ACCESS SERVICE

4. End User Access Service (Cont'd)4.6 Rate Regulations (Cont'd)4.6.9 End User ISDN PRI Ports

The ISDN PRI Port charge shall be assessed to each ISDN PRI customer on the basis of PRI's ordered. The rate is set forth in section 17.1.5 following.

4.6.10 End User ISDN BRI Ports

The ISDN BRI Port charge shall be assessed to each ISDN BRI customer on the basis of BRI's ordered. The rate is set forth in section 17.1.5 following.

4.6.11 Federal Universal Service Fee (FUSF)

The Federal Universal Service Fee (FUSF) recovers the Telephone Company's contribution to various federal universal service funds. The Telephone Company will apply the FUSF through a monthly surcharge applied to the total billed charges for interstate access services ordered by end users, as described below.

The FUSF Revenue Surcharge will not apply to any local exchange services purchased by end users participating in the Lifeline Assistance program or by customers that resell services to end users as part of an interstate telecommunication service and are required to contribute to the various federal universal service funds. In case of a dispute regarding whether the customer is reselling service, the Telephone Company may request a signed certification to that effect from the customer.

When an end user temporarily suspends its local exchange service that is associated with FUSF, one-half of the FUSF surcharge will be temporarily suspended for the time period the local exchange service is suspended.

(A) Rate Application

The FUSF Revenue Surcharge will be determined by multiplying the surcharge factor shown in Section 17.1.4, following, by the end user's total interstate access services charges at the billing account level.
