

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE  
REGULATIONS AND SCHEDULES OF CHARGES

Applying to interstate service between points

WITHIN THE LATAS OF

BELL ATLANTIC - PENNSYLVANIA, INC.  
BELL ATLANTIC - DELAWARE, INC.

(N)

as hereinafter defined,

to which Interstate IntraLATA Message Telecommunications Service is  
available.

This tariff was originally filed to become effective January 1, 1984, under authority of Special Permission Nos. 83-616 and 83-626 as amended of the Federal Communications Commission.

The effective date of the original tariff was suspended until April 3, 1984 in compliance with a Memorandum Opinion and Order of the Federal Communications Commission, adopted October 18, 1983 and released October 19, 1983.

The effective date was subsequently extended from April 3, 1984 to June 1, 1984 in compliance with the Commission's Memorandum Opinion and Order adopted and released March 28, 1984.

This revised tariff is filed on less than statutory notice in compliance with the Federal Communications Commission's Memorandum Opinion and Order in CC Docket No. 83-1145, Phase II, Part 1, adopted and released May 31, 1984.

Interstate IntraLATA Message Telecommunications Service is furnished by means of wire, radio, or a combination thereof.

The name, title and mailing address of this tariff's Issuing Officer are located on the bottom of Page 1, the Check Sheet.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.1 Undertaking of the Telephone Company

2.1.1 Scope

- (A) Interstate IntraLATA Message Telecommunications Service (IIMTS) is the furnishing of those service components required for telecommunication between stations in different local service areas within the same LATA in accordance with the regulations and system of charges specified in this tariff. The message charges specified in this tariff in this tariff are in payment for Interstate IntraLATA Message Telecommunications Service furnished between the calling and called stations.
- (B) The Telephone Company does not undertake to transmit messages but furnishes the use of its service to its Customers for telecommunications.
- (C) The design, maintenance and operation of Interstate IntraLATA Message Telecommunications Service envisions that communications will originate or terminate at a station of the associated exchange telephone service used for IIMTS.

2.1.2 Availability of Service

- (A) The use and restoration of service shall be in accordance with Part 64 Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.
- (B) Subject to compliance with the above mentioned rules, where a shortage of service components exists at any time either for temporary or protracted periods, the establishment of Interstate IntraLATA Message Telecommunications Service shall take precedence over all other services.
- (C) Service is furnished subject to the availability of the service components required. The Telephone Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.1 Undertaking of the Telephone Company (Cont'd)

2.1.2 Availability of Service (Cont'd)

(D) When connections are made to Customer-provided communications systems at a premises where the Customer does not originate or terminate communications, the Telephone Company may require that the exchange telephone service be furnished from a Telephone Company Central Office(s) different than the Central Office(s) designated by the Telephone Company to serve that premises.

2.1.3 Limitations on Duration of Connections

Telephone Company reserves the right to limit the duration of connection when necessary because of a shortage of service components caused by emergency conditions.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.1 Undertaking of the Telephone Company (Cont'd)

2.1.4 Liability

- (A) In view of the fact that the Customers have exclusive control of their communications over the service furnished by the Telephone Company, and of the other uses for which service may be furnished by the Telephone Company, and because of the unavoidability of errors incident to the use of such services of the Telephone Company, the services furnished by the Telephone Company are subject to the terms, conditions and limitations specified in (B), (C) and (D) following.
- (B) The Telephone Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a Customer or by any others, for damages associated with any aspect of the provision of service (including the failure to reach a called station), and subject to the provisions of (C) through (E) following, the Telephone Company's liability, if any, shall not exceed an amount equal to the initial minute charge applicable for such a message to the called station. This liability shall be in addition to any billing adjustments that may otherwise be appropriate.
- (C) The Customer indemnifies and saves the Telephone Company harmless against claims for libel, slander, or infringement of copyright from the material transmitted over its service; against claims for infringement of patents arising from combining with, or using in connection with, service of the Telephone Company, apparatus and systems of the Customer; and against all other claims arising out of any act or omission of the Customer in connection with service provided by the Telephone Company.
- (D) No carrier participating in this service shall be liable for any act or omission of any other carrier also participating in the service.
- (E) The services furnished by the Telephone Company, in addition to the limitations set forth in 2.1.4 (A) through (D) preceding, also are subject to the following limitation: the Telephone Company shall not be liable for damage arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or other injury, including but not limited to injuries to persons or property from voltages or currents transmitted over the service of the Telephone Company caused by Customer-provided equipment (except where a contributing cause is the malfunctioning of a@ Telephone Company-provided connecting arrangement).

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.2 Use

2.2.1 Use Of Service

The service is provided for use by the Customer and may be used by others, when so authorized by the Customer, providing that all such usage shall be subject to the provisions of this tariff.

Interstate IntraLATA Message Telecommunications Service may be used for non-voice transmission on a two-point basis between points within the same LATA.

Telephone company provided local business exchange service may be used for the purpose of providing access to resold or shared Interstate IntraLATA Message Telecommunications Service according to the tariff regulations respecting resale and sharing contained in the local general services tariffs of the Telephone Company.

2.2.2 Abuse and Fraudulent Use

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- (A) the use of the services of the Telephone Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for services;
- (B) the obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, Interstate IntraLATA Message Telecommunications Service, by rearranging, tampering with, or making connection with any service components of the Telephone Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service;
- (C) the use of the service of the Telephone Company for a call or calls, anonymous or otherwise, if in a manner reasonably expected to frighten, abuse, torment, or harass another;
- (D) the use of profane or obscene language;
- (E) the use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other Customers.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.2 Use

2.2.3 Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

2.3 Obligations of the Customer

2.3.1 The calling parties shall establish their identity in the course of any communication as often as may be necessary.

2.3.2 The calling party shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called station or stations.

2.3.3 Each aggregator (any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using the Telephone Company as its provider of operator services) must be in compliance with the requirements in subsection (c) of the "Telephone Operator Consumer Services Improvement Act of 1990" by adhering to the following guidelines:

(A) Post on or near the telephone instrument, in plain view of the consumer, the following information:

- (1) The name and address of the provider of operator services.
- (2) A written disclosure that the rates for all operator-assisted calls are available on request, and that consumers have a right to obtain access to the interstate common carrier of their choice and may contact their preferred interstate common carrier for information on accessing that carrier's service using that telephone.
- (3) The name and address of the enforcement division of the Common Carrier Bureau of the Commission, to which the consumer may direct complaints regarding operator services.

(B) Ensuring that each of its telephones presubscribed to a provider of operator services allows the customer to use "800" and "950" access code numbers to obtain access to the provider of operator services desired by the consumer.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.3 (Cont'd)

(C) Ensuring that no charge by the aggregator to the consumer for using a "800" or "950" access code number, or any other access code number, is greater than the amount the aggregator charges for calls placed using the presubscribed provider of operator services.

The requirements of paragraph (A) shall not apply to an aggregator in any case in which State law or State regulation requires the aggregator to take actions that are substantially the same as those required in paragraph (A).

For purposes of complying with paragraph (A), following are the Telephone Company's and the F.C.C.'s name and address:

Bell Atlantic - Delaware, Inc.  
P.O. Box 85  
Wilmington, DE 19899  
dial operator

Bell Atlantic - Pennsylvania, Inc.  
P.O. Box 30299  
Philadelphia, PA 19103  
dial Operator

F.C.C. Enforcement Division, CCB  
Room 6202  
Washington, DC 20554

The Telephone Company will assume responsibility for complying with the requirements for posting information on or near its pay telephones located on or near an aggregator's premises.

Access digit may be required (such as dial "9" from a motel) before dialing Operator.

2.4 Payment Arrangements

2.4.1 Payment for Service

The Customer is responsible for payment of all charges for services furnished to the Customer, including charges for services originated or charges accepted at the Customer's station and for charges billed the customer for calling card messages.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.2 Billing and Collection of Charges

The charges for calls and chargeable reports are due when billed and are billed and collected by this Company or the connecting company from whose station the calls were sent paid or at whose station the calls were received collect.

The late payment charge applicable to intrastate services as specified in the Telephone Company's local exchange service tariffs also applies to Interstate IntraLATA Message Telecommunications Service.

2.4.3 Termination of Service for Cause

Upon non-payment of any sum due the Telephone Company, or upon a violation of any of the conditions governing the furnishing of service, the Telephone Company may by notice in writing to the Customer, without incurring any liability, forthwith discontinue the furnishing of said service.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.4 Advance Payments

Applicants for Interstate IntraLATA Message Telecommunications Service, whose financial responsibility is not a matter of general knowledge or who are not connected in a substantial way with a firm, corporation or other concern of established credit, may be required to make an advance payment of at least one month's estimated charges.

2.4.5 Deposits

The Telephone Company may, in order to safeguard its interests, require an applicant or a Customer to deposit a sum up to an amount equal to twice the estimated average monthly charge for usage of interstate intraLATA message telecommunications service offered herein; such deposit to be held by the Telephone Company as a guarantee of the payment of charges provided for herein. The fact that a deposit has been made in no way relieves the applicant or Customer from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the service is terminated the amount of the deposit is credited to the Customer's account and any credit balance which may remain is refunded. At the option of the Telephone Company such a deposit may be refunded or credited to the Customer at any time prior to termination of the service.

In case of a cash deposit, for the period the deposit is held by the Telephone Company, the Customer will receive simple interest at the rate of 9% per annum, unless a different rate has been established by the appropriate legal authority within the state.

2.4.6 Monetary Units

- (A) In the case of service from vessels or aircraft of United States registry, the charges shown in this tariff for such service are quoted by the vessel in United States dollars.
- (B) In the case of service from vessels or aircraft registered in countries other than the United States, the charges are quoted in United States dollars or are converted into the currency of the country of registry at rates of exchange with respect to United States dollars, which may vary from time to time because of changes in monetary and other conditions.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.5 Definitions

Bill to Third Party

The term "Bill to Third Party" denotes a billing arrangement by which a call may be charged to an authorized station as determined by the Telephone Company other than the station originating the call or the station where the call is terminated.

Call Forwarding

Call forwarding denotes that feature whereby a call placed to a Customer's telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company central office equipment to a station designated by said Customer in another exchange.

Calling Card

The term "Calling Card" denotes a credit/charge card for use in billing IIMTS calls.

Collect Call

The term "Collect Call" denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called station. A collect call may be billed to a Calling Card or third party number. In the case of a public or semi-public coin telephone the charges must be billed to a Calling Card or third party number, or the call may be reoriginated from the called station.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.5 Definitions (Cont'd)

Communications System

The term "Communications System" denotes channels and other facilities which are capable, when not connected to Interstate IntraLATA Message Telecommunications Service, of communications between Customer-provided terminal equipment or Telephone Company stations.

Credit Card

See Calling Card

Customer

The term "Customer" denotes the person, firm or corporation responsible for the payment of charges and compliance with the regulations of the Telephone Company.

Customer Dialed Calling Card Station

The term "Customer Dialed Calling Card Station" denotes that service where the person originating the call dials prescribed numbers in order to complete the message without operator assistance (unless it is necessary to record the originator's calling card number), and the message is billed to a calling card number.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

2. REGULATIONS (Cont'd)

2.5 Definitions (Cont'd)

Customer-Provided Terminal Equipment

The term "Customer-Provided Terminal Equipment" denotes devices or apparatus and their associated wiring, provided by a Customer, which do not constitute a multiline terminating system or a communications system and which, when connected to the communications path of the telecommunications network, are connected either electrically, acoustically or inductively.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

2.5 Definitions (Cont'd)

Dial Station

The term "Dial Station" denotes that service where the person originating the call dials the telephone number desired, completes the message without the assistance of an operator and the message is billed to the originating number.

Dial Station-to-Station

(See Dial Station)

Exchange

The term "Exchange" denotes a unit generally smaller than a local access and transport area, established by the Telephone Company for the administration of communications service in a specified area which usually embraces a city, town or village and its environs. It consists of one or more central offices together with the associated facilities used in furnishing communications service within that area. One or more designated exchanges comprise a given local access and transport area.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

2. REGULATIONS (Cont'd)

2.5 Definitions (Cont'd)

Initial and Additional Minute

The term "Initial Minute" denotes the interval of time allowed at the rate quoted for a connection between given points.

The term "Additional Minute" denotes the unit of time used for measuring and charging for time in excess of the initial minute.

Interstate IntraLATA Message Telecommunications Service (IIMTS)

The term Interstate IntraLATA Message Telecommunications Service applies to service between points in different states which are in the same Local Access and Transport Area.

Local Access and Transport Area (LATA)

The term "Local Access and Transport Area" denotes a geographic area established for the provision and administration of communications service. It encompasses one or more designated exchanges which are grouped to serve common social, economic and other purposes.

Main Billed Account

The local exchange telephone number(s) associated with a customer name and address and to which IIMTS charges are billed.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

2.5 Definitions (Cont'd)

Multiline Terminating System

The term "Multiline Terminating System" denotes switching equipment (e.g., PBX, Centrex, ACD, tandem switching equipment) and key telephone type systems which are capable of terminating more than one local central office line, WATS access line, private line service or communications system.

Operator Station

The term "Operator Station" denotes Station-to-Station service other than Dial Station service or Customer Dialed Calling Card Station service.

Operator Station-to-Station

2.6 Connections

2.6.1 General

Equipment and Systems (i.e., terminal equipment, multiline terminating systems and communications systems) may be connected with Interstate IntraLATA Message Telecommunications Service furnished by the Telephone Company where such connection is made in accordance with the provisions specified in Technical Reference Publication AS No. 1 and in 2.1 through 2.4 preceding.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.7 RATE DETERMINATION

The rate for an IIMTS call is determined by factors such as:

- distance between rate centers
- time of day and day of week
- duration of call
- class of service

The specific factors which apply to a given IIMTS call and their application are listed in the rate section applicable to that type of call. The regulations pertaining to those factors are as follows:

2.7.1 Distance Between Stations

- (A) The distance between two points within the LATA is measured on the basis of airline mileage between rate centers as described in 3.1.

2.7.2 Time of Day and Day of Week

The rate charged is determined by the day and time (standard or daylight savings) at the rate center of the calling station.

2.7.3 Class of Service

For the purpose of rate application, one of the following classes of service may apply to a given call:

(A) Station-to-Station

There are three types of station-to-station calls:

- (1) The Dial Station class of service applies when the person originating the call dials the telephone number desired without the assistance of an operator and the call is billed to the calling station. It does not include calls from public or semi-public coin telephones. Dial station rates also apply when:
  - (a) An operator records the calling station number where no automatic recording equipment is available.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.7 RATE DETERMINATION (Cont'd)

2.7.3 Class of Service (Cont'd)

(A) Station-to-Station (Cont'd)

(1) (Cont'd)

- (b) A call is placed from a dormitory station and an operator records a special identification number issued by the Telephone Company for billing purposes to students of colleges or universities. The calling station must be equipped with Dormitory Centrex Service or with a PBX equipped with Direct Inward Dialing and Automatic Identified Outward Dial service.
- (c) A call is forwarded by Call Forwarding equipment.
- (d) An operator reaches the called station because of trouble on the network.
- (e) An operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap.
- (f) An operator reestablishes a Dial station call that has been interrupted after the called station has been reached.
- (g) Calls are originated from vessels which have an assigned Telephone Company Marine Identification Number (MIN).
- (h) An operator places a call because service components are not available for dial completion.

- (2) The Operator Station class of service applies when calls are completed with the assistance of an operator except as specified for the Dial Station and Customer Dialed Calling Card Station classes of service. Operator Station service includes messages originated at a public or semi-public coin telephone.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.7 RATE DETERMINATION (Cont'd)

2.7.3 Class of Service (Cont'd)

(A) Station-to-Station (Cont'd)

(3) The Customer Dialed Calling card Station class of service applies when the person originating the call:

- (a) dials the digit zero, plus the telephone number, plus a calling card number (where equipment is available) to complete the call without operator assistance, or
- (b) dials the digit zero, plus the telephone number (0 + number) to complete the call. In such cases operator assistance is limited to recording the calling card number for billing purposes or
- (c) dials the operator and places a calling card station-to-station call when equipment capability precludes either of the foregoing.

(B) Person-to-Person

The Person-to-Person class of service applies when the person originating the call specifies the particular party to be reached by an operator. That party may be:

- (1) A person.
- (2) A mobile station through a Miscellaneous Common carrier attendant.
- (3) A station, department, or office through a PBX attendant.

After the called station has been reached, if the calling party requests or agrees to speak to a party other than the party initially specified, the call is still classified as Person-to-Person. The calling party is responsible for identifying the party at the called station.

Person-to-Person also applies when the call originator requests an operator to make arrangements with a called party to establish a call at a specified time.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.7 RATE DETERMINATION (Cont'd)

2.7.4 Timing of Messages

Chargeable time includes the initial period plus the additional period if any, and is determined as follows:

- (A) When a message is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the message occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.
- (B) On Station-to-Station messages, chargeable time begins when connection is established between the calling station and the called station.
- (C) On Person-to-Person messages, chargeable time begins when connection is established between the calling person and a specified person, station, department, office or an agreed-upon alternative.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. REGULATIONS (Cont'd)

2.7 RATE DETERMINATION (Cont'd)

2.7.4 Timing of Messages (Cont'd)

- (D) Chargeable time ends when the calling station "hangs up". If the called station "hangs up" but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the operator.
- (E) Chargeable time does not include time lost because of service faults or defects that are reported to the Telephone Company.
- (F) When exchange telephone service used for Interstate IntraLATA Message Telecommunications Service is directly connected (i.e., not connected through a Multiline Terminating System) at a Customer's premises to a communications system, chargeable time for all classes of service begins when a call from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(A) Application

Service between two points in the LATA is furnished as set forth in 3.1(B) and 3.1(C) following.

Service between three or more points (Conference Service) is furnished as set forth in 4.1 following.

(B) Mileage Measurement

(1) Mileage Determination

Airline mileages between rate centers are determined as provided following.

In general, each point in the LATA is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest and in a few of the largest cities there are several rate centers further identified as city zones.

(a) Where a Point is Divided into City Zones

- the rate airline mileage is measured between the rate center of the city zone and the rate center of the other point, except that when such mileage exceeds 40 miles, the rate airline mileage is measured between the rate center of the master zone and the rate center of the other point with a minimum of 41 miles being applicable.

(b) Where Both Points are Divided into City Zones

- the rate airline mileage is measured between the rate centers of the city zones, except that when such mileage exceeds 40 miles, the rate mileage distance is measured between the rate centers of the master zone with a minimum of 41 miles being applicable.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(B) Mileage Measurement (Cont'd)

(1) Mileage Determination (Cont'd)

- (c) The rate centers in this tariff are arranged alphabetically by rate center within the LATAs.
- (d) The columns headed "V" and "H" contain the vertical and horizontal coordinates for each rate center.
- (e) For the purpose of determining airline mileages, vertical and horizontal grid lines have been established across the states. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map-projection equations. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed between their respective coordinate intersections as explained following.
- (f) To determine the rate distance between any two rate centers proceed as follows:
  - (i) Obtain the "V" and "H" coordinates for each rate center.
  - (ii) Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(B) Mileage Measurement (Cont'd)

(1) Mileage Determination (Cont'd)

(f) (Cont'd)

(iii) Divide each of the differences obtained in (ii) by three, rounding each quotient to the nearer integer.

(iv) Square these two integers and add the two squares.

If the sum of the squares is greater than 1777, divide the integers obtained in (iii) by three and repeat step (iv). Repeat this process until the sum of the squares obtained in (iv) is less than 1778.

(v) The number of successive divisions by three in steps (iii) and (iv) determines the value of "N". Multiply the final sum of the two squares obtained in step (iv) by the multiplier specified in the following table for this value of "N" preceding:

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121

(vi) Obtain square root of product in (v) and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in (v) preceding, the minimum rate mileage corresponding to the "N" value is applicable.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(B) Mileage Measurement (Cont'd)

(1) Mileage Determination (Cont'd)

(f) (Cont'd)

(vi) (Cont'd)

Example:

The message rate distance is required between  
Wilmington, Delaware, and Philadelphia, Zone 1  
Pennsylvania

	<u>V</u>	<u>H</u>
Wilmington	5326	1485
Philadelphia	<u>5251</u>	<u>1458</u>
difference	75	27

dividing each difference by three and rounding  
to nearer integer = 25 and 9

squaring integers and adding,	25 x 25 = 625
	9 x 9 = 81
sum of squared integers	<u>706</u>

Multiply final sum of squared integers	706
by factor 0.9 (corresponding to "N" = 1) x 0.9	
	<u>= 635.4</u>

Square root of 635.4 = 25 and a fraction,  
which is rounded up to 26 miles (fractions  
being considered whole miles). The message  
rate mileage is 26 miles.

(\*) This page in its entirety is being filed under authority of Special  
Permission No. 94-356 of the Federal Communications Commission.

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(B) Mileage Measurement (Cont'd)

(7) Rate Determination - Schedule I

Rates applicable for the mileage obtained are as provided in (C)(7)(a) following.

(C) Rate and Charge Application

(1)

(2) Classes of Service

(a) Service is offered on a Dial Station, Customer Dialed Calling Card Station, Operator Station or Person-to-Person basis.

(b) In order to control fraud, the Company may refuse to accept Calling Cards which it determines to be invalid and/or may limit the use of Calling Cards to or from or part of the LATA.

(3) Initial Minute, Additional Minutes and Service Charges

Rates are stated in terms of initial minute, additional minutes and service charges in the Rate Table in (7), following.

(a) Initial Minute

Initial minute rates are for connections of one minute or any fraction thereof.

(b) Additional Minutes

Additional minute rates are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

(c) Dial Station

Only initial minute and additional minute rates apply.

(d) Customer Dialed Calling Card Station, Operator Station and Person-to-Person

Initial minute and additional minute rates apply in addition to a Service Charge.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(C) Rate and Charge Application (Cont'd)

(3) Initial Minute, Additional Minutes and Service Charges  
(Cont'd)

(e) Service Charge

A Service Charge applies to each Customer Dialed Calling Card Station, Operator Station or Person-to-Person call. This charge is added to the initial minute and additional minute charges.

(i) Discounts do not apply to the Service Charge.

(f) Rate Periods

Day Rate Period is in effect Monday through Friday  
8:00 AM - 5:00 PM)

Evening Rate Period is in effect Monday through  
Friday and Sunday (5:00 PM - 11:00 PM)

Night and Weekend rate period is in effect at all  
other times.

These rate periods are depicted on a charge  
illustrated in 3.1 (C)(7) following.

(4) Rates Applicable for Hearing or Speech Impaired

(a) Application

Persons who have been certified in writing by a licensed physician, audiologist, speech pathologist, or appropriate State or Federal agency as having a hearing or speech impairment which precludes oral communications and who have and use a telecommunications device for visual communications, will receive a day and evening adjustment on Directly Dialed Station-to-Station calls which do not require the intervention of an operator. The adjustment is applied to the rate table in (7) according to the following:

(\*) This page in its entirety is being filed under authority of Special  
Permission No. 94-356 of the Federal Communications Commission.

(This page filed under Transmittal No. 641)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(C) Rate and Charge Application (Cont'd)

(4) Rates Applicable for Hearing or Speech Impaired Persons  
(Cont'd)

(a) Application (Cont'd)

(i) Calls placed during the day rate period will be charged at the evening rate.

(ii) Calls placed during the evening rate period will be charged at the night rate.

(b) Certification

The written certification of the speech or hearing impairment must be presented to the Telephone Company Business Office which serves the residence of the certified person.

The Telephone Company Business Office, upon request, will provide a certification form for use by the applicant.

(c) Limitations

The adjustment is provided for use by the speech or hearing impaired Customer. It is only applicable to IIMTS charges for calls originated from and billed to the telephone exchange service of the residence of the certified speech or hearing impaired person.

The adjustment is applicable to only one telephone exchange service for a person or at a residence.

(5) Reversal of Charges (Collect Calls)

Collect calls are permissible for all Interstate IntraLATA telephone calls except messages to which Dial Station rates apply.

The regularly established Operator station or Person-to-Person rates apply.

(6) Rates Applicable on Certain Holidays

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the rate applicable is the Evening rate, unless a lower rate would normally apply.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(8) Charges Paid for by Coin Deposits in a Public or Semi-Public Coin Telephone

The charge for a call paid for by coin deposit in a public or semi-public coin telephone is the sum, rounded to the nearer multiple of \$.05, of the appropriate initial period rate and additional minute charges.

(X) Issued under authority of the Federal Communications Commission's Fifth Report and Order, FCC No. 99-206, released August 27, 1999, to remove rate elements from the Price Caps Interexchange Services basket.

(This page filed under Transmittal No. 1198)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(C) Rate and Charge Application (Cont'd)

(9) Call Forwarding

Charges

The charges for forwarded calls may be comprised of three charges: two separate message charges; (i) a charge for that portion of the call from the originating station to the call forwarding location, if applicable, (ii) the Dial Station charge for that portion of the call from the call forwarding location to the terminating station designated by the Customer, and (iii) a monthly and a nonrecurring charge for Call Forwarding or Remote Call Forwarding provided by the Telephone Company as set forth in the Telephone Company's local general services tariffs.

The respective charge for each such portion (i), (ii), shall be either the rate specified in this tariff or the rate specified in the local general services tariffs or the intrastate message telecommunications service tariff of the Telephone Company, which is applicable for the type of call involved in each portion of the forwarded call.

On a Person-to-Person, Operator Station or Customer Dialed Calling Card Station call other than collect, the originating subscriber is charged the respective Person-to-Person, Operator Station or Customer Dialed Calling Card Station rate for the portion covered in (i) preceding. The charge for the portion of the call described in (ii) preceding is the Dial Station rate and charged to the call forwarding Customer.

On a collect call placed to a call forwarding directory number, the collect charges apply to the portion of the call between the rate center of the originating number and the rate center of the call forwarding location, but the portion between the rate center of the call forwarding location and the terminating rate center of the Customer will be billed at the Dial Station rate.

On a Person-to-Person or collect call that is not accepted the terminating subscriber will be charged the Dial Station rate in effect for the portion of the call described in (ii) preceding.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)

(D) Promotional Offerings

A Promotional offering is a special arrangement presented to prospective Customers as an inducement to use a Telephone Company service. The offering will be limited to certain dates, times and/or locations. The specific terms and conditions applicable to each Promotional Offering will be filed through the use of a supplement to this tariff no later than 10 days after the end of the month in which a promotional offering takes place.

(E) Directory Assistance Charge

Applies to all calls made from points within the LATA to interstate intraLATA Directory Assistance. Up to two requests may be made on each call to Directory Assistance. The Directory Assistance Charge applies whether or not the Directory Assistance bureau furnished the requested telephone number(s) (e.g., where the requested telephone number is unlisted, non-published or no record can be found). Directory Assistance personnel cannot complete a call to a requested telephone number. A Complimentary Call Allowance may apply as specified in (2) following.

Operator Service Charges (i.e., Operator Station, Customer Dialed Calling Card Station) do not apply to calls to Directory Assistance. Person-to-Person or Collect Calls to Directory Assistance are not permitted.

(1) Rate

per call - \$ .60

(2) Complimentary Call Allowance

Directory Assistance Customers will be entitled to up to two free Directory Assistance calls per billing period for each main billed account when at least the same number of IIMTS calls provided by this Company are also billed to that main billed account during that billing period. Calls to Directory Assistance, or IIMTS calls originated at a public or semi-public coin phone for which the charges are paid by depositing coins, or IIMTS calls originated at and charged to a hotel, motel, or hospital guest extension are not counted for purposes of determining the Complimentary Call Allowance. The Complimentary Call Allowance will be determined at the end of the billing period and will be applied to the Customer's bill for that billing period.

(E) Directory Assistance Charge (Cont'd)

(2) Complimentary Call Allowance (Cont'd)

A Complimentary call cannot be carried forward for application to the next bill or applied retroactively to a previous bill.

(3) Handicapped Exemption

Charges for Interstate Directory Assistance Service are not applicable to handicapped customers on the following types of D.A. calls:

calls placed from residence dial tone lines where a member of the customer's household has been certified by a registered physician or a designated agency as unable to use a directory because of a visual or physical handicap, or from the business dial tone line of a certified handicapped customer where assistance is otherwise not available.

(4) Credit

A credit will be given for calls to Directory Assistance when:

- the Customer experiences poor transmission or is cut-off during the call,
- the Customer is given an incorrect telephone number, or
- the Customer inadvertently misdials (e.g. the caller dialed 301-555-1212 when they intended to dial 302-555-1212).

To receive the credit, the Customer must notify a Company operator or Business Office of the problem experienced.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service (Cont'd)

(F) Optional Calling Plans

(1) Consumer Opportunity Savings Plan

This Optional Calling Plan is available only as a combined Interstate IntraLATA and Intrastate IntraLATA service. The minimum payment period for this plan is one month.

The Optional Calling Plan is available only to Residence customers in Delaware and Pennsylvania who have selected Bell Atlantic as their IntraLATA toll provider. In Pennsylvania, this plan is only available from the effective date of this service to February 15, 1995. This plan allows a participating customer the option of obtaining special rates for all Dial Station calls. Customers choosing to participate in this service must call their local Residence Service Center.

(C)  
|  
|  
(C)

When the customer's total direct dialed toll usage (Interstate IntraLATA, Intrastate IntraLATA) revenue reaches a level of \$20.00 or more during a monthly billing period, a 20% discount will be applied to the customer's total direct Dial Station toll usage.

The 20% discount as specified in this tariff will only apply to the customer's Interstate IntraLATA usage. For example, a customer's total direct dialed toll usage (Interstate IntraLATA, Intrastate IntraLATA) is \$60.00 for a given thirty day billing period. \$40.00 of usage is Interstate IntraLATA and \$20.00 of usage is Intrastate IntraLATA. The 20% discount will be applied to the \$40.00 Interstate IntraLATA usage for that thirty day billing period.

This optional calling plan applies to all Residence lines associated with a Main Billing Account. Usage from all Residence lines will be accumulated and billed as if a multiline Customer were a single account.

Residence customers who subscribe to the Consumer Opportunity Savings Plan are not eligible to enroll in Sensible Minute, either on the same line, or on an account where multiple lines are billed together.

(N)

(1) Consumer Opportunity Savings Plan (Cont'd)

For billing purposes each month is considered to have 30 days. When the date that this optional calling plan is subscribed to, changed or discontinued does not coincide with the billing date, charges which are based upon monthly rates will be calculated to reflect the fractional part of the month service is provided. That total will then be discounted 20% to determine the charge to the customer.

Types of calls excluded from this optional calling plan include:

- Conference Service calls
- Operator dialed calling card station, Operator station, Person-to-Person, Collect, Third Number Billed, or other calls requiring operator handling
- 900 and 700 Service calls
- 976 Service calls
- Directory Assistance
- Connect Request
- Busy Line Verification
- Time of Day (0)
- Emergency Interrupt
- Measured Local Use Calls
- Local Calling Card Calls
- Toll Calling Card Calls
- Handicap Dual Party Relay

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service (Cont'd)

(F) Optional Calling Plans (Cont'd)

(2) Key Connections Business Volume Discount Calling Plan

This Business Volume Discount Calling Plan gives a participating customer the option of obtaining a discount for all Bell Atlantic direct dialed station-to-station toll calls. This plan is only available as a combined Interstate IntraLATA, Intrastate IntraLATA, and Intrastate IntraLATA and Interstate IntraLATA Intelligent Toll Free service and is only available to business customers in Pennsylvania and Delaware. Customers must request this service from Bell Atlantic. (C)

Customers may elect to have their direct dialed station-to-station toll usage billed in initial 30 second and additional 6-second increments. The participating customers' usage will be billed based on the usage schedule as specified on page 52.4 following. In addition, customers electing to participate in this plan will be eligible for the following usage discounts based on the combined Bell Atlantic Interstate IntraLATA, Intrastate IntraLATA, as well as Intrastate IntraLATA and Interstate IntraLATA Intelligent Toll Free usage: (C)

<u>Customer Usage Revenue - per Billing Telephone Number</u>	<u>Applied Discount</u>	
\$0 - \$49.99	0%	
\$50.00 - \$199.99	2%	
\$200.00 - \$349.99	5%	
\$350.00 - \$499.99	8%	
\$500.00 and over	10%	(C)

The customer discount as specified in this tariff will apply only to the customer's Interstate IntraLATA usage. For example, if a customer's total direct dialed toll usage (Interstate IntraLATA service, Intrastate IntraLATA service, Intrastate IntraLATA and Interstate IntraLATA Intelligent Toll Free service is \$2,000.00 for a given thirty day billing period, and \$600.00 of usage is Interstate IntraLATA, \$300.00 of usage is Intrastate IntraLATA, \$600.00 of usage is Intrastate IntraLATA Intelligent Toll Free service, \$500.00 is Interstate IntraLATA Intelligent Toll Free usage, the 10% discount will be applied to the \$1,100.00 combined Interstate IntraLATA usage for that thirty day billing period. (C)

This optional calling plan applies to all business lines associated with the customer's Billing Telephone Number.

Usage from all business lines will be accumulated and billed as if a multiline customer were a single account.

For billing purposes, each month is considered to have 30 days. When the date that this discount calling plan is subscribed to, changed, or discontinued does not coincide with the billing date, that total usage will then be discounted based on the customer's actual usage to determine the charge to the customer.

(F) Optional Calling Plans (Cont'd)

(3) Sensible Minute<sup>sm</sup> Calling Plan

(N)

(a) General

Sensible Minute is an optional calling plan for residence customers that provides an alternate rate treatment for customer-dialed Interstate IntraLATA unassisted toll calls. Customers enrolling in this plan will be billed at the rates shown in Section 3.1(F)(3)(d) following in lieu of the regular residence MTS rate schedule.

(b) Service Description

Sensible Minute is available only as a combined Interstate IntraLATA and Intrastate IntraLATA service. This plan is available only to residence Dial Tone Line customers in Delaware and Pennsylvania where the customer has selected Bell Atlantic as its IntraLATA Toll Provider (ITP) and affirmatively enrolled in the plan. If the customer changes its ITP on a Dial Tone Line, which has been equipped with Sensible Minute, the Telephone Company will remove the Sensible Minute option from that line.

Customers enrolled in the Intrastate IntraLATA Sensible Minute plan will automatically be enrolled in the Interstate IntraLATA plan.

There are no applicable enrollment charges or charges for discontinuing the Sensible Minute plan.

Eligible IntraLATA toll calls are those which are customer-dialed and completed without the assistance of a Bell Atlantic operator.

Residence customers who subscribe to Sensible Minute are not eligible to enroll in the Consumer Opportunity Savings Plan, either on the same line, or on an account where multiple lines are billed together.

Sensible Minute calls are detailed on customer bills.

Cellular calls, Repeat Dialing and \*69 per use-rated calls or calls to 976/915/900/700 are not eligible toll calls under the Sensible Minute plan.

(4) SoundDeal and SoundDeal Plus Service Plans

(C)

(a) General

SoundDeal and SoundDeal Plus are optional service plans for residence customers. The SoundDeal service plan applies for residence customers in Delaware; and the SoundDeal Plus service plan applies for residence customers in Pennsylvania. These service plans provide local exchange services, Interstate and Intrastate IntraLATA toll usage, and the choice of available Intrastate optional central office service features for one flat monthly rate.

(C)

(C)

Residential customers in Delaware who have selected the SoundDeal service plan will automatically have the first 300 minutes of their Interstate IntraLATA usage included and will be charged at the rates contained herein and in Bell Atlantic-Delaware, Inc. Guide for Detariffed Services-Competitive, Section 30L in lieu of the regular residence MTS rate schedule.

(N)

(X)

(X)

(N)

Residential customers in Pennsylvania who have selected the SoundDeal Plus service plan will automatically have the first 1,000 minutes of their Interstate IntraLATA usage included and will be charged at the rates contained herein and in Bell Atlantic-Pennsylvania, Inc. (G) Bell Atlantic Prepaid Calling Card Service (T)

General

Bell Atlantic Prepaid Calling Card Service provides additional (T)  
payment options to customers who need to make calls within and (T)  
outside of the Bell Atlantic LATAs. The prepaid Card will be (T)  
used for toll calls and can be used at any phone with touch  
tone capabilities. Customers will be able to purchase the (T)  
prepaid Card from various retail outlets throughout the Bell  
Atlantic region. All InterLATA toll calls will be carried by  
the selected Interexchange Carrier ("IXC"). Bell Atlantic  
will negotiate in a nondiscriminatory manner with all IXCs who  
wish to provide service for calls made using the Bell Atlantic (T)  
Prepaid Calling Card Service. The prepaid Card will be (T)  
available in \$5, \$10, and \$20 denominations.

Service Description

In order to activate the prepaid Card, customers should refer (T)  
to the set of instructions contained on each card purchased.  
The customer will be instructed to dial a designated 800  
number, the specified card authorization code found on the  
card, and the desired telephone number. Voice prompts will  
instruct the customer if any of the numbers entered are  
invalid. Once the system confirms that all of the numbers are  
valid, the call will be processed. At the start of the call,  
the customer will be advised of the time available on the  
card. The time available on the card will decrease  
automatically during the call at the established rate per  
minute. The customer will be given a "one minute warning"  
indicator that the card is only valid for approximately one  
additional minute. Customers can combine minutes from  
partially used cards to ensure that the entire value of the  
card is consumed. The call will be terminated when the value  
of the card is exhausted. At that time, customers may choose  
to end the call or elect to combine the value of partially  
used cards to continue the call. Voice prompts will instruct  
the customer as to the proper method of combining cards.

The rate for the Bell Atlantic Prepaid Calling Card Service (T)  
will apply to all applicable minutes regardless of the time of  
the call.

Rates and Charges

Bell Atlantic Prepaid Calling Card Service (T)

(H) Bell Atlantic Calling Card Credit

The Calling Card Credit service allows a participating customer the option of obtaining credits for calls made using the Bell Atlantic Calling Card. This service is available to all Delaware and Pennsylvania residential customers who respond to a direct mail piece or who request to participate by contacting their Residence Service Center.

Customers who qualify will receive a credit for Calling Card calls placed over the Bell Atlantic network. Customers will receive a dollar credit equal to billed charges on their Calling Card calls up to the maximum shown below. (C)

A qualifying customer is any customer with residential service in the Delaware and Pennsylvania serving area who elects to request this service, obtains or has a Bell Atlantic Calling Card, and uses the Bell Atlantic Calling Card to complete at least one Interstate IntraLATA toll call over Bell Atlantic's network during the service period.

This credit offer is based on total usage charges, both interstate and intrastate intraLATA MTS, except where an intrastate tariff provides for such a credit offer, in which case the intrastate usage will be applied to the intrastate offer for purposes of applying a credit.

	<u>Maximum Applicable Credit</u>	(C)
Delaware	\$5.47	
Pennsylvania	\$6.22	

This offering expires July 31, 1996. (C)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service (Cont'd)

(I) Intelligent Toll Free Service (S)

General Regulations

(1) Intelligent Toll Free Service Description (S)

Intelligent Toll Free Service is an intraLATA service that (C)(X)  
provides the customer with a Toll Free telephone number and (S)  
the ability to receive incoming calls over a facility  
associated with a ten-digit local exchange access number, (S)  
which is located within the same LATA as the customer in the (C)(X)  
States of Delaware and Pennsylvania. When a call is made to (S)  
the toll free number, the originating end office switch sends  
a network query to a special database that links the toll  
free number to its local exchange access line number.

Each Intelligent Toll Free Service telephone number will be  
arranged to receive interstate intraLATA calls, which will be  
provided by the Telephone Company.

The three types of Intelligent Toll Free Services are:

- (a) Intelligent Toll Free Standard Service where service is  
provided via a usage bulk billing arrangement.
- (b) Intelligent Toll Free Basic Service where service is  
provided via a usage per message billing arrangement.
- (c) Intelligent Toll Free Key Connections Service where  
service is provided via a discounted usage per message  
billing arrangement. Customers subscribing to  
Intelligent Toll Free Key Connections Service must also  
subscribe to the Key Connections Volume Discount Calling  
Plan as specified in section 3.1(I)(2) preceding.

Each Intelligent Toll Free Service telephone number must be  
associated with a unique terminating seven-digit telephone  
number obtained by the customer. Interstate intraLATA calls  
terminating to a Intelligent Toll Free Service telephone  
number are subject to the terms and conditions of this  
tariff.

(2) Availability of Service

The provision of service under this tariff is subject to the  
availability of the required facilities in the Telephone  
Company's central office. (S)

- (S) Reissued material scheduled to become effective February 24, 1998.  
(X) Filed under authority of Special Permission No. 98-40 of the Federal  
Communications Commission.

(6) Termination Liability

If Intelligent Toll Free Basic Service is disconnected within six months from the date of connection, a termination charge as specified in section 3.1(I)(2) following will be assessed. If the Intelligent Toll Free Basic number is being moved to the Intelligent Toll Free Standard Service or to the Intelligent Toll Free Service option of the Key Connections Optional Calling plan, the termination charge does not apply.

(S)  
(C)(X)  
(S)

Rate Regulations

(1) Minimum Average Time Requirement

(a) Intelligent Toll Free Standard Service

Minimum usage charges are based on an average of 30 seconds per completed call for each billing period. This means that if the average duration per call during any billing cycle is less than 30 seconds, billing will be based on an average of 30 seconds per call.

(b) Intelligent Toll Free Basic Service

Minimum usage charges apply to individual messages during a billing period. If the charge per message does not result in whole cents, charges will be rounded to the nearest penny when the bill is rendered.

1. Initial Period

The initial period for telephone connections is 30 seconds or fraction thereof.

(S)

Rate Regulations (Cont'd)

(1) Minimum Average Time Requirement (Cont'd)

(b) Intelligent Toll Free Basic Service (Cont'd)

2. Additional Period

The additional period for telephone connections is 6 seconds or fraction thereof.

(2) Method of Determining Usage Charges for Intelligent Toll Free Standard Service Calls

(a) Determine the total number of calls for each Intelligent Toll Free Standard telephone number separately.

(b) Determine minimum chargeable hours by multiplying the number of calls by the minimum average time requirement of 30 seconds (1 call = 30 seconds).

(c) Determine the total actual hours used.

(d) Determine the number of chargeable hours, which is the greater of (2) or (3) above, rounded to the nearest hundredth (two decimal places).

(e) Determine usage charges by multiplying the hourly rate in the appropriate taper(s) by the number of chargeable hours used in each taper and totaling these charges.

(3) Method of Determining Usage Charges for Intelligent Toll Free Basic Service Calls and Intelligent Toll Free Key Connections Service Calls

The rate for the initial period is applied for each message.

Plus for the duration of the message, the rate for an additional period is applied for each increment of 6 seconds beyond the initial 30-second period.

Rate Regulations (Cont'd)

(5) Timing of Calls

Chargeable time begins when the connection is established between a station associated with the Intelligent Toll Free telephone number and the calling station, and ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.

Rates and Charges

Usage Charges

(1) Intelligent Toll Free Standard Service

The hourly rates apply to the usage per Toll Free telephone number.

Hours of Use	Standard Rate Per Hour		
	PA	DE	
0-20 Hours	\$11.50	\$ 7.00	(X)
Over 20 Hours	9.80	6.00	(X)

(2) Intelligent Toll Free Basic Service

The per message rates apply to usage per Toll Free telephone number.

Initial 30-seconds or fraction thereof

Day	\$ .10	(X)
Evening	\$ .10	(X)
Night/Weekend	\$ .10	(X)

Additional 6-seconds or fraction thereof

Day	\$ .02	(X)
Evening	\$ .02	(X)
Night/Weekend	\$ .02	(X)

Termination Liability

If Intelligent Toll Free Basic Service is disconnected within six months from the date of connection, a one-time standard flat charge of \$40.00 will be assessed. If the Intelligent Toll Free Basic number is being moved to the Intelligent Toll Free Standard Service or to the Intelligent Toll Free Service Option of the Key Connections Optional Calling Plan, the one-time standard flat charge of \$40.00 does not apply.

(3) Intelligent Toll Free Service - Key Connections

The per message rates apply to usage per Toll Free telephone number.

Mileage	Initial 30 Seconds			Additional 6 Seconds			
	Day	Evening	Night/Weekend	Day	Evening	Night/Weekend	
01-10	\$.060	\$.060	\$.060	\$.012	\$.012	\$.012	(X)
11-22	\$.060	\$.060	\$.060	\$.012	\$.012	\$.012	
23-55	\$.060	\$.060	\$.060	\$.012	\$.012	\$.012	
56-124	\$.060	\$.060	\$.060	\$.012	\$.012	\$.012	
125-292	\$.060	\$.060	\$.060	\$.012	\$.012	\$.012	(X)

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service (Cont'd)

(J) Dedicated Toll Free Service (S)

(1) Dedicated Toll Free Service Description (T)(S)

Dedicated Toll Free Service is an intraLATA service that (C)(X)  
provides the customer with a Toll Free telephone number and (S)  
the ability to receive incoming calls over a facility (S)  
associated with a ten-digit local exchange access number, (S)  
which is located within the same LATA as the customer in the (C)(X)  
States of Pennsylvania and Delaware. When a call is made to (S)  
the toll free number, the originating end office switch sends  
a network query to a special database that directly links the  
Toll Free number to a designated access line located on the  
customer's premises which is dedicated to receive incoming  
calls only. Dedicated Toll Free service is billed on a per  
hour basis and is separated into various billing tapers. (S)

(2) Limitations of Service (N)(X)

(a) Calls to Intelligent Toll Free Service telephone numbers  
are dialed and completed without the assistance of an  
operator, and do not include:

- Person-to-Person calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

(3) Use of the Service by the Customer

Orders, including those which involve the installation,  
rearrangement, release, or disconnection of service, will be  
accepted by the Telephone Company only from the customer or  
by the Customer's authorized agent.

(4) Minimum Period

The minimum period for Dedicated Toll free service is one  
month.

(5) Termination Liability

There is no termination liability associated with Dedicated  
Toll Free service.

Rate Regulations

(1) Minimum Average Time Requirements

There are no minimum average time requirements associated  
with Dedicated Toll Free service. (N)(X)

Certain material previously appearing on this page now appears on Page 69.13.

3.4 Public Land Mobile Radiotelephone Service

3.4.1 Through Base Stations of Bell Atlantic - Pennsylvania, Inc.,  
Connecting Carriers and Concurring Carriers (T)

(A) Application

- (1) Two-way communication service is furnished through radiotelephone Base Stations listed in (C)(3) following, between a vehicle and a point located outside the land mobile service area associated with such Base Station, between two vehicles served through Base Stations having different rate centers or between a vehicle served through a Base Station and a ship or aircraft served through another land radiotelephone station.

- (2) Public Land Mobile Service is available to vehicles equipped for this service when within range of a Base Station through which such service is furnished. Service is furnished subject to transmission, atmospheric and like limitations.

This service is also available through a Base Station, between a point or a vehicle and another station, hereinafter called an "Other Station" which is authorized by the Federal Communications Commission to communicate with the Base Station, or between two "Other Stations" so authorized.

In the application of regulations and rates, stations other than vehicles which are authorized by the Federal Communications Commission to communicate with a Base Station are considered as vehicles.

- (3) The services offered are those referred to in (B)(1) and in (B)(2) following.

(B) Mileage Measurements - Rate Determination

- (1) Rates for service as set forth in (a) and (b) following are based on airline mileage between rate centers or mileage rate bands. Obtain V-H coordinates for Base Station rate centers in 3.1.1.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

(B) Mileage Measurements - Rate Determination (Cont'd)

(1) (Cont'd)

(a) For service between a point in the LATA and a vehicle served through a Base Station in the LATA listed in (C)(3) following the mileage or mileage rate band is determined as in (i) following:

(i) Mileage is measured between the rate center or the point and the rate center of the Base Station serving the vehicle in accordance with the provisions of 3.1(B) preceding. Rates for the mileage obtained are applied as specified in (C)(1)(a) following.

(b) For service between two vehicles, each served by a different Base Station in the LATA, listed in (C)(3) following, mileage is measured between the rate centers of the Base Stations involved in accordance With the provisions of 3.1(B)(1) preceding. Rates for the mileage obtained are applied as specified in (C)(1)(a) following.

(2) Rates for service set forth in (a) and (c) following are as provided for therein. Obtain V-H coordinates for Base Station rate centers.

(C) Rate and Charge Application (Cont'd)

(1) (Cont'd)

- (a) The rates, according to the connection established, apply as specified in the rate table for interstate intraLATA service under 3.1.(C)(7) preceding.

(2) Charges

- (a) Additional Charge for Service with a Ship of Foreign Registry on a Coastal Harbor Service Station  
When the service connection includes a ship of foreign registry on a Coastal Harbor Service Station, in addition to the charges specified in this Tariff, the ship station charge specified in the List of Ship stations published by the International Telecommunication Union in accordance with the International Telecommunication Convention (Montreux, 1965), shall apply.

- (b) For Calls Involving Transient Land Mobile Units When the service connection involves a call to or from a transient land Mobile Unit and requires the assistance of an Operator the Operator Station or Person-to-Person rate shall apply as applicable. When the call is placed without the assistance of an operator the Dial Station rate shall apply.

- (c) For Calls Involving Base Stations Prefixed by an Asterisk

For calls to or from a mobile station served through a base station prefixed by an asterisk (\*) (listed in (3) following), in addition to the charges specified in this tariff, the mobile usage charge listed in the Exchange Mobile Telephone Service Tariff of the Telephone Company will apply. Such mobile usage charges will be billed to and collected from the mobile Customer.

3.5 Maritime Mobile Radiotelephone Service

3.5.1 VHF Service - Through Land Stations of This Company and  
Concurring Carriers

(A) Application

- (1) VHF Service is a two-way communication service furnished through the following land radiotelephone stations. These stations are licensed to provide a maritime mobile service which is primarily of a local character.

VHF Service Stations

<u>Rate Center</u>	<u>Serving Company</u>	
Atlantic City	Bell Atlantic - New Jersey, Inc.	(T)
Beach Haven, NJ	Bell Atlantic - New Jersey, Inc.	(T)
Keansburg	Bell Atlantic - New Jersey, Inc.	(T)
Lewes, Del.	Bell Atlantic - Delaware, Inc.	(T)
Philadelphia, PA	Bell Atlantic - Pennsylvania, Inc.	(T)
Toms River	Bell Atlantic - New Jersey, Inc.	(T)
Wilmington, DE	Bell Atlantic - Delaware, Inc.	(T)

- (2) VHF Service is available to ships equipped for this service when within range of a VHF Service Station through which such service is furnished. Service is furnished subject to transmission, atmospheric and like limitations.
- (3) The services offered are those referred to in (C)(1) and in (C)(2) following.
- (4) Conference service is not available to ships served through VHF Service Stations listed in (A)(1) preceding.

(B) Regulations

- (1) Service is offered on a Dial Station, an Operator Station, and Marine Identification Number (MIN) card basis. However, person-to-person calls and MIN card calls will only be accepted from ships. Person-to-person calls, and MIN card calls will not be completed to the ship.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

3.5 Maritime Mobile Radiotelephone Service (Cont'd)

3.5.1 VHF Service - Through Land Stations of This Company and  
Concurring Carriers (Cont'd)

(B) Regulations (Cont'd)

- (2) Access to the VHF Maritime attendant for the purpose of attempting to reach a ship is obtained via either a directly dialed, calling card or third-number call over the Public Switched Telephone Network. The charges for this call are set forth in tariffs of this company or rate schedules of other companies providing such service. These charges will apply to the calling party on all calls completed to the VHF Maritime attendant, regardless of whether the call is completed to the ship. If the call is completed to the ship, VHF station charges will apply.

(C) Rate and Charge Application

Rates for service through a VHF Service Station listed in (A)(1) preceding, or through two such stations are determined as set forth in (1) and (2) following.

- (1) For service involving a ship served through a VHF Service Station listed in (A)(1) preceding and another point, or for service between two ships where both are served through VHF Service Stations listed in (A)(1) preceding, the total charge is the sum of the charges of (a) and (b) following.
  - (a) the appropriate charges for the message telecommunications network and other telecommunications services necessary to complete the call as determined by the rates set forth in tariffs of this Company or rate schedules of other companies providing such service.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

3.5 Maritime Mobile Radiotelephone Service (Cont'd)

3.5.1 VHF Service - Through Land Stations of This Company and  
Concurring Carriers (Cont'd)

(C) Rate and Charge Application (Cont'd)

(1) (Cont'd)

(a) (Cont'd)

(i) When the point on land and the serving VHF Service Station are assigned to rate centers within the same LATA in the same or different states, the charge for the message telecommunications network is determined by the rate schedule as set forth in 3.1 (Interstate IntraLATA) preceding.

or

(ii) When the distant point and the serving VHF Service Station are assigned to rate centers located in different LATAs in the same or different states, the charges for the message telecommunications network and any other necessary telecommunications services provided by other carriers will apply. Other carriers' charges are not specified in this tariff.

(\*) This page in its entirety is being filed under authority of Special Permission No. 94-356 of the Federal Communications Commission.

3.5 Maritime Mobile Radiotelephone Service (Cont'd)

3.5.1 VHF Service - Through Land Stations of This Company and  
Concurring Carriers (Cont'd)

(C) Rate and Charge Application (Cont'd)

(1) (Cont'd)

(a) (Cont'd)

When the point on land and the serving VHF Service Station are assigned to the same rate center, 0 mileage is treated as 1 mile. When the connection involves only ships being served through the same VHF Service Station, a charge as for one mile applies.

(b) the VHF station charge to each ship on the connection which is served through a station or stations listed in (A)(1) preceding as follows:

- |      |   |        |
|------|---|--------|
| (i)  | For the initial period of three minutes or fraction thereof | \$2.55 |
| (ii) | For the additional minute of fraction thereof               | \$ .85 |

Single channel VHF Maritime Stations cannot serve two ships simultaneously.

(2) Rates for service as specified in (a) following are determined as set forth therein.

(a) For service between a ship served through a VHF Service Station of this Company or Concurring Carriers and a vehicle served through a Base Station for Land Mobile Service (located within the same LATA), the vehicle served through the Base Station is treated as a point for which the rate center is that of the serving Base Station and the rate is determined as specified in (1) preceding.

3.6 Aviation Radiotelephone Service

3.6.1 Air-Ground Service - Through Land Stations of This Company

(A) Application

- (1) Air-ground service is a two-way telecommunications service furnished through land radiotelephone stations listed in (D) following.
- (2) Service is available to aircraft which are authorized by the Federal Communications Commission to communicate with the radiotelephone stations listed below when equipped for this service and when within range of these stations. Service is furnished subject to transmission, atmospheric and like conditions.
- (3) The services offered are those referred to in (C)(1) and (C)(3) following.
- (4) Conference service is not available to aircraft served through the radiotelephone stations listed in (D) following.

(B) Regulations

- (1) Service is offered on a Dial Station, a Customer Dialed Calling Card Station, an Operator Station, or on person-to-person calls originating from aircraft. Person-to-person calls will not be completed to the aircraft.
- (2) Access to the Air-Ground attendant for the purpose of attempting to reach an aircraft is obtained via either a directly dialed, calling card or third-number call over the Public Switched Telephone Network. The charges for this call are set forth in tariffs of this company or rate schedules of other companies providing such service. These charges will apply to the calling party on all calls completed to the Air-Ground attendant, regardless of whether the call is completed to the aircraft. If the call is completed to the aircraft, Air-Ground service station charges will apply.

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.6 Aviation Radiotelephone Service (Cont'd)

3.6.1 Air-Ground Service - Through Land Stations of This Company  
(Cont'd)

(B) Regulations (Cont'd)

- (3) A call is considered to have been terminated when an aircraft flies out of range of the Air-Ground Service Station even though communication was in progress at the time. Reestablishment of a connection through a different Air-Ground Service Station constitutes a new call.

(C) Rate and Charge Application

- (1) Rates for service are determined as specified in (2) below between:

- (a) An aircraft served through a Air-Ground Service Station listed in (D) following and another point.
- (b) Two aircraft served through Air-Ground Service Stations Listed in (D) following.

(2) Rate Determination

For service involving an aircraft served through an Air-Ground Service Station listed in (D) following and another point, or for service between two aircraft where both are served through Air-Ground Service listed in (D) following the total charge is the sum of (a) and (b) following:

- (a) The Air-Ground Service Station charge as determined by the rates shown in (D) following for the station(s) serving the aircraft.

When the connection involves two aircraft served through the same Air-Ground Service Station on separate channels, the Air-Ground Service Station charge applies to both aircraft.

3.6.1 Air-Ground Service - Through Land Stations of This Company  
(Cont'd)

(c) Rate and Charge Application (Cont'd)

(2) Rate Determination (Cont'd)

(b) The appropriate charges for the message telecommunications network and other telecommunications services necessary to complete the call as determined by the rates set forth in tariffs of this Company or rate schedules of other companies providing such service.

(i) When the point on land and the serving Air-Ground Service Station are assigned to rate centers within the same LATA in the same or different states, the charge for the message telecommunication network is determined by the rate schedule as set forth in 3.1 (Interstate IntraLATA) preceding.

or

(ii) When the distant point and the serving Air-Ground Service Station are assigned to rate centers located in different LATAs in the same or different states, the charges for the message telecommunications network and any other necessary telecommunications services provided by other carriers will apply. Other carriers' charges are not specified in this tariff.

(4) Initial and Additional Periods

Rates are quoted in terms of initial and additional periods, the initial period being three minutes or fraction thereof and the additional period being one minute or fraction thereof.

(5) Timing of Messages

- (a) The time when connection is established, as provided in (b) through (e) below, determined in accordance with the time - standard or daylight saving - observed at the location of the rate center of the calling station, determines whether Day, Evening, Saturday, or Sunday rates apply. This rule applies whether the call is sent as paid or collect.
- (b) On station-to-station calls, chargeable time begins when connection is established between the calling telephone and the called telephone, Miscellaneous Common Carrier mobile radio system, PBX, Interexchange Carrier Terminal, or Automated Air to Ground Terminal.
- (c) On person-to-person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
- (d) Chargeable time ends when the connection is terminated at any point or when the aircraft flies out of range of the Air-Ground Service Station.
- (e) Chargeable time does not include time lost because of faults or defects in the service.

(6) Reversal of Charges (Collect Calls)

Calls originating with aircraft carrying passengers for hire, and served through an Air-Ground Service Station may be placed as follows:

- On a reversed charge basis only.
- On a sent paid as well as reversed charge basis

Collect calls are not accepted to

- the called aircraft
- aircraft carrying passengers for hire which impose a restriction that aircraft originated calls be placed on a reversed charge basis only.
- ships included in the connection which participate in High Seas Service as Common Carriers for hire.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

4. SERVICE CLASSIFICATIONS AND RATES (CONFERENCE) (Cont'd)

4.1 Conference Service

(A) Definition

- (1) Conference Service is the furnishing of IIMTS for telecommunications among an originating station and two or more stations when at least one of the stations is in different local service area than the originating station. In addition to the regulations in 2. and 3. preceding, the following apply:

- (2) Conference service is not available to:

Radiotelephone units served through Maritime Mobile Radiotelephone Service listed in 3.5 preceding, and Air-Ground Service Stations listed in 3.6 preceding.

(B) Conditions Under Which Service is Furnished

- (1) Service is furnished subject to the availability of the service components required.
- (2) All stations, on a conference connection may be so interconnected that each may communicate with all the others, or one station may be the transmitting station and all others receiving stations.
- (3) Service is offered to a specified person or station.
- (4) An operator, upon request, will attempt to arrange for the establishment of a conference call at a specified time.

(C) Rate and Charge Application

IIMTS rates apply for two-point service between any two points on a conference call, as set forth in (D) following.

(1) Timing of Messages

- (a) Chargeable time begins when connection is established between all the stations on the conference.
- (b) Chargeable time ends on a given two-point connection of a conference call when the connection is terminated by the originating station or the called station.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

4. SERVICE CLASSIFICATIONS AND RATES (CONFERENCE) (Cont'd)

4.1 Conference Service (Cont'd)

(C) Rate and Charge Application (Cont'd)

(2) Billing Arrangements

Charges for conference calls are billed in total only and may be billed to the originating station, a calling card or a designated station, provided:

- (a) The total charge will be billed to one station.
- (b) The charge is accepted at the designated station.
- (c) The originating station and the designated station are located in the LATA.

(D) Rates and Charges

The rates for a conference call are as follows:

The charge is the sum of:

- (i) the two-point initial minute and additional minute charges determined in accordance with 3. preceding for a call between the originating station and each called station on the conference, (for calls between the originator and a called station in the same local service area, the charge for a one mile call determined in accordance with 3. preceding applies), and for each called station,
- (ii) a service charge of \$3.00 to each called station also applies.
