ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.12 Discount Commitment Program (DCP) (Cont'd)

(E) Decreasing the DCP Commitment Level and Termination Liabilities

Customers may decrease their commitment level only by paying termination liability charges on the number of Channel Terminations or Network Access Connections by which the commitment level decreased. Termination Liabilities will apply to Digital Data, 1.544 High Capacity, MercNET 45 and Shared SONET Service. For example, a customer has a commitment level of 90 CTs. The customer then decreases this commitment level to 70 CTs. The customer must pay termination liabilities on 20 CTs.

The Termination Liability for DCP is calculated to be the dollar difference between the current DCP rate for the DCP term that could have been completed during the time the service was actually in service, or the monthly rate for services in service, or the monthly rate for services in place less than 36 months, and the customer's current DCP rate for each month the service was provided.

(X)

For example, a customer subscribing to a 60-month DCP term reduced their CT commitment by 20 CTs during the 37th month. This customer's termination charge would be:

$$20 \text{ CTs} \times (36 \text{ month DCP rate} - 60 \text{ month DCP rate}) \times 37 \text{ months} = \text{Termination Charge}$$

(X)

A decrease in the commitment level will not change the expiration date of the DCP.

(X) Issued under authority of Special Permission No. 02-137 of the FCC in order to restore currently effective provisions and to withdraw material filed under Transmittal No. 775 without becoming effective.
