13. MISCELLANEOUS SERVICES

13.18 BASIC PUBLIC ACCESS LINE (PAL) OPTIONAL FEATURES

The following optional features are only available for Basic Public Access Line (PAL) Service that is ordered from the Company's general or local exchange tariffs.

13.18.1 ANSWER SUPERVISION - LINESIDE

This option provides the capability to deliver "off-hook" supervisory signals from the terminating central office switch to a lineside interface at the originating central office switch. These signals indicate when the called station has answered an incoming call. Answer Supervision shall only be provided where technically feasible with Basic PAL Service. Rates are set forth in 13.18.4, following.

13.18.2 FRAUD PROTECTION

Fraud Protection Service for Basic PAL Service offers three levels of protection: incoming, outgoing and incoming & outgoing as described below.

- Incoming Fraud Protection, or Billed Number Screening (BNS), prohibits collect and/or third number billing calls from being charged to Incoming Fraud Protected numbers. Callers attempting to place a collect or third number billing calls using an Incoming Fraud Protected number for billing will be advised by an operator that such billing is unauthorized and the call will not be completed until other payment or billing arrangements are made.
- Outgoing Fraud Protection restricts outgoing toll calls to only collect, third number billed and calling card.
- Incoming & Outgoing Fraud Protection is a combination of the two aforementioned Fraud Protection Services.

Fraud Protection Service is subject to the availability of facilities with Basic PAL Service. Operator assisted, collect and/or third number billed calls originating from locations that do not have screening capabilities may not be capable of being intercepted and denied and will be billed, e.g., International calls and calls that do not go through the Billing Validation Authority data base. Provision of Fraud Protection does not alleviate customer responsibility for completed toll calls. Rates and charges for this service are set forth in 13.18.4, following.
