SECTION 1 - APPLICATION OF SERVICE

(T)

1.1. APPLICATION

(T)

1.1.1. General - This tariff applies to interstate intraLata Message Telecommunications Service (IIMTS) furnished or made available by the Cincinnati Bell Telephone Company, hereinafter referred to as the Company, and for IIMTS furnished or to be furnished by concurring, connecting, or other participating carriers, as set forth in 1.1.1.A through 1.7.1.D following. Service under this tariff is furnished only between stations in the Cincinnati LATA.

(T)

- A. Interstate service between points in the Cincinnati LATA as specified in Section 3.
- B. Public land mobile radio telephone service as specified in Section 4.
- C. Maritime mobile radiotelephone service as specified in Section 5.
- D. Conference service as specified in Section 6.

(T)

1.1.2. Customer Provided Facilities - Where IIMTS is available under this tariff for use in connection with customer provided facilities, the regulations and rates for each call made are those applicable for IIMTS i.e., Dial Station, Customer Dialed Calling Card Station, Operator Station, Person-to-Person, or Conference, according to the connection established.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

SECTION 2 - GENERAL REGULATIONS

(T)

2.1. Undertaking of the Company

2.1.1. General - IIMTS is the furnishing of those service components (T)

required for telecommunications between stations in different states, but within the same LATA in accordance with the regulations and system of charges specified in this tariff. The message charges specified in this tariff are in payment for IIMTS furnished between the calling and called stations.

(T)

The Company does not transmit messages. However, IIMTS may be used for that purpose.

(T)

2.1.2. Provision of Customer Equipment - Customer equipment may be used (T)

with IIMTS. The Company does not provide customer equipment.

2.1.3. Through Transmission of Signals - The Company is responsible for (T)

the provision of IIMTS from station to station. It is not responsible for the quality of transmission or signaling on the Customer's side of the interface at a Customer's premises.

2.1.4. Availability of Service (T)

A. The use and restoration of IIMTS will be in accordance with Part 64, Subpart D, of the Federal Communications Commission's Rules and Regulations.

B. Subject to compliance with 2.1.4.A. preceding, where a shortage of service components exists at any time either for temporary or protracted periods, the establishment of two-point IIMTS, provided Under Section 3 of this tariff, shall take precedence over all other services provided by the Company.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2.1.4 Availability of Service (continued)

C. Service is furnished subject to the availability of the service components required. The Company will determine which of those components shall be used and make modifications to those components at its option.

D. When connections are made to Customer- or Other Common Carrier-provided communications systems at a premises where the Customer does not originate or terminate communications, the Company may require that the exchange telephone service be furnished from a Company central office(s) different from the central office(s) designated by the Company to serve that premises.

(Z)

2.1.5. Limitations on Duration of Connections - The Company reserves the right to limit the duration of connections when necessary because of a shortage of service components caused by emergency conditions.

2.2. USE

2.2.1. General - IIMTS may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications network. IIMTS is furnished for use by the Customer but may be used by others when so authorized by the Customer.

2.2.2. Non-Voice Transmission - IIMTS may be used for non-voice transmission on a two-point basis between points within the LATA.

2.2.3. Resale and sharing - Company-provided local business exchange service may be used for the purpose of providing access to resold or shared IIMTS notwithstanding any tariff regulations respecting resale and sharing contained in the Company's General Exchange Tariff.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

- 2.2.4. Abuse - The abuse of IIMTS is prohibited. The following activities constitute abuse: (T)
- A. Using IIMTS to make calls, anonymous or otherwise, in a manner which might reasonably be expected to frighten, abuse, torment, or harass another;
 - B. Using profane or obscene language;
 - C. Using IIMTS in such a way that it interferes unreasonably with the use of the service by others.
- 2.2.5. Fraudulent Use - The fraudulent use of, or the intended or attempted fraudulent use of, IIMTS is prohibited. The following activities constitute fraudulent use:
- A. Using IIMTS to transmit a message, locate a person, or otherwise give or obtain information, without payment for the service;
 - B. Using or attempting to use IIMTS with the intent to avoid the payment, either in whole or in part, of the tariffed charges by:
 - 1. Rearranging, tampering with, or making connections not authorized by this tariff to any service components used to furnish IIMTS;
 - 2. Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices, or electronic devices. (T)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2.3 RESPONSIBILITY OF THE COMPANY

(T)

2.3.1. Liability

- A. In view of the fact that the Customer has exclusive control of his communications over IIMTS, and of the other uses for IIMTS, and because of the unavailability of errors incident to the use of IIMTS, the services furnished by the Company are subject to the terms, conditions and limitations specified in B. through F. following.
- B. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a Customer or by any others, for damages associated with any aspect of the provision of service (including the failure to reach a called station), and subject to the provisions of C. through F. following, the Company's liability, if any, shall not exceed an amount equal to the initial period charge applicable for such a message to the called station. This liability shall be in addition to any billing adjustments that may otherwise be appropriate.
- C. The Company shall be indemnified, defended, and held harmless by the Customer and User against all claims, losses, or damages arising from the use of IIMTS furnished pursuant to this tariff, involving:
 - 1. Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication;
 - 2. Claims for patent infringement arising from combining or using IIMTS furnished by the Company in connection with facilities or equipment furnished by others; or
 - 3. All other claims arising out of any act or omission of others relating to IIMTS provided pursuant to this tariff.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2.5.7. Deposits (continued)

- A. Interest on a Cash Deposit - Interest will be paid to a Customer for the period that a cash deposit is held by the Company. The interest rate used will be simple interest at the rate of six percent annually unless a different rate has been established by the appropriate legal authority within the state.
- B. Return of a Deposit - Any deposit collected will be credited to a Customer's account, when the Customer has established credit, or when the Customer has established a prompt payment record with the Company for one year. At the option of the Company, such a deposit may be refunded or credited to the Customer at any time prior to termination of the service.

2.5.8. Termination of Service for Cause - Upon nonpayment of any sum due the Company, or upon violation of any of the conditions governing the furnishing of service, the Company may, by notice in writing to the Customer, without incurring any liability, forthwith discontinue the furnishing of said service.

2.5.9. Optional Billing Arrangements - When an IIMTS call is not billed to the calling station, the Company offers certain billing options depending on the type of call. These options are:

- A. Collect Calls - This option allows a call to be billed to the called station, if the charges are accepted by the called party, station, or number. Collect calls are not acceptable at a public or semi-public coin station. In lieu of a collect call to a public or semi-public coin station, the charges may be billed to a Calling Card as specified in B. following, or to a Third Number as specified in C. following, or the call may be re-originated from the called station.

(T)
(T)

- 2.5.9. Optional Billing Arrangements (continued) (N)
- B. Calling Card - This option enables a Customer to charge a call to an authorized Calling Card. Calls charged to a Calling Card will then be included on the IIMTS bill for the telephone number with which the card is associated. Calls charged to a commercial credit/charge card must be made from a suitably equipped telephone. Charges for the IIMTS call will be reflected on the statement issued by the respective commercial credit/charge card institution.
- C. Third Number Billing - This option allows a call to be billed to a telephone number identified with a station other than the calling or called one. Charges to be billed to a third number are subject to verification by the Company that they will be accepted at the third number, prior to completion of the call. Other efforts may be undertaken subsequently by the Company, if necessary, to determine responsibility for payment of such calls. (N)

2.6. CREDIT ALLOWANCES FOR INTERRUPTIONS

(N)

2.6.1. General - A credit allowance is applicable to that portion of the call which is interrupted due to poor transmission (e.g., noisy circuit condition), one-way transmission (one party is unable to hear the other), or involuntary disconnection (cut-off) of the call caused by components of IIMTS. A Customer may also be granted credit for reaching a wrong number. To receive the proper credit, the Customer must notify the company operator or Company office and furnish the called number, the trouble experienced (e.g., cut-off, noisy circuit, reached wrong number, etc.), the class of call, and the approximate time the call was placed. At the Customer's option, when the Company operator is notified, the operator will attempt to re-establish the call. IIMTS charges will apply to the re-established call. Credit allowances for interruptions to a call to interstate intraLATA Directory Assistance are stated in Section 3.1.4.D. following.

A. Interruptions to Established Calls - When a call to be billed under this tariff is interrupted due to cut-off, one-way transmission, or poor transmission conditions, the Customer will receive credit equivalent to one minute (i.e., the last minute of the call).

B. Wrong Numbers - When a wrong number is reached, a credit equivalent to one minute (i.e., the last minute) for the call will be granted if the Customer reports the situation promptly to the Company operator or a Company office.

C. When Credit Allowances Do Not Apply - Credit allowances for an IIMTS call do not apply for:

- Interruptions not reported to the Company,
- Interruptions that are due to the failure of power, equipment or systems not provided by the Company, or
- Interruptions caused by the failure of other services provided by this Company which are connected to IIMTS.

2.6.2. Use Another Means of Communication - If the Customer elects to use another means of communication during the period of interruption, the Customer must pay the charges for the alternative service used.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2.9 RATE DETERMINATION- The rate for an IIMTS call which is charged on a per call basis is determined by factors such as:

- The distance between the rate centers of the originating (calling) station and the terminating (called) station,
- The time of day and the day of week,
- The duration of the call, and
- The class of service applicable to the call.

The specific factors which apply to a given IIMTS call and their application are listed in the rate section applicable to that type of call. The regulations pertaining to those factors are as follows:

2.9.1 Distance Measurements - the distance between two stations within the LATA is measured on the basis of airline mileage between rate centers as described in Section 7 following.

(T)

2.9.2 Time of Day and Day of Week - The rate charged is determined by the day and time (standard or daylight savings) at the rate center of the calling station.

2.9.3 Class of Service - For the purpose of rate application, one of the the following classes of service may apply to an IIMTS call:

- A. Dial Station** - Dial Station rates apply when the person originating the call dials the telephone number desired without the assistance of a Company operator, and the call is billed to the calling station. Dial Station does not include calls from public or semi-public coin telephones. Dial Station rates also apply when:

1. A Company operator is used only to record the calling station number where no automatic recording equipment is available.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2.9.3.A. Dial Station (continued)

- | | |
|---|-----|
| | (T) |
| 2. A call is placed from a dormitory station and a Company operator records a special identification number issued by the Company for billing purposes to students of colleges or universities. The calling station must be equipped with Direct Inward Dial and Identification Outward Dial service. | (T) |
| 3. A call is forwarded by Call-Forwarding equipment. | (T) |
| 4. A Company operator reaches the called station because the calling party could not complete the call due to trouble on telecommunications network. | (T) |
| 5. A Company operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap. | (T) |
| 6. A Company operator reestablishes a Dial Station call that has been interrupted after the called station has been reached. | (T) |
| 7. Calls are originated from vessels which have an assigned Company Marine Identification Number (MIN). | (T) |
| 8. A Company operator places a call because service components are not available for dial completion. | (T) |
| B. Operator Station - Operator Station rates apply when calls are completed with the assistance of a Company operator, except as specified for the Dial Station, Customer Dialed Calling Card Station, or Person-to-Person classes of service. Operator Station rates also apply to: | (T) |
| 1. Calls originated at a public or semi-public coin telephone (except for Person-to-Person and Customer Dialed Calling Card Station) and | (T) |
| 2. Calls for which the Company furnishes time and/or charge information to Customers such as hospitals, hotels or motels to permit the collection of charges for calls dialed by extension users. | (C) |

2.9.3. Class of Service (continued)

- C. Customer Dialed Calling Card Station - Customer Dialed Calling Cards rates apply when the person originating the call: (T)
- 1. Dials the telephone number desired and completes the call without the assistance of a Company operator and the call is billed to a Calling Card, or (T)
 - 2. Dials the telephone number desired and Company operator assistance is limited to recording the Calling Card number for billing purposes, or (T)
 - 3. Dials the Company operator and places a Calling Card station-to-station call when equipment capability precludes any of the foregoing. (T)
- D. Person-to-Person - Person-to-Person rates apply when the person originating the call specifies the particular party to be reached by the Company operator. That party may be: (T)
- 1. A person.
 - 2. A mobile station through a Miscellaneous Common Carrier Attendant.
 - 3. A station, department, or office through a PBX attendant.
- After the called station has been reached, if the calling party requests or agrees to speak to a party other than the party initially specified, the call is still classified as Person-to-Person. The calling party is responsible for identifying the party at the called station. (T)
- Person-to-Person rates also apply when the call originator requests a Company operator to make arrangements with a called party to establish a call at a specified time. (T)

2.9.3.D. Person-to-Person (continued) (T)

The Company does not undertake to bring a called party to a station who cannot be readily reached at the called station. (T)

(D)

2.9.4 Timing of Messages - Chargeable time includes the initial period plus the additional period, if any, and is determined as follows: (D)
(T)

A. When a message is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the message occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate at the start of the minute applies.

B. On Dial Station, Operator Station, and Customer Dialed Calling Card Station messages, chargeable time begins when connection is established between the calling station and the called station. (T)

C. On Person-to-Person messages, chargeable time begins when connection is established between the calling station and a specified person, station, department, office, or an agreed-upon alternate.

D. Chargeable time ends when the calling station "hangs-up". If the called station "hangs-up" but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by a Company operator. (T)

SECTION 3 - SERVICE CLASSIFICATION, RATE APPLICATION AND RATES

3.1. INTERSTATE INTRALATA SERVICE - SCHEDULE I

3.1.1. Application - Schedule I applies to service between two points in the LATA as set forth in 3.1.2 and 3.1.3 following. Service between three or more points [Conference Service] is furnished as set forth in Section 6 following.

3.1.2. Mileage Measurement

- A. Rates for service between points in the LATA are based on the airline mileage between rate centers. A list of rate centers in the LATA are as provided in Section 7 following. Airline mileages between rate centers are determined as provided in Section 7 following. In general, each point in the LATA is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.** (T)
- B. Rate Determination - Schedule I - Rates applicable for the mileage obtained are as provided in 3.1.3.H. following.** (T)

3.1.3. Rate and Charge Application

A. Classes of Service

- 1. Service is offered on a Dial Station, Customer Dialed Calling Card Station, Operator Station or Person-to-Person basis.**
- 2. In order to control fraud, the Company may refuse to accept Calling Cards which it determines to be invalid and/or may limit the use of Calling Cards to or from areas in the LATA.**

E. Rates Applicable for Hearing or Speech Impaired Persons

1. Application - Persons who have been certified in writing by a licensed physician, audiologist, speech pathologist or appropriate State or Federal Agency as having a hearing or speech impairment, which precludes oral communications and who have and use a telecommunications device for visual communications, will receive an adjustment on customer dialed station calls which do not require the intervention of a Company operator. The adjustment is applied to the appropriate rate schedules according to the following:
 - (a) Calls placed during the Day rate period will be charged at the Evening rate. (Z)
 - (b) Calls placed during the Evening rate period will be charged at the Night and Weekend rate. (Z)
2. Certification - The written certification of the speech or hearing impairment must be presented to the Company Business Office which serves the residence of the certified person.

The Company Business Office, upon request, will provide a certification form for use by the applicant.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

- 3.1.3. E. Rates Applicable for Hearing or Speech Impaired Persons (continued) (T)
3. Limitations - The adjustment is provided for use by the speech or hearing impaired customer. It is only applicable to IIMTS charges for calls originated from and billed to the telephone Exchange Service of the residence of the certified speech or hearing impaired person. Only one Exchange Service number at a residence is authorized this rate adjustment. (T)
- F. Reversal of Charges (Collect Calls) - Collect calls are permissible for all Interstate IntraLATA telephone calls except messages to which Dial Station rates apply, or messages to a public or semi-public coin station. The regularly established Operator Station or Person-to-Person rates apply. (N)
- G. Rates Applicable on Certain Holidays - On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the rate applicable is the Evening rate, unless a lower rate would normally apply. (T)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

3.1.4. Directory Assistance (continued) (T)

C. Handicapped Exemption - Those handicapped Customers who qualify for exemptions from local Directory Assistance charges under Local Exchange Company tariff(s), or in the absence of a local Directory Assistance charge plan, receive special rates on other Local Exchange Company services, are exempted from the interstate Intra-LATA Directory Assistance Charge. This exemption applies only to calls to Directory Assistance which are billed to the handicapped Customer's residence telephone number. (T)

D. Credit - A credit will be given for calls to Directory Assistance when: (T)

- the Customer experiences poor transmission or is cut-off during the call,
- the Customer is given an incorrect telephone number, or
- the Customer inadvertently misdials (e.g., the caller dialed 202-55-1212 when they intended to dial 201-555-1212.)

To receive the credit, the Customer must notify a Company operator or Business Office of the problem experienced.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

SECTION 4: PUBLIC LAND MOBILE RADIOTELEPHONE SERVICE

4.1 THROUGH BASE STATIONS OF THE TELEPHONE COMPANY

4.1.1 Application

- A. Conditions - Two-way communication service is furnished through radiotelephone Base Stations listed in 3.2.1.C. following, between a vehicle and a point located outside the land mobile service area associated with such Base Station.
- B. Availability - Public Land Mobile Service is available to vehicles equipped for this service when within range of a Base Station through which such service is furnished subject to transmission, atmospheric and like limitations.

This service is also available through a Base Station, between a point or a vehicle and another station, hereinafter called an "Other Station," which is authorized by the Federal Communications Commission to communicate with the Base Station, or between two Other Stations so authorized.

In the application of regulations and rates, stations other than vehicles which are authorized by the Federal Communications Commission to communicate with a Base Station are considered as vehicles.

4.1.2. Mileage Measurements - Rate Determination

- A. Mileage Bands - Rates for service as set forth in 4.1.2.B. following are based on airline mileage between rate centers or mileage rate bands. V and H coordinates for Base Station rate centers are listed in Section 7 following.

(T)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

- 4.1.2. Mileage Measurements - Rate Determination (Continued) (T)
- B. Rate Determination - For intraLATA service, mileage is measured between the rate center of the point in the LATA and the rate center of the Base Station serving the vehicle in accordance with the provisions of 3.1.2. preceding. Rates for the mileage obtained are applied as specified in 4.1.3.A. following.
- 4.1.3. Rate and Charge Application
- A. Rates - The rates, according to the type of connection established, for the mileage or mileage rate band between the applicable rate center or point in the LATA and the rate center of the serving Base Station, apply as specified in the rate tables for Interstate IntraLATA Service under 3.1.3.H. of this tariff for service as set forth in 4.2.1.B. preceding.
- B. Charges - When the service connection involves a call to or from a Transient Land Mobile Unit and requires the assistance of an operator, the Operator Station or Person-to-Person rate shall apply as applicable. When the call is placed without the assistance of an operator, the Dial Station rate shall apply. (T)
- C. Rate Centers - The rate centers for the Interstate IntraLATA Base Stations for mobile service are Florence, Kentucky and Cincinnati, Ohio. (T)

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

4.2. THROUGH MISCELLANEOUS COMMON CARRIER

4.2.1. Application - Service is available to and from customers of the miscellaneous common carriers (as defined in Part 22 of the F.C.C. Rules), listed in 4.2.2.A. following, through connecting facilities provided by the Company in accordance with the provisions set forth in 4.2.1.A. through 4.2.1.E. following.

A. Mileage Measurement and Rate Determination - Rates between the rate center applicable to the miscellaneous common carrier (MCC) and the applicable rate center of the point or applicable mileage rate band are those set forth in 3.1. Additional charges, which the MCC bills to and collects from its customers, are applicable to the remainder of the haul, as set forth 4.2.2.A. following or in the tariff indicated in 4.2.2.B. following. V and H coordinates for the rate centers applicable to the MCC are listed in Section 7 following.

(T)

B. Connections and Interchange of Traffic - Subject to the availability of facilities and the reasonable requirements of the Company for its telecommunications services, the Company will, at the MCC's request, extend and physically connect its facilities with those of the MCC for the purpose of interchanging interstate interLATA traffic in connection with the MCC's Domestic Public Land Mobile Radio Services (as defined in Part 22 of the F.C.C. Rules). Such connection and interchange of traffic shall be as follows:

1. Two-Way Mobile Traffic - The Company will extend and connect its facilities between any telephone exchange whose rate center is located in the MCC's Reliable Service Area (as defined in Part 22 of the F.C.C. Rules) and the MCC's control point(s) or communications system serving that Reliable Service Area.

INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

- 4.2.1.B. Connections and Interchange of Traffic (Continued) (T)
2. One-Way Signaling Traffic - The Company will extend and connect its facilities between any telephone exchange within which a signaling receiver is served by the MCC's system and the MCC's control point(s) or communications system serving that system. (T)
- C. Connection Restrictions - The facilities provided for connection and interchange of traffic shall not be used, switched or otherwise connected together by the MCC for the provision of through calling from a landline telephone to another landline telephone, nor shall they be switched or otherwise connected together by the MCC for the provision of through calling from a landline telephone mobile unit located in one Reliable Service Area to a landline telephone or mobile unit in another Reliable Service Area. (T)
- D. Other Regulations - Specific administrative procedures, connection and operating arrangements and charges for the facilities provided by the Company to the MCC for the purpose of connection and interchanging traffic are as set forth in various intercarrier agreements between the Company and the MCCs or in the general exchange tariffs of the Company as appropriate where the state franchise area or state authorization of the MCC is different from the Reliable Service Area, the terms and conditions of connection and interchange of traffic may be modified to recognize the extent of such state franchise or authorization. (T)
- E. The connection and interchange of traffic as set forth in 4.2.1.D preceding does not constitute a joint undertaking with the MCC for the furnishing of any service. (T)

SECTION 6: CONFERENCE SERVICE

- 6.1. APPLICATION (T)
- 6.1.1 Definition - Conference Service is the furnishing of IIMTS for telecommunications between a calling station and two or more called stations when at least one of the called stations is in a different local service area than the calling station. In addition to the regulations in Sections 2, 3, 4 and 5 preceding, the following regulations also apply to Conference Service.
- 6.1.2. Conditions - Conference Service is furnished by an operator, subject to the availability of the service components required. Service is offered to a specified person or station. All stations on a conference connection may communicate with each other, or one station may, at the customer's discretion, be the transmitting station with all other stations receiving.
- 6.1.3. Availability - An operator, upon request, will establish a Conference Service call at a customer-specified time.
- 6.2. RATE AND CHARGE APPLICATION
- 6.2.1. General - IIMTS rates apply between the calling station (conference call originator) and each called station on a conference call, as set forth in 4.2.4 following.
- 6.2.2. Timing of Calls - Chargeable time begins when connection is established between all of the stations on the conference call. Chargeable time ends on any two-point connection of a conference call when either the calling station or the called station hangs up. (T)
