## ACCESS SERVICE

28. Expanded Interconnection (Cont'd)28.2 Undertaking of the Telephone Company - Fiber Optic - Physical28.2.1 Power (Cont'd)

(D)	The customer is responsible for engineering the power consumption in its Expanded Interconnection arrangements and therefore must consider any special circumstances in determining the fused capacity of each feed. The Telephone Company will engineer the power feeds to the Expanded Interconnection arrangement in accordance with industry standards based upon requirements ordered by the customer in its Expanded Interconnection application. Any subsequent orders to increase DC power load at an Expanded Interconnection arrangement must be submitted on an Expanded Interconnection application.	(S)(x)

## ACCESS SERVICE

28. Expanded Interconnection (Cont'd)28.5 Undertaking of the Telephone Company - Fiber Optic - Virtual (Cont'd)28.5.1 Provision of Service (Cont'd)

- (E) The Telephone Company is responsible for pulling the fiber from manhole zero into and through the Cable Entrance Facility (i.e., vault) to the splice point, for providing and mounting the appropriate splice enclosure or shelf and for performing the splice to Telephone Company provided Optical Fiber Non-metallic Riser-rated (OFNR) type cable. The customer will be subject to Additional Labor Charges will apply as set forth in 31.13.2 following.
  - (F) The physical point of interface for connection to the virtual arrangement is referred to as manhole zero. From this manhole into the central office, the Telephone Company shall assume ownership of and maintain the fiber.
  - (G) The Telephone Company will provide and maintain the OFNR type fibers, associated fiber distribution frame termination, splice enclosure and that portion of the Telephone company-owned, customer-provided cable between manhole zero and the central office splices. The Entrance Fiber Termination Rate as set forth in Section 31.28 following will apply to the customer on a per termination basis in units of twelve (12) strands of fiber.
  - (H) The Telephone Company will provide and maintain cross connections between the entrance fiber terminations and the virtual collocation equipment. The customer will be subject to the Equipment Fiber Distribution Frame to Virtual Collocation Arrangement rate, per two strands of fiber, as set forth in 31.28 following.
  - (I) The Telephone Company will provide -48 VDC protected power to the customer's equipment. The DC Power rate as set forth in 31.28 following will apply per load amp ordered on each feed. (S)(x)  
  
DC power for Expanded Interconnection virtual collocation arrangements is provided under the same terms and conditions which apply for physical Expanded Interconnection arrangements as set forth in 28.2.1 preceding. (S)(x)  
(S)(x)  
(C)(y)
  - (J) The Telephone Company shall provide monthly support services for the customer, subject to the Equipment Support Rate set forth in 31.28 following, which includes the cost of providing floor space, rack space for the equipment to be mounted, environmental support, and central office and environmental alarming to directly support the equipment itself. Rack space excludes DC power and fuse panel. The Telephone Company will notify the customer if a local office alarm detects an equipment affecting condition.
- (x) Reissued material originally filed under Transmittal No. 1373 and scheduled to become effective April 26, 2001.
- (y) Issued on the same day's notice under authority of Special Permission No. 00-030 of the Federal Communications Commission.

ACCESS SERVICE

## 28. Expanded Interconnection (Cont'd)

## 28.9 Universal Regulations for Fiber Optic and Microwave Expanded Interconnection (Cont'd)

### 28.9.9 Telephone Company Inspection (Cont'd)

- (B) The Telephone Company reserves the right to make subsequent and periodic inspections (of any part of all) of the customer's equipment and facilities occupying the multiplexing nodes(s) and, as appropriate, associated roof space, transmitter/receiver space and cable space for purposes of averting any threat or harm inadvertently imposed by the customer upon the operation of Telephone Company equipment, facilities and/or personnel located outside of the customer's multiplexing node and other associated space.

The customer has the right to be present at such inspections. The Telephone Company will provide 15 days' written notice to the customer for non-emergency inspections. The customer will be charged for such inspections if the customer is found to be in non-compliance with the terms and conditions of this tariff. The rates and charges for such inspections are set forth in Section 31.13.2 following.

The customer will be billed DC power based on the number of load amps ordered on each feed in its Expanded Interconnection application. The Telephone Company also reserves the right to perform random inspections to verify the actual power load being drawn by Expanded Interconnection arrangements. At any time, without written notice, the Telephone Company may measure the DC power drawn at an arrangement by monitoring the power distribution point. In those instances where the Telephone Company needs access to the customer's Expanded Interconnection arrangement to make these measurements, the Telephone Company will schedule a joint meeting with the customer.

$$\begin{array}{c} (S) (x) \\ | \\ (S) (x) \\ (C) (y) \end{array}$$

#### 28.9.10 Rights of the Telephone Company

The rights retained by the Telephone Company shall include but not be limited to the following:

- The Telephone Company reserves the right to reasonably specify the type of cable, waveguide, equipment and construction standards reasonably required in situations not otherwise covered in this tariff. In such cases, the Telephone Company will at its discretion furnish to the customer written material which will specify and explain the required construction.

- (x) Reissued material originally filed under Transmittal No. 1373 and scheduled to become effective April 26, 2001.
- (y) Issued on the same day's notice under authority of Special Permission No. 00-030 of the Federal Communications Commission.
