**24. CONTRACT TARIFFS**

**24.2 CONTRACT NO. 04-002**

(N)

DESCRIPTION: Contract for Synchronous Service Transport (SST)  
Bandwidth Capacity of 2.488 Gbps OC48

CONTRACT AVAILABILITY: Effective from April 10, 2004 through  
June 10, 2004

CONTRACT  
EFFECTIVE DATE: April 10, 2004

CONTRACT  
EXPIRATION DATE: Sixty Months from the date the service is made  
available to the customer

AVAILABLE MSAS: Phase I and Phase II, as defined in Section 23

This contract tariff is for Synchronous Service Transport (SST) Bandwidth Capacity of 2.488 Gbps OC48 purchased on a 60-month Pricing Plan. Each SST OC48 purchased under this contract will be discounted 22% from the total 60 month OC48 rates, based on all rate elements in effect at the time the customer's service is activated. However for billing purposes, the 22% discount will not be applied to all of the rate elements. Rather, each OC48 Node element will be discounted proportionally to achieve the 22% total discount on the OC48 system. For example: if the 22% total system discount equates to \$1,000 for a four Node system, each of the four nodes will receive a discount of \$250 off the monthly recurring charge in effect at the time service turns up. All other rate elements, including any initially or subsequently ordered, will be billed at the current monthly rate(s) as set forth in Section 17, preceding. Monthly rates for the entire 60-months will be frozen from Company-initiated rate changes, at the rate in effect on the service date.

The nonrecurring charge on ports will be waived for all ports ordered before the last day of the first full month following the initial activation of the associated OC48. All other nonrecurring charges will apply.

When the entire service or a portion of the service is disconnected prior to the expiration of the fixed period service rate plan then Termination Liability and Waiver Charges (TLA) as set forth in Section 7, preceding, will apply.
