## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Description (Cont'd)

##### 7.2.16 BellSouth SPA Managed Shared Network Service

BellSouth SPA Managed Shared Network Service is a service under which the customer assigns to the Telephone Company the responsibility for facility design and engineering and routing of DS3, DS1 and DS0-level special access (a.k.a. BellSouth SPA) services from serving wire centers in a BellSouth SPA Managed Shared Network Service area to the customer's Aggregation Location(s) in the same BellSouth SPA Managed Shared Network Service area. Each LATA in the Telephone Company's territory is a BellSouth SPA Managed Shared Network Service area.

At the time a customer orders BellSouth SPA Managed Shared Network Service, the customer must designate one or more Aggregation Locations and may designate one or more Alternate Aggregation Locations in each BellSouth SPA Managed Shared Network Service area. The interface at Aggregation Locations, Interim Locations and Alternate Aggregation Locations must be a DS3 or higher level interface. At the time a customer orders/establishes a commitment plan for BellSouth SPA Managed Shared Network Service, the customer's service arrangement at the Aggregation Location must meet BellSouth SPA Managed Shared Network Service criteria (e.g., the interface at an Aggregation Location must be a DS3). If the customer's network does not meet BellSouth SPA Managed Shared Network Service's criteria, the customer will have a 180-day grace period in which to reconfigure his network service arrangement to meet BellSouth SPA Managed Shared Network Service criteria. If at the end of the 180-day grace period, the customer has services that do not meet BellSouth SPA Managed Shared Network Service criteria, those services shall be exempt from the customer's BellSouth SPA Managed Shared Network Service arrangement and will continue at the rates associated with the services that were present at the time of the customer's BellSouth SPA Managed Shared Network Service request. Once the customer has designated a location as an Aggregation Location, an Interim Location or an Alternate Aggregation Location, all of the customer's Telephone Company provided DS3, DS1 and DS0-level special access (a.k.a. BellSouth SPA) traffic delivered to and from that location, except SMARTPath Service (a.k.a. BellSouth SPA DS1 Shared Ring) and SMARTPath DS3 Transport Service (a.k.a. BellSouth SPA DS3 Shared Ring), and any traffic that does not meet BellSouth SPA Managed Shared Network Service, must be included in the BellSouth SPA Managed Shared Network Service arrangement. All such BellSouth SPA Managed Shared Network Service traffic which the customer designates to be delivered to an Aggregation Location or to an associated Alternate Aggregation Location is considered to be "associated" with such Aggregation Location.

BellSouth SPA Managed Shared Network Service customer locations that were established as Interim Aggregation Locations will be converted to and managed as existing Alternate Aggregation Locations as of November 1, 2002.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Description (Cont'd)

##### 7.2.16 BellSouth SPA Managed Shared Network Service (Cont'd)

BellSouth SPA Managed Shared Network Service traffic is connectable at serving wire centers to DS3, DS1 and DS0-level special access (a.k.a. BellSouth SPA) services. Each location in a BellSouth SPA Managed Shared Network Service area from which traffic originates or terminates for delivery to or from an Aggregation Location or an Alternate Aggregation Location is an Origination Location. (C)

When the customer designates an Aggregation Location, the customer shall make a commitment to maintain a specified number of equivalent DS1s as BellSouth SPA Managed Shared Network Service for such Aggregation Location for a period of one year or five years, beginning on the date on which the customer orders the service. Such commitment shall be equal to 90% of the equivalent special access (a.k.a. BellSouth SPA) DS1s provided by the Telephone Company to the customer to be aggregated at such Aggregation Location as BellSouth SPA Managed Shared Network Service or 28 equivalent DS1s, whichever is greater. This initial commitment is to include traffic from an an Alternate Aggregation Location. If a customer designates an Aggregation Location that does not terminate any special access (a.k.a. BellSouth SPA) traffic, then the customer shall order a BellSouth SPA Managed Shared Network Service DS3 Local Channel and the initial commitment shall be 28 equivalent DS1s. This initial commitment shall be reviewed after twelve months and the commitment shall be adjusted to 90% of the equivalent special access (a.k.a. BellSouth SPA) DS1s provided by the Telephone Company to the customer at such Aggregation Location at the time of the review. Should a customer designate an Alternate Aggregation Location subsequent to the establishment of an Aggregation Location, the initial commitment at the Aggregation Location will be increased to include 90% of the Telephone Company-provided special access (a.k.a. BellSouth SPA) traffic to be rearranged to the Aggregation Location from an Interim Location or 90% of the traffic associated with an Alternate Aggregation Location. Subsequent to the establishment of an Aggregation Location with a five year commitment period, a customer may extend the commitment period once at that location by one year as long as at least 12 months remain in the existing commitment. (C)

The Telephone Company and the customer shall work cooperatively in revising their network arrangements in order to accommodate aggregation of the customer's BellSouth SPA Managed Shared Network Service traffic at an Aggregation Location, including the conversion of the customer's BellSouth SPA Managed Shared Network Service traffic from Alternate Aggregation Locations, as applicable. ## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.2 Service Description (Cont'd)

##### 7.2.16 BellSouth SPA Managed Shared Network Service (Cont'd)

The customer may request reconfiguration of all BellSouth SPA Managed Shared Network Service traffic from one Aggregation Location to another Aggregation Location. A new DS1 equivalent commitment level for the second Aggregation Location shall be established equal to no less than the sum of the commitment at the first Aggregation Location and the commitment at the second Aggregation Location. The first Aggregation Location shall become an Alternate Aggregation Location. Termination liability charges for discontinuance of the first Aggregation Location are as set forth in Section 7.4.27. The cost of reconfiguring traffic from one Aggregation Location to another Aggregation Location shall be determined on an Individual Case Basis. (C)

Where BellSouth SPA Managed Shared Network Service is available in the intrastate access tariff, the intrastate special access (a.k.a. BellSouth SPA) BellSouth SPA Managed Shared Network Service traffic will contribute toward the customer's 90% commitment in this tariff. In case of a shortfall charge or a termination liability, the amount will be prorated to the interstate or intrastate jurisdiction based upon the in-service mix of BellSouth SPA Managed Shared Network Service in each jurisdiction for that Aggregation Location.

## ACCESS SERVICE

### 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

#### 7.4. Rate Regulations (Cont'd)

##### 7.4.27 BellSouth SPA Managed Shared Network Service

The BellSouth SPA Managed Shared Network Service local channel charges apply for the DS3 local channels utilized to deliver BellSouth SPA Managed Shared Network Service traffic to the customer, either at an Aggregation Location or to an associated Alternate Aggregation Location. The specific BellSouth SPA Managed Shared Network Service DS3 local channel charge which applies is dependent upon the quantity of BellSouth SPA Managed Shared Network Service DS3 local channels utilized to carry BellSouth SPA Managed Shared Network Service traffic which is associated with a given Aggregation Location, on a per Aggregation Location basis. For example, if ten DS3 local channels are utilized to carry BellSouth SPA Managed Shared Network Service traffic associated with Aggregation Location A, then the 10 DS3 Local Channel charge would apply for that Aggregation Location. If the customer thereafter grows to 11 DS3 local channels for BellSouth SPA Managed Shared Network Service traffic associated with Aggregation Location A, the 11 DS3 local channel rate would apply for that Aggregation Location. When a customer increases or decreases the number of DS3 local channels at an Aggregation Location, the billing adjustment for the partial month's service level will be equal to one half of the difference between the rate for the previous level of DS3 local channels and the rate for the new level of DS3 local channels. (C)

BellSouth SPA Managed Shared Network Service is available under a 12 month or a 60 month commitment plan. Month-to-month rates, without termination liability, are only available upon completion of a commitment plan. Upon the completion of a commitment plan, the customer must establish a new commitment plan or billing will be changed to month-to-month, except as follows:

Beginning on February 16, 2002 through the remainder of the year, customers that complete a BellSouth SPA Managed Shared Network Service commitment plan will receive an automatic extension of their commitment plan to December 31, 2002. With this automatic extension, the customer's service will be continued under BellSouth SPA Managed Shared Network Service at the rates and charges associated with the payment plan that is being extended. Customers that do not wish to utilize the benefits of the automatic extension may request that their BellSouth SPA Managed Shared Network Service commitment plan be terminated, without penalty, at any time during their extension. At the end of the extension, or at the time that a customer indicates that they do not desire to continue under the extension, the standard provisions associated with the completion of a BellSouth SPA Managed Shared Network Service commitment plan apply.

ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.4. Rate Regulations (Cont'd)

7.4.27 BellSouth SPA Managed Shared Network Service (Cont'd)

The rates for the BellSouth SPA Managed Shared Network Service commitment plan are stabilized for the length of the plan and are exempt from Telephone Company initiated increases, however, decreases will automatically flow through to the customer.

Beginning one year after a customer orders BellSouth SPA Managed Shared Network Service at an Aggregation Location and at each twelve month interval thereafter, a review of the customer's level of equivalent DS1s associated with an Aggregation Location in an BellSouth SPA Managed Shared Network Service area will be performed. If at the annual review, the customer's equivalent DS1s associated with an Aggregation Location in a BellSouth SPA Managed Shared Network Service area are less than the commitment for such Aggregation Location, a shortfall charge will apply. The shortfall will equal the number of equivalent DS1s the customer is short of the commitment times the per unit shortfall charge shown below.

	<u>Shortfall Charge</u>	<u>USOC</u>
Per Equivalent DS1 Shortfall Charge	\$900.00	NSMSC
