ACCESS SERVICE

3. Carrier Common Line Access Service (Cont'd)

3.6 Rate Regulations (Cont'd)

3.6.6 Universal Service Recovery Charge

(C)

Pursuant to the Telecommunications Act of 1996, as implemented by the Federal Communications Commission, the Telephone Company is required to pay into a federally mandated Universal Service Fund by means of contribution factors assessed on the Telephone Company's interstate retail end user revenues. The Universal Service Fund provides federally subsidized affordable access to modern telecommunications and information services for schools, libraries, and rural health care facilities that meet specific eligibility standards, as well as providing support to subsidize basic telephone service in high cost areas and for low income subscribers.

(D)

(D)

The Telephone Company recovers its costs of contributing to the Universal Service Fund through the Universal Service Fund (USF) Recovery Charge element. The USF Recovery Charge is a percentage surcharge applied to the interstate charges which give rise to the Telephone Company's obligation. These services are any interstate services provided to an end user that are not resold, either individually or as part of a bundle of services, to another party.

(N)

The USF Recovery Charge will apply to End User Common Line Charges except for Lifeline customers. The USF Recovery Charge will apply to PICC charges billed directly to the end user. The USF Recovery Charge will also apply to Special Access charges billed to the end user. The USF Recovery charge will not apply to End User Common Line Charges, PICC charges, or Special Access charges that are billed to a reseller of local exchange service in connection with services offered for resale. The USF Recovery charge will not apply to PICC charges or Special Access charges that are billed to interexchange carriers.

The USF Recovery Charge is set forth in Section 20, following.

17. Advanced Data Applications (Cont'd)

17.3 Asymmetrical Digital Subscriber Line (ADSL) Service (Cont'd)

17.3.7 Rate Elements

Monthly recurring charges apply for ADSL service, and nonrecurring charges apply to installation of the service. A nonrecurring charge is also applicable when making changes, i.e., bandwidth, access provider, or move.

ADSL service is available in service level packages, and is based on the downstream and upstream speeds chosen by the customer. Service level packages are defined by the downstream and upstream speeds. Currently available service level packages are:

Package	Downstream		Upstream
ADSL Class R1	256 Kbps		128 Kbps
ADSL Class R2	1.0Mbps	(C)	128 Kbps
ADSL Class R7	768 Kbps		256 Kbps
ADSL Class B1	512 Kbps		256 Kbps
ADSL Class B2	1.0 Mbps		512 Kbps
ADSL Class B3	2.0 Mbps		512 Kbps

Data speeds set forth above are nominal peak speeds. Actual speeds may be affected by loop distance and other factors, and are not guaranteed. Where technically feasible, the Telephone Company may, at its sole discretion, support speeds in excess of the nominal peak speed.
