8. Operator Services8.1 Inward Operator Services8.1.1 General

Inward Operator Services enable customers to be connected to Telephone Company Traffic Operation Position Systems (TOPS) office(s) for the purpose of providing operator services to their end users.

8.1.2 Service Description(A) Busy Line Verification (BLV)

BLV is a service where, at the request of the customer's operator, a Telephone Company operator will attempt to determine the status of an exchange service line (e.g., conversation in progress, available to receive a call or out of service) and report to the customer's operator.

(B) Busy Line Verification/Interrupt (BLV/I)

BLV/I is a service where, at the request of the customer's operator, a Telephone Company operator determines and reports that a conversation is in progress on an exchange service line and subsequently interrupts such conversation to request that the conversation be terminated so that the customer's end user can attempt to complete a call to the line.

8.1.3 Technical Specifications

Inward Operator Services are provided over trunks between the customer's premises and Telephone Company TOPS Office(s). Where FGD or CST BSA - Option 3 trunks which carry other customer traffic are used, the technical specifications for such trunks apply. Where FGD or CST BSA - Option 3 trunks arranged exclusively for Inward Operator Services are used, the following technical specifications apply:

ACCESS SERVICE

8. Operator Services (Cont'd)8.2 Operator Passthrough Service8.2.1 General

Operator Passthrough Service enables a customer who provides operator services to receive calls passed through to it by the Telephone Company, within a specified LATA, for the purpose of operator assisted call completion or, for customers who do not provide operator services, Operator Passthrough Service enables end user calls to be passed through to either a customer designated Operator Services Provider or a Telephone Company provided recording. Operator Passthrough Service is only available in end offices equipped with Feature Group D or CST BSA - Option 3.

8.2.2 Service Description

Operator Passthrough Service provides end users with access to the operators of the customer for operator assisted call completion, when the customer provides operator services for end users for calls originating from a particular LATA and is capable of receiving calls passed through to it by the Telephone Company in that LATA.

The Telephone Company will, when requested by an end user, connect that end user to a specified customer for operator call completion provided that customer offers operator services in the end user's originating LATA and is capable of receiving calls passed through to it by the Telephone Company in that LATA.

If the customer does not provide operator services for end users, at the option of the customer, the Telephone Company will provide end users with access to a customer designated Operator Services Provider or to a Telephone Company provided announcement which will direct the end user to contact their Presubscribed Interexchange Carrier for dialing instructions. For customers who opt to designate an Operator Services Provider, only one Operator Services Provider may be designated within a specified LATA.

8.2.3 Rate Regulations

- (A) The Operator Passthrough charge, which includes the costs associated with handling the operator traffic, applies on a per call passed through basis.
- (B) The customer will be assessed the Operator Passthrough Charge per call passed through to either the customer's operator or a Telephone Company provided recording.
