

## **Description & Justification**

Cincinnati Bell Telephone (CBT) makes this filing pursuant to FCC Special Permission Number 02-137 which waives Sections 61.58 (Notice Requirements) and 61.59 (Effective Period Required Before Changes) of the Commission's Rules. On October 25, 2002, CBT filed Transmittal No. 775 to become effective on November 9, 2002. In Transmittal No. 775 CBT proposed multiple revisions including changes to the calculation of the termination charges for its Discount Commitment Plan (DCP) in Section 7 (Special Access).

CBT proposes to withdraw, without becoming effective, the tariff revisions in Transmittal No. 775, which proposed a change in the calculation of termination charges for the DCP. CBT proposes to reinstate the prior effective tariff page. CBT wishes to withdraw the proposed revisions in order to allow CBT to further evaluate its calculation of DCP termination charges.
