32.11.1 Scope

Contract Tariff Option 10 is an offering exclusively for customers currently subscribing to Frame Relay Service within the interstate corridor between New York and New Jersey, as defined in Section 2.8 preceding, who replace the Frame Relay Service with Enhanced IntelliLight Dedicated SONET Ring (IDSR) service at the same locations and in the quantities specified herein.

| <u>Rate Element</u>      | <u>Initial Quantity</u> |
|--------------------------|-------------------------|
| Enhanced IDSR OC12 nodes | 5                       |
| IDSR OC12 mileage        | 9                       |
| DS3 Ports                | 24                      |

The customer's existing Frame Relay Service network must consist of 200 to 275 Frame Relay ports with eighty percent (80%) utilizing 56 kbps ports.

In order to be eligible for Contract Tariff Option 10, the customer must also subscribe to a specified quantity of interstate DS1 Channel Terminations connecting to the E-IDSR service. The end points of the DS1s must be located within the New Jersey and New York Corridor.

| <u>Rate Element</u>      | <u>Initial Quantity</u> |
|--------------------------|-------------------------|
| DS1 Channel Terminations | 16                      |

The regulations, terms and conditions provided in this Section 32.11 apply to customers who subscribe to Contract Tariff Option 10 during the subscription period specified in Section 32.11.2 following. The wire centers of the New York and New Jersey corridor are within the New York Metropolitan LATA and the North Jersey LATA, collectively within the New York NY Metropolitan Statistical Area (MSA 1). The specific wire centers of the MSA that are included in Option 10 are specified in Section 32.11.3 following.

Billing of the initial quantity of E-IDSR service (OC12 nodes and mileage) ordered during the subscription period will begin ninety (90) days after they are installed and operational. Any rate elements added to the installed E-IDSR service after the subscription period ends and which are installed and operational from day ninety and after will be billed from the date of their respective installation to the end of their respective five year service period. Billing of existing Frame Relay Services will continue until they are disconnected. Frame Relay Services will be deemed disconnected effective the date provided by the customer. Customer must notify the Telephone Company a minimum of five (5) business days prior to the effective date of disconnection.

The minimum period for services ordered under this Contract Tariff is the same minimum period that applies to services specified in other sections of this tariff. The term period for services ordered under this Contract Tariff is five years.

32.11.2 General

The subscription period during which the customer qualifies for Contract Tariff Option 10 begins on February 10, 2004 and ends on March 11, 2004.

After the subscription period ends, the customer may add to the installed E-IDSR service up to the maximum quantities of the rate elements specified herein at the same locations. Each new rate element will have its own term commitment period of five years.

| <u>Rate Element</u>      | <u>Quantity Range</u> |
|--------------------------|-----------------------|
| Enhanced IDSR OC12 nodes | 5 - 10                |
| IDSR OC12 mileage        | 1 - 18                |
| DS3 Ports                | 20 - 24               |
| DS1 Channel Terminations | 15 - 65               |

During the subscription period, the customer must provide the Telephone Company with a written request, signed by an authorized representative of the customer, for Contract Tariff Option 10 E-IDSR service. The service date will be negotiated between the Telephone Company and the customer. The customer must accept the service on the original service date. If the customer does not accept service on the original service date, any change to a later date will make the service ineligible for Contract Tariff Option 10, unless the change is initiated by the Telephone Company.

Upon expiration of the five-year term, the rates and charges applicable under Contract Tariff Option 10 will expire, and services will continue on a month-to-month basis at the rates and charges applicable in other sections of this tariff unless the customer requests in writing that the Telephone Company discontinue the service.

32.11.4 Application of Rates and Charges

Monthly recurring charges based on a five-year term plan apply for the enhanced nodes, ports and mileage between the nodes.

For each DS1 Service under this Contract Tariff, a Corridor Channel Termination monthly recurring charge shall apply for the New Jersey portion of the service and a Corridor Channel Termination monthly recurring charge shall apply for the New York portion of the service.

The Corridor Channel Termination provides the communications path from the customer's designated premises to the interconnection point between the facilities of the two Exchange Telephone Companies. Each Exchange Telephone Company shall bill its channel termination in accordance with the regulations set forth in Section 2.4.7 preceding of this tariff.

Except for service provided under another contract tariff in this Section 32 for which minimum billed revenue is measured on a contract level basis, service provided under Contract Tariff Option 10 is not eligible for any other circuit-specific service, term or volume discount offered under other sections of this tariff.

Rates and charges are set forth in Section 32.11.6 following.

32.11.5 Terms and Conditions

All E-IDSR terms and conditions as stated in Section 7 preceding apply, including termination liability and minimum periods.
