

DESCRIPTION & JUSTIFICATION

Cincinnati Bell Telephone (CBT) currently offers 36 – Month and 60 – Month Optional Payment Plans (OPPs) for selected Special Access Services. CBT's OPPs currently apply to channel terminations. Special Access circuits include a Fixed, and Per - Mile component in addition to channel terminations. In this filing, CBT proposed to expand its 36 – Month and 60 – Month OPP to include the Fixed and Per – Mile components for DS1 and DS3 circuits. CBT is also proposing to apply the 36 – Month and 60 – Month OPP to DS3 to DS1 multiplexing.

CBT is not changing any of the rates associated with these services. The 36 – Month and 60 – Month rates will remain the same as the current single rate.

Attached is CBT's mid-year Tariff Review Plan that reflects the proposed changes.
