

ACCESS SERVICE

7. Special Access Service (Cont'd)7.3 Network Channel Codes and Channel Interfaces

Network Channel Codes are comprised of four characters. The first and second character describe the technical specifications package within the service type. The third and fourth character describe and specifies options associated with the service. Network Channel Codes are available from the Telephone Company upon request. The Telephone Company abides by nationally accepted standards in its use of Network Channel Codes. T
T

Network Channel Interface Codes describe the electrical characteristics of the interface at the customer location(s). Compatible Network Channel Interface Codes for the service ordered must be specified by the customer when ordering the services. Compatible Network Channel Interface Codes for each category of Special Access Service can be found in Technical Reference Publications set forth in 7.2 preceding.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

7.4.1 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. The rates and charges are described as follows:

(A) Monthly Rates

Monthly rates are fixed recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

T

(B) Daily Rates

Daily rates are fixed recurring rates that apply to each 24 hour period or fraction thereof that a Program Audio or Video Special Access Service is provided for part-time or occasional use. For purposes of applying daily rates, the 24 hour period is not limited to a calendar day.

T

The application of daily rates for Program Audio and Video services during a consecutive 30 day period is as follows. Daily rates will be topped at an amount equal to the monthly rate (i.e., the charge to the customer for usage billed at daily rates will not exceed the monthly rate). For each day or part day of usage after the daily rates have been topped, a charge equal to 1/30th of the monthly rate will apply.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for Special Access Service are: installation of service, installation of optional features and functions, and service rearrangements.

Certain services which have a first and additional nonrecurring charge rate structure will be treated as follows: When multiple identical services (i.e., services between the same work locations and for the same customer, or GDTs Service, regardless of speed) are ordered and installed, moved or rearranged at the same time, there is a charge for the first service installed and a lower charge for each additional identical service installed.

T

(1) Installation of Service

Nonrecurring charges apply to each service installed. The nonrecurring charges for the installation of service are set forth in 7.5 following as a Channel Termination rate element.

(2) Installation of Optional Features and Functions

Nonrecurring charges apply for the installation of some of the optional features and functions available with Special Access Service. The charge applies whether the feature or function is installed with the initial installation or at any time subsequent to the installation of the service.

The nonrecurring charges for the installation of Optional Features and Functions are set forth in 7.5 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements

Changes which are considered to be service rearrangements are as set forth in 5.2.8 preceding. Administrative changes will be made without charge.

T
T

(a) Service Changes

N
|
N

Service Changes listed below, are physical changes to existing service, excluding Rollover Changes as set forth in (b) following. Charges will apply as specified below.

If the change involves the addition of or a modification to an optional feature which has a separate nonrecurring charge, that nonrecurring charge will apply.

If a Special Access change involves the addition of another leg to an existing multipoint service, the nonrecurring charge for the channel termination rate element will apply. The charge will apply only for the leg that is being added.

If a Special Access change involves changing the type of signaling on a Voice Grade service, a charge equal to the Voice Grade channel termination rate element nonrecurring charge will apply. The charge will apply per service termination affected.

For all other Special Access changes, including the addition of optional features without separate nonrecurring charges, a charge equal to a channel termination rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

Certain regulations previously found on this page can now be found on page 305.2.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements

(b) Rollover Changes

Rollover Changes listed below, are physical changes to, or reclassification of existing service including (a) preceding, and there is no change in either the point of termination or the EIS point of termination. A Rollover Change Charge for Special Access Service will apply as set forth in 7.5 following. No charge will apply for subtending services of the service being rolled over as long as there is no change to the subtending services. The following are examples where rollover charges will apply. (T) (T)

- Rearranging an existing Special Access DS1 or DS3 service from one port to another port in the same class. (T)
- Rearranging an existing service from one multiplexer to another multiplexer. (T)
- Rearranging an existing lower speed service to an existing multiplexed higher speed service. (T)
- Reclassification of 3 existing DS3 services between the same points of termination to a DS3x3 service, or 4 existing DS3x3 services between the same points of termination to a DS3x12 service as long as the Rate Stability Payment Plan is equivalent or longer than the lower bit rate services being reclassified. (T)
- Rearranging an existing service to the dedicated ring configuration of SONET ring and Access Services. (T)

In the event a change involves a physical move of the point of termination at the customer's premises or a move of the customer's premises, a move charge as set forth in 7.2.3 will apply. (N) (N)

The Rollover Change charge will be waived if the existing DS1, DS3 or OC3c service is moving to a SONET service that has a Rate Stability Payment Plan for 5 years.

(This page filed under Transmittal No. 1995)

ACCESS SERVICE

7. Special Access (Cont'd)7.4 Rate Regulation (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

(b) Rollover Changes (Cont'd)

In addition, a Rollover Change will occur when existing Special Access Service is rearranged to other existing Special Access Service or expanded Interconnection Service and there is a change in the point of termination of the rolled service. Except as noted below, all facilities and equipment required for the activity must already exist. No charge will apply for subtending services of the service being rolled over as long as there is no change to the subtending services.

Rearranging an existing service from one multiplexer to another multiplexer.

Rearranging an existing lower speed service to an existing multiplexed higher speed service.

Rearranging from Special Access to or from Expanded Interconnection Service where the Expanded Interconnection Service Cross-Connect may be installed simultaneously with the rollover change.

Rearranging an existing service to the dedicated ring configuration of SONET Ring and Access Services.

When the existing service is rolling to a SONET Ring and Access with a Services Rate Stability Payment Plan of 5 Years, the customer will receive a credit equal to the change charge applicable to a rollover with no change in termination.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service(A) General

In addition to the rates and charges described in 7.4.1 preceding, there is a monthly surcharge that applies to Special Access Service. The Special Access Surcharge compensates the Telephone Company for use of the local exchange network when Special Access Service is connected to a PBX or equivalent device which is capable of interconnecting the Special Access Service with local exchange service.

The surcharge will be applied to each Special Access Service installed, including services which terminate on a Centrex-CO type switch unless a written certification exemption is received from the customer as set forth in (B) following.

Sx
Ty
Ty
Sx

(B) Special Access Surcharge Exemptions

The Special Access Service will be exempted from the surcharge if the customer provides the Telephone Company with written certification that the Special Access Service termination is one of the following:

Ty
Sx

- (1) An open-end termination in a Telephone Company switch of an FX line, including CCSA and CCSA-equivalent ONALS; or w
|
w
- (2) an analog channel termination that is used for radio or television program transmission; or Ty
- (3) a termination used for TELEX service; or Ty
- (4) a termination that by the nature of its operating characteristics could not make use of Telephone Company common lines; or Ty

- w Issued on not less than 1 day's notice under authority of Special Permission No. 87-549 of the Federal Communications Commission to reinstate material deleted under Transmittal No. 1301.
- y Issued on not less than 1 day's notice under authority of Special Permission No. 87-549 of the Federal Communications Commission.
- x Reissued material effective September 19, 1987.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(B) Special Access Surcharge Exemptions (Cont'd)

- (5) a termination that interconnects either directly or indirectly to the local exchange network where the usage is subject to Carrier Common Line charges such as: where the Special Access Service accesses only FGA and no local exchange lines, or Special Access Service between customer points of termination or Special Access Service connecting CCSA or CCSA-type equipment (inter-machine trunks); or Ty Sx
- (6) a termination that the customer certifies to the Telephone Company, is not connected to a PBX or other device capable of interconnecting the special access facility to a local exchange subscriber line. Ty

y Issued on not less than 1 day's notice under authority of Special Permission
No. 87-549 of the Federal Communications Commission.
x Reissued material effective September 19, 1987.

Issued: September 18, 1987

Effective: September 19, 1987

Executive Vice President
140 New Montgomery Street, San Francisco, California 94105

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(C) Exemption Certification

Ty

- (1) Special Access Services which are terminated as set forth in (B) preceding will be exempted from the Special Access Surcharge if the customer provides the Telephone Company with a written notification certifying exemption. Such notification shall be provided by the customer (1) at the time the Special Access Service is ordered or installed; (2) at such time as the Special Access Service is reterminated to a device not capable of interconnecting to the local exchange network, or (3) at such time as the Special Access Service becomes associated with a Switched Access Service that is subject to Carrier Common Line charges.
- (2) If the written certification is not received at the time the Special Access Service is obtained, the surcharge will be applied. Exempt status will become effective on the certification date indicated by the customer, subject to the regulations in (D) following. Ty
- (3) The exemption certification is to be provided by the customer ordering the service. The certification must be signed by the customer or authorized representative and include the category of exemption, as set forth in (B) preceding, for each termination, and the date which the exemption is effective. Ty
- (4) The customer shall also notify the Telephone Company when an exempted Special Access Service is changed or reterminated such that the exemption is no longer applicable.

y Issued on not less than 1 day's notice under authority of Special Permission
No. 87-549 of the Federal Communications Commission.
x Reissued material effective September 19, 1987.

Issued: September 18, 1987

Effective: September 19, 1987

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(D) Crediting the Surcharge

The Telephone Company will cease billing the Special Access Surcharge when certification that the Special Access Service has become exempt from the surcharge, as set forth in (B) preceding is received. If the status of the Special Access Service was changed prior to receipt of the exemption certification, the Telephone Company will credit the customer's account, not to exceed ninety (90) days, based on the effective date of the change specified by the customer in the letter of certification.

(E) Application of Rates

- (1) The monthly Special Access Surcharge applies to Special Access Service arranged, as set forth in (A) preceding, on a per voice equivalent basis as shown in the following example:

<u>Special Access Service</u>	<u>Voice Equivalent</u>		<u>Surcharge</u>	<u>Monthly Charge</u>
Voice Grade	1	X	\$25	\$ 25.00
Wideband Analog Group Level	12	X	\$25	\$300.00
DS1*	24	X	\$25	\$600.00

* The Special Access Surcharge is assessed 24 times on a two-point service only when the DS1 service is not multiplexed by the Telephone Company. When the DS1 service is multiplexed by the Telephone Company, the Special Access Surcharge is then assessed on each individual channelized line as it is installed. No surcharge is assessed on unused channels of the DS1 when it is multiplexed by the Telephone Company.

T
N
|
N

Issued: May 20, 1988

Effective: July 4, 1988

Executive Vice President
140 New Montgomery Street, San Francisco, California 94105

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(E) Application of Rates (Cont'd)

(2) In the case of multipoint and/or multiplexed Special Access Service, one Special Access Surcharge will apply for each termination at a customer designated premises. However, no surcharge applies at the customer designated premises at which the Access Service is connected to Interstate Service.

T

T

(3) The Telephone Company will bill the surcharge to the customer who orders the Special Access Service unless the Service is exempt as set forth in (B) preceding.

7.4.3 Message Station Equipment Recovery Charge

The Message Station Equipment Recovery Charge is a charge to recover that portion of Message Station equipment that is assigned to Special Access Service. This charge is assessed only to those services which the Special Access Surcharge applies.

T

T

D

D

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.4 Minimum Periods

Except as set forth following the minimum service period for all services is one month.

The minimum period for DS3x12 service is a 3 year Rate Stability Payment Plan.

The minimum service period for part-time and occasional Video and Program Audio services is one day.

The minimum service period for AVS-270 is 3 months.

(N)

(This page filed under Transmittal No. 2004)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.5 Mileage Measurement

Mileage used to determine the monthly rate for the Channel Mileage is calculated on airline distance between the locations involved (i.e. the serving wire centers associated with two customer designated premises, a serving wire center associated with a customer designated premises and a Telephone Company Hub, a serving wire center associated with a customer designated premises and a WATS serving office, or two Telephone Company Hubs). The serving wire center associated with a customer designated premises is the serving wire center from which the customer designated premises would normally obtain service.

Sx

Mileage is shown in 7.5 following in terms of mileage bands. To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4, then find the band into which the computed mileage falls and apply the rates (fixed and per mile) shown for that band. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage band and applying the rates.

When a Special Access service is routed through a Telephone Company Hub at the customer's request (e.g., to bridge or multiplex the service), mileage is computed and rates applied separately for each section of the Channel Mileage (i.e., customer designated premises to Hub, Hub to Hub and/or Hub to customer designated premises serving wire center). However, when any service is routed through a Hub for purposes other than customer specified bridging or multiplexing (e.g., the Telephone Company chooses to so route for test access purposes), rates will be applied only to the distance calculated between the serving wire centers associated with the customer designated premises.

As an alternative to providing originating WATS Access Line Service in conjunction with FGA and FGB, a nonchargeable WATS Access Line Extension is applicable as set forth in 7.4.11.

x Issued on not less than 4 days' notice under authority of Special Permission No. 90-1323 of the Federal Communications Commission to defer the effective date from January 1, 1991 to February 1, 1991.

Issued: December 28, 1990

Effective: January 1, 1991

Executive Director
140 New Montgomery Street, San Francisco, California 94105

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.5 Mileage Measurement (Cont'd)

Channel Mileage, associated with Special Access Services provided by the Telephone Company to connect a customer designated premises or EIS arrangement to a Frame Relay Service, ATM Cell Relay Service or Switched Multimegabit Data Service, as described in Section 17, Broadband Fast Packet Access Service, is not applicable under the provisions of this service.

(D)

(D)

(This page filed under Transmittal No. 2050)

Issued: May 26, 1999

Effective: June 10, 1999

Executive Director
140 New Montgomery Street, San Francisco, California 94105

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.6 Multiplexed Services

The Telephone Company will commence billing the monthly rate for the Wideband Analog or High Capacity facilities to the Hub and the associated multiplexer on the date specified by the customer on the service order. Individual services utilizing these facilities may be installed coincident with the installation of the facility to the Hub, or may be ordered and/or installed at a later date, at the option of the customer. Individual service rates (e.g., Voice Grade, Metallic or GDTTS Service) will apply for a Channel Termination and additional Channel Mileage (as required) for each channelized service. Channel Termination charges are not applied at Hubs when, by customer request, individual services are channelized by Telephone Company multiplexers. These will be billed to the customer as each individual service is installed. A High Capacity service may not be ordered with multiplexing to lower levels at both ends.

T

When cascading multiplexing is performed, whether in the same or a different Hub, a charge for the additional multiplexing unit also applies. When cascading multiplexing is performed at different Hubbing locations, Channel Mileage charges also apply between the Hubs at the appropriate service level (e.g., DS1 or DS3).

When a DS3x3 or DS3x12 is hubbed and segregated into individual DS3 services, a separate multiplexer charge is not required between the DS3x3 or DS3x12 service and the individual DS3 services. DS3 rates and charges will apply to the individual DS3 services as required (e.g., channel termination, channel mileage and optional features if requested). If multiplexing is used to multiplex DS3x3 or DS3x12 service to DS1 service, then at least one DS3 to DS1 multiplexer is required.

ACCESS SERVICE

7 Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Video Service

(Sx)

(A) Video and Program Audio Hubs

The Telephone Company will designate certain Hubs for Video and Program Audio Services. Full-time service will be provided between a customer designated premises and a Hub and billed accordingly at the monthly rates set forth in 7.5.4 and 7.5.5 following for a Channel Termination, Optional Features and Functions, and Channel Mileage, as applicable. The customer may order part-time and occasional Video and Program Audio services as needed between that Hub and a second customer designated premises. The rate elements required to provide the part-time or occasional service (i.e., Channel Termination, Optional Features and Functions, and Channel Mileage, as applicable) will be billed at daily rates for the duration of the service requested.

(Sx)
(N)

(B) Minimum Service Period - AVS-270

The minimum service period for AVS-270 is 3 months. When the service is discontinued prior to the expiration of the minimum service period, the applicable charge will be the total monthly charges for the remainder of the minimum service period plus termination charges for the remainder of the billing period as described in Section 7.4.7(C).

(C) Termination of Service

Customers requesting the termination of service prior to the expiration of the minimum service period, will be charged as indicated below:

Monthly Rate	X	Months remaining in Minimum Service Period	X	80%
--------------	---	--	---	-----

= Termination Charge.

(N)

Reissued material became effective September 2, 1998.

(This page filed under Transmittal No. 2004)

Issued: September 2, 1998

Effective: September 17, 1998

Executive Director
140 New Montgomery Street, San Francisco, California 94105

ACCESS SERVICE

7 Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Video Service

(N)

(D) Video Pricing Plan (VPP)

(1) General Description

Video Pricing Plan (VPP) provides the customer with rate stabilization and discounted tariff rates. The customer agrees to a 1, 3 or 5 year service period.

If the Telephone Company initiates rate changes resulting in a decrease of rates for an existing service with a 1, 3 or 5 year fixed service period, those rate changes will be passed along to the customer. Rate changes resulting in an increase of rates for an existing service with a 1, 3 or 5 year service period will not exceed the original rate for that selected service period. Rate changes may occur as a result of F.C.C. action.

(2) Services Available under VPP

A customer may elect to participate in VPP for the following rate elements:

- (a) AVS-270
 - Channel Termination
 - Channel Mileage
 - Optional Features and Functions

(N)

(This page filed under Transmittal No. 2004)

ACCESS SERVICE

7 Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Video Service (Cont'd)

(Sx)

(D) Video Pricing Plan (VPP) (Cont'd)

(3) Terms and Conditions

(a) Renewal

The customer must provide the Telephone Company with a written notice of intent to renew a VPP no later than 60 days prior to its expiration. The renewal rates will be the rates that are currently in effect and available to all customers. If the customer elects not to renew the VPP, or does not notify the Telephone Company of its intent to renew the VPP, the customer's service will automatically be billed under the tariffed month-to-month rates in effect at the time the VPP expires.

(4) Rate Applications

(a) Termination of Service

A customer requesting the termination of a VPP prior to the expiration date will be charged as indicated following:

<u>VPP</u>	<u>Termination Percentage</u>			
1 Year				30%
3 Years				20%
5 Years				15%
The termination charge will be calculated as follows:				
VPP	X	Months remaining in VPP	X	Termination Percentage
Monthly Rate				

= Termination Charge.

Issued: September 10, 1998

Effective: September 17, 1998

Executive Director
140 New Montgomery Street, San Francisco, California 94105

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.8 Shared Use Analog, Digital High Capacity and SONET Ring and Access Services

Shared use occurs when Special Access Service and Switched Access Service are provided over the same Wideband Analog, High Capacity or SONET Ring and Access Services facilities through a common interface. The Wideband Analog, High Capacity or SONET Ring and Access Services facility will be ordered, provided and rated as Special Access Service (i.e., Channel Termination, Mileage, as appropriate, and multiplier or rate element of SONET Ring and Access Services).

The customer must place an order for each individual Switched or Special Access Service utilizing the shared use Facilities and specify the channel assignment for each service.

Rates and Charges as described in 7.4.1 preceding and 7.5 following will apply when each individual channel of the Shared Use facility is used to provide the Special Access service.

Rates and Charges as set forth in 6.8 preceding will apply when each individual channel of the Shared Use facility is used to provide Switched Access service. As each individual Switched Access service channel is activated, the Wideband Analog or High Capacity Channel Termination, Channel Mileage and Multiplier rates or SONET Ring and Access Service rates will be reduced accordingly, e.g., 1/24th for DS1 service, 1/672nd for DS3 service, 1/2016th for DS3x3 or OC3 service, 1/8064th for OC12 or equivalent service and 1/32,256th for OC48 or equivalent service.

Certain material previously found on this page can now be found on Original Page 311.1.

(This page filed under Transmittal No. 2000)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Extension of WATS Access Service

WATS Access Service is available with extensions, i.e., additional terminations, of the service at different customer designated premises in the same or different LATAs. Extensions are provided and charged for as separate Voice Grade Special Access Service. The rate elements which apply are: WATS Access Line Channel Termination, Channel Mileage, if applicable, and Signalling Capability (Optional Features and Functions), if applicable. All appropriate charges as set forth in 7.5 following will apply.

7.4.10 WATS Access Line Extension

As an alternative to providing originating WATS Access Line Service in conjunction with FGA and FGB, the Telephone Company will provide until August 1, 1992, a nonchargeable WATS Access Line Extension from a Telephone Company end office which has not been converted to equal access to a distant converted WATS serving office. Cx

x Issued on one day's notice under authority of Special Permission No. 91-645 of the Federal Communications Commission.

Issued: August 7, 1991

Effective: August 8, 1991

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.11 Fiber Advantagesm Service

- (A) Fiber Advantagesm DS1, DS3 and DS3x3 Month-to-Month and for DS3,DS3x3 and DS3x12 Rate Stability Payment Plans.

Rates and Charges for DS1, DS3 and DS3x3 service are offered either Month-to-Month or with a 1, 3 or 5 year Rate Stability Payment Plan. DS3x12 service is offered with a 3 or 5 year Rate Stability Payment Plan.

For customers that subscribe to a 1, 3 or 5 year Rate Stability Payment Plan, the monthly rates in effect at the time the service is installed may decrease but will not increase at any time during the payment plan period.

The customer has the option to order a Rate Stability Payment Plan for each individual DS1 or DS3 service hubbed with a DS3 or DS3x3 service.

- (B) Termination Liability Charges for Fiber Advantagesm DS1, DS3 and DS3x3 Month-to-Month and for DS1, DS3,DS3x3 and DS3x12 Rate Stability Payment Plans.

Minimum Periods for Fiber Advantagesm DS1, DS3, DS3x3 and DS3x12 service apply as set forth in Section 5.2.6(A) and 7.4.4 preceding.

For Rate Stability Payment Plans (e.g. 1, 3 and 5 year plans) discontinued prior to the end of their Payment Plan period, the termination Liability Charges will apply as follows:

For Rate Stability Payment Plans discontinued prior to the end of the Rate Stability Payment Plan period, the customer will be liable for 45% of the total monthly charges for the unexpired portion of the service.

(C) Renewal Plan for DS1, Ds3 and DS3x3 service for Month-to-Month and for DS1, Ds3, DS3x3 and DS3x12 service Rate Stability Payment Plans.

At the end of the Rate Stability Payment Plan, the customer may renew, for any Rate Stability Payment Plan, in effect, without a new nonrecurring charge being applied, as long as the physical serving arrangement is not changed, or the customer may continue service at the original rate, on a month-to-month basis, up to one full year after the original Rate Stability Payment Plan ends.

For a Renewed Rate Stability Payment Plan discontinued prior to the end of its Payment Plan period, the customer will be liable for 25% of the total monthly charges for the unexpired portion of the renewed service plan.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.11 Fiber AdvantageSM Service (Cont'd)(D) Change of DS1, DS3, DS3x3 or DS3x12 Rate Stability
Payment Plan

At any time a customer has the option to change their current payment plan to an equivalent or longer payment plan (e.g., Month-to-Month to 3 year) without any Termination Liability Charges applicable to the current Rate Stability Payment Plan and without new nonrecurring charges applicable to the new equivalent or longer payment plan, as long as all other aspects of the services and facilities remain unchanged. In addition, the new equivalent or longer Rate Stability Payment Plan the customer chooses begins on the service order completion date and is treated as a new Rate Stability Payment Plan period.

Customers may change to a shorter Rate Stability Payment Plan by paying the associated Termination Liability Charges with the original Rate Stability Payment Plan. The rates that will apply will be the current rates in effect for the Rate Stability Payment Plan ordered. However, no new nonrecurring charges will apply.

(E) Upgrades of Fiber Advantage DS3 Service to higher speed
services

Customers with 3 or 5 year contracts may at any time upgrade to a higher speed service (e.g., DS3 to DS3x12), without incurring the Termination Liability charge, providing the following criteria are met:

- The customer subscribes to a new higher speed Rate Stability Payment Plan term that is equal to, or greater than 36 months;
- The expiration date for the new Rate Stability Payment Plan term is beyond the end of the original Rate Stability Payment Plan term;

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.11 Fiber AdvantageSM Service (Cont'd)(E) Upgrades of Fiber Advantage DS3 Service to higher speed services (Cont'd)

- No lapse in service occurs;
- Nonrecurring Charges will apply, when applicable;
- The monthly rates for the new service will be those rates in effect at the time the new service is installed;
- The new service is provided between the same customer locations and with the same customer of record as the disconnected service;
- The billed recurring revenue for the new service is equal to or greater than the billed recurring revenue remaining in the service being converted; and
- Spare facilities must be available or a nonrecurring upfront payment, which is a special construction charge, may apply.

(N)

(N)

- (F) In addition to all other provisions of this section, any customer terminating any part of a Fiber AdvantageSM service that was installed under a waiver of nonrecurring charges, before the expiration of the term under which it was installed, shall be liable for the unexpired portion of the installation charges that were in effect at the time of installation, i.e., if a 3-year (36 month) term plan were selected, for each month the customer retains service, the unexpired portion of the installation charges shall be reduced by 1/36.

If only a portion of the service is disconnected prior to the expiration of the term plan, the customer shall be responsible for the unexpired installation charges of the disconnected part of the service only.

The unexpired nonrecurring charges shall continue to be reduced by the number of months in the original term plan, even if the customer chooses to increase the term before the original term expires.

T

(G) Fresh Look Provision

T

Fresh Look provisions, required under CC Docket No. 91-141, will be limited to customers who entered into a Fiber AdvantageSM DS3, DS3x3, or DS3x12 Service under a 3 or 5 year Rate Stability Plan on or before September 17, 1992.

T

Fresh Look provisions apply when a customer terminates a qualifying service to take service pursuant to an Expanded Interconnection Service arrangement as described in Section 16, following.

Fresh Look provisions for qualifying Special Access Services will apply for a period of 180 days from the date of filing of the tariff transmittal for the fresh look period for that central office as listed below. A customer must give notice during the 180 day period that it intends to terminate its existing qualifying service in order to take a qualifying service from a collocator.

The collocator that the customer intends to take service from must make a request for collocation during the fresh look period. Also, the customer must actually terminate its qualifying Fiber AdvantageSM DS3, DS3x3 or DS3x12 service within 90 days after the collocation arrangement is operational to qualify for fresh look termination charges.

T

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.11 Fiber AdvantageSM Service (Cont'd)

T

(G) Fresh Look Provision (Cont'd)

T

Termination Liability under Fresh Look shall be the difference between (1) the amount the customer has already paid for the service and (2) any additional charges that the customer would have paid for the same service if a shorter term arrangement had originally been chosen, plus interest calculated at the IRS rate for tax refunds, compounded daily. The customer will be liable for Termination Liability Charges as described above or the Termination Liability Charges as described in 7.4.11(B), preceding, whichever is less.

If the actual term of service does not coincide exactly with a Rate Stability Plan term, the charges for the service will be calculated at the rates applicable at the time the service term began, for the longest term commitment that the customer would have completed. The charge for the period beyond that term will be calculated pro rata at the rates applicable to the completed term.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.12 Split Billing Arrangement

Split Billing Arrangement is an option which allows for the interconnection of two or more different customers' Special Access Services in Telephone Company Serving Wire Centers for billing purposes only. This arrangement is only available when a service is hubbed for multiplexing, e.g., DS3 to DS1 or DS1 to DS0 and each customer must have a minimum of one channel termination at its designated premises. Hubbing locations are set forth in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4.

Each customer may order its individual service(s) separately from the Telephone Company. However, the customer with the higher bit rate service (e.g., DS3 or DS1) must provide the channel assignment to the customer with the lower bit rate service prior to the ordering of the lower bit rate service.

Each customer will be billed the applicable tariff rates and charges set forth in 7.5 following, for its individual service(s). Multiplexing will be billed to the customer with

The customer that controls the higher bit rate service shall be the primary customer for reporting service outages. Out of service adjustments will be handled in accordance with Credit Allowance for Service Interruptions as set forth in Section 2.4.4 preceding.

Sx

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.13 Zone Pricing

Special Access High Capacity DS1 (1.544 Mbps) and DS3 (44.736 Mbps), including DS3x3, and DS3x12, services are divided into 3 pricing zones. The rate elements included in zone pricing are Channel Terminations, Channel Mileage, and Multiplexing. The pricing zone for each serving wire center is identified in the NECA Tariff No. 4.

Channel Termination

The rate for each Channel Termination is determined by the serving wire center.

Channel Mileage

Channel Mileage calculations will be made in accordance with Section 7.4.5, preceding. When Channel Mileage is computed between wire centers in different pricing zones, the rates of the higher rate pricing zone shall apply.

Multiplexing

The rates for multiplexing will be determined by the billing location of the multiplexing arrangement.

Sx

Sx

x Issued on not less than 3 days' notice under authority of Special Permission No. 94-113 of the Federal Communications Commission to defer the effective date from January 31, 1994 to March 5, 1994.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan(A) Description

DS1 High Capacity Service Optional Pricing Plan (DS1 OPP) offers the customer discounted rates for DS1 High Capacity Service when certain requirements are met:

- Applies to DS1 Services only
- A term length commitment
- Base period or interim base period volumes
- A minimum volume commitment
- Excludes Fiber AdvantageSM DS1 Service

N

A customer's subscription to DS1 OPP services shall apply to all of the customer's DS1 High Capacity services regardless of the number of separate billing accounts established for such services.

When ordering DS1 OPP, the customer shall select a DS1 OPP term length of 3, 4, or 5 years. During the term, the customer may elect to increase the term or volume of the plan without any Termination Liability, provided there is no lapse of time between the effective date of the increase and the termination of the previously effective volume or discount choice.

The new term length begins on the same start day as the term length it replaces. There will be no retroactive adjustments of a discount due to a customer-initiated change in term or volume commitment.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan (Cont'd)(A) Description (Cont'd)

When a term period is increased, the new discount will begin at the start of the following calendar quarter (performance period).

The customer may not elect to decrease the term commitment during the term. A decrease in term will be deemed to be a cancellation of the Plan.

Cx

Cx

The DS1 OPP discount corresponding to the term selected by the customer will be applied to the performance period following the calendar quarter in which the customer subscribes to DS1 OPP. The percentage discount applicable to the term selected by the customer is:

<u>Years</u>	<u>3</u>	<u>4</u>	<u>5</u>
<u>% Discount--recurring rates</u>			
Zone 1	2%	3%	4%
Zone 2	1%	1.5%	2%
Zone 3	0.5%	0.75%	1%

Cx

Cx

Cx

The percentage discount in effect at the start of DS1 OPP may increase, but shall not decrease during the term of the plan.

x Issued on not less than 1 day's notice under authority of Special Permission No. 94-604 of the Federal Communications Commission. Certain regulations on this page formerly appeared on page 122.9.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan (Cont'd)(B) Definitions

For the purpose of OPP, the following definitions will apply.

Performance Period

A performance period is a 3 consecutive month period beginning with the first day of January, April, July, or October.

Volume Commitment Percentage

The volume commitment percentage is the percent of the qualifying DS1 base period volumes which the customer commits to maintain during its DS1 OPP. The volume of qualifying DS1 channel terminations is the sum of the end of month channel termination volumes for each month during each quarterly calendar performance period.

Qualifying Volumes

Qualifying Volumes are those DS1 channel terminations served by wire centers in each zone.

Cx

Volume Commitment Recurring Charges

Volume commitment recurring charges are the result of multiplying total qualifying recurring DS1 charges, by zone, by the volume rate percentage._

Nx

Volume Ratio

The volume ratio is calculated by dividing the customer's volume commitment, by zone, by the actual quarterly volumes, by zone.

Nx

x Issued on not less than 1 day's notice under authority of Special Permission No. 94-604 of the Federal Communications Commission. Certain regulations on this page formerly appeared on page 122.9.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan (Cont'd)(B) Definitions (Cont'd)Base Period

The base period is the same calendar quarter as that of the first performance period, but of the previous year. A calendar quarter is a 3-month period that begins on the first day of: January, April, July, or October. In a particular zone, a customer must have qualifying DS1 channel terminations in each month of the base period, otherwise an interim base period will be used.

Cx
CxInterim Base Period

An interim base period is the first calendar quarter closest to the base period in which the customer does have qualifying volumes in each zone, within the last 4 calendar quarters.

Cx

Committed Volume

The committed volume is the minimum number of channel terminations that the customer must have for the performance period in order to qualify for OPP. The committed volumes are calculated by multiplying the base period volume by the volume commitment percentage.

x Issued on not less than 1 day's notice under authority of Special Permission No. 94-604 of the Federal Communications Commission. Certain regulations on this page formerly appeared on pages 122.10 and 122.11.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan (Cont'd)(C) Volume Commitment

When ordering DS1 OPP, the customer shall state a volume commitment percentage. The volume commitment percentage is the number of the qualifying DS1 base period volumes which the customer commits to maintain during its DS1 OPP. The volume commitment percentage must be equal to or greater than 50% of the customer's total qualifying base period volumes. The volume of qualifying DS1 channel terminations is the sum of the end of month channel termination volumes by zone for each month during each quarterly calendar performance period. A DS1 OPP discount will only apply to those zones where a customer states a volume commitment and meets all requirements for that zone discount. Cx

The base period is the same calendar quarter as that of the first performance period, but of the previous year. A calendar quarter is a 3-month period that begins on the first day of: January, April, July, or October. Cx

If a customer does not have any qualifying volumes during the base period described above, then the interim base period will be the first calendar quarter closest to the base period in which the customer does have qualifying volumes, within the last 4 calendar quarters.

x Issued on not less than 1 day's notice under authority of Special Permission No. 94-604 of the Federal Communications Commission. Certain regulations on this page formerly appeared on page 122.9.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan (Cont'd)(C) Volume Commitment (Cont'd)

In order to qualify for DS1 OPP, the customer must have DS1 channel terminations for the entire preceding performance period in a particular zone to qualify for a discount in that zone only.

Cx
||
Cx

In order to qualify for a discount, the customer's actual volumes must equal or exceed the committed volumes during the performance period in that zone.

Cx

(D) Discount on Recurring Rates

A DS1 OPP discount shall apply to a customer's monthly recurring charges during the performance period when the customer's actual volume of all qualifying DS1 channel terminations equal or exceeds the volume to which the customer committed. A customer may install, disconnect, or rearrange its DS1 services during a performance period or a base period.

If a customer's actual volumes at the end of the performance period do not equal or exceed the volumes to which it commits, then no discount will apply.

x Issued on not less than 1 day's notice under authority of Special Permission No. 94-604 of the Federal Communications Commission. Certain regulations on this page formerly appeared on page 122.12.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.14 DS1 High Capacity Service Optional Pricing Plan (Cont'd)(D) Discount on Recurring Rates (Cont'd)

A DS1 OPP discount shall apply only to the volume commitment of DS1 services originally committed to by the customer, unless that volume commitment by zone is increased. The customer must submit its written request to increase its volume commitment not later than 30 calendar days prior to the beginning of the performance period to which the new volume commitment will apply. Such increase shall apply to the remainder of the OPP period. For any subsequent increases in volume commitment, the customer must submit its written request no later than 30 calendar days prior to the beginning of a performance period.

Nx

Nx

x Issued on not less than 1 day's notice under authority of Special
Permission No. 94-604 of the Federal Communications Commission.

(F) Plan Changes

A customer may increase its volume and/or term by notifying the Telephone Company not later than 30 days prior to the beginning of a new performance period.

A customer may cancel or change its subscription to the DS1 OPP without incurring any termination liability by delivering written notice to the Telephone Company of the cancellation or change up until 60 days after the close of the first performance period.

A customer may terminate its subscription to DS1 OPP by providing the Telephone Company at least 30 days written notice of termination. No discount shall apply during the performance period in which the termination date occurs. In the event that the termination date occurs before two-thirds of the term period has passed, the customer shall pay to the Telephone Company a termination charge equal to the sum of the recurring charge discounts received by the customer under DS1 OPP during the four performance periods immediately preceding termination.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.15 DS3 Leaseback

N

DS3 Leaseback is an option available to customers of Fiber Advantage® DS3 Special Access Service who allow the Telephone Company use of their channel terminations for the provision of any type of Special Access High Capacity DS1 channel terminations. With DS3 Leaseback, the Telephone Company will provide a credit to the customer of the Fiber Advantage® DS3 Special Access Service for the use of their DS3 channel termination and associated DS3 to DS1 multiplexer. The Telephone Company will bill the customer of the DS1 service for a DS1 Channel Termination provided over the DS3 service.

The following terms and conditions apply to a DS3 Leaseback arrangements.

- (A) The DS1 customer may be the same or different than the DS3 customer.
- (B) The DS3 customer must request a DS3 Leaseback prior to the completion of the DS1 customer's order. The DS1 customer must order DS1 Leaseback Channel Termination(s).

N

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.15 DS3 Leaseback (Cont'd)

(C) When requesting a DS3 Leaseback arrangement, each DS3 and DS1 customer must provide the Telephone Company with information sufficient to correctly establish billing. This includes, but is not limited to, all necessary circuit identification including the DS3's Connecting Facility Assignment for the DS1 service, and the DS1 customer's name and address. The Telephone Company will work cooperatively with the DS3 customer to identify all of the necessary customer information. However, if the DS3 customer does not provide the required information or if the DS1 customer does not order DS1 Leaseback Channel Terminations, the DS3 Leaseback credit will not be established.

(D) The DS3 customer must agree to work cooperatively with the Telephone Company to maintain accurate customer records of any DS3 Leaseback arrangements. The customer records which must be jointly maintained are:

- connecting facility assignments by DS1 customer, and
- additions, moves, rollovers, or deletions of DS1 customers onto or off of the DS3 channel termination.

If the DS3 customer does not cooperate to maintain these records, the existing affected DS3 Leaseback arrangement(s) will be discontinued and additional DS3 Leaseback arrangements will not be established.

N

N

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.15 DS3 Leaseback (Cont'd)

- (E) DS3 Leaseback can be established on Fiber Advantage® DS3s for subtending Special Access DS1 and Fiber Advantage® DS1 services only. If a DS1 channel becomes vacant subsequent to the establishment of a DS3 Leaseback (e.g., the DS1 customer disconnects service), the DS3 Leaseback will be eliminated for that channel.
- (F) In any month, the total DS3 Leaseback for any Fiber Advantage® DS3 service shall not exceed 100 percent of the combined monthly charges for the Fiber Advantage® DS3 service and its associated DS3 to DS1 multiplexer, net of any other billing credits or adjustments.
- (G) The Telephone Company will remove a DS1 customer from the DS3 Leaseback arrangement at the request of the DS3 customer or because the DS1 customer has disconnected, moved or rolled-over the DS1 service to a different Fiber Advantage® DS3 service channel termination. In the event the DS3 Leaseback arrangement is terminated without any physical change to the serving arrangement, the DS3 customer may request a split billing arrangement, as described in Section 7.4.12, preceding.
- (H) In the event a billing dispute is initiated by a DS1 customer, the Telephone Company will negotiate with the DS1 customer as set forth in Section 2.4, preceding.

N

N

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.15 DS3 Leaseback (Cont'd)

- (I) The Telephone Company will accept requests to disconnect the DS3 service only from the Fiber Advantage® DS3 service customer. The DS3 customer is responsible for notifying each DS1 customer utilizing a channel of the DS3 under which a DS3 Leaseback is provided. Notification must be completed no later than 10 business days before the DS3 is scheduled to be disconnected; otherwise, the DS3 may not be disconnected and billing of all services will continue.
- (J) The credit to be applied for each DS1 channel termination using the DS3 channel termination is set forth in Section 7.5.9, following.
- (K) DS3 Leaseback can only be established when a new point to point DS1 service is established.
- (L) Each customer must agree to work cooperatively with the Telephone Company to ensure proper installation, testing, maintenance, and repair of the affected DS3 or DS1 service(s). The DS3 customer must immediately release its service and arrange for the immediate release, if necessary, of any other DS1 service riding that DS3 service, for repair purposes, when requested by the Telephone Company. Failure to release shall result in the immediate termination of the DS3 Leaseback arrangements for that service (DS3), and that customer being liable for any service credits that the Telephone Company may owe the DS3 or other DS1 customer riding that DS3 service.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access ServicesTerms and Conditions

(A) 1, 3 and 5 Year Rate Stability Payment Plans and Termination Liability Charges

The Telephone Company provides 1, 3 or 5 Year (term) Rate Stability Payment Plans (RSPP). For the dedicated ring configuration Rate Stability Plan Payment Plans have three and five year terms; for the circuit service the Rate Stability Payment Plans have 1, 3, and 5 year terms. The RSPP allows the customer to order service at rates commensurate with the length of the term. If rates decrease during a RSPP term, the new rate, if it is lower, would automatically apply to the remainder of the fixed term. At the end of the RSPP, the customer may order a new Rate Stability Payment Plan, terminate service or, if no choice is made, the service will convert to monthly rates corresponding to the equivalent term just expired, subject to any future rate changes. If a customer does not complete the time period or term of the RSPP, Termination Liability Charges will apply, unless exceptions are met as listed in the following.

If a customer chooses to discontinue the Rate Stability Payment Plan prior to the completion of the term period, termination liabilities will apply with the exception of the following early release option. With this option, a customer under a 5 Year RSPP term, giving 6 months notice prior to disconnecting service after the start of the 48th month of the RSPP, will be released from the Termination Liability Charges.

For Rate Stability Payment Plans discontinued prior to the end of the first year of the Rate Stability Payment Plan period the customer's Termination Liability Charge will be 75% of the total monthly charges on the unexpired portion of the first year of service. In addition, the customer will be liable for 60% of the second year, 50% of the third year, 20% of the fourth year and 15% of the fifth year of the total monthly charges for the remaining portion of the Rate Stability Payment Plan Period.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access Services (Cont'd)(A) 1, 3 and 5 Year Rate Stability Payment Plans and
Termination Liability Charges (Cont'd)

For Rate Stability Payment Plans disconnected after the end of the first year of service, the customer will be liable for payments for the unused portion of the RSPP. The Terminating Liability Charge will be calculated based upon a percentage of monthly payments remaining in the RSPP. Percentages of monthly payments due for unused service are: 60% for year two, 50% for year three, 20% for year four and 15% for year five, (e.g. a customer disconnecting after using fourteen months of a five year plan would owe: 10 months at 60%, 12 months at 50%, 12 months at 20% and 12 months at 15%).

(N)

7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access Services (Cont'd)

(B) Upgrades of SONET Ring and Access Services (SRAS) to higher speed services.

Customers with 3 or 5 year contracts may at any time upgrade to a higher speed service (e.g., SRAS OC3 to SRAS OC12), without incurring the Termination Liability charge, providing the following criteria are met:

- The customer subscribes to a new or higher speed Rate Stability Payment Plan term that is equal to, or greater than 36 months;
- The expiration date for the new Rate Stability Payment Plan term is beyond the end of the original Rate Stability Payment Plan term;
- No lapse in service occurs;
- Nonrecurring Charges will apply, when applicable;
- The monthly rates for the new service will be those rates in effect at the time the new service is installed;
- The new service is provided between the same customer locations and with the same customer of record as the disconnected service;
- The billed recurring revenue for the new service is equal to or greater than the billed recurring revenue remaining in the service being converted; and
- Spare facilities and equipment must be available or a nonrecurring upfront payment, which is a special construction charge, may apply.

(N)

Customers may upgrade, when conditions are met, DS3 or DS1 at the same premises without incurring the Termination Liability Charge providing that a Rate Stability Payment Plan of equivalent or longer period is selected. DS1 Optional Pricing Plan (OPP) services must fulfill the conditions concerning OPP changes and notification of Section 7.4.14(F) preceding. All appropriate non recurring charges will apply.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access Services (Cont'd)

(C) Migration onto SONET Ring and Access Services

- (1) For signed Cooperative Planning Agreements received (N)
by the Telephone Company prior to close of business on (N)
February 2, 2000 (N)

As part of the Telephone Company-Customers Cooperative Planning Process, a period of up to six months will be established for migrating existing services onto a new dedicated ring. When services move onto the ring the customer will be billed for a prorata share of the rate elements being used (Nodes, Ports, Mileage and Dedicated Ring Fees). Use of the ring's services will be determined by an equivalent DS3 prorata share of the ring's rate element recurring charges (1/3rd of the charges for an OC3 ring, 1/12th of the charges for an OC12 ring, 1/48th of the charges for an OC48 ring) determined on a monthly basis. For example, when the customer migrates an existing DS3 service to the ring the Telephone Company will charge a prorata of the recurring charges for the ring elements and discontinue billing for the fixed and variable mileage and the related portion of the channel termination at the customer entrance facility which the SONET ring completely replaces. Existing channel termination prorata applies when the existing service (i.e., DS3x3 or DS3x12) will be disconnected as part of the migration plan. At the completion of the migration period, billing will commence for all rate elements of the ring purchased by the customer (this is the commencement of the rate stability payment period). This does not apply to two point (a.k.a. circuit service) configurations.

The six-month migration period may be extended for an additional two months following the initial period. The extension must be agreed upon by the customer and the Telephone Company. Either party can request an extension to deal with developing situations. For example, if either party cannot meet the ring provisioning dates, or rollover of existing services to the ring, due to circumstances beyond their control during the initial migration period (e.g., labor disputes, resource limitations, or natural disasters), either party can request an extension. Both parties must cooperatively plan a new timeline that will not exceed two months from the date of the extension agreement.

- (2) For signed Cooperative Planning Agreements received (N)
by the Telephone Company on or after February 3, 2000 (N)
- Billing will commence upon service order completion for all rate elements (nodes, ports, mileage, and dedicated ring fees) associated with new dedicated rings. This is the commencement of the Rate Stability Payment Plan (RSPP). (N)

(This page filed under Transmittal No. 2096)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access Services (Cont'd)

(D) Renewal of SONET Ring and Access Services Rate Stability Payment Plans

At the end of the term of a RSPP the customer may renew its RSPP without incurring the payment of a nonrecurring charge, if the physical serving arrangement is not changed. If a plan is not renewed, service will continue on a month to month basis with the rates as specified in 7.4.16(A) above.

With an increase in bandwidth capacity and no change in locations receiving service, the customer can forego payment of existing Terminating Liability Charges. New Terminating Liability Charges based on the term of service chosen will apply for the new Rate Stability Payment Plan chosen by the customer.

(E) Change of SONET Ring and Access Services Rate Stability Payment Plan

The customer also has the option to change the current payment plan to an equivalent or longer payment plan (e.g., 1 year to 3 year) without incurring the Termination Liability Charge applicable to the current Rate Stability Payment Plan or new nonrecurring charges applicable to the new equivalent or longer payment plan, if other aspects of the service and facilities remain unchanged. The new equivalent or longer Rate Stability Payment Plan of the customer begins on the service order completion date and is treated as a new Rate Stability Payment Plan period.

Customers may change to a shorter Rate Stability Payment Plan by paying the associated Termination Liability Charges with the original Rate Stability Payment Plan. The rates that will apply will be the current rates in effect for the Rate Stability Payment Plan ordered. However, no new nonrecurring charges will apply.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access Services (Cont'd)

(F) Portability

No Termination Liability Charge will apply to the disconnect of a Local Loop Access Link or channel termination if a like service with the same bandwidth capacity and the same RSPP term is added to the same dedicated ring. The disconnect and new connect orders must be concurrent and related to insure that the termination liability can be suppressed for the disconnect order.

(G) Customer Provided Node

Customer Provided Nodes compatible with Telephone Company specifications connect at the customer premises to dedicated ring facilities. These facilities must be connected to Telephone Company provided nodes on the ring. The customer will furnish all equipment between the Telephone Company optical network interface units serving that location. Through a mutually agreed upon interoperability agreement the Telephone Company will maintain network control and inventory as well as direct all provisioning and maintenance of the ring.

For network security purposes, the customer will place the provided node/transport equipment in a locked cabinet or other appropriate secure arrangement. An agreement will be provided by the Telephone Company that establishes the operations, administration and maintenance of the node.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 SONET Ring and Access Services (Cont'd)

(H) SONET Multiplexing

(N)

There is no SONET multiplexing arrangement for bandwidth capacities above 51 Mbps.

(I) Protected Services

Within the Telephone Company's network, SONET services are protection switched. The provisioning of premises access ports, either OC3c or OC12c, is a non-protected drop (i.e. one pair of fibers at the network interface).

(J) OC12c/622 Mbps Bandwidth Service

OC12c/622 Mbps Bandwidth Service is provisioned via access ports on a SONET OC48 Node.

- (1) OC12c/622 Mbps Bandwidth Service can originate and terminate on a Dedicated SONET OC48 Ring (e.g., provide a point-to-point service between two premise nodes on a dedicated ring), or
- (2) OC12c/622 Mbps Bandwidth Service can originate on a Dedicated SONET OC48 Ring and terminate in the Telephone Company Central Office, traversing available SONET interoffice facilities.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.17 DS1 Discount Value Plan (DS1-DVP)

(N)

(A) Description

The DS1 Discount Value Plan (DS1-DVP) provides the customer with a three year billing arrangement in which 6% of the total monthly charges will be credited to the customer's monthly bill for certain DS1 rate elements listed in 7.4.17(B) following. This credit is calculated based on the most current effective tariff monthly rates. The credit will only apply when the following requirements are met.

- The customer orders specific DS1 rate elements listed below;
- The customer agrees to a 3 year term length commitment;
- A Minimum Monthly Revenue Commitment (MMRC) is established on a Lata or State level; and
- The customer meets the MMRC on a monthly basis.

If the customer does not meet all requirements in any given month, the credit will not be applied for that month. Any decreases or increases in monthly recurring tariff rates will be applied and the customer's MMRC will be adjusted accordingly. Customers will be notified of changes to MMRC.

(B) Services Available under DS1-DVP

The following recurring rate elements are included in DS1-DVP and are described in 7.2 (Basic Service Description):

<u>Rate Element</u>	<u>USOC</u>
DS1 High Capacity Channel Termination	(TMECS)
DS1 High Capacity Channel Mileage (Fixed and Per Mile)	(1L5XX)
DS1 High Capacity Multiplexing	(MQ1/MQ2)

Effective: February 26, 1999

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.17 DS1 Discount Value Plan (DS1-DVP) (Cont'd)

(N)

(C) Terms and Conditions(1) Minimum Monthly Revenue Commitment (MMRC)

The customer must establish a MMRC by Lata or State based on current rates when requesting a DS1-DVP. The MMRC is determined by the customer. An Adjustment⁽¹⁾ to the billed revenue will be applied monthly after the billing has been established.

(a) Adjustments to the MMRC(1) Increasing the MMRC

The customer has the option to increase the MMRC. To initiate an increase in the MMRC, the customer must provide the amount of the new MMRC in writing. The adjusted MMRC will be reflected on the customer bill no later than 60 days following receipt.

The new MMRC will be determined by the customer based upon the billed revenue of the rate elements to be included in the DS1-DVP.

An increase in the MMRC does not change any of the terms and conditions in effect during the term length of the DS1-DVP.

(2) Decreasing the MMRC

Any customer initiated decrease in the MMRC will be subject to Termination Charges as specified in 7.4.17(D)(2), following.

(N)

⁽¹⁾If the MMRC is not met a debit will be applied.

(This page filed under Transmittal No. 2035)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.17 DS1 Discount Value Plan (DS1-DVP) (Cont'd)
(C) Terms and Conditions (Cont'd)(1) Minimum Monthly Revenue Commitment (Cont'd)(a) Adjustments to the MMRC (Cont'd)(3) Rate Flow Through

Any decreases or increases in monthly recurring tariff rates will apply to customers who participate in DS1-DVP. The customer's MMRC will be revised accordingly. The Telephone Company will notify customers participating in DS1-DVP when monthly rates are changed.

(2) Upgrades of DS1-DVP Circuits to Other Services

A customer may upgrade DS1-DVP circuits to DS1/DS3 Fiber Advantagesm Service, Sonet Ring and Access Services without termination liability provided that: (D)

- (a) the customer identifies the DS1-DVP circuits being moved;
- (b) the DS1-DVP circuits are being moved to a new service;
- (c) the due date to disconnect the DS1-DVP and the due date to connect the new service are the same;
- (d) the billed recurring revenue for the new service is equal to or greater than the billed recurring revenue remaining in the DS1-DVP service being converted;

(This page filed under Transmittal No. 2093)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.17 DS1 Discount Value Plan (DS1-DVP) (Cont'd)(C) Terms and Conditions (Cont'd)(2) Upgrades of DS1-DVP Circuits to Other Services (Cont'd)

(e) the term length of the new service is equal to or greater than the number of months remaining in the DS1-DVP being replaced; and

(f) the new service is provided between the same customer locations and with the same customer of record as the disconnected service.

(3) Nonrecurring Charges

All applicable nonrecurring charges as set forth in Sections 5, 7.4.1(C) and 13 will apply.

The Access Order Charge will be waived when a customer's initial order for DS1-DVP moves existing DS1 or DS1 OPP service to DS1-DVP prior to December 31, 1999 and meets all the criteria listed in Section 7.4.17(E). The Access Order Charge will be waived once per customer - subsequent orders will incur all applicable nonrecurring charges, including the Access Order Charge. (C)

For example: If a customer places an order to move or convert DS1 High Capacity circuit(s) or DS1 OPP circuit(s) to DS1-DVP on June 25, 1999, then the Access Order Charge will be waived. If the same customer places a subsequent order to add more DS1 circuit(s) to DS1-DVP, then all applicable nonrecurring charges will apply.

The nonrecurring charges cannot be included in the calculation of the MMRC.

(This page filed under Transmittal No. 2070)

Issued: August 18, 1999

Effective: September 2, 1999

One Bell Plaza, Dallas, Texas 75202

(T)
(D)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.17 DS1 Discount Value Plan (DS1-DVP) (Cont'd)(D) Rate Applications(1) Special Construction Charges

Any special construction charges incurred for services billed under a DS1-DVP will apply as described in Section 5.1.3. Special Construction charges cannot be included in the calculation of the MMRC.

(2) Termination of Service

The following calculations will be made to determine the Termination Charge when a customer requests the termination of a DS1-DVP prior to the expiration date:

Termination Percentage = 45%

MMRC	X	Months Remaining In DS1-DVP	X	Termination Percentage
------	---	--------------------------------	---	---------------------------

= Termination Charge

Example: A customer with a \$1,000 MMRC with 12 months remaining in the 3 year billing period requests to terminate service. The termination charge would be calculated as follows:

$\$1,000 \times 12 \times .45 = \$5,400$

(E) Conversion of Existing DS1 or DS1 OPP Services to DS1-DVP

A customer may convert existing DS1 High Capacity service or existing DS1 OPP service to DS1-DVP. If the customer's initial DS1-DVP order is placed by December 31, 1999 to convert DS1 High Capacity service (C)
or DS1 OPP service to DS1-DVP and meets the following (C)
criteria, then all Access Order Charges will (C)
be waived as specified in Section 7.4.17(C)(3). Any
subsequent DS1-DVP orders placed by the same customer
will incur all applicable nonrecurring charges.
DS1 Fiber AdvantageSM Service may not convert to
DS1-DVP.

(This page filed under Transmittal No.2070)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.17 DS1 Discount Value Plan (DS1-DVP) (Cont'd)

(N)

(E) Conversion of Existing DS1s or DS1 OPP Services to DS1-DVP (Cont'd)

- (1) the customer must provide the Telephone Company with written notice to change by August 25, 1999;
- (2) the disconnect due date of the DS1 High Capacity Service or DS1 OPP Service and the connect due date of the DS1-DVP must be the same date;
- (3) customers must change all DS1 rate elements associated with the circuits over to DS1-DVP;
- (4) the converted service must be provided between the same customer locations and with the same customer of record as the disconnected service;
- (5) the DS1 OPP service being disconnected must change service to a DS1-DVP that is greater than or equal to the number of months remaining in the current DS1 OPP term; and
- (6) the new DS1-DVP service must have billed revenue greater than or equal to the DS1 or DS1 OPP service being disconnected.

Any conversion requested after August 25, 1999 will incur all applicable Access Order Charges.

7. Special Access Service (Cont'd)7.5 Rates and Charges (Cont'd)7.5.13 SONET Ring and Access Services (Cont'd)Definitions

The following definitions describe connections for Primary Node Links and Central Office Access Ports.

STS1/DS1: provides for 28 DS1 (Local Loop Access Links-copper or Fiber Advantage) services from the customer's premises to the central office Digital Crossconnect System onto the STS-1 interface.

STS1/ DS3: provides for DS3 to DS3 crossconnect of Local Loop Access Links or Fiber Advantage service from the customer's premises to the central office onto the STS-1 interface.

STS1 hardwired for DS3: provides for DS3 services from the customer premises through the central office bypassing all electronic crossconnect equipment (Capacity is one DS3).

OC3/c-12: provides for 155 Mbps bandwidth services from the customer's premises to the central office on a Dedicated OC12 Ring with an optical interface (LSAC+).

OC3/c-48: provides for 155 Mbps bandwidth services from the customer's premises to the central office on a Dedicated OC48 ring with an optical interface (LSA4+).

STS12*; provides 622 Mbps bandwidth service to interconnect two SONET rings on an electrical interface (LSAT+).

OC12: provides 622 Mbps bandwidth service to interconnect two SONET rings on an optical interface (LSAT+).

(Z)

OC12c-48: provides 622 Mbps bandwidth services from the customer's premises to the central office on a Dedicated OC48 Ring with an optical interface (LSAL+).

* STS12 has been discontinued by the vendor and is limited to existing customers at existing locations as of January 5, 1999.

(This page filed under Transmittal No. 2081)

(N)

Definitions (Cont'd)

The following definitions describe connections for Premise Access Ports:

DS1: provides 1.544 Mbps bandwidth service at the customer's premise node mapping it onto the STS1 interface (LSA1+).

DS3: provides 45 Mbps bandwidth service at the customer's premise node mapping it onto the STS1 interface (LSA3+).

OC3c: provides 155 Mbps bandwidth concatenated services at the customer's premise with an optical, non-protected interface (LSAO+).

OC12c: provides 622 Mbps bandwidth concatenated services at the customer's premise with an optical, non-protected interface (LSAU+).

ACCESS SERVICE

7. Special Access Service (Cont'd)7.6 Individual Case Filings (Cont'd)Case No.88-16 AT&T Communications
(ICB No. 8I07-009)

To provide one DS3 (44.736 Mbps) service between AT&T Communications' Point of Presence (POP) in Oceanside, OSCDCAAT, at 331 Mesa Drive and the Telephone Company Central Office in Oceanside, OSCDCA11. The Telephone Company will multiplex the DS3 signal to a DS1 signal at OSCDCA11. The DS3 service will utilize existing entrance facilities provided for under a prior Special Construction arrangement #860900ATXF3.

The Telephone Company will provide clear channel B8ZS line/code format capability for a future application. At such time as a 64 Kbps clear channel service is developed and offered by the Telephone Company, AT&T Communications may request such service in connection with the Access Service and/or Facilities described herein, upon rates, terms and conditions as set forth by the Telephone Company's filed tariffs. Should the B8ZS format not be compatible with the clear channel service offered by The Telephone Company, AT&T Communications will have the option of ordering the B8ZS format through a Specialized Service or Arrangement (SSA) as allowed by the access tariffs.
