6.7 Rate Regulations (Cont'd)

6.7.1 Description and Application of Rates and Charges (Cont'd)

(A) Monthly Rates (Cont'd)

Once a month, the Telephone Company will count all eligible DS3 Switched Access Entrance Facility channel terminations that are in service between the same two locations (e.g., a customer designated premises and the same serving wire center). If that customer designated premises is a primary premises for Special Access Service as defined in Section 7.4.9(A)(1) following, the Telephone Company will also count all eligible 44.736 Mbps High Capacity Special Access Services that are in service. The results are added to obtain the total count for a particular customer designated premises and determine the applicable rate band. This step is repeated for each customer designated premises.

(D)

15. Operating Territory and Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)

15.3 Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)

(C) Rate Regulations

When the Interexchange Carrier's Point of Presence is located at an Expanded Interconnection multiplexing node or virtual collocation arrangement, price band rates and charges do not apply to any rate element associated with providing service to the Expanded Interconnection arrangement.

To determine the price band for the Switched Access Service channel mileage rate element when the wire centers involved are located within different price bands, apply the rates and charges for the higher price band number. When one of the wire centers involved is subject to Section 30 price band rating and the other wire center involved is not subject to price band rating (i.e, rating from Section 31), the rates and charges applicable to the channel mileage element will be the Section 31 rates and charges for non-price banded elements. Pricing bands are further described in Section 7.1.2(B) preceding.

For the avoidance of doubt, in accordance with Section 2.4.7 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the applicable channel mileage rate element. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the channel mileage rate element will be dependent upon the level of pricing flexibility of only the wire center that is in the Telephone Company's operating territory.

However, for service within the New York-New Jersey Corridor, any Verizon wire center within the operating territory of the New York - New Jersey Corridor will be considered in order to determine the applicable channel mileage rate element.
