

TRANSMITTAL NO. 1080  
U S WEST COMMUNICATIONS, INC.  
ACCESS SERVICE  
TARIFF F.C.C. NO. 2  
DESCRIPTION AND JUSTIFICATION  
SPECIAL CONSTRUCTION

## INTRODUCTION AND DESCRIPTION

This filing is being made by U S WEST Communications Inc., doing business as U S WEST Communications (USWC) in its Tariff F.C.C. No. 2, Special Construction. This filing adds two new cases in Section 6 of the tariff. The new Special Construction cases are for: (1) the installation of 1,000 feet of protect fiber and 1,000 feet of trenching for one SONET Ring Service (SRS) 44.736 Mbps from the U S West central office located at 710 Mendelssohn Ave N., Golden Valley, MN to the customer's location at 435 Ford Rd., Minneapolis, MN; and (2) the installation of 1,400 feet of buried fiber and 1,400 feet of trenching for one DS3 SHARP Service from the U S WEST central office located at 5857 43rd Ave So., Minneapolis, MN to the customer's location at 1395 Commerce Dr., Mendota Hts., MN.

The cases being added are for facilities constructed to meet the customers' requirements and are subject to Special Construction and liabilities as described in this documentation.

The rates contained in this filing are designed to recover the costs of the additional equipment needed to provide the specialized arrangements that are not recovered in the standard rate element structures and are in addition to standard rate elements charged for services provisioned for USWC's Tariff F.C.C. No. 5.

This document provides the detail for the new cases, cost support and Workpaper(s).

CASE DETAIL

Allied Interstate

Case No. 51

(Reference No. MN9914337)

Description:

Special Construction the installation of 1,000 feet of protect fiber and 1,000 feet of trenching for one SONET Ring Service (SRS) 44.736 Mbps from the U S West central office located at 710 Mendelssohn Ave N., Golden Valley, MN to the customer's location at 435 Ford Rd., Minneapolis, MN. A total charge of \$6,266.28 (which includes a \$570.00 case preparation charge) is due and payable in a one time up-front payment.

CASE DETAIL

Signal Bank

Case No. 52

(Reference No. MN9915481)

Description:

Special Construction for the installation of 1,400 feet of buried fiber and 1,400 feet of trenching for one DS3 SHARP Service from the U S WEST central office located at 5857 43rd Ave So., Minneapolis, MN to the customer's location at 1395 Commerce Dr., Mendota Hts., MN. A total charge of \$8,544.78 (which includes a \$570.00 case preparation charge) is due and payable in a one time up-front payment.

## COST SUPPORT AND WORKPAPERS

### Up-Front Unit Costs

The Up-front unit cost consists of the nonreusable investment associated with this case. This cost was based on the engineering and installation investment to place the facilities and miscellaneous minor material loadings.

Factors were applied to this figure to recover the appropriate annual capital costs associated with the nonreusable investment. Capital costs are covered through factors which when applied to investment, produce the annual costs associated with depreciation, income tax and cost of money.

Depreciation is applied by account code, reflecting the different account lives of the various types of equipment and plant used to provide services. Income tax is the expense associated with taxes that will be incurred on the income earned from this service. The earnings or "cost of money" factor represents the return that USWC must pay to its investors for the use of their capital.

Workpaper A displays the nonreusable total up-front capital cost associated with the investment.

### Nonrecurring Case Preparation Cost

This nonrecurring charge, as displayed on Workpaper A, covers the one-time labor

intensive costs and filing fees associated with this special construction case. The charge consists of labor to perform the following work functions: (1) to prepare Workpapers and explain cost documentation; (2) to develop tariff language and prepare tariff pages; and (3) to coordinate the filing and develop the Description and Justification (D&J).

After the work functions were determined, the work groups and time required for each function were identified. The task time identified was then multiplied by the appropriate labor rate. A sum of these calculations plus the cost of the filing fee produces the nonrecurring case preparation charge.
