ACCESS SERVICE

28 – Digital Subscriber Line Service (Cont'd)

28.2 BellSouth ADSL Service

28.2.1 General (Cont'd)

(G) BellSouth ADSL Service, End-User Aggregation

(1) End-User Aggregation

End-User Aggregation enables delivery of a greater density of data sessions to a customer via fewer Private Virtual Circuits (PVC), resulting in a more favorable Sessions-To-PVC ratio as compared to BellSouth ADSL service without End-User Aggregation. A comparison of PVC session capacity for BellSouth ADSL service transport facilities is available in Technical Reference TR-73612.

End-User Aggregation is available for session-management of BellSouth ADSL service VCs specified in 28.2.1(C)(1) through (8). Transport facilities for BellSouth ADSL service End-User Aggregation must be dedicated to the transport of BellSouth ADSL service VCs and cannot be utilized for transport of non-End-User Aggregation VCs. (C)

BellSouth ADSL service, End-User Aggregation will be available to NSPs and their end-user customers in the Telephone Company Central Offices specified in the National Exchange Carriers Association (N.E.C.A.) F.C.C. Tariff No. 4.

(2) Destinations

Destinations refer to the ability of end-user access to single, or multiple, NSP Domain Groups. The customer is responsible for authenticating any end-user access(es) into its network. Refer to TR73612 for the use, specifications and limits associated with each of the items described below.

- For the purposes of BellSouth ADSL service, End-User Aggregation, a Domain Group (DG) identifies a single or group of Domain Name(s) or Realms that are routed to the same point, or points, of egress from the BellSouth ADSL service, End-User Aggregation network, within a LATA. The name associated with this group is a Domain Group Name (DGN). Egress points are associated with EUA, Arrangement Capacities.
- For the purposes of BellSouth ADSL service, End-User Aggregation, a Domain Name (DN) is a unique name associated with one customer. Domain Names always have two or more parts, separated by dots. A DN may appear in only one Domain Group List.
- For the purposes of BellSouth ADSL service, End-User Aggregation, a Realm is a unique name associated with one customer. Realm names are similar in function to DNs, but always have one part, without separation.

ACCESS SERVICE

28 – Digital Subscriber Line Service (Cont'd)

28.2 BellSouth ADSL Service (Cont'd)

28.2.8 Rate Regulations (Cont'd)

Bulk requests must be submitted verbally or via electronic mail contact with the customer's Telephone Company sales account team representative and must include a desired completion date. Bulk requests (e.g., all Connections and/or VCs transported via a particular DS1 or DS3) will have the same received date/time, but may have different due dates based on the Telephone Company's ability to process the requests. Each Connection and/or VC rearranged will count as one rearrangement.

- (e) The day upon which the customer has provided a rearrangement request to the Company, including complete and accurate information to allow for the processing of the request, by five o'clock P.M., Eastern Time, is the Application Date. Rearrangement requests received after five o'clock P.M. Eastern Time will be processed the next business day, which will be the Application Date. The Company will provide a status of the request via the same electronic interface utilized by the customer for establishment of the BellSouth ADSL service rearrangement request. The status will include the pending due date.
- (f) Customer requests for rearrangement of their Connections and/or VCs to an End-User Aggregation arrangement must include the number of Destinations and Sessions as specified in Section 28.2.10(E)(2) and 28.2.10(E)(3). The customer must also have both an existing BellSouth ADSL service arrangement requiring an XAATMS or MSATM termination and an existing BellSouth ADSL service, End-User Aggregation arrangement at the time of the Connection and/or VC rearrangement request. (C)

(3) Transfer of Responsibility

When a change in billing data (e.g., name, address, contact name) is requested in association with a change in the customer of record, Transfer of Responsibility charges will apply as specified in 28.1.9(D) preceding. Charges are applied on a per Connection basis.

ACCESS SERVICE
