9.5 BellSouth Alternate DA Service Capability

9.5.1 General Description

BellSouth Alternate DA Service Capability makes available Telephone Company network resources required to provision directory assistance service to end users of a customer who chooses to route DA calls to a Telephone Company assigned, customer and service specific 10-digit telephone number.

9.5.2 Rate Regulations

- (A) BellSouth Alternate DA Service Capability is offered subject to the regulations specified in Section 2. of this Tariff.
- (B) To utilize this arrangement, the ordering customer must select one or more of the service options detailed in 9.5.3 following.
- (C) The service options set forth in 9.5.3 following are sized based on the Telephone Company's estimate of network resources required to handle blocks of 250,000 calls per month based on average per call holding time.
- (D) The Telephone Company will work cooperatively with the customer to help them determine what quantity of the service options will be needed to serve all calls the customer projects will be delivered per month at per call holding times estimated by the customer.
- (E) When a customer ordering BellSouth Alternate DA Service Capability anticipates both interstate and intrastate usage, the customer must report to the Telephone Company the percent interstate usage to be applied to their BellSouth Alternate DA Service Capability charges.
