31.12 Specialized Service or Arrangements (Cont'd)

New York (Cont'd)

Case No.

2000-2 Bank of New York

This specialized arrangement provides the customer with a dedicated Channel Extension Service (CES) network between points within the New York/New Jersey Corridor using dense wave division multiplexing in a ring topology. The architecture consists of fiber rings between customer premises using customer designated network equipment.

The initial network consists of the following channels, each with a maximum bandwidth of 1.25 Gbps:

- 4 CES channels between 101 Barclay Street and 1 Wall Street, New York, NY
- 2 CES channels between 101 Barclay Street and Church Street, New York, NY
- 2 CES channels between 1 Wall Street and Church Street, New York, NY

Additional channels may be provided at any customer location dependent upon the Telephone Company's network capacity, consideration of applicable rates, and upon mutual agreement between the customer and the Telephone Company. Subsequent channels requiring a different rate will be provided upon revision of this tariff.

The Telephone Company will monitor the service arrangement 24 hours a day, seven days a week for trouble isolation and resolution. The customer will have read-only access to the monitoring system.

In addition to the initial service described above, the customer has the option of adding 1.25 Gbps Multiport Facility Arrangement(s) for the balance of the 60 month commitment period at the rates shown below if ordered by December 31, 2003. A 1.25 Gbps Multiport Facility Arrangement utilizes a multiport interface card which allows for up to four channels to be associated with a single wavelength.

The following rates, based on a 60-month service period with a 36-month minimum period, will apply:

	<u>Monthly Rate</u>	<u>USOC</u>	
1.25 Gbps, per channel	\$3,127.00	1ZUOL	(T)
1.25 Gbps Multiport Facility Arrangement	\$5,000.00	1ZOQF	(N)

When any 1.25 Gbps Channel service is disconnected in full or in part during the service period, the customer is liable for a termination liability charge. The termination liability charge will equal the sum of

\$3,127.00 multiplied by the number of months or fraction thereof (M)
 remaining in the minimum period plus \$1,785.00 multiplied by the number (M)
 of months or fraction thereof remaining in the contract period. When any (C)
 1.25 Gbps Multiport Facility Arrangement is terminated prior to the end (C)
 of the 60-month contract period, a sum of \$1,785.00 is assessed for each (C)
 month or fraction thereof remaining in the contract period. (C)

Termination liability will not apply if the customer converts to another (M)
 Telephone Company-provided service that is equal or greater in bandwidth (M)
 or capacity for a commitment/contract period that is at least equal to (M)
 the time remaining in this service period. (M)

Should a general tariff offering for this arrangement become available (N)
 prior to the end of the service period, and the customer elects to convert
 to the general tariff rates, no termination liability charges will apply. |
 The customer will be required to convert to the general tariff rates at
 the end of one year from the effective date of the general tariff, or
 discontinue the arrangement without liability. (N)
