ACCESS SERVICE

8. Specialized Network Services (Cont'd)8.4 Wide Area Data Network Service8.4.1 Service Description

Wide Area Data Network (WADN) Service is a router-based data network service provisioned over Telephone Company provided facilities. WADN Service provides customers with local area network (LAN) to LAN, workstation to LAN, and LAN to workstation connectivity. WADN Service is provided on a dedicated basis at port speeds of 56.0 kbps, 128.0 kbps, and 1.544 Mbps.

WADN Service is offered where facilities exist. In situations where the Telephone Company must construct facilities to satisfy customer requests, WADN Service may be provided in accordance with the special construction provisions set forth in Section 14 following. If the customer is located in an area outside of the WADN, special access rates as set forth in Section 7 preceding will apply to dedicated facilities provided for customer connection to the WADN.

8.4.2 Rate Regulations

The minimum service period for WADN Service is three months.

When ordering WADN Service, the customer must specify all locations within the WADN which will be accessed for data transactions. The Dedicated Network Access Charge is applicable for each location connected to the WADN.

The administrative charge applies to each request received from a customer to add, change, delete, or otherwise modify the customer's routing patterns within the WADN.

ACCESS SERVICE

9. Directory Assistance Service

The Telephone Company will provide Directory Assistance (DA) Service to a customer from Directory Assistance Service locations (DA location).

9.1 General Description

DA Service provides Directory Access Service to DA locations, use of DA access equipment, and use of DA operators to provide telephone numbers.

9.2 Undertaking of the Telephone Company

(A) A Telephone Company DA operator, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company DA records associated with the name given at the rates and charges as set forth in 9.6 following. The Telephone Company's contact with the customer's end user shall be limited to that effort necessary to process a customer's end user's request for a telephone number; and the Telephone Company will not transfer, forward or redial a customer's end user call to any other location for any purpose other than provision of DA Service.

(B) A maximum of two (2) requests for telephone numbers will be accepted per call to the DA operator.

(C) A telephone number which is not listed in the DA records will not be available to the customer's end user.

(D) The Telephone Company will specify the DA location which provides the DA Service for each numbering plan area code (NPA). The DA locations are as shown in National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

When it becomes necessary, as determined by the Telephone Company, to change a DA location, the Telephone Company will notify the involved customers six months prior to the change. For such changes, the regulations as set forth in 2.1.7 preceding apply.

(E) When DA Service is ordered, Directory Access Service will be provided between the customer premises and the DA location by the Telephone Company at the rates and charges set forth in 9.6 following.

EFFECTIVE DATE:
March 1, 2011

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(1) General

Each Directory Access Service will consist of the following:

- An Interface Group equipped with an available Premises Interface Code as set forth in 6.4.3 preceding.
- Directory Transport between the premises serving wire center and the DA location.

When required by the Telephone Company, a separate trunk group will be provided for DA Service for each NPA. Separate trunk groups will be required when the Telephone Company notifies the customer that the mechanized search of its data base and its mechanized operator practices require a mechanized identification of the NPA code for which the customer's end user desires DA information.

(2) Switched Transport Premises Interface Code

The Switched Access Service Switched Transport Premises Interface Codes are provided as set forth in 6.4.3 preceding. Further, when an access tandem is provided, the Directory Access Service will be provided, at the Telephone Company's choice, either as a separate trunk group or in association with Feature Group C or D Switched Access Service. Except as set forth in 9.4 (B) and (C) following, the Switched Transport Premises Interface Codes provided under a Special Order for Directory Access Service are subject to the order conditions as set forth in 5.1.1 preceding. For purposes of applying the order regulations, a DA location is considered to be a customer's end user's serving wire center.

EFFECTIVE DATE:
March 1, 2011

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport

Directory Transport provides the transmission facilities and transport termination between the premises of the ordering customer and the DA location. For purposes of determining Directory Transport mileage, distance will be measured from the wire center that normally serves the customer premises to the DA location(s).

Directory Transport is a two-way voice frequency transmission path composed of facilities determined by the Telephone Company. The two-way voice frequency path transports calls in the terminating direction (from the premises of the ordering customer to the DA location). The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency band width of approximately 300 to 3000 Hz.

The Telephone Company will determine whether the Directory Access Service is to be routed directly to a DA location or through an appropriately equipped access tandem switch when such an access tandem switch is available. If the customer desires the traffic routing to be other than that selected by the Telephone Company, it may request a cooperative effort to determine if the customer specified traffic routing can be used in lieu of the Telephone Company selected traffic routing.

When Directory Transport is provided using a direct route to the DA location, no address signaling is provided. When Directory Transport is provided with the use of an access tandem switch, wink start-start pulsing signaling is provided at the access tandem switch. The customer will be notified by the Telephone Company when access tandem routing is provided and the customer shall address each call to the DA location using NPA + 555 + 1212. Only NPA codes handled by the DA location served by the access tandem switch will be processed.

EFFECTIVE DATE:
March 1, 2011

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

The number of Directory Transport transmission paths provided is based on the customer's order and is determined by the Telephone Company in a manner similar to Switched Access Service transmission paths as set forth in 6.5.5 preceding.

Except as set forth in 9.4 (A) following, Directory Transport provided under a Special Order is subject to all order conditions as set forth in Section 5 preceding.

Directory Transport is provided with a Switched Transport Interface Group as set forth in 6.4.3 preceding. Only Switched Transport Interface Groups 2-9 will be provided.

Directory Transport Services are comprised of the following rate elements, which are more fully described in 6.1.2 (A) and (B) preceding:

- Entrance Facility - for the transport of the DA call from the customer's premises to the serving wire center of that premises.
- Direct-Trunked Transport - for the transport of the DA call from the customer's serving wire center to the DA location without switching at a tandem or from the serving wire center to the tandem. This rate element includes both the termination (fixed) and facility (per mile).

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport (Cont'd)

- Tandem Switched Transport - for the transport of the DA call from the tandem to the DA location. This rate element includes Tandem Switched Transmission, Tandem Switching, Common and Dedicated Transport Multiplexing and Common and Dedicated Trunk Ports.
- Multiplexing - DS3 to DS1 multiplexing charges apply when a high capacity DS3 entrance facility or direct-trunked facility is connected with high capacity DS1 direct-trunked transport. The DS3 to DS1 multiplexer will convert a 44.736 Mbps channel to 28 DS1 channels using digital time division multiplexing. DS1 to voice grade multiplexing charges apply when a high capacity DS1 entrance facility or direct-trunked facility is connected with voice grade direct-trunked transport. The DS1 to voice grade multiplexer will convert a 1.544 Mbps channel to 24 voice grade channels.

The customer will specify whether the Directory Access service is to be routed directly to a DA location or through an access tandem switch appropriately equipped for DA measurement and served by DA trunks to the DA location when such an access tandem switch is available. The combination of Feature Group B, C or D switched access service with DA service will only be provided at such available and appropriately equipped access tandem switches.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(4) Special Facilities Routing

A customer may request that Directory Access Service be provided via Special Facilities Routing. The regulations, rates and charges for Special Facility Routing (Avoidance, Diversity and Cable Only) are as set forth in Section 11 following.

(5) Design Layout Report

The Telephone Company will provide to the customer the makeup of the facilities and services provided under this section as Directory Access Service. This information will be provided in the form of a Design Layout Report similar to that as set forth in 6.1.4. Design Layout Reports for Directory Access Service will be provided only when specifically requested by the customer. The Design Layout Report will be provided to the customer at no charge, and will be reissued or updated whenever the facilities provided for the customer's use are materially changed.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(6) Transmission Specifications

Directory Access Service is provided with either Type A, B or C Transmission Specifications. The specifications associated with these parameters are guaranteed to the DA location, whether routed directly or via an access tandem. Type B Transmission Specification is provided with Interface Groups 2 through 9 when routed direct to a DA location. Type A Transmission Specification is provided with Interface Groups 2 through 9 when routed via an access tandem. A, B and C Transmission Specifications Capabilities are set forth in 6.4.1 preceding.

(7) Acceptance Testing and Testing Capabilities

The acceptance testing and testing capabilities for Directory Access Service traffic routed through an access tandem are the same as those for the associated Feature Group C or D end office switching. The acceptance testing for Directory Access Service traffic routed directly to or routed in a separate trunk group through an access tandem to the DA location will be as set forth in 6.1.5 preceding. The testing capabilities for Directory Access Service traffic routed directly to or routed in a separate trunk group through an access tandem to the DA location will be as set forth for cooperative scheduled testing or manual scheduled testing in Section 13 following.

(F) Trunk-side switching is provided at the Directory Assistance Service access location. The Directory Assistance Service access location will provide trunk answer and disconnect supervisory signaling.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.2 Undertaking of the Telephone Company (Cont'd)

- (G) The Telephone Company will distribute the calls received over the Directory Access Services to the DA operators using the DA location access equipment.
- (H) In the event that the telephone number is unavailable to the DA operator, no credit shall be given for the call to the DA operator. When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect telephone number is provided by the DA operator, a credit as set forth in 9.4(F) following will apply.
- (I) DA Service may, at the option of the customer, be provided for interstate and intrastate communications. When the customer requests such mixed access, the interstate DA Service charges will be determined by the Telephone Company using the data furnished by the customer as set forth in 2.3.11 preceding.
- (J) The Telephone Company does not provide Directory Assistance Service for Interim 500 Access Service, Toll Free Code (TFC) Access Service or 900 Access Service.

9.3 Obligations of the Customer

- (A) The customer shall determine and order the Directory Access Services it needs for DA Service.
- (B) When Directory Assistance Service is initially ordered, the customer shall order the service for at least six months. Thereafter, additional service may be ordered for a minimum of six months. Not later than three months prior to the end of the six month period, the customer shall notify the Telephone Company if the service is to be discontinued at the end of the six month period. If no notice is received from the customer, the Telephone Company will automatically extend the service for another six months and all appropriate charges as set forth in 9.6 following for another six months will apply.

ISSUE DATE:
February 28, 2011

Issued Under Transmittal No. 1
Vice President-Regulatory Operations
100 CenturyLink Drive
Monroe, Louisiana 71203

EFFECTIVE DATE:
March 1, 2011

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.3 Obligations of the Customer (Cont'd)

- (C) The customer facilities at the premises shall provide the necessary on-hook and off-hook supervision.
- (D) When requested by the Telephone Company, the customer shall order a separate trunk group for DA Service for each NPA. The conditions when the customer will be requested to order separate trunk groups for each NPA are set forth in 9.2(E)(1) preceding.
- (E) When the customer bills its end users, the customer shall be responsible for all contacts and arrangements with its end users concerning the provision and maintenance of, and the billing and collecting of charges for, DA services furnished to its end users.
- (F) The customer understands that DA operators will respond to only two (2) telephone number requests per call and will not transfer, forward or redial the call to another location for any purpose other than the provision of DA Service.

9.4 Payment Arrangements(A) Minimum Periods

The minimum period for which DA Service and the Directory Access Service is provided and for which charges apply is six months. A minimum period of six months applies for each additional period of service ordered or extended.

If DA Service is discontinued prior to the end of each six month period, the charges that apply for the remaining months are the non-recoverable costs. Such costs include the non-recoverable cost of equipment and material ordered, provided or used, plus the non-recoverable cost of installation and removal including the costs of engineering, labor, supervision, transportation, rights-of-way and other associated costs less estimated net salvage.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(B) Cancellation of a Special Order

A customer may cancel a Special Order for DA Service on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the Special Order is to be cancelled. The verbal notice must be followed by written confirmation within 10 days.

When a customer cancels a Special Order for DA Service after the order date but prior to the start of service, the appropriate charges as set forth in Section 5 preceding apply for the Directory Access Service ordered. In addition, a charge equal to any unrecoverable capital costs incurred by the Telephone Company will apply to the customer.

(C) Changes to Special Orders

When a customer requests changes to a pending order for DA Service, such changes will be undertaken if they can be accommodated by the Telephone Company. Charges as set forth in Section 5 preceding apply for the Directory Access Service changed. In addition a charge equal to any other costs incurred by the Telephone Company because of the change will apply.

(D) Moves

A move involves a change in the physical location of the point of termination at the customer premises or of the customer premises. Moves will be treated as set forth in 6.7.5 preceding and all associated nonrecurring charges will apply. Minimum period requirements will be established at the new location as set forth in 6.7.5 preceding. The customer will also remain responsible for satisfying all outstanding minimum period charges for the disconnected service.

(E) DA Service Rearrangements

Nonrecurring charges apply for service rearrangements. Service rearrangements are as set forth in 6.7.1(C)(3) preceding. The Service Rearrangement Charges are as set forth in 6.7.1(C)(3) for the type of change provided by the Telephone Company.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements (Cont'd)(F) Credit Allowance for DA Service

A per call credit equal to the sum of the DA Service usage sensitive rates set forth in 9.6 following (i.e., DA Service Call, and Tandem Switched Transport) will apply in the following situations:

- (1) When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect number is provided following customer connection to a Telephone Company DA operator.
- (2) When a DA operator or DA equipment provides an incorrect number for a call and the customer reports such occurrences to the Telephone Company.
- (3) When a DA call is not completed due to the failure of Directory Access service to DA locations, DA access equipment or DA operator activities, a credit allowance for the switched access service portion in the originating LATA of such DA call will apply. When the customer reports such a call and DA number dialed, time of the call and the date of the call, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.5 Rates and Regulations

- (A) The charge for Directory Assistance as set forth in 9.6(A) following applies for each call to DA service. A call is defined as a call which has been answered by or forwarded to a DA operator. The charge applies whether or not the DA operator provides the requested telephone number. The number of calls answered or forwarded to DA operators will be accumulated by Telephone Company measuring equipment. A credit for the provision of an incorrect telephone number will be applied as set forth in 9.4(F) preceding.
- (B) The charge for Directory Access Installation (i.e., Switched Transport Installation) and Direct-Trunked Transport activation charges as set forth in 6.8.2 preceding will apply to each Directory Access Service installed.
- (C) The charges for Directory Transport will be assessed on the same basis as the switched access local transport rate elements set forth in 6.1.2 preceding:
 - Entrance Facility
 - Direct-Trunked Transport
 - Tandem Switched Transport
 - Multiplexing

ACCESS SERVICE

10. Special Federal Government Access Services

For Special Access Federal Government Services, only Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Federal Government Services for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location.

(N)

(N)

10.1 General

This section covers Special Access Services that are provided to a customer for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. Services provided to state or local emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security.

Services for command and control communications and for national security and emergency preparedness sometimes require short notice and short duration service provisions. These provisions are especially needed to meet presidential requirements or in response to natural, man-made, or declared emergencies. Requirements of this type cannot be forecasted and are usually needed for a relatively short period. The provision of service under these conditions may require the availability of facilities, such as portable microwave equipment, which are provided on a temporary basis by the Telephone Company or customer.

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when the emergency falls into one of the following categories:

- State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters").
- Efforts to protect endangered U.S. personnel or property both in the U.S. and abroad. (Includes space vehicle recovery and protection efforts.)
- Communications requirements resulting from hostile action, a major disaster or a major civil disturbance.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.2 Emergency Conditions (Cont'd)

- The director (Cabinet level) of a Federal department, Commander of a Unified/Specified Command, or head of a Military department has certified that a communications requirement is so critical to the protection of life and property or to the National Defense that it must be processed immediately.
- Political unrest in foreign countries which affect the national interest.
- Presidential service.

10.3 Intervals to Provide Service

Services provided under the provisions of this section of the tariff are provided on an individual case basis. Therefore, orders for such service shall be placed under the service date interval provisions set forth in 5.2.1 preceding.

10.4 Safeguarding of Service10.4.1 Facility Availability

In order to insure communications during periods of emergency, the Telephone Company will, within the limits of good management, make available the necessary facilities to restore service in the event of damage or to provide temporary emergency service.

In order to meet the requirements of agencies or branches of the Federal Government, the Telephone Company may utilize government-owned facilities, when necessary, to provide service.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.5 Federal Government Regulations

In accordance with Federal Government Regulations, all service provided to the Federal Government will be billed in arrears. However, this Provision does not apply to other customers that obtain services under the provisions of this tariff to provide their services to the Federal Government.

10.6 Service Offerings to the Federal Government

The following services are provided to a customer for use only by agencies or branches of the Federal Government, other authorized users and state emergency operations centers. The rates and charges for these services shall be developed on an individual case basis and shall be consistent with the rates and charges for services offered in other sections of this tariff.

10.6.1 Type and Description(A) Voice Grade Special Access Services(1) Voice Grade Secure Communications Type I

Approximate bandwidth of 10-50,000 Hertz. Furnished for two-point secure communications on two-wire or four-wire metallic facilities between a customer premises location and an end user's premises. Services are conditioned as follows:

T-3 Conditioning - The absolute loss (referenced to 1 milliwatt) with respect to frequency shall not exceed:

15 dB at 10 Hz
13 dB at 100 Hz
9 dB at 1,000 Hz
20 dB at 10,000 Hz
30 dB at 50,000 Hz

10. Special Federal Government Access Services (Cont'd)10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(A) Voice Grade Special Access Services (Cont'd)(1) Voice Grade Secure Communications Type I (Cont'd)

Additional conditioning (available in one or two directions on four-wire facilities only) to provide the following characteristics:

The absolute loss (referenced to one milliwatt) with respect to frequency shall not exceed:

0 dB at 1,000 Hz

1 dB between 1,000 Hz and 40,000 Hz

2 dB between 10 Hz and 50,000 Hz

(+ means more loss)

The net loss of the conditioned service (with or without additional conditioning) shall not vary by more than four dB at 1,000 Hz from the levels specified above. Voice frequency signaling or supervisory tones can be transmitted.

(2) Voice Grade Secure Communications Type II

Approximate bandwidth 10-50,000 Hz. Furnished on four-wire metallic facilities for duplex operation for two-point secure communication between a customer premises on an end user's premises and an end user's premises. Services are conditioned as follows:

G-1 Conditioning - The absolute loss with respect to frequency and the net loss variation shall be the same as Voice Grade Secure Communications Type I services without additional conditioning. Voice frequency signaling or supervisory tones can be transmitted.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)

- (1) The Government Emergency Telecommunications Service (GETS) is an emergency telecommunications service available to customers designated by an agency or branch of the Federal Government to transport National Security/Emergency Preparedness (NS/EP) originating and terminating access calls over the Public Switched Network (PSN) where technically feasible and only in suitably equipped offices. GETS utilizes a government identified access code which distinguishes the call as a GETS NS/EP emergency call.
- (2) The customer designated by the agency or branch of the Federal Government to provide GETS must have Feature Group C or Feature Group D Switched Access Service to transport the GETS NS/EP access call. A GETS NS/EP access minute will be rated the same as any other access minute set forth in this Tariff.
- (3) Network management service levels, as set forth in 6.5.1 preceding, are applicable to a GETS NS/EP access call.
- (4) GETS NS/EP access minutes to a customer's network not designated to provide GETS will be administered by the Telephone Company the same as any other minute.
- (5) The appropriate agency or branch of the Federal Government is responsible for ordering the government identified access code per end office.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)
(Cont'd)(6) Basic GETS Features(a) High Probability of Completion Feature

GETS High Probability of Completion (HPC) provides GETS users with enhanced routing priority in the public switched network. HPC significantly improves the completion of GETS NS/EP access calls under severe network congestion and damage conditions (e.g., natural disasters, national emergencies, etc).

The HPC feature sets the call priority value and provides the capability to queue the GETS NS/EP access call against a busy switched access trunk group in a route list until a member of that trunk group becomes idle. As soon as a trunk group member becomes idle, it is offered to the queued GETS NS/EP access call before any other calls are processed.

The HPC feature works with switched access trunk groups equipped with SS7 Out of Band Signaling. The HPC feature is available in specified wire centers only as ordered by the agency or branch of the Federal Government to provide GETS.

HPC also includes all Operational Measurement (OM) and Automatic Message Accounting (AMA) reporting as agreed to between the Company and the customer designated by the agency or branch of the Federal Government to provide GETS.

10. Special Federal Government Access Services (Cont'd)

(N)

10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)
(Cont'd)(7) Basic GETS Features (Cont'd)(b) Expanded High Probability of Completion Feature

Expanded GETS High Probability of Completion (EHPC) enables suitably equipped offices to recognize any 10 digit number with the 710 NPA code (710-XXX-XXXX) and apply the HPC feature.

(c) Office Wide Call/Egress Queuing

GETS Office Wide Call/Egress Queuing provides a greater likelihood that GETS callers will complete their HPC call during periods when the network is congested. When all trunks in a public trunk group are busy, Office Wide Call Queuing enables a call to be placed in queue on any member of the trunk group to wait its turn to be passed on through to network to called destination. When all trunks in a private trunk group (PBX system) are busy, Office Wide Egress Queuing enables a call to be placed in queue until the next trunk is available.

(d) Trunk Group Queuing

Trunk Group Queuing allows queuing of HPC calls to specific trunk group. Only those calls marked as HPC can be added to the queue.

(N)

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)

(N)

10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)
(Cont'd)(7) Basic GETS Features (Cont'd)(e) Calling Party Number

Calling Party Number (CPN) is a network feature that passes the government identified access code information as the calling party on a NS/EP originating call detail record instead of the actual calling party number using FGD type signaling where technically feasible. NS/EP calls originating at switching offices not equipped with CPN will be processed with the actual calling party number. The government identified access code is determined by the agency or branch of the Federal Government responsible for GETS.

(f) Rate Application

The nonrecurring charges and monthly rates for the Basic GETS Features are described following:

- The GETS nonrecurring charge and monthly rate is for the activation and maintenance of the translation requirements for each Telephone Company end office switch and/or access tandem.
- The GETS Change Charge is a nonrecurring charge to change the feature on a per switch, per occurrence basis. This charge applies to any configuration changes within the switches.

The rates and charges are set forth in 10.6.3(B) following.

(N)

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)

(N)

10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)
(Cont'd)(8) GETS Alternate Carrier Routing Feature

Alternate Carrier Routing (ACR) is an advanced network feature that provides alternate routing of a NS/EP call in the originating direction to a GETS customer using FGD type signaling, where technically feasible. The NS/EP call is first routed to the presubscribed customer of the originating line, when the presubscribed customer is a participating GETS customer. When the NS/EP call cannot be successfully routed, attempts will be made to route the call to alternate GETS customers. The sequential order in which the NS/EP call is routed is preselected on a per switching office basis by the agency or branch of the Federal Government responsible for GETS.

The ACR Activation or ACR Deactivation charge is for the translation requirements of the ACR feature, per switching office. The ACR monthly rate is for the analysis required to determine the preselected alternate route when a NS/EP call occurs. All ACR rates and charges, set forth in 10.6.3(B) following, are billed to the appropriate agency or branch of the Federal Government responsible for GETS or its authorized representative.

(N)

10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)
(Cont'd)(9) GETS Enhanced Alternate Carrier Routing Feature

Enhanced Alternate Carrier Routing (EACR) enables suitably equipped office to recognize any 10 digit number with the 710 NPA code (710-XXX-XXXX) and apply the HPC feature. When EACR is activated within a switch, ACR is included with the service/feature.

The EACR Activation charge recovers for the translation requirements of the EACR feature, per switching office. There is an incremental nonrecurring charge for EACR that applies only to the DMS 100/200 switches. The EACR monthly rate is for the analysis required to determine the preselected alternate route when a NS/EP call occurs and is applied per switching office. The ACR monthly rate is included with the EACR monthly rate. All EACR rates and charges, set forth in 10.6.3(B) following, are billed to the appropriate agency or branch of the Federal Government responsible for GETS or its authorized representative.

(N)

10.6 Service Offerings to the Federal Government (Cont'd)10.6.1 Type and Description (Cont'd)(C) Government Emergency Telecommunications Service (GETS)
(Cont'd)(10) Network Service Verification Test

The Network Service Verification Test (NSVT) is a service verification test that can be required by the appropriate agency or branch of the Federal Government responsible for GETS, or its authorized representative. The NSVT shall be conducted according to a mutually agreed upon set of test cases. The test can be witnessed by the Federal Government or its representative and shall apply to one switch per test.

The NSVT charge is a one time nonrecurring charge that will apply to every test ordered. The NSVT charges, set forth in 10.6.3(B) following, are billed to the appropriate agency or branch of the Federal Government responsible for GETS or its authorized representative.

(11) GETS Service Verification Baseline

The GETS Service Verification Baseline charge is a one time nonrecurring charge that will apply to every baseline ordered, however, it will be provided at least annually by March 31st. The baseline shall consist of Network and Switch information, GETS configuration report and provisioning procedure for every switch in the network that is GETS enable. The GETS Service Verification Baseline charge, set forth in 10.6.3(B) following, is billed to the appropriate agency or branch of the Federal Government responsible for GETS or its authorized representative.

(12) ACR/EACR Deployment Charge

The ACR/EACR Deployment Charge is a one time nonrecurring charge that applies only if these features are required to be deployed. This charge applies only once when these features are initially deployed in the network. The ACR/EACR Deployment Charge, set forth in 10.6.3(B) following, is ordered by and billed to the appropriate agency or branch of the Federal Government responsible for GETS or its authorized representative.

10. Special Federal Government Access Services (Cont'd)10.6 Service Offerings to the Federal Government (Cont'd)10.6.3 Rates and Charges (Cont'd)(C) Move Charges

- (1) When service without a maximum termination liability charge associated with it, as set forth in (A) preceding, is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.
- (2) When service with a maximum termination liability charge associated with it, as set forth in (A) preceding, is moved and is reinstalled at a new location, the customer may elect:
 - to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability for such service at the new location, or
 - to continue service subject to the unexpired portion of the maximum termination liability, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

ACCESS SERVICE

11. Special Facilities Routing of Access Services11.1 Description of Special Facilities Routing of Access Services

The services provided under this tariff are provided over such routes and facilities as the Telephone Company may elect. Special Facilities Routing is involved when, in order to comply with requirements specified by the customer, the Telephone Company provides Switched Access Service, Special Access Service or Special Federal Government Access Service in a manner which includes one or more of the following conditions:

11.1.1 Diversity

Two or more services must be provided over not more than two different physical routes.

11.1.2 Avoidance

A service must be provided on a route which avoids specified geographical locations.

11.1.3 Cable-Only Facilities

Certain Voice Grade services are provided on Cable-Only Facilities to meet the particular needs of a customer.

Service is provided subject to the availability of Cable-Only facilities. In the event of service failure, restoration will be made through the use of any available facilities as selected by the Telephone Company.

Avoidance and Diversity are available on Switched Access Service as set forth in Section 6 preceding, Special Access Services as set forth in Section 7 preceding and Special Federal Government Access Services as set forth in 10.6 preceding. Cable-Only Facilities are available with Switched Access Service as set forth in Section 6 preceding, Voice Grade Special Access Services as set forth in 7.2.2 preceding, and Special Federal Government Access Services as set forth in 10.6 preceding.

ACCESS SERVICE

11. Special Facilities Routing of Access Services (Cont'd)11.1 Description of Special Facilities Routing of Access Services (Cont'd)

In order to avoid the compromise of special routing information, the Telephone Company will provide the required routing information for each specially routed service to only the ordering customer. If requested by the customer, this information will be provided when service is installed and prior to any subsequent changes in routing.

The offering of Special Facilities Routing of Access Services contemplates the use of existing facilities. Should facilities not be available, it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations, as set in Section 14, following apply. However, the applicable rates and charges shall be filed in this section of this tariff, not the Special Construction section. In either case of (1) or (2) preceding, the rates and charges for administration and any other specific items of cost directly attributable to the provision of this service shall be filed in this section also.

The rates and charges for Special Facilities Routing of Access Services as set forth in 11.2 following are in addition to all other rates and charges that may be applicable for services provided under other sections of this tariff.

11.2 Rates and Charges for Special Facilities Routing of Access Service

The rates and charges for Special Facilities Routing of Access Services are as follows:

11.2.1 Diversity

For each service provided in accordance with 11.1.1 preceding, the rates and charges will be developed on an individual case basis.

ACCESS SERVICE

12. Specialized Services or Arrangements12.1 General

Specialized Services or Arrangements may be provided by the Telephone Company, at the request of a customer, on an individual case basis if such service or arrangements meet the following criteria:

- (A) The requested service or arrangements are not offered under other sections of this tariff.
- (B) The facilities utilized to provide the requested service or arrangements are of a type normally used by the Telephone Company in furnishing its other services.
- (C) The requested service or arrangements are provided within a LATA.
- (D) The requested service or arrangements are compatible with other Telephone Company services, facilities, and its engineering and maintenance practices.
- (E) This offering is subject to the availability of the necessary Telephone Company personnel and capital resources.

12.2 Move Charges

- (A) When service without a maximum termination liability charge associated with it is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.

ACCESS SERVICE

12. Specialized Services or Arrangements (Cont'd)12.2 Move Charges (Cont'd)

- (B) When service with a maximum termination liability charge associated with it is moved and is reinstalled at a new location, the customer may elect:
- to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
 - to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, restoration of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration, and any other specific items of cost directly attributable to the move.

12.3 Rates and Charges

Rates and charges, and additional regulations if applicable, for specialized service or arrangements provided on an individual case basis are filed following:

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services

In this Section, Basic Time refers to the period when services are performed by the Company on business days during regularly scheduled work hours. Overtime refers to the period when services are performed by the Company on business days but outside of regularly scheduled work hours. Premium time refers to the period when services are performed by the Company on non-business days, such as weekends and holidays. (C)

The rates and charges in this section apply to all customers served by the Company, except for customers ordering additional labor, additional testing, access service billing information and Telecommunications Service Priority (TSP) System services associated with switched dedicated and special access services provided in the pricing flexibility Metropolitan Statistical Areas (MSAs) listed in Section 23.3 following. The rates and charges for customers ordering these services in the pricing flexibility MSAs are set forth in Section 23.4 following. (C)

13.1 Additional Labor

For Special Access Additional Labor, only Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Additional Labor for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location. (N)

Additional labor is that labor requested by the customer on a given service and agreed to by the Company as set forth in 13.1.2 through 13.1.7 following. The Company will notify the customer that additional labor charges as set forth in 13.1.8 following will apply before any additional labor is undertaken. (C)

13.1.1 Engineering

For Special Access Engineering, only Non-Competitive EUCTs are filed as part of this tariff. Engineering for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location. (N)

Additional Engineering will be provided by the Company at the request of the customer only when: (C)

- (A) A customer requests additional technical information after the Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.4 and 7.1.6 preceding. (C)
- (B) Additional engineering time is incurred by the Company to engineer a customer's request for a customized service as set forth in 7.2 preceding. (C)
- (C) A customer requests a design change, and additional engineering time is incurred by the Company for the engineering review as set forth in 5.2.3(C). The charge for additional engineering will apply whether or not the customer authorizes the Company to proceed with the design change. (C)

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.1 Engineering (Cont'd)

The Telephone Company will notify the customer that additional labor charges, as set forth in 13.2 following, will apply before any additional engineering is undertaken.

13.1.2 Overtime Installation

Overtime installation is that Telephone Company installation effort performed outside of the Telephone Company's normally scheduled business day.

13.1.3 Overtime Repair

Overtime repair is that Telephone Company maintenance effort performed outside of the Telephone Company's normally scheduled business day.

13.1.4 Stand By

Stand by includes all time in excess of one-half (1/2) hour during which Telephone Company personnel stand by to make cooperative tests with a customer to verify facility repair on a given service.

13.1.5 Testing and Maintenance with Other Telephone Companies

Testing and Maintenance with Other Telephone Companies is that additional testing, maintenance or repair of facilities which connect to facilities of other telephone companies, which is in addition to normal effort required to test, maintain or repair facilities provided solely by the Telephone Company.

ISSUE DATE:

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.6 Additional Installation Testing

For Special Access Additional Installation Testing, only Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Additional Installation Testing for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location.

(N)

(N)

Additional installation testing is that testing performed by the Company at the time of installation which is in addition to the normal pre-service acceptance testing to ensure the satisfactory performance of Access Service ordered by the Customer. In no event shall a charge be made for Additional Labor that is related solely to testing with other companies.

(C)

13.1.7 Other Labor

Other labor is that additional labor not included in 13.1.2 through 13.1.5 preceding and labor incurred to accommodate a specific customer request that involves only labor which is not covered by any other section of this tariff.

13.1.8 Charges for Additional Labor

Hourly charges are calculated from the time Company personnel are dispatched and end when the work is completed.

(C)

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.8 Charges for Additional Labor (Cont'd)

Service by a Company employee at a time not consecutive with his scheduled work period is subject to a minimum charge of 3 hours at the rate specified in Section 13.2(B) or 13.2(C), as applicable. (C)

13.1.9 Maintenance of Service

For Special Access Maintenance, only Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Maintenance for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location. (N)
(N)

(A) When a customer reports a trouble to the Company for clearance and no trouble is found in the Company's facilities, the customer shall be responsible for payment of a Maintenance of Service charge for the period of time from when Company personnel are dispatched to when the work is completed. Failure of Company personnel to find trouble in Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time. (C)
(C)
(C)
(C)
(C)

(B) The customer shall be responsible for payment of a Maintenance of Service charge when the Company dispatches personnel, and the trouble is in equipment or communications systems provided by other than the Company or in detariffed CPE provided by the Company. (C)
(C)
(C)

In either (A) or (B) preceding, no credit allowance will be applicable for the interruption involved if the Maintenance of Service charge applies.

Maintenance of Service charges are applied on a per half hour, per technician basis as set forth in 13.2 following.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.10 Testing Services

For Special Access Testing Services, only Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Testing Services for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location.

(N)

(N)

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.2 following. Other testing services provided by the Company in association with Access Services are furnished at no additional charge. These other testing services are described in 6.1.5 and 7.1.7 preceding.

(C)

Testing services are normally provided by Company personnel at Company locations. However, provisions are made in (A)(3), (A)(4), (B)(2) and (B)(3) following for a customer to request Company personnel to perform testing services at the customer's premises.

(C)

(C)

The offering of Testing Services under this section of the tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in (A), (B) and (C) following. In order to facilitate scheduling of the Company's test equipment and personnel, the customer should request any desired Additional Tests with 60 days advance notice. Whenever feasible, the Company will accommodate requests with less than 60 days advance notice.

(C)

(C)

Testing is available where technically feasible.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.10 Testing Services (Cont'd)(A) Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which are performed during the installation of a Switched Access Service, i.e., Acceptance Tests, (b) tests which are performed after acceptance of such access services by a customer which are without charge, i.e., In-Service Testing and (c) tests which are performed during or after acceptance of such access services by a customer for which additional charges apply, i.e., Additional Tests.

Acceptance Tests, furnished to the customer at no additional charge, are those tests performed by the Telephone Company at the time of installation, as set forth in 6.1.5 preceding, which are required to establish switched access service.

In-Service Tests, furnished to the customer at no additional charge, are those tests performed by the Telephone Company at the request of the customer and may be done on an automatic basis (no Telephone Company or customer technicians involved), cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises), or manual basis (Telephone Company technicians(s) involved Telephone Company office(s) and at customer's premises). Additional Testing of switched access services are subject to the charges set forth in section 13.3.1 following.

Testing services are ordered to the dial tone office for FGA, to the tandem or end office switch for FGB service (wherever the FGB service is ordered), and to the end office for FGC and FGD services. Testing Services for directory assistance service not routed through an access tandem is ordered to a directory assistance location for each NPA.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.10 Testing Services (Cont'd)(A) Switched Access Service (Cont'd)(1) Additional Automatic Testing (AAT)

Additional Automatic Testing (AAT) of switched access services (Feature Groups B, C and D), is a service where the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent. The customer may request, on a per test basis at the rates set forth in 13.3.1(A)(1) following, gain-slope and c-notched noise testing as well as the in-service tests (1004 Hz loss, c-message noise and balance) on an as needed or more than routine schedule subject to the availability of test equipment necessary to perform AAT tests.

When the customer requests AAT as set forth in this section, the Telephone Company will notify the customer whether the line or trunk being tested passed or failed the requested test. Should the customer also desire a written report containing the specific technical results of the test, a nonrecurring charge will apply for each report requested. This nonrecurring charge is set forth in 13.3.1(A)(3) following.

(2) Additional Cooperative Testing (ACT)

Additional Cooperative Testing (ACT) of switched access services (Feature Groups A, B, C, and D, and directory assistance service not routed through an access tandem), is available when the Telephone Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests. The customer may request, on a per test basis at the rates set forth in 13.3.1(A)(2), gain-slope and c-notched noise testing, as well as the in-service tests (1004 Hz loss, c-message noise, and balance) on an as needed or more than routine schedule.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)3.1 Additional Labor (Cont'd)13.1.10 Testing Services (Cont'd)(A) Switched Access Service (Cont'd)(3) Additional Manual Testing (AMT)

Additional Manual Testing (AMT) of switched access services (Feature Groups A, B, C, and D and directory assistance service is not routed through an access tandem), is available when the Telephone Company provides a technician at its office(s) and at the customer's premises. The customer may request Additional Manual Tests on a per half hour, per technician basis, for gain-slope, c-notched noise as well as in-service tests (1004 Hz loss, c-message noise, and balance) on an as needed or more than routine basis.

(4) Miscellaneous Additional Testing (MAT)

Miscellaneous Additional Testing of switched access services (Feature Groups A, B, C, D, and directory assistance service not routed through an access tandem) ordered on an Automatic, Cooperative, or Manual basis will consist of any test the customer may request, that is not expressly described in (1), (2) and (3) preceding, subject to the availability of the necessary qualified personnel and test equipment required to perform the requested test(s). Miscellaneous Additional Testing will be provided on a per half hour, per technician basis.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.10 Testing Services (Cont'd)(A) Switched Access Service (Cont'd)(5) Obligations of the Customer

(a) When the customer subscribes to Testing Services, as set forth in this section, the customer shall provide the remote office line priming data to the Company, as appropriate to support routine or AAT as set forth in 6.1.5 preceding. (C)

(b) The customer shall also make the facilities to be tested available to the Company at times mutually agreed upon. (C)

(6) Office Test Line Access

This testing service provides access to the Telephone test line terminations, where available and on a schedule agreed to by the Company, for the purpose of enabling the Customer to perform testing of inward, outward and two-way transmission paths to the Company first switching point. (C)

(B) Special Access Service

For Special Access Testing Services, only Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Testing Services for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location. (N)

Testing Services for special access services are comprised of tests which are performed during the installation of a special access service, i.e., Acceptance Tests and tests which are performed during or after acceptance of such access services by a customer for which additional charges apply, i.e., Additional Tests. (N)

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.10 Testing Services (Cont'd)(B) Special Access Service (Cont'd)

Acceptance Testing, furnished to the customer at no additional charge, are those tests performed by the Telephone Company at the time of installation, as set forth in 7.1.7 preceding, which are required to establish service.

Additional Tests, as set forth in (1), (2) and (3) following, are those tests performed by the Telephone Company at the request of the customer and may be done on a cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises), or manual basis (Telephone Company technician(s) involved at Telephone Company office(s) and at customer's premises). Additional testing of special access services are subject to the charges as set forth in 13.2 following.

(1) Additional Cooperative Testing (ACT)

When a customer provides a technician at its premises, or at an end user's premises, with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Testing on voice grade services. These tests will be provided on a per half hour, per technician basis, and may consist of the following:

- Attenuation Distortion (i.e., frequency response).
- Intermodulation Distortion (i.e., harmonic distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay Distortion
- Frequency Shift
- Echo Control

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.1 Additional Labor (Cont'd)13.1.10 Testing Services (Cont'd)(B) Special Access Service (Cont'd)(2) Additional Manual Testing (AMT)

When the Telephone Company provides a technician(s) at its office and the Telephone Company provides technician(s) at the customer's premises or at the end user's premises, Additional Manual Tests may be conducted. These tests will be provided on a per half hour, per technician basis, and may consist of the following:

- Attenuation Distortion (i.e., frequency response)
- Intermodulation Distortion (i.e., harmonic distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay of Distortion
- Frequency Shift
- Echo Control

(3) Miscellaneous Additional Testing (MAT)

Miscellaneous Additional Testing of special access service ordered on a Cooperative, or Manual basis will consist of any test the customer may request, that is not expressly described in (1) or (2) preceding, subject to the availability of the necessary qualified personnel and test equipment required to perform the requested test. Miscellaneous Additional Testing will be provided on a per half hour, per technician basis.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.2 Presubscription

- (A) Presubscription is a procedure whereby an end user# may select and designate to the Telephone Company an IC to access, without dialing an access code, for interLATA interstate calls. This IC is referred to as the end user's primary IC. The presubscription procedure also allows the agent* representing a pay telephone to select and designate to the Telephone Company an IC to access, without dialing an access code, for interstate interLATA calls. Presubscription is available only to End Users served by end offices that have been converted to provide Feature Group D Switched Access Service.
- (B) Presubscription of residence and business lines and/or trunks is furnished in accordance with the detailed provisions of the Federal Communications Commission's Allocation Plan. The plan with all appendices is available for inspection at the main building of the Federal Communications Commission in the Public Reference Room of the Tariff Division. Copies may be obtained from the Federal Communications Commission's Commercial Contractor.

The same detailed provisions also apply to pay telephone presubscription for end offices converting to equal access after February 10, 1990. Pay telephone presubscription for end offices converted to equal access prior to February 10, 1990, will follow a transition schedule. After that date, pay telephone lines will be included in the standard presubscription time line for the end office.

For purposes of this section, the term end user also includes alternative local exchange carriers (ALECs) that are certified to resell local exchange telecommunications services.

* An agent is the person or persons who have the legal authority to give permission for the placement of pay telephones on their premises and who control access to or usage of the pay telephone.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.2 Presubscription (Cont'd)(C) Presubscription Charge Application

- (1) New end users or agents, who will be served by end offices equipped with equal access, will be asked to select a primary IC at the time they place an order with the Telephone Company for Telephone Exchange Service. A confirming notice will be mailed to the new end user or agent when an IC is verbally chosen.

New end users or agents will be offered a list of participating carriers to aid in their selection of a primary IC. There will be no charge for this initial selection.

After the end user's or agent's initial primary IC selection, for any change thereafter, a charge, as set forth in (E) following, applies.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.2 Presubscription (Cont'd)(C) Presubscription Charge Application (Cont'd)

(2) End users may designate that they do not want a primary IC. This choice is considered a valid selection and a Presubscription Charge will apply to any subsequent change. This "no primary IC" designation is not available to pay telephone agents.

(3) Should an IC elect to discontinue Feature Group D service in an end office converting to equal access prior to the conversion date, or within two years after the introduction of Feature Group D in the converted end office, the IC shall contact in writing all end users and agents who selected, or were allocated to, the cancelling IC as their designated IC. Such written notification must advise these end users and agents of the IC cancellation, request that the end users or agents select a new IC, and state that the cancelling IC will pay the change charge.

For a period of two years following the IC's discontinuance of Feature Group D service, the Telephone Company will bill the cancelling IC the change charge for each end user and agent that is currently designated to the IC at the time of discontinuance.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.2 Presubscription (Cont'd)(C) Presubscription Charge Application (Cont'd)

- (4) The Telephone Company will make post conversion changes in the end user's or agent's PIC assignment pursuant to an IC provided list of customers, accepted by the Telephone Company under the conditions set forth preceding. Should an end user or agent dispute authorization of the change in PIC assignment, the Telephone Company will place the end user or agent on the previous carrier's network where possible and the carrier will be billed in accordance with 13.3.2(D) following.

(D) Unauthorized PIC Carrier Restoral

An Unauthorized PIC Carrier Restoral is a change in the preferred PIC assignment that the end user or agent denies authorizing. If an end user or agent denies requesting the change in PIC assignment as submitted by the IC, the alleged unauthorized IC will be assessed the PIC change charge as set forth in 13.3.2(E) for the following:

- Changing the end user or agent to the disputed IC, and;
- Placing the end user or agent back on their previous IC's network.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.2 Presubscription (Cont'd)(F) Merger/Acquisition Presubscription Service(1) Service Description

Merger/Acquisition Presubscription is an optional miscellaneous service designed to assist interexchange carriers (ICs) in consolidating multiple Carrier Identification Codes (CICs).

(2) Regulations

When an interexchange carrier (IC) is involved in an acquisition or merger, the Telephone Company will convert each presubscribed line from the acquired company's CIC(s) to those of the acquiring company. The Telephone Company will work cooperatively with the acquiring IC to determine a due date for the requested presubscription changes. The acquiring IC is responsible for notifying end user customers of the change in their presubscribed carrier.

IC requests for end user presubscription changes in order to consolidate multiple CIC codes resulting from mergers or acquisitions will be subject to the presubscription change charges set forth in (F)(3) following.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.3 Reserved For Future Use13.3.4 Provision of Access Service Billing Information

(A) The customer shall select the medium in which its official access service bills and customer service records are to be provided. This selection shall be made on a per Billing Account Number (BAN) basis and shall be submitted in writing to the Telephone Company. The customer may request that access service billing information be provided via electronic data transfer, on-line bill image **or** paper format. Should the customer fail to make a selection, the official copy of the customer's access service bills and customer service records will be provided in paper format. If a customer requests their access bill in multiple formats that includes the paper format, the paper format will be considered the additional or secondary format and will be charged according to 13.3.4(D)(1). (C)

(B) At the customer's option, additional copies of the current month's access service bill and/or customer service records will be provided via paper format at the charges specified in 13.3.4(D) following. Requests for additional copies of the current month's bill and/or customer service records must be submitted in writing and shall specify the medium selected by the customer. (C)

Additional copies of a customer's previous monthly access service bills will be provided via paper format on an individual case basis. Requests for additional copies of previous monthly bills must be submitted in writing and shall specify the bill dates requested and the medium in which the copies are to be provided. The charges for providing additional copies of previous monthly access service bills will be developed by the Telephone Company on an individual case basis and filed in Section 13.3.11 following. ACCESS SERVICE

13 Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.5 Billing Name and Address(A) Service Description

Billing Name and Address (BNA) service provides account detail of the Telephone Company's customers to interexchange carriers, operator service providers, enhanced service providers, and any other provider of interstate telecommunications services.

(B) General

- (1) Upon acceptance of an order for BNA service, the Telephone Company will furnish account detail for each working telephone number submitted. Account detail consists of current data base information including the end user's billing name and billing address.
- (2) Only current information which resides in the Telephone Company's data base will be provided. Customers ordering BNA service must accept BNA account detail on an "as is" basis.
- (3) The Telephone Company will specify the location where requests for BNA service are to be received, and the format in which the requests are to be provided.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.5 Billing Name and Address (Cont'd)(B) General (Cont'd)

(4) The subscribing customer must agree that BNA information will not be resold or otherwise provided to any other person, corporation, partnership or entity, other than Customer's authorized billing agent, and that Billing Name and Address shall be used by Customer or Customer's authorized billing agent solely for:

- (a) Billing its customers for using Customer's telecommunications services,
- (b) Any purpose associated with the equal access requirement of United States v. AT&T, 552 F.Supp. 131 (D.D.C. 1982),
- (c) Verification of service orders of new customers, identification of customers who have moved to a new address, fraud prevention, and similar nonmarketing purposes.

(5) Manual Request

- (a) At the customer's option, the Telephone Company will provide BNA via manual request procedures.
- (b) BNA service information will be provided by the Telephone Company in standard paper format via facsimile or first class US mail.

(5) Manual Request (Cont'd)

- (c) In situations where the customer requests more than forty (40) BNA records on a single order, the Telephone Company will provide the requested BNA information in a time frame mutually agreed to by the customer and the Telephone Company.

(6) Mechanized Request

- (a) At the customer's option, the Telephone Company will provide BNA, subject to procedures established for Customer Account Record Exchange (CARE).
- (b) The customer will submit their requests through proper CARE procedures, as revised or amended.
- (c) The Telephone Company will provide a copy of the proper CARE procedures for BNA, as revised or amended, to each customer upon request.

(C) Rate Regulations

The number of BNA records for which charges apply will be accumulated by the Telephone Company, and billed to the customer on a monthly basis at the rates set forth in (D) following. An Access Order charge as set forth in Section 5.2.2 will also apply.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.6 Telecommunications Service Priority (TSP) System(A) Regulations

- (1) The TSP System was developed to satisfy the requirements of the National Communications System (NCS) of the Federal Government and provides the regulatory, administrative and operational procedures authorizing the priority installation and/or priority restoration of National Security Emergency Preparedness (NSEP) telecommunications services. TSP applies only to NSEP telecommunications services, and authorizes the Telephone Company to take priority action in the provision and restoration of such services.
- (2) Priority installation and/or priority restoration of NSEP telecommunications services shall be provided in accordance with Part 64.401, Appendix A, of the Federal Communications Commission's (FCC's) Rules and Regulations, and in accordance with the guidelines set forth in the *Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service Vendor Handbook (NCSH 3-1-2) and Service User Manual (NCSM 3-1-1)*.
- (3) The customer requesting TSP service must be the same customer for which the associated access service is provided.
- (4) Certain conditions may require that one or more customer services with a lower or no restoration priority be preempted in order to install or restore NSEP telecommunications service(s) of a higher priority. When such preemption is necessary, the Telephone Company will make every reasonable effort to notify the preempted customer of the action to be taken. Credit allowances for such service preemption shall be made according to the provisions set forth in 2.4.4(E) preceding.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.6 Telecommunications Service Priority (TSP) System (Cont'd)(A) Regulations (Cont'd)

- (5) In obtaining TSP, the customer authorizes the Telephone Company to provide certain customer record information to the Manager, NCS, of the Federal Government so that the Government can maintain and administer its TSP System. This customer record information will include only the customer's name, TSP authorization code, Telephone Company circuit ID, customer telephone number and customer mailing address.
- (6) In order to provide priority restoration service in compliance with Part 64.401, Appendix A, of the FCC's Rules and Regulations, the Telephone Company may be unable to notify the customer in advance where additional labor charges apply, as set forth in 13.1, before the required additional labor is undertaken. The customer, in obtaining a restoration priority, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain access services will cause unnecessary delays and, as a result, would be contrary to the aforementioned Rules and Regulations. In subscribing to TSP, the customer recognizes this condition and grants the Telephone Company the right to quote charges after the restoration has been completed.
- (7) When an assigned restoration priority is discontinued or revoked, and the associated access service is continued in service, no charge applies for such a discontinuance.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.6 Telecommunications Service Priority (TSP) System (Cont'd)(A) Regulations (Cont'd)

- (8) Credit allowance provisions for an interruption in priority restoration are the same as those for the access service with which it is associated, as set forth in 2.4.4 preceding.
- (9) When a customer requests that a priority installation be expedited (i.e., essential and emergency services), any applicable expedite charges will apply in addition to the priority installation charges set forth in 13.3.6(B)(1) following.
- (10) In the event that the Telephone Company must utilize specially constructed facilities in the priority installation of an access service, the regulations, rates and charges set forth in Section 14, following for the service for which priority installation is required shall also apply.
- (11) The activities performed by the Telephone Company in the provision of TSP are included in the following rate elements:
 - (a) Priority Installation - includes provision of confirmation information to the Manager, NCS, of the Federal Government, verification of TSP code assignments, and installation preemption, if necessary.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.7 Blocking and Screening Services

Central office blocking and screening services are provided on an as available basis depending upon the capabilities of various switching equipment. In addition, these services are generally available only in equal access exchanges. Accordingly these services may not be available in all exchanges.

- (A) Originating Line Screening (OLS) provides call screening information to the operator to prevent operator sent-paid (1+) calls from being billed to the line. This service is implemented by sending two information digits (generally known as II digits) with the Automatic Number Identification (ANI) of the originating line. These digits are transmitted to all carriers with the ANI. Additional information in the form of identification of the type of line, i.e. hotel, pay telephone, etc. may be provided to carriers for use in databases. This feature informs the OSP of any restrictions associated with the line for outgoing calls to which a caller is attempting to bill a call. This option can be used with the Bill Number Screening and International DDD Blocking options.
- (B) Billed Number Screening (BNS) provides automatic blocking of third number billing, collect billing, or both. BNS is implemented via external databases that may be queried by carriers as appropriate. The BNS feature is established for a particular billing number via service order. This feature informs the OSP of any restrictions regarding collect or third number calls billed to the line. This option can be used with the Originating Line Screening and International DDD Blocking options.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.7 Blocking and Screening Services (Cont'd)

- (C) International DDD Blocking provides a central office blocking service that blocks all calls dialed 011+ and 101XXXX011+. This service is available only to business customers and to certain line classes such as are used by hotels, hospitals, pay telephones, etc.

International blocking and screening services may also be available under the Telephone Company's general or local exchange tariffs. The services are available to all customers where technically feasible.

The following nonrecurring charges will be applied on a per line or per trunk basis. These rates are not intended to be duplicative with blocking and screening services provided under the Telephone Company's general or local exchange tariffs. For example, a customer may request International DDD Blocking from either the general/local exchange tariff or from CenturyLink Operating Companies, Tariff F.C.C. No. 9.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.8 900 Access Blocking(A) Description

900 Access Blocking is an optional end user feature that provides end office blocking, where technically feasible, of direct-dialed 1+900+ and 101XXXX+900+ calls by routing such calls to a recorded announcement. 900 Access Blocking is available for use with Feature Group A switched access services described in Section 6. preceding and with services offered under the Telephone Company's local or general exchange tariffs which are provided to end users and to end user customers for the provision of telephones to transient members of the public or to transient users of an aggregator's premises.

(B) Regulations

End user requests for 900 Access Blocking will be accepted by the Telephone Company in a manner consistent with the regulations set forth in the Telephone company's local or general exchange tariffs. Requests by subscribers to remove 900 Access Blocking services must be submitted to the Telephone Company in writing.

(C) Rates and Charges

900 Access Blocking will be provided on a "per line" basis at no charge to the customer.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.9 Carrier Call Transfer Service(A) Service Description

Carrier Call Transfer Service allows a participating IC to receive an on-line transfer call from a Telephone Company Business office via an interexchange carrier's (IC's) toll-free number. The IC must provide a toll free number dedicated solely for the Carrier Call Transfer Service. In addition, the IC must assign the highest call priority to all calls transferred by the Telephone Company under Carrier Call Transfer. This will allow Telephone Company calls to be routed to the first available IC representative regardless of other calls waiting in queue.

(B) General

Carrier Call Transfer permits an end user customer to be transferred to the IC if the end user customer has a question pertaining to service establishment/relocation, product inquiries, literature requests or if the end user customer has a billing inquiry regarding the IC's charges. Transfers to ICs for billing inquiry will not be offered when the Telephone Company provides billing inquiry for the IC. Additional transfer activity will be available from the end user customer to the IC based upon mutual agreement between the Telephone Company and the IC.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.10 Pay Telephone Optional Features

Following are descriptions of the optional features that are available in conjunction with pay telephone service. These features are available only in technically equipped central offices.

- (A) Answer Supervision provides the capability of delivering an off-hook supervisory signal from the central office serving the customer to a line interface at the customer's premises for local and 1+ intraLATA toll calls processed and completed by the Telephone Company. The transmitted supervisory signal indicates that the called party has answered the incoming call.
- (B) Coin Control uses a software driven system to provide features and capabilities similar to those provided by the microprocessor based "smart" pay telephone sets. Coin control provides the following central office features for use with coinless or coin operated pay telephone service:
 - (1) Coin collection, return and recognition - monitors signals from the pay telephone to identify when coins are deposited. This feature identifies the status of the attempted call, and sends a signal to the pay telephone to collect the coins when the call is completed or return the coins when the call is not completed.

ACCESS SERVICE

13. Additional Labor and Miscellaneous Services (Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.10 Pay Telephone Optional Features (Cont'd)(B) Coin Control (Cont'd)

- (2) Announcements - provides standard announcements used with pay telephone service (e.g., the amount of coin deposit required for long distance calls, the amount of overtime credit, and the amount of additional deposits required).
- (3) Pre-prompting for overtime - allows the pay telephone customer to prompt the end user for additional coin deposits required for overtime periods of conversation time, prior to the end of the time limit, and call cut-off if deposit is not received.

The following monthly recurring rates and nonrecurring charges will be applied on a per line or per trunk basis. These rates are not intended to be duplicative with the pay telephone optional features provided under the Telephone Company's general or local exchange tariffs. For example, a customer may request Pay Telephone Coin Control from either the general/local exchange tariff or from CenturyLink Operating Companies Tariff F.C.C. Np. 9.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.4 Special Construction Involving Both Interstate and Intrastate Facilities

When special construction involves facilities to be used to provide both interstate and intrastate services, charges for the portion of the construction used to provide interstate service shall be in accordance with this tariff. Charges for the portion of the construction used to provide intrastate service shall be in accordance with the appropriate intrastate tariff.

14.2.5 Payments for Special Construction(A) Payment of Charges

All bills associated with special construction charges are due in accordance with the regulations in the appropriate service section of this tariff.

(B) Start/End of Billing

Billing of recurring charges for specially constructed facilities starts on the day after the facilities are made available for use. Billing accrues through and includes the day that the specially constructed facilities are discontinued.

ACCESS SERVICE

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.5 Payments for Special Construction (Cont'd)(C) Credit Allowance for Service Interruptions

In the event of a service interruption involving a specially constructed facility, the customer shall receive a recurring monthly charge credit in accordance with the credit allowance provisions in the appropriate service section of this tariff associated with the affected services.

When an interruption continues due to the failure of the customer to authorize the replacement of facilities subject to a Replacement Charge, as specified, in 14.2.6(D)(1)(d) following, the credit allowance will be terminated on the seventh calendar day after the Telephone Company has provided the customer with written notification of the need for replacement. The credit allowance will resume on the day after the Telephone Company receives written authorization for the replacement from the customer.

14.2.6 Liabilities and Charges for Special Construction(A) General

This section describes the various charges and liabilities that may apply when the Telephone Company provides special construction of facilities in accordance with an order for service. Written approval of all liabilities and charges must be provided to the Telephone Company prior to the start of construction.

ACCESS SERVICE

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(B) Conditions Requiring Special Construction

Special construction is required when 1) facilities are not available to meet an order for service, and 2) the Telephone Company constructs facilities, and 3) one or more of the following conditions exist:

- The Telephone Company has no other requirement for the facilities requested.
- It is requested that service be furnished using a type of facility, or via a route, other than that which the Telephone Company would normally utilize in furnishing the requested service.
- More facilities are requested than would normally be required to satisfy an order.
- It is requested that construction be expedited, resulting in added cost to the Telephone Company.

(C) Development of Liabilities and Charges

Special construction charges and liabilities will be developed based on estimated costs, except when actual costs are requested in writing prior to the start of special construction.

In order to meet a scheduled service date when actual costs are requested, an initial special construction filing may be based on estimated costs. Such a filing will be revised when actual costs are available.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges

Depending on the specifics associated with each individual case, one or more of the following special construction charges and/or liabilities may be applicable:

(1) Nonrecurring Charge

A nonrecurring charge always applies and includes one or more of the following components:

(a) Case Preparation Charge

A nonrecurring charge always includes a case preparation charge component to cover the administrative expenses associated with preparing a special construction case and the associated tariff filing.

- 14.2.6 Liabilities and Charges for Special Construction (Cont'd)
- (D) Types of Liabilities and Charges (Cont'd)
- (1) Nonrecurring Charge (Cont'd)
- (b) Expediting Charge

A nonrecurring charge may include an expediting charge when it is requested that special construction be completed on an expedited basis. The charge equals the difference in estimated cost between expedited and nonexpedited construction.

- (c) Optional Payment

An optional payment charge may be included in the nonrecurring charge in association with a type of facility or route other than that which the Telephone Company would normally use in furnishing the requested service if lower recurring monthly charges are desired for the specially constructed facilities. This charge is equal to the excess installed cost or the total nonrecoverable cost, whichever is less. This election must be made in writing before special construction starts. If this election is coupled with the actual cost option, the optional payment charge will reflect the actual cost of the specially constructed facilities.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(1) Nonrecurring Charge (Cont'd)(d) Replacement Charge

If any portion of specially constructed facilities for which an optional payment charge has been paid requires replacement involving capital investment, a replacement charge will apply. This charge will be in the same ratio to the total replacement cost as the initial optional payment charge was to the installed cost of the original specially constructed facilities. If any portion of the facilities subject to the replacement charge fails, service will not be restored until notification is provided in writing that replacement is required and such replacement is ordered.

(e) Rearrangement Charge

If the Telephone Company is requested to rearrange existing specially constructed facilities, a nonrecurring charge equal to the cost of any additional special construction will apply.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(1) Nonrecurring Charge (Cont'd)(f) Special Construction of Facilities for Use for less than One Month

When the Telephone Company is requested to construct facilities to provide service for less than one month, a nonrecurring charge only applies. In addition to the case preparation charge component, this nonrecurring charge recovers all elements of cost, including engineering, shipping of equipment, equipment installation, line-up, equipment leasing, space rental, equipment removal, and any other costs associated with the construction of the facilities.

(2) Maximum Termination Liability and Termination Charge

A Maximum Termination Liability is equal to the nonrecoverable costs associated with specially constructed facilities and is the maximum amount which could be applied as a Termination Charge if all specially constructed facilities were discontinued before the Maximum Termination Liability expires.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(2) Maximum Termination Liability and Termination Charge (Cont'd)

The liability period is equal to the average life of the account associated with the specially constructed facilities. The liability period is generally expressed in terms of an effective and expiration date.

The Maximum Termination Liability is filed with the initial tariff filing in decreasing amounts at ten-year intervals over the average account life of the facilities. In the event that the average account life of the facilities is not an even multiple of ten, the last increment will reflect the appropriate number of years remaining.

Example Illustrating a 27-Year Average Account Life

Maximum Termination Liability	Effective Date	Expiration ate	D
\$10,000	6/1/84	6/1/94	
7,000	6/1/94	6/1/04	
3,000	6/1/04	6/1/11

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(2) Maximum Termination Liability and Termination Charge (Cont'd)

Prior to the expiration of each liability period, the customer has the option to (A) terminate the special construction case and pay the appropriate charges, or (B) extend the use of the specially constructed facilities for the new liability period.

The Telephone Company will notify the customer six months in advance of the expiration date of each ten-year liability period. The customer must provide the Telephone Company with written notification at least 30 days prior to the expiration of the liability period if termination is elected. Failure to do so will result in an automatic extension of the special construction case to the next liability period at the filed Maximum Termination Liability amount.

ACCESS SERVICE

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(2) Maximum Termination Liability and Termination Charge (Cont'd)

A Termination Charge may apply when all services using specially constructed facilities which have a tariffed Maximum Termination Liability are discontinued prior to the expiration of the liability period. The charge reflects the unamortized portion of the nonrecoverable costs at the time of termination, adjusted for net salvage and possible reuse. Administrative costs associated with the specific case of special construction and any cost for restoring a location to its original condition are also included. A Termination Charge may never exceed the filed Maximum Termination Liability.

A partial termination of specially constructed facilities will be provided, at the election of the customer. The amount of the Termination Charge associated with such partial termination is determined by multiplying the termination charge which would result if all services using the specially constructed facilities were discontinued, at the time partial termination is elected, by the percentage of specially constructed facilities to be partially terminated. A tariff filing will be made following a partial termination to list remaining Maximum Termination Liability amounts and the number of specially constructed facilities the customer will remain liable for.

14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(2) Maximum Termination Liability and Termination Charge (Cont'd)Example

A customer with a filed Maximum Termination Liability of \$100,000 for 3600 specially constructed facilities requests a partial termination of 900 facilities. The Termination Charge for all facilities, at the time of election, is \$60,000. The partial termination charge, in this example, is \$60,000 x 900/3600, or \$15,000.

(3) Annual Underutilization Liability and Underutilization Charge

Prior to the start of special construction, the Telephone Company and the customer will agree on (1) the quantity of facilities to be provided, and (2) the length of the planning period during which the customer expects to place the facilities in service. The planning period is hereinafter referred to as the Initial Liability Period (ILP). The ILP is listed in the tariff with an effective and expiration date.

Underutilization occurs only if, at the expiration date of the ILP and annually thereafter, less than 70 percent of the specially constructed facilities are in service at filed tariff service rates.

ISSUE DATE:

ACCESS SERVICE

14 Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(3) Annual Underutilization Liability and Underutilization Charge (Cont'd)

An annual underutilization liability amount is filed on a per unit basis (e.g., per cable pair) for each case of special construction. This amount is equal to the annual per unit cost and includes depreciation, maintenance, administration, return, taxes and any other costs identified in the supporting documentation provided at the time the special construction case is filed.

Upon the expiration of the ILP, the number of underutilized facilities, if any, are multiplied by the annual under-utilization liability amount. This product is then multiplied by the number of years (including any fraction thereof) in the ILP to determine the underutilization charge.

Annually thereafter, the number of underutilized facilities, if any, existing on the anniversary of the ILP expiration date will be multiplied by the annual under utilization liability amount to determine the underutilization charge for the preceding 12 month period.

ACCESS SERVICE

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(D) Types of Liabilities and Charges (Cont'd)(3) Annual Underutilization Liability and Underutilization Charge (Cont'd)Example

A customer orders 100 services and the special construction of a 600 pair building riser cable is agreed to, based on the customer's 5 year facility requirements. The ILP, in this example, would be filed at 5 years. The annual underutilization liability is filed at \$2.00 per pair. If 400 pairs were in service at the end of the ILP, there would be an underutilization of 20 pairs, i.e., 420 (70% of 600) - $400 = 20$. The total underutilization charge for the first 5 years would be \$200.00, or \$2.00 per pair x 20 pairs x 5 years.

If 420 pairs are in service at the end of the 6th year, there is no underutilization, i.e., $420 - 420 = 0$.

- 14.2.6 Liabilities and Charges for Special Construction (Cont'd)
- (D) Types of Liabilities and Charges (Cont'd)
- (4) Recurring Monthly Charges
- (a) Charge for Route or Type other than Normal

When special construction is requested using a route or type of facility other than that which the Telephone Company would normally use, a recurring monthly charge, in addition to the monthly rates for service, is applicable. The charge is equal to the difference between the recurring costs of the specially constructed facilities and the recurring costs of the facilities the Telephone Company would have normally used.

(i) When an Optional Payment Charge as set forth in 14.2.6.(D)(1)(c) preceding has been elected, the recurring monthly charge will be reduced to include specially constructed facility operating expenses only.

(ii) If the actual cost option as set forth in 14.2.6(C) preceding has been elected, the recurring charge will be adjusted to reflect the actual cost of the new construction when the costs have been determined. This adjusted recurring charge is applicable from the start of service.

(N)

14.2 Regulations (Cont'd)14.2.6 Liabilities and Charges for Special Construction (Cont'd)(E) Cell Site Backhaul Service (CSBH)

Special construction charges associated with the delivery of CSBH service are outlined below. The customer must have a minimum of 1,700 sites within the Telephone Company service area to qualify.

(1) The Telephone Company will waive charges for special construction cost for those cell sites requiring less than \$75,000.00 of special construction costs.

(2) For customer sites with special construction costs equal to or greater than \$75,000.00 and less than \$100,000.00, the Telephone Company will charge the customer a portion of the special construction costs in the amount of \$20,000.00 per cell site to contribute to the total amount of special construction charges. These charges will be filed in Section 14.3.2 following.

(3) For customer sites with special construction costs equal to or greater than \$100,000.00, charges for special construction costs will be determined on an Individual Case Basis (ICB) as agreed to by the Telephone Company and the customer, and such charges will be filed in Section 14.3.2 following.

(4) The Telephone Company will not charge the customer any special construction costs for the installation of service at a service hand-off location.

The application of special construction charges outlined above will apply to special access Ethernet Virtual Private Line service under a seven (7) year Fixed Rate Term Plan as set forth in 7.4.20 preceding.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.7 Deferral of Start of Service

The Telephone Company may be requested to defer the start of service which will use specially constructed facilities subject to the provisions set forth in the service section of this tariff under which service is being provided. Requests for special construction deferral must be in writing and are subject to the following regulations:

(A) Construction Has Not Begun

If the Telephone Company has not incurred any installation costs before receiving a request for deferral, no charge applies.

(B) Construction Has Begun

If the construction of facilities has begun before the Telephone Company receives a request for deferral, charges will vary as follows:

(1) All Services Are Deferred

When all services which will use specially constructed facilities are deferred, a charge based on the costs incurred by the Telephone Company during each month of the deferral will apply. Those costs include the recurring costs for that portion of the facilities already completed and any other costs associated with the deferral. The cost of any components of the nonrecurring charge which have been completed at the time of deferral will also apply.

14. Special Construction (Cont'd)14.2 Regulations (Cont'd)14.2.8 Definitions (Cont'd)

Facilities - The term "Facilities" denotes any cable, poles, conduit, microwave or carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide interstate services.

Initial Liability Period - The term "Initial Liability Period" denotes the initial planning period during which the customer expects to place specially constructed facilities in service.

Installed Cost - The term "Installed Cost" denotes the total investment (estimated or actual) required by the Telephone Company to provide specially constructed facilities.

Maximum Termination Liability - The term "Maximum Termination Liability" denotes the maximum amount which may be billed if all services using specially constructed facilities are terminated prior to the expiration of the Maximum Termination Liability Period.

Maximum Termination Liability Period - The term "Maximum Termination Liability Period" denotes the length of time for which a termination charge may apply if all services using specially constructed facilities are terminated.

Net Salvage - The term "Net Salvage" denotes the estimated scrap, sale, or trade-in value, less the estimated cost of removal. Cost of removal includes the costs of demolishing, tearing down, or otherwise disposing of the material and any other applicable costs. Since the cost of removal may exceed salvage value, net salvage may be negative.

ACCESS SERVICE

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services15.1 Line Information Data Base (LIDB) Access Service15.1.1 General

Line Information Data Base (LIDB) Access Service provides the customer the ability to access billing validation data contained on the Telephone Company's **LIDB**. The LIDB is accessed through the Telephone Company SS7 network which utilizes American National Standards Institute (ANSI) signaling protocol. Access to the Telephone Company's LIDB provides customers the ability to provide toll fraud protection by validating calling card and toll billing exception data and performing public telephone checks.

(D)

15.1.2 Description

LIDB Access Service is provided by the Telephone Company to its customers in support of alternate billing services. LIDB Access Service provides access to billing validation data which resides on the Telephone Company data base for use with alternate billing services. Alternate billing services allow customer's end users the ability to bill calls to an account not necessarily associated with the originating line. LIDB Access Service supports alternate billing services such as Calling Card, Collect Calls, and Third Number Billing.

Customers participating in LIDB Access Service for purposes of obtaining billing validation data, which resides on the Telephone Company data base, originate queries to the LIDB from an operator services system (OSS) identified by an originating point code (OPC). The LIDB query is routed through one of the Telephone Company inter-connecting Signaling Transfer Points (**STPs**) to the Telephone Company Regional Service Control Point (SCP) where the LIDB resides.

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.2 Description (Cont'd)

The requested billing validation data, in the form of signaling information, is passed back via either one of the two Telephone Company interconnecting STPs to the customer's designated OSS where the LIDB query was originated. The Telephone Company LIDB will receive and respond to Calling Card Service and Billed Number Screening queries as defined in Technical Reference Publications GR-246, FR-271, GR-905 and GR-954.

LIDB Access Service will provide the following functions on a per query basis:

- Validation of a telecommunications calling card stored on LIDB.
- Determination of whether the billed line automatically rejects certain calls billed as collect or third number.
- Determination of whether the billed line in the Billed Number Screening Query is a public telephone number using the "Service or Equipment Indicator" in the LIDB.

All access to the Telephone Company's LIDB will occur through **the** Telephone Company interconnecting **STPs**. **The** Telephone Company will provide customer interconnection to the Telephone Company interconnecting STPs through its Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service provided in Section 6.8.2(G) preceding.

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.2 Description (Cont'd)(A) Limitations

Unless expressly authorized in writing by the customer and the Telephone Company, LIDB Access Service is not to be used for purposes other than those LIDB functions described in 15.1.2 preceding. LIDB Access Service is to be used for those services only on a call-by-call basis and data accessed on LIDB may not be stored elsewhere for future use.

Proprietary information resident in the Telephone Company LIDB is protected from unauthorized access and may not be stored in a customer's data base for any reason. All information related to alternate billing services is proprietary. Some examples of proprietary information are as follows:

- Billed Number (resides in the Telephone Company LIDB)
- PIN Number(s) (resides in the Telephone Company LIDB)
- Billed Number Screening (BNS) indicators (resides in the Telephone Company LIDB)
- Reports on LIDB usage
- Information related to billing for LIDB usage
- LIDB usage statistics

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.2 Description (Cont'd)(B) Rate Categories

There are two basic elements which apply to LIDB Access Service: Query Transport and Query.

(1) Query Transport

The Query Transport rate element provides for the transmission facilities between the Telephone Company's **STPs and** the Telephone Company SCP where the LIDB resides. (D)

(2) Query

The Query rate element provides for the validation of calling card and toll billing exception data and performance of public telephone checks. For these validation purposes, LIDB Access Service customers will query the LIDB located in the Telephone Company SCP via the Telephone Company CCS/SS7 network. The LIDB will respond with a verification signal message back to the LIDB Access Service customer via the Telephone Company CCS/SS7 network.

The charges associated with Query Transport and Query are set forth in 15.1.6 following:

(C) Acceptance Testing

The Telephone Company will perform testing of the LIDB Access Service in conjunction with CCS/SS7 Interconnection Service as outlined in Technical Reference Publications GR-905 and GR-954.

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.2 Description (Cont'd)(D) Ordering Options and Conditions

LIDB Access Service is ordered under the Access Order provisions set forth in Section 5. preceding. Also, included in that section are other charges which may be associated with ordering LIDB Access Service (e.g., Service Date Change Charges).

15.1.3 Undertakings of the Telephone Company

In addition to the obligations of the Telephone Company set forth in Section 2. preceding, the Telephone Company has certain other obligations pertaining only to the provision of LIDB Access Service. These obligations are as follows:

(A) LIDB Data Specifications

The Telephone Company's LIDB will contain a record for every working line number and Billed Number group, served by the Telephone Company. Other exchange carriers who may store their data in the Telephone Company LIDB are requested to provide this data as well.

The Telephone company will administer its LIDB update process by use of a Data Base Administration system (DBAS). Updates contain information for calling card, collect and bill-to-third Party Alternate Billing Services (ABS) verification.

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.3 Undertakings of the Telephone Company (Cont'd)(A) LIDB Data Specifications (Cont'd)

The Telephone Company generates customer record service order update activity which is electronically transferred to LIDB from the DBAS system. Mechanized updates (e.g. add, delete, modify customer accounts as customers move, order new service, disconnect service, or become delinquent on their account) are processed daily, 6 days per week, Monday through Saturday. Emergency updates for calling cards reported lost, stolen or otherwise compromised will be made 7 days per week, 24 hours per day.

ABS query usage within LIDB is monitored for unusual patterns which may be indicators of abuse or attempted fraud. By using a threshold method, when validation queries for a specific LIDB record reach the Telephone Company established usage threshold level, the number is placed on an exception list and an investigator will determine the validity of the usage. If the usage is determined to be invalid, the investigator will immediately deactivate the record in LIDB.

Usage thresholds will be established by the Telephone Company. Thresholds may vary by class of end user account (e.g. residence, business). Usage thresholds are applied uniformly within LIDB, and will monitor combined query usage from all LIDB Access Service Customers.

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services (Cont'd)15.1 Line Information Data Base (LIDB) Access Service (Cont'd)15.1.3 Undertakings of the Telephone Company (Cont'd)(A) LIDB Data Specifications (Cont'd)

The Telephone Company will also establish usage thresholds which, when met by query activity to a calling card record, will automatically disable the record in LIDB. The number is placed on an exception list and an investigator will determine validity of the usage. If a calling card is automatically disabled and the usage is determined valid, the calling card will be reactivated in LIDB.

The Telephone Company will administer its LIDB to insure the provision of acceptable service levels to all customers. During periods of LIDB congestion, an automatic call gapping procedure will be utilized to control such congestion. The automatic call gapping procedure signals the switch and identifies the gap (how long the switch should wait before sending another query) and the duration (how long the switch should continue to perform gapping) according to the level of congestion. For example, during an overload condition, the automatic call gapping procedure will signal the switch when to begin to drop one out of three of the queries received. This call gapping procedure will be applied uniformly to all users of the Telephone Company's LIDB service.

The Telephone Company maintains the right to invoke manual intervention of the automatic call gapping procedure to preserve the integrity of the network.

LIDB Access Service Queries received at the SCP are accumulated and records are generated identifying the number of queries processed by the originating point code (OPC) of the customer's Operator Service System (OSS) location. This information is delivered to the accounting office via tape or by teleprocessing for processing and billing. The query charges will be accumulated and billed to the LIDB Access Service customer each month.

The Telephone Company will provide sufficient information with the bill to enable the customer to determine how the billed amount was calculated. Included on the bill will be separate entries displaying the Billed Number Screening queries and the Calling Card Number queries.

Other reports may be provided as mutually agreed upon. Such agreements, provided on an individual case basis, may involve additional charges or conditions.

In addition to the obligations of the customer set forth in Section 2. preceding, the customer has certain specific obligations pertaining to the use of LIDB Access Service. These obligations are as follows:

(A) LIDB Access Service PIU Report

The customer shall provide to the Telephone Company a LIDB Access Service Percent Interstate Usage (PIU) Report in accordance with the provisions specified in Section 2.3.11 preceding.

15.1.5 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for LIDB Access Service.

(A) Description of Rates and Charges

There are two types of rates and charges that will apply to LIDB Access Service. These are usage rates and nonrecurring charges. These rates and charges are applied as set forth in (1) and (2) following. For billing purposes, each month is considered to have 30 days.

The usage rates (Query Transport and Query) for LIDB Access Service are applicable on a per query basis as described in (B) following.

(2) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific activity (i.e., installation or change to an existing service). The nonrecurring charges that apply for installation of LIDB Access Service are described in (a) following. The nonrecurring charges that apply for service rearrangements are described in (b) following.

(a) Establishment of Service

Nonrecurring charges apply for each request for establishment of LIDB Access Service. The nonrecurring charges for the establishment of LIDB Access Service are set forth in Section 5.2.2 preceding.

Service Rearrangements are changes to existing services which do not result in either a change in the minimum period requirements as set forth in Section 5.2.6 preceding or a change in the location designated by the OPC.

Changes which result in the establishment of new minimum period obligations are treated as a discontinuance of the existing service and establishment of a new service and all applicable nonrecurring charges will apply.

Certain service rearrangements which are administrative in nature (as specified in Section 6.7.1(C)(3)) will be made without charge except as noted.

Provisions for service rearrangements for which nonrecurring charges will apply are also set forth in Section 6.7.1(C)(3) preceding.

ACCESS SERVICE

16. Operator Services [1]

(C)

16.1 Operator Services Description

Operator Services includes the service category of Operator Transfer. Operator Transfer service is provided from OSS Tandems to the customer's premises in conjunction with the rules and regulations of the specified Access Services found in Sections 2, 3, 5, and 6 preceding. Operator Services are available at all Telephone Company end offices, however may be unavailable in certain LATAs due to existing trunking arrangements. In locations where the provider of operator services is not the Telephone Company, availability of operator services is at the discretion of the operator services provider. If operator services are available, the Telephone Company rates are applicable and billed by the Telephone Company. In locations where the Telephone Company is the provider of operator services for other telephone companies, availability of operator services is contingent on the availability of operator services tariffs of that telephone company. The OSS Tandem locations are provided in National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4. (D)(C)

16.1.1 Operator Transfer Service (OTS)

Operator Transfer is an originating service that provides call routing of 0- (the digit "0" with no additional digits) calls to a participating customer as requested by the calling end user. An Operator Transfer call is routed to the Telephone Company's OSS operator for completion to a destination outside the originating LATA when the calling party dials "0" and waits for an operator to assist with the call. The Telephone Company operator will, upon request, transfer the call to the calling end user's participating customer (i.e., the Telephone Company's Operator Transfer Service customer) of choice. If the calling end user has no specific customer preference, the OSS operator will consult reference information and offer to the calling party the name of a participating customer. The reference information is arranged to give all participating customers an equal opportunity of being offered to and chosen by the calling end user. After a selection is made by the calling end user, the operator will then key in the selected customer's Carrier Identification Code (CIC) and transfer the call.

[1] Effective October 1, 2016, Busy Line Verification and Busy Line Interrupt are discontinued under authority granted in WC Docket No. 16-147. (N)(N)

ACCESS SERVICE

16. Operator Services (Cont'd)16.1 Operator Services Description (Cont'd)

(D)

(D)

16.2 Manner of Provisioning

- (A) Operator Services trunking between the customer's premises and the OSS Tandem is provisioned as either Switched Access Feature Group B, Feature Group C, or Feature Group D service and may be arranged, per the customer's request, as either 1-way or 2-way service. These trunk groups are established as final trunks and will be assigned data registers to obtain usage, peg count, and overflow attempt information. If a trunk(s) does not currently exist between the customer's premises and the OSS Tandem(s), the customer must establish Feature Group B or Feature Group D service to the Telephone Company's OSS Tandem(s). The Telephone Company will provide trunk side switching along with trunk answer and disconnect supervisory signaling to the customer.

ISSUE DATE:
September 16, 2016Issued Under Transmittal No. 86
Vice President-Regulatory Operations
100 CenturyLink Drive
Monroe, Louisiana 71203EFFECTIVE DATE:
October 1, 2016

ACCESS SERVICE

16. Operator Services (Cont'd)16.2 Manner of Provisioning (Cont'd)

- (B) When the OSS Tandem also functions as the Message Toll Service (MTS) Access Tandem, the customer may combine Operator Services traffic with its MTS Switched Access traffic between the OSS Tandem and the customer's premises provided the trunk group has the same signaling and routing requirements as specified for Operator Transfer. However, Operator Services traffic may not be combined with MTS Switched Access traffic if the customer provides operator functionality or coin station control.

(C)

16.2.1 Operator Transfer

- (A) The customer must order sufficient capacity between the OSS Tandem(s) and the customer's premises to serve Operator Transfer traffic originating from those end offices. The Telephone Company OSS Tandems send 10-digit ANI (NPA + 7-digit telephone number) for Feature Group D trunk groups with Equal Access signaling or Operator Services Address signaling and Feature Group C trunk groups with Traditional signaling. However, the Telephone Company OSS Tandems send 7-digit ANI for Feature Group C trunk groups with Operator Services signaling. Therefore, if the customer requires Operator Transfer calls separately identified by the originating NPA for the Feature Group C trunk group with Operator Services signaling, the customer must utilize a separate and final trunk group, from the OSS Tandem to their customer's premises, for each NPA served by that OSS Tandem.
- (B) In order for the customer to provide full operator functionality (e.g., Operator Recall, Sequence Dialing, Time and Charge Quotation, and Emergency Ring-back) or coin control, the customer must order Operator Trunk - Pay Telephone for Feature Group C service or Operator Trunk - Full Feature for Feature

(B) (Cont'd)

Group D service. Full operator functionality is not required to provide operator transfer service. When coin control is provided, the customer must establish a separate and final trunk group for each type of end office operator/coin signaling (i.e., inband, expanded inband, and multiwink) existing in the end offices served by the OSS Tandem. Operator Transfer is not available for coin sent-paid traffic.

16.2.2 Signaling

- (A) For Operator Transfer, the Telephone Company will provide Traditional signaling for Feature Group B or Feature Group C service or Equal Access signaling for Feature Group D service. Customers providing operator functionality for operator traffic or coin control for pay telephone traffic will be provided with Operator Services signaling for Feature Group C or Operator Services Address signaling for Feature Group D service.

(D)
|
(D)

16.2.3 Design Layout Report

Upon request, the Telephone Company will provide, to the customer, the make-up of facilities and services provided from the customer's premises to the OSS Tandem. This information will be provided in the form of a Design Layout Report. The Design Layout Report will be provided at no charge and will be reissued or updated whenever the facilities provided for the customer's use are materially changed.

ACCESS SERVICE

16. Operator Services (Cont'd)16.2 Manner of Provisioning (Cont'd)16.2.4 Design Blocking

Trunks between the customer's premises and the OSS Tandems will follow the normal Feature Group B, C, or D blocking criteria as set forth in 6.5.6 preceding. The Telephone Company will perform routine measurement functions to inform the customer that an adequate number of transmission paths are in service to meet the normal Feature Group B, C, or D design blocking levels. However, capacity levels and trunk quantities will be the responsibility of the customer.

16.2.5 Testing

Acceptance testing for Operator Services will be provided as set forth in 6.1.5 preceding. Testing Capabilities for Feature Group B, Feature Group C, and Feature Group D services utilized in conjunction with Operator Services will be provided as set forth in 6.2.2(D), 6.2.3(D) and 6.2.4(D) preceding.

16.2.6 Interface Groups and Transmission Parameters

Operator Services will utilize the same interface groups and transmission specifications as specified in 6.2.2(C), 6.2.3(C) and 6.2.4(C) preceding.

16.2.7 Ordering and Billing Options and Conditions

- (A) Operator Transfer Service is ordered under the access order provisions as set forth in Section 5 preceding. The Access Order Charge applicable for Switched Access will apply per Access Order - one per state - for the installation, addition, change, or rearrangement of Operator Transfer Service. In addition, other Access Order Charges (i.e., Service Date Change Charges, etc.) may apply. No access order is required to receive Operator Inward Assistance services.
- (B) Billing for all Operator Services will occur on a monthly basis as other billing is performed, but will be rendered on a statement detailing the flat-rated charges for the entire state applicable to that customer for the specified monthly period.

16. Operator Services (Cont'd)16.3 Liability of the Telephone Company

In addition to the liability statements as set forth in Section 2 preceding, the following also applies.

- (A) The Telephone Company's liability, if any, for its gross negligence or willful misconduct is not limited by this Tariff. With respect to any other claim or suit, by a customer or any others, for damages arising out of negligent mistakes, omissions, interruptions, delays or errors, defects in transmission, omission from or defects in the applicable list of customers or transfers to customers occurring in the course of furnishing service hereunder, the Telephone Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period of time during which such mistake, omission, interruptions, delays, errors, defects in transmission or service, omissions from or defects in the applicable list of customers or transfers to customers continues. However, any such mistakes, omissions, interruptions, delays, errors, or defects in transmission or service, omissions from or defects in the applicable list of customers or transfers to customers which are caused by or contributed to by the negligent omission or willful act of the customer provided facilities or equipment shall not result in the imposition of any liability whatsoever upon the Telephone Company. The Telephone Company expressly disclaims any express or implied warranty for the aforesaid service or offering including no warranty of merchantability or warranty of fitness for any particular purpose. It is expressly acknowledged by all subscribers to the aforesaid service that errors, mistakes and omissions can and will occur and that the Telephone Company neither warrants nor guarantees faultless or perfect service or transmission.

16. Operator Services (Cont'd)16.3 Liability of the Telephone Company (Cont'd)

- (B) The customer indemnifies and saves the Telephone Company harmless against claims for libel, slander, or infringement of copyright and trademark arising from the information transmitted over facilities furnished hereunder and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.
- (C) The customer indemnifies and saves the Telephone Company harmless against claims or suits for damages arising where the connection between the calling end user and a local emergency agency is in some way faulty or impaired, due in whole or in part to the negligent mistake or delay of the Telephone Company. Examples of this may include, but are not limited to, instances in which the Telephone Company, through negligent mistake or delay, may provide an incorrect local emergency agency number, delay in locating a local emergency agency number, or disconnect an in-progress call between a calling end user and a local emergency agency.

16.4 Obligations of the Customer

In addition to the general regulations as set forth in Section 2 preceding, the following also applies.

- (A) The customer shall provide the necessary on-hook, off-hook, answer supervision, and disconnect supervision at the customer's premises.
- (B) Jurisdictional reporting will apply as required in Section 2.3.11 for determining the Percent Interstate Usage (PIU).

16.5 Rate Regulations

16.5.1 Description and Application of Rates and Charges

(A) Operator Transfer Service

The Operator Transfer charge is a flat-rated charge applicable per call transferred to the subscribing customer.

In addition to the Operator Transfer charge, Switched Access rates apply as set forth in 6.8 preceding and Carrier Common Line (CCL) charges as set forth in 3.8 and 3.9 preceding apply for usage originating from all end offices served by the OSS Tandem.

Nonrecurring Switched Access charges are applicable as specified in 6.7 and 6.8 preceding.

ACCESS SERVICE

17. Expanded Interconnection Services

For Special Access Services only, Non-Competitive End-User Channel Terminations (EUCTs) are filed as part of this tariff. Expanded Interconnection Services for other Special Access Services to complete the circuit are outside this tariff and can be accessed at the Company's website or Company's other designated location.

(N)

(N)

The Company will provide expanded interconnection services in conjunction with the Switched Access and Special Access Services provided in Sections 6 and 7 preceding.

(C)

17.1 Basic Service Description(A) Physical Collocation**

Physical collocation provides an Interconnector with collocation space (cageless or enclosure secured) and associated requirements such as power and environmental conditioning within a Company premises* to locate certain fiber optic, microwave or other wireless facilities and equipment, and a connection to certain Company provided services.

(C)

(C)

(B) Virtual Collocation

Virtual collocation provides a connection between Interconnector provided and Company provided fiber optic, microwave or other wireless transport facilities at a manhole or other Company designated interconnection point outside the Company premises to allow interconnection with certain Telephone Company provided services.

(C)

(C)

(C)

(C) Rate Categories

Expanded Interconnection Services consist of the rate categories described generally below. Specific regulations governing the provision of these rate elements are set forth following in Sections 17.5 and 17.6 for physical and virtual collocation, respectively.

* For the purposes of this section, the term " Company premises" includes Company central offices, serving wire centers and access tandems, as well as all buildings or similar structures owned or leased by the Company that house Company network facilities.

(C)

(C)

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of October 4, 2008 at offices where they currently exist. Orders for new arrangements received prior to October 4, 2008 will be processed. Customers with existing arrangements may continue to augment (add to; or make changes to; or partial disconnection of) their existing arrangements in offices where they currently exist under the rates, terms and conditions of this tariff.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.1 Basic Service Description (Cont'd)(C) Rate Categories (Cont'd)(1) Application Fee

The application fee is a nonrecurring charge that recovers the cost of processing the application for expanded interconnection and provides for the preliminary work needed to determine if Telephone Company premises space and facilities are available to meet the Interconnector's collocation request. The application fee will be assessed once for each application submitted per telephone company premises, and is not dependent upon the amount of collocation space requested.

(2) Floor Space

The floor space rate element is assessed on a per square foot per month basis and provides for the use of Telephone Company premises equipment areas occupied by the Interconnector. Floor space includes associated environmental support systems such as AC power (one 15 amp outlet), lighting, heating and air conditioning. The 15 amp AC power outlet is intended for occasional use to provide power to test equipment, hand tools and other devices on a temporary basis and shall not be used by the customer as a permanent power supply for equipment used to provide end user services.

(3) Roof Space

The roof space rate element is assessed on a per square foot per month basis and provides for the use of space on the exterior of the Telephone Company premises where the Interconnector has installed microwave or other wireless antenna facilities.

(4) Transmitter/Receiver Space

The transmitter/receiver space rate element is assessed on a per square foot per month basis and provides for the Interconnector's use of Telephone Company premises equipment areas for the placement of microwave or other wireless transmitter/receiver equipment. Transmitter/receiver space includes associated environmental support systems such as AC power (one 15 amp outlet), lighting, heating and air conditioning.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.1 Basic Service Description (Cont'd)(C) Rate Categories (Cont'd)(5) DC Power

The DC power rate element consists of both a recurring monthly rate and a nonrecurring charge. The nonrecurring charge recovers the cost of delivering Telephone Company DC power to the Interconnector's collocation space and is assessed per foot of power lead provided to the collocation space occupied by the Interconnector. A separate power lead is required for each 7 foot equipment bay located in the Interconnector's collocation space. The recurring monthly rate recovers the cost of providing 48 volt DC power to the Interconnector's collocation space, and is assessed per fuse amperage ordered.

(6) Collocation Space

Collocation space is available in single-bay increments (i.e. an Interconnector may purchase space in increments small enough to collocate a single rack, or bay, of equipment) and will be charged for at the per square foot floor space monthly rate.

(7) Security Enclosure

The security enclosure rate element consists of both a fixed and per linear foot nonrecurring charge. Security enclosures are available at the Interconnector's option, and the associated nonrecurring charges recover the cost of constructing a lockable, eight foot high, wire mesh security fence surrounding the perimeter of the Interconnector's collocation space.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.1 Basic Service Description (Cont'd)(C) Rate Categories (Cont'd)(8) Conduit Space - Per Foot

The conduit space - per foot rate element is assessed on a per linear foot per month basis and provides for the Interconnector's use of conduit duct space from the designated interconnection point to the Interconnector's collocation space.

(9) Conduit Space - Vault

The conduit space - vault rate element is assessed on a per foot of a 9-conduit vault per month basis and provides for the Interconnector's use of the Telephone Company's cable vault and supporting structures.

(10) Cross Connect

The cross-connect rate element is assessed on a per connection per month basis and recovers the cost of connecting the Interconnector's terminating equipment to services provided by the Telephone Company. Cross-connections are available at DS0, DS1, DS3, OC-n and Ethernet levels. Optical cross-connections are available in 4-fiber configurations.

(11) Riser Space

The riser space rate element is assessed on a per foot per month basis and provides a cable path between the cable vault and the Interconnector's collocation space.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.1 Basic Service Description (Cont'd)(C) Rate Categories (Cont'd)(12) Diverse Riser Space

The diverse riser space rate element is assessed on a per foot per month basis and provides a second cable path between the cable vault and the Interconnector's collocation space.

(13) Internal Cabling

The internal cabling rate element is assessed on a per linear foot of 4-fiber cable per month basis and recovers the cost of cabling, both 4-fiber and coaxial as necessary, from the point of interconnection outside the Telephone Company premises (when that point of interconnection is a manhole near the Telephone Company premises) to the Interconnector's terminating equipment in the Telephone Company premises.

(14) Internal Conduit

The internal conduit rate element is assessed on a per linear foot per month basis and recovers the cost of 12-fiber conduit and riser from the point of interconnection outside the Telephone Company premises (when that point of interconnection is a manhole near the Telephone Company premises) to the Interconnector's terminating equipment in the Telephone Company premises.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.1 Basic Service Description (Cont'd)(C) Rate Categories (Cont'd)(15) External Cabling and Conduit

The external cabling and conduit rate element is assessed on a per 1/4 mile per 4-fiber cable per month basis and recovers the cost of 4-fiber cabling and conduit as necessary from the point of interconnection outside the Telephone Company premises (when that point of interconnection is not a manhole near the Telephone Company premises) to a manhole near the Telephone Company premises.

(16) Cable Pull and Splice

The cable pull and splice rate element is assessed based on per half hour additional labor rates and recovers the cost of Telephone Company personnel pulling the Interconnector's fiber optic cable from the interconnection point in a manhole outside the Telephone Company premises to the cable vault, and splicing the Interconnector's cable to the riser cable in the cable vault.

(17) Installation and Maintenance

The installation and maintenance rate element is assessed based on per half hour additional labor rates and recovers the cost of installing and/or maintaining Interconnector provided outside plant (e.g., entrance cable, riser cable, and conduit).

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.2 Regulations

- (A) The Telephone Company will provide an interconnection to the Switched or Special Access services specified in Sections 6 and 7 preceding. (C)
(D)
(D)
- (B) Expanded Interconnection to switched access services is available only from Telephone Company central offices where suitable technical capability exists.
- (C) The Telephone Company reserves the right, on 30 days written notice by mail or by email if the customer is billed electronically or consents to receiving electronic notification, to terminate the interconnection arrangement in the event the Interconnector violates the terms of this tariff. (C)
(C)
- (D) The Telephone Company reserves the right, with 30 days notification to the Interconnector, to modify technical, administrative, or environmental procedures based on improvements suggested by Expanded Interconnection use. In the event the Interconnector requests reconsideration of the proposed modifications, the Telephone Company will work cooperatively with the Interconnector to determine if alternative modifications could be implemented.
- (E) Facilities and equipment provided by the Interconnector are subject to the terms, conditions, and rates specified in this tariff.
- (F) An Interconnector that fails to pay any of the charges associated with the provision of Expanded Interconnection is subject to the tariff provisions set forth in Section 2.1.8 preceding.
- (G) The Credit Allowance for Service Interruptions as set forth in Section 2.4.4 preceding and the Service Performance Provisioning Guarantee as set forth in Section 2.4.9 preceding also apply to the cross connect elements in Expanded Interconnection.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.2 Regulations (Cont'd)

- (H) The provision of Expanded Interconnection as set forth in this tariff does not constitute a joint undertaking of the Telephone Company and the Interconnector for the furnishing of any service.
- (I) When facilities are not available to meet an order for Expanded Interconnection, the Telephone Company will construct additional facilities in accordance with the regulations, liabilities, rates and charges for Special Construction as set forth in Section 14 preceding.
- (J) The provision of Expanded Interconnection and its restoration following a service interruption shall comply with the provisions of the Telecommunications Service Priority System (TSP) set forth in Section 13.3.6 preceding. In order to meet the emergency requirements of the TSP System, the Telephone Company may rearrange Telephone Company conduit, manholes, cable entrances, riser systems, or other Telephone Company facilities occupied by an Interconnector's transport facilities. The Telephone Company will make a reasonable effort to notify the Interconnector of the necessary rearrangements. If an emergency is caused by an act or omission of the Interconnector or by the Interconnector's equipment or facilities, the Interconnector will be charged for such rearrangement on a time and material basis.
- (K) The Telephone Company reserves the right to stop any service when the Telephone Company deems such stoppage necessary by reason of accident or emergency, or for repairs, improvements or as otherwise provided. The Telephone Company will make every reasonable effort to ensure that interruption to the Interconnector's service is avoided. When service interruption is unavoidable, the Telephone Company will provide immediate notification of such stoppage. The Telephone Company does not warrant that any service will be free from interruptions caused by labor controversies, accidents, inability to obtain fuel, water or supplies, governmental regulations, or other causes beyond the reasonable control of the Telephone Company.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.2 Regulations (Cont'd)

- (L) When an existing Telephone Company provided high capacity service or an existing multiplexed high capacity service is reconfigured into a high capacity service under an Expanded Interconnection arrangement or vice versa, or from one Telephone Company provided Expanded Interconnection arrangement to another within the same Telephone Company premises, an Interconnection Rearrangement Charge as set forth in 17.7(A)(15) and (B)(11) following will apply for each service reconfigured.
- (M) When two or more Interconnectors elect to share collocation space within a Telephone Company premises, the applicable charges will be prorated between the Interconnectors.
- (N) When an Interconnector elects to convert an existing virtual collocation arrangement to a physical collocation arrangement, a charge equal to the difference between virtual and physical collocation application fees will be assessed for each such conversion. The Interconnector shall also be responsible for any costs incurred by the Telephone Company during the conversion which exceed those normally incurred in the provision of physical collocation space for Expanded Interconnection.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.3 Liability

- (A) The Telephone Company is not responsible for the compatibility of services provided under this tariff when used in conjunction with Interconnector-provided transport facilities, except to the extent that services and facilities provided by the Telephone Company shall comply with industry approved standards.
- (B) The Telephone Company is not required to purchase additional land or buildings, relinquish building space forecasted for Telephone Company use, or undertake the construction of new buildings or expansion of existing buildings in order to satisfy an Interconnector's request for Expanded Interconnection. When undertaking the renovation of existing facilities, or the construction or lease of new facilities, the Telephone Company will take into account Interconnector collocator demand in the same manner in which demand for other services is considered.
- (C) The Telephone Company shall not be responsible for changes in technical criteria or facilities, operations or procedures of the Telephone Company which might render Interconnector-provided facilities obsolete or require modification, alteration, or otherwise affect performance of such equipment or facilities, when such action is consistent with applicable laws, rules, regulations, or industry standards. The Telephone Company will make every reasonable effort to ensure that such changes do not adversely affect Interconnector-provided facilities. When changes affecting Interconnector-provided facilities are unavoidable, the Telephone Company will provide reasonable notification of such modification.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.4 Network Compatibility and Standards

- (A) The operating characteristics of customer transport facilities shall not interfere with any Telephone Company services and are subject to the provisions that said facilities do not:
- (1) Endanger the safety of Telephone Company employees, other Expanded Interconnection customers or the public;
 - (2) Damage or require change or alteration of Telephone Company equipment or facilities;
 - (3) Interfere with the proper functioning of Telephone Company equipment or facilities; or
 - (4) Impair the operation of the Telephone Company network or otherwise injure any party in its use of Telephone Company services.

The Telephone Company reserves the right, with or without notice, to disconnect any Interconnector's transport facilities which are in violation of the provisions in this Section.

- (B) The Interconnector is responsible for ensuring continued technical compatibility with the Telephone Company network. When changes in standards occur or differences exist between technical references, the Interconnector shall follow the more stringent standard.
- (C) The Telephone Company may not refuse to permit collocation of equipment on the grounds that it does not meet performance, rather than safety, requirements. In addition, the Telephone Company may not impose safety requirements on Interconnectors that are more stringent than the safety requirements it imposes on its own equipment that is located in its premises. If the Interconnector is denied collocation space for their equipment, citing safety standards, the Telephone Company must provide to the Interconnector, within five business days, a list of all equipment that the Telephone Company locates within the premises in question.

ACCESS SERVICE

17. Expanded Interconnection Services (Cont'd)17.5 Physical Collocation**

- (A) The Interconnector shall provide to the Telephone Company a written application for the provision of physical collocation of fiber optic, microwave or other wireless facilities. The application shall include complete details of the collocation and interconnection requested, including, but not limited to, specific roof space, floor space, power, and environmental conditioning requirements. Completed applications must be accompanied by the Application Fee set forth in 17.7(A)(1) following, and will be processed by the Telephone Company within 10 business days on a first-come, first-served basis. The Interconnector must begin use of the collocated space within six months of the date of the application, or other time period mutually agreed to by the Interconnector and the Telephone Company, or the space must be relinquished to the Telephone Company. The Telephone Company may extend the beginning of use beyond the six month period upon a demonstration by the Interconnector that circumstances beyond the Interconnector's control prevented the six month deadline from being met.
- (B) If collocation space is unavailable or an Interconnector withdraws its request, the Application Fee, less the costs incurred by the Telephone Company (e.g., engineering record search and administrative activities required to process the application), will be refunded.
- (C) In situations where collocation space and associated requirements are available, physical collocation will be provided by the Telephone Company within 90 days, subject to additional time for asbestos removal or extraordinary construction, as specified below:

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of October 4, 2008 at offices where they currently exist. Orders for new arrangements received prior to October 4, 2008 will be processed. Customers with existing arrangements may continue to augment (add to; or make changes to; or partial disconnection of) their existing arrangements in offices where they currently exist under the rates, terms and conditions of this tariff.

(C) (Cont'd)

- (1) The Telephone Company shall permit the Interconnector to occupy collocation space by per square foot increments within the Telephone Company premises. Additional collocation space cannot be reserved by the Interconnector for future use. Collocation floor space will be charged for on a per square foot basis, as set forth in 17.7(A)(2) following, and includes primary AC power, backup AC power where available, lighting, heating, air conditioning, and other environmental support, which the Telephone Company will provide in the same manner that it provides such support items for its own equipment in the Telephone Company premises.
- (2) For interconnection of microwave or other wireless facilities, the Telephone Company will permit the Interconnector to install antenna facilities on the exterior of the Telephone Company premises (Roof Space) and make available a path for the Interconnector's waveguide and/or coaxial cable (Riser Space - Per Foot). If an asbestos containing area is opened to facilitate the installation of the Interconnector's facilities, the Interconnector shall pay on a time and material basis for correction of any asbestos related situations. Roof space will be charged for on a per square foot basis as set forth in 17.7(A)(3) following; the rates for Riser Space - Per Foot are specified in 17.7(A)(13) following.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of October 4, 2008 at offices where they currently exist. (5) (Cont'd)

the Interconnector is insufficient to support the Interconnector's collocation space, the Telephone Company may require the installation of additional electrical circuits to provide the Interconnector with additional electricity. The Interconnector shall reimburse the Telephone Company for any expenses incurred in making such additional electrical circuits available to the Interconnector.

- (6) The Telephone Company shall furnish air conditioning and/or other environmental controls for the Interconnector's space in a manner consistent with those provided elsewhere in the building and that responds to the information provided in the Interconnector's application.
- (7) The Telephone Company will provide supplementary air conditioning units or other environmental control devices made necessary solely by the Interconnector's equipment or facilities, and the cost thereof shall be paid by the Interconnector to the Telephone Company.
- (8) If the Telephone Company determines that it is necessary to upgrade the air conditioning and/or other environmental control devices for the building in general, and such upgrade is made necessary by the presence of the Interconnector in the building generally, the cost of such air conditioning units or other environmental control devices shall be allocated between the Telephone Company and the Interconnectors which benefit from the upgrades. Such allocation will be based on a ratio of the number of square feet occupied by each Interconnector to the total square feet of the Telephone Company premises space being upgraded.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of October 4, 2008 at offices where they currently exist. Orders for new arrangements received prior to October 4, 2008 will be processed. Customers with existing arrangements may continue to augment (add to; or make changes to; or partial disconnection of) their existing arrangements in offices where they currently exist under the rates, terms and conditions of this tariff.

17. Expanded Interconnection Services (Cont'd)17.5 Physical Collocation** (Cont'd)

(C) (Cont'd)

- (9) With the exception of day-to-day equipment additions or modifications within existing frames, the Interconnector shall not make installations, alterations, or additions in or to the collocation space without submitting plans or specifications to the Telephone Company and securing the prior written consent of the Telephone Company in each instance. Consent shall not be unreasonably withheld or unduly delayed for non structural interior alternations to the collocation space that do not adversely affect the building's appearance, value, structural strength and mechanical integrity. Such work will be done at the sole expense of the Interconnector.
- (10) Expanded interconnection is provided for the sole purpose of connecting an Interconnector's transport facilities to other tariffed services offered by the Telephone Company, including unbundled local exchange network elements offered to Interconnectors certified as a competitive local exchange service provider. Connection may only be made with the provision of Expanded Interconnection and only through the interconnection point designated by the Telephone Company. The Telephone Company will provide at least two separate points of interconnection to the central office where there are two entry points for the Telephone Company's cable facilities, except for situations where one entry of a two entry office is filled to capacity. In situations where two entry points are not immediately available, the Telephone Company shall perform the work necessary to make separate points of entry available to the Interconnector at the same time it makes such points of entry available for itself. Normal conduit space charges as set forth in 17.7(A)(7) and (8) will apply per entry point.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. (C) (Cont'd)

- (11) The Telephone Company will also provide primary and backup DC power, at the rates set forth in 17.7(A)(5) following, to the Interconnector's equipment in the same manner that it provides such power to its own equipment within the Telephone Company premises.
- (12) At the option of the Interconnector, the Telephone Company shall arrange for the construction of, or allow a mutually agreed upon contractor selected by the Interconnector to construct, a secure enclosure around the collocated floor space. The enclosure shall consist of a lockable, eight foot high, wire mesh security fence surrounding the perimeter of the Interconnector's collocation space and shall conform to the standards for health, safety and security to which the Telephone Company presently adheres within a Telephone Company premises. The rates for secure enclosures constructed by the Telephone Company are set forth in 17.7(A)(6) following. In situations where the Telephone Company must install environmental support to prepare the space for collocation, the charges will also be calculated and billed to the Interconnector on a time and material basis.
- (13) Except where the Interconnector purchases unbundled local exchange network transmission elements from the Telephone Company, the Interconnector shall bring its fiber optic cable to a manhole or other Telephone Company designated interconnection point and provide sufficient cable length, as mutually determined by the Telephone Company and the Interconnector, to extend the cable into the Telephone Company premises cable entrance(s).
- (14) Except where the Interconnector purchases unbundled local exchange network transmission elements from the Telephone Company, the Interconnector shall provide fire retardant fiber optic riser cable of sufficient length, as jointly determined by the Telephone Company and the Interconnector, to extend from the cable entrance(s) to the designated collocation space.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. - (15) The Interconnector shall extend the fiber optic cable from the manhole, or other designated interconnection point, into the Telephone Company premises cable vault and splice the cable to the Interconnector-provided fire retardant riser cable. The Interconnector shall provide a secure dedicated fire retardant splice enclosure and shall tag all facilities to indicate ownership. The Telephone Company shall extend the riser cable through the Telephone Company premises and deliver it to the Interconnector's collocation space. The Telephone Company shall be responsible for providing conduit space (Conduit Space - Per Foot) and cable vault space with support structures (Conduit space - vault) at the rates set forth in 17.7(A)(7) and (8) following.
- (16) The Interconnector shall bring its microwave or other wireless facilities to an interconnection point designated by the Telephone Company and extend the cable into the Telephone Company premises to the designated collocation space. The Interconnector shall tag all facilities to indicate ownership. The Telephone Company shall be responsible for providing conduit space (Riser Space - Per Foot) at the rates set forth in 17.7(A)(13) following.
- (17) The Telephone Company shall designate a point of connection (Cross-Connect) where its network connects with the Interconnector's transport facilities in the collocation space. The point of connection defines the physical demarcation between the Interconnector's transport facilities and the Telephone Company's network. The Telephone Company will provide a cross-connect at the rates specified in 17.7(A)(9) through (12) following. The Interconnector is responsible for optical to electrical or speed conversions, multiplexing, or any other change required to connect the Interconnector's transport facilities to Telephone Company equipment and facilities at compatible interfaces, levels or speeds.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. 17. Expanded Interconnection Services (Cont'd)17.5 Physical Collocation** (Cont'd)

- (F) The Interconnector will provide the Telephone Company with access to the collocation space at all times to allow the Telephone Company to react to emergencies, provide services, and inspect for compliance with fire, safety, and health regulations or standards.
- (G) For all Interconnector work performed or installed in Telephone Company conduit systems, Telephone Company premises outside the collocation space, or other Telephone Company locations used by other parties, the Telephone Company reserves the right to:
 - (1) Prohibit the placement of any and all equipment or facilities other than cable in Telephone Company owned or controlled areas.
 - (2) Designate the location of cable splices.
 - (3) Approve all installations.
 - (4) Require that the Interconnector, at its sole expense, obtain any necessary right-of-way or other permits.
- (H) The Interconnector is subject to recurring and/or nonrecurring rates and charges for the use of Telephone Company owned or controlled space and facilities, and for installation work functions provided by the Telephone Company. The rates and charges associated with physical collocation are set forth in 17.7(A) following. Nonrecurring charges for additional engineering and labor incurred by the Telephone Company will be calculated on a time and material basis as specified in Section 13 preceding.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of October 4, 2008 at offices where they currently exist. - (I) At the Telephone Company's option, the Telephone Company may provide facilities or equipment including, but not limited to, conduit, riser supports and termination frames, in such a fashion that the facilities or equipment is shared or used in common with other parties. Requests by an Interconnector for dedicated or special arrangements may result in additional charges.
- (J) If mutually agreed to by the Telephone Company and the Interconnector, the Telephone Company will perform Interconnector installation and/or maintenance work functions for an additional fee. The Telephone Company will be responsible for all maintenance and related activities on the Telephone Company side of the space. Telephone Company provided mechanical or fusion splices and other installation functions will be performed using methods consistent with Telephone Company practices. The charges for installation work functions performed by the Telephone Company on behalf of the Interconnector will be calculated on a time and material basis as specified in Section 13 preceding.
- (K) In the event the Telephone Company determines that it is necessary for the Interconnector to move its collocated space within a Telephone Company premises or to another Telephone Company premises, the Interconnector is required to comply. The Telephone Company is responsible for the costs associated with the removal, transport and reinstallation of the Interconnector's equipment within the Telephone Company premises.
- (L) Should the Interconnector request that its collocated space be moved within the Telephone Company premises or to another Telephone Company premises, the Telephone Company will permit the Interconnector to relocate its collocated space, subject to the availability of space and associated requirements. The Interconnector is solely responsible for the costs associated with the preparation of new collocated space at the new location and for the removal, transport and reinstallation of its equipment.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. - (M) The Telephone Company and the Interconnector are each responsible for notifying the other of significant outages which could impact or degrade either party's network and services, and provide estimated clearing time for restoral. The Telephone Company and the Interconnector are responsible for testing, cooperatively if necessary, to identify and clear a trouble when the trouble has been sectionalized to the portion of the service each provides.
- (N) If trouble detected by or reported to the Telephone Company results in the Telephone Company dispatching its employees to the Interconnector's collocation space, and the trouble is not caused by Telephone Company equipment or facilities, the Interconnector will be so notified and will be liable for the maintenance of service charge as specified in Section 13.1.9 preceding.
- (O) The Interconnector and Telephone Company are each responsible for providing to the other a contact list of technical personnel accessible 24 hours a day, 7 days a week.
- (P) In the event that the Interconnector's use of its microwave or other wireless systems cause broadcast interference, the Telephone Company, at its sole discretion, shall have the right to cause the Interconnector to cease the operation of its system until such broadcast interference can be corrected. The Telephone Company shall incur no liability to the Interconnector or any other person as a result of ordering the Interconnector to cease using its system in accordance with the foregoing.
- (Q) Upon disconnection of service, the Interconnector shall, at its expense, disconnect and remove all Interconnector facilities and equipment from the collocation space and from all other Telephone Company owned or controlled areas in the Telephone Company premises in which the Telephone Company has allowed the Interconnector to place facilities and equipment.

** Effective October 4, 2008, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. 17. Expanded Interconnection Services (Cont'd)17.6 Virtual Collocation

- (A) The Interconnector shall provide to the Telephone Company a written application for the provision of Virtual Collocation. Completed applications must be accompanied by the Application Fee set forth in 17.7(B)(1) and will be processed by the Telephone Company within 10 business days on a first-come, first-served basis. The Application Fee will be applied on a per end office basis.
- (B) If central office space is unavailable or if an Interconnector withdraws its request, the Application Fee, less the costs incurred by the Telephone Company (e.g., administrative activities required to process the application), will be refunded.
- (C) Virtual Collocation will be provided as specified below:
 - (1) The Interconnector shall bring its fiber optic cable to a manhole or other Telephone Company designated interconnection point. This interconnection point will define the physical demarcation between the Interconnector's transport facilities and the Telephone Company's network.
 - (2) The Interconnector must obtain the electronic and peripheral equipment necessary for terminating its network in the Telephone Company's central office. The Telephone Company will lease such equipment from the Interconnector for \$1 in each central office where the Interconnector subscribes to virtual collocation. Upon termination of the lease, the Interconnector is responsible for the cost of removing the equipment from the Telephone Company's central office.

ACCESS SERVICE

19. Promotional Offerings19.1 General

The Telephone Company may, from time to time, engage in special promotional service offerings, special arrangements or demonstrations designed to attract new customers, to stimulate customer usage and/or to increase existing customer awareness of Telephone Company products and services.

These promotional offerings will be limited to certain dates, times and locations as determined by the Telephone Company. The rates, charges, terms and/or conditions applicable to each promotional offering will be filed in this section.

19.2 Terms, Conditions, Rates and Charges

The specific rates, charges, terms and/or conditions for the promotions offered by the Telephone Company are described following:

(A) Custom Access Solutions

The Custom Access Solutions promotion waives the nonrecurring charges, as set forth in 8.7.5 preceding, when a customer installs a new Custom Access Solutions arrangement under a three year minimum service period.

In the event the customer terminates its Custom Access Solutions arrangement prior to the expiration date of the three year term, any nonrecurring charges waived under this promotion will be included in the calculation of the customer's termination liability charges as set forth in 8.7.2(A) preceding.

The promotion will begin on November 4, 2006, and will apply to all new Custom Access Solutions orders through January 31, 2007. The promotion is available to all customers served by suitably equipped Telephone Company wire centers identified in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

ACCESS SERVICE

20. Local Number Portability (LNP) Query Service20.1 General

LNP provides the capability that allows a customer to maintain the same Directory Number (DN) when changing from one local telecommunications service provider to another, while remaining at the same location. In addition, it allows other Telephone Company customers to complete calls to numbers that have been ported.

LNP Query Service utilizes Location Routing Number (LRN) architecture to query a data base to secure network routing instructions prior to completion of a call. For NXXs equipped with LNP capability, the data base will contain information identifying an end user's selected Local Service Provider (LSP), along with the appropriate LRN for the LSP's switch. The LRN will be used to direct the call to the correct switch for completion to the end user. When more than one network is involved in completing the call, the network immediately preceding the terminating network (i.e., the N-1 Network) is responsible for querying the LNP data base to secure the LRN used in routing the call.

LNP Query Service will initially be deployed in Telephone Company serving areas residing within the 100 largest national Metropolitan Statistical Areas (MSAs) on a switch specific basis. If subsequent deployment is requested in additional switches within these MSAs, the Telephone Company will provide portability in the requested switches, where technically feasible, based on the timeframes established by the Federal Communications Commission in CC Docket No. 95-116:

- Equipped remote switches within 30 days
- Hardware capable switches within 60 days
- Capable switches requiring hardware within 180 days
- Non-capable switches within 180 days

ISSUE DATE:
February 28, 2011

Issued Under Transmittal No. 1
Vice President-Regulatory Operations
100 CenturyLink Drive
Monroe, Louisiana 71203

EFFECTIVE DATE:
March 1, 2011

ACCESS SERVICE

20. Local Number Portability (LNP) Query Service (Cont'd)20.2 Service Provisioning(A) Manner of Provisioning

LNP Query Service will be provisioned using the LRN architecture. The LRN associates an NPA-NXX-XXXX network routing number with each central office switch that serves ported lines. This number will be known as the LRN for that switch. The LRN will be used as a network routing number for calls to ported numbers served by that switch. All switching equipment types will utilize the LRN architecture to provide LNP call processing.

(B) Limitations

LNP Query Service is to be used only on a call-by-call basis for routing calls to number portable NXX codes and cannot be used for purposes other than those functions described herein.

Information residing in the Telephone Company's LNP data base is protected from unauthorized access and may not be stored in a carrier's data base or elsewhere for any reason.

(C) Network Management

The Telephone Company will administer its network to ensure the provision of acceptable service levels to all users of the LNP Query Service.

The Telephone Company reserves the right to block any LNP Query traffic in a nondiscriminatory manner, where the processing of the LNP queries threatens to disrupt operation of its network and impair network reliability.

ACCESS SERVICE

20. Local Number Portability (LNP) Query Service (Cont'd)20.3 LNP Query Service Application

The applications of the LNP network capability available through the Telephone Company's network are:

(A) Prearranged LNP Query

N-1 carriers may arrange in advance to have the Telephone Company query the LNP data base to route a call properly to the terminating carrier serving the ported number. This query is initiated on behalf of the N-1 carrier in the performance of its N-1 responsibility.

- If the Telephone Company's end office is the first point of switching for terminating a non-queried call and the telephone number is a ported number, the end office switch will suspend the call process and launch a query to the LNP data base. Once the routing information is returned to the end office, call processing will be resumed and the call will be routed to the correct switch for completion.
- In situations where the Telephone Company's tandem is the first point of switching for terminating a non-queried call, the tandem switch will suspend the call process and launch a query to the LNP data base. Once the routing information is returned to the tandem switch, call processing will be resumed and the call will be routed to the correct switch for completion.

The carrier will be assessed an end office or tandem Prearranged LNP Query charge, as set forth in 20.5 following, regardless of the outcome of the query.

(B) Default LNP Query

N-1 carriers who do not prearrange with the Telephone Company to query the LNP data base and terminate calls into the Telephone Company's network without having performed the appropriate data base query will be

ACCESS SERVICE

20. Local Number Portability (LNP) Query Service (Cont'd)20.3 LNP Query Service Application (Cont'd)(B) Default LNP Query (Cont'd)

assessed an end office or tandem Default LNP Query charge. This query is initiated on behalf of the N-1 carrier in the performance of its N-1 responsibility, and may require the Telephone Company to assume extraordinary measures to meet the demand of the unforecasted default queries.

- If the Telephone Company's end office is the first point of switching for terminating a non-queried call and the telephone number is a ported number, the end office switch will suspend the call process and launch a query to the LNP data base. Once the routing information is returned to the end office, call processing will be resumed and the call will be routed to the correct switch for completion.
- In situations where the Telephone Company's tandem is the first point of switching for terminating a non-queried call, the tandem switch will suspend the call process and launch a query to the LNP data base. Once the routing information is returned to the tandem switch, call processing will be resumed and the call will be routed to the correct switch for completion.

The Default LNP Query charge, as set forth in 20.5 following, will apply, regardless of the outcome of the query.

ACCESS SERVICE

20. Local Number Portability (LNP) Query Service (Cont'd)20.4 Rate Regulations

The rates and charges associated with LNP Query Service are query based and will be billed on a monthly basis, based on recorded usage. Query charges will be applied by the Telephone Company based upon the recordings of carrier queries to the data base. The Telephone Company will develop monthly charges based on an average number of queries per month if recordings are not available.

Specific rates and charges are set forth in 20.5 following.

ACCESS SERVICE

21. Pricing Flexibility Switched Access Service21.1 General Regulations

- (A) This section of the tariff provides the regulations, rates and charges applicable to dedicated switched transport services provided by the Telephone Company in the Metropolitan Statistical Areas (MSAs) for which the Telephone Company has received Phase II pricing flexibility pursuant to Subpart H of Part 69 of the Commission's rules. The specific MSAs for which pricing flexibility has been granted are listed in Section 21.3 following.
- (B) The pricing flexibility dedicated switched transport services provided in MSAs pursuant to this section include:
- Voice Grade, DS1 and DS3 Entrance Facilities
 - Voice Grade, DS1 and DS3 Direct-Trunked Transport
 - Dedicated Trunk Ports
 - DS1 to Voice and DS3 to DS1 Multiplexing
 - Switched Transport Installation
 - CCS/SS7 Interconnection Service

The general regulations, service descriptions, optional features, service provisioning, obligations of the Telephone Company and customer, and rate regulations set forth in Sections 6.1 through 6.7 preceding for switched access services are applicable to the pricing flexibility services specified in this section. Where the regulations in Section 6 conflict with those set forth in this section, the regulations specified herein for the provision of switched access services in the Telephone Company's pricing flexibility MSAs will supercede any inconsistencies.

- (C) Unless otherwise provided in this section, the regulations set forth in Sections 1, 2, 5, and 13 are applicable to switched access services provided in the Telephone Company's pricing flexibility MSAs.

ACCESS SERVICE

21. Pricing Flexibility Switched Access Service (Cont'd)21.2 Application of Rates and Charges

The rates and charges for switched access services provided in pricing flexibility MSAs are set forth in 21.8 following. Rates and charges for the non-flexibility service areas are set forth in Section 6.8 preceding. When switched access service in a pricing flexibility MSA is provided under a zone density plan as set forth in Section 6.7.17, channel mileage will be deemed to be offered in the highest priced zone.

The following examples depict a typical switched dedicated point-to-point service provided within a pricing flexibility MSA, and between a pricing flexibility MSA and a non-flexibility service area.

* This flat rated charge was calculated based upon a 50/50 split between originating and terminating. The FCC in their FCC 11-161 ICC Transformation order in Section 51.907(D)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate, a single flat rate is generated for billing purposes.

Oregon	N/A	N/A	(D)
			(D)
Washington	N/A	N/A	(D)
Wyoming	N/A	N/A	
			(D)

* The End Office Dedicated Trunk Port rate was calculated assuming a 50/50 split of the originating and terminating traffic using this flat-rated port. The FCC in their FCC 11-161 ICC Transformation order in section 51.907(d)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. The terminating portion of the rate was reduced and then combined with the originating portion of the rate for a single flat rate.

23. Pricing Flexibility Ordering Options, Additional Labor and Miscellaneous Services23.1 General Regulations

- (A) This section of the tariff provides the regulations, rates and charges applicable to ordering options, additional labor and miscellaneous services provided by the Telephone Company in the Metropolitan Statistical Areas (MSAs) for which the Telephone Company has received Phase II pricing flexibility pursuant to Subpart H of Part 69 of the Commission's rules. The specific MSAs for which pricing flexibility has been granted are listed in Section 23.3 following.
- (B) The general regulations set forth in Section 5 for Ordering Options and in Section 13 for Additional Labor and Miscellaneous Services preceding are applicable to the pricing flexibility services specified in Sections 21 preceding. Where the regulations in Sections 5 and 13 conflict with those set forth in this section, the regulations specified herein for the provision of switched and special access services in the Telephone Company's pricing flexibility MSAs will supercede any inconsistencies. (C)
- (C) Unless otherwise provided in this section, the regulations set forth in Sections 1 and 2 are applicable to ordering options, additional labor and miscellaneous services provided in the Telephone Company's pricing flexibility MSAs.

Wyoming	N/A	N/A	(D)

* This flat rated charge was calculated based upon a 50/50 split between originating and terminating. The FCC in their FCC 11-161 ICC Transformation order in Section 51.907(D)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate, a single flat rate is generated for billing purposes.
