(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.3 BellSouth Equal Access Subscription (Cont'd)

(A) Description (Cont'd)

The IC shall submit an order for all end offices subtending an access tandem indicating whether 1+ traffic from its subscribed pay telephones shall be routed to itself (as direct IC) or to another IC (as transport carrier). Recordings with alternate dialing instructions are not acceptable. If calls are to be routed to a transport carrier, the 0+ IC must provide written authorization certifying that the order is being submitted pursuant to an agreement with the transport carrier. Only one transport carrier may be indicated for each access tandem.

If the IC designated as the primary IC for 0+ and 00- traffic does not submit an order designating the transport carrier for 1+ traffic for pay telephones at all end offices subtending an access tandem, the 1+ traffic for that office will continue to be routed to the existing 1+ carrier until the subscribed 0+ carrier is ready to handle the 1+ sent-paid traffic, or makes arrangements with another IC to handle the traffic.

(B) Verification of Choice of IC

ICs must request verification of choice from their customers/subscribers. All letters of agency, recordings, or other evidence of verification shall be maintained by the IC for a minimum period of two years after obtaining such verification.
