Under the authority of Special Permission No. 95-581, material related to Maximum Termination Liability filed under Transmittal No. 605 to become effective May 5, 1995, and deferred to May 20, 1995 under Transmittal No. 622, is being further deferred to July 19, 1995. The following pages are deferred:

Transmittal No. 605

2-7 2nd Revised  
3-8 2nd Revised  
3-9 3rd Revised  
6-6.1 4th Revised

(Instant revisions filed under Transmittal No. 627.)

Issued: May 19, 1995

Under the authority of Special Permission No. 95-523, material related to Maximum Termination Liability filed under Transmittal No. 605 to become effective May 5, 1995, is being deferred to May 20, 1995. The Special Construction case in North Dakota, also filed under Transmittal No. 605 (3rd Revised Page 6-10), will go into effect May 5, 1995. The following pages are deferred:

Transmittal No. 605

2-7 2nd Revised  
3-8 2nd Revised  
3-9 3rd Revised  
6-6.1 4th Revised

(Instant revisions filed under Transmittal No. 622.)

Issued: May 4, 1995

Under the authority of Special Permission No. 95-30, material issued under Transmittal No. 573 to become effective January 29, 1995, is being advanced to January 16, 1995. Transmittal No. 573 added two Special Construction cases: Arizona Case No. 27 and Idaho Case No.10.

(Instant revisions filed under Transmittal No. 579.)

Issued: January 11, 1995

**REFERENCE TO OTHER TARIFFS**

Whenever reference is made in this Tariff to other tariffs of the Company, the reference is to the tariffs in force as of the effective date of this Tariff, and to amendments thereto and successive issues thereof.

(T)  
(T)

**1. APPLICATION OF TARIFF**

This Tariff contains regulations, rates, charges and liabilities applicable for the special construction of interstate facilities provided by the Issuing, Concurring, Connecting or Other Participating Carriers of this Tariff, hereinafter referred to as the Company.

(T)

When special construction of facilities is required, the provisions of this Tariff apply in addition to all regulations, rates and charges set forth in the appropriate service tariff.

(T)

**2. GENERAL REGULATIONS**

(T)

**2.1 FILING OF CHARGES**

Rates, charges and liabilities for special construction to provide facilities for use for one month or more are filed in Sections 3., 4., 5. and 6., following, as appropriate.

(T)

Rates, charges and liabilities for the construction of facilities for use for less than one month are filed in supplements to this Tariff.

**2.1.1 CHARGES OF CONNECTING CARRIERS**

Rates, charges and liabilities for the special construction of facilities provided by a Connecting Carrier are developed by the Connecting Carrier and are filed by the Company in this Tariff on behalf of the Connecting Carrier.

(T)

**2.2 OWNERSHIP OF FACILITIES**

The Company providing specially constructed facilities under the provisions of this Tariff retains ownership of all such facilities.

(T)

(T)

**2.3 INTERVAL TO PROVIDE FACILITIES**

Based on available information and the type of service ordered, the Company will establish a completion date for the specially constructed facilities. If the scheduled completion date cannot be met due to circumstances beyond the control of the Company, a new completion date will be established and the customer will be notified.

(T)

(T)

**2. GENERAL REGULATIONS**

(T)

**2.4 SPECIAL CONSTRUCTION INVOLVING INTERSTATE AND INTRASTATE FACILITIES**

When special construction involves facilities to be used to provide both interstate and intrastate services, charges for the portion of the construction used to provide interstate service shall be in accordance with this Tariff. Charges for the portion of the construction used to provide intrastate service shall be in accordance with the appropriate intrastate tariff.

(T)

**2.5 PAYMENTS FOR SPECIAL CONSTRUCTION**

**2.5.1 PAYMENT OF CHARGES**

All bills associated with special construction charges are due in accordance with the appropriate regulations in the service tariff under which service is being provided.

**2.5.2 START/END OF BILLING**

Billing of recurring charges for specially constructed facilities starts on the day after the facilities are made available for use. Billing accrues through and includes the day that the specially constructed facilities are discontinued.

**2.5.3 CREDIT ALLOWANCE FOR SERVICE INTERRUPTIONS**

In the event of a service interruption involving a specially constructed facility, the customer shall receive a recurring monthly charge credit in accordance with the credit allowance provisions in the appropriate service tariff associated with the affected services.

## 2. GENERAL REGULATIONS

(T)

### 2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION

When an interruption continues due to the failure of the customer to authorize the replacement of facilities subject to a Replacement Charge, as specified in 2.6.4.A.4., following, the credit allowance will be terminated on the seventh calendar day after the Company has provided the customer with written notification of the need for replacement. The credit allowance will resume on the day after the Company receives written authorization for the replacement from the customer.

(T)

(T)

(T)

#### 2.6.1 GENERAL

This section describes the various charges and liabilities that may apply when the Company provides special construction of facilities in accordance with an order for service. Written approval of all liabilities and charges must be provided to the Company prior to the start of construction.

(T)

(T)

#### 2.6.2 CONDITIONS REQUIRING SPECIAL CONSTRUCTION

Special construction is required when 1) facilities are not available to meet an order for service, and 2) the Company constructs facilities, and 3) one or more of the following conditions exists:

(T)

- The request for construction of facilities for which the Company has no other requirement.
- It is requested that service be furnished using a type of facility, or via a route (e.g. Special Facilities Routing of Access Services), other than that which the Company would normally utilize in furnishing the requested service.
- More facilities are requested than would normally be required to satisfy an order.
- It is requested that construction be expedited, resulting in added cost to the Company.

(T)

(T)

(T)

(T)

(T)

(T)

## 2. GENERAL REGULATIONS

(T)

### 2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION (Cont'd)

#### 2.6.3 DEVELOPMENT OF LIABILITIES AND CHARGES

Special construction charges and liabilities will be developed based on estimated costs, except when actual costs are requested in writing prior to the start of special construction.

In order to meet a scheduled service date when actual costs are requested, an initial special construction filing may be made based on estimated costs. Such a filing will be revised when actual costs are available.

#### 2.6.4 TYPES OF LIABILITIES AND CHARGES

Depending on the specifics associated with each individual case, one or more of the following special construction charges and/or liabilities may be applicable.

##### A. Nonrecurring Charge

(T)

A nonrecurring charge always applies and includes one or more of the following components:

##### 1. Case Preparation Charge

(T)

A nonrecurring charge always includes a case preparation charge component to cover the administrative expenses associated with preparing a special construction case and the associated tariff filing.

##### 2. Expediting Charge

(T)

A nonrecurring charge may include an expediting charge when it is requested that special construction be completed on an expedited basis. The charge equals the difference in estimated cost between expedited and nonexpedited construction.

**2. GENERAL REGULATIONS**

(T)

**2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION**

**2.6.4 TYPES OF LIABILITIES AND CHARGES**

**A. Nonrecurring Charge (Cont'd)**

(T)

**3. Optional Payment**

(T)

An optional payment charge may be included in the nonrecurring charge in association with a type of facility or route other than that which the Company would normally use in furnishing the requested service if lower recurring monthly charges are desired for the specially constructed facilities. This charge is equal to the excess installed cost or the total nonrecoverable cost, whichever is less. This election must be made in writing before special construction starts. If this election is coupled with the actual cost option, the optional payment charge will reflect the actual cost of the specially constructed facilities.

(T)

**4. Replacement Charge**

(T)

If any portion of specially constructed facilities for which an optional payment charge has been paid requires replacement involving capital investment, a replacement charge will apply. This charge will be in the same ratio to the total replacement cost as the initial optional payment charge was to the installed cost of the original specially constructed facilities. If any portion of the facilities subject to the replacement charge fails, service will not be restored until notification is provided in writing that replacement is required and such replacement is ordered.

**5. Rearrangement Charge**

(T)

If the Company is requested to rearrange existing specially constructed facilities, a nonrecurring charge equal to the cost of any additional special construction will apply.

(T)

## 2. GENERAL REGULATIONS

### 2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION

#### 2.6.4 TYPES OF LIABILITIES AND CHARGES

##### A. Nonrecurring Charge (Cont'd)

##### 6. Special Construction of Facilities for Use for less than One Month

When the Company is requested to construct facilities to provide service for less than one month, a nonrecurring charge only applies. In addition to the case preparation charge component, this nonrecurring charge recovers all elements of cost, including engineering, shipping of equipment, equipment installation, line-up, equipment leasing, space rental, equipment removal, and any other costs associated with the construction of the facilities.

##### 7. Special Construction for Broadcast, Commercial and Broadcast Digital Transport Video Service. (C)

Nonrecoverable costs associated with specially constructed facilities for Broadcast, Commercial and Broadcast Digital Transport Video Service must be paid before construction begins. (C)

##### B. Maximum Termination Liability and Termination Charge

A Maximum Termination Liability is equal to the nonrecoverable costs associated with specially constructed facilities and is the maximum amount which could be applied as a Termination Charge if all specially constructed facilities were discontinued before the Maximum Termination Liability expires.

The Maximum Termination Liability period will be 10 years and will apply to cases which exceed \$25,000.00 in nonrecoverable costs.

A Maximum Termination Liability is not applicable for Broadcast, Commercial and Broadcast Digital Transport Video Service. Nonrecoverable costs associated with specially constructed facilities for Broadcast, Commercial and Broadcast Digital Transport Video Service must be paid before construction begins. (T)  
(C)  
|  
(C)

## **2. GENERAL REGULATIONS**

### **2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION**

#### **2.6.4 TYPES OF LIABILITIES AND CHARGES**

##### **B. Maximum Termination Liability and Termination Charge (Cont'd)**

A Termination Charge may apply when all services using specially constructed facilities which have a terrified Maximum Termination Liability are discontinued prior to the expiration of the liability period. The charge reflects the unamortized portion of the nonrecoverable costs at the time of termination, adjusted for net salvage and possible reuse. Administrative costs associated with the specific case of special construction and any cost for restoring a location to its original condition are also included. A Termination Charge may never exceed the filed Maximum Termination Liability.

A partial termination of specially constructed facilities will be provided, at the election of the customer. The amount of the Termination Charge associated with such partial termination is determined by multiplying the termination charge which would result if all services using the specially constructed facilities were discontinued, at the time partial termination is elected, by the percentage of specially constructed facilities to be partially terminated. A tariff filing will be made following a partial termination to list remaining Maximum Termination Liability amounts and the number of specially constructed facilities the customer will remain liable for.

##### **EXAMPLE**

A customer with a filed Maximum Termination Liability of \$100,000 for 3600 specially constructed facilities requests a partial termination of 900 facilities. The Termination Charge for all facilities, at the time of election, is \$60,000. The partial termination charge, in this example, is \$60,000 x 900/3600, or \$15,000.

(D-x)

(x) Issued under the authority of Special Permission No. 95-856.

(Filed under Transmittal No. 643.)

Issued: July 17, 1995

Effective: July 18, 1995

**2. GENERAL REGULATIONS**

(T)

**2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION**

**2.6.4 TYPES OF LIABILITIES AND CHARGES (Cont'd)**

**C. Annual Underutilization Liability and Underutilization Charge**

(T)

Prior to the start of special construction, the Company and the customer will agree on (1) the quantity of facilities to be provided, and (2) the length of the planning period during which the customer expects to place the facilities in service. The planning period is hereinafter referred to as the Initial Liability Period (ILP). The ILP is listed in the Tariff with an effective and expiration date.

(T)

(T)

Underutilization occurs only if, at the expiration date of the ILP and annually thereafter, less than 70 percent of the specially constructed facilities are in service at filed tariff service rates.

An annual underutilization liability amount is filed on a per unit basis (e.g., per cable pair) for each case of special construction. This amount is equal to the annual per unit cost and includes depreciation, maintenance, administration, return, taxes and any other costs identified in the supporting documentation provided at the time the special construction case is filed.

Upon the expiration of the ILP, the number of underutilized facilities, if any, are multiplied by the annual underutilization liability amount. This product is then multiplied by the number of years (including any fraction thereof) in the ILP to determine the underutilization charge.

Annually thereafter, the number of underutilized facilities, if any, existing on the anniversary of the ILP expiration date will be multiplied by the annual underutilization liability amount to determine the underutilization charge for the preceding 12 month period.

**2. GENERAL REGULATIONS**

**2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION**

**2.6.4 TYPES OF LIABILITIES AND CHARGES**

**C. Annual Underutilization Liability and Underutilization Charge (Cont'd)**

(T)

**EXAMPLE**

A customer orders 100 services and the special construction of a 600 pair building riser cable is agreed to, based on the customer's 5 year facility requirements. The ILP, in this example, would be filed at 5 years. The annual underutilization liability is filed at \$2.00 per pair. If 400 pairs were in service at the end of the ILP, there would be an underutilization of 20 pairs, i.e.,  $420 (70\% \text{ of } 600) - 400 = 20$ . The total underutilization charge for the first 5 years would be \$200.00, or \$2.00 per pair x 20 pairs x 5 years.

If 420 pairs are in service at the end of the 6th year, there is no underutilization, i.e.,  $420 - 420 = 0$ .

**D. Recurring Monthly Charges**

(T)

**1. Charge for Route or Type Other than Normal**

(T)

When special construction is requested using a route (e.g., Special Facilities Routing of Access Services), or type of facility other than that which the Company would normally use, a recurring monthly charge, in addition to the monthly rates for service, is applicable. The charge is equal to the difference between the recurring costs of the specially constructed facilities and the recurring cost of the facilities the Company would have normally used. The recurring monthly charges will be designed to recover the additional recurring costs over the requested service period of the Special Facilities Routing in order to allow all rates and charges to expire consecutively. The service period will be specified with each case filing.

(T)

(T)

- a. When an Optional Payment Charge as set forth in 2.6.4.A.3., preceding, has been elected, the recurring monthly charge will be reduced to include specially constructed facility operating expenses only.

(T)

**2. GENERAL REGULATIONS**

(T)

**2.6 LIABILITIES AND CHARGES FOR SPECIAL CONSTRUCTION**

**2.6.4 TYPES OF LIABILITIES AND CHARGES**

**D.1. (Cont'd)**

(T)

- b. If the actual cost option as set forth in 2.6.3, preceding, has been elected, the recurring charge will be adjusted to reflect the actual cost of the new construction when the costs have been determined. This adjusted recurring charge is applicable from the start of service.

(T)

**E. Lease Charge**

(T)

This charge applies when the Company leases equipment in order to meet service requirements. The amount of the charge is equal to the net added cost to the Company caused by the lease.

(T)

(T)

**F. Cancellation Charges**

(T)

If a service order with which special construction is associated is cancelled prior to the start of service, a cancellation charge will apply. The charge will include all nonrecoverable costs incurred by the Company in association with the special construction up to and including the time of cancellation.

(T)

If a service with which special construction recurring monthly charges have been assessed is discontinued prior to the expiration of the service period, a discontinuance charge will apply. The charge will be equal to the total nonrecoverable costs minus the value of the monthly recurring charges attributable to the nonreusable investment.

**2.7 DEFERRAL OF START OF SERVICE**

The Company may be requested to defer the start of service which will use specially constructed facilities subject to the provisions as set forth in the service tariffs under which service is being provided. Requests for special construction deferral must be in writing and are subject to the following regulations:

(T)

**2. GENERAL REGULATIONS**

(T)

**2.7 DEFERRAL OF START OF SERVICE (Cont'd)**

**2.7.1 CONSTRUCTION HAS NOT BEGUN**

If the Company has not incurred any installation costs before receiving a request for deferral, no charge applies.

(T)

**2.7.2 CONSTRUCTION HAS BEGUN**

If the construction of facilities has begun before the Company receives a request for deferral, charges will vary as follows:

(T)

**A. All Services Are Deferred**

(T)

When all services which will use specially constructed facilities are deferred, a charge based on the costs incurred by the Company during each month of the deferral will apply. Those costs include the recurring costs for that portion of the facilities already completed and any other costs associated with the deferral. The cost of any components of the nonrecurring charge which have been completed at the time of deferral will also apply.

(T)

**B. Some Services Are Deferred**

(T)

When some services which will use the specially constructed facilities are deferred, the construction case will be completed and all special construction charges will apply.

**2.7.3 CONSTRUCTION COMPLETE**

If the construction of facilities has been completed before the Company receives a request for deferral, all special construction charges will apply.

(T)

## 2. GENERAL REGULATIONS

(T)

### 2.8 DEFINITIONS

#### Actual Cost

Denotes all costs charged against a specific case of special construction, including any appropriate taxes.

#### Annual Underutilization Liability

Denotes a per unit amount which may be billed annually if fewer services are in use utilizing specially constructed facilities at filed tariff rates that were originally specially constructed.

#### Average Account Life

Denotes the depreciation life prescribed by the Federal Communications Commission for each class of telephone plant.

#### Estimated Cost

Denotes all estimated costs that will be incurred in providing a specific case of special construction, including any appropriate taxes.

#### Facilities

Denotes any cable, poles, conduit, microwave or carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide interstate services offered under the tariffs referenced by this Tariff.

(T)

#### Initial Liability Period

Denotes the initial planning period during which the Customer expects to place specially constructed facilities in service.

Certain material previously found on this page can now be found on Page 2-13.

(Filed under Transmittal No. 575.)

Issued: December 30, 1994

Effective: February 13, 1995

**2. GENERAL REGULATIONS**

(T)

**2.8 DEFINITIONS (Cont'd)**

Installed Cost

(M)

Denotes the total investment (estimated or actual) required by the Company to provide specially constructed facilities.

(T)

(M)

Maximum Termination Liability

Denotes the maximum amount which may be billed if all services using specially constructed facilities are terminated prior to the expiration of the Maximum Termination Liability Period.

(M)

Maximum Termination Liability Period

Denotes the length of time during which a termination charge may apply if all services using specially constructed facilities are terminated. The liability period is 10 years.

The duration of the maximum termination liability period will be specified in the Tariff.

(T)

Net Salvage

Denotes the estimated scrap, sale, or trade-in value, less the estimated cost of removal. Cost of removal includes the costs of demolishing, tearing down, or otherwise disposing of the material and any other applicable costs. Since the cost of removal may exceed salvage value, net salvage may be negative.

Nonrecoverable Cost

Denotes the cost of specially constructed facilities for which the Company has no foreseeable use should the service be terminated.

(T)

Certain material previously found on this page can now be found on Page 2-14.  
Certain material on this page formerly appeared on Page 2-12.

Issued: December 30, 1994

Effective: February 13, 1995

**2. GENERAL REGULATIONS**

(T)

**2.8 DEFINITIONS (Cont'd)**

Normal Construction

(M)

Denotes all facilities the Company would normally use to provide service in the absence of a requirement for special construction.

(T)

(M)

Normal Cost

Denotes the estimated cost to provide services using normal construction.

(M)

Permanent Facilities

Denotes facilities providing service for one month or more.

Recoverable Cost

Denotes the cost of the specially constructed facilities for which the Company has a foreseeable reuse, either in place or elsewhere, should the service be terminated.

(T)

Termination Charge

Denotes the portion of the Maximum Termination Liability that is applied as a nonrecurring charge when all services are discontinued prior to the expiration of the specified liability period.

Effective: February 13, 1995

**2. GENERAL REGULATIONS**

**2.9 RESERVED FOR FUTURE USE**

**3. SPECIAL CONSTRUCTION CASES TRANSFERRED FROM THE MOUNTAIN STATES TELEPHONE AND TELEGRAPH COMPANY TARIFF F.C.C. No. 59, NORTHWESTERN BELL TELEPHONE COMPANY TARIFF F.C.C. No. 45 AND PACIFIC NORTHWEST BELL TELEPHONE COMPANY TARIFF F.C.C. No. 4**

This section contains special construction charges for facilities provided to Other Common Carriers in accordance with The Mountain States Telephone and Telegraph Company Tariff F.C.C. No. 59, Northwestern Bell Telephone Company Tariff F.C.C. No. 45, and Pacific Northwest Bell Telephone Company Tariff F.C.C. No. 4, Facilities for Other Common Carriers, prior to May 25, 1984. These special construction cases are subject to the regulations specified in 2.1 through 2.8, preceding, with the following exception. When the initial liability period expires, an annual underutilization charge applies to the difference between 70% of the number of original specially constructed facilities and the number of facilities in service at filed tariff rates at that time. For purposes of determining the underutilization charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.
