ACCESS SERVICE

2 - General Regulations (Cont'd)

2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.4 Credit Allowance for Service Interruptions (Cont'd)

(B) When a Credit Allowance Applies (Cont'd)

(16) (Cont'd)

(b) In case of an interruption to Managed Shared Frame Relay Service and/or Managed Shared ATM Service, a Service Continuity Credit as follows (instead of the standard Fast Packet Access Service credit allowance for outages set forth previously in (a)) shall apply for service outages according to the schedule provided below if the outage is not due to situations set forth in 2.4.4.(C). The customer will be credited the percentage of his effective monthly rate for the MSFRS Connections or MSATMS Connections that are affected by the service interruption (i.e., effective monthly rate meaning the monthly rate discounted by the appropriate Fast Packet Savings Plan discount percentage, if applicable) based upon the period of the actual service outage as set forth in the following chart:

Duration of Service Outage	Service Continuity Credit Percentage
0 - 240 minutes	0%
241 - 360 minutes	33%
361 - 480 minutes	66%
Over 480 minutes	100%

For the services impacted by the service outage, the rate elements used to determine the Service Continuity Credit amount shall be as follows:

- For Managed Shared Frame Relay Service: MSFRS Connections
- For Managed Shared ATM Service: MSATMS Connections

(17) For BellSouth Wavelength service a credit for a service interruption of thirty minutes or more per occasion shall be 100 percent of the monthly charge associated with the affected service element(s). All credit allowances shall begin from the time of notice by the customer to the Company and will end when the service is operative. A customer must report the outage in order to receive service outage credit. The total credit received in any month shall not exceed the monthly rate for the service.

- Customers who prematurely disconnect will have Termination Liability Charges deducted from the unused prepaid balance. The remaining prepaid balance, if any, will be credited to their bill.

(D) Transport Payment Plan (Cont'd)

(1) General (Cont'd)

- (c) Conversions of existing CSPP arrangements for BellSouth DS1 Diverse service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring and/or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) service(s) to a TPP arrangement must be initiated by the customer.
- (d) For conversions to the TPP arrangement, the number of months under the TPP arrangement must equal or exceed the number of months remaining under the CSPP arrangement.
- (e) Termination liability charges and nonrecurring charges will not apply when a CSPP customer converts to a TPP arrangement.

(2) Application of Rates (Cont'd)

- (b) If the customer desires a service date later than as provided in (a) preceding, the stabilized monthly recurring rates in effect on the service date are applicable.

(3) Additions

- (a) Additions of services or rate elements, to existing BellSouth DS1 Diverse service to activate spare or unused capacities, must be activated under the same rate plan as the existing TPP arrangement. LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring and/or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) channel interfaces must be activated as set forth in Sections 6 and 7 following.

(4) Disconnects

- (a) Except as provided in 2.4.8(D)(4)(b) through (f) following, when a BellSouth DS1 Diverse service, BellSouth Wavelength service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring, BellSouth Native Mode LAN Interconnection Service and/or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) rate element is disconnected prior to being in service for a 12-month period, (e.g., the minimum term for a Plan A TPP), the termination liability charge will be derived by multiplying the difference in rates between the current month-to-month rate and the rate for the TPP arrangement selected. For example, a customer subscribes to a TPP for 24 months (Plan A) and terminates service after 10 months. The termination liability charge will be applied by multiplying the number of months in service (10) by the difference between the month-to-month and Plan A monthly rates. With the exception of Renewal Options in 2.4.8. (D)(7) following, a four month minimum service period for BellSouth DS1 Diverse service, BellSouth Wavelength service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring and/or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) and a twelve month minimum service period for BellSouth Native Mode LAN Interconnection will be applicable and all month-to-month regulations will apply. (C) (C)

(a) (Cont'd)

BellSouth DS1 Diverse service rate elements are defined as Local and Interoffice Channels. LightGate system (a.k.a. BellSouth SPA Point to Point Network) rate elements are defined as LightGate (a.k.a. BellSouth SPA Point to Point Network) service Local and Interoffice Channel Systems including SAFT Levels I and II. BellSouth Dedicated Ring and SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) service ring level rate elements are defined as following: Local Channel, Interoffice Channel, Internodal Channel, Alternate Central Office Channel, Customer Node and Central Office Node. BellSouth Wavelength service rate elements are defined as Wavelength Channels. (C)

(b) Except as provided in Section 2.4.8(D)4 (c) through (f) following, when a BellSouth DS1 Diverse service, BellSouth Wavelength service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring, BellSouth Native Mode LAN Interconnection Service or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) TPP customer disconnects services or rate elements prior to the minimum number of months for the plan period selected, termination liability charges will apply. The termination liability charge will be derived at the time of disconnection by taking the difference between the rate for the TPP period for which the customer subscribed, and the rate for the TPP period that the customer's completed service would otherwise qualify, and multiplying the difference by the number of months service the customer completed under a TPP. For example, a customer subscribes to a TPP for 73 months (Plan C) and terminates service after 20 months (Plan A). The termination liability charge will be applied by multiplying the number of months in service (20) by the difference between the Plan A and Plan C monthly rates. When a BellSouth DS1 Diverse service, BellSouth Wavelength service, LightGate (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring, BellSouth Native Mode LAN Interconnection Service or SMARTRing (a.k.a. BellSouth SPA Dedicated Ring) customer disconnects service after the minimum number of months for the TPP arrangement selected but prior to the actual expiration date of the TPP arrangement, termination liability charges do not apply. (f) A change of jurisdiction from interstate to intrastate service constitutes a disconnection of service for which termination charges are applicable. However, if such service continues between the same serving locations, and the customer enters into a new TPP arrangement in the intrastate jurisdiction for the same or larger service capacity and associated rate elements for a service period equal to or greater than the service period remaining under the interstate TPP arrangement, no interstate termination liability charge will be applicable.

(5) Moves of Service Under TPP

(a) Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply as stated in 7.4.5, 7.5.9, 23.5, 29.1.7 and 29.1.9 except as provided in 2.4.8(D)(5)(c) following. A four month minimum service period must be satisfied for all service rate elements serving the original building location. (C)

(b) Moves of service within the same building will not constitute a disconnection of service for purposes of the application of termination liability charges. Current month-to-month nonrecurring charges specified in 7.4.5, 7.5.9, 23.5, 29.1.7 and 29.1.9 are applicable. (C)

(c) Termination Liability Charges will not apply to customer requests for moves of service to a different building subject to the following conditions:

- The move from the original location to the new location must be completed within thirty days of the original premises disconnect date. For LightGate systems (a.k.a. BellSouth SPA Point to Point Network), the new customer premises must be served by the same serving wire center as the original location.
- No lapse in billing will occur for moves of service under a TPP arrangement.
- Orders to disconnect the existing service and reestablish it at the new location must be related together and received by the Telephone Company at the same time.

(6) Requests for Changes in Length of Service Period

(a) Subsequent to the establishment of a TPP arrangement, and prior to the completion of the selected service period for that arrangement, the TPP arrangement may be replaced by a new TPP arrangement at rates and charges in effect on the first day of service under the new TPP arrangement, subject to the following conditions:

- No credit will be given for payments made under the original TPP arrangement, except for credits allowed under 2.4.8(D)(9)(A) following.

(a) (Cont'd)

- If the new TPP arrangement has a service period shorter in length than the time remaining under the service period for the existing TPP arrangement, the change to the new TPP arrangement constitutes a disconnection of the existing TPP arrangement for which termination liability charges apply.

(7) Renewal Options

- (a) When a service period under an existing CSPP or TPP arrangement is completed, the customer may select a new TPP arrangement at rates and charges in effect on the first day of service under the new TPP arrangement, continue service under the month-to-month rates, or discontinue service with no termination liability charge. If the customer does not elect to either discontinue service or continue service under a new TPP arrangement, service will be continued under month-to-month rates. The TPP customer of record will have a 60-day grace period after which current month-to-month rates will apply. The stabilized monthly recurring rates as set forth in Sections 7 and 29 following remain in effect during the 60-day grace period. (C)
- (b) Any new services added to a customer's network or changes to existing services at the time of renewal will be subject to all appropriate nonrecurring charges and four month minimum service period requirements.
- (c) When a customer renews a TPP arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
- (d) To determine the appropriate TPP Payment Plan for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of months of the proposed service period of the TPP arrangement.
- (e) Recognition of previous service will be given to customers who renew an existing TPP arrangement, for the same or larger system(s) and all associated rate elements at the same location(s), provided that the length of the new TPP arrangement is equal to or greater than the remaining service period of the original TPP arrangement. Recognition for satisfying the four month service period as appropriate for the service will be given for renewals of the same size channels, systems, rings, and all associated rate elements. Conversion to larger systems and rings will incur new four month minimum service requirements.

29.1.7 Rate Regulations (N)

Rates and charges are specified in 29.1.9 following for BellSouth Wavelength Service. There are two types of rates and charges – monthly rates and nonrecurring charges. (N)

29.1.7 Rate Regulations (Cont'd) (N)

(B) Nonrecurring Charges (N)

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service). (N)
Nonrecurring charges do not apply when rate elements are ordered under TPP arrangements. (N)

(1) Service Rearrangements (N)

Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements as set forth in 5.6.(E) preceding or a change in the physical location of the point of the termination at a customer designated premises. Changes which result in the establishment of new minimum period obligations are treated as disconnects and starts. Changes in the physical location of the point of termination are treated as moves and are described and charged for as set forth in (C) following. A change which results from a transfer of service is described in (2) following. (N)

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service. (N)

Administrative changes, as identified below, will be made without charges to the customer. Such changes require the continued provision and billing of the Access Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the Access Service). Administrative changes are as follows: (N)

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes its name – e.g., AT&T-Long Lines to AT&T-Communications), (N)
- Change of customer or customer's end user premises address when the change of address is not a result of a physical relocation of equipment, (N)
- Change in billing data (name, address, or contact name or telephone number. The customer of record does not change), (N)
- Change of customer circuit identification, (N)
- Change of billing account number, (N)
- Change of customer or customer's end user contact name or telephone number, and (N)
- Change of jurisdiction (N)

- 29.1.7 Rate Regulations (Cont'd) (N)
- (B) Nonrecurring Charges (Cont'd) (N)

Charges are applied on a Billing Account Number (BAN) and per circuit basis. (N)
- (C) Moves (N)
- A move involves a change in the physical location of one of the following: (N)
- The Point of Termination at the customer's premises (N)
 - The customer's premises (N)
- The charges for the move are dependent on whether the move is to a new location within the same building or to a different building. (N)
- (1) Moves Within the Same Building (N)
- When a service is moved to a new location within the same building, the charge for the move will be an amount equal to one-half of the nonrecurring charge for the service termination affected. There will be no change in the minimum period requirements. (N)
- (2) Moves To a Different Building (N)
- Moves to a different building (customer premises) will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. Service will not be available simultaneously at both the original and new customer locations. The customer will remain responsible for satisfying all outstanding minimum period charges for the original service locations. (N)
- 29.1.8 Rate Categories (N)
- (A) Wavelength Channel (N)
- This rate category provides a point to point optical transport from customer location A to customer location B. The Wavelength Channel is available in two bandwidths – 100 Mbps to 1.25 Gbps and 52 Mbps to 2.5 Gbps. (N)
