INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE

2. Regulations

(N)

2.1 Undertaking of the Telephone Company2.1.1 Scope

- A. Interstate IntraLATA Message Telecommunications Service (IIMTS) is the furnishing of those service components required for telecommunication between stations in different local services areas within the same LATA in accordance with the regulations and system of charges specified in this tariff. The message charges specified in this tariff are in payment of Interstate IntraLATA Message Telecommunications Service furnished between the calling and called stations.
- B. The Telephone Company does not undertake to transmit messages but furnishes the use of its service to its customers for telecommunications.
- C. The design, maintenance and operation of Interstate IntraLATA Message Telecommunications Service envisions that communications will originate or terminate at a station of the associated exchange telephone service used for IIMTS.

2.1.2 Availability of Service

Service is furnished subject to the availability of the service components required. The Telephone Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.

2.1.3 Limitations Due to Emergency Conditions

The Telephone Company reserves the right to limit the duration of connection when necessary because of a shortage of service components caused by emergency conditions.

2.1.4 Liability

- A. The Telephone Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a customer or by any others, for damages associated with any aspect of the provision of service and subject to the provisions of C through E, following, the Telephone Company's liability, if any, shall not exceed an amount equal to the initial period charge applicable for such a message to the called station. This liability shall be in addition to any billing adjustments that may otherwise be appropriate.
- B. The customer shall indemnify and save the Telephone Company harmless against claims for libel, slander, or infringement of copyright from the material transmitted over its service; against claims for infringement of patents arising from combining with, or using in connection with, service of the Telephone Company, and against all other claims arising out of any act or omission of the customer in connection with service provided by the Telephone Company.

2. Regulations (Cont'd)

(N)

2.1 Undertaking of the Telephone Company (Cont'd)2.1.4 Liability (Cont'd)

- C. No customer participating in this service shall be liable for any act or omission of any other customer also participating in the service.
- D. The Telephone Company shall not be liable for damage arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or other injury, including but not limited to injuries to persons or property from voltages or currents transmitted over the service of the Telephone Company (except to the extent a contributing cause is the malfunctioning of a Telephone Company-provided connecting arrangement).
- E. The Telephone Company's failure to provide or maintain services under this tariff shall be excused by labor difficulties, governmental orders, civil commotions, criminal actions taken against the Telephone Company, acts of God and other circumstances beyond the Telephone Company's reasonable control.

2.2 Use2.2.1 Use of Service

The service is provided for use by the Customer and may be used by others, when so authorized by the Customer, providing that all usage shall be subject to the provisions of this tariff.

Interstate IntraLATA Message Telecommunications Service may be used for non-voice transmission on a two-point basis between points within the same LATA.

Telephone Company provided local business exchange service may be used for the purpose of providing access to resold or shared Interstate IntraLATA Message Telecommunications Service notwithstanding any tariff regulations respecting resale and sharing contained in Telephone Exchange Service Tariffs of the Telephone Company.

2.2.2 Abuse and Fraudulent Use

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- A. The use of the services of the Telephone Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for service;

2.2 Use (Cont'd)2.2.2 Abuse and Fraudulent Use (cont'd)

- B. The obtaining, or attempting to obtain or assisting to obtain or to attempt to obtain, IntraLATA service, by rearranging, tampering with, or making connection with any service components of the Telephone Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service;
- C. The use of service of the Telephone Company for a call or calls, anonymous or otherwise, if in a manner reasonably expected to frighten, abuse, torment, or harass another;
- D. The use of profane or obscene language;
- E. The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

2.2.3 Unlawful Purpose

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

2.3 Obligations of the Customer

- 2.3.1 The calling party shall establish his identity in the course of any communication as often as may be necessary.
- 2.3.2 The calling party shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called station or stations.
- 2.3.3 Each Aggregator, as described in Section 2.5 following, for which the Telephone Company is the Presubscribed Provider of Operator Services must comply with Section 226 of the Communications Act of 1934.

2.4 Payment Arrangements2.4.1 Payment for Service

The Customer is responsible for payment of all charges for services furnished to the Customer, including charges for services originated or charges accepted at the Customer's station and for charges billed the Customer for calling card messages.

2.4 Payment Arrangements (Cont'd)2.4.2 Billing and Collections of Charges

The charges for calls and chargeable reports are due when billed and are billed and collected by this Company or the connecting company from whose station the calls were sent paid or at whose station the calls were received collect.

2.4.3 Termination of Service for Cause

Upon nonpayment of any sum due the Telephone Company, or upon a violation of any of the conditions governing the furnishing of service, the Telephone Company may by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service until payment in full has been received.

2.4.4 Advance Payments

Applicants for Interstate IntraLATA Message Telecommunications Service, whose financial responsibility is not a matter of general knowledge or who are not connected in a substantial way with a firm, corporation or other concern of established credit, may be required to make an advance payment of at least one month's estimated charges.

2.4.5 Deposits

The Telephone Company may, in order to safeguard its interests, require the customer to deposit a sum up to an amount equal to twice the estimated average monthly charge for Interstate IntraLATA Message Telecommunications Service offered herein; such deposit to be held by the Telephone Company as a guarantee of the payment of charges provided for herein. The fact that a deposit has been made in no way relieves the customer from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the service is terminated, the amount of the deposit shall be credited to the customer's account and any credit balance that may remain shall be refunded. At the option of the Telephone Company such a deposit may be refunded or credited to the customer at any time prior to termination of the service.

For the period the deposit is held by the Telephone Company, the customer will receive simple interest that has been established by the appropriate legal authority within the state.

2.4 Payment Arrangements (Cont'd)2.4.6 Monetary Units

In connection with service from ships, vessels or aircraft, to points within the LATA, when the charges to Customers are made by a company or administration not subject to the Communications Act of 1934, as amended, the following conditions apply:

- A. In the case of service from vessels or aircraft of United States registry, the charges shown in this tariff for such service are quoted by the vessel in United States dollars.
- B. In the case of service from vessels or aircraft registered in countries other than the United States, the charges are quoted in United States dollars or are converted into the currency of the country of registry at rates of exchange with respect to United States dollars, which may vary from time to time because of changes in monetary and other conditions.

In connection with service from ships, vessels or aircraft, to points within the LATA, when the charges to Customers are made by Telephone Companies in the United States, rates as specified herein, plus additional charges of foreign administrations if any, in United States dollars, apply to all calls.

2.5 DefinitionsAggregator

The term "Aggregator" denotes any person that in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using a provider of operator services.

Bill to Third Party

Denotes a billing arrangement by which a call may be charged to an authorized station as determined by the Telephone Company other than the station originating the call or the station where the call is terminated.

Call Forwarding

Denotes that the feature whereby a call placed to a Customer's telephone number (the call forwarding location) is automatically forwarded by the Telephone Company central office equipment to a station designated by said Customer in another exchange.

2. Regulations (Cont'd)

(N)

2.5 Definitions (Cont'd)End User

Denotes any customer of an intrastate or interstate carrier, or foreign telecommunications service that is not a carrier, except that a carrier other than a Local Exchange Carrier (LEC) shall be deemed to be an "end user" to the extent that such carrier uses a telecommunication service for administrative purposes, and a person or entity that offers telecommunications services exclusively as a reseller shall be deemed to be an "end user" if all resale transmissions offered by such reseller originate on the premises of such reseller.

Exchange

Denotes a unit, generally smaller than a local access and transport area (LATA), established by the Telephone Company for the administration of communications service in a specified area, which usually embraces a city, town or village and its environs. It consists of one or more central offices together with the associated facilities used in furnishing communications service within that area. One or more designated exchanges comprise a given LATA.

Initial and Additional Period

Denotes the interval of time allowed at the rate quoted for a connection between given points.

Interexchange Carrier (IC)

Denotes any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged for hire in intrastate, interstate or foreign communication by wire or radio, between two or more exchanges.

Interstate IntraLATA Message Telecommunication Service (IIMTS)

Applies to service between points in different states that are in the same Local Access and Transport Area (LATA).

IntraLATA Service

Applies to service between points that are in the same Local Access and Transport Area (LATA).

Local Access and Transport Area (LATA)

Denotes a geographic area established for the provision and administration of communications service. It encompasses one or more designated exchanges, which are grouped to serve common social, economic and other purposes.

Main Billed Account

The Local exchange telephone number associated with a Customer name and address and to which IIMTS charges are billed.

2.6 Rate Determination

The rate for an IIMTS call is determined by factors such as;

- distance between stations
- time of day and day of week
- duration of call
- class of service

The specific factors which apply to a given IIMTS call and their application are listed in the rate section applicable to that type of call. The regulations pertaining to those factors are as follows:

2.7 Distance Between Stations

The distance between two stations within the LATA is measured on the basis of airline mileage between rate centers. A list for determining which rate centers are in connection with the provision of IIMTS is found in 3.1.2 following.

2.8 Time of Day and Day of Week

The rate charged is determined by the day and time (standard or daylight savings) at the rate center of the calling station.

2.9 Class of Service

For the purpose of rate application, one of the following classes of service may apply to a given call:

2.9.1 Station-to-Station

There are three types of Station-to-Station calls:

- (1) The Dial Station class of service applies when the person originating the call dials the telephone number desired without the assistance of an operator and the call is billed to the calling station. It does not include calls from public or semi-public coin telephone. Dial Station rates also apply when:
 - (a) An operator records the calling station number where no automatic recording equipment is available.
 - (b) A call is forwarded by Call-Forwarding equipment.
 - (c) An operator reaches the called station because of trouble on the network.
 - (d) An operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap.

2. Regulations (Cont'd)

(N)

2.9 Class of Service (Cont'd)2.9.1 Station-to-Station (Cont'd)

(1) (Cont'd)

(e) An operator reestablishes a Dial Station call that has been reached.

(f) Calls are originated from vessels which have an assigned Telephone Company Marine Identification Number (MIN).

(g) An operator places a call because service components are not available for dial completion.

(h) A Company Communications Assistant completes a call between hearing or speech impaired customers who use a Telecommunications Device for the Deaf (TDD) or its equivalent and hearing persons who do not use a TDD (the completed call is rated and billed as a call from the calling station to the called station).

(2) The Operator Station class of service applies when calls are completed with the assistance of a Telephone Company operator except as specified for the Dial Station or Customer Dialed Calling Card Station classes of service. Operator Station service includes messages originated at a public or semi-public coin telephone. Also included in the operator station class are calls billed to a different telephone number (e.g., collect, bill to a third number) or a calling card.

(3) The Customer Dialed Calling Card Station class of service applies when the person originating the call:

(a) dials the digit zero, or a special access number (e.g., an 800/888 number) plus the telephone number, plus a calling card number (where equipment is available) to complete the call without operator assistance, or

(b) dials the digit zero, plus the telephone number (0 + number) or a special access number (e.g., an 800/888 number), plus the telephone number to complete the call. In such cases operator assistance is limited to recording the calling card number for billing purposes, or

(c) dials the digit zero or a special access number (e.g., an 800/888 number) to reach the Telephone Company operator and places a calling card Station-to-Station call when equipment capability precludes either of the foregoing.

2.9.2 Person-to-Person

The Person-to-Person class of service applies when the person originating the call specifies the particular party to be reached by the operator. That party may be:

- (1) A person.
- (2) A mobile station through an attendant.
- (3) A station, department, or office through a PBX attendant.

After the called station has been reached, if the calling party requests or agrees to speak to a party other than the party initially specified, the call is still classified as Person-to-Person. The calling party is responsible for identifying the party at the called station.

Person-to-Person also applies when the call originator requests an operator to make arrangements with a called party to establish a call at a specified time.

2.10 Timing of Messages

Chargeable time includes the initial period plus the additional period if any, and is determined as follows:

- 2.10.1 When a message is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the message occurring within that rate period. In the event, that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.
- 2.10.2 On all calls, other than Person-to-Person, chargeable time begins when connection is established between the calling station and the called station.

2.10 Timing of Messages (Cont'd)

- 2.10.3 On Person-to-Person messages, chargeable time begins when connection is established between the calling person and a specified person, station, department, office or an agreed-upon alternate.
- 2.10.4 Chargeable time ends when the calling station "hangs up". If the called station "hangs up" but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the Telephone Company operator.
- 2.10.5 Chargeable time does not include time lost because of service faults or defects that are reported to the Telephone Company.
- 2.10.6 When exchange telephone service used for Interstate IntraLATA Message Telecommunications Service is directly connected to a customer provided communications system at a Customer's premises, chargeable time for all classes of service begins when a call from the telecommunications network terminates in or passes through the first customer equipment on the customer provided Communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

3. Service Classifications and Rates Two Point

(N)

3.1 Interstate IntraLATA Service - Schedule 13.1.1 Application

Service between two point in the LATA is furnished as set forth in 3.1.2 following.

3.1.2 Mileage Measurement(1) Mileage Determination

Rates for service between points in the LATA are based on the airline mileage between rate centers which are listed below:

Airline mileage between rate centers are determined as provided in the National Exchange Carrier Association (NECA F.C.C. No. 4).

In general, each point in the LATA is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest and in a few of the largest cities there are several rate centers further identified as city zones.

(2) Where a Point is Divided into City Zones

The rate airline mileage is measured between the rate center of the other point, except that when such mileage exceeds 40 miles, the rate airline mileage is measured between the rate center of the master zone and the rate center of the other point with a minimum of 41 miles being applicable.

(3) Where Both Points are Divided into City Zones

The rate airline mileage is measured between the rate centers of the city zones, except that when such mileage exceeds 40 miles, the rate mileage distance is measured between the rate centers of the master zone with a minimum of 41 miles being applicable.

(N)

3.1 Interstate IntraLATA Service - Schedule 1 (Cont'd)3.1.3 Rate and Charge Application(1) Classes of Service

A. Service is offered on a Dial Station, Customer Dialed Calling Card Station, Operator Station or Person-to-Person basis.

B. In order to control fraud, the Company may refuse to accept Calling Cards which it determines to be invalid and/or may limit the use of Calling Cards to or from certain countries or areas including all or part of the United States, Alaska, Hawaii, Puerto Rico or the U.S. Virgin Islands.

(2) Initial Minute, Additional Minutes, Service Charges and Discounts

Rates are stated in terms of initial minutes, additional minutes and service charges in the Rate Table in (5) following:

A. Initial Minute

Initial minute rates are for connections of one minute or any fraction thereof.

B. Additional Minutes

Additional Minutes-rates for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

C. Dial Station

Only Initial minute and additional minute rates apply.

D. Customer Dialed Calling Card Station, Operator Station and Person-to-Person

Initial minute and additional minute rates apply in addition to a Service Charge.

E. Service Charge

A Service Charge applies to each Customer Dialed Calling Card Station, Operator Station or Person-to-Person call. This charge is added to the initial minutes and additional minutes charges.

(1) Discounts do not apply to the Service Charge.

3.1 Interstate IntraLATA Service - Schedule 1 (Cont'd)3.1.3 Rate and Charge Application (Cont'd)(2) Initial Minute, Additional Minutes, Service Charges and Discounts (Cont'd)F. Discounts

Discounts for the Evening, Night & Weekend reduced rate periods stated in the Rate Tables are expressed as a percent reduction of the charge calculated at the rates for initial minutes and additional minutes. They are applied to that portion of the messages occurring within the rate discount periods in the tables.

(a) For all classes of service the discount is applied only to the sum of the initial minutes and additional minutes charges. The discount is computed separately for charges in each rate period and the results are then totaled.

(b) When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.

(3) Rates Applicable for Hearing or Speech Impaired PersonsA. Application

Persons who have been certified in writing by a licensed physician, audiologist, speech pathologist, or appropriate State or Federal agency as having a hearing or speech impairment which precludes oral communications and who have and use a telecommunications device for visual communications, will receive a day and evening adjustment on Directly Dialed Station-to-Station calls which do not require the intervention of an operator. The adjustment is applied to rate table in (5) following:

(a) Calls placed during the day rate period will be charged at the evening rate.

(b) Calls placed during the evening rate period will be charged at the night rate.

3.1 Interstate IntraLATA Service - Schedule 1 (Cont'd)3.1.3 Rate and Charge Application (Cont'd)(7) Call Forwarding (Cont'd)

The respective charge for each such portion (i), (ii), shall be either the rate specified in this tariff or the rate specified in the Exchange Service Tariff or the intrastate message telecommunications service tariff of the Telephone Company, which is applicable for the type of call involved in each portion of the forwarded call.

On a Person-to-Person, Operator Station or Customer Dialed Calling Card Station call other than collect, the originating subscriber is charged the respective Person-to-Person, Operator Station or Customer Dialed Calling Card Station rate for the portion covered in (i) preceding. The charge for the portion of the call described in (ii) preceding is the Dial Station rate and charged to the call forwarding Customer.

On a collect call placed to a call forwarding directory number, the collect charges apply to the portion of the call between the rate center of the originating number and the rate center of the call forwarding location, but the portion between the rate center of the call forwarding location and the terminating rate center of the Customer will be billed at the Dial Station rate.

On a Person-to-Person or collect call that is not accepted the terminating subscriber will be charged the Dial Station rate in effect for the portion of the call described in (ii) preceding.
