5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd)

(3) Pending Access Orders

A customer may also request a change of the service date on a pending Access order. Should the Company agree to change the service date, the following regulations will apply:

(a) For services with standard intervals where the service interval between the Subsequent Request Date and the Subsequent Due Date is four business days or less, a Service Date Advancement charge will apply for each day the new interval is less than the standard interval.

(b) For services with negotiated intervals, where the service interval between the Subsequent Request Date and the Subsequent Due Date is less than 8 business days, a Service Date Advancement Charge will apply for each day the revised service date is advanced from 8 business days. When the interval between the Subsequent Request Date and the Subsequent Due Date is 8 business days or greater, Service Date Advancement charges will not apply.

(c) Advancement of the service date on pending Access orders will also incur a Service Date Change charge as set forth in 5.3 of this Tariff.

(4) Customer-Missed Appointments

When the customer has requested advancement of a service date for a service with a standard interval, and the Company has completed the necessary work for the advanced service date and arrives at the customer's premises to install the service but the customer is not ready to accept the service pursuant to regulations in 2.1.4 and 2.3.3 of this Tariff, the customer will be assessed a Service Date Advancement-Missed Appointment charge, as set forth in (8)(b), following. An example of when this charge may apply is provided in (7) following.

(5) Rescheduled Appointments

A minimum service interval of three business days is required when a customer reschedules a service date (i.e., three business days between the Subsequent Request Date and Subsequent Due Date).

Should the customer requests a service date with an interval of less than three business days between the Subsequent Request Date and the Subsequent Due Date, a Service Date Advancement charge as set forth in (8)(a) following will apply for each day the new interval is less than three business days. In addition, a Service Date Change charge and a Service Date Change-Additional Dispatch charge will apply as specified in 5.3(C)(1)(e), following.

5.1 General (Cont'd)

5.1.1 Ordering Conditions (Cont'd)

(H) Service Date Advancement (Cont'd) (T)

(6) Restrictions (C)

(a) The Service Installation Guarantee, specified in 2.4.9 preceding, will not apply on Access orders with advanced service dates. (T)

(b) When the customer cancels an Access order for the installation, move or rearrangement of services, a Service Date Advancement charge may apply in accordance with terms and conditions for cancellation percentages on nonrecurring charges as set forth in 5.4 following. (T)

(7) Application of Rates and Charges (N)

(a) For services with standard intervals, a Service Date Advancement charge, specified in (8)(a) following, will apply on a per circuit basis for each day the service date is advanced from the standard interval for services set forth in (1) above. (C)

(b) For services with negotiated intervals with an agreed upon interval of less than eight business days following the Application Date, a Service Date Advancement charge, specified in (8)(a) following, will apply for each day the service date is advanced from eight business days. When the interval between the Subsequent Request Date and the Subsequent Due Date is 8 business days or greater, Service Date Advancement charges will not apply. (N)

(c) A Service Date Advancement-Missed Appointment charge in (8)(b), following, will apply per circuit, per occurrence for services in (1) above. Following is an example of when this charge may apply: (N)

- A customer submits an Access order for a DS1 (a.k.a., BellSouth SPA DS1) service to be installed at the customer's premises. The Access Order has a requested service date that is two business days less than the standard interval for DS1 (a.k.a., BellSouth SPA DS1) service. The Company agrees to the requested advanced service date and informs the customer that Service Date Advancement charges will apply and will be billed to the customer upon the Company installing and completing the Access order. However, when a Company technician arrives to install the DS1 (a.k.a., BellSouth SPA DS1) service on the advanced service date, the Company cannot gain access to the customer's premises to install the service and complete the order. Therefore, the customer is billed a Service Date Advancement-Missed Appointment charge (i.e., \$300 per circuit per occurrence) for the additional resources required to advance the service date. Had the Company technician been allowed to install and complete the order on the advanced service date, the customer would have been billed the normal Service Date Advancement charges provided in (8)(a) following for advancing the service date.
