ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

7.4.1 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. The rates and charges are described as follows:

(A) Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

When a rate is shown as a three year rate or a five year rate, the rate applies each month or fraction thereof that the Special Access Service is provided. However, early termination charges apply as set forth in (D) following if the service is disconnected prior to completion of the three or five year term for the service. Section 7.4.9(C) following contains regulations which are specific to the application of three year and five year rates. Service Discount Plans as set forth in Section 7.4.10 following are not available with Channel Extension Service.

In the states where Expanded Interconnection has become operational, monthly rates for Standard Channel Termination, Channel Mileage and certain Optional Features and Functions/Basic Service Elements for 1.544 Mbps and 44.736 Mbps (electrical) Special Access High Capacity Services are arranged in pricing zones. The pricing zone for each serving wire center in the states where Expanded Interconnection has become operational is specified in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No. 4.

When a customer's designated premises is served by a serving wire center located in a state other than the state in which the customer's designated premises is located, the rates for Special Access Services for such customer shall be the Special Access Service rates then in effect for the serving wire center from which the customer is served.

The application of monthly rates for Special Access IntelliLight® Dedicated SONET Ring are set forth in 7.2.17 preceding and Section 26.1 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(B) Daily Rates

Daily Rates are flat recurring rates that apply to each 24 hour period or fraction thereof that a Program Audio, Video or Advanced Video Special Access Service is provided for part-time or occasional use. For purposes of applying daily rates, the 24 hour period is not limited to a calendar day.

Part-time or occasional Video or Program Audio Service provided within a consecutive 30 day period will be charged the daily rate, not to exceed an amount equal to the monthly rate. For each subsequent day or part day, a charge equal to 1/30th of the monthly rate shall apply.

Part-time or occasional Advanced Video Services provided within a consecutive 30 day period will be charged either the daily rate for each day on which part-time or occasional Advanced Video Service is provided or the monthly rate, whichever produces the lesser rate. (C)

(C) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for Special Access Service are: installation of service, installation of optional features and functions, Basic Service Elements and service rearrangements. ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service

For part-time Broadcast Video and part-time Advanced Video Services, nonrecurring charges also apply for a Telephone Company technician to oversee the operation of service during an event for which the customer has ordered part-time Broadcast Video or Advanced Video Service and requested that a technician be present. The charge for a Telephone Company technician to oversee the operation of a part-time service during an event will be the same as the charge for Other Labor. The charge for Other Labor will apply per customer. When a single Telephone Company technician oversees the operation of part-time service(s) for more than one customer, the total charge to perform Other Labor will be divided equally between the customers involved. Other Labor charges are set forth in Section 13.2.5 following. (C)

Nonrecurring charges apply to each Special Access Service installed. Orders for the installation of Metallic, Telegraph Grade, Voice Grade, Program Audio, Video, 1.544 Mbps High Capacity, WATS, DIGIPATH digital service II, Advanced Video Service and DOVPATH service will be subject to a first and additional nonrecurring charge rate structure. A First Nonrecurring Charge will apply, per channel termination, for the initial service ordered. An additional Nonrecurring Charge will apply, per channel termination, for each additional service which is ordered at the same time on the same Access Order, for the same due date and between the same premises, provided the service and operating characteristics (e.g., bridging) are identical to the initial service ordered. Orders for the installation of Channel Extension Service are subject to the regulations set forth in Section 7.4.9(C) following. (S)(x)

(x) Material scheduled to become effective December 2, 1999 under TR1213.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service (Cont'd)

For part-time Broadcast Video or Advanced Broadcast Video Service, the nonrecurring charge for the installation of service is further subject to an initial occurrence and a subsequent occurrence nonrecurring rate structure. An Initial Occurrence Charge will apply for the initial (first) installation of part-time service. A Subsequent Occurrence Charge will apply for any subsequent (additional) installation of the same part-time service between the same premises or between the same premises and Telephone Company Hub as the initial occurrence (i.e., the customer requests repeated installations for the same type of part-time service between the same locations). The Subsequent Occurrence Charge applies only when the customer has requested a minimum of four installations and is subject to the following conditions.

- (a) The customer has provided the Telephone Company with a schedule of dates which includes at least four separate occurrences where part-time service will be required between the same locations. The schedule must include the date of the initial occurrence and the dates of the subsequent occurrences; and
- (b) the scheduled dates for the subsequent occurrences are within nine months of the scheduled date for the initial occurrence; and
- (c) at the premises involved, the points of termination used for the initial occurrence are the same points for termination used for the subsequent occurrences; and
- (d) except for the duration that service is to be provided, the part-time service requested for the initial occurrence is identical to the part-time service requested for the subsequent occurrences.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service (Cont'd)

For NYNEX Enterprise DSO Service ordered on or after July 19, 1993, all other NYNEX Enterprise Services, NYNEX Enterprise Network Reconfiguration Service (NRS) 44.736 Mbps Network Access Ports, the 44.736 Mid-link Charge in NET, the nonrecurring cost for the installation of service will be recovered over the first twelve months of service for NES Standard Channel Terminations, NRS 44.736 Mbps Network Access Ports and the 44.736 Mbps Mid-link Charge in NET. Nonrecurring Charges for the NES Office Channel Terminations will be billed on the first bill following installation of service. In the event that service is disconnected prior to satisfying the nonrecurring charge recovery period, the customer shall be responsible for:

- a nonrecurring charge liability equal to the balance of the nonrecurring charge not yet recovered. For NES Channel Terminations ordered on a month to month basis, NRS 44.736 Mbps Network Access Ports and the 44.736 Mbps Mid-link Charge in NET, the nonrecurring charge not yet recovered will be determined by multiplying the nonrecurring liability charge by the number of months remaining in the recovery period. For NES Channel Terminations ordered under a Service Discount Plan, the nonrecurring charge not yet recovered will be satisfied with the application of termination liability charges for the balance of the commitment period as set forth in 7.4.10(C) following, and
- satisfying the minimum period requirement as set forth in Section 5.2.5 preceding, and
- payment of any service Discount Plan termination liability as set forth in 7.4.10 following associated with the disconnected service.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service

The nonrecurring charges for the installation of service are set forth in 31.7 following as a nonrecurring charge for the Channel Termination rate element.

Nonrecurring charges do not apply for the rearrangement of Special Access Services on to an Enterprise SONET Service (ESS) ring provided that (i) the same customer designated premises are maintained; and (ii) rearrangement on the ESS ring occurs during the ESS conversion period as set forth in Section 26.1.2(D) following.

When service is added to a Commitment Discount Plan, the channel termination nonrecurring charge which applies is the lesser of (C)
(i) the applicable nonrecurring charge as specified in Section (C)
31. following or (ii) \$1.00. (C)

In addition, a nonrecurring charge as set forth in 7.1.2(B) preceding applies to Channel Mileage between two Telephone Company Hubs where multiplexing and/or NYNEX Enterprise Network Reconfiguration Service functions are performed. Such nonrecurring charges are set forth in 31.7.9 following as a nonrecurring charge for Mid-link Channel Mileage.

In the states where Expanded Interconnection has become operational, nonrecurring charges for the Standard Channel Termination and the Mid-link Charge for 1.544 Mbps and 44.736 Mbps (electrical) Special Access High Capacity Services are arranged in pricing zones. The pricing zone for each serving wire center in the states where Expanded Interconnection has become operational is specified in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO.4.

When a customer's designated premises is served by a serving wire center located in a state other than the state in which the customer's designated premises is located, the nonrecurring charges for Special Access Services for such customer shall be the Special Access Service nonrecurring charges then in effect for the serving wire center from which the customer is served.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service (Cont'd)

Customers with Digital Data Service (DDS) as of November 16, 1992 may choose to change their existing DDS to DIGIPATH digital service II (DDS II) with no nonrecurring charge applicable for orders received from the customer during the period starting December 21, 1992 and ending June 19, 1993. The following conditions are applicable:

- A due date no later than May 21, 1994 will be assigned to each order for DDS II received during the ordering period
- A cancellation charge, as set forth in 5.2.3 preceding, will not apply to orders canceled prior to the due date
- When the minimum period requirement, as specified in 5.2.5(A), has been satisfied for the disconnected DDS, no new minimum period requirement will be established, as specified in 5.2.5(D) preceding, for the DDS II. When the minimum period requirement for DDS has not been satisfied, any portion of the minimum period requirement that has been satisfied for the DDS may be applied to the new DDS II minimum period requirement
- The DDS II may replace the existing DDS or a point-to-point arrangement may be placed in a multiplexed arrangement. The nonrecurring charge, as specified in 31.7.9 following, will apply for the High Capacity Service when it is provided coincident with the DDS II
- The replacing DDS II may be provided at a transmission speed other than that of the DDS
- The Transfer Arrangement BSE, which is not available with DDS II, will be disconnected upon conversion and the termination liability charge applicable to an existing Service Discount Plan will not apply.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service (Cont'd)

For Video Service, Nonrecurring Charges also apply for the installation of repeaters in the facility between the serving wire centers involved. The charge for the installation of repeaters is applied as a nonrecurring charge for each channel mileage band for full-time or part-time Video Service. The nonrecurring charge for the installation of repeaters in the channel mileage will not apply to part-time Video Service provided solely over microwave transmission.

Included as part of the channel termination is the use of up to twenty-five (25) feet of coaxial cable from the point at which the video service enters the customer's building to the channel interface. In the event that the customer requests that the Telephone Company extend the location of the channel interface beyond 25 feet, and the Telephone Company agrees to extend the communications path, the charges set forth for Other Labor in Section 13.2.5 following will apply for the extended portion of the communications path.

The nonrecurring charges applicable to the installation of Video Service are set forth in Section 31.7.5 following.

In the event the Telephone Company must construct facilities for Video Service for which no foreseeable reuse of those facilities is forecast, Special Construction rates and charges as set forth in Section 5.1.3 preceding may also apply.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service (Cont'd)

In the event that video electronic equipment is unavailable and the Telephone Company must secure and ship electronic equipment in order to satisfy a customer's request for part-time Broadcast Video or Advanced Broadcast Video Service, the customer shall be given the option to authorize the Telephone Company to secure and ship the equipment or to cancel the order. If authority is given to the Telephone Company to obtain the equipment, the customer shall be advised of all shipping and related charges (USOC NRBVE will identify the amount of shipping and related charges.) Such charges shall be flowed through to, and be the responsibility of, the customer. If the customer is unwilling to authorize payment of shipping and related charges and elects to cancel the order for service, cancellation charges as set forth in Section 5.2.3 preceding will not apply.

In addition, a Non-Standard Premises Connection Charge will apply, per customer, per NSP, for the installation of the first Telephone Company-provided 1.544 Mbps High Capacity, 44.736 Mbps High Capacity and DIGIPATH digital service II Special Access Service at a Non-Standard Premises (NSP) except when these Special Access Services are provided subject to Special Construction. Any additional Special Access Services ordered to the same NSP by the same customer will not be subject to the NSP Connection Charge.

The NSP Connection Charge, set forth in Section 31.7 following, applies in addition to the nonrecurring charges for the associated channel termination rate elements(s). The NSP Connection Charge covers the termination of the transmission facility from the serving wire center of the customer designated premises to the NSP and installation of a demarcation point.

When customer requests for service at an NSP require the installation of more than 3,000 feet of cable between the serving wire center of the customer designated premises and the NSP and/or more than \$1,000.00 in contracting services (e.g., trenching, rodding, boring, placing conduit, handholes and poles, obtaining permits, etc.), such installation will be subject to the provisions of Section 5.1.3 preceding, Special Construction instead of the NSP Connection Charge.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(2) Installation of Optional Features and Functions/Basic Service Elements

Nonrecurring charges apply for the installation of some of the optional features and functions or Basic Service Elements available with Special Access Service. Except for 1.544 Mbps Clear Channel Capability and MVS or Advanced Video Service optional features and functions, the charge applies whether the feature or function or BSE is installed coincident with the initial installation of service or at any time subsequent to the installation of the service. The charge for 1.544 Mbps High Capacity Clear Channel Capability and MVS or Advanced Video Service optional features and functions, applies only when the feature or function is installed at any time subsequent to the installation of service. The MVS Rf Subcarrier Transport optional feature is further subject to a First and Additional Nonrecurring Charge structure as set forth in (C)(1) preceding and 7.4.9(B)(3) following.

The optional features or BSEs for which nonrecurring charges apply are:

- Voice Grade Data Capability
- Voice Grade Telephoto Capability
- Program Audio Gain Conditioning
- Program Audio Stereo
- Wideband Data Transfer Arrangement
- WATS Access Line Extension Service
- DS3 to DS1 Central Office Multiplexing
- 1.544 Mbps High Capacity Clear Channel Capability
- MVS Video Bridging
- MVS Additional Separate Audio Signals
- MVS BTSC Stereo Audio Signal
- MVS Rf Subcarrier Transport
- SVS Video Bridging
- AUDVS Video Bridging

Nonrecurring charges also apply for IDSR rate elements as set forth in 7.2.17 preceding.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements

Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer designated premises. Changes which result in a change in the minimum period requirements (i.e., a change from one type of Special Access Service to another) are treated as discontinuances of existing service and installations of new service and are described in 5.2.5(D) preceding. Changes in the physical location of the point of termination at a customer designated premises are treated as moves and are described and charged for as set forth in 7.4.5 following.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

Administrative changes, as follow, will be made without charge(s) to the customer:

- Change of customer name,
- Change of customer or customer's end user premises address when the change of address is not a result of a physical relocation of equipment,
- Change in billing data (name, address, or contact name or telephone number),
- Change of agency authorization,
- Change of customer circuit identification
- Change of billing account number,
- Change of customer test line number,
- Change of customer or customer's end user contact name or telephone number, and
- Change of jurisdiction.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements (Cont'd)

All other service arrangements will be charged for as follows:

- If the changes involves the addition of, or rearrangement to, one or more channel terminations to an existing multipoint service, the appropriate nonrecurring charge(s) will apply as set forth in (1) preceding. The charge(s) will apply only for the channel termination(s) that is being added or rearranged.
- If the change involves the addition of an optional feature or function or a BSE which has a separate nonrecurring charge, that nonrecurring charge will apply.
- If the change involves changing the type of signaling on a Voice Grade service, a charge equal to the Voice Grade channel termination rate element nonrecurring charge will apply on a first and additional basis. The charge will apply per channel termination affected.
- If the change involves the rearrangement of an existing Voice Grade Service or an existing multiplexed Voice Grade Service (e.g., Voice Grade Service multiplexed to Telegraph Grade Service) to a High Capacity Service, a Voice Grade to DS1 Rearrangement Charge will apply. The Voice Grade to DS1 Rearrangement Charge, as set forth in 31.7.3(E) following will apply to each Voice Grade Service rearranged.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements (Cont'd)

- If the change involves the rearrangement of an existing Voice Grade Service derived from a High Capacity Service to a different High Capacity Service, a Voice Grade to DS1 Rearrangement Charge will apply. The charge applies only when both High Capacity Services involved are between the same customer premises and Telephone Company Hub where the multiplexing function is performed. The Voice Grade to DS1 Rearrangement Charge, as set forth in 31.7.3(E) following will apply to each Voice Grade Service rearranged.
- If the change involves the rearrangement of an existing DIGIPATH digital service II special access service to a High Capacity Service, a DDS II to DS1 Rearrangement Charge will apply. The DDS II to DS1 Rearrangement Charge, as set forth in 31.7.12(E) following will apply to each DIGIPATH digital service II rearranged.
- If the change involves the rearrangement of an existing DIGIPATH digital service II special access service derived from a High Capacity Service to a different High Capacity Service, a DDS II to DS1 Rearrangement Charge will apply. The charge applies only when both High Capacity Services involved are between the same customer premises and Telephone Company Hub where the multiplexing function is performed. The DDS II to DS1 Rearrangement Charge, as set forth in 31.7.12(E) following will apply to each DIGIPATH digital service II rearranged.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements (Cont'd)

- If the change involves the rearrangement of an existing High Capacity Service or an existing multiplexed High Capacity Service into a greater bit rate High Capacity Service, into an optical fiber interface arrangement, into a NYNEX Enterprise SONET Private Network Service or into Switched Access Service Interface Group 9, a Digital to Digital Rearrangement Charge as set forth in 31.7.9(D) following will apply for each service reconfigured. No charge applies to the multiplexed services on the existing High Capacity Service unless the customer changes service types, in which case the appropriate nonrecurring charge for each change will apply.
- If the change involves the rearrangement of an existing Telephone Company provided High Capacity Service or NYNEX Enterprise Service or an existing Telephone Company provided multiplexed High Capacity Service or groomed NYNEX Enterprise Service into a Telephone Company provided High Capacity or NYNEX Enterprise Service under an Expanded Interconnection Arrangement, or from one Telephone Company provided Expanded Interconnection Arrangement to another within the same Telephone Company serving wire center, an Interconnection Rearrangement Charge as set forth in 31.7.9(D)(3)(a) following will apply for each service reconfigured.
- If the change involves the rearrangement of a Telephone Company provided High Capacity or NYNEX Enterprise Service provided under an Expanded Interconnection Arrangement to a Telephone Company provided High Capacity, NYNEX Enterprise, multiplexed High Capacity Service or groomed NYNEX Enterprise Service, an Interconnection Rearrangement Charge as set forth in 31.7.9(D)(3)(b) following will apply for each service reconfigured.
- For all other changes, including the addition of optional features or BSEs without separate nonrecurring charges, a charge equal to a channel termination rate element nonrecurring charge. Only one such charge will apply per service, per change.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements (Cont'd)

- If the change involves the rearrangement of an entire central office multiplexing arrangement (i.e., Special Access Services and multiplexer) to Special Access Services provided to NYNEX Enterprise Network Reconfiguration Service network access ports (NRS ports), a Mux to NRS Rearrangement Charge applies provided that:

- (a) the same wire center is maintained (i.e., the serving wire center of the Hub where the multiplexing function was performed is the same serving wire center of the Hub where the NRS function is performed); and
- (b) the same speed and type of service is maintained; and
- (c) all Service Discount Plan Termination Liability requirements are met if the services and/or multiplexer were included in a Service Discount Plan prior to rearranging to NYNEX Enterprise Network Reconfiguration Service. The regulations applicable for replacement of, or upgrade to, service within a Service Discount Plan are set forth in 7.4.10(C) following:

The Mux to NRS Rearrangement Charge will apply in lieu of all applicable nonrecurring charges associated with the installation of the Special Access Services provided to the NRS ports. Only 1 (one) such rearrangement charge will apply per multiplexing arrangement, regardless of the number of Special Access Services involved in the rearrangement. Nonrecurring charges will apply for each NRS port installed in conjunction with each Special Access Service. Nonrecurring charges for the NRS Network Access Ports are specified in Section 31.19 following.

The Mux to NRS Rearrangement Charge is specified in Section 31.7.9 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements (Cont'd)

- If the change involves the rearrangement of existing Special Access Service or multiplexed Special Access Service (for purposes of administering this regulation the term Special Access Service does not include NYNEX Enterprise Services) into a Special Access Service or a multiplexed Special Access Service connected or groomed to a NYNEX Enterprise Service at a NES Hub or a NES Extension Hub (grooming may not occur at a NES Extension Hub), no charge will apply to connect or groom the Special Access Service or multiplexed Special Access Service to the NYNEX Enterprise Service. No charge applies to the multiplexed Special Access Services unless the customer changes service types, in which case the appropriate nonrecurring charge for each change will apply.
- If the change involves the rearrangement of an 8 bit Advanced Uncompressed Digital Video Service into a 10 bit Advanced Uncompressed Digital Video Service, a charge equal to the nonrecurring charge for the subsequent addition of one 10 bit Additional Transmit or Additional Receive channel termination, as applicable, will apply.
- If the change involves the rearrangement of a two-point Advanced Broadcast Video Service into an Advanced Broadcast Video Service provided on a point to Hub basis (i.e., from a customer designated premises to a Telephone Company Hub) at which the ABVS channel will be connected to other compatible ABVS channels, no charge will apply provided that the same point (i.e., customer designated premises) is maintained.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)

(D) Early Termination Charges for Channel Extension Service (C)

Early Termination charges apply to Special Access Channel (C)
Extension Service which is provided under a term plan and (C)
disconnected in full or in part prior to the customer satisfying the
selected term plan for the service. The early termination charge will be
the calculated using the methods set forth in (1) and (2) following.

(1) For disconnects prior to the end of the selected term plan for which
there is no term plan less than the actual time the service has been
in effect, the Early Termination Charge is 100% of the applicable
monthly rates for each month and fraction thereof in the balance of
the term plan.

(2) For disconnects prior to the end of the selected term plan for which a
term plan exists which is less than the actual time the service has
been in effect, the Early Termination Charge is the lesser amount of
(i) 100% of the applicable monthly rates for each month and fraction
thereof in the balance of the selected term plan or (ii) the
difference between the monthly rates for the highest term plan that
could have been satisfied prior to disconnection of the service and
the monthly rate for the selected term plan multiplied by the actual
number of months the service has been in effect.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service(A) General

In addition to the rates and charges described in 7.4.1 preceding, there is a monthly surcharge that applies to Special Access Service. The Special Access Surcharge compensates the Telephone Company for use of the local exchange network when Special Access Service is connected to a PBX or equivalent device which is capable of interconnecting the Special Access Service with local exchange service.

The Telephone Company will automatically bill the surcharge on each Special Access Service installed irrespective of whether the interconnection capability exists in the customer's premises equipment or in a Centrex type switch unless written certification is received from the customer certifying exemption status as set forth in (B) following.

(B) Special Access Surcharge Exemptions

The Special Access Service will be exempted from the surcharge if the customer provides the Telephone Company written certification that the Special Access Service termination is one of the following:

- an open-end termination in a Telephone Company switch of an FX line, including CCSA and CCSA-equivalent ONALS; or
- an analog channel termination that is used for radio or television program transmission; or
- a termination used for TELEX service; or
- a termination that by the nature of its operating characteristics could not make use of Telephone Company common lines; or

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(B) Special Access Surcharge Exemptions (Cont'd)

- a termination that interconnects either directly or indirectly to the local exchange network where the usage is subject to Carrier Common Line charges such as, where the Special Access Service accesses only FGA or CSL BSA and no local exchange lines, or Special Access Service between customer points of termination or Special Access Service connecting CCSA or CCSA-type equipment (inter-machine trunks); or
- a termination that the customer certifies to the Telephone Company is not connected to a PBX or other device capable of interconnecting the special access facility to a local exchange subscriber line; or
- a termination that the customer certifies to the Telephone Company is connected to a PBX or other device which, through either hardware or software restrictions, is not capable of interconnecting the special access facility to a local exchange subscriber line.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(C) Exemption Certification

- (1) Special Access Services which are terminated as set forth in (B) preceding will be exempted from the Special Access Surcharge if the customer provides the Telephone Company with a written notification certifying exemption. Such notification shall be provided by the customer (1) at the time the Special Access Service is ordered or installed; (2) at such time as the Special Access Service is reterminated to a device not capable of interconnecting to the local exchange network, or (3) at such time as the Special Access Service becomes associated with a Switched Access Service that is subject to Carrier Common Line charges.
- (2) If written certification is not received at the time the Special Access Service is obtained, the surcharge will be applied. Exempt status will become effective on the certification date indicated by the customer, subject to the regulations in (D) following.

(TR 1126)

Issued: April 19, 1999

Effective: May 4, 1999

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(C) Exemption Certification (Cont'd)

- (3) The exemption certification is to be provided by the customer ordering the service. The certification must be signed by the customer or authorized representative and include the category of exemption, as set forth in (B) preceding, for each termination, and the date which the exemption is effective.
- (4) The customer shall also notify the Telephone Company when an exempted Special Access Service is changed or reterminated such that the exemption is no longer applicable.

(D) Crediting the Surcharge

The Telephone Company will cease billing the Special Access Surcharge when certification that the Special Access Service has become exempt from the surcharge, as set forth in (B) preceding is received. If the status of the Special Access Service was changed prior to receipt for the exemption certification, the Telephone Company will credit the customer's account, not to exceed ninety (90) days, based on the effective date of the change specified by the customer in the letter of certification.

(TR 1126)

Effective: May 4, 1999

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(E) Application of Rates

- (1) The monthly Special Access Surcharge applies to Special Access Services arranged, as set forth in (A) preceding, on a per voice equivalent basis as shown in the following example.

<u>Special Access Service</u>	<u>Voice Grade Equivalent</u>	<u>Surcharge</u>	<u>Monthly Charge</u>
Voice Grade	1 X	\$25	\$ 25.00
Wideband Analog	12 X	\$25	300.00
Group Level			
DS1	24 X	\$25	600.00
DS3	672 X	\$25	16,800.00
OC3	2016 X	\$25	50,400.00
OC12	8064 X	\$25	201,600.00
OC48	32256X	\$25	806,400.00

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(E) Application of Rates (Cont'd)

- (2) In the case of multipoint Special Access Service, one Special Access Surcharge will apply for each termination at a customer designated premises except that no surcharge applies at the customer designated premises at which the Special Access Service is connected to the customer's interstate facilities.

For example, a multipoint Special Access Service connects three customer designated premises, A, B and C. Customer designated premises A is where the Special Access Service is connected to the customer's interstate facilities, and no Special Access Surcharge will apply to that termination. However, the Special Access Surcharge will apply, per termination, to customer designated premises B and C.

- (3) The Telephone Company will bill the surcharge to the customer who orders the Special Access Service unless the Service is exempt as set forth in (B) preceding or as specified in (4) following.

- (4) In the case of Special Access Service or IntelliLight® Dedicated SONET Ring (IDSR) provided under a Shared Billing Arrangement, one Special Access Surcharge will apply for each derived service. In no case shall the total number of Special Access Surcharges applied exceed the total voice equivalency for the type of High Capacity, IDSR or NYNEX Enterprise Special Access service ordered. (C)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.4 Minimum Periods

Except for the following services, the minimum period for all services is three months. The minimum period for optional features and functions or BSEs is the same minimum period as the associated Special Access Service, unless otherwise specified.

- For part-time and occasional Broadcast Video, Advanced Video and Program Audio services, the minimum period is one day (i.e., a continuous 24 hour period, not limited to a calendar day).
- For Advanced Uncompressed Digital Video Service, Advanced Broadcast Video Service, Serial Component Video Service, Fiber Based Multichannel Video Service and Supertrunking Transport Video Service, the minimum period is one year. The CODEC optional feature, available with 45 Mbps Digital Video Transport Service, has a minimum period of one year.
- For Channel Extension Service, the minimum period is three years.
- For service provided under a Commitment Discount Plan as set forth in Section 25.1 following, the minimum period is one year in lieu of the minimum period which would normally apply to that service.
- For IntelliLight® Dedicated SONET Ring as set forth in 7.2.17 preceding, the minimum period is one year for the mileage and node rate elements and one month for the port rate elements. (N)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.5 Moves

(M)

A move involves a change in the physical location of one of the following:

- The Point of Termination at the customer's designated premises
- The customer's designated premises

The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(A) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one half of the applicable channel termination nonrecurring charge for the service affected as set forth in 7.4.1 preceding. There will be no change in the minimum period or Service Discount Plan requirements.

(B) Moves To A Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period and/or Service Discount Plan requirements will be established for the new services. The customer will also remain responsible for satisfying all outstanding minimum period and/or termination liability charges for the discontinued service except as specified in 7.4.10(C)(5) following.

(M)

Regulations on this page formerly appeared on 1st Revised Page 7-225.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.6 Mileage Measurement

The mileage to be used to determine the monthly rate for the Channel Mileage is calculated on the airline distance between the locations involved, i.e., the serving wire centers associated with two customer designated premises, except as set forth in 2.4.7(C) preceding; a serving wire center associated with a customer designated premises and a Network Controller location or a Telephone Company Hub; a serving wire center associated with a customer designated premises and an Expanded Interconnection multiplexing location; an Expanded Interconnection multiplexing location and a Telephone Company Hub where multiplexing or Frame Relay Service functions are performed; a serving wire center associated with a customer designated premises and a WATS Serving Office; a wire center with an IDSR CO Node and a Frame Relay Service Hub, or two Telephone Company Hubs. The serving wire center associated with a customer designated premises is the serving wire center from which the customer designated premises would normally obtain dial tone.

(C)

(C)

Mileage is shown in Section 31.7 following in terms of mileage bands. Except as specified otherwise, there are two rates that apply per band, i.e., a fixed rate per band and a rate per mile. To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4, then find the band into which the computed mileage falls and apply the rates shown for that band. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage band and applying the rates.

(TR 1253)

Issued: February 15, 2000

Effective: March 1, 2000

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.6 Mileage Measurement (Cont'd)

When Hubs are involved, mileage is computed and rates applied separately for each section of the Channel Mileage, i.e., customer designated premises serving wire center to Hub, Hub to Hub and/or Hub to customer designated premises serving wire center, Expanded Interconnection multiplexing node or virtual collocation arrangement. However, when any service is routed through a Hub for purposes other than customer specified bridging, multiplexing, grooming, Vertical Service (i.e., NRS or FRS) or NYNEX Enterprise Service (e.g., the Telephone Company chooses to so route for test access purposes), rates will be applied only to the distance calculated between the serving wire centers associated with the customer designated premises.

Mileage measurement for IntelliLight® Dedicated SONET Ring is calculated as the total airline distance between nodes rounded up to the nearest mile as described in 7.2.17 preceding. For example, if the total mileage between all nodes is 20.4 miles, the mileage is calculated based on 21 miles.

(N)

|
(N)7.4.7 Facility Hubs

A customer has the option of ordering Voice Grade facilities or digital high capacity facilities (i.e., DS1, DS1C or DS3) to a facility Hub for channelizing to individual services requiring lower capacity facilities (e.g., Telegraph Grade, Voice Grade, Program Audio, etc.).

Difference locations may be designated as Hubs for different facility capacities, e.g., multiplexing from digital to digital may occur at one location while multiplexing from digital to analog may occur at a different location. Locations (wire centers) that provide multiplexing of High Capacity Services have been designated as Intermediate Hubs, Super-Intermediate Hubs or Terminus Hubs (described in 2.6. preceding). Locations (wire centers) that provide grooming of NYNEX Enterprise Services are the wire centers designated as NES Hubs. When ordering, the customer will specify the desired multiplexing Hub(s) or grooming Hubs, as applicable, selected from the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC., TARIFF F.C.C. NO. 4. This tariff identifies the types(s) of multiplexing or grooming functions which are available, the serving wire centers at which they are available and the serving wire centers that subtend High Capacity DS3 to DS1 and DS1 to Voice multiplexing Hubs.

(TR 1293)

Issued: June 1, 2000

Effective: June 16, 2000

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Facility Hubs (Cont'd)

Some of the types of multiplexing or grooming available include the following:

- from higher to lower bit rate
- from higher to lower bandwidth
- from digital to voice frequency channels

End to end services may be provided on channels of these facilities to a Hub. The transmission performance for the end to end service provided between customer designated premises will be that of the lower capacity or bit rate. For example, when a 1.544 Mbps facility is multiplexed to voice frequency channels, the transmission performance of the channelized services will be Voice Grade, not High Capacity.

The Telephone Company will commence billing the monthly rate for the facility to the Hub on the date specified by the customer on the service order. Individual services utilizing these facilities may only be ordered and/or installed subsequent to the installation of the facility to the Hub. The customer will be billed for a Voice Grade, high capacity or NES digital Channel Termination, Channel Mileage (when applicable), and the multiplexer at the time the facility is installed. Individual service rates (by service type) will apply for a Channel Termination and additional Channel Mileage (as required) for each channelized service. These will be billed to the customer as each individual service is installed.

(TR 1126)

Issued: April 19, 1999

Effective: May 4, 1999

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Facility Hubs (Cont'd)

Cascading multiplexing or grooming occurs when a high capacity digital channel is de-multiplexed to provide channels with a lesser capacity and one of the lesser capacity channels is further de-multiplexed or groomed. For example, a DS1 facility is de-multiplexed to twenty four Voice Grade channels and then one of the Voice Grade channels is further de-multiplexed to individual Telegraph Grade channels.

When cascading multiplexing is performed, whether in the same or a different Hub, a charge for the additional multiplexing unit also applies. When cascading multiplexing is performed at different Hubbing locations, Channel Mileage rates and Mid-link nonrecurring charges also apply between the Hubs.

A ThruPath Service connection occurs when a channel which has been derived from one multiplexed or groomed facility is interconnected with a channel which has been derived from a different multiplexed or groomed facility of the same bit rate. The two derived channels are interconnected to create a single channel of a lesser capacity between the two multiplexed or groomed facilities as follows.

- Digipath digital service II between two multiplexed 1.544 Mbps High Capacity Services
- 1.544 Mbps High Capacity Services between two 44.736 Mbps High Capacity Services
- NES DS0, SDA, Voice or FDS1 between two Special Access groomed DS1 facilities
- NES DS1 between two Special Access multiplexed or groomed DS3 facilities
- 44.736 Mbps High Capacity Service between two Optical Line Multiplexers associated with two 44.736 Mbps High Capacity Services, each of which are provided with the optical fiber interface option

(TR 1126)

Issued: April 19, 1999

Effective: May 4, 1999

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Facility Hubs (Cont'd)

For example, two separate DS3 facilities are each de-multiplexed or groomed down to twenty eight DS1 channels and a DS1 channel from one multiplexed or groomed DS3 facility is interconnected with a DS1 channel from the other DS3 multiplexed or groomed facility to create a single DS1 channel between the two multiplexed facilities.

Example: Through-connection of multiplexed facilities

In addition to the channel mileage rates for the lesser capacity channel arranged between the two Hubs, a nonrecurring charge (Thrupath Connection Charge) applies. The ThruPath Connection Charge applies whether the Hubs are located in the same or different wire centers. Except for the following Hub locations, High Capacity ThruPath Service connections are available at or between all Intermediate or Super-Intermediate Hubs.

- | | |
|----------------------|------------------------|
| - Essex Junction, VT | - Mansfield, MA |
| - Maynard, MA | - Natick, MA |
| - New Bedford, MA | - North Chelmsford, MA |
| - Rehoboth, MA | |

In the case of NYNEX Enterprise Services, ThruPath Service connections are available at or between NES Hubs.

(TR 1126)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.7 Facility Hubs (Cont'd)

The Telephone Company will work cooperatively with the customer in determining the routing required for Video, Advanced Video and Program Audio services. A customer can order full-time and/or part-time service(s) between customer designated premises or between customer designated premises and a Hub and will be billed accordingly at the rates set forth in 31.7.4 or 31.7.5 following for the full-time or part-time service, as appropriate.

At the request of a customer, compatible full-time and/or part-time services provided to a Hub may be connected together in the following configurations: full-time to full-time, full-time to part-time or part-time to part-time. The customer will be charged for each such connection made at the rates for Other Labor as set forth in 31.13 following. The rates that apply for the service between each customer designated premises and the Hub are a Channel Termination and Channel Mileage, if applicable, and any associated optional features and functions or BSEs.

7.4.8 Shared Use Digital High Capacity Services

Shared use occurs when Special Access Service and Switched Access Service including CCSA are provided over the same High Capacity, NES DS1 or NES DS3 facilities through a common interface. The regulations governing Shared Use Arrangements are set forth in Section 5.2.7 preceding.

(TR 1126)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service-Specific Rate Regulations(A) 44.736 Mbps High Capacity Service

Standard rates and charges apply to 44.736 Mbps Service, and 44.736 Mbps Service provided with an optical fiber interface option (i.e., 135 Mbps capacity, 405 Mbps capacity and 560 Mbps capacity), as specified in 31.7 following.

(1) Channel Termination Monthly Rates

The channel termination rate structure for 44.736 Mbps Service (electrical and optical fiber interface option) differs based upon whether or not the channel termination is at a primary or secondary premises. A Primary Premises is a customer designated premises where a 44.736 Mbps Service channel is either originated or terminated. Only one end of the channel can be a primary premises. A Secondary Premises is any customer designated premises other than the primary premises.

If one end of a 44.736 Mbps Service channel is either connected to or derived from a higher speed facility (e.g., 560 Mbps capacity 44.736 Mbps High Capacity Service with OFIO or IDSR), the customer location with the 44.736 Mbps standard channel termination is classified as a Secondary Premises. If one end of a 44.736 Mbps Service is connected to a multiplexing node or virtual collocation arrangement, the location with the standard channel termination is classified as a Secondary Premises. When a 44.736 Mbps Service channel is provided with the Alternate Serving Wire Center optional feature, the alternately routed channel termination is considered to be at either a primary premises or a secondary premises, depending on the classification of the customer designated premises of the associated 44.736 Mbps Service channel termination.

Monthly rates for 44.736 Mbps High Capacity Service channel terminations at a primary premises apply on a tapered schedule as set forth in 31.7 following. The rate to be billed for each channel termination is based on a count of the total eligible Switched and Special Access channel terminations that are in service and in billing at the end of the bill period whether provided on a month to month basis, under one or more discount plans or a combination of both.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service-Specific Rate Regulations (Cont'd)(A) 44.736 Mbps High Capacity Service (Cont'd)(1) Channel Termination Monthly Rates (Cont'd)

The following Switched and Special Access channel termination rate elements are eligible for inclusion in the Telephone Company's monthly count:

- 44.736 Mbps High Capacity Special Access Service standard channel terminations (electrical) at a primary premises as described herein;
- 44.736 Mbps High Capacity Special Access Service standard channel terminations (optical) at a primary premises;
- DS3 Switched Access Entrance Facilities standard channel terminations (electrical) in Massachusetts and New York (as described in 6.7.1(A) preceding); and
- DS3 Switched Access Entrance Facilities standard channel terminations (optical) in Massachusetts and New York.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service-Specific Rate Regulations(A) 44.736 Mbps High Capacity Service (Cont'd)(1) Channel Termination Monthly Rates (Cont'd)

Once a month, the Telephone Company will count all eligible 44.736 Mbps High Capacity Special Access Services that are in service at a primary premises. The Telephone Company will then count all eligible DS3 Switched Access Entrance Facility channel terminations that are in service at that location as specified in 6.7.1(A) preceding. The results are added to obtain the total count for a particular customer designated premises and determine the applicable rate band. This step is repeated for each customer designated premises.

When a facility carries both Special Access and Switched Access Service under a Shared Use Arrangement as set forth in 5.2.7 preceding, each channel termination will be counted as either Special Access or Switched Access only, depending on the type of facility originally ordered, but the total number of such circuits will be counted in determining the rate band charged.

The Telephone Company will conduct a count on the first day of each month to use for the next month's billing.

For example, the Telephone Company's total DS3 count for a customer on the first day of December is 16. A customer has ten eligible High Capacity 44.736 Mbps Special Access Service channel terminations and six eligible DS3 Switched Access Entrance Facilities in service at its premises. The applicable rate band for each category (Special or Switched) is band 16. In December, each of the ten High Capacity 44.736 Mbps Special Access Services is billed at the then effective rate under band 16 (for Special Access) and each of the six DS3 Switched Access Entrance Facilities is billed at the then effective rate under band 16 (for Switched Access).

The rate band determined by the last count taken shall be used to calculate all charges incurred by and credits due to the customer for 44.736 Mbps High Capacity Special Access Service channel terminations established or discontinued during the preceding billing period. The count will not be adjusted for any reason for service order activity occurring after the count is made, including services that were installed prior to the count but were not in billing when the count was taken.

A secondary premises channel termination monthly rate applies to channel terminations at secondary premises locations.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service Specific Rate Regulations (Cont'd)(B) Fiber Based Multichannel Video Service (MVS) and Advanced Uncompressed Digital Video Service (AUDVS)

Standard rates and charges apply to MVS and AUDVS as specified in 31.7.5 and 31.7.15 following, respectively.

(1) Channel Termination Monthly Rates

For Transmit and Receive channel terminations provided on a first and additional basis, the First channel termination monthly rate applies to the first video signal of each channel installed at a customer designated premises. An Additional channel termination monthly rate applies for each additional video signal added to the same channel at the same customer designated premises. The customer may disconnect the Additional channel terminations in any order desired. However, the First channel termination monthly rate remains in effect until all video signals on the channel are disconnected.

For the AUDVS Dual Transmit channel termination, the monthly rate applies per point of termination, regardless of the number of video signals provided over

(2) Channel Mileage Measurement

Channel Mileage monthly rates consist of a Fixed and Per Mile rate which apply to each channel regardless of the number the Channel Terminations provided over the channel. Channel Mileage measurement is as specified in 7.4.6 preceding.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service Specific Rate Regulations (Cont'd)(B) Fiber Based Multichannel Video Service (MVS) and Advanced Uncompressed Digital Video Service (AUDVS) (Cont'd)(3) Optional Features and Functions

Nonrecurring charges apply to optional features and functions. Except for Video Bridging, MVS Additional Separate Audio Signals, MVS BTSC Stereo Audio Signals and MVS Rf Subcarrier Transport, the charge applies whether the feature or function is installed coincident with the initial installation of service or at any time subsequent to the installation of service. For Video Bridging, MVS Additional Separate Audio Signals, MVS BTSC Stereo Audio Signals and MVS Rf Subcarrier Transport, the charge applies only when the feature or function is installed at any time subsequent to the installation of service.

For the MVS Rf Subcarrier Transport optional feature, the nonrecurring charge is further subject to a first and additional nonrecurring rate structure. A First Nonrecurring Charge will apply, per option, for the initial optional feature ordered. An Additional Nonrecurring Charge will apply, per option, for each additional optional feature which is ordered at the same time on the same Access Order, for the same due date and between the same premises, provided the optional feature is identical to the initial optional feature. The Rf Subcarrier Transport charge applies per point of termination.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service-Specific Rate Regulations (Cont'd)(C) Channel Extension Service

Rates and charges apply for Channel Extension Service as specified in Section 31.7.17 following. Unique rate elements will apply (C)
depending on the backbone architecture in use by the customer. (C)
Such charges are shown as a 3-year rate or a 5-year rate and apply on a monthly basis during the term selected by the customer.
Channel termination, channel mileage, redundant path switching (C)
and repeater rates and charges apply as set forth in (1) through (4) following. When service is disconnected in whole or in part (T)
prior to completion of the 3-year or 5-year term plan, as applicable, early termination charges apply as set forth in Section 7.4.1(D) preceding.

(1) Channel Termination Monthly Rates and Nonrecurring Charges

The First Channel Termination Monthly Rate and Nonrecurring Charge applies to the first channel termination installed at a customer designated premises. When more than one Channel Extension Service channel terminations using the same backbone (C)
architecture are provided to a customer designated premises at (C)
which a First Channel Termination has already been provided, the Additional Channel Termination Monthly Rate and Nonrecurring Charge applies to each additional channel termination provided to that same customer designated premises. The Additional Channel Termination Monthly Rate and Nonrecurring Charge applies whether or not the additional service(s) are ordered at the same time, are on the same or different Access Order or are scheduled for the same or different due dates.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.9 Service-Specific Rate Regulations (Cont'd)(C) Channel Extension Service (Cont'd)

(2) Channel Mileage Monthly Rates

Channel Mileage for Channel Extension Service is calculated on the airline distance between the serving wire centers associated with the two customer designated premises involved. The rates for channel mileage are shown in terms of mileage bands. The manner in which the channel mileage is calculated and rates apply are as set forth in Section 7.4.6 preceding.

(3) Repeater Monthly Rates

When required to meet the transmission requirements for the service using the repeater architecture, a First Repeater monthly rate applies to the first repeater placed in a Telephone Company wire center. When more than one Channel Extension Service repeater is provided in the same wire center in which a First Repeater has already been provided, an Additional Repeater monthly rate applies to each additional repeater provided to that same wire center.

(C)

(4) Redundant Path Switching

The Redundant Path Switching monthly rate applies when path redundancy is provided in the network for the service using the DWDM backbone architecture.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.10 Service Discount Plan

(A) General

Service Discount Plans are provided with Rate Stability (defined in (G) following) for these services:

- NYNEX Enterprise Services***
- Intellilight Dedicated SONET Ring

Service Discount Plans are provided with Base Rates only (without Rate Stability) as set forth in (G) following for these services:

- 44.736 Mbps Service

Service Discount Plans are available for the following types of services. Neither Rate Stability or Base Rates apply to these services:

- Voice Grade Service*
- Digital Data Service*
- DIGIPATH digital service II
- 1.544 Mbps Service
- DOVPATH Service
- NYNEX Enterprise Network Reconfiguration Service+
- Broadcast Video Service**
- Enterprise SONET Service#
- Advanced Uncompressed Digital Video Service
- Serial Component Video Service
- Supertunking Transport Video Service
- Fiber Based Multichannel Video Service
- NYNEX Enterprise Services***

- IntelliLight® Dedicated SONET Ring (IDSR in Section 26.1 only)^

* New York Telephone only.

** New England Telephone only

*** Except for NES FDDI Service, NYNEX Enterprise Services are available in New York Telephone only. NES FDDI service availability limited. See Section 23.1 for more information.

+ Denotes a Vertical Service.

Service availability limited. See # footnote in Section 26.1.2(A) following.

^ Service availability limited. See footnote on Page 26-1.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(A) General (Cont'd)

A customer with one or more services has the option of requesting, at any time, a Service Discount Plan for some or all services of the same type and, in the case of certain digital services, of the same speed (i.e., 2.4, 4.8, 9.6, or 56.0 kbps Digital Data Services, 1.544 Mbps and 44.736 Mbps Service with an optical fiber interface option). When FRS 56 kbps Port Connections and the associated 56 kbps DDS II transport are provided under the FRS Term Commitment Plan as specified in Section 17.3.2 following, those services may not be provided under this Service Discount Plan. In the case of NES FDDI Service, all Channel Termination and Channel Mileage rate elements associated with a NES FDDI Service must be under the same Service Discount Plan. In the case of 1.544 Mbps and 44.736 Mbps Service, the services must be provided within the same Telephone Company operating territory. In addition, when a customer requests a Service Discount Plan for a 1.544 Mbps or 44.736 Mbps High Capacity or NES DS1 or DS3 Special Access Service provided under a Shared Use Agreement, the equivalent Switched Access Service Discount Plan and its terms and conditions as specified in Section 6.7.16 preceding, will apply to the Switched Access channels provided over the Shared Use facility. For all other services, the services must be billed on the same billing account.

When the customer has elected a Commitment Discount Plan as set forth in Section 25. following, a Service Discount Plan will not be established for any service level which is included in a Commitment Discount Plan. A Service Discount Plan may be established for service levels which are not included in the Commitment Discount Plan subject to the regulations specified in Section 25.1.2 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(A) General (Cont'd)

When a Host Customer with an existing multiplexed High Capacity or IntelliLight® Dedicated SONET Ring or groomed NYNEX Enterprise DS1 or DS3 service requests a Shared Billing Arrangement as set forth in Sections 7.2.9(D)(6) or 7.2.13(D)(6), respectively preceding, and a Service Discount Plan is currently in effect on the portion of the multiplexed or groomed service that will be billed to a Service User, the Service User will have the option of (1) continuing the existing discount plan and terms and conditions in effect as set forth in Section 7.4.10(C)(1) following or, (2) requesting a new Service Discount Plan for a commitment period equal to or longer than the original commitment period at the then effective discount percentage. If the Service User does not agree to (1) or (2) preceding, the existing customer will be responsible for payment of any termination liability associated with the portion of service that will be billed to the Service User prior to the establishment of a Shared Billing Arrangement. (C)

When requesting a Service Discount Plan, the customer must specify which services are to be included in the Service Discount Plan. When requesting any activity set forth in (C)(2) through (6) following, the customer must specify by circuit identification which services are affected.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(B) Description

A Service Discount Plan applies to Special Access Service Standard Channel Terminations, Channel Mileage and applicable Optional Features and Functions or BSEs monthly or base rates, as set forth in 31.7 following; NYNEX Enterprise Network Reconfiguration Service Network Access Ports monthly rates as set forth in 31.19 following; IntelliLight® Dedicated SONET Ring SONET Distribution Channels, Channel Mileage, Nodes and Ports as set forth in 31.26 following; NYNEX Enterprise Service Fiber Distributed Data Interface Channel Terminations and Channel Mileage as set forth in 31.23 following; and to Enterprise SONET Service Ring Transport Services as set forth in Section 31.26 following.

(C)
|
(C)

For services provided with Rate Stability as set forth in (G) following, the Rate Stability base rates for such services are reduced by a fixed percentage.

For all other services, the monthly rates for such services are reduced by a fixed percentage.

The amount of the discount percentage differs based on the length of the commitment period selected by the customer and the type of service. The customer must specify the number of months selected as the commitment period for its Service Discount Plan. For existing Service Discount Plans with commitment periods of 2, 3, 4, 5, 7 or 10 years, the commitment period will be converted to a commitment period of 24, 36, 48, 60, 84, or 120 months, respectively.

(D)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(B) Description (Cont'd)

The discount percentage is applied to the currently effective monthly or base rates. Except as set forth in (G) following, such rates may change during the commitment period, thereby causing an increase or decrease in the rates applicable to the customer.

Except for services provided with Rate Stability, in the event (C)
that the Telephone Company initiates a rate increase and the total (C)
discounted monthly rate for the affected service increases by
eight percent (8%) or more, the customer may cancel its service
discount plan for the affected service without termination
liability as set forth in (C) following. The customer must
exercise its option to cancel the service discount plan for the
affected service within thirty (30) days of the date of the
effective rate increase.

(D)

(D)

The discount percentage will not be subject to Telephone Company initiated decreases during that period. However, if the Telephone Company initiates an increase in the discount percentage during that period, that increased discount will be used to determine the rates applicable to the customer.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability(1) General

A termination liability applies during the selected commitment period. Except as set forth in (2) through (6) following, if service is disconnected in full or in part prior to the end of the selected commitment period, the customer is liable for a termination liability charge. In addition, should a customer, prior to the end of the selected commitment period, request that some or all channels of a High Capacity or NES facility be used for Switched Access Service the terms and conditions specified in 6.7.16 preceding for the equivalent Switched Access discount plan will apply to such channels for the balance of the selected commitment period. Further, except as provided in (D) and (E) following, when a customer cancels a Service Discount Plan prior to the end of the selected commitment period, the customer is liable for a termination liability charge.

The termination liability charge applies to each service, BSE, Optional Feature or Function, and Network Access Port, or, in the case of cancellation of a Service Discount Plan, to each service, BSE, Optional Feature or Function, and Network Access Port which had been included in the cancelled Service Discount Plan.

(C)
|
(C)

When the jurisdiction of a Special Access Service (line), NRS Network Access Port or Packet Switching Access Service (port) furnished under a Service Discount Plan is changed to intrastate, no termination liability charge applies provided the service (line or port) is furnished under an intrastate service discount plan.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(1) General (Cont'd)(a) Option 1(i) IntelliLight® Dedicated SONET Ring (IDSR)

(C)

- For disconnects on or prior to the end of the minimum period and prior to the end of the selected commitment period, the termination liability charge is 17% of the applicable monthly rates for each month and fraction thereof remaining between the end of the minimum period and the end of the selected commitment period.

- For disconnects after the end of the minimum period but prior to the end of the selected commitment period and for cancellations prior to the end of the selected commitment period, the termination liability charge is 17% of the applicable monthly rates for each month and fraction thereof in the balance of the selected commitment period.

(ii) All Other Services

- For disconnects on or prior to the end of the minimum period and prior to the end of the selected commitment period, the termination liability charge for is 50% of the applicable monthly rates for each month and fraction thereof remaining between the end of the minimum period and the end of the selected commitment period.

- For disconnects after the end of the minimum period but prior to the end of the selected commitment period and for cancellations prior to the end of the selected commitment period, the termination liability charge is 50% of the applicable monthly rates for each month and fraction thereof in the balance of the selected commitment period.

(b) Option 2

- For disconnects on or prior to the end of the minimum period and prior to the end of the selected commitment period, the termination liability charge will be the difference between the full monthly rates and the discounted monthly rates for the period the service has been in effect.

(TR 1146)

Issued: June 14, 1999

Effective: June 29, 1999

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(1) General (Cont'd)(b) Option 2 (Cont'd)

- For disconnects after the end of the minimum period but prior to the end of the selected commitment period and for cancellations of the Service Discount Plan prior to the end of the selected commitment period the following applies.

- Where there is no Service Discount Plan commitment period less than the actual time the services have been in effect, the termination liability charge will be the difference between the full monthly rates and the discounted monthly rates for the period the service has been in effect.

- Where there is a Service Discount Plan commitment period less than the actual time the services have been in effect, the termination liability charge will be calculated as follows:

(T)

- (i) For IntelliLight® Dedicated SONET Ring (ISDR) with a commitment period which was extended under (E)(2) following, termination liability is calculated as the difference between the monthly rates for the highest Service Discount Plan commitment period that could have been satisfied prior to disconnection of the service or cancellation of the plan and the monthly rates already paid for the expired commitment period and the extended commitment period for the period of time the service was in effect.

(N)

(N)

- (ii) For all other services, termination liability is calculated as the difference between the monthly rates for the highest Service Discount Plan commitment period that could have been satisfied prior to disconnection of the service or cancellation of the plan and the monthly rates for the selected commitment period multiplied by the actual number of months the service has been in effect. For example, if a customer has a 45 month commitment period and disconnects a 1.544 Mbps High Capacity Service after forty months and 5 days, the highest Service Discount Plan commitment period that could have been satisfied is forty months. To determine the termination liability charge, the monthly rate for the 45 month plan is subtracted from the monthly rate for the 40 month plan and the difference is multiplied by the forty months that the service has been in effect. If the monthly rate for the 45 month plan and the monthly rate for the 40 month plan are the same rate, the termination liability charge is zero.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(1) General (Cont'd)

(b) Enterprise SONET Service (ESS)

- When an ESS Ring Transport Service is disconnected during the ESS conversion period and prior to the customer satisfying its minimum service requirement, no termination liability charge applies. However, the ESS Ring Transport Service being disconnected is subject to minimum period requirements as set forth in Section 26.1.2(E) following.
- When an ESS Ring Transport Service is disconnected after the ESS conversion period and prior to the end of the selected commitment period, no termination liability charge applies provided that the minimum service requirement is maintained. However, the ESS Ring Transport Service being disconnected is subject to minimum period requirements as set forth in Section 26.1.2(E) following.
- When all of the customer's ESS Ring Transport Services are disconnected during the ESS conversion period and prior to the customer satisfying the minimum service requirement, the termination liability charge is 100% of the applicable discounted monthly rate, for each ESS Ring Transport Service that in-service as of the date of disconnection, for each month and fraction thereof remaining in the ESS conversion period. In addition, termination liability will apply to the minimum service requirement of 336 equivalent DS1s at 50% of the applicable discounted monthly rate for each month beginning in the nineteenth month (i.e., the month following the ESS conversion period) through the remainder of the customer selected commitment period. For the purpose of determining the termination liability charge applicable after the ESS conversion period, the monthly rate to be applied will be the discounted rate for the "O Mile" mileage band.

ACCESS SERVICE

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(1) General (Cont'd)

(c) Enterprise SONET Service (ESS) (Cont'd)

- When all of the customer's ESS Ring Transport Services are disconnected after the ESS conversion and prior to the end of the customer selected commitment period, termination liability will apply to the minimum service commitment as determined in Section 26.1.2(D) following at 50% of the applicable discounted monthly rate for each month and fraction thereof remaining in the customer selected commitment period. For the purpose of determining the termination liability charge applicable after the ESS conversion period, the monthly rate to be applied will be the discounted rate for the "0 Mile" mileage band. No termination liability charge applies to any of the remaining ESS Ring Transport Service which are in excess of the minimum service commitment, however, such services are subject to the minimum period requirements as set forth in Section 26.1.2(E) following.
- The regulations set forth in (C)(2) through (C)(6) following for upgrades, changes, cancellations, moves and replacements under the Service Discount Plan, respectively, are not applicable to ESS Ring Transport Services or any service connected to an ESS Ring Transport Service.

(TR 1126)

Effective: May 4, 1999

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(1) General (Cont'd)

The monthly rates used to calculate termination liability charges are subject to the reductions, as set forth in Section 5.2.7 preceding when Switched Access Services are provided on a Shared Use Digital High Capacity facility.

When some, but not all, services are disconnected for which a first and additional monthly rate is applicable, the monthly rates used to calculate termination liability charges are applied in ascending order beginning with the lowest applicable rates.

Termination liability for 44.736 Mbps Standard Channel Terminations at a primary premises is calculated based upon the rate band determined by the last count taken.

The termination liability charge applies in addition to applicable minimum period charges.

Termination liability does not apply when IDSR as set forth in Section 26.1 following is converted to an equal or higher speed IDSR under a term plan as set forth in Section 7.2.17 preceding. Time-in-service credit will be granted on the new IDSR term plan based on the number of months that service was under the Service Discount Plan. For example, conversion of IDSR under a 60 month term plan that was in service for 32 months will allow for 32 months of time-in-service credit towards the IDSR term plan under Section 7.2.17.

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(2) Upgrades (Cont'd)

Upgrades include the following types of customer requests:

- A request to disconnect Advanced Uncompressed Digital Video Service (AUDVS) in order to replace it with Serial Component Video Service (SCVS), provided that the total dollar amount of the plan for the SCVS is equal to, or greater than, the total dollar amount remaining in the plan for the AUDVS being disconnected.
- A request to disconnect Broadcast Video Service in order to replace it with Serial Component Video Service.
- A request to disconnect a central office multiplexer when the entire multiplexing arrangement (i.e., Special Access Services and multiplexer) is replaced with Special Access Services provided to NYNEX Enterprise Network Reconfiguration Service Network Access Ports (NRS ports).

The order(s) associated with the new (replacing) services must include the same number and type of Special Access Services as were previously included in the multiplexing arrangement. In addition, the order for each Special Access Service must include the appropriate NRS port for the service ordered.

Termination liability will not apply to the Special Access Services previously included in the multiplexing arrangement provided that the replacement regulations set forth in (6) following are met.

The regulations applicable to replacing an entire mutliplexing arrangement with services provided to NRS ports are set forth in 7.4.1(C)(3) preceding as a Mux to NRS Rearrangement Charge.

- A request to disconnect a discounted Standby Channel Termination and its associated Standby NRS Network Access Port in order to replace them with an active Channel Termination and a non-standby NRS Network Access Port of the same or higher bit rate.
- A request to disconnect some or all of its disconnected NRS Network Access Ports in order to replace them with NRS Network Access Ports of a higher bit rate.
- A request to disconnect some or all of its point to point DIGIPATH digital service II, 1.544 Mbps High Capacity or NYNEX Enterprise DSO, Fractional DS1 or DS1 Service in order to replace them with Special Access Service provided with Frame Relay Service or FRS Access Connections.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(2) Upgrades (Cont'd)

Termination liability charges do not apply to the preceding requests provided that:

- The orders for the disconnect of the existing services or ports and the connect of the new services or ports are placed with the Telephone Company at the same time. (C)
- The new Network Access Ports are provided on the same digital cross-connect system as the replaced Network Access ports were provided.
- The new services are provided between the same locations as the existing services were provided and
- The replacing Special Access Services or ports have a total channel capacity equal to or greater than the total channel capacity of the services or ports being disconnected or (C)
(C)
- The number of replacing channelized services provided over a multiplexed High Capacity facility is equal to or greater than the number of services being disconnected.
- In the case of Digital Data Service, the bit rate capacity of the replacing Digital Data Service, DDS II Service or NYNEX Enterprise Service is equal to or greater than the bit rate capacity of the service being disconnected. For example, one 4.8 kbps service replaces two 2.4 kbps services. This option applies to New York Telephone only.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(3) Changes (Cont'd)

For Video and Advanced Video Services, no termination liability charge applies to the following changes:

- Change in channel interface (i.e., audio bandwidth, audio signal options, number of audio channels).
- Change from two point to multipoint or vice versa provided that the total number of channels under the customer's Service Discount Plan does not decrease. For Advanced Digital Uncompressed Video Service, no termination liability charge will further apply if a multipoint configuration is replaced by two channels, one of which has the Dual Transmit Channel Termination, provided that the same customer designated premises are maintained.
- Change MVS from One-way Transport to interactive. No termination liability charge applies for discontinuance of the One-way Transport Optional Feature.

For High Capacity or NYNEX Enterprise DS1 or DS3 Service or multiplexed High Capacity or groomed NYNEX Enterprise DS1 or DS3 Service, no termination liability charge applies to change such service to an ISAN DS1 or DS3 Transport Service.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(4) Cancellations

A customer may cancel a 10 year Service Discount Plan for 44.736 Mbps Service provided with an optical fiber interface option, without the application of termination liability charges to such cancellation, if the ratio of the sum of 1/3 (for 135 Mbps capacity), 1/9 (for 405 Mbps capacity) or 1/12 (for 560 Mbps capacity) of the applicable discounted optical fiber interface Channel Termination monthly rates and one DS3 to DS1 Multiplexing monthly rate divided by the non-discounted monthly rate of a 1.544 Mbps High Capacity Channel Termination exceeds 10.

In the event that the Telephone Company initiates a rate increase and the total discounted monthly rate for the affected service increases by eight percent (8%) or more, the customer may cancel its service discount plan for the affected service without termination liability as set forth in (C) following. The customer must exercise its option to cancel the service discount plan for the affected service within thirty (30) days of the date of the effective rate increase.

(D)

(D)

A customer may cancel a Service Discount Plan for High Capacity Service or NYNEX Enterprise DS1 or DS3 Service in order to replace it with a SONET Service provided under a term plan as set forth in Section 26. following, provided that the total dollar amount of the term plan for the SONET Service is equal to, or greater than, the total dollar amount remaining in the plan for the service being disconnected. No termination liability charge will apply to such cancellation.

A customer may cancel a Service Discount Plan for Broadcast Video Service, Advanced Broadcast Video Service or Serial Component Video Service in order to replace it with 19.39 Mbps or 45 Mbps Digital Video Transport Service (DVTS) provided under a term plan, provided that the total dollar amount of the term plan for the DVTS is equal to, or greater than, the total dollar amount remaining in the plan for the service being disconnected. No termination liability charge will apply to such cancellation.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(5) Moves

Except for 1.544 Mbps and 44.736 Mbps Service, when a customer requests that some or all of its services under a Service Discount Plan be moved to a different building, no termination liability charge applies provided the services remain on the same billing account. When a customer requests that some or all of its 1.544 Mbps or 44.736 Mbps Service under a Service Discount Plan be moved to a different building, no termination liability charge applies provided the services remain within the same Telephone Company operating territory.

When a customer requests that some or all of its services provided with the Corridor Service Single Company Ordering and Billing Options, as specified in Section 7.2.13 preceding, be moved to a different building no termination liability charge applies provided the services remain within the New York-New Jersey Corridor.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(6) Replacements

- (a) When a customer with existing services or ports under a Service Discount Plan wishes to replace one or more of the service(s) or ports included in that Service Discount Plan with other new or existing services(s) or ports of the same speed or type, as appropriate, for the balance of the commitment period for that Service Discount Plan, no termination liability charge will apply provided that:

- (i) The orders to accomplish the replacement are placed with the Telephone Company at the same time to be completed at the same time, or

For 1.544 Mbps and 44.736 Mbps High Capacity Services, DDS II and Supertrunking Transport Video Services, and their applicable Optional Features and Functions (except as specified in (b) following) or their associated NRS Network Access Ports which are included in the Service Discount Plan, the orders to accomplish the replacement are (1) placed with the Telephone Company within sixty (60) days of each other and (2) the replacing services or ports are provided within the same Telephone Company operating territory as the services or ports that are replaced in the Service Discount Plan, or

For NES Services provided with the Corridor Service Single Company Ordering and Billing Option, the orders to accomplish the replacement are (1) placed with the Telephone Company within sixty (60) days of each other and (2) the replacing services continue to be provided within the New York-New Jersey Corridor, and

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(6) Replacements (Cont'd)

(a) (Cont'd)

(ii) The number of services or ports included in the Service Discount Plan remains the same. The replacing services may not be equipped with the same Optional Features and Functions or BSEs as the services they replace. In this case, the appropriate termination liability charges apply to the Optional Features and Functions or BSEs no longer provided.

(b) When a customer with existing multiplexers under a Service Discount Plan wishes to replace one or more of the multiplexers included in that Service Discount Plan with other new or existing multiplexer(s) of the same type for the balance of the commitment period for that Service Discount Plan, no termination liability charge will apply provided that:

(i) The orders to accomplish the replacement are placed with the Telephone Company at the same time to be completed at the same time, or

For DS3 to DS1, DS1 to DS0 and DS1 to Voice multiplexers, the orders to accomplish the replacement are (1) placed with the Telephone Company within sixty (60) days of each other and (2) the replacing multiplexer is provided in the same Telephone Company operating territory as the multiplexer being replaced in the Service Discount Plan, and

(ii) The number of multiplexers included in the Service Discount Plan remains the same, and

(iii) For multiplexers other than DS3 to DS1, DS1 to DS0 and DS1 to Voice, the replacing multiplexers must be located in the same Telephone Company Hub as the multiplexers being replaced.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(C) Termination Liability (Cont'd)(6) Replacements (Cont'd)

- (c) When a customer with an existing NES FDDI Service configuration under a Service Discount Plan wishes to replace one or more of the Channel Terminations on the configuration included in the Service Discount Plan with other new Channel Termination(s) of the same type for the balance of the commitment period for that Service Discount Plan, no termination liability charge will apply provided that:

- (i) The orders to accomplish the replacement are placed with the Telephone Company at the same time, or the orders to accomplish the replacement are placed with the Telephone Company within sixty (60) days of each other, and
- (ii) The number of Channel Terminations included in the Service Discount Plan remains the same.

(D) Additions of Service

- (1) Except as set forth in (2) through (5) following, when a customer with an existing Service Discount Plan wishes to increase the number of services or Network Access Ports for a NYNEX Enterprise Network Reconfiguration Service it has the following options. (C)

- Subscribe to the additional services under non-discounted rates.
- Subscribe to the additional services under a separate Service Discount Plan at the then effective discount percentage, rates and charges.
- Cancel the existing Service Discount Plan and include both the existing and the additional services under a new Service Discount Plan for a commitment period equal to or longer than the original period. No termination charges apply to such cancellation.

When a customer with an existing Service Discount Plan on its NYNEX Enterprise Services wishes to add NYNEX Enterprise Network Reconfiguration Service (NRS) capability to those services, the customer may add the NRS capability to its existing Service Discount Plan for the balance of the commitment period on the associated service, at the rates specified for the existing commitment period.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(D) Additions of Service (Cont'd)

- (1) When a customer with an existing Service Discount Plan wishes to increase the number of Channel Terminations or Channel Mileage, if applicable, to its NES FDDI Service, the customer may do so for the balance of the commitment period remaining in its Service Discount Plan. Effective November 3, 2000, NES FDDI is no longer available to new customers. (C)
- (3) For additions of service to an existing IDSR service under Section 26.1 following, the new services will be added for the remainder of the commitment period with the same discount percentage as the other services under the plan. At the end of the commitment period, the customer must convert, or disconnect, the existing service and any additional services in accordance with the footnote specified on Page 26-1 following. (C)
- (4) A customer with an existing Service Discount Plan wishing to add an optional feature or function or BSE to an existing service has the following options:
- Cancel the existing Service Discount Plan for the service and include both the optional feature or function or BSE and its corresponding service under a new Service Discount Plan for a commitment period equal to or longer than the that of the cancelled plan for the corresponding service. No termination charges apply to such cancellation.
 - Subscribe to the Optional Feature or function or BSE under the existing service discount plan for a commitment period equal to the number of months remaining in the commitment period for the corresponding service, if such a commitment period exists for the applicable optional feature or function or BSE.
- (5) When a customer with ESS wishes to increase the number of ESS DS1 or DS3 Ring Transport Services, the additional services will be added for the balance of the commitment period.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(E) Extension of Commitment Period

- (1) For all services, a customer may, at any time prior to the expiration of the selected commitment period for an existing Service Discount Plan, change to a Service Discount Plan with a longer commitment period at the then effective discount percentage. No termination liability charges will apply for any service or Network Access Ports extended under the longer commitment period. The monthly rates applicable for the longer commitment period will apply effective with the next bill day following the request for the change. (C)
- (2) For IntelliLight® Dedicated SONET Ring (IDSR), the customer also has the option, within sixty (60) days prior to the expiration date for its commitment period, to extend its expiring Service Discount Plan to a plan with longer commitment period, for which time-in-service credit will be allowed for the expiring plan. The commitment period selected for the extended plan must be longer than the commitment period of the expiring plan as follows:
- An expiring 36 to 47 months plan may be extended to either a 48 to 59 months plan, a 60 to 71 months plan or an 84 to 95 months plan; or
 - an expiring 48 to 59 months plan may be extended to either a 60 to 71 months plan or an 84 to 95 months plan; or
 - an expiring 60 to 71 months plan may be extended to an 84 to 95 months plan.

Time-in-service credit on the expiring plan will be granted and applied towards the new extended plan. For example, an expiring 48 months plan will allow for 48 months of time-in-service credit towards the extended plan.

The discount percentage associated with the extended plan will apply effective with the first bill day following expiration of the commitment period for the existing plan and continue through the remainder of the commitment period associated with the extended plan. No adjustment for the increased discount percentage associated with the extended plan will be made to the monthly rates already billed on the expiring plan.

(TR 1345)

Issued: October 30, 2000

Effective: November 14, 2000

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.10 Service Discount Plan (Cont'd)(F) Rate Regulations

Where the Service Discount Plan is requested to be provided coincident with the connection of new service, it will be effective with the establishment of service.

Where the Service Discount Plan is requested to be provided on existing service, the plan will be effective on the date the Telephone Company receives the Access Order requesting the discount.

When a Service Discount Plan is provided on Enterprise SONET Service, the commitment period for the Service Discount Plan will be effective with the establishment of the first ESS Ring Transport Service on the ring.

Unless otherwise noted, at the end of its selected commitment period, the customer will have the option of subscribing to any then effective Service Discount Plan. If the customer does not notify the Telephone Company of its choice prior to the expiration of the commitment period, the customer's current Service Discount Plan will be renewed upon expiration of the selected period. The renewed plan will have a commitment period equal to that originally selected by the customer and the plan will be considered new. For NES FDDI Service, prevailing rates for the the expiring commitment period will continue to apply. (C)
(C)
(C)

If the customer notifies the Telephone Company of its choice within the first sixty days of the date of renewal, the customer may cancel the renewed plan and subscribe to any then effective Service Discount plan or continue with the renewed plan. If, within the first sixty days of the date of renewal, the customer elects to cancel the renewed plan and subscribe to the service on a month-to-month basis or subscribe to a then effective Service Discount Plan, termination liability will not apply.

(TR 1341)

Issued: October 19, 2000

Effective: November 3, 2000

Vice President
2980 Fairview Park Drive, Falls Church, VA 22042

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulation (Cont'd)7.4.10 Service Discount Plan (Cont'd)(G) Rate Stability and Base Rates

For services provided with Rate Stability, the discount percentage is applied to the Rate Stability base rates specified in Section 31.7 following. Such rates will not be subject to Telephone Company initiated rate increases over the commitment period selected by the customer. However, the Telephone Company may initiate an increase in the discount percentage, thereby causing a decrease in the rates applicable to the customer. In no case will the Rate Stability base rate exceed the non-discounted monthly rate for the service.

For services provided with Base Rates (without rate stability), the discount percentage is applied to the Base Rates specified in Section 31.7 following. Such rates are not rate stable and may change during the commitment period, causing an increase or decrease in the rates applicable to the customer. In no case will the Base Rate exceed the non-discounted monthly rate for the service.

(H) Prepayment Option for Fiber Based Multichannel Video Service (FBMVS), NYNEX Enterprise Service Fiber Distributed Data Interface (NES FDDI) and Intellilight Dedicated SONET Ring (IDSR)

A customer subscribing to MVS, NES FDDI* or IDSR Service under a Service Discount Plan may, at any time during the commitment period, elect to prepay a portion or all recurring charges for the remainder of the commitment period. For partial prepayments, a minimum of twelve (12) months of the Service Discount Plan commitment period may be prepaid. The prepayment amount will be calculated using the monthly rate in effect at the time the prepayment option is elected, adjusted by the prime lending rate in effect when the prepayment amount is calculated. Recurring charges will cease for the portion of the commitment period which was prepaid. No adjustments will be made for Telephone Company initiated rate changes which may occur subsequent to the customer's election to prepay. Upon expiration of the service period for the selected Service Discount Plan, regulations set forth in (E) and (F) preceding apply. When a customer electing the Prepayment Option discontinues the Service Discount Plan prior to expiration of the service period, credit for the unused portion of the monthly charges already paid will apply. Such credit will include an adjustment for the prime lending rate in effect when the prepayment was calculated, reduced by the appropriate termination liability charges as specified in (C) preceding. (C)

* Service availability limited. See Section 23.1 for more information. (N)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulation (Cont'd)7.4.11 Shared Billing Arrangement

Each Host Customer and Service User entering into a Shared Billing Arrangement is solely responsible to the Telephone Company for charges associated with that customer's portion of the shared multiplexed or groomed service. Disconnection of service by the Host Customer does not relieve the Service User of the shared multiplexed or groomed service of any obligation to pay access charges associated with the portion of the shared multiplexed or groomed service to which that Service User subscribes. Billing for services and facilities will continue until a disconnect request from the Host Customer or Service User has been received by the Telephone Company. The Host Customer of a Shared Billing Arrangement is solely responsible for notifying the connecting Service User(s) participating in the Shared Billing Arrangement in the event of disconnection of the Host Customer's service.

(TR 1126)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.11 Shared Billing Arrangement (Cont'd)

For administrative purposes, one "Arrangement" under the High Capacity or IntelliLight® Dedicated SONET Ring (IDSR) Shared Billing Arrangement option shall be limited to one Host Customer permitting one Service User to connect a specified number of services to one specified multiplexer on the Host Customer's service. A subsequent request by the Service User to increase the number of services connected to the same multiplexer shall not constitute a new or separate "Arrangement".

For administrative purposes, one "Arrangement" under the NYNEX Enterprise Service Shared Billing Arrangement option shall be limited to one Host Customer permitting one Service User to connect a specified number of services to one specified NYNEX Enterprise DS1 or DS3 channel on the Host Customer's service at the NES Hub. A subsequent request to increase the number of services connected to the same NES DS1 or DS3 channel shall not constitute a new or separate "Arrangement".

A Shared Billing Arrangement shall be established between a Host Customer and a Service User upon the completion of the service order for the first circuit(s) in the Arrangement. A Shared Billing Arrangement shall be deemed cancelled when the last circuit in the Arrangement belonging to the Service User has been disconnected.

A Processing Charge will apply for each Service User DS1, DS3 or STS-1 order processed for a Shared Billing Arrangement. The High Capacity and IDSR Shared Billing Arrangement Processing Charge is contained in Section 31.7.9 following and the NYNEX Enterprise Service Shared Billing Arrangement Processing charge is contained in Section 31.7.15 following. The order processing charge does not apply when a Service User's IBT Service is connected to a Host Customer's IDSR or between two separate Host Customer's IDSR rings. The order processing charge applies in addition to all other applicable rates and charges for the Service User's service(s).
