

THE CHILlicothe TELEPHONE COMPANY INTERSTATE ACCESS TARIFF REVISIONS

May 10, 2003

DESCRIPTION AND JUSTIFICATION

The Chillicothe Telephone Company (Chillicothe), submits the accompanying access tariff revisions to the Access Service Tariff FCC No. 1. The purpose of this filing is threefold. First, Chillicothe is proposing modifications to the Access Order Modifications section found in section 5.2.4. Second, Chillicothe is proposing adding an option under High Capacity Services to order 3 DS3s and 12 DS3s in section 7.8.5. Third, Chillicothe is proposing to adjust Asymmetrical Digital Subscriber Line rates in Section 8.

Service Date Change Dispatch Charge

A Service Date Change Dispatch Charge will be assessed when a customer fails to notify the Telephone Company prior to the original service date to request a different service date and a technician is dispatched to the customer's premise on the scheduled service date. The charge will apply if the customer is not ready to accept service or the customer has failed to notify the Telephone Company before 3:00 PM (EST) on the business day prior to the scheduled service data that the service date needs to be changed. Cost support is in Exhibit 1.

High Capacity Service – DS3

High Capacity Service has been expanded to include the capacity of 3 DS3s at 44.736 Mbps and 12 DS3s at 44.736 Mbps. The rate element that applies is channel termination and the charge is applied on a per DS3 install. Cost support is in Exhibit II and III.

Asymmetrical Digital Subscriber Line

Asymmetric Digital Subscriber Line (ADSL) Access Service enables data traffic generated by the customer's equipment to be transported to a DSL Access Service Connection Point using the customer's local exchange service facilities. The current basic service packages, per line, include service for 384Kbps, 768 Kbps, and 1.5Mbps downstream speeds. The basic service package has been expanded to include, per line, 128Kbps and 256 Kbps. The costs for the 128Kbps and 256 Kbps are ratcheted down monthly rates from the 1.5Mbps. The monthly rates are based on market sensitive pricing and reflect the current market conditions. The nonrecurring charge is the same for all packages.

Service Date Change Dispatch Charge

Exhibit I

Work Group	Average Time For Prep and Dispatch	Number Of Technicians	Hourly Loaded Labor Rate	Cost
A, B, C, D	1.74	2	\$57.51	\$200

High Capacity Service – DS3

Exhibit II

3 DS3s	Weighted Revenue Requirement	Monthly Rate
DS3 off the OC48 fiber route	\$15,581.76	
OC3 Sonet TR at central office termination point	\$28,596.00	
Low speed OC3 interface card at termination end	\$3,600.00	
Total install	\$47,777.76	\$3,981.48

Exhibit III

12 DS3s	Weighted Revenue Requirement	Monthly Rate
Cost factor	1.978	\$7,876.92
