¹ AT&T Comments at 33.

including internet, plus the derived inter-local terminating traffic is assigned to the local jurisdiction. This revised calculation reduces inter-local traffic and results in a corresponding relative increase in traffic allocated to other jurisdictions, including interstate.

AT&T's utilization of simple regression analysis to analyze interstate DEM is inappropriate given the improved precision in reflecting traffic volumes inherent in the DEM calculation.

For the above reasons, AT&T's petition should be denied.

Respectfully Submitted,

ALLTEL Corporation
