

BELLSOUTH TELECOMMUNICATIONS, INC.
DESCRIPTION AND JUSTIFICATION
BELLSOUTH FAST PACKET ACCESS SERVICES
TRANSMITTAL NO. 767

With this filing, BellSouth Telecommunications, Inc. (hereinafter "BellSouth") is revising the Tariff F.C.C. No. 1 to introduce an enhancement for BellSouth Managed Shared Frame Relay Service (MSFRS), Managed Shared ATM Service (MSATMS), Exchange Access Frame Relay Service (XAFRS) and Exchange Access ATM Service (XAATMS).

Transmittal No. 767 is scheduled to become effective on December 16, 2003.

With this filing, BellSouth is adding an enhanced capability to BellSouth Managed Shared Packet Services and BellSouth Exchange Access Services. This capability, Special Provisioning, will be offered to customers that subscribe to Managed Shared Frame Relay Service (MSFRS), Managed Shared ATM Service (MSATMS), Exchange Access Frame Relay Service (XAFRS) and Exchange Access ATM Service (XAATMS). The Special Provisioning feature, where available, minimizes the risk that a single point of failure will result in a service interruption for both circuits in a special provisioning relationship.

Revenue from this service is included in the Trunking Basket.
