ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.11 LAN Extension Service(A) General

LAN (Local Area Network) Extension Service (LES) provides fiber transport connectivity between two customer designated premises (one of which must be a service provider's point of presence with the other being one of the service provider's end user) or between a customer designated premises and a customer's equipment in a Verizon Collocated Interconnection Service (CIS, see Section 19) arrangement. (T)

LES is a point-to-point service, offered with a 10Mbps, 16Mbps Token Ring*, 100Mbps, 1Gbps Ethernet or 1Gbps Extended Distance interface connection, available where facilities and conditions permit. Where suitable facilities and conditions are not available to provide LES, facilities may be specially constructed subject to the provisions set forth in Sections 2.1.4, Provision of Services, and 5.1.3, Special Construction, preceding. (T)

(B) Service Description

LES is provisioned over two dedicated fiber strands between the customer designated premises involved where service is delivered over the network interface specified by the customer. The LES network interface converts the optical signal to an electrical Ethernet signal at speeds of 10 Mbps, 16 Mbps Token Ring* or 100 Mbps. The 1 Gbps network interface enables LES to be delivered as an optical signal. (T)

When LES is delivered to a CIS arrangement, service will be cross-connected to the physical or virtual CIS arrangement as described in Section 19, following. The provision of LES at 100Mbps, 1Gbps or 1Gbps Extended Distance may include the use of dense wave division multiplexing technology, where available. (T)
(N)
(T)
(N)
(N)

The Company's equipment at the customer-designated premises must be on conditioned power circuits (surge protected); the Company recommends an uninterrupted power supply (UPS). (M)
|
(M)

No credit allowance for a service interruption is provided with LES. (T)

Service intervals for LES are specified in Section 5.2.1 preceding. (T)

* Service is limited to existing customers of record as of February 11, 2003. (N)
Customers who are already subscribing to LES with a 16Mbps Token Ring interface as of February 11, 2003, may continue with the service, add additional circuits or move service as needed. |
(N)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.11 LAN Extension Service (Cont'd)(C) Technical Specifications

(M)

LES requires the use of single mode, fiber optic facilities that meet the following specifications: (T)

1310nm with a loss of 20dB or less for 10Mbps Ethernet
1310nm with a loss of 26dB or less for 100Mbps Ethernet
1310nm with a loss of 18dB or less for 1Gbps Ethernet
1550nm with a loss of 26dB or less for 1Gbps Ethernet
(extended distance)

The dB loss is measured to include the special transport facility when applicable and any local and intra-building fibers used in the provision of LES. (T)

(D) Responsibilities and Rights of the Telephone Company

(T)

- The Telephone Company will provide the necessary fiber converter at the customer's designated premises to meet the interface requirements specified on the order for service. (M)
(M)
(M)
- The Telephone Company is responsible for service up to and including the network interface. The Telephone Company's responsibility is limited to the furnishing of communications facilities suitable for LES. (N)
- LES will not be available during those times when the Telephone Company must perform software updates and other maintenance. The Telephone Company will provide customers reasonable and timely notification to minimize impacts to the customer's service. The Telephone Company reserves the right to temporarily interrupt LES at other times in emergency situations.
- All other general regulations pertaining to the responsibilities and rights of the Telephone Company as specified in Section 2, preceding also apply. (N)

ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.11 LAN Extension Service (Cont'd)(E) Responsibilities of the Customer

- | | |
|---|-------------------|
| | (N) |
| - The customer is responsible for all wiring and connections of its local area network to the customer side of the network interface or fiber distributing frame, as applicable. | (M) |
| - The LES customer is responsible for the installation, operation and maintenance of any customer provided equipment. | |
| - The customer must provide a protected path for all network fibers on private property, sufficient AC or DC power to network interface equipment, access to all sites as needed by the Telephone Company personnel to perform services, and a secure environment for the network equipment. | |
| - The customer must provide a relay rack or wall space for mounting of the network interface device. | |
| - The customer must provide connecting facility assignment (CFA) to which LES will be cross-connected in a CIS arrangement. | (M) |
| - The customer is responsible for any damage to the Company's network equipment resulting from problems with power provided by the customer at its locations. With the exception of connecting customer provided equipment to the network interface device, the customer may not attempt to modify, adjust or otherwise change Company owned facilities or network equipment used in the provision of service. The Telephone Company reserves the right to discontinue the provision of LES to a customer who tampers with Telephone Company owned equipment and/or facilities. | (M)
(T)
(T) |
| - The Telephone Company does not monitor the LES circuit. The customer may perform its own monitoring using surveillance equipment within its own network. | (M)
(M) |

ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.11 LAN Extension Service (Cont'd)(F) Rate Regulations

(T)

- (1) The rates and charges for LES apply as channel terminations and channel mileage. The LES channel termination provides the transmission path to connect a customer designated premises or Expanded Interconnection arrangement to the associated serving wire center. Included as part of the LES channel termination is a converter interface arrangement which defines the technical characteristics and transmission rate of the service. LES channel terminations apply as a monthly recurring rate and nonrecurring charge for each termination provided. LES channel mileage applies as a recurring monthly charge for the airline distance between the serving wire centers associated with the locations involved. Channel mileage recurring monthly rates apply as a fixed and per mile rate element.

(2) LES Term Plans

- (a) LES is provided with a term plan of 3 or 5 years at rates set forth in Section 7.5.23 following. The customer must specify the term plan selected in its order for service. Rate elements associated with terminating LES at a Collocation arrangement are set forth in Section 19 following.
- (b) At any time during the term commitment period, the customer may replace LES with LES of a higher transmission rate without incurring termination liability on the LES being replaced, provided that the term plan of the replacing LES is equal to, or greater than, the term commitment period of the plan being replaced.
- (c) At any time during the term commitment period, the customer may convert to a new LES term plan of the same or different term commitment, subject following:
- No time-in-service credit will be granted for the period of time the replaced term commitment period was in effect.
 - Termination liability will not apply to the plan being replaced, provided that the term commitment period of the replacing plan is equal to or longer than the term commitment period being replaced.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.11 LAN Extension Service (Cont'd)

- | | |
|---|-----|
| (F) <u>Rate Regulations</u> (Cont'd) | (T) |
| (2) <u>LES Term Plans</u> (Cont'd) | (N) |
| (d) All rate elements associated with LES must be under the same term plan with the same term commitment period. | (N) |
| (e) At expiration of the term commitment period, the prevailing rates for the current plan will continue until the customer cancels service or requests a new term plan. | (T) |
| (f) If service is disconnected in whole or in part prior to the end of the selected term commitment period, termination liability equal to the applicable monthly rate for the service multiplied by the number of months remaining in the unexpired portion of the term plan will apply. Minimum period charges as set forth in Section 5.2.5 preceding may also apply. | (T) |
| (g) Termination liability will not apply if the customer disconnects service due to a Telephone Company initiated rate increase. Within sixty calendar days of the rate increase, the customer must notify the Telephone Company in writing of its intent to disconnect service due to the increased rate and must disconnect the service within ninety calendar days of the rate increase. | (T) |
| (3) Cancellation of an LES order in whole or in part prior to the establishment of service is subject to the cancellation charges set forth in Section 5.2.3 preceding. | (M) |
| (4) A move in the point of termination of LES is subject to the regulations set forth in Section 7.4.5 following. | (T) |
| (5) The minimum period for LES is 36 months. | (M) |
