**INTERSTATE INTRALATA MESSAGE TELECOMMUNICATIONS SERVICE****3. Interstate IntraLATA Service (Cont'd)****3.3 Rate and Charge Application****3.3.1 Mileage Determination**

Rates for service points in the LATA are based on the airline mileages between rate centers as determined by information provided in AT&T Communications Tariff FCC No. 10. Rate centers to which this tariff applies for the provision of IIMTS are listed in 7. following. Rates applicable for mileages obtained are as provided in 3.4 following.

- (A) Where One Station Involves a Zoned City - Calculate the airline mileage between the rate center of the specific city zone and the rate center of the distant station. If the mileage determined is 40 miles or less, this is the correct mileage for rate determination. If the mileage determined is 41 miles or greater, recalculate the mileage using the rate center of the distant station and the master rate center of the zoned city (in lieu of the rate center of the specific city zone). This mileage, with a minimum of 41 miles applicable, is the correct mileage for rate determination.
- (B) Where Both Stations Involved Zoned Cities - Calculate the airline mileage using the rate centers of the specific city zones involved in each city. If the calculated mileage is 40 miles or less, this is the correct mileage for rate determination. If the calculated mileage is 41 miles or greater, recalculate the mileage using the master rate centers of the cities (in lieu of the rate centers of the specific city zones involved). This mileage, with a minimum of 41 miles applicable, is the correct mileage for rate determination.

any additional minutes that the call continues during that rate period. If the call continues into a different rate period, the appropriate rates from that rate period apply to any additional minutes occurring in that rate period. If an additional minute is split between two rate periods, the rate period applicable at the start of the minute applies to that entire minute. For the following holidays, the evening rate period discount is used, unless a lower rate would normally apply.
