ACCESS SERVICE

7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.2 Service Descriptions (Cont'd)

7.2.17 BellSouth ADSL Service (Cont'd)

(C) BellSouth ADSL service is available in combinations as specified following.

(C)
(C)

Downstream		Upstream	
Minimum	Maximum	Minimum	Maximum
(1) NA	1.5 Mbps	NA	256 Kbps
(2) 768 Kbps	NA	512 Kbps	NA
(3) 1.5 Mbps	1.8 Mbps	512 Kbps	768 Kbps

(7) 192 Kbps	NA	192 Kbps	NA
(8) NA	256 Kbps	NA	128 Kbps

(N)

Connection speed, or "synchronization rate," is measured by the Telephone Company between an "ADSL Transceiver Unit - Remote (ATU-R)," located at the Network Interface Device (NID) at the end-user premises and an "ADSL Transceiver Unit - Central Office (ATU-C)," located in the Telephone Company's network. The Telephone Company may utilize any available spectrum on the same exchange line facility not necessary to provide the customer's BellSouth ADSL service. Actual data rate achieved may be affected by loop length and other factors. The data rate provided by BellSouth may exceed the minimum data rates in (2) through (7) in order that the achieved minimum data rate will equal or exceed the minimum data rate specified. The movement of data in a direction away from the end-user premises, toward its normal Serving Wire Center (SWC), is in the upstream direction. The movement of data in a direction toward the end-user premises from its normal SWC is in the downstream direction.

Month-to-month terms are available for the BellSouth ADSL service VCs specified in (C)(1), (2), and (8) preceding. Month-to-Month terms and variable commitment periods of 13 to 24 months, and greater than 24 months, are available for the BellSouth ADSL service VCs specified in (C)(3) through (7) preceding.

(C)

The BellSouth ADSL service specified in 7.2.17(C)(8) is only available as End-User Aggregation. This service cannot be provisioned as BellSouth XAATMA or MSATMS. The number of Destinations and Sessions Per Line for 7.2.17(C)(8) are limited to 7.5.21(E)(2)(a) and 7.5.21(E)(2)(c).

(D) Multipoint service is not available.

(E) The regulations, rates and charges specified in this tariff for BellSouth ADSL service are in addition to applicable regulations, rates and charges specified in this and/or other Tariffs of the Telephone Company, but do not include any regulations, rates or charges which may be applied or charged to the end-user by the customer.

ACCESS SERVICE

7 – Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.2 Service Descriptions (Cont'd)

7.2.17 BellSouth ADSL Service (Cont'd)

(K) BellSouth ADSL Service, End-User Aggregation

(1) End-User Aggregation

End-User Aggregation enables delivery of a greater density of data sessions to a customer via fewer Private Virtual Circuits (PVC), resulting in a more favorable Sessions-To-PVC ratio as compared to BellSouth ADSL service without End-User Aggregation. A comparison of PVC session capacity for BellSouth ADSL service transport facilities is available in Technical Reference TR-73612.

End-User Aggregation is available for session-management of BellSouth ADSL service VCs specified in 7.2.17(C)(1) and (8). Transport facilities for BellSouth ADSL service End-User Aggregation must be dedicated to the transport of BellSouth ADSL service VCs and cannot be utilized for transport of non-End-User Aggregation VCs. (C)

BellSouth ADSL service, End-User Aggregation will be available to NSPs and their end-user customers in the Telephone Company Central Offices specified in the National Exchange Carriers Association (N.E.C.A.) F.C.C. Tariff No. 4.

7.4 Rate Regulations (Cont'd)

7.4.29 BellSouth ADSL Service (Cont'd)

- (B) A monthly recurring rate will be billed to the customer for each BellSouth ADSL service VC established to an end-user premises. The monthly rate for data rate options specified in 7.2.17(C)(1), (2), and (8) will be as specified in 7.5.21(A)(1) and (2). The monthly rate for data rate options specified in 7.2.17(C)(3) through (7) will be determined by the commitment period designated by the customer beginning with establishment of the customer account. (C)

A monthly recurring rate will be billed to the customer for each BellSouth ADSL service VC in a MVC arrangement. The monthly rate for BellSouth ADSL service VCs in a MVC arrangement will be as specified in 7.5.21.(F) and are in addition to rates specified in 7.5.21(B) and (C).

In addition to month-to-month (MTM) rates, customer-selected commitment periods of from 13 to 24 months, and 25 months or greater, are available for data rate options specified in 7.2.17(C)(3) through (7). When the customer requests these data rate options, the customer must designate to the Telephone Company the commitment and optional commitment period desired, e.g. a commitment of 20 months and a 13 to 24 month commitment period.

Rates stabilized under customer-selected commitment periods of from 13 to 24 months, and 25 months or greater, are exempt from Telephone Company-initiated increases. However, decreases will flow through to the customer. In the event that a VC is disconnected at customer request prior to completion of a customer-selected commitment period in excess of 12 months, the customer will be required to pay a termination charge as specified in (G) following. The customer-designated commitment and commitment period may not be reduced, however, renewals of the existing VC and data rate, at the same end-user premises are allowed at rates and terms and conditions appropriate for new service. The VC nonrecurring charges are not applicable for the renewed services.

Subsequent to the establishment of a customer-selected commitment period longer than 12 months, and prior to completion of that period, the existing commitment and commitment period may be replaced by a currently offered commitment and commitment period having a length equal to or longer than the time remaining in the existing arrangement. The appropriate rates will be as if for new service. Nonrecurring charges will not be re-applied for these renewals, and no credit will be provided for payments made during the formerly selected period. Changes to a commitment or commitment period with a length shorter than the existing arrangement will result in application of termination liability charges as specified in G. following. Recognition of previous service will not be a factor in determination of rates appropriate for a renewed arrangement.

7.4.29 BellSouth ADSL Service (Cont'd)

- (C) For customer-selected VC data rates specified in 7.2.17(C)(1), (2), and (8), customers will be allowed an initial period of 180 days beginning with establishment of the first billing account, to attain a combined quantity of VCs at data rates specified in 7.2.17(C)(1), (2), and (8) that is equal to or greater than the minimum number of VCs as specified in 7.4.29(A) on billing accounts across the region. During this initial 180-day period, customers will be billed an amount equal to the number of VCs on their billing accounts across the region multiplied by the appropriate VC monthly recurring rate. (C)

Upon completion of the 180-day period, a monthly review will be conducted of quantities of VCs specified in 7.2.17(C)(1), (2), and (8) that are associated with each customer's billing accounts across the region. Each month, a customer account not meeting the minimum quantity of VCs specified in 7.4.29(A) will be charged an amount equal to the difference between the minimum quantity of VCs as specified in 7.4.29(A) and the customer's combined quantity of VCs at data rates specified in 7.2.17(C)(1), (2), and (8), multiplied by the rate specified in 7.5.21(A)(1)(a). This charge is in addition to the normal monthly rates equal to the number of VCs actually attained on their billing accounts across the region, multiplied by the appropriate VC monthly recurring rate. 7 - Special Access (a.k.a. BellSouth SPA) Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.29 BellSouth ADSL Service (Cont'd)

- (F) A move charge applies for each BellSouth ADSL service VC moved to an end-user's new premises as designated by the customer. This charge is equal to the sum of all the nonrecurring charges applicable for a new installation of BellSouth ADSL service.

If BellSouth ADSL service is available at the end-user's new premises as designated by the customer, no Termination Liability Charge is applicable when the service orders to install a BellSouth ADSL service VC at the end-user's new premises and disconnect a BellSouth ADSL service VC at the end-user's old premises are for the same end-user, both orders are related together and there is no lapse in billing between installation and disconnection of a BellSouth ADSL service VC.

If BellSouth ADSL service is not available at the end-user's new premises as designated by the customer, the move request will be treated as a discontinuance of service at the old premises and the customer will remain responsible for satisfying minimum period obligations. If appropriate, a Termination Liability Charge as specified in (G) following will apply.

- (G) A Termination Liability Charge (TLC) is applicable for VCs at data rates specified in 7.2.17(C)(1) through (8), on a per end-user basis, that are disconnected prior to completion of the appropriate minimum service period as specified in 7.4.4 preceding. TLC is applicable for only the base VC in a MVC arrangement and is applicable only when all VCs in a MVC arrangement have been disconnected prior to completion of the appropriate minimum service period. (C)

The TLC for VC data rates specified in 7.2.17(C)(1), (2), and (8) is: (C)

<u>Tariff Reference</u>	<u>VC Data Rate</u>	<u>Charge</u>	
7.2.17(C)(1)	256 Kbps x 1.5 Mbps	\$ 50.00	
7.2.17(C)(2)	512 Kbps x 768 Kbps	\$200.00	
7.2.17(C)(8)	128 Kbps x 256 Kbps	\$ 50.00	(N)

For VCs at data rates specified in 7.2.17(C)(3) through (7) that are provided on a month-to-month basis and have a customer-designated commitment of 12 months or less, but are disconnected prior to completion of the minimum service period specified in 7.4.4 preceding, the TLC is equal to the number of minimum service period months, less the number of months completed service, multiplied by the appropriate VC monthly rate for the data rate option to which the customer subscribed. This TLC will not exceed the monthly rate for the option to which the customer subscribed, multiplied by the minimum service period months as specified in 7.4.4.

(G) Cont'd

- (4) A BellSouth ADSL service VC is disconnected prior to completion of the appropriate minimum service period as a result of a customer requested change to a higher or lower peak minimum or maximum downstream data rate:
- (a) TLC will not apply for changes from the current VC peak data rate to a VC having a higher downstream peak data rate. However, a new minimum service period as specified in (A) and (B) preceding and rates appropriate for the new data rate as specified in 7.5.21 following will apply. When requested, the appropriate charge for this change will be the sum of all nonrecurring charges appropriate for provisioning of new BellSouth ADSL service, for the new peak data rate.
- (b) Except for changes to the data rate option specified in 7.2.17(C)(1) and (8), TLC will not apply for changes from the current VC peak data rate to a VC having a lower downstream peak data rate. When requested, the appropriate charge for this change will be the sum of all nonrecurring charges appropriate for provisioning of new BellSouth ADSL service, for the new peak data rate. A new minimum period as specified in (A) and (B) preceding and rates appropriate for the new data rate specified in 7.5.21 following will apply. Changes to a lower downstream peak data rate prior to completion of the minimum service period as specified in (A) and (B) preceding for the current data rate will result in the application of TLC. (C)

(H) Service Rearrangement

- (a) The Service Rearrangement Charge specified in 7.5.21(D)(1)(a) is applicable on a per VC rearranged basis for customer requests to redirect a VC from one BellSouth XAATMS or MSATMS port to a different BellSouth XAATMS or MSATMS port, where both ports are on the same switch and both ports are utilized in terminating transport facilities for BellSouth ADSL service without End-User Aggregation. Customer requests to redirect a BellSouth ADSL service VC between BellSouth ADSL service, End-User Aggregation and non-End-User Aggregation transport facilities will constitute a disconnect of existing service and an installation of new service as set forth in 7.4.29(I)(3) and (4) following.
- (b) The Service Rearrangement Charge specified in 7.5.21(D)(1)(b) is applicable per VC rearranged basis for customer requests to change the number of Destinations and/or Sessions from the number of Destinations and/or Sessions previously specified by the customer.
