ACCESS SERVICE

21. Contract Tariffs (Cont'd)

21.10 Contract Tariff Option 9

(N)

(A) Scope

Contract Tariff Option 9 is an offering exclusively for customers currently subscribing to Frame Relay Service within the interstate corridor between New Jersey and New York, as defined in Section 14.3.2 preceding, who replace the Frame Relay Service with Enhanced IntelliLight Dedicated SONET Ring (IDSR) service at the same locations and in the quantities specified herein.

<u>Rate Element</u>	<u>Initial Quantity</u>
Enhanced IDSR OC12 nodes	5
IDSR OC12 mileage	9
DS3 Ports	24

The customer's existing Frame Relay Service network must consist of 200 to 275 Frame Relay ports with eighty percent (80%) utilizing 56 kbps ports.

In order to be eligible for the Contract Tariff Option 9, the customer must also subscribe to a specified quantity of interstate DS1 Channel Terminations connecting to the E-IDSR service. The end points of the DS1s must be located within the New Jersey and New York Corridor.

<u>Rate Element</u>	<u>Initial Quantity</u>
DS1 Channel Terminations	16

The regulations, terms and conditions provided in this Section 21.10 apply to customers who subscribe to Contract Tariff Option 9 during the subscription period specified in (B) following. The wire centers of the New Jersey and New York corridor are within the North Jersey LATA and the New York Metropolitan LATA, collectively within the New York NY Metropolitan Statistical Area (MSA 1). The specific wire centers of the MSA that are included in Option 9 are specified in (C) following.

Billing of the initial quantity of E-IDSR services (OC12 nodes and mileage) ordered during the subscription period will begin ninety (90) days after they are installed and operational. Any rate elements added to the installed E-IDSR service after the subscription period ends and which are installed and operational from day ninety and after will be billed from the date of their respective installation to the end of their respective five year service period. Billing of existing Frame Relay Services will continue until they are disconnected. Frame Relay Services will be deemed disconnected effective the date provided by the customer. Customer must notify the Telephone Company a minimum of five (5) business days prior to the effective date of disconnection.

The minimum period for services ordered under this Contract Tariff is the same minimum period that applies to services specified in other sections of this tariff. The term period for services ordered under this Contract Tariff is five years.

(N)

(Issued under Transmittal No. 410)

Issued: January 26, 2004

Effective: February 10, 2004

Vice President, Federal Regulatory  
1300 I Street, NW, Washington, D.C. 20005

## ACCESS SERVICE

21. Contract Tariffs (Cont'd)21.10 Contract Tariff Option 9 (Cont'd)

(N)

(B) General

The subscription period during which the customer qualifies for Contract Tariff Option 9 begins on February 10, 2004 and ends on March 11, 2004.

After the subscription period ends, the customer may add to the installed E-IDSR service up to the maximum quantities of the rate elements specified herein at the same locations. Each new rate element will have its own term commitment period of five years.

<u>Rate Element</u>	<u>Quantity Range</u>
Enhanced IDSR OC12 nodes	5 - 10
IDSR OC12 mileage	1 - 18
DS3 Ports	20 - 24
DS1 Channel Terminations	15 - 65

During the subscription period, the customer must provide the Telephone Company with a written request, signed by an authorized representative of the customer, for Contract Tariff Option 9 E-IDSR service. The service date will be negotiated between the Telephone Company and the customer. The customer must accept the service on the original service date. If the customer does not accept service on the original service date, any change to a later date will make the service ineligible for Contract Tariff Option 9, unless the change is initiated by the Telephone Company.

Upon expiration of the five-year term, the rates and charges applicable under Contract Tariff Option 9 will expire, and services will continue on a month-to-month basis at the rates and charges applicable in other sections of this tariff unless the customer requests in writing that the Telephone Company discontinue the service.

## ACCESS SERVICE

21. Contract Tariffs (Cont'd)21.10 Contract Tariff Option 9 (Cont'd)

(N)

(D) Application of Rates and Charges

Monthly recurring charges based on a five-year term plan apply for the enhanced nodes, ports and mileage between the nodes.

For each DS1 Service under this Contract Tariff, a Corridor Channel Termination monthly recurring charge shall apply for the New Jersey portion of the service and a Corridor Channel Termination monthly recurring charge shall apply for the New York portion of the service.

The Corridor Channel Termination provides the communications path from the customer's designated premises to the interconnection point between the facilities of the two Exchange Telephone Companies. Each Exchange Telephone Company shall bill its channel termination in accordance with the regulations set forth in Section 2.4.7 preceding of this tariff.

Except for service provided under another contract tariff in this Section 21 for which minimum billed revenue is measured on a contract level basis, service provided under Contract Tariff Option 9 is not eligible for any other circuit-specific service, term or volume discount offered under other sections of this tariff.

Rates and charges are set forth in Section (F) following.

(E) Terms and Conditions

All E-IDSR terms and conditions as stated in Section 7 preceding apply, including termination liability and minimum periods.
