shared Network Service area.

At the time a customer orders BellSouth SWA Managed Shared Network Service, the customer must designate one or more Aggregation Locations and may designate one or more Alternate Aggregation Locations in each BellSouth SWA Managed Shared Network Service area. The interface at Aggregation Locations and Alternate Aggregation Locations must be a DS3 level interface. At the time a customer orders/establishes a commitment plan for BellSouth SWA Managed Shared Network Service, the customer's service arrangement at the Aggregation Location must meet BellSouth SWA Managed Shared Network Service criteria (e.g., the interface at an Aggregation Location must be a DS3). If the customer's network does not meet BellSouth SWA Managed Shared Network Service's criteria, the customer will have a 180-day grace period in which to reconfigure his network service arrangement to meet BellSouth SWA Managed Shared Network Service criteria. If at the end of the 180-day grace period, the customer has services that do not meet BellSouth SWA Managed Shared Network Service criteria, those services shall be exempt from the customer's BellSouth SWA Managed Shared Network Service arrangement and will continue at the rates associated with the services that were present at the time of the customer's BellSouth SWA Managed Shared Network Service request. Once the customer has designated a location as an Aggregation Location or an Alternate Aggregation Location, all of the customer's Telephone Company provided DS1 and DS0 switched access traffic delivered to and from that location, except BellSouth Dedicated Ring and any traffic that does not meet BellSouth SWA Managed Shared Network Service criteria as described above, must be included in the BellSouth SWA Managed Shared Network Service arrangement. All such BellSouth SWA Managed Shared Network Service traffic which the customer designates to be delivered to an Aggregation Location or to an associated Alternate Aggregation Location is considered to be "associated" with such Aggregation Location.

BellSouth SWA Managed Shared Network Service traffic is connectable at serving wire centers to DS1 and DS0 switched access services. Each serving wire center in a BellSouth SWA Managed Shared Network Service area from which switched dedicated transport traffic originates or terminates for delivery to or from an Aggregation Location or Alternate Aggregation Location is an Origination Location.

An Aggregation Location is any customer designated premises in a BellSouth SWA Managed Shared Network Service area that aggregates 28 or greater equivalent DS1s which the Telephone Company provides to the customer and which customer designated premises has been designated by the customer as an Aggregation Location for purposes of BellSouth SWA Managed Shared Network Service. In determining the number of DS1 equivalents the customer has at an Aggregation Location, 24 DS0s are considered an equivalent DS1.

ISSUED: FEBRUARY 14, 2019

EFFECTIVE: MARCH 1, 2019

ACCESS SERVICE
6 - BellSouth SWA Service (Cont'd)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.13 BellSouth SWA Managed Shared Network Service (Cont'd)

A customer may also designate a location in a BellSouth SWA Managed Shared Network Service area which aggregates dedicated transport for DS1 and DS0 switched access traffic as an Alternate Aggregation Location, all of whose Telephone Company-provided switched traffic, may be rearranged to an Aggregation Location in the same BellSouth SWA Managed Shared Network Service area. Traffic from an Alternate Aggregation Location may be rearranged only to a single Aggregation Location. The rearrangements will be made, as requested by the customer, via Access Service Requests. Such Alternate Aggregation Location is considered to be "associated" with the Aggregation Location to which its traffic may be rearranged. Traffic at Alternate Aggregation Locations may be rearranged only to Aggregation Locations where a customer subscribes to BellSouth SWA Managed Shared Network Service under a 60 month⁽¹⁾ rate plan and there are at least two years remaining on the Aggregation Location's current commitment period. (C)

When the customer designates an Aggregation Location, the customer shall make a commitment to maintain a specified number of equivalent DS1s as BellSouth SWA Managed Shared Network Service for such Aggregation Location for a period of one year or five years⁽¹⁾, beginning on the date on which the customer initially orders the service or establishes a new commitment. Such commitment shall be equal to 90% of the equivalent switched access (a.k.a. BellSouth SWA) DS1s provided by the Telephone Company to the customer to be aggregated at such Aggregation Location as BellSouth SWA Managed Shared Network Service or 28 equivalent DS1s, whichever is greater. As of April 30, 2003, when a customer initially orders BellSouth SWA Managed Shared Network Service or establishes a new commitment plan for an Aggregation Location the customer must also subscribe to BellSouth SPA Managed Shared Network Service, as described in Section 7 of this Tariff, for the respective locations, regardless of whether the locations terminate only BellSouth SWA service, or both BellSouth SWA service and special access (a.k.a. BellSouth SPA) service. If the customer already subscribes to BellSouth SPA Managed Shared Network Service, then the customer shall replace their existing commitment plan with a new single commitment plan that will be established for the customer's BellSouth SWA Managed Shared Network Service and BellSouth SPA Managed Shared Network Service arrangements that shall be based on the customer's current DS1 equivalents. (C)

This initial commitment is to include traffic from an Alternate Aggregation Location.

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term. (N)

6.2 Provision and Description of BellSouth SWA Service Arrangements (Cont'd)

6.2.13 BellSouth SWA Managed Shared Network Service (Cont'd)

The Telephone Company and the customer shall work cooperatively in revising their network arrangements in order to accommodate aggregation of the customer's BellSouth SWA Managed Shared Network Service traffic at an Aggregation Location, including the conversion of the customer's BellSouth SWA Managed Shared Network Service traffic from Alternate Aggregation Locations, as applicable.

The customer may request reconfiguration of all BellSouth SWA Managed Shared Network Service traffic from one Aggregation Location to another Aggregation Location. A new DS1 equivalent commitment level for the second Aggregation Location shall be established equal to no less than the sum of the commitment at the first Aggregation Location and the commitment at the second Aggregation Location. The first Aggregation Location shall become an Alternate Aggregation Location associated with the second Aggregation Location, and a two-year conversion period shall apply. Termination liability charges for discontinuance of the first Aggregation Location are as set forth in Section 6.7.22. The cost of reconfiguring traffic from one Aggregation Location to another Aggregation Location shall be determined on an Individual Case Basis.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.3 Local Switching Optional Features

6.3.1 Common Switching (BellSouth SWA FG Customers Only)

- (A) These optional features are available only to BellSouth SWA FG customers (as specified in the description) at no additional charge. However, comparable features, known as BSEs, are offered to customers (See 6.3.3 following).

(1) Hunt Group Arrangement (HGA)

This option provides the ability to sequentially access one of two or more line side connections in the originating direction, when the access code of the line group is dialed. The customer will specify the type of multiline hunt group desired. The types of hunt group arrangements are: Regular Hunt, Preferential Hunt, Circular Hunt with Preferential Hunt, and Circular Hunt with Regular Hunt. BellSouth SWA FGA services with different methods of providing off-hook supervisory signaling (i.e., provided by the customer's equipment vs. forwarded by the customer's equipment when the called party answers) cannot be mixed in the same hunt group arrangement.

The BellSouth SWA FGA dial tone office utilized for a Hunt Group Arrangement must be the same for all BellSouth SWA FGA lines in the arrangement. The customer may specify that the BellSouth SWA FGA lines in the Hunt Group Arrangement be connected to the same customer-designated location for transport to another state or that the lines be connected to multiple customer-designated locations for transport to another state. A split arrangement (two or more customer-designated locations) is available only when the customer-designated locations are served from the same serving wire center. Customer service record information needed to add more than one customer-designated location to the arrangement, or to modify the service arrangement after initial establishment, must be obtained from the HGA BellSouth SWA FGA customer.

This feature, available with BellSouth SWA FGA, is provided from suitably equipped Telephone Company offices.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.3 Local Switching Optional Features (Cont'd)

6.3.1 Common Switching (BellSouth SWA FG Customers Only) (Cont'd)

(A) (Cont'd)

(2) Uniform Call Distribution Arrangement (UCD)

This option provides a type of multiline hunting arrangement which provides for an even distribution of calls among the available lines in a hunt group. BellSouth SWA FGA services with different methods of providing off-hook supervisory signaling (i.e., provided by the customer's equipment vs. forwarded by the customer's equipment when the called party answers) cannot be mixed in the same hunt group arrangement. This feature, available with BellSouth SWA FGA, is provided from suitably equipped Telephone Company offices.

(3) Nonhunting Number for Use with Hunt Group or Uniform Call Distribution Arrangement

This option provides an arrangement for an individual line within a multiline hunt or uniform call distribution group that provides access to that line within the hunt or uniform call distribution group when it is idle or provides busy tone when it is busy, when the nonhunting number is dialed. This feature, available with BellSouth SWA FGA, is provided from suitably equipped Telephone Company offices.

(4) Automatic Number Identification (ANI)/Charge Number

This option provides the automatic transmission of a three, seven or ten digit number and information digits to the customer's premises for calls originating in the LATA, to identify the geographical calling area (NPA) or the calling station. ANI will identify the calling station, where possible, or at a minimum, identify the NPA from which the call originated. The three, seven or ten digit numbers will contain the following information: for three digit numbers, NPA only; for seven digit numbers, NXX+XXXX; for ten digit numbers, NPA+NXX+XXXX. With the exception of three digit ANI, the ANI feature is an end office software function which is associated on a call-by-call basis with (1) all individual transmission paths in a trunk group routed directly between an end office and a customer's premises or, where technically feasible, with (2) all individual transmission paths in a trunk group between an end office and an access tandem, and a trunk group between an access tandem and a customer's premises.

ISSUED: SEPTEMBER 24, 2013

EFFECTIVE: OCTOBER 9, 2013

6.3.1 Common Switching (BellSouth SWA FG Customers Only) (Cont'd)

(A) (Cont'd)

(4) Automatic Number Identification (ANI)/Charge Number (Cont'd)

Three digit ANI is a software function of the SSP feature which is used in conjunction with BellSouth SWA Toll Free Dialing Ten Digit Screening Service and occurs whenever the SSP feature detects an BellSouth SWA Toll Free Dialing Ten Digit Screening Service call that does not include the originating caller's ANI.

Three digit ANI, the originating NPA of the BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call, is available with BellSouth SWA FGD routed traffic only. Three digit ANI will be transmitted to the customer on all BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service calls that are processed by the SSP feature for which a complete ANI is not received from the subtending office that originates the BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call.

(D)

(D)

The seven digit ANI telephone number is available with BellSouth SWA FGB. With BellSouth SWA FGB, technical limitations may exist in Telephone Company switching facilities which require ANI to be provided only on a directly trunked basis. ANI will be transmitted on all calls except those originating from multiparty lines, pay telephone lines using BellSouth SWA FGB, or when an ANI failure has occurred.

(D)

6.3.1 Common Switching (BellSouth SWA FG Customers Only) (Cont'd)

(A) (Cont'd)

(4) Automatic Number Identification (ANI)/Charge Number (Cont'd)

The ten digit ANI telephone number is only available with BellSouth SWA FGD with multifrequency address signaling. When the BellSouth SWA CCSAC optional feature is specified, the customer may obtain an ANI equivalent by ordering the Charge Number Optional Feature, as specified in 6.3.1(A), following. The ten digit ANI telephone number consists of the Numbering Plan Area (NPA) plus the seven digit ANI telephone number. The ten digit ANI telephone number will be transmitted on all calls except those identified as multiparty line or ANI failure, in which case only the NPA will be transmitted (in addition to the information digit described below). (T)

Generally, the three digit and ten digit ANI telephone number is available with BellSouth SWA FGD and with BellSouth SWA 8XX Toll Free Dialing Ten Digit Service that uses BellSouth SWA FGD on a per class of service basis. The ten digit ANI number will be transmitted on calls except those where ANI cannot be provided because the conditions set forth in (1) through (6) following exist or, those from end offices not equipped to provide ANI. In these instances, only the three digit ANI and the information digits described in (1) through (6), following, if applicable, will be transmitted. (T)

Additionally, when the customer has ordered the BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service to POTS Number Delivery feature, information digits (i.e., 24) which identify the call as a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service call will be forwarded to the customer's premises in addition to the ten digit POTS number. These information digits will also replace the information digits which identify the conditions set forth in (1) through (6), following, when a POTS number is delivered to the customer's premises. (T)

6.3 Local Switching Optional Features (Cont'd)

6.3.1 Common Switching (BellSouth SWA FG Customers Only) (Cont'd)

(A) (Cont'd)

(4) Automatic Number Identification (ANI)/Charge Number (Cont'd)

ANI information digits are either 00, 01, 02, 06, 07, 20 or 27. Customers who subscribe to ANI, may also elect to obtain expanded ANI digits, called Flex ANI digits, at no additional charge: 52 for WATS, and 70 for Public Telephone Access Service lines which are subscribed to by Payphone Service Providers (PSPs). The ANI telephone number is the listed telephone number of the customer and is not the telephone number of the calling party.

These ANI information digits are available with BellSouth SWA FGB and (D) BellSouth SWA FGD.

Charge Number (CN) is an ANI equivalent which provides for the automatic transmission of the ten digit billing number of the calling station number and originating line information. The specific protocol for CN is contained in the BellSouth Guidelines to Technical Publication TR-TSV-000905. This feature is available only with BellSouth SWA FGD when BellSouth SWA CCSAC is specified.

The following restrictions apply to an end user receiving previously described Automatic Number Identification (ANI) and Charge Number (CN) information.

- (a) The ANI and CN feature can be used for billing and collection, routing, screening, and completion of the originating telephone subscriber's call or transaction, or for services directly related to the originating telephone subscriber's call or transaction;
- (b) ANI and CN shall not be used or sold without first (1) notifying the originating telephone subscriber and (2) obtaining the affirmation consent of such subscriber for such reuse or sale; and

(A) (Cont'd)

(4) Automatic Number Identification (ANI)/Charge Number (Cont'd)

(c) ANI and CN and any information derived from ANI and CN shall not be disclosed, except as permitted by (a) and (b) above, for any purpose other than (1) performing the services or transactions that are the subject of the originating telephone subscriber's call, (2) ensuring network performance security, and the effectiveness of call delivery, (3) compiling, using, and disclosing aggregate information, and (4) complying with applicable law or legal process.

6.3.2 Common Switching (BellSouth SWA FG and BellSouth SWA Basic Serving Arrangement Customers)

(A) These optional features are available to BellSouth SWA FG and BellSouth SWA Basic Serving Arrangement customers (as specified in the descriptions) at no additional charge.

(1) Call Denial

This option allows for the screening of terminating calls within the LATA and for the completion only of calls to 411, 611, 911, 800, 555-1212, and a Telephone Company specified set of NXXs within the Telephone Company local exchange calling area of the dial tone office in which the arrangement is provided. All other "toll" calls are routed to a reorder tone or recorded announcement. This feature, available with BellSouth SWA FGA and BellSouth SWA LSB SA, is provided from suitably equipped Telephone Company offices.

(2) Service Code Denial

This option allows for the screening of terminating calls within the LATA and for disallowing completion of calls to 0-, 555 and N11 (e.g., 411, 611, and 911). This feature, available with BellSouth SWA FGA and BellSouth SWA LSB SA, is provided from suitably equipped Telephone Company offices.

6.3 Local Switching Optional Features (Cont'd)

6.3.2 Common Switching (BellSouth SWA FG and BellSouth SWA Basic Serving Arrangement Customers) (Cont'd)

(A) (Cont'd)

(3) Enhanced Call Denial

This option allows for the screening of terminating BellSouth SWA FGA calls for the completion of calls within the LATA of the dial tone office in which the arrangement is provided. Calls will be completed to 411, 611, 911, 800, 555-1212, and NXXs within the LATA of the dial tone office in which the arrangement is provided. Calls will not be completed to 950-XXXX or 101XXXX interLATA operator assistance (0+, 00-), operator assistance (0-), 1 + interLATA, 0/1 + 700 and 900. This feature, available with BellSouth SWA FGA and BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(4) Up to 7 Digit Outpulsing of Access Digits to Customer

This option provides for the end office capability of providing up to 7 digits of the uniform access code 950-XXXX to the customer's premises. The customer can request that only some of the digits in the access code be forwarded. The access code digits would be provided to the customer's premises using multifrequency signaling, and transmission of the digits would precede the forwarding of ANI if that feature were provided. It is available with BellSouth SWA FGB and BellSouth SWA TSBSA 1.

(5) Alternate Traffic Routing

(a) Multiple Customer Premises Alternate Routing

This option provides the capability of directing originating traffic from an end office or access tandem to a trunk group (the "high usage" group) to a customer designated premises until that group is fully loaded, and then delivering additional originating traffic (the "overflowing" traffic) from the same end office or access tandem to a different trunk group (the "final" group) to a second customer designated premises. The customer shall specify the last trunk CCS desired for the high usage group. It is provided in suitably equipped end offices or access tandem switches and is available with BellSouth SWA FGB and BellSouth SWA FGD and BellSouth SWA TSBSA. Due to technical limitations, this option is not available with the routing of sent-paid coin traffic from line controlled pay stations.

(A) (Cont'd)

(5) Alternate Traffic Routing (Cont'd)

(b) End Office Alternate Routing When Ordered in Trunks

This option provides an alternate routing arrangement for customers who order in trunks and have access for a particular BellSouth SWA FG or BSA to an end office via two routes: one route via an access tandem and one direct route. The feature allows the customers' originating traffic from the end office to be offered first to the direct trunk group and then overflow to either an access tandem group or where facilities permit, to another direct trunk group equipped with tandem signaling. It is provided in suitably equipped end offices and is available with BellSouth SWA FGB and BellSouth SWA FGD and BellSouth SWA TSBSA. This option is available for use in providing BellSouth SWA 500, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and BellSouth SWA 900 only when the end office is equipped to perform the BellSouth SWA 500, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service or BellSouth SWA 900 customer identification function. Due to technical limitations, this option is not available with the routing of sent-paid coin traffic from line controlled pay stations.

(D)

(6) Service Class Routing

This option provides the capability of directing originating traffic from an end office to a trunk group to a customer designated premises, based on the line class of service (e.g., pay telephone, multiparty or hotel/motel), service prefix indicator (e.g., 0-, 0+, 01+ or 011+) or service access code (e.g., BellSouth SWA 500, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service or BellSouth SWA 900). It is provided in suitably equipped end office, access or TOPS tandem switches and is available with BellSouth SWA FGD and BellSouth SWA TSBSA 3.

(D)

(11) Trunk Access Limitation

This option provides for the routing of originating BellSouth SWA 900 calls to a specified number of transmission paths in a trunk group, in order to limit (choke) the completion of such traffic to the customer. Calls to the designated service which could not be completed over the subset of transmission paths in the trunk group, i.e., the choked calls, would be routed to reorder tone. It is provided in all Telephone Company electronic end offices and where available in electromechanical end offices. It is available with BellSouth SWA FGD and BellSouth SWA TSBSA 3.

(D)

(12) Call Gapping Arrangement

This option, provided in suitably equipped end office switches, provides for the routing of originating calls to BellSouth SWA 900 to be switched in the end office to all transmission paths in a trunk group at a prescribed rate of flow, e.g., one call every five seconds, in order to limit (Choke) the completion of such traffic to the customer. Calls to the designated service which are denied access by this feature, i.e., the choked calls, would be routed to a no-circuit announcement. It is provided in selected BellSouth SWA FGD and BellSouth SWA TSBSA 3 equipped end offices and is available only with BellSouth SWA FGD and BellSouth SWA TSBSA 3.

(13) International Carrier Option

This option allows for BellSouth SWA FGD and BellSouth SWA TSBSA 3 end offices or access tandem switches equipped for International Direct Distance Dialing to be arranged to forward the international calls of one or more international carriers to the customer (i.e., the Telephone Company is able to route originating international calls to a customer other than the one designated by the end user either through subscription, 101XXXX dialing). This arrangement requires provision of written verification to the calls. The written verification must be in the form of a letter of agency authorizing the customer to order the option on behalf of the international carrier. This option is only provided at Telephone Company end offices or access tandems equipped for International Direct Distant Dialing. It is available with BellSouth SWA FGD and BellSouth SWA TSBSA 3.

(14) Cut-Through

This option allows end users of the customer to reach the customer's premises by using the end of dialing digit (#). This option provides for connection of the call to the premises of the customer indicated by the 101XXXX code upon receipt of the end of dialing digit (#). The Telephone Company will not record any other dialed digits for these calls. This option is available with BellSouth SWA FGD and BellSouth SWA TSBSA 3.

(15) AccuPulse Service Access Capability⁽¹⁾

(N)

This option provides for an end office or access tandem capability which allows a connection between the customer's premises and a suitably equipped end user premises utilizing end office or access tandem switching that is capable of transmitting 56 Kbps digital data. It is provided in suitably equipped electronic end offices or access tandems and is available only with BellSouth SWA FGD and BellSouth SWA TSBSA 3. This option is not available in combination with the BellSouth SWA CCSAC option.

(16) Carrier Selection Parameter (CSP)

This option provides for the automatic transmission of a signaling indicator which signifies to the customer whether the call being processed originated from a presubscribed end user of that customer. The specific protocol for CSP is contained in the BellSouth Guidelines to Technical Publication TR-TSV-000905. This feature is available only with BellSouth SWA FGD and BellSouth SWA TSBSA 3 when BellSouth SWA CCSAC is specified.

⁽¹⁾ Effective May 19, 2016, AccuPulse Service Access Capability is limited to existing Customers for existing service arrangements. Existing Customers may not purchase additional AccuPulse Service Access Capability service arrangements or renew existing service agreements. No move, add or change orders will be accepted.

6.3.2 Common Switching (BellSouth SWA FG and BellSouth SWA Basic Serving Agreement Customers) (Cont'd)

(A) (Cont'd)

(17) Call Screening

This option allows the BellSouth SWA FGA or BellSouth SWA LSBSA service to utilize the 07 ANI ii Digit in the completion of 0+, 0-, N11 (e.g., 411, 611, and 911), calls within the Local Calling Area, and 555-1212 calls. Additionally, 1+, 101XXXX, BellSouth SWA 500, BellSouth SWA 700, BellSouth SWA 900, and BellSouth SWA 976 calls will not be completed. This feature, available with BellSouth SWA FGA and BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(18) Access Transport Parameter (ATP)

This option provides for the transmission of information from the originating calling location through the BellSouth SWA CCSAC network. Information supplied using ATP may consist of one or more of the following: Called Party Sub-Address; Calling Party Sub-Address; High and Low Layer Compatibility and Compatibility checking by the called party's equipment. The specific protocol for ATP is contained in Technical Publication TR-TSV-000962. This feature is available only with BellSouth SWA FGD and BellSouth SWA TSBSA 3 when 64 CCC is specified from suitably equipped offices.

(19) 950-XXXX Dialing Over BellSouth SWA FGD and BellSouth SWA TSBSA 3

This option provides for the origination of traffic over BellSouth SWA FGD and BellSouth SWA TSBSA Technical Option 3 service utilizing the uniform 950-XXXX access code. The service is available, where technically feasible. This option is only available at the trunk group level.

(20) Carrier Identification Parameter (CIP)

This option, where available, is associated with BellSouth SWA FGD and BellSouth SWA TSBSA 3 Service using CCSAC signaling. It provides for delivery of the primary customer's carrier identification code (CIC) or the CIC designated by the originator of the call in the initial address message of the common channel signaling protocol. The option is only available at the trunk group level and is billed on a per trunk basis.

(21) Calling Party Number (CPN)

This option provides for the automatic transmission of the calling party's ten-digit telephone number to the IC's premises for calls originating in the LATA. The ten-digit telephone number consists of the NPA plus the seven-digit telephone number, which may or may not be the same number as the calling station's charge number. The specific protocol for CPN is contained in the BellSouth Guidelines to Technical Publication TR-TSV-000905. This feature is available only with BellSouth SWA FGD and BellSouth SWA TSBSA 3 when the BellSouth SWA CCSAC option is specified.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.3 Local Switching Optional Features (Cont'd)

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(1) Hunt Group Arrangement [MultiLine Hunt Group]

This option provides the ability to sequentially access one of two or more line side connections in the originating direction, when the access code of the line group is dialed. The customer will specify the type of multiline hunt group desired. The types of hunt group arrangements are: Regular Hunt, Preferential Hunt, Circular Hunt with Preferential Hunt, and Circular Hunt with Regular Hunt. BellSouth SWA LSBSA services with different methods of providing off-hook supervisory signaling (i.e., provided by the customer's equipment vs. forwarded by the customer's equipment when the called party answers) cannot be mixed in the same hunt group arrangement.

The BellSouth SWA LSBSA dial tone office utilized for a Hunt Group Arrangement must be the same for all BellSouth SWA LSBSA lines in the arrangement. The customer may specify that the BellSouth SWA LSBSA lines in the Hunt Group Arrangement be connected to the same customer-designated location for transport to another state or that the lines be connected to multiple customer-designated locations for transport to another state. A split arrangement (two or more customer-designated locations) is available only when the customer-designated locations are served from the same serving wire center. Customer service record information needed to add more than one customer-designated location to the arrangement, or to modify the service arrangement after initial establishment, must be obtained from the BellSouth SWA FGA BellSouth SWA LSBSA customer.

This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(2) Uniform Call Distribution Arrangement (UCD) [No Generic Name]

This option provides a type of multiline hunting arrangement which provides for an even distribution of calls among the available lines in a hunt group. BellSouth SWA LSBSA services with different methods of providing off-hook supervisory signaling (i.e., provided by the customer's equipment vs. forwarded by the customer's equipment when the called party answers) cannot be mixed in the same hunt group arrangement. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(3) Nonhunting Number for Use with Hunt Group or Uniform Call Distribution Arrangement [Multiline Hunt Group Access to Each Port]

This option provides an arrangement for an individual line within a multiline hunt or uniform call distribution group that provides access to that line within the hunt or uniform call distribution group when it is idle or provides busy tone when it is busy, when the nonhunting number is dialed. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(4) Simplified Message Desk Interface (SMDI) [Message Desk (SMDI)]

This option provides call-related information for calls utilizing a BellSouth SWA LSBSA multiline hunt group arrangement. SMDI provides the capability for delivering the called directory number, the calling directory number, and a call forwarding indicator (i.e., call forwarding busy, call forwarding don't answer, or direct call). This information is transmitted to the customer's premises utilizing a DNAL provided under the BellSouth SWA Transport section of this tariff. In addition, where customer equipment exists, SMDI will allow a customer to activate a message waiting indicator to the called directory number.

The customer shall provide the appropriate customer premises equipment to store, display or print the transmitted call status information as well as equipment to activate or deactivate the message waiting indicator. The Telephone Company assumes no liability and will be held harmless for any incompatibility of the customer's equipment to perform satisfactorily with this feature. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices on an intraoffice basis. The customer is responsible for providing a modem at the customer's premises which interfaces BOC equipment at 1200, 2400, 4800, 9600 baud ASCII or 9.6 Kbps digital, as selected by the customer.

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(5) Inter-Switch Simplified Message Desk Interface (ISMDI)

This option provides call-related information for intra- and interoffice calls utilizing a BellSouth SWA LSBSA multiline hunt group arrangement from suitably equipped Telephone Company offices. ISMDI provides the capability for delivering the called directory number, the calling directory number, and a call forwarding indicator (i.e., call forwarding busy, call forwarding don't answer, or direct call). This information is transmitted to the customer's premises over a separately purchased DNAL provided under the BellSouth SWA Transport section of this tariff (section 6.8.1(H)). In addition, where customer equipment exists, ISMDI will allow a customer to activate a message waiting indicator to the called directory number.

The customer shall provide the appropriate customer premises equipment to store, display or print the transmitted call status information, as well as activate or deactivate the message waiting indicator. The Telephone Company assumes no liability and will be held harmless for any incompatibility of the customer's equipment to perform satisfactorily with this feature. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices on an intraoffice and interoffice basis. These offices are identified in the National Exchange Carrier Association FCC No. 4 tariff. The customer is responsible for providing a modem at the customer's premises which interfaces Company equipment at 1200, 1400, 4800, or 9600 baud ASCII or 9.6 Kbps digital, as selected by the customer.

The customer has the option of specifying an SS7 point code to which Message Waiting Indication (MWI) messages are to be routed. If the SS7 Point Code for MWI option is requested, the customer is required to provide a list of the NPA-NNXs to which MWI messages will be routed. The NPA-NNXs provided must belong to the carrier with which the customer has an arrangement. The destination carrier must have an SS7 interconnection with the BellSouth network. The MWI messages are ANSI SS7 TCAP Inter-Switch Voice Mail (ISVM) messages. The nonrecurring charge in 6.8.2(E) will be applicable for establishing new service, for modification of existing service, and for verification of existing service.

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(6) Surrogate Client Number (SCN) [No Generic Name]

This option allows a customer to purchase one or more telephone numbers that are permanently forwarded to a multiline hunt group over an SMDI line. This capability permits the customer to have a specially assigned telephone number (SCN) for its client. This number appears in the customer's serving central office in order to permit the client's calling telephone number to be transmitted to the customer's premises using SMDI. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices. The number associated with SCN is not available for listing purposes.

(7) Bulk Calling Line Information Delivery (BCLID) [Calling Directory Number Delivery Via BCLID]

This option provides call-related information for calls utilizing a BellSouth SWA LSBSA Switched Access Service multiline hunt group arrangement. This information is transmitted over a DNAL facility provided under the Switched Transport section of this tariff. Information transmitted includes calling directory number, called directory number, time the call was placed, calling line type (individual or group), and called line status (i.e., busy or idle).

The customer will provide the necessary customer premises equipment to receive, translate, display and/or store the transmitted data. The Telephone Company assumes no liability and will be held harmless for any incompatibility of the customer's equipment to perform satisfactorily with this feature. Call Detail information is not available on calls originated to the BellSouth SWA LSBSA line from outside the LATA unless the office is equipped and interconnected with Signaling System 7 (SS7). BCLID information is only available on calls originating and terminating within SS7 equipped areas. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(8) Queuing [Multiline Hunt Group UCD With Queuing]

This option provides the capability for the Telephone Company's central office to automatically queue calls to a specific multiline hunt group or uniform call distribution arrangement when all hunting group terminals are busy. The calling party will continue to receive ringing indication until the call is completed to the customer's premises. The timing of a call begins upon entrance into a queue. When a line becomes available, the call will be delivered to that line.

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(8) Queuing [Multiline Hunt Group UCD With Queing] (Cont'd)

The customer may also choose to subscribe to an optional announcement service available with this BSE. This optional customized central office announcement permits audible ringing tone followed by customer-selected announcement(s) which notify the caller of the queue condition. The customer can also specify that the call be connected to a silent termination, audible ringing, or customer provided music.

Call waiting and music after delay announcement services associated with this feature require a DNAL provided under the BellSouth SWA Transport section of this tariff. This BSE, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(9) User Transfer [Three Way Call Transfer]

This option permits a customer who has established a call using a BellSouth SWA LSBSA service to add another party to the call to establish a three-way conference call. Once the three-way conference call has been established, the customer may drop its connection without disconnecting the other two parties and may use its service to make another call. In addition, a customer may hold an in-progress call and complete a second call while maintaining privacy from the first call. User Transfer is available with BellSouth SWA LSBSA and by definition utilizes two BellSouth SWA LSBSA lines, thereby generating two BellSouth SWA LSBSA measurements. This feature, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices.

(10) Make Busy/Night Transfer [Make Busy Key]

This option provides the ability to create a busy or overflow condition for a multiline hunt group. Make Busy/Night Transfer requires a DNAL provided under the BellSouth SWA Transport section of this Tariff. By activating a customer provided key at its premises, the customer can place the group in an "all numbers busy" condition. Subsequent calls may be directed to a central office busy tone, customized central office announcement, or forwarded to an alternate location. Calls forwarded to an alternate location invokes the use of a second BellSouth SWA LSBSA line, thereby generating a second BellSouth SWA LSBSA measurement. This feature, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices on an intraoffice basis only.

(11) Direct Inward Dialing (DID) or DID/Direct Outward Dialing (DOD) Access Service with BellSouth SWA LSBSA [Faster Signaling on DID]

This option provides for incoming calls (DID) to customers' premises equipment from the network to reach a specific telephone number without the assistance of an attendant. This feature, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices. DID numbers will be provided in blocks consisting of a minimum of 20 consecutive numbers. DID Access Service is available with standard dial pulse signaling or optionally purchased MF or DTMF signaling and is available on inward only or 2-way BellSouth SWA LSBSA lines. This feature is available only as a standalone BSE with BellSouth SWA LSBSA and therefore cannot be purchased in conjunction with any other BSE.

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(12) Automatic Number Identification (ANI)/Charge Number [Calling Billing Number Delivery BellSouth SWA FGD]

This option provides the automatic transmission of a three, seven or ten digit number and information digits to the customer's premises for calls originating in the LATA, to identify the geographical calling area (NPA) or the calling station. ANI will identify the calling station, where possible, or at a minimum, identify the NPA from which the call originated. The three, seven or ten digit numbers will contain the following information: for three digit numbers, NPA only; for seven digit numbers, NXX+XXXX; for ten digit numbers, NPA+NXX+XXXX. With the exception of three digit ANI, the ANI feature is an end office software function which is associated on a call-by-call basis with (1) all individual transmission paths in a trunk group routed directly between an end office and a customer's premises or, where technically feasible, with (2) all individual transmission paths in a trunk group between an end office and an access tandem, and a trunk group between an access tandem and a customer's premises.

Three digit ANI is a software function of the SSP feature which is used in conjunction with BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and occurs whenever the SSP feature detects a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service call that does not include the originating caller's ANI.

Three digit ANI, the originating NPA of the BellSouth SWA 8XX Toll Free Dialing call, is available with BellSouth SWA TSBSA 3 routed traffic only. Three digit ANI will be transmitted to the customer on all BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service calls that are processed by the SSP feature for which a complete ANI is not received from the subtending office that originates the BellSouth SWA 8XX Toll Free Dialing call.

(D)

(D)

(D)

The seven digit ANI telephone number is available with BellSouth SWA TSBSA 1. With these Technical Options, technical limitations may exist in Telephone Company switching facilities which require ANI to be provided only on a directly trunked basis. ANI will be transmitted on all calls except those originating from multiparty lines, pay telephone lines using BellSouth SWA TSBSA 1 or when an ANI failure has occurred.

The ten digit ANI telephone number is only available with BellSouth SWA TSBSA 3 with multifrequency address signaling. When the BellSouth SWA CCSAC optional feature is specified, the customer may obtain an ANI equivalent by ordering Charge Number specified below. The ten digit ANI telephone number consists of the Numbering Plan Area (NPA) plus the seven digit ANI telephone number. The ten digit ANI telephone number will be transmitted on all calls except those identified as multiparty line or ANI failure, in which case only the NPA will be transmitted (in addition to the information digit described below).

(12) Automatic Number Identification (ANI)/Charge Number [Calling Billing Number Delivery BellSouth SWA FGD] (Cont'd)

Generally, the three digit and ten digit ANI telephone number is available with BellSouth SWA TSBSA 3, and with BellSouth 8XX Toll Free Dialing Number Administration Service that uses BellSouth SWA TSBSA 3 service on a per class of service basis. The ten digit ANI number will be transmitted on calls except those where ANI cannot be provided because the conditions set forth in (1) through (6) following exist or, those from end offices not equipped to provide ANI. In these instances, only the three digit ANI and the information digits described in (1) through (6) following, if applicable, will be transmitted. Additionally, when the customer has ordered the BellSouth 8XX Toll Free Dialing Number to POTS Number Delivery feature, information digits (i.e., 24) which identify the call as a BellSouth 8XX Toll Free Dialing Number call will be forwarded to the customer's premises in addition to the ten digit POTS number. These information digits will also replace the information digits which identify the conditions set forth in (1) through (6) following when a POTS number is delivered to the customer's premises.

(D)
—
(D)

Where ANI cannot be provided, e.g., on calls from 4 and 8 party services, information digits will be provided to the customer.

The information digits identify: (1) telephone number is the station billing number - no special treatment required, (2) multiparty line - telephone number is a 4- or 8-party line and cannot be identified - number must be obtained via an operator or in some other manner, (3) ANI failure has occurred in the end office switch which prevents identification of calling telephone number - must be obtained by operator or in some other manner, (4) hotel/motel originated call which requires room number identification, (5) coinless station, hospital, inmate, etc., call which requires special screening or handling by the customer, and (6) call is an Automatic Identified Outward Dialed (AIOD) call from customer premises equipment.

(12) Automatic Number Identification (ANI)/Charge Number [Calling Billing Number Delivery BellSouth SWA FGD] (Cont'd)

ANI information digits are either 00, 01, 02, 06, 07, 20 or 27. Customers who subscribe to ANI, may also elect to obtain expanded ANI digits, 52 for BellSouth SWA WATS Service, at no additional charge. The ANI telephone number is the listed telephone number of the customer and is not the telephone number of the calling party.

These ANI information digits are available with BellSouth SWA TSBSA 1 (D) and BellSouth SWA TSBSA 3.

Charge Number provides for the automatic transmission of the ten digit billing number of the calling station number and originating line information. The specific protocol for CN is contained in the BellSouth Guidelines to Technical Publication TR-TSV-000905. This feature is available only with BellSouth SWA TSBSA 3 when BellSouth SWA CCSAC is specified.

(13) Answer Supervision

This option provides the capability of delivering "on hook/off hook" supervisory signals from a Telephone Company end office to a line interface. The signals indicate when the called party has answered an incoming call (went "off hook") or ended a call (gone "on hook"). This feature, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices and only where non-digital facilities exist.

(14) BellSouth Remote Access Service

BellSouth Remote Access Service provides one-way ports for the collection, concentration, signaling and aggregation of a customer's dial-up data traffic into a hub site. This option allows the customer's users (end user customer) to call into a remote access server. Connection to BellSouth Remote Access Service is made by the end user customer dialing a BellSouth SWA LSBSA local seven or ten-digit telephone number. It is the customer's responsibility to order a sufficient number of BellSouth SWA LSBSA services in a hunting configuration to carry the BellSouth Remote Access Service traffic.

Remote access server equipment will be installed in a BellSouth central office. The customer's equipment must support Layer 2 Tunneling Protocol (L2TP).

BellSouth Remote Access Service is a customer controlled service that supports a dedicated, customer selected remote access server with backup dial-in capability for network management. The customer may select their Remote Access Server based on the BellSouth approved equipment list. The customer will be responsible for the management of the remote access server for this service. Customer Control indicates that the customer will have full responsibility for initial and ongoing configuration, software release levels and updates, and general code. All software updates must be compatible with associated Telephone Company network elements and systems. Monitoring, management, and reporting activities performed by the customer will occur over special access egress circuits into the remote access server or through a backup, dial-in, channel that BellSouth will provide for each site.

6.3.3 Basic Service Elements (BellSouth SWA Basic Serving Arrangement Customers Only) (Cont'd)

(A) (Cont'd)

(14) BellSouth Remote Access Service (Cont'd)

BellSouth will not have the ability to remotely access, for provisioning or management purposes, the remote access server. BellSouth will only provide remote hands operations support. Remote hands means that the customer identifies the problem and reports the trouble to BellSouth. BellSouth will resolve the problem as directed by the customer. Resolution of the problem may include providing hardware, central office switching maintenance, and deployment of human resources necessary to repair hardware failures and restore network service outages.

In addition, the Company will provide a single point of contact (SPOC) for customer service calls regarding provisioning and maintenance to all BellSouth[®] Remote Access Service customers that order a minimum port quantity of 75,000 ports within the BellSouth region.

The customer will also be responsible for providing the egress circuit(s), as set forth in Sections 7 and 21 following, connecting BellSouth Remote Access Service to the hub location designated by the customer. These circuits will be required to deliver the BellSouth Remote Access Service traffic to the customer's designated location. These circuits can be ordered from BellSouth or other telecommunications providers with the execution of appropriate collocation agreements.

The technical specifications and standard network interfaces for BellSouth Remote Access Service are in conformance with the technical specifications set forth in Technical Publications STD001 and RFC2138.

In order to maintain the quality of BellSouth Remote Access Service, the Telephone Company reserves the right to perform preventive maintenance and software updates to the network. This could result in BellSouth Remote Access Service being unavailable during the time period between 2:00 A.M. and 4:00 A.M. Eastern Time on any given Wednesday or Sunday morning. The Telephone Company only expects to utilize this maintenance window for any given remote access server on the average of once a quarter. However, the Telephone Company reserves the right to perform maintenance at any time at its discretion that it believes such maintenance is necessary. The Telephone Company will make every reasonable effort to provide notice to those customers likely to be affected by such maintenance work.

6.3 Local Switching Optional Features (Cont'd)

6.3.4 Common Switching Optional Features for Use with WATS (a.k.a. BellSouth SPA WATS Line) Access Line (BellSouth SWA FG and BellSouth SWA Basic Serving Arrangement Customers)

- (A) These Optional Features are available to BellSouth SWA FG and BellSouth SWA Basic Serving Arrangement customers as specified in the descriptions) at no additional charge.

- (1) Band Advance Arrangement for Use with WATS Access Lines (a.k.a. BellSouth SPA WATS Line)

This option, which is provided in association with two or more WATS Access Line (a.k.a. BellSouth SPA WATS Line) groups, provides for the automatic overflow of terminating calls to a WATS Access Line (a.k.a. BellSouth SPA WATS Line) group, when that group has exceeded its call capacity, to another WATS Access Line (a.k.a. BellSouth SPA WATS Line) group with a band designation equal to or greater than that of the overflowing WATS Access Line (a.k.a. BellSouth SPA WATS Line) group. This arrangement does not provide for call overflow from a group with a higher band designation to one with a lower one. This option is available with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA LSBSA, and BellSouth SWA TSBSA.

- (2) End Office End User Line Service Screening for Use with WATS Access Lines (a.k.a. BellSouth SPA WATS Line)

This arrangement provides the ability to verify that an end user has dialed a called party address (by screening the called NPA and/or NXX) which is in accordance with that end user's agreement with the customer, e.g., WATS (a.k.a. BellSouth SWA WATS). This arrangement is provided in all Telephone Company end offices where technically capable. This arrangement is also provided, where available, to providers of WATS (a.k.a. BellSouth SWA WATS) in electromechanical in which WATS Access Lines (a.k.a. BellSouth SPA WATS Line) are provided. All blocked calls will be routed to announcement recording. It is available with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA LSBSA, and BellSouth SWA TSBSA.

(C)

The Telephone Company will prohibit 101XXXX dialing with the standard arrangement when requested by the customer.

(B) Operator Trunk - Coin, Non-Coin, or Combined Coin and Non-Coin

This option may be ordered to provide coin, non-coin, or combined coin and non-coin operation. It is available only with BellSouth SWA FGD and is provided in electronic end offices and other Telephone Company end offices where equipment is available. It is provided as a trunk type of switched transport termination. (D)

Coin:

This arrangement provides for initial coin return control and routing of 0+, 0-, 1+, 01+ or 011+ prefixed originating coin calls requiring operator assistance to the customer's premises. Because operator assisted coin calling traffic is routed over a trunk group dedicated to operator assisted calls, this arrangement is only provided in association with the Service Class Routing option.

The operator assistance coin calling arrangement is also normally ordered by the customer in conjunction with the ANI optional feature, since the preponderance of trunk groups equipped with this arrangement will be terminated in the customer's operator services systems, rather than in the customer's manual cord boards.

Non-Coin:

This arrangement provides for the routing of 0+, 0-, 1+, 01+ or 011+ prefixed originating non-coin calls requiring operator assistance to the customer's premises. Because operator assisted non-coin calling traffic is routed over a trunk group dedicated to operator assisted calls, this arrangement is only provided in association with the Service Class Routing option.

The operator assistance non-coin calling arrangement is also normally ordered by the customer in conjunction with the ANI optional feature, since the preponderance of trunk groups equipped with this arrangement will be terminated in the customer's operator

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.3 Local Switching Optional Features (Cont'd)

6.3.6 Transport Termination (Cont'd)

(C) Operator Trunk - Full Feature

This option provides the operator functions available in the end office to the customer's operator. These functions are (1) operator released, (2) operator attached, (3) coin collect, (4) coin return, and (5) ringback. It is available with BellSouth SWA FGD and is provided as a trunk type of switched transport termination. This arrangement is only provided in association with the Service Class Routing option. This option is not available in combination with the BellSouth SWA CCSAC option.

6.3.7 WATS Access Line (aka BellSouth SPA WATS Line) Termination

The WATS Access Line (a.k.a. BellSouth SPA WATS Line) Terminations are differentiated by line side vs. trunk side terminations. The standard WATS Access Line (a.k.a. BellSouth SPA WATS Line) arrangement is available with a line side termination. There are various types of originating and terminating line side terminations depending on the type of signaling associated with the WATS Access Line (a.k.a. BellSouth SPA WATS Line) (i.e., loop start or ground start). Line side terminations are available with either dial pulse or dual tone multifrequency address signaling.

In addition, there are also various types of originating and terminating WATS Access Line (a.k.a. BellSouth SPA WATS Line) trunk side terminations that are available in lieu of standard line side terminations. Trunk side terminations are provided only in association with certain Line Termination optional features as specified following:

The Telephone Company will, at the option of the customer, provide the following optional feature in association with WATS Access Line (a.k.a. BellSouth SPA WATS Line) service.

(A) E&M Supervisory Signaling

The E&M Supervisory Signaling optional feature, which is available with four-wire originating and terminating WATS Access Lines (a.k.a. BellSouth SPA WATS Lines), provides for E&M Type 1, Type 2 or Type 3 Supervisory Signaling in lieu of loop start or ground start Supervisory Signaling.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.4 Transmission Specifications

Each BellSouth SWA service transmission path is provided with standard transmission specifications. There are three different standard specifications (Types A, B and C). The standard for a particular transmission path is dependent on the BellSouth SWA FG or BellSouth SWA Basic Serving Arrangement, the Interface Group and whether the service is directly routed or via an access tandem. When directly routed service is equipped with the tandem signaling option, Type A transmission specification will be the standard. The available transmission specifications are set forth in 6.4.1 following. Data Transmission Parameters are also provided with each BellSouth SWA service transmission path and WATS Access Line (a.k.a. BellSouth SPA WATS Line). The Telephone Company will, upon notification by the customer that the data parameters set forth in 6.4.2(A) or 6.4.2(B) are not being met, conduct tests independently or in cooperation with the customer, and take any necessary action to insure that the data parameters are met.

The Telephone Company will maintain existing transmission specifications on functioning service configurations installed prior to the effective date of this tariff except that service configurations having performance specifications exceeding the standards listed in this provision will be maintained at performance levels specified in this tariff.

The transmission specifications contained in this Section are immediate action limits. Acceptance limits are set forth in Technical Reference TR-NWT-000334. This Technical Reference also provides the basis for determining BellSouth SWA service maintenance limits. Transmission specifications for CCS7 Signaling Connections and CCS7 Signaling Terminations are set forth in Technical Publication TR-TSV-000905, and the BellSouth Guidelines to Technical Publication TR-TSV-000905. Transmission Specifications for 64 CCC are set forth in the Technical Publication TR-TSV-000962.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.4 Transmission Specifications (Cont'd)

6.4.1 Standard Transmission Specifications

Following are descriptions of the three Standard Transmission Specifications available with BellSouth SWA service feature groups and feature group-like services. The specific applications in terms of the feature groups and interface groups with which the BellSouth SWA FG and BellSouth SWA Basic Serving Arrangements standard transmission specifications are provided are set forth in 6.2.1(C), 6.2.2(C), on 6.2.3(C), 6.2.4(C), 6.2.7(C), 6.2.8.1(C), 6.2.8.2(C), 6.2.8.3(C) and 6.2.14(B) preceding.

(A) Type A Transmission Specifications

Type A Transmission Specifications are provided with the following parameters:

(1) Loss Deviation

The maximum Loss Deviation of the 1004 Hz loss relative to the Expected Measured Loss (EML) is + 2.0 dB

(2) Attenuation Distortion

The maximum Attenuation Distortion in the 404 to 2804 Hz frequency band relative to the loss at 1004 Hz is -1.0 dB to +3.0 dB.

(3) C-Message Noise

The maximum C-Message Noise for the transmission path at the route miles listed is less than or equal to:

<u>Route Miles</u>	<u>C-Message Noise</u>
less than 50	32 dBrnC0
51 to 100	34 dBrnC0
101 to 200	37 dBrnC0
201 to 400	40 dBrnC0
401 to 1000	42 dBrnC0

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

6.4 Transmission Specifications (Cont'd)

6.4.1 Standard Transmission Specifications (Cont'd)

(A) Type A Transmission Specifications (Cont'd)

(4) C-Notch Noise

The maximum C-Notch Noise, utilizing a -16 dBm0 holding tone, is less than or equal to 45 dBrnC0.

(5) Echo Control

Echo Control, identified as Equal Level Echo Path Loss, and expressed as Echo Return Loss and Singing Return Loss, is dependent on the routing, i.e., whether the service is routed directly from the customer's point of termination (POT) to the end office or via an access tandem. It is equal to or greater than the following:

	Echo Return Loss	Singing Return Loss
POT to Access Tandem	21 dB	14 dB
POT to End Office		
- Direct	N/A	N/A
- Via Access Tandem	16 dB	11 dB
- Direct equipped with Tandem Signaling	16dB	11dB

(B) Type B Transmission Specifications

Type B Transmission Specifications are provided with the following parameters:

(1) Loss Deviation

The maximum Loss Deviation of the 1004 Hz loss relative to the Expected Measured Loss (EML) is + 2.5 dB.

(2) Attenuation Distortion

The maximum Attenuation Distortion in the 404 to 2804 Hz frequency band relative to loss at 1004 Hz is -2.0 dB to +4.0 dB.

(3) C-Message Noise

The maximum C-Message Noise for the transmission path at the route miles listed is less than or equal to:

<u>Route Miles</u>	<u>C-Message Noise*</u>	
	<u>Type B1</u>	<u>Type B2</u>
less than 50	32 dBrnC0	38 dBrnC0
51 to 100	33 dBrnC0	39 dBrnC0
101 to 200	35 dBrnC0	41 dBrnC0
201 to 400	37 dBrnC0	43 dBrnC0
401 to 1000	39 dBrnC0	45 dBrnC0

(4) C-Notch Noise

The maximum C-Notch Noise, utilizing a -16 dBm0 holding tone is less than or equal to 47 dBrnC0.

(5) Echo Control

Echo Control, identified as Impedance Balance for BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBS and BellSouth SWA TSBSA 1 and Equal Level Echo Path Loss for BellSouth SWA FGD, BellSouth SWA TSBSA 3, and expressed as Echo Return Loss (ERL) and Singing Return Loss (SRL), is dependent on the routing, i.e., whether the service is routed directly from the customer's point of termination (POT) to the end office or via an access tandem. The ERL and SRL also differ by feature group, type of termination, and type of transmission path. They are greater than or equal to the following:

* For BellSouth SWA FGD, BellSouth SWA TSBSA 3, BellSouth SWA 500 service, BellSouth 8XX Toll Free Dialing Number Administration Service, and BellSouth SWA 900 service, only Type B2 will be provided. For BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1, Type B1 or B2 will be provided as set forth in Technical Reference TR-NWT-000334. (D) (T) (T)

6.4.2 Data Transmission Parameters

Two types of Data Transmission Parameters, i.e., Type DA and Type DB, are provided for the BellSouth SWA Service arrangements. The specific applications in terms of the service arrangements with which they are provided are set forth in 6.2.1(C), 6.2.2(C), 6.2.3(C), 6.2.4(C), 6.2.5, 6.2.6, 6.2.7(C), 6.2.8.1(C), 6.2.8.2(C) and 6.2.8.3(C) preceding. Following are descriptions of each.

(A) Data Transmission Parameters Type DA

(1) Signal to C-Notched Noise Ratio

The Signal to C-Notched Noise Ratio is equal to or greater than 33 dB.

(2) Envelope Delay Distortion

The maximum Envelope Delay Distortion for the frequency bands and route miles specified is:

<u>604 to 2804 Hz</u>	
less than 50 route miles	500 microseconds
equal to or greater than 50 route miles	900 microseconds
<u>1004 to 2404 Hz</u>	
less than 50 route miles	200 microseconds
equal to or greater than 50 route miles	400 microseconds

(3) Impulse Noise Counts

The Impulse Noise Counts exceeding a 65 dBnC0 threshold in 15 minutes is no more than 15 counts.

(4) Intermodulation Distortion

The Second Order (R2) and Third Order (R3) Intermodulation Distortion products are equal to or greater than:

Second Order (R2)	33 dB
Third Order (R3)	37 dB

6.4.2 Data Transmission Parameters (Cont'd)

(A) Data Transmission Parameters Type DA (Cont'd)

(5) Phase Jitter

The Phase Jitter over the 4-300 Hz frequency band is less than or equal to 5° peak-to-peak.

(6) Frequency Shift

The maximum Frequency Shift does not exceed -2 to +2 Hz.

(B) Data Transmission Parameters Type DB

(1) Signal to C-Notched Noise Ratio

The signal to C-Notched Noise Ratio is equal to or greater than 30 dB.

(2) Envelope Delay Distortion

The maximum Envelope Delay Distortion for the frequency bands and route miles specified is:

	<u>604 to 2804 Hz</u>	
less than 50 route miles		800 microseconds
equal to or greater than 50 route miles		1000 microseconds

	<u>1004 to 2404 Hz</u>	
less than 50 route miles		320 microseconds
equal to or greater than 50 route miles		500 microseconds

(3) Impulse Noise Counts

The Impulse Noise Counts exceeding a 67 dBnC0 threshold in 15 minutes is no more than 15 counts.

The Second Order (R2) and Third Order (R3) Intermodulation Distortion products are equal to or greater than:

Second Order (R2) 31 dB
Third Order (R3) 34 dB

(5) Phase Jitter

The Phase Jitter over the 4-300 Hz frequency band is less than or equal to 7 degrees peak-to-peak.

(T)

(6) Frequency Shift

The maximum Frequency Shift does not exceed -2 to +2 Hz.

6.5 Obligations of the Telephone Company

In addition to the obligations of the Telephone Company set forth in Section 2 preceding, the Telephone Company has certain other obligations pertaining only to the provision of BellSouth SWA service. These obligations are as follows:

6.5.1 Network Management

The Telephone Company will administer its network to insure the provision of acceptable service levels to all telecommunications users of the Telephone Company's network services. Generally, service levels are considered acceptable only when both end users and customers are able to establish connections with little or no delay encountered within the Telephone Company network. The Telephone Company maintains the right to apply protective controls, i.e., those actions, such as call gapping, which selectively cancel the completion of traffic, over any traffic carried over its network, including that associated with a customer's

EFFECTIVE: AUGUST 9, 2013

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.5 Obligations of the Telephone Company (Cont'd)

6.5.1 Network Management (Cont'd)

BellSouth SWA service. Generally, such protective measures would only be taken as a result of occurrences such as failure or overload of Telephone Company or customer facilities, natural disasters, mass calling or national security demands. In the event that the protective controls applied by the Telephone Company result in the complete loss of service by the customer, the customer will be granted a Credit Allowance for Service Interruption as set forth in 2.4.4(B) preceding.

(Dx)

(Dx)

6.5.2 Design and Traffic Routing of BellSouth SWA Service

The customer desired line or trunk directionality and/or traffic routing of the BellSouth SWA service between the customer's premises and the entry switch are specified on the customer's order for service.

(x) Issued under authority of Special Permission No. 13-019 of the FCC in order to withdraw material filed under Transmittal No. 65 without its becoming effective and to restore currently effective material.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.5 Obligations of the Telephone Company (Cont'd)

6.5.2 Design and Traffic Routing of BellSouth SWA Service (Cont'd)

The Telephone Company will work cooperatively with the customer in determining: (1) whether the service is to be routed directly to an end office and (2) the directionality of the service before establishing a firm order. Additionally, for BellSouth SWA FGB and BellSouth SWA TSBSA 1, the customer may order the optional feature Customer Specification of BellSouth SWA Transport Termination.

6.5.3 Provision of Service Performance Data

Subject to availability, end-to-end service performance data available to the Telephone Company through its own service evaluation routines may also be made available to the customer based on previously arranged intervals and format. These data provide information on overall end-to-end call completion and non-completion performance, e.g., customer equipment blockage, failure results and transmission performance. These data do not include service performance data which are provided under other tariff sections, e.g., testing service results. If data are to be provided in other than paper format, the charges for such exchange will be determined on an individual case basis.

6.5.4 Trunk Group Measurement Reports

Subject to availability, the Telephone Company will make available trunk group data in the form of usage in CCS, peg count and overflow, to the customer based on previously agreed to intervals.

6.5.5 Determination of Number of Transmission Paths

The following applies to switched access voice transmission paths, and does not apply to CCS7 Signaling Connections and CCS7 Signaling Terminations provided. The number of transmission paths for CCS7 Signaling Connections and CCS7 Signaling Terminations will be determined jointly by the Telephone Company and the customer.

ISSUED: SEPTEMBER 24, 2013

EFFECTIVE: OCTOBER 9, 2013

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.5 Obligations of the Telephone Company (Cont'd)

6.5.5 Determination of Number of Transmission Paths (Cont'd)

The customer's order for BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1, which are ordered on a per line or per trunk basis respectively, and BellSouth SWA FGD or BellSouth SWA TSBSA 3, which are ordered on a per trunk basis, or the BellSouth SWA Transport facilities ordered determines the number of transmission paths for BellSouth SWA service. A transmission path is a communication path within the frequency bandwidth of approximately 300 to 3000 Hz or a derived communication path of a frequency bandwidth of approximately 300 Hz to 3000 Hz provided over a high frequency analog facility or a high speed digital facility between a customer's premises and Telephone Company location.

(D)
(T)

6.5.6 Determination of Number of End Office Transport Terminations

For analog entry switches, a termination may be provided for each transmission path provided. For digital entry switches, an equivalent termination may be provided for each transmission path provided.

6.5.7 Design Blocking Probability

The Telephone Company will design and monitor the trunk groups used in the provision of BellSouth SWA service to meet the blocking probability criteria as set forth in (A) through (D), following.

(T)

- (A) For BellSouth SWA FGA and BellSouth SWA LSBSA no design blocking criteria apply.

ISSUED: DECEMBER 11, 2014

EFFECTIVE: DECEMBER 26, 2014

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.5 Obligations of the Telephone Company (Cont'd)

6.5.7 Design Blocking Probability (Cont'd)

- (B) For BellSouth SWA FGB and BellSouth SWA TSBSA 1, the design blocking objective will be no greater than one percent (.01) between the point of termination at the customer's premises and the first point of switching. Standard traffic engineering methods will be used by the Telephone Company to determine the number of transmission paths required to achieve this level of blocking.
- (C) For BellSouth SWA FGD and BellSouth SWA TSBSA 3, the design blocking objective for the final group will be no greater than one percent (.01) between the point of termination at the customer's premises and the end office switch, whether the traffic is directly routed without an alternate route or routed via an access tandem. Standard traffic engineering methods as set forth in reference document Technical Reference SR TAP-000191 Trunk Traffic Engineering Concepts and Applications will be used by the Telephone Company to determine the number of transmission paths required to achieve this level of blocking.
- (D) The design blocking criteria for BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service or BellSouth SWA 900 service will be equivalent to that set forth, preceding, for BellSouth SWA FGD and BellSouth SWA TSBSA 3, except when more than one tandem is employed in the transport of a BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service or a BellSouth SWA 900 service call. In the event of a BellSouth SWA 900 service media stimulated call, the design blocking objective of no greater than one percent (.01) will not be guaranteed.

(D)

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.5 Obligations of the Telephone Company (Cont'd)

6.5.7 Design Blocking Probability (Cont'd)

(E) The Telephone Company will perform routine measurement functions for trunk capacity ordered in accordance with Telephone Company design blocking criteria to assure that an adequate number of transmission paths are in service. The Telephone Company will recommend that additional capacity (i.e., trunks) be ordered by the customer when additional paths are required to reduce the measured blocking to the designed blocking level. Where Design Blocking Criteria apply, the design blocking objective is assumed to have been met if the routine measurements show that the measured blocking does not exceed the thresholds listed in the following tables.

- (1) For transmission paths carrying only first routed traffic directly between an end office and a customer's premises without an alternate route, and for paths carrying only overflow traffic, the measured blocking thresholds are as follows:

Number of Transmission Paths Per Trunk Group	Measured Blocking Thresholds in the Time Consistent Busy Hour for the Number of Measurements Per Trunk Group			
	<u>15-20 Measurements</u>	<u>11-14 Measurements</u>	<u>7-10 Measurements</u>	<u>3-6 Measurements</u>
2	.070	.080	.090	.140
3	.050	.060	.070	.090
4	.050	.060	.070	.080
5-6	.040	.050	.060	.070
7 or more	.030	.035	.040	.060

6.5.7 Design Blocking Probability (Cont'd)

(E) (Cont'd)

- (2) For transmission paths carrying first routed traffic between an end office and a customer's premises via an access tandem, the measured blocking thresholds are as follows:

<u>Number of Transmission Paths Per Trunk Group</u>	<u>Measured Blocking Thresholds in the Time Consistent Busy Hour for the Number of Measurements Per Trunk Group</u>			
	<u>15-20 Measurements</u>	<u>11-14 Measurements</u>	<u>7-10 Measurements</u>	<u>3-6 Measurements</u>
2	.045	.055	.060	.095
3	.035	.040	.045	.060
4	.035	.040	.045	.055
5-6	.025	.035	.040	.045
7 or more	.020	.025	.030	.040

6.6 Obligations of the Customer

In addition to the obligations of the customer set forth in Section 2 preceding, the customer has certain specific obligations pertaining to the use of BellSouth SWA service. These obligations are as follows:

6.6.1 Report Requirements

Customers are responsible for providing the following reports to the Telephone Company, when applicable.

(A) Jurisdictional Reports

When a customer orders BellSouth SWA service for both interstate and intrastate use, the customer is responsible for providing reports as set forth in 2.3.10 preceding. Charges will be apportioned in accordance with those reports. The method to be used for determining the interstate charges is set forth in 2.3.11 preceding.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.6 Obligations of the Customer (Cont'd)

6.6.1 Report Requirements (Cont'd)

(B) Code Screening Reports

When a customer orders service class routing, trunk access limitation or call gapping arrangements, it must report the number of trunks and/or the appropriate codes to be instituted in each end office or access tandem switch, for each of the arrangements ordered.

(C) 500/900 NXX Code Testing

When ordering BellSouth SWA 500 service or BellSouth SWA 900 service, the customer will reserve and assign within their network the 500/900 NXX-4141 as an access test number(s). The Telephone Company will use this number to verify that BellSouth SWA 500 and BellSouth SWA 900 service is being provided to the customer's network when the Customer's 500/900 NXX is activated in the Telephone Company's network.

(D) 500/900 NXX Code Trouble Reporting

When ordering BellSouth SWA 500 service or BellSouth SWA 900 service, the 500 customer will reserve and assign within their network the 500/900 NXX-0000 as a trouble reporting number(s). The Telephone Company will use this number(s) to assure the customer that originating BellSouth SWA 500 and BellSouth SWA 900 service trouble reports are being reported to their trouble reporting centers.

6.6.2 Supervisory Signaling

The customer's facilities shall provide the necessary on-hook, off-hook, answer and disconnect supervision.

6.6.3 Trunk Group Measurement Reports

With the agreement of the customer, trunk group data in the form of usage in CCS, peg count and overflow for its end of all access trunk groups, where technologically feasible, will be made available to the Telephone Company. These data will be used to monitor trunk group utilization and service performance and will be based on previously arranged intervals and format.

ISSUED: APRIL 30, 2013

EFFECTIVE: MAY 15, 2013

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.6 Obligations of the Customer (Cont'd)

6.6.4 Design of BellSouth SWA Services

When a customer orders BellSouth SWA service it is the customer's responsibility to assure that sufficient access service facility quantities have been ordered to handle its traffic.

6.6.5 Billing Data For Terminating Usage

When a customer uses the service(s) of an alternative access provider or alternative tandem service provider and as a result the Telephone Company is unable to record usage terminated via dedicated trunks with sufficient specificity to identify the access customer of record, the alternative access provider or alternative tandem service provider must provide the Telephone Company with billing data so the Telephone Company can properly measure and bill the access minutes. The record that will be used for the transmission of data is the 110120 record. A description of the record and the fields contained can be found in BellCore Publication SR-ST5-000320, Message Interface. It is the responsibility of the alternative access provider or alternative tandem service provider to provide the billing data information to the Telephone Company on a daily basis.

Failure on the part of the alternative provider to comply with the requirements of this paragraph will result in the Telephone Company's billing the alternative provider all terminating access minutes.

6.7 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for BellSouth SWA service.

6.7.1 Description and Application of Rates and Charges

There are three types of rates and charges that apply to BellSouth SWA service. These are monthly recurring rates, usage rates and nonrecurring charges. These rates and charges are applied differently to the various rate elements as set forth in (D) following.

(A) Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a specific rate element is provided. Elements having a monthly "per mile" charge are charged per mile, per month. For billing purposes, each month is considered to have 30 days. For the Switched DNAL, the applicable mileage band rate will be applied per mile, per month.

Percent Originating Use POU for Dedicated Tandem Trunk Ports and Dedicated End Office Trunk Ports:

Dedicated End office Trunk Port and Dedicated Tandem Trunk Port are monthly recurring charges billed as originating and terminating based on a Percent Originating Usage (POU) factor of 50%.

Originating Calculation = PIU x Originating Rate x Quantity x POU
Terminating Calculation = PIU x Terminating Rate x Quantity X (100-POU)

(C)

(C)

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(B) Usage Rates

Usage rates are rates that apply only when a specific rate element is used. These are applied on a per access minute basis or on a per call basis. BellSouth SWA Common Transport transmission rates will be applied on a per mile, per minute of use basis. Usage rates are accumulated over a monthly period.

(1) BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service

A per call charge, as specified in 6.8.10 following, applies for each completed query. A completed query is when an 800 call utilizes BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and for which a BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service customer is identified.

Credits will be provided for BellSouth SWA Common Transport and Access Tandem Switching charges associated with BellSouth SWA FGD or BellSouth SWA TSBSA 3 service for 888 dialed Toll Free Dialing traffic delivered at the tandem from an end office which is 800 Service Switching Point (SSP) equipped but not 888 SSP equipped if the customer has direct BellSouth SWA FGD or BellSouth SWA TSBSA 3 trunks to that end office.

(2) BellSouth SWA 500 Service

A per call charge, as specified in 6.8.10 following, applies for each 500 call.

(3) BellSouth SWA CCS7 Access Arrangement Usage Feature

(a) An Integrated Switched Digital Network User Part (ISUP) usage charge per signaling message applies as specified in 6.8.1 following.

(b) A TCAP usage charge per signaling message applies as specified in 6.8.1 following.

(4) BellSouth Local Number Portability Database Services

(a) The rates associated with BellSouth LNP Database services are usage based and will be billed on a monthly basis. The BellSouth LNP Query Service charge will be applied to each subscribing Carrier query to the database. The BellSouth LNP Call Routing Service rate will be applied to each call delivered from a non-subscribing Carrier to a Telephone Company end office or access tandem switch requiring a query, which is subsequently completed to the end user.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation of new service or change to an existing service). The types of nonrecurring charges that apply for BellSouth SWA service are: installation of new service, installation of optional features, installation of BSEs, service rearrangements, transfer of service, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, and BellSouth SWA 900 service.

The following list identifies the individual BellSouth SWA service elements, for which charges are set forth in 6.8 following, which are eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in 2.4.9 preceding: These services are not eligible for the Service Installation Guarantee when the requested installation, move, or rearrangement of service interval is four days or less, as measured from the application date of the service order.

- 1) Switched Local Channels
- 2) BellSouth SWA Transport (Interoffice Channel) Installation
- 3) Dedicated Network Access Line Service, and
- 4) Optional Features (Installed coincident with Switched Local Channels, Switched Interoffice Channels and associated Channelization Equipment)

The following list identifies the BellSouth SWA Service elements not eligible for credit of nonrecurring charges under "Service Installation Guarantee" found in 2.4.9 preceding:

BellSouth SWA service Rearrangements, Conversions,
and/or Inside Moves,
Activation of BellSouth SWA 500 service, BellSouth SWA 900
service
NXX codes,
The BellSouth SWA FGD Common Channel Signaling Access
Capability
(BellSouth SWA CCSAC) and the SS7 Signaling Connection, and
the Point Code Establishment or Change, and
Transfer of Service
BellSouth Remote Access Service

Customers will be exempt from nonrecurring charges for the installation of new switched access transport facilities and optional features associated with those facilities, as set forth in 6.8.1 following, prompted by Local Transport Restructure, pursuant to the FCC Report and Order and Further Notice of Proposed Rulemaking in CC Docket No. 91-213, released October 16, 1992, pursuant to the provisions of 6.7.1(C)(3)(c), and 6.7.1(C)(3)(d), following during the time periods established therein.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

The exemption is applicable to the installation of facilities in connection with those rearrangements of existing switched access services which qualify for the waiver of service rearrangement nonrecurring charges for roll-overs and grooming, as set forth in 6.7.1(C)(3)(c) and 6.7.1(C)(3)(d).

(1) Installation of New Service

Nonrecurring charges apply to each BellSouth SWA service installed. For BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBBSA 1 BellSouth SWA service, which is ordered on a per line or trunk basis, respectively, and for BellSouth SWA FGD, and BellSouth SWA TSBBSA 3, the charge is applied per line or trunk. In addition, when CCS7 Signaling Connections are installed the charge is applied per signaling connection. (T)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(1) Installation of New Service (Cont'd)

(a) Switched Local Channel

Nonrecurring charges, as set forth in 6.8.1, following, apply to each Switched Access Service installed. When one Switched Local Channel is ordered and installed, it is billed at the First Service installed rate. When more than one Switched Local Channel of the same type is ordered and installed at the same locations, for the same customer, at the same time, the first Switched Local Channel is billed at the "First Service" installed charge and the other Switched Local Channels are billed at the "Additional Service" installed charges. Services requested on multiple ASRs will be treated as one request when requirements, as specified in 6.1.7, are met, and will receive "First" and "Additional" treatment. (T)

(b) BellSouth SWA Dedicated Transport

The nonrecurring charges for the Switched Dedicated Interoffice Transport, as set forth in 6.8.1, following, will be applied each time Switched Dedicated Interoffice Transport is ordered by the customer. (T)

(c) BellSouth SWA Common Transport

The installation charge, as set forth in 6.8.1, following, for BellSouth SWA Common Transport, is applicable on a first and additional line or trunk basis. If an IC places an Access Service Request (ASR) for multiple lines to the same end office or multiple trunks on a common trunk group with the same premises interface code, the first line or trunk on the ASR is assessed the "First" installation charge and each additional line or trunk is assessed the "additional" installation charge. Service requested on multiple ASRs will be treated as one request when requirements, as specified in 6.1.7, are met, and will receive "First" and "Additional" treatment. (N)

(2) Installation of Optional Features

If a separate nonrecurring charge applies for the installation of an optional feature (including BSEs) available with BellSouth SWA service, the applicable charge is dependent upon whether the feature or BSE is installed coincident with initial installation of service or at any time subsequent to the initial installation of service.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements

Service rearrangements are changes to existing services which do not result in either a change in the minimum period requirements, as set forth in 5.6 preceding, or a change in the physical location of the point of termination at the customer's premises or the customer's end user's premises. Changes which result in the establishment of new minimum period obligations are treated as discontinuance of service and establishment of new service. Changes in the physical location of the point of termination are treated as moves and are described and charged for as set forth in 6.7.7 following.

A change which results from a transfer of service, as set forth in 2.1.2 preceding, is described in (4) following and charged as set forth in 6.8.9 following.

Nonrecurring charges for service rearrangements apply to those additions, changes or rearrangements (excluding disconnection of optional features) made subsequent to the installation of new service.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves an actual physical change to the service. When actual physical work is required to rearrange the service, the charge to the customer is dependent upon where the work is performed to accomplish the requested change. The applicable charges for service rearrangements are charged on a transmission path, signaling connection, end office and/or end office and tandem level, as specified in 6.8 following.

- (a) Administrative changes, as identified below, will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Access Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the Access Service). Administrative changes are as follows:

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes its name--e.g., AT&T-Long Lines to AT&T Communications),
- Change of customer or customer's end user premises address when the change of address is not a result of a physical relocation of equipment,
- Change in billing data (name, address, or contact name or telephone number. The customer of record does not change.),
- Change of customer circuit identification,
- Change of billing account number,
- Change of customer test contact number,
- Change of customer or customer's end user contact name or telephone number,
- Change of jurisdiction,
- Change of Agency Authorization.

- (b) All other service rearrangements will be charged for as follows:

- (i) If the change involves the addition of an optional feature which has a separate nonrecurring charge, that nonrecurring Charge will apply. (The addition of Local Switching Optional Features or BSEs during coversion from BellSouth SWA FG service to BellSouth SWA LSBSA or BellSouth SWA TSBSA service will also incur the applicable nonrecurring charges.)

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

(b) (Cont'd)

(ii) With the exception of BellSouth SWA FGD and BellSouth SWA TSBSA 3 services converted from Multi-Frequency (MF) to Common Channel Signaling Access Capability (CCSAC), if the change involves rearrangement of a customer's existing lines and/or trunks groups, the addition and/or modification of an optional feature or BSE which does not have a separate nonrecurring charge, rearrangements that are accomplished via software translations changes such as those made in the common block of the switch (e.g., adding and/or changing carrier codes) and/or dialing arrangement changes to BellSouth SWA 500 service and BellSouth SWA 900 NXX service, and/or adding point codes associated with BellSouth CCS7 Access Arrangement Service, nonrecurring charges for service rearrangements will apply. A common charge is assessed for all changes submitted on the same ASR. Services requested on multiple ASRs will be treated as one request when the orders are received on the same day and related together by the customer. The nonrecurring charges for service rearrangements are as specified in 6.8.8 following.

(iii) If the change involves rearrangement of a customer's existing BellSouth SWA FGD and BellSouth SWA TSBSA 3 service from direct routed to access tandem routed trunks, no charge shall apply for the customer requested rearrangement as long as the following conditions are met:

1. Access tandem routed access was not available to the end office at the time the end office was converted to an equal access office.
2. The customer was providing service in the access tandem serving area prior to the availability of access tandem routed access, and
3. The customer requests the rearrangement of its trunks from direct routed access to access tandem routed access within six months of the first availability of access tandem routed access in that area.

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

(b) All other service rearrangements will be charged for as follows:
(Cont'd)

(iv) If the change involves a customer requested change of the Network Channel Interface (NCI) code associated with each switched access service provisioned as "Shared Use Facilities" on a DS1 special access High Capacity (a.k.a. BellSouth SPA DS1) service being converted or rolled over to a LightGate (a.k.a. BellSouth SPA Point to Point Network) service system, then a separate nonrecurring charge will apply for each switched access circuit affected as specified in 6.8.6 following.

If, due to technical limitations of the Telephone Company, a customer cannot combine its BellSouth SWA 500 service or BellSouth SWA Toll Free Dialing service traffic with its BellSouth SWA FGD or BellSouth SWA TSBSA 3 BellSouth SWA service traffic, no charge shall apply to combine these trunk groups when it becomes technically possible.

(v) When an optional feature or BSE is not required on each transmission path, but rather for an entire transmission path group, an end office or an access tandem switch, only one such charge will apply (i.e., it will not apply per transmission path). For example, if the requested option or change is common to more than one trunk, and the work required will be performed in the common block of the switch, the charge specified in 6.8.8(D) following will be multiplied by the total number of Company central offices (access tandem and end offices) involved.

(vi) When the BellSouth SWA CCSAC option is elected, the customer may add Calling Party Number (CPN), Charge Number (CN) and Carrier Selection Parameter (CSP) at no additional charge if these features are specified at the time the BellSouth SWA CCSAC option is ordered for existing switched access trunks.

(vii) When a customer requests the establishment or change of point code associated with BellSouth CCS7 Access Arrangement, then a separate nonrecurring charge will apply for each point code as specified in 6.8.1(I) following.

(viii) When the 64 CCC option is elected to upgrade an existing BellSouth SWA FGD or BellSouth SWA TSBSA 3 trunk equipped with BellSouth SWA CCSAC, the rearrangement charge as specified in 6.8.8(F) shall apply.

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

(b) All other service rearrangements will be charged for as follows:
(Cont'd)

- (ix) When the 64 CCC option is elected, the customer may select Access Transport Parameter (ATP) option at no additional charge if this feature is specified at the time the 64 CCC option is ordered for existing switched access trunks.
- (x) If the change involves the conversion, or rollover, of BellSouth SWA DS1 High Capacity service to BellSouth SWA DS3 High Capacity service, made at the customer's request, then a separate nonrecurring charge, as appropriate will apply to update the Network Channel Interface (NCI) code associated with each BellSouth SWA Voice Grade and/or other sub-DS1 level circuit riding the channelized BellSouth SWA DS1 High Capacity service(s) being rolled over. This charge will apply only where NCI code updates are requested by the customer. Payment of the nonrecurring charge(s) will be the responsibility of the customer who leases the channelized BellSouth SWA DS1 High Capacity service(s) being rolled over.
- (xi) Customers will be exempt from nonrecurring charges for Service Rearrangements, when the Service Rearrangement is to provision service to allow for the passing of Flex ANI digits 70 to the customer for the purpose of identifying calls for which per call compensation will be paid to the Payphone Service Provider, pursuant to the FCC Order on Reconsideration in CC Docket No. 96-128, released November 8, 1996.
- (xii) If the change involves the addition of BellSouth Remote Access Service ports, nonrecurring charges as set forth in 6.8.2(E) following will apply for the installation of the additional ports as well as appropriate BellSouth SWA LSBSA installation nonrecurring charges.
- (xiii) For all other changes, including the addition of optional features without separate nonrecurring charges, the Service Rearrangement charge, in 6.8.8 (G) and (H) following, will apply.

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

- (c) Customers will be exempt from nonrecurring charges for Service Rearrangements, prompted by Local Transport Restructure, as set forth in 6.8.8 (A) and (C) following, pursuant to FCC Report and Order and Further Notice of Proposed Rulemaking in CC Docket No. 91-213, released October 16, 1992, until December 31, 1994. The exemption is applicable to the replacement of access tandem routed trunks with direct end office routed trunks and to the replacement of direct end office routed trunks with access tandem routed trunks and to roll-overs and grooming of existing BellSouth SWA services, but shall not include BellSouth SWA services which ride special access services (a.k.a. BellSouth SPA). In addition, the waiver is limited to one change for a given Switched Access trunk, trunk group, or facility during the waiver period. In order for nonrecurring charges for Service Rearrangements to be waived, all ASRs must be placed by December 31, 1994 with due dates of no later than December 31, 1995, and the customer must maintain the same point of presence (POP) location. Additionally, the following conditions must be met to receive an exemption:

For access tandem to direct and direct to access tandem trunk rearrangements, the following additional requirements must be met:

- It is the responsibility of the customer to provide all related purchase order numbers pertaining to the connect ASR on the disconnect ASR.
- The connect ASR and the disconnect ASR must be placed at the same time.
- If the number of installed trunks exceed the number of trunks to be disconnected the customer must provide, at the time the ASRs are placed, justification based upon standard engineering methods.

For service rearrangements other than access tandem to direct and direct to access tandem trunk rearrangements, the following additional requirements must be met:

- When multiple ASRs are required, the ASRs must be submitted at the same time and the customer must provide related purchase order numbers pertaining to the multiple ASRs.

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

(d) Notwithstanding the provisions of 6.7.1(D)(3)(c) preceding, if a customer has submitted to BellSouth, by December 31, 1994, a letter indicating its intent to submit ASRs for the purpose of accomplishing the rearrangements described in such section and specifying, at a minimum:

- . Customer Name,
- . Access Carrier Name Abbreviations (ACNAs),
- . Carrier Identification Codes (CICs),
- . Purchase Order Number (PON),
- . Point of Presence (POP) Access Carrier Terminal Location (ACTL),
- . Desired Interface Level at POP after Rearrangement,
- . Target Completion Date for POP Rearrangement,
- . Existing Quantities Involved in Rearrangement by Number of DS3s, Number of DS1s and Number of Trunks/Lines per POP/ACTL, and
- . Expected Quantities Resulting by Number of DS3s, Number of DS1s and Number of Trunk/Lines per POP/ACTL,

the waiver specified in 6.7.1(D)(3)(c) preceding will apply for quantities indicated in such letter for each POP/ACTL indicated if:

- . ASRs for such quantities are submitted no later than 90 days prior to the due date;
- . the due dates of those ASRs are no later than December 31, 1995, and
- . the rearrangements otherwise qualify for the waiver pursuant to the requirements of 6.7.1(D)(3)(c) preceding.

(e) Nonrecurring charges will be waived for reconfigurations onto LightGate Service (a.k.a. BellSouth SPA Point to Point Network) and/or under the Network Optimization Waiver as specified in 7.4.20 following.

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(C) Nonrecurring Charges (Cont'd)

(4) Transfer of Service

When a change in billing data (e.g., name, address, contact name, or telephone number) is requested in association with a change in the customer of record, transfer of service charges, as set forth in 6.8.9 following will apply. Charges are applied on a Billing Account Number (BAN) basis and a Circuit basis. In addition, there are separate charges for transfers of service work associated with the switched access lines or trunks. These charges will be assessed on a per line basis for line side connections and/or on a per trunk basis for trunk side connections.

Transactions involving only subscription changes to the customer's end users' lines are not considered a transfer of service nor a service rearrangement. Subscription change charges are found in Section 13 following.

(5) BellSouth SWA 500 Service

A nonrecurring charge, as specified in 6.8.10 following, applies to BellSouth SWA 500 service. A nonrecurring charge applies for the first NXX code submitted on an Access Service Request (ASR) and is assessed per each Company End Office and Access Tandem in which translations are required to route BellSouth SWA 500 service calls to the customer. The additional charge applies for each additional BellSouth SWA 500 NXX code submitted on the same ASR and is assessed per each Company End Office and Access Tandem in which translations are required to route BellSouth SWA 500 service calls to the customer. In addition, rearrangement charges, as specified in 6.8.8 following, are applicable for rearrangements of the customer's existing trunk groups when the customer selects 0+ only or 1+ only 500 dialing capability over existing trunks and for any subsequent changes in the dialing capability associated with BellSouth SWA 500 service.

(6) BellSouth SWA 900

A nonrecurring charge as specified in 6.8.2(I) following applies to the activation of BellSouth SWA 900 NXX codes to be routed to a customer in the operating territory of the Telephone Company. There are two nonrecurring charges. The first 900 NXX code nonrecurring charge applies for the first BellSouth SWA 900 NXX code submitted on an Access Service Request (ASR) and is assessed per each Telephone Company End Office and Access Tandem in which translations are required to route 900 NXX calls to the customer. The additional BellSouth SWA 900 NXX code nonrecurring charge applies for each additional BellSouth SWA 900 NXX code submitted on the same ASR and is assessed per each Telephone Company End Office and Access Tandem in which translations are

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.2 Minimum Periods

Switched Access Service is provided for a minimum period of one month, with the exception of BellSouth Remote Access Service, which is provided for a minimum period of twelve months, and BellSouth Dedicated Ring and BellSouth SWA Managed Shared Network Service that is provided for a minimum period of four months. (D)

6.7.3 Reserved For Future Use

6.7.4 Minimum Monthly Charge

BellSouth SWA service is subject to a minimum monthly charge. The minimum charge applies for the total capacity provided. The minimum monthly charge is determined as follows:

The minimum monthly charge for the BellSouth SWA Transport, Local Switching, and the Information Surcharge rate elements is the sum of the charges set forth in Sections 6.8.1(A), 6.8.2(A) and 6.8.4.

6.7.5 Reserved For Future Use

6.7.6 Change of Service Category Type

Changes from one type of Service Category to another will be treated as a discontinuance of one type of service and a start of another. Nonrecurring charges will apply, with three exceptions.

- (1) When a customer upgrades a BellSouth SWA FGA or BellSouth SWA FGB/BellSouth SWA TSBSA 1 service to a BellSouth SWA FGD or BellSouth SWA TSBSA 3 service, the nonrecurring charges will not apply if the following conditions are met:
 - (a) The same customer premises is maintained, and
 - (b) The disconnections of BellSouth SWA FGA and the start of BellSouth SWA FGD or BellSouth SWA TSBSA 3 service are within the same LATA; or the disconnections of BellSouth SWA FGB or BellSouth SWA TSBSA 1 service and the start of BellSouth SWA FGD or BellSouth SWA TSBSA 3 service are within the same tandem subtending area.
 - (c) Reserved for Future Use

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.6 Change of Service Category Type (Cont'd)

(1) (Cont'd)

(d) In instances of BellSouth SWA FGB or BellSouth SWA TSBSA 1 service upgrades to BellSouth SWA FGD or BellSouth SWA TSBSA 3, whether installed at the tandem or converting end office, the BellSouth SWA FGB or BellSouth SWA TSBSA 1 service disconnects must be placed within 90 days of completion of the BellSouth SWA FGD or BellSouth SWA TSBSA 3 service order, with a disconnect due date of no more than 30 days from the placement or the disconnect ASR, in order to obtain credit for BellSouth SWA FGD or BellSouth SWA TSBSA 3 service nonrecurring charges.

(e) In order to receive nonrecurring charge credit for the installation of BellSouth SWA FGD or BellSouth SWA TSBSA 3 service as outlined in (a) to (d) above, it is the responsibility of the customer to provide all related purchase order numbers pertaining to the disconnection of BellSouth SWA FGA or BellSouth SWA FGB/BellSouth SWA TSBSA 1 service and the installation of BellSouth SWA FGD or BellSouth SWA TSBSA 3 service. Nonrecurring charges will apply for the BellSouth SWA FGD or BellSouth SWA TSBSA 3 service when it is installed, however, credits for the BellSouth SWA FGD or BellSouth SWA TSBSA 3 service nonrecurring charges will be issued upon disconnect of the BellSouth SWA FGA or BellSouth SWA FGB/BellSouth SWA TSBSA 1 service. This credit will be made on a line for trunk (BellSouth SWA FGA to BellSouth SWA FGD/BellSouth SWA TSBSA 3 service) or trunk for trunk (BellSouth SWA FGB/BellSouth SWA TSBSA 1 service to BellSouth SWA FGD/BellSouth SWA TSBSA 3 service) basis. Provisions of 2.4.1, preceding, do not apply to these credits for nonrecurring charges.

(2)

(D)

(D)

(3) When a customer initially changes from an existing feature group service to the equivalent unbundled service (i.e., BellSouth SWA FGA to BellSouth SWA LSBSA, BellSouth SWA FGB to BellSouth SWA TSBSA 1, and BellSouth SWA FGD to BellSouth SWA TSBSA 3), the nonrecurring charge will not apply. (After the initial change of a customer's service from an existing feature group to a BellSouth SWA Basic Serving Arrangement, all subsequent conversions of that service from BellSouth SWA Basic Serving Arrangement to BellSouth SWA FGs and vice versa, will incur the applicable nonrecurring charges.) The addition of additional local switching optional features or BSEs, however, will incur the applicable nonrecurring charges.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.6 Change of Service Category Type (Cont'd)

Billing for customers converting from feature group service categories to unbundled service categories prior to the end of the transition period will be handled as follows:

- For bill dates within the transition period, billing for the BellSouth SWA Basic Serving Arrangement will be effective on the customer's first bill date for that service subsequent to conversion. However, customer bills which contain billing for usage both prior to the tariff effective date and subsequent to the tariff effective date will result in a split bill. The usage prior to the effective date will be billed at the bundled feature group rates, and the usage on or after the effective date will be billed at the unbundled BellSouth SWA Basic Serving Arrangement rates. Customer bills which contain billing strictly for usage after the effective date of the tariff will be billed entirely at unbundled BellSouth SWA Basic Serving Arrangement rates.

Billing for customers whose service is converted from feature group service to unbundled BellSouth SWA Basic Serving Arrangement service at the end of the transition period will be handled as follows:

- The billing for the BellSouth SWA Basic Serving Arrangement will be effective with the customer's first bill date for that service subsequent to conversion. All usage on the first bill subsequent to conversion will be billed at unbundled rates.

When the effective dates for the disconnect and start of service are the same, minimum period obligations will not change (i.e., the time elapsed in the existing minimum period obligations will be credited to the minimum period obligations for BellSouth SWA FGD and BellSouth SWA TSBSA 3). When the effective dates for the disconnect and start of service are different, new minimum period obligations will be established for the BellSouth SWA FGD and BellSouth SWA TSBSA 3 service. When a customer converts an existing feature group to its BellSouth SWA Basic Serving Arrangement equivalent, minimum period obligations will not change. For all other changes from one type of service category to another, new minimum period obligations will also be established.

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.7 Moves

A move involves a change in the physical location of one of the following:

- The point of termination at the customer's premises
- The customer's premises

The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(A) Moves Within the Same Building (Inside Moves)

When the move is to a new location within the same building, service rearrangement charges as set forth in 6.7.1 will apply, except as set forth following:

- When the move involves circuits associated with the move of BellSouth SWA or Special Access High Capacity (a.k.a. BellSouth SPA High Capacity) service, charges as set forth in 6.8.5 following, will apply in addition to the appropriate charges in Section 7.
- When the move involves circuits associated with Interface Group 6, charges, as set forth in 6.8.5(B) following, will apply in addition to the charges in 6.8.6.
- When the move involves circuits associated with Interface Group 9, charges, as set forth in 6.8.5(C) following, will apply in addition to the charges in 6.8.6.

There will be no change in the minimum period requirements.

(B) Moves to a Different Building

Moves to a different building (customer premises) in a wire center serving area different than the customer's existing serving wire center serving area will be treated as a discontinuance and start of service and all applicable nonrecurring charges set forth in 6.8.1, and 20.31 will apply. Service will not be available simultaneously at both the original and new customer locations. New minimum period New minimum period requirements may be established for the rearranged services in accordance with the regulations for a service. The customer will also remain responsible for satisfying all outstanding minimum period charges for the original service locations.

6.7 Rate Regulations (Cont'd)

6.7.7 Moves (Cont'd)

(B) Moves To a Different Building (Cont'd)

Moves to a Telephone Company-provided BellSouth Expanded Interconnection service interconnection arrangement, where the customer's and interconnector's existing wire center is the same, will be treated as a service move rather than a discontinuance and start of service. Cross Connect rates, nonrecurring charges, and optional feature and function charges as contained in Section 13 of this Tariff will apply. In addition, service reconfiguration charges are applicable per customer request and per circuit moved as contained in 6.8.8 following. Individual services will not be available simultaneously at both the original premises location and new wire center interconnection space. Additional cooperative end-to-end testing is available and will be conducted by the Telephone Company when requested at rates and charges contained in 13.3.5(B) following. New minimum period requirements may be established for the rearranged services in accordance with the regulations for a service. The customer will remain responsible for satisfying all outstanding minimum period charges for the original service locations.

Moves to a different building (customer premises) in the customer's existing serving wire center serving area will be treated as a service move rather than a discontinuance and start of service. Nonrecurring charges for the new local channel will apply as well as any optional feature and function charges for that local channel. In addition, service reconfiguration charges are applicable per customer request and circuit moved as contained in 6.8.8 following. Service will not be available simultaneously at both the original and new customer locations. Additional cooperative end-to-end testing is available and will be conducted by the Telephone Company at a customer's request at rates and charges contained in Section 13.3.5(B) of this Tariff. New minimum period requirements may be established for the rearranged services in accordance with the regulations for a service. The customer will also remain responsible for satisfying all outstanding minimum period charges for the original service locations. When the move involves a multipoint service, the nonrecurring charge will apply per rate element affected.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.8 Measuring Access Minutes

Customer traffic to end offices will be measured (i.e., recorded or assumed) by the Telephone Company at end office switches or access tandem switches. Originating and terminating calls will be measured (i.e., recorded or assumed) by the Telephone Company to determine the basis for computing chargeable access minutes. For terminating calls over BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA, BellSouth SWA TSBSA 1, to BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, BellSouth SWA FGD, BellSouth SWA TSBSA 1 and BellSouth SWA TSBSA 3 the measured minutes are the chargeable access minutes. For originating calls over BellSouth SWA FGA and BellSouth SWA LSBSA where the off-hook supervisory signal is provided by the customer's equipment and BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA TSBSA 1 and BellSouth SWA TSBSA 3, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, and BellSouth SWA 900 service, the measured minutes are the chargeable access minutes. For originating calls over BellSouth SWA FGA and BellSouth SWA LSBSA where the off-hook supervisory signal is forwarded by the customer's equipment when the called party answers, chargeable originating access minutes are derived from recorded minutes in the following manner. (D)

Step 1: Obtain recorded originating minutes and messages (measured as set forth in (A) and (C) following for BellSouth SWA FGA and BellSouth SWA LSBSA where the off-hook supervisory signal is forwarded by the customer's equipment when the called party answers. (D)

Step 2: Obtain the total attempts by dividing the originating measured messages by the completion ratio. Completion ratios (CR) are obtained separately for the major call categories such as DDD, operator, BellSouth SWA 500, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, BellSouth SWA 900, Directory Assistance access and international from a sample study which analyzes the ultimate completion status of the total attempts which receive acknowledgement from the customer. That is, Measured Messages divided by Completion Ratio equals Total Attempts. (D)

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.8 Measuring Access Minutes (Cont'd)

Step 3: Obtain the total non-conversation time additive (NCTA) by multiplying the total attempts (obtained in Step 2) by the NCTA per attempt ratio. The NCTA per attempt ratio is obtained from the sample study identified in Step 2 by measuring the non-conversation time associated with both completed and incompleting attempts. The total NCTA is the time on a completed attempt from customer acknowledgement of receipt of call to called party answer (set up and ringing) plus the time on an incompleting attempt from customer acknowledgement of call until the access tandem or end office receives a disconnect signal (ring - no answer, busy or network blockage). That is, Total Attempts times Non-Conversation Time per Attempt Ratio equals Total NCTA.

Step 4: Obtain total chargeable originating access minutes by adding the total NCTA (obtained in Step 3) to the recorded measured minutes (obtained in Step 1). That is, Measured Minutes plus NCTA equals Chargeable Originating Access Minutes.

Following is an example which illustrates how the chargeable originating access minutes are derived from the measured originating minutes using this formula.

Where: Measured Minutes (M. Min.) = 7,000
Measured Messages (M. Mes.) = 1,000
Completion Ratio (CR) = .75
NCTA per Attempt = .4

$$(1) \text{ Total Attempts} = \frac{1,000(\text{M. Mes})}{.75} = 1,333.33$$

$$(2) \text{ Total NCTA} = .4 (\text{NCTA per Attempt}) \times 1,333.33 = 533.33$$

$$(3) \text{ Total Chargeable Originating Access Minutes} = 7,000(\text{M. Min}) + 533.33(\text{NCTA}) = 7,533.33$$

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.8 Measuring Access Minutes (Cont'd)

When assumed minutes are used, the assumed minutes are the chargeable access minutes.

BellSouth SWA FGA and BellSouth SWA LSBSA access minutes or fractions thereof, the exact value of the fraction being a function of the switch technology where the measurement is made, are accumulated over the billing period for each line or hunt group and are then rounded up to the nearest access minute for each line or hunt group. BellSouth SWA FGB, BellSouth SWA FGD and BellSouth SWA TSBSA access minutes or fractions thereof, the exact value of the fraction being a function of the switch technology where the measurement is made, are accumulated over the billing period for each end office, and are then rounded up to the nearest access minute for each end office. (D)

Assumed minutes are used for BellSouth SWA FGA and BellSouth SWA LSBSA service which originates or terminates in end offices not equipped with measurement capabilities.

The assumed average interstate access minutes for BellSouth SWA FGA and BellSouth SWA LSBSA are as set forth following.

When a BellSouth SWA FGA and BellSouth SWA LSBSA service arranged for two-way calling is provided where the originating and/or terminating access minutes are not recorded, the assumed average interstate access minutes, by direction, are shown below. Where one direction is measured and the other is not, the assumed minutes for the unmeasured direction are used. However, the total minutes will not exceed the actual recorded minutes or the sum of the originating and terminating assumed minutes, whichever is greater.

When a BellSouth SWA FGA and BellSouth SWA LSBSA service arranged for one-way (i.e., originating only or terminating only) calling is provided where the access minutes are not recorded, the assumed average interstate access minutes of use are shown following

(D) BellSouth SWA FGD, BellSouth SWA TSBSA 3 service Usage Measurement

For originating calls over BellSouth SWA FGD except when equipped with tandem signaling and BellSouth SWA TSBSA 3 with multi-frequency address signaling, usage measurement begins when the originating BellSouth SWA FGD and BellSouth SWA TSBSA 3 entry switch receives the first wink supervisory signal (the second wink when equipped with tandem signaling) forwarded from the customer's point of termination. For originating calls over BellSouth SWA FGD and BellSouth SWA TSBSA 3 with BellSouth SWA CCSAC, usage measurement begins when the last point of switching sends the initial address message to the customer.

The measurement of originating call usage over BellSouth SWA FGD and BellSouth SWA TSBSA 3 ends when the originating BellSouth SWA FGD and BellSouth SWA TSBSA 3 entry switch receives disconnect supervision from either the originating end user's end office, indicating the originating end user has disconnected, or the customer's point of termination, whichever is recognized first by the entry switch.

For terminating calls over BellSouth SWA FGD, BellSouth SWA TSBSA 3 the measurement of access minutes begins when the terminating BellSouth SWA FGD, BellSouth SWA TSBSA 3 entry switch receives answer supervision from the terminating end user's end office, indicating the terminating end user has answered.

The measurement of terminating call usage over BellSouth SWA FGD, BellSouth SWA TSBSA 3 ends when the terminating BellSouth SWA FGD, BellSouth SWA TSBSA 3 entry switch receives disconnect supervision from either the terminating end user's end office, indicating the terminating end user has disconnected, or the customer's point of termination, whichever is recognized first by the entry switch.

6.7.9 Network Blocking Charge for BellSouth SWA FGD and BellSouth SWA TSBSA 3

The customer will be notified by the Telephone Company to increase its capacity when excessive trunk group blocking occurs on groups carrying BellSouth SWA FGD and BellSouth SWA TSBSA 3. Excessive trunk group blocking occurs when the blocking thresholds as described in 6.5.7 preceding are exceeded. If the order for sufficient additional capacity to handle the customer's traffic has not been received by the Telephone Company within 15 days of the notification, the Telephone Company will bill the customer, at the rate set forth in 6.8.1 following, for each overflow in excess of the chargeable threshold.

6.7.10 Application of Rates for Extension Service (Cont'd)

BellSouth SWA FGA and BellSouth SWA LSBSA extensions in a different Telephone Company Local Exchange as the dial tone office are charged for as Special Access (a.k.a. BellSouth SPA) Service. The rate elements which apply are: Voice Grade Local Channels, associated Voice Grade Interoffice Channel mileage if applicable, and Signaling Capability (optional features and functions and BSEs), if applicable. All appropriate monthly rates and nonrecurring charges set forth in Section 7. following will apply. Such extensions are ordered as set forth in 5.2 preceding.

6.7.11 Message Unit Credit

Calls from end users to the seven digit local telephone numbers associated with BellSouth SWA FGA and BellSouth SWA LSBSA service are subject to Telephone Company General Subscriber Service tariff charges (including message unit and toll charges as applicable). The monthly bills rendered to customers for their BellSouth SWA FGA and BellSouth SWA LSBSA service will include a credit to reflect any message unit charges collected from their end users under the Telephone Company's General Subscriber Service tariffs.

The credit will apply for recorded originating usage or for assumed originating usage, as appropriate for the BellSouth SWA FGA and BellSouth SWA LSBSA service provided. When the credit is applied on assumed usage, such credit will not exceed the assumed levels of usage set forth in 6.7.8 preceding. No credit will apply for any terminating BellSouth SWA FGA and BellSouth SWA LSBSA access minutes. The message unit credit for originating BellSouth SWA FGA and BellSouth SWA LSBSA access minutes is as follows.

6.7.12 Local Information Delivery Services

Calls over BellSouth SWA in the terminating direction to certain community information services will be rated under the applicable rates for BellSouth SWA service as set forth in 6.8 following. In addition, the charges per call as specified under the Telephone Company's General Subscriber Service tariffs will apply.

6.7.13 Mileage Measurement

The mileage to be used to determine the monthly rate for the BellSouth SWA Transport is calculated based on airline distance using the method set forth in the NECA TARIFF F.C.C. NO. 4 for Wire Center Information (V&H coordinates).

To determine the rate to be billed, first compute the mileage using the V&H coordinates method for the points involved, then apply the per mile rate shown. If the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage and applying the rates. Exceptions and additional regulations are set forth in (A) through (F) following.

- (B) When the Alternate Traffic Routing optional feature is provided with BellSouth SWA FGB, BellSouth SWA FGD, BellSouth SWA TSBSA, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service and BellSouth SWA 900 service to provide service from an end office to different customer premises locations, switched transport will be apportioned between the two transmission routes used to provide this feature. For BellSouth SWA 8XX FGB, and BellSouth SWA TSBSA 1, such apportionment will be made using standard Telephone Company traffic engineering methodology and will be based on the last trunk CCS desired for the high usage group, as described in 6.3.2(A) preceding. For BellSouth SWA FGD, BellSouth SWA TSBSA 3, BellSouth SWA 500 service, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service, and BellSouth SWA 900 service the apportionment will be based on the actual measured data which is recorded against the specific trunk group that carried a particular call. This apportionment will serve as the basis for the switched transport mileage calculation. The customer will be billed accordingly. (D)

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.13 Mileage Measurement (Cont'd)

- (E) The BellSouth SWA Transport mileage for BellSouth SWA FGD and BellSouth SWA TSBSA 3 which originates from or terminates to a WATS Access Line (a.k.a. BellSouth SPA WATS Line) and BellSouth SWA FGA, BellSouth SWA LSBSA, BellSouth SWA FGB, and BellSouth SWA TSBSA 1 which terminates to a WATS Access Line (a.k.a. BellSouth SPA WATS Line) will be calculated on an airline basis, to the WATS Serving Office at which the WATS Access Line (a.k.a. BellSouth SPA WATS Line) or WATS Access Line Extension terminate. When BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA or BellSouth SWA TSBSA 1 usage terminating to a WATS Access Line (a.k.a. BellSouth SPA WATS Line) is transported over a BellSouth SWA FGA or BellSouth SWA LSBSA line or BellSouth SWA FGB or BellSouth SWA TSBSA 1 trunk for which assumed minutes of use are billed, the BellSouth SWA Transport mileage for such usage will be calculated in accordance with (E) preceding. (D)
- (F) For BellSouth SWA FGB and BellSouth SWA FGD and, BellSouth SWA TSBSA 1 and BellSouth SWA TSBSA 3 service provided for access to Mobile Telephone Serving Offices (MTSOs) directly interconnected to a Telephone Company Access Tandem office and for BellSouth SWA FGD and BellSouth SWA TSBSA 3 service provided for access to Telecommunications Relay Service Centers directly interconnected to a Telephone Company Access Tandem office, the BellSouth SWA Transport mileage will be determined on an airline basis, using the V&H coordinate method. The mileage will be measured to the Telephone Company Access tandem office to which the MTSO or Telecommunications Relay Service Center is interconnected.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.14 Shared Use

Shared use occurs when BellSouth SWA and Special Access (a.k.a. BellSouth SPA) services are provided over the same high capacity facility through a common interface. Shared use facilities will be ordered, provisioned and billed in accordance with the regulations set forth in 5.7 preceding, and 6.7.18 and 7.4.8 following.

When the customer orders BellSouth Dedicated Ring, the facilities will be rated as BellSouth Dedicated Ring (i.e., Local Channel, Interoffice Channel, as appropriate, and Channelization System and Central Office Channel Interface(s), if applicable) until such time as the customer chooses to use a portion of the available capacity for providing Special Access (a.k.a. BellSouth SPA) service. When individual channels are activated for Special Access (a.k.a. BellSouth SPA) service, the BellSouth Dedicated Ring Local Channel rates, Interoffice Channel rates, and Channelization System rates, if applicable, will be reduced via a reduction factor. The reduction factor will be developed using the net number of Special Access (a.k.a. BellSouth SPA) services provided over a BellSouth Dedicated Ring at the beginning of a monthly billing period.

The capability exists for a customer to utilize all or part of a BellSouth Dedicated Ring to transport Special Access (a.k.a. BellSouth SPA) service provided the BellSouth Dedicated Ring channel interface transporting the Special Access (a.k.a. BellSouth SPA) service does not have BellSouth Customer Network Management Service capability as described in 7.2.11(A) preceding. The customer must place an order for each individual Special Access (a.k.a. BellSouth SPA) service Channel provided over BellSouth SWA Shared Use Facilities and specify the channel assignment for each such service. The Special Access (a.k.a. BellSouth SPA) service traffic would enter and exit the BellSouth Dedicated Ring at Customer and Central Office Nodes on that network. When this occurs, ratcheting of BellSouth Dedicated Ring rate elements (i.e. Nodes, Channel Interfaces, Local Channels, Alternate Central Office Channels, Internodal Channels, or Interoffice Channels) will be based on the number of voice grade (BellSouth SWA DSO VG) equivalent trunks/lines of that rate element used for Special Access (a.k.a. BellSouth SPA) service. Reduction factors will be developed to reduce the charges on system level billing as well as the billing on individual DS1, DS3, STS-1, OC-3, and/or OC-12 Channel Interfaces. For ratcheting purposes, the system level charges include Customer Nodes, Central Office Nodes, Local Channels, Alternate Central Office Channels, Internodal Channels, and Interoffice Channels as appropriate to make up a customer's BellSouth Dedicated Ring. Individual OC-1, OC-3 and OC-12 Channel Interfaces used in Overlay Ring Arrangements will be ratcheted as system level charges. The system reduction factor will apply to the system level charges.

The system reduction factor will be derived by dividing the number of activated Special Access (a.k.a. BellSouth SPA) access circuits by the voice grade (BellSouth SWA DSO VG) channel equivalent capacity of the self-healing ring. An OC-1 BellSouth Dedicated Ring has 672 voice grade (BellSouth SWA DSO VG) equivalent channels. A BellSouth Dedicated Ring has 2,016 voice grade (BellSouth SWA DSO VG) equivalent channels. An OC-3+ or OC-12 BellSouth Dedicated Ring has 8,064 voice grade equivalent channels. An OC-48 BellSouth Dedicated Ring or OC-48+ BellSouth Dedicated Ring with 48 or less activated DS3s has 32,256 voice grade (BellSouth SWA DSO VG) equivalent channels.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.14 Shared Use (Cont'd)

However, when an OC-48+ BellSouth Dedicated Ring is used to transport Special Access (a.k.a. BellSouth SPA) service, and more than 48 equivalent DS3s are activated on the service, the factor will be based upon the actual number of activated DS3s times 672 DS0s. A factor for individual DS3 channel interfaces and 28 DS1 channel systems, will be derived by dividing the number of activated Special Access (a.k.a. BellSouth SPA) access circuits associated with the DS3 channel by the voice grade (BellSouth SWA DS0 VG) equivalent capacity of the DS3 channel. A DS3 has 672 voice grade (BellSouth SWA DS0 VG) equivalent channels. For DS1 channel interfaces, a factor is derived by dividing the number of Special Access (a.k.a. BellSouth SPA) access circuits associated with the DS1 channel by the voice grade (BellSouth SWA DS0 VG) equivalent capacity of the DS1 channel, which is 24. Each reduction factor is rounded to four decimal places and then multiplied against the respective monthly charges to determine the reduction amount.

BellSouth Dedicated Ring rates and charges as set forth in 6.8.1 following will apply for each channel of the shared use facility that is used to provide BellSouth SWA service.

6.7.15 Information Surcharge

The Information Surcharge is a charge to recover costs that have been assigned to the interstate Information category through Parts 36 and 69 of the Commission's Rules. These costs are other than those incurred in the provision of interstate BellSouth Directory Assistance Access service as set forth in Section 9 following.

The Information Surcharge is assessed to the customer based on the total number of access minutes. The rates are set forth in 6.8.4 following. The application of these rates with respect to the individual BellSouth SWA FGs and BellSouth SWA Basic Serving Arrangements, are as set forth in 6.7.1(E) preceding.

6.7.16 Shared Network Arrangement

Shared Network Arrangement provides for multiple customers to connect their individual services on channelized High Capacity Service. These service configurations will be limited to BellSouth SWA DS3 service customers sharing capacity with other sub-DS3 service customers and/or BellSouth SWA DS1 service customers sharing capacity with other sub-DS1 customers. Additional regulations for Shared Network Arrangements are as follows in 7.4.11.

A one-time coordination charge will be assessed with the establishment of a Shared Network Arrangement. In addition to the coordination charge, a separate nonrecurring charge will apply to each service order on a shared network account. Applicable nonrecurring charges apply as set forth in 6.8.7 following.

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.17 Facility Hubs

A customer has the option of ordering digital high capacity facilities (i.e., DS1 or DS3) to a Facility Hub for channelizing to individual services requiring lower capacity facilities.

Different locations may be designated as Hubs for different facility capacities, e.g., channelization from digital to digital may occur at one location while channelization from digital to analog may occur at a different location. When ordering, the customer will specify the desired channelization Hub(s) selected from the NECA TARIFF FCC NO. 4. NECA 4 identifies where the type(s) of channelization functions which are available and the Telephone Company wire centers at which they are available. For additional information on Facility Hubs refer to 7.4.7 following.

6.7.18 Reserved for Future Use

6.7.19 Zone Pricing - BellSouth SWA Transport

BellSouth SWA Transport service is organized into three pricing zones. Rate levels for switched Local Channel, Switched Interoffice Channels and Channelization Systems will be billed in accordance with the pricing zone assignment of the customer's serving wire center. The pricing zone assignment for each Telephone Company serving wire center is as specified in the NATIONAL EXCHANGE CARRIER ASSOCIATION (NECA) TARIFF F.C.C. NO. 4.

BellSouth SWA Interoffice Channels, which terminate in offices in different zones will be billed the higher rate. When interoffice channels are provided by more than one telephone company, this Telephone Company's portion of the circuit will be billed at the Zone Rate of this Company's central office, and the other telephone company's portion of that circuit will be billed in accordance with that company's tariff, pursuant to 2.4.7.(C) preceding. Channelization rates will be determined by the location of the channelization arrangement.

ISSUED: FEBRUARY 14, 2019

EFFECTIVE: MARCH 1, 2019

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.19 Zone Pricing - BellSouth SWA Transport (Cont'd)

BellSouth SWA Dedicated Transport service is available under an Area Commitment Plan (ACP) as described in 2.4.8(B) preceding. ACP for BellSouth SWA Dedicated Transport service is available for switched local channels, switched dedicated interoffice channels and switched Channelization Systems. BellSouth SWA Dedicated Transport interoffice facility termination rate elements will receive the same ACP rate treatment as the associated interoffice channel.

BellSouth SWA Transport service is available under several payment plans: Month-to-month (with a minimum of one month), and Area Commitment Plans A (24-48 Months)⁽¹⁾ and B (49-72 Months)⁽¹⁾.

(C)

Monthly rates and nonrecurring charges as specified in 6.8.1 following apply for BellSouth SWA Transport service.

6.7.20 BellSouth Dedicated Ring

Monthly rates and charges as specified in 6.8.1. following apply for each BellSouth Dedicated Ring. Customers must specify network capacity at the time of the initial order. In an Overlay Ring Arrangement where a customer's overlaying BellSouth Dedicated Ring rides the customer's host BellSouth Dedicated Ring, the overlay ring will share the transport of the host ring between common node locations. Rate categories at OC-3, OC-3+, OC-12, OC-48, OC-48+, OC-192, and OC-192+ capacity levels include Customer Nodes, Central Office Nodes, Local Channels, Alternate Central Office Channels, Interoffice Channels and Internodal Channels. Rate categories for OC-1 BellSouth Dedicated Ring include Customer Nodes and Central Office Nodes. Channel Interfaces are required at each node on the network and must be associated with a BellSouth Dedicated Ring. An OC-1 Overlay Ring Arrangement requires an OC-1 Channel Interface at each node involved. An OC-3 Overlay Ring Arrangement requires an OC-3 Channel Interface at each node involved. An OC-3+ or OC-12 Overlay Ring Arrangement requires an OC-12 Channel Interface at each node involved. An OC-48 or OC-48+ Overlay Ring Arrangement requires an OC-48 Channel Interface at each node involved. In Overlay Ring Arrangements, the customer must order a Channel Interface for each entry to or exit from the host ring. In all other situations, the number of Channel Interfaces ordered will depend on whether the customer desires a working interface, or a working interface and a protection interface. The quantity of channel interfaces ordered may not exceed the capacity ordered. When a 28 DS1 Channel System is utilized to activate DS1 channels, the appropriate number of DS1 Channel Interfaces are required in lieu of an originating or terminating DS3 or STS-1 Channel Interface.

Nonrecurring charges for Local, Alternate Central Office, Interoffice and Internodal Channels apply for each channel for month-to-month customers. Nonrecurring charges are not applicable when the ring level rate elements are ordered under TPP arrangements.

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.20 BellSouth Dedicated Ring (Cont'd)

BellSouth Dedicated Ring ring rate elements are defined as following: Local Channel, Interoffice Channel, Internodal Channel, Alternate Central Office Channel, Customer Node and Central Office Node. Nonrecurring charges do apply for the Channel Interface Reallocation rate element and the BellSouth Dedicated Ring rearrangement rate element (Surveillance) for TPP customers. When the customer requests two separate routes and the routing is provided as described in 6.2.10(A) preceding, charges apply for the Local Channels and any Interoffice Channels on the requested route. Recurring charges for Local, Alternate Central Office, Interoffice and Internodal Channels apply for each quarter air mile increment of the channel. Fractions of a quarter mile will always round up to the next quarter air mile before determining the mileage and applying the rate. For channels which are less than one quarter mile, a minimum charge of one quarter mile applies.

For Internodal Channels, charges apply as appropriate either for the same wire center area or contiguous serving wire center areas, as specified in 6.8.1.

Nonrecurring charges for Customer Nodes and Central Office Nodes apply per node for month-to-month customers and are based upon the capacity of the ring configuration. Nonrecurring charges are not applicable when the preceding rate elements are ordered under TPP arrangements. Recurring rates for Customer and Central Office Nodes apply per node and are also based upon the capacity of the ring configuration.

When the customer orders an OC-1 BellSouth Dedicated Ring Overlay Ring Arrangement riding the customer's host OC-12, OC-48, or OC-48+ BellSouth Dedicated Ring, recurring charges apply per OC-1 Customer Node and/or OC-1 Central Office Node, in addition to the recurring and nonrecurring charges for associated Channel Interfaces.

When the customer orders an OC-3 BellSouth Dedicated Ring Overlay Ring Arrangement riding the customer's host OC-12, OC-48, or OC-48+ BellSouth Dedicated Ring, recurring charges apply per OC-3 Customer Node and/or OC-3 Central Office Node, in addition to the recurring and nonrecurring charges for associated Channel Interfaces. Nonrecurring charges only apply for month-to-month customers.

When the customer orders an OC-3+ or OC-12 Overlay Ring Arrangement riding the customer's host OC-48 BellSouth Dedicated Ring, recurring charges apply per OC-3+ and/or OC-12 Customer Node and/or per OC-3+ and/or OC-12 Central Office Node, in addition to the charges for associated Channel Interfaces. Nonrecurring charges only apply for month-to-month customers.

When the customer orders an OC-3, OC-3+, OC-12 or OC-48 Overlay Ring Arrangement riding the customer's host OC-192+ BellSouth Dedicated Ring, recurring charges apply per OC-3, OC-3+, OC-12 and/or OC-48 Customer Node and/or per OC-12 and/or OC-48 Central Office Node, in addition to the charges for associated Channel Interfaces. Nonrecurring charges only apply for month-to-month customers.

In all Overlay Ring Arrangements, the number of OC-1, OC-3, and/or OC-12 Channel Interfaces required will be based upon the characteristics of the overlaying ring.

EFFECTIVE: MARCH 1, 2019

ACCESS SERVICE
6 - BellSouth SWA Service

6.7 Rate Regulations (Cont'd)

6.7.20 BellSouth Dedicated Ring (Cont'd)

The rates for Customer Channel Interfaces apply for each origination and for each termination of an activated DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 at the Customer Node. Nonrecurring charges are established on a per order basis for the first DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 which originates or terminates at a Customer Node and for each additional DS1, DS3, STS-1, OC-3, OC-12, and/or OC-48 which originates or terminates at the same Customer Node. The recurring rate applies on a per Customer Node basis for each origination and for each termination of an activated DS3 and/or DS1 at a Customer Node.

In addition, OC-12 and or OC-48 customers with DS3 and/or STS-1 interfaces at the Customer Node electing to connect with DS1 services at a Central Office Node, must obtain a 28 DS1 Channel System and the appropriate number of DS1 Channel Interfaces in lieu of a DS3 or STS-1 Channel Interface. A maximum of 28 DS1 Channel Interfaces can be activated for each 28 DS1 Channel System utilized. Nonrecurring charges are established on a per order basis for the first 28 DS1 Channel System and for each additional 28 DS1 Channel System at that same Central Office Node. Nonrecurring charges are also established for the first DS1 Channel Interface which originates/terminates in a 28 DS1 Channel System and each additional DS1 Channel Interface which originates/terminates in that same DS1 Channel System. For DS1 Channel Systems, nonrecurring charges only apply for month-to-month customers. The recurring rate applies for each 28 DS1 Channel System and each DS1 Channel Interface activated per Central Office Node.

A nonrecurring charge applies for BellSouth Dedicated Ring Surveillance, one for each Customer Node and each Central Office Node, per BellSouth Dedicated Ring. This charge applies when the customer adds BellSouth Customer Network Management options to an existing OC-1, OC-3, OC-3+ OC-12, OC-48, OC-48+, OC-192 or OC-192+ BellSouth Dedicated Ring.

In order to accommodate more flexible customer situations, BellSouth Dedicated Ring is available under several TPP arrangements: Plan A (12-36 Months), Plan B (37-60 Months)⁽¹⁾ or Plan C (61-96 Months)⁽¹⁾. Month-to-month arrangements (with a minimum of four months) are available for BellSouth Dedicated Ring. (C)

TPP arrangements are provided under the terms and conditions specified in 2.4.8 preceding, except as modified following. For all payment plans, the following regulations apply:

- (1) BellSouth Dedicated Ring, whether initially or subsequently ordered in conjunction with SMARTRing service (a.k.a. BellSouth SPA Dedicated Ring), must be provided under the same TPP payment plan with the same service period and both services are to be coterminous.

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.20 BellSouth Dedicated Ring (Cont'd)

All rate elements, for a given BellSouth Dedicated Ring (i.e., Local Channel, Alternate Central Office Channel, Internodal Channel, Interoffice Channel, Customer Node, and Central Office Node), whether initially or subsequently ordered, must be provided under the same payment plan with the same service period and are coterminous upon disconnect of the BellSouth Dedicated Ring. However, Channel Interfaces, except those utilized to interface an overlaying ring with its host ring, may be provided under a monthly rate arrangement which is greater than, equal to or less than the payment plan for the associated BellSouth Dedicated Ring.

In a shared network arrangement, where the host subscriber and the connecting service user subscribes to services under TPP arrangements, the payment periods for directly associated channelized rate elements must be equal to or less than the payment periods for the host service, or the service user must order those rate elements under month-to-month payment terms. Where the host subscriber receives services under month-to-month payment terms, a connecting user must also receive directly associated channelized rate elements under month-to-month payment terms.

- (2) The rates applicable to a month-to-month payment plan are subject to Telephone Company initiated charges.
- (3) Termination liability charges for BellSouth Dedicated Ring TPP customers are applicable as specified in 2.4.8(D) preceding.
- (4) When a service period under a TPP arrangement is completed and a customer elects to revert to a month-to-month payment option, no minimum period is applicable.

The TPP customer of record will have a 60 day grace period after which month-to-month rates will apply.

ISSUED: JUNE 16, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.20 BellSouth Dedicated Ring (Cont'd)

- (5) Customers may upgrade from a lower capacity BellSouth Dedicated Ring to a higher capacity BellSouth Dedicated Ring without incurring any termination charges if the following conditions are met:
 - (a) the order for the upgraded BellSouth Dedicated Ring and the order for the disconnect of the existing BellSouth Dedicated Ring are received by the Telephone Company at the same time,
 - (b) the new BellSouth Dedicated Ring is provided between the same customer and Central Office locations as the discontinued BellSouth Dedicated Ring,
 - (c) the number of Channel Interfaces activated under the new capacity BellSouth Dedicated Ring is greater than the number of Channel Interfaces activated under the existing capacity BellSouth Dedicated Ring.
 - (d) the expiration date of the new BellSouth Dedicated Ring payment plan is subsequent to the payment plan of the ring being discontinued.
- (6) Customers may also upgrade existing BellSouth Dedicated Ring to a new BellSouth Dedicated Ring of the same capacity without incurring a termination liability charge, if the customer is concurrently ordering a new capability which cannot be provisioned with the existing BellSouth Dedicated Ring and if the conditions set forth in (5) above are met.
- (7) A customer with BellSouth SWA Transport under an Area Commitment Plan (ACP), as described in Section 2.4.8(B), that subscribes to BellSouth Dedicated Ring, will be allowed to adjust their commitment level of services under the ACP and a termination liability charge will not apply. This adjustment in the ACP commitment level must be coordinated with the installation of BellSouth Dedicated Ring. The new ACP commitment level must be equal to or greater than the current commitment level less the quantity of services converted to BellSouth Dedicated Ring.
- (8) BellSouth Dedicated Ring and the applicable rates will commence beginning with the date a customer orders service. However, where ordering and billing processes have not yet been converted to BellSouth Dedicated Ring, the customer must order any additional services to be provided under BellSouth Dedicated Ring as existing tariffed services and be billed under tariff rates which would apply for such services, with monthly billing adjustments made to such billing to assure application of the appropriate BellSouth Dedicated Ring rates.

6.7.22 BellSouth Remote Access Service

Rates and charges as specified in 6.8.2(E) following apply for BellSouth Remote Access Service.

- On or after October 15, 2002, BellSouth® Remote Access Service initial requests to establish service provide a minimum capacity of 644 one-way ports per dial tone office. Customers in service prior to October 15, 2002, may continue their service with a minimum capacity of 276 one-way ports.
- BellSouth® Remote Access Service subsequent request provides a capacity of 23 one-way ports per dial tone office (where capacity allows).

The customer is responsible for all interface support for clients and/or employees.

BellSouth Remote Access Service, available with BellSouth SWA LSBSA, is provided from suitably equipped Telephone Company offices. These offices are identified in the National Exchange Carrier Association FCC No. 4 tariff.

BellSouth Remote Access Service, available with BellSouth SWA LSBSA, is available on a one to one basis, i.e., one LSBSA, one Remote Access Service port.

Service intervals for BellSouth Remote Access Service, available with BellSouth SWA LSBSA, will be negotiated.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service

Rates and charges as specified in Section 6.8.1(M) following apply for BellSouth SWA Managed Shared Network Service on a per DS3, DS1 or DS0 service component basis for BellSouth SWA Managed Shared Network Service. Rate elements are DS1 and DS0 interfaces, DS1 and DS0 interoffice channels and DS3 local channels. Switched services provided at an Origination Location are provided pursuant to other sections of this tariff.

BellSouth SWA Managed Shared Network Service DS1 or DS0 interface and interoffice charges apply based upon the level of the service (i.e., DS1 or DS0) collected at an Origination Location. The DS1 Interface may be either a DS1 Interface associated with nonchannelized DS1 service or it may be a DS1 Message Trunk Interface when the DS1 is used to provide message trunk terminations. The DS0 Interface may be either for a DS0 line side connection or for a DS0 trunk side connection. Interface charges apply at the Aggregation Location's serving wire center. Mileage for BellSouth SWA Managed Shared Network Service interoffice channels is measured from the Origination Location to the serving wire center of the traffic's associated Aggregation Location. For BellSouth SWA Managed Shared Network Service interoffice channels, which terminate in different zones, the highest zone rate will apply (i.e., Zone 1 is the lowest and Zone 3 is the highest).

The BellSouth SWA Managed Shared Network Service local channel charges apply for the DS3 local channels utilized to deliver BellSouth SWA Managed Shared Network Service traffic to the customer, either at an Aggregation Location or at an associated Alternate Aggregation Location. The specific BellSouth SWA Managed Shared Network Service DS3 local channel charge which applies is dependent upon the total quantity of DS3 local channels utilized to carry BellSouth SWA Managed Shared Network Service traffic and BellSouth SPA Managed Shared Network Service traffic, which is associated with a given Aggregation Location, on a per Aggregation Location basis. For example, if five DS3 local channels are utilized to carry BellSouth SWA Managed Shared Network Service traffic and 10 DS3 local channels are utilized to carry BellSouth SPA Managed Shared Network Service traffic associated with Aggregation Location A, then the 15 DS3 Local Channel rate for BellSouth SWA Managed Shared Network Service and BellSouth SPA Managed Shared Network Service would be utilized to calculate the BellSouth SWA Managed Shared Network Service and BellSouth SPA Managed Shared Network Service DS3 Local Channel charges based on the portion of each service's DS3 Local Channels, relative to the total. If the BellSouth SWA Managed Shared Network Service DS3 Local Channel rate for 15 DS3s is \$10,000 and the BellSouth SPA Managed Shared Network Service DS3 Local Channel rate for 15 DS3s is \$10,000, then the respective services' current month charges, based on the scenario above, would be calculated as follows:

- BellSouth SWA Managed Shared Network Service = $\$10,000 \times 5/15 = \$3,333.33$
- BellSouth SPA Managed Shared Network Service = $\$10,000 \times 10/15 = \$6,666.67$

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service (Cont'd)

If a customer increases or decreases the total number of BellSouth SWA Managed Shared Network Service and BellSouth SPA Managed Shared Network Service DS3 Local Channels at an Aggregation Location, relative to the previous month's service, a billing adjustment will be made to consider a partial month's billing at the increased or decreased level. The billing adjustment will equal to one half of the difference between the charge for the previous month's level of DS3 local channels and the charge for the current month's level of DS3 local channels. For example, if in the current month, the customer has 5 BellSouth SWA Managed Shared Network Service DS3 local channels and 11 BellSouth SPA Managed Shared Network Service DS3 Local Channels for a total traffic requirement of 16 DS3 Local Channels and for the previous month, the customer had 5 BellSouth SWA Managed Shared Network Service DS3 Local Channels and 10 BellSouth SPA Managed Shared Network Service DS3 Local Channels for a total traffic requirement of 15 DS3 Local Channels, a billing adjustment would apply. If the BellSouth SWA Managed Shared Network Service DS3 Local Channel rate for 16 DS3s is \$10,600 and the BellSouth SPA Managed Shared Network Service DS3 Local Channel rate for 16 DS3s is \$10,600, then the respective services' current month charges and billing adjustment would be calculated as follows:

- BellSouth SWA Managed Shared Network Service current month's charge = $\$10,600 \times 5/16 = \$3,312.50$
- BellSouth SPA Managed Shared Network Service current month's charge = $\$10,800 \times 11/16 = \$7,287.50$
- The current month's total DS3s are 16 and the previous month's total DS3s were 15, therefore, there is a billing adjustment to consider that 1 DS3 was added during the current month. The billing adjustment = previous month's charges minus current month's charges times 50% = $((\$3,333.33 + \$6,666.67) - (\$3,312.5 + \$7,425.00)) \times .50 =$ a credit of \$300.00 to reflect one half of a months billing for the one DS3 that was added.

If a billing adjustment is made, it will be apportioned to BellSouth SWA Managed Shared Network Service and BellSouth SPA Managed Shared Network Service based on the current month's ratio of these services DS3 Local Channels relative to the total DS3 Local Channels. In the above example the \$300.00 credit billing adjustment would be apportioned as follows:

- BellSouth SWA Managed Shared Network Service current month's billing adjustment = $-\$300.00 \times 5/16 = -\93.75
- BellSouth SPA Managed Shared Network Service current month's billing adjustment = $-\$300.00 \times 11/16 = -\206.25

ISSUED: FEBRUARY 14, 2019

EFFECTIVE: MARCH 1, 2019

ACCESS SERVICE
6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service (Cont'd)

BellSouth SWA Managed Shared Network Service is available under a 12 month or a 60 month⁽¹⁾ commitment plan. Month-to-month rates, without termination liability, are only available upon completion of a commitment plan. Upon the completion of a commitment plan, the customer must establish a new commitment plan or billing will be changed to BellSouth SWA Managed Shared Service month-to-month rates.

(C)

At the end of a commitment plan, the customer also may convert his BellSouth SWA Managed Shared Network Service arrangement to regular tariff services via ASRs or the customer may request that the Telephone Company convert their BellSouth SWA Managed Shared Service DS0 through DS3 service to standard tariff point-to-point services at month-to-month rates, at which time the customer may then subscribe to applicable payment plans.

The rates for the BellSouth SWA Managed Shared Network Service commitment plan are stabilized for the length of the plan and are exempt from Telephone Company initiated increases, however, decreases will automatically flow through to the customer.

Beginning one year after a customer orders BellSouth Managed Shared Network Service at an Aggregation Location and at each twelve month interval thereafter, a review of the customer's level of equivalent DS1s associated with an Aggregation Location in an BellSouth Managed Shared Network Service area will be performed. If at the annual review, the customer's equivalent DS1s associated with an Aggregation Location in a BellSouth Managed Shared Network Service area are less than the commitment for such Aggregation Location, a shortfall charge will apply. The shortfall will equal the number of equivalent DS1s the customer is short of the commitment times the per unit shortfall charge shown below.

	<u>Shortfall Charge</u>	<u>USOC</u>
Per Equivalent DS1 Shortfall Charge	\$900.00	NSMSC

If the customer designates an Alternate Aggregation Location, an Alternate Aggregation Location Establishment Charge shall apply.

	<u>Alternate Aggregation Establishment Charge</u>	<u>USOC</u>
Nonrecurring Charge Per Alternate Aggregation Location Established	\$1,500.00	OHSLE

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

ACCESS SERVICE
6 - BellSouth SWA Service (Cont'd)

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service (Cont'd)

A minimum period charge will apply on an BellSouth SWA Managed Shared Network Service DS1 and DS0 service component basis for each such component disconnected prior to the end of the four-month minimum service period. The charge will be calculated by multiplying the monthly rate for the BellSouth SWA Managed Shared Network Service service component times the number of months remaining in the four month minimum service period.

A termination liability charge will apply if customer terminates the BellSouth Managed Shared Network Service arrangement at an Aggregation Location prior to the end of a commitment period (i.e., 12 month or 60 month⁽¹⁾) associated with such Aggregation Location. The termination liability charge is equal to the number of equivalent DS1s associated with the commitment for such Aggregation Location times the number of months remaining in the commitment times the per unit termination liability charges shown below. Provided, however, that termination liability charges shall not apply for the termination of the BellSouth Managed Shared Network Service arrangement at an Aggregation Location under a five year commitment if, prior to the end of the five year⁽¹⁾ commitment period for such Aggregation Location, the customer requests reconfiguration of all of the traffic from such Aggregation Location to a second Aggregation Location in the same BellSouth Managed Shared Network Service Area and the following conditions are met: the commitment for the first Aggregation Location has been in place 36 months or greater and the remaining commitment period of the second Aggregation Location is equal to or greater than the time remaining at the first Aggregation Location. If the commitment for the first Aggregation Location has been in place for less than 36 months and the remaining commitment for the second Aggregation Location is equal to or greater than the time remaining at the first Aggregation Location, a termination liability charge shall apply equal to the number of equivalent DS1s associated with the commitment for the first Aggregation Location times the difference between the months the Aggregation Location's commitment has been in place and 36 months times the per unit termination liability charges shown below. If the commitment for the first Aggregation Location has been in place for less than 36 months and the remaining commitment for the second Aggregation Location is less than the time remaining at the first Aggregation Location, full termination liability charges apply. For all other situations, where a customer terminates BellSouth Managed Shared Network Service prior to the end of a commitment period full termination liability charges apply.

	Termination Liability Charge	USOC
Per Equivalent DS1 Termination Liability Charge	\$75.00	NSMTC

(1) Effective on March 1, 2019, Switched Access Term Plans of greater than 36 months are no longer available, including for any otherwise available renewals, extensions or conversions. Circuits already subject to a Switched Access Term Plan of greater than 36 months, as of March 1, 2019, will continue to be provided under that plan for the remainder of that term.

ISSUED: JUNE 16, 2011

EFFECTIVE: JULY 1, 2011

ACCESS SERVICE
6 - BellSouth SWA Service

6.7 Rate Regulations (Cont'd)

6.7.22 BellSouth SWA Managed Shared Network Service (Cont'd)

BellSouth SWA Managed Shared Network Service is considered a higher order of service to BellSouth SWA DS1 and DS0 dedicated transport for determination of termination liability charges. For conversion of a service that is a higher order of service than BellSouth SWA DS3, DS1 and DS0 switched dedicated transport, the change will be made based on the customer sending Access Service Requests to discontinue circuits on the higher order service and establish them as BellSouth SWA Managed Shared Network Service.

The Company's guarantee of the performance of the BellSouth SWA Managed Shared Network Service DS3, DS1 and DS0 components will be as specified in Section 2.4.4(B).

BellSouth SWA Managed Shared Network Service and the applicable rates will commence beginning with the date a customer orders service.

6.7.23 BellSouth Wavelength SWA Channel Service Components

BellSouth Wavelength SWA Channel Service Components rates and charges apply for Bit Rate Specific Wavelength Local Channels, Dedicated Systems⁽¹⁾, Dedicated System Wavelength Channels and Interoffice Channels.

BellSouth Wavelength SWA Channel Service Components rates and charges correspond to. BellSouth Wavelength SWA Channel Service Components provide optical transport service components for the purpose of shared use calculations.

⁽¹⁾ Effective August 15, 2008, Wavelength SWA Channel Service Dedicated Systems will not be available for new customer orders or to existing customers for new Systems or locations.

	<u>Recurring Charges</u>	
	<u>Month to Month</u>	<u>USOC</u>
(1) Primary System		
- Per Primary System ₂ – Dual Bay ¹	\$6,750.00	WDHPS
- Per Primary System ²	7,180.00	WDHP1
(2) Expansion System		
- Per Expansion System ₂ – Dual Bay ³	3,000.00	WDHES
- Per Expansion System ⁴	2,795.00	WDHE1
(3) Wavelength Channel,		
(a) Bit Rate Specific, Per Wavelength Channel		
- OC-3, unprotected	\$1,830.00	WDH DU
- OC-3+, unprotected	2,650.00	WDH DU
- OC-12, unprotected	2,650.00	WDH DU
- OC-48 or OC-48+, unprotected	6,210.00	WDH DU
- OC-192 or OC-192+, unprotected	13,747.00	WDH DU

Note 1: Primary System - Dual Bay will not be available for new customer subscriptions effective September 25, 2008. Existing customers may continue using this option. Two Primary System – Dual Bay service components apply, per Node Location, on a ring.

Note 2: Primary System - Single Bay has been reclassified to Primary System effective September 25, 2008. One (1) Primary System – Single Bay service component applies per Node location in a Single Bay arrangement for activation of the first eight (8) wavelengths.

Note 3: Expansion System - Dual Bay will not be available for new customer subscriptions effective September 25, 2008. Existing customers may continue using this option. Two Expansion System – Dual Bay service components apply per Node Location, per 8 incremental activated wavelengths on a ring. Applies for wavelength activations above the Primary System capacity.

Note 4: For Expansion System - Single Bay arrangements in service prior to September 25, 2008, one (1) Expansion System – Single Bay service component applies per Node location for activation of the ninth through sixteenth wavelengths. Expansion System - Single Bay has been reclassified to Expansion System effective September 25, 2008.
