

## **DESCRIPTION & JUSTIFICATION**

Cincinnati Bell Telephone (CBT) proposes with this filing to add two new rate elements in Section 7 – Special Access. The description for these new rate elements will appear in Section 7.2.9 – High Capacity Service as new Optional Features and Functions. The new rates will appear in Section 7.5.9 Rates and Charges – High Capacity Service.

The new rate elements will enable the customer to cross-connect from customer terminations in a central office to a Light Guide Cross Connect (LGX) or Digital Signal Cross Connect (DSX). The Customer termination must be physically adjacent to telephone company LGX or DSX panels in the central office.
