

**DESCRIPTION & JUSTIFICATION**  
**Transmittal No. 786**

With this filing CBT proposes to make tariff revisions to comply with the Commission's Report and Order on Remand and Further Notice of Proposed Rulemaking, FCC 03-36, paragraph 581, adopted February 20, 2003 (Triennial Review Order).

Paragraph 581 of the Triennial Review Order requires incumbent Local Exchange Carriers to modify their interstate access service tariffs to expressly permit connections with unbundled Network Elements (UNEs) and UNE combinations. Accordingly, CBT proposes to modify Section 2 - General Regulations of its Tariff F.C.C. No. 35 to include revisions permitting the commingling of UNEs or UNE combinations with wholesale access services obtained from CBT under Tariff F.C.C. No. 35.
