NBTC proposes to introduce Long Distance Trouble Management Service (LDTMS) into its Access Service Tariff F.C.C. No.1. LDTMS enables a participating Interexchange Carrier (IC) to receive, from the Telephone Company, specific trouble ticket information after a trouble report has been initiated by a residential or business end-user customer who is presubscribed or interconnected to that IC. This service is currently available in the Southwestern Bell and Pacific Bell regions. The attached Description and Justification contains further detail about LDTMS.

Supporting information discussed under Sections 61.49 and 61.38 of the Commission's Rules, to the extent applicable, is included.

In accordance with Section 61.14, this transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS) in compliance with the electronic filing procedures.
