ACCESS SERVICE

3. Carrier Common Line Access Service and Federal Universal Service Charge (Cont'd)3.9 Federal Universal Service Charge

The Federal Universal Service Charge (FUSC) recovers the Telephone Company's contribution to various federal universal service funds. The Telephone Company will apply the FUSC either through flat-rated, monthly line charges assessed to end users under this Tariff or through application of the FUSC Surcharge Percentage Factor.

(T) (x)

3.9.1 Applicability of FUSC Charges under this Tariff

The FUSC as set forth in Section 17.1.3, following, will be billed by only those Issuing Carriers contributing to the universal service funds and who bill common line charges based on rates, terms and conditions in this Tariff. For purposes of application of FUSC charges under this Tariff, end users shall include wholesale purchasers of Public Packet Data Network Services under Section 16 of this Tariff. FUSC charges will not apply to any Interstate Common Line, Interstate Special Access or Public Packet Data Network Services purchased by customers who resell these services to end users as part of an interstate telecommunications service and are thereby required to contribute to the various federal universal service funds. In case of a dispute regarding whether the customer is reselling services and contributing to the various federal universal service funds, the Telephone Company may request a signed certification to that effect from the customer.
